A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Mile 454.0 to 455.5 Muscatine, IA [COTP St. Louis-03-005] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5363. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Mile 383.0 to 384.0, Ft. Madison, IA [COTP St. Louis-03-006] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5364. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Ohio River Miles 460.0 to 480.0, Cincinnati, OH [COTP Louisville-03-001] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5365. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Mile 518.5 to 519.5, Clinton, IA [COTP St. Louis-03-008] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5366. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone: Uni-Pro Group Holiday, Port of Miami, FL [COTP Miami 02-135] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5367. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Port of Miami, Miami, FL [COTP Miami-03-103] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5368. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Mile 581.2 to 583.0, Dubuque, IA [COTP St. Louis-03-009] (RIN: 1625-AA0) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5369. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Atlantic Ocean, Fort Lauderdale, FL [COTP Miami-03-112] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5370. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone Regulations: Captain of the Port Mobile, AL Area of Responsibility [COTP Mobile, AL 01-012] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5371. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Missouri River, Mile 28.2 — 29.0, St. Charles, MO [COTP St. Louis-03-010] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5372. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Illinois River Mile 59.0 to 61.0, Valley City, IL [COTP S. Louis-03-021] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5373. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Missouri River, Miles 442.0 to 422.5, Atchison, KS [COTP St. Louis-03-011] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5374. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Mile 158.0 to 162.0, St. Louis, MO [COTP St. Louis-03-022] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5375. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone: Transport of High Value Asset from Quonset Point, RI to Groton, CT [CGD01-02-137] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5376. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Missouri River, Mile 98.0 — 99.0, Hermann, MO [COTP St. Louis-03-012] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5377. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Drawbridge Operation Regulations: Cape Cod Canal, MA [CGD01-03-068] received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5378. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Missouri River, Mile 143.3 to 144.3, Jefferson City, MO [COTP St. Louis-03-013] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5379. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Regulated Navigation Area; Chesapeake Bay Entrance and Hampton Roads, VA and Adjacent Waters [CGD05-01-066] (RIN: 2115-AE84) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5380. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Elk River, Chesapeake Bay, Maryland [CGD05-02-007] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5381. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Illinois River Mile 179.0 to 181.0, Chillicothe, IL [COTP St. Louis-03-014] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5382. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Thimble Shoals Channel, Chesapeake Bay, Hampton Roads, VA [CGD05-02-034] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5383. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Missouri River, Mile 373.0 — 374.0, Riverside, MO [COTP St. Loui-03-015] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5384. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Amtrack Railroad Bridge, Susquehanna River, Havre de Grace, Maryland [CGD05-03-034] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5385. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Chesapeake Bay, Hampton Roads, Elizabeth River, VA [CGD05-03-064] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5386. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Missouri River Mile 650.5 to 651.5, Blair, NE [COTP St. Louis-03-016] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5387. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone: Atlantic Ocean, Isle of Wight Bay, Ocean City, Maryland [CGD05-03-068] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5388. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Mile 480.0 to 482.0, Davenport, IA/Rock Island, IL [COTP St. Louis-03-018] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5389. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Atlantic Ocean, Chesapeake & Delaware Canal, Delaware Bay. Delaware River and its tributaries [CGD05-03-084] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5390. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Security Zone; San Juan, Puerto Rico [CGD 07-02-015] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5391. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Mile 483.0 to 488.2, Moline, IL [COTP St. Louis-03-019] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5392. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Savannah River, City Front Channel, Savannah, GA [CGD07-02-063] (RIN: 2115-AE46) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5393. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Upper Mississippi River Miles 165.0 to 168.0, St. Louis. MO [COTP St. Louis-03-020] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5394. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Savannah River, Savannah, GA [CGD07-02-108] (RIN: 2115-AE46) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5395. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Savannah River, Savannah, GA [CGD07-02-111] (RIN: 2115-AE46) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5396. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Security Zone; Savannah River, Savannah, GA [CGD07-02-121] (RIN: 2115-AE46) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5397. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Oswego Harbor, Oswego, NY [CGD09-01-105] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5398. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Navy Pier, Lake Michigan, Chicago Harbor, IL [CGD09-02-519] (RIN: 2115-AA97) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5399. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Temporary Emergency Safety Zone; St. Clair River, Michigan [CGD09-03-211] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

5400. A letter from the Chief, Regulations and Administrative Law, USCG, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Harborfest 2003, South Haven, MI [CGD09-03-225] (RIN: 1625-AA00) received November 5, 2003, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions were introduced and severally referred, as follows:

By Mr. WALDEN of Oregon (for himself, Mr. DeFazio, Ms. Hooley of Oregon, Mr. Wu, Mr. Blumenauer, and Ms. Dunn):

H.R. 3487. A bill to establish an alternative trigger for determining if an extended benefit period is in effect for a State for purposes of certain benefits under the Temporary Extended Unemployment Compensation Act of 2002; to the Committee on Ways and Means.

By Mr. HINOJOSA (for himself, Mr. Rodriguez, Mr. Ortiz, and Mr. Grijalva):

H.R. 3488. A bill to allow certain Mexican nationals to be admitted as nonimmigrant visitors for a period of 6 months; to the Committee on the Judiciary.

By Mr. ORTIZ (for himself, Mr. Hinojosa, and Mr. Rodriguez):

H. Res. 440. A resolution providing that the executive branch should remove certain entry restrictions for Mexican nationals, and for other purposes; to the Committee on the Judiciary.

PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII,

Mr. BURTON of Indiana introduced a bill (H.R. 3489) to authorize the appointment of Brigadier General Charles E. Yeager, United States Air Force (Retired), to the grade of major general on the retired list; which was referred to the Committee on Armed Services.

ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 284: Mr. Kline, Mr. Stenholm, Mr. Calvert, and Mrs. Cubin.

H.R. 806: Mr. Davis of Tennessee.

H.R. 1508: Mr. Fattah.

H.R. 1713: Mr. Menendez.

H.R. 1873: Mr. Burr.

H.R. 2239: Mr. Payne, Mr. Cooper, and Mr. Doggett.

H.R. 2512: Mr. Fossella.

H.R. 2823: Mr. Scott of Virginia and Mr. Foley.

H.R. 3125: Mr. Manzullo.

H.R. 3134: Mr. SOUDER and Mr. SIMMONS.
H.R. 3247: Mr. PETERSON of Pennsylvania.
H.R. 3318: Mr. OTTER.
H. Con. Res. 281: Mr. PAYNE, Mr. JACKSON of Illinois, Mr. GRIJALVA, and Ms. CARSON of Indiana.
H. Res. 419: Ms. MAJETTE and Mr. FARR.

EXTENSIONS OF REMARKS

TRIBUTE TO ELIZABETH PORTER

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Ms. LEE. Mr. Speaker, I rise today to pay tribute to the life, work, and memory of Elizabeth Porter. Liz dedicated her life to serving and empowering people in the pursuit of peace and justice. Tragically, at only 38 years old, Liz was taken from us on Saturday, October 25th due to a brain aneurysm. It is no surprise that this alarming news brought people from all over to Roberts Park in my district last Saturday to honor her amazing life.

Liz's work in the pursuit of global peace and justice was extraordinary. Fluent in Spanish and French, she began her career in public service by serving in the Peace Corps in Niger, Africa. Despite contracting falciparum malaria in her first month on the job and being flown to France for treatment, Liz didn't hesitate to immediately return to West Africa to complete her two-year assignment. Following her Peace Corps work, Liz then took part in the World Teach program in Manta, Ecuador.

Liz returned to the United States in the early 1990's, and earned a law degree from the University of San Francisco. Liz began serving the immigrant community as a staff attorney for California Rural Legal Assistance in Modesto, winning numerous cases. After more than 3 years, Liz moved on to the legal department at the California School Employees Association where she worked until her untimely death 2 weeks ago.

Liz was serious about her beliefs, but more than anything else, she was fun. She loved music, the outdoors, a good glass of wine—and her laughter was infectious. She also never missed sending a note or gift to one of her countless nieces and nephews. Liz—or "Fizz" as she was known to her 7 brothers and sisters—was a light for peace and justice in a world that desperately needed her passion, her strength, her laughter, and her love.

Liz is survived by her husband, John Gragnani, a marriage and family counselor with Contra Costa County, and a memorial fund has been established to continue assistance to a family in Togo, West Africa, that Liz had been supporting. I join my colleagues today in honoring her memory and her life.

CONGRATULATING SCOT STORM ON WINNING THE 2003 FEDERAL DUCK STAMP CONTEST

HON. MARK R. KENNEDY

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. KENNEDY of Minnesota. Mr. Speaker, I rise today to congratulate Scot Storm of Sartell, Minnesota, on winning the 2003 Federal Duck Stamp Contest. Scot's painting depicts a pair of redhead ducks flying over a pond. His inspiration for the painting came from a photograph he took in North Dakota.

The U.S. Fish and Wildlife Service sponsors the annual Duck Stamp Contest and I am proud to represent the winner for the second consecutive year. Groups from stamp collectors to conservationists purchase the stamps for their collections. Additionally, all waterfowl hunters are required to purchase and carry the Duck Stamp as a part of their license. Proceeds from the sale of the stamp go to purchase wetlands for the National Wildlife Refuge System. Since 1934, over half a billion dollars in proceeds from the Duck Stamp have purchased 5 million acres of habitat.

Mr. Speaker, Minnesota is proud of its hunting and fishing tradition and its commitment to conservation, exemplified in Scot Storm's winning stamp. On behalf of all Minnesotans, I congratulate him on this prestigious award.

HONORING THE BIRTHDAY OF THE UNITED STATES MARINE CORPS

HON. EDWARD J. MARKEY

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. MARKEY. Mr. Speaker, I rise to honor the United States Marine Corps on its 228th birthday. This organization, founded on November 10th, 1775, has a proud history of challenges met and overcome in every war in which our country has been involved. From the historic battles of Mellow Wood in the First World War to the battles of Guadalcanal, Iwo Jima, and Tarawa in the Second World War, to the modern conflicts in Panama, Somalia, and Iraq, the fighting men and women of the U.S. Marines have displayed the greatest valor and spirit. I wish to congratulate and honor all Marines and Marine veterans, with particular attention paid to those currently serving from the Commonwealth of Massachusetts, including 2,934 active duty Marines and 3,989 active reserve Marines in addition to the 2,259 retired Marines from our state. The U.S. Marines continue to be a storied organization upholding a proud tradition of freedom throughout the world. Congratulations to the U.S. Marine Corps.

HONORING BERKELEY-ALBANY YMCA

HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Ms. LEE. Mr. Speaker, I rise today to honor the Berkeley-Albany YMCA on its centennial anniversary and acknowledge its years of dedicated educational service to the community.

In 1903, a group of 21 young Berkeley men gathered in the basement of the First Baptist Church to create the Berkeley-Albany YMCA. They elected William Waste, then a young attorney, to be President. He continued on in that position for the next 37 years, even after he became Chief Justice of the California Supreme Court.

In 1906, the Berkeley-Albany YMCA performed its first act of community service, providing shelter and care to refugees of the San Francisco earthquake. That same year, meeting rooms, a gym, and showers were added to its rented quarters.

From 1909 to 1938, hundreds of thousands of dollars were donated by the public and prominent Berkeley citizens for the construction of a downtown Berkeley facility, an Albany structure, and a branch in West Berkeley. Additionally, 413 acres were purchased in Annapolis, California for the construction of a summer camp, YMCA Camp Gualala.

Bigger and better things soon followed, including day camps, several new buildings and additions, remodeling and expansion. An international exchange program began in 1968 with 16 students from Sakai, Japan whose visit was followed a year later by 16 students from Berkeley and Albany. In 1972, the YMCA became the grantee for a reorganized Head Start program, which it continues to operate, now in seven locations.

Today, with more than 30,000 members, the Berkeley-Albany YMCA is truly a community center for all. Opportunities for physical and mental advancement abound, whether in learning to swim, studying for a math test, or specialized aerobics programs for new mothers. The YMCA brings participants closer to a stronger physical, mental, and spiritual self.

Finally, as we honor the Berkeley-Albany YMCA today, I want to thank this organization for providing an endless stream of role models for our youth and teachers for our schools. I take great pride in joining the residents of Berkeley and Albany and all the alumni of the Berkeley-Albany YMCA to recognize and salute its accomplishments. I hope that the next 100 years are as exciting and gratifying.

HONORING THE LIFE OF BROTHER MICHAEL GAWORSKI

HON. MARK R. KENNEDY

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. KENNEDY of Minnesota. Mr. Speaker, I rise today to honor the life of Franciscan Brother Michael Gaworski, who died of complications from pneumonia on August 28, 2003. Brother Michael was born in Tulsa,

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.
Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Oklahoma and raised in Eagan, Minnesota. He attended St. Thomas Academy and St. Thomas College.

In 1982, with encouragement from Archbishop John Roach, Brother Michael founded the St. Paul archdiocese's first community of religious brothers, the Franciscan Brothers of Peace. Additionally, Brother Michael was well known for his involvement in the pro-life movement, founding the Pro-Life Action Ministries, a group that now has 20,000 members.

Brother Michael valued every life and dedicated his work to helping those that needed help the most. However, it was Brother Michael who was the recipient of tremendous support when, 12 years ago, he was left a quadriplegic as a result of a bout with pneumonia. His Franciscan Brothers worked out rotating shifts, so that one of them was with Brother Michael every day, taking care of all his needs.

The Brothers believe that their ministry has blossomed from this experience, teaching them to love and give unconditionally. While the Brothers mourn the loss of their founder, they celebrate his life and will continue his mission of service.

Mr. Speaker, Brother Michael and his brothers in the Franciscan Brothers of Peace exemplify what it means to give of yourself to others and to live life as an example.

HONORING THE 40TH ANNIVERSARY OF DATA SYSTEMS ANALYSTS, INC.

HON. TOM DAVIS

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. TOM DAVIS of Virginia. Mr. Speaker, I would like to honor the 40th Anniversary of Data Systems Analysts, Inc. (DSA).

In 1963, a team of software engineers aspired to provide people across the globe with sophisticated, technology-based, communication systems. Out of this objective, an information technology company, DSA, was born. Soon afterward, the company landed its first contract with the U.S. Department of Defense.

Since then, DSA has remained committed to providing innovative defense solutions. This commitment most recently was demonstrated during Operation Iraqi Freedom. Today, DSA provides secure information and communication systems for governments and businesses in over twenty countries around the world.

DSA is a major regional employer, continuously providing jobs for Virginia, Maryland, New Jersey, and Pennsylvania residents. Moreover, through one of the nation's longest running Employee Stock Ownership Plans, DSA is one hundred percent employee owned.

These employees have thrived in a corporate culture of integrity and trust, working together to strengthen DSA's customers' businesses and national security. For example, in an effort to protect our nation's children, DSA brought business, management, and information technology experts together to assist the National Center for Missing and Exploited Children.

Committed to keeping the United States on the leading edge of technology, DSA has taken an active role in bridging the "digital divide," making it possible for those with limited resources to pursue an education in technology. In this endeavor, DSA is one of the founding members of the successful non-profit organization, the Open Door Foundation.

DSA also has been honored as developer of the award-winning U.S. Army Knowledge Center and recently was named a "2003 New Jersey Finest" by the newspaper NJBIZ.

I want to make a special note that Ms. Frances R. Pierce has been with DSA for 32 of its 40 years, serving the last 12 as chairman, president, and chief executive officer. I would like to recognize and thank Ms. Pierce for her contributions.

Mr. Speaker, in closing, I want to congratulate DSA on 40 years of success in providing information technology solutions and wish them my best for the years to come.

I call upon my colleagues to join me in saluting Data Systems Analysts, Inc. as it celebrates its 40th Anniversary.

IN RECOGNITION OF NATIONAL ADOPTION AWARENESS MONTH

HON. JAMES T. WALSH

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. WALSH. Mr. Speaker, each year in November American families across the country gather together in thanksgiving to recognize the variety of blessings they have received. It is fitting that we also choose this month to recognize the importance of adoption in our society.

Currently, thousands of children across the country, freed for adoption, are waiting to be a part of a loving and caring family with a stable home and attentive parents. Many of these children have special physical, mental, or emotional needs and require special nurturing from devoted parents and families. Let it be known that their adoption by special people who elect to take full responsibility for their care, their upbringing, and their overall well-being is an important service not only to these children, but to our country at large.

Adoption not only provides obvious benefits to the affected child, but it has proven to be one of the most rewarding experiences for many adoptive parents. We all benefit when a needy child is adopted.

The County of Onondaga in New York's 25th Congressional District will be recognizing the importance of adoption on Friday, November 21, in ceremonies at Onondaga County Family Court. It is my privilege to recognize and thank all those families, caseworkers, and staff gathered for this important event who have dedicated themselves to improving the welfare of our community's children. It is my hope that this recognition further promotes the importance and benefits of adoption for all those involved. I thank all those responsible for organizing this special local observance of National Adoption Awareness Month.

TRIBUTE TO REVEREND CLEMENT CARDILLO

HON. BILL PASCRELL, JR.

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. PASCRELL. Mr. Speaker, I would like to call your attention to the life of an outstanding individual who I am honored to call my friend, Father Clement Cardillo. On Sunday, November 9, 2003, Father Cardillo was recognized by St. Gerard's Roman Catholic Church as the 2003 Man of the Year.

In his own unique way, Father Clement Cardillo has dedicated his life to guiding the spiritual and intellectual lives of the men and women of Paterson, New Jersey. His devoted commitment to serving the needs of others has left an indelible mark on the lives of all who have had the pleasure of knowing and working with him. It is only fitting that he be honored in this, the permanent record of the greatest freely elected body on earth.

Born in Portchester, New York, Clement Cardillo first studied with the Salesians of St. John Don Bosco at the seminary in Newton, New Jersey and made his Profession of Vows on September 8, 1944—the Feast of the Birth of the Blessed Virgin Mary. Upon his graduation from Don Bosco College with a Bachelor's Degree in Philosophy and a minor in Education, he began his first year of theological study before being sent to the theologate in Bollengo, Italy for the remainder of his studies. It was here, in Bollengo, that Clement was ordained into the Salesian Order on July 1, 1954.

On returning to the United States, Father Cardillo began a long and distinguished career as an educator. Shortly after his ordination, Father Cardillo was assigned to the staff of the Salesian Minor Seminary in West Haverstraw, New York where he taught Geometry and French and headed up the music department. Subsequent years found him teaching at a Salesian Middle School in Goshen, New York, and later, at a minor seminary in Ipswich, Massachusetts. Most remarkable, however, is the fact that Father Cardillo was able to balance his teaching responsibilities with his studies, ultimately receiving his Masters of Education in Counseling Psychology from Boston College.

In 1965, Father Cardillo accepted the pastorship of St. Anthony Church in Paterson, New Jersey—a post that he retained for 15 years. While at St. Anthony's, Father Cardillo was appointed by Bishop Casey as the Director of the Consultation Center (a psychological office dedicated to assisting priests and nuns who are leaving their vocation) and as the diocesan director of the Pre-Cana Program. In 1980, he was reassigned to his present position at St. Gerard's Church in Paterson where he currently serves the Diocese of Paterson as a psychologist on the Diocesan Review Board.

Over the past twenty-five years, Father Cardillo has dedicated himself to tending the spiritual and emotional lives of each of his parishioners. As a New Jersey Licensed Psychologist and as an ordained priest, he has selflessly given of himself to improve the quality of life of all of the men and women in his care. It is no surprise, then, to learn that his work on behalf of the citizens of Paterson has been widely recognized. In 1982, Father Cardillo received Congressional Recognition from the U.S. House of Representatives and on September 27, 1998, he was awarded the Papal Medal Pro Ecclesia ET Pontifice (translation: on behalf of the church and Pope).

Mr. Speaker, the job of a United States Congressman involves so much that is rewarding, yet nothing compares to recognizing the life and work of an individual as devoted to ministering to the faith as Reverend Cardillo. Today, a little more than twenty years after first being recognized by Congress, I ask that you join our colleagues, the men and women of St. Gerard's Roman Catholic Church, and myself in recognizing Reverend Clement Cardillo for touching the hearts and souls of so many in his parish.

COAST GUARD AND MARITIME TRANSPORTATION ACT OF 2003

SPEECH OF

HON. CORRINE BROWN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 5, 2003

The House in Committee of the Whole House on the State of the Union had under consideration the bill (H.R. 2443) to authorize appropriations for the Coast Guard for fiscal year 2004, to amend various laws administered by the Coast Guard, and for other purposes:

Ms. CORRINE BROWN of Florida. Madam Chairman, I commend the efforts of the Chairman of the Subcommittee and the Ranking Minority Member for their leadership in the effort to establish a dedicated West Coast Helicopter Interdiction Tactical Squadron (HITRON).

As former Ranking Member of Coast Guard Subcommittee, I was deeply involved in the creation of the HITRON program. The current HITRON squadron is composed of eight leased and armed helicopters and is based in my district just outside Jacksonville. I have inspected the squadron on several occasions and have been very impressed with the level of training they have received and their state of readiness to pursue the "go-fast" boats. The "go fasts" have traditionally been a highly effective method for smuggling large volumes of drugs into the United States. HITRON has posed the first real threat to this mode of transportation. In the short life of this program there have been 41 fast boat chases and 41 drug busts which have prevented nearly $3 billion in cocaine and other illegal drugs from reaching our kids on the streets. Thus the Sting Ray HITRON program has a remarkable success rate of 100 percent. Today, HITRON aircrews routinely deploy aboard U.S. Coast Guard cutters patrolling the high seas in the Caribbean to stem the tide of illegal drugs flowing into the United States. As intelligence reports dictate they are diverted to the Pacific. About 50 percent of the fast boat drug interdiction has now occurred in the Eastern Pacific.

The MH–68A HITRON helicopters have been named the Sting Ray. Since 9–11, Sting Rays have been pressed into the anti-terrorist mission, defending our ports and waterways from waterborne terrorist attack, and even providing protection for presidential visits. Not even these wonderful pilots with their feisty little aircraft can be in more than one place at a time! Two years after 9–11 there are only 8 armed Homeland Security helicopters authorized for airborne use of force over our tens of thousands of miles of ports and waterways which are dotted with strategic facilities such as nuclear plants. Shame, Mr. Speaker! Shame!

I agree with those advocates in Congress who feel it is time to acquire a new larger state-of-the-art cutter capable helicopter that can perform multiple airborne use of force missions. We could at any day be confronted by suicide terrorists headed toward a port or critical bridge on a small boat or a container ship. We must have a helicopter that can transport and support six-man tactical teams and can deliver and retrieve sea marshals as well as engage in port coverage and drug interdiction. In other words we should have a bigger helicopter with cutter capability in the inventory. The Coast Guard should waste no time initiating a competition for a new multi-purpose helicopter.

Under the best circumstances, if a competition were initiated today and executed with vigor, we would only have a limited number of such helicopters by January, 2006. For the interim period we need more Sting-Ray helicopters. In fact, the Sting Rays are the only helicopters authorized for airborne use of force over civilian populations. Thus, the Sting Rays are the only interim solution available until new Multi-purpose Cutter Helicopters can be acquired.

One year ago I worked diligently with our former colleague from Pennsylvania, Mr. Borski, the gentleman from North Carolina Mr. COBLE, and the gentleman from California, Mr. FILNER to assure there would be no interruption in the HITRON program. At that time HITRON was threatened by looming lease expiration on the armed helicopter fleet. Thirty-eight Members of Congress joined in this effort. We initially pressed for a purchase of the aircraft. However, the Commandant informed us that he wanted to hold open the option of acquiring a new multi-purpose helicopter. As a result of our efforts, the Coast Guard extended the lease for 8 HITRON helicopters currently in the inventory for 5 years and made provision to lease additional helicopters. In signing that lease, Coast Guard had the foresight to open the lease terms in order to permit the addition of as many Sting Rays as may be required. The Sting-Rays may be returned to the manufacturer in any lease year if new helicopters come on line.

It is important that we assist the Coast Guard in every way possible to carry out their post 9–11 role. With the HITRON Sting-Rays we have an ideal interim program until the new helicopters can be acquired. In fact I would be surprised if there is not a permanent role for these light, fast and aggressive little helicopters. I know for a fact they should not be shuttled back and forth between the East Coast and the West Coast. Each Coast must have a permanent installation. I know for a fact we need more Sting Ray helicopters for East Coast anti-terrorist port protection as well as Caribbean fast boat drug interdiction. This bill, which authorizes funding for a West Coast fleet, jump starts the process and is a good beginning. We have wasted two years with no expansion of our assets capable of airborne use of force. Lets roll!

TRIBUTE TO JAY S. PIFER

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. MURTHA. Mr. Speaker, it is with both pleasure and sadness that I rise today to recognize Jay S. Pifer, who is planning his retirement on December 1st after more than 40 years with Allegheny Energy. Jay has been a good friend to Pennsylvania and an outstanding corporate leader. I am pleased to recognize some of his achievements here today, but I must say that he will be greatly missed.

Jay is a native of Pennsylvania, graduated from Ridgway Area High School, and has degrees from both Penn State University and Clarion State University. He has received numerous awards including Penn State's Outstanding Engineering Alumni and the University's Alumni Fellow Award. He began his career at Allegheny as a college student.

He was named interim President and CEO at Allegheny Energy before being named Chief Operating Officer in June. He has worked in almost every department in the company including sales, marketing, engineering, customer service, accounting and management. In fact, Jay has performed admirably at almost every job in the company. He has held a number of leadership positions, including President of its Allegheny Power energy delivery subsidiary—which supplies power throughout Western Pennsylvania, and in Maryland, West Virginia, Virginia, and Ohio. During a time of recent financial challenges for Allegheny, Jay played a leading role in preserving the company. Through it all—and some very difficult weather from ice storms to Hurricane Isabel—Allegheny Power was recognized by J.D. Power and Associates as the second best company in customer satisfaction in the East and 10th best in the Nation. This is an honor of which Jay is justifiably proud.

Jay also has been involved in many civic and community activities, dedicating himself to education, economic development, and conservation efforts in Western Pennsylvania and her neighboring states. He serves on the boards of the United Way and the Business Roundtables of Pennsylvania and West Virginia. His many other honors include membership on the Advisory Board of Penn State University and the University of Pittsburgh at Greensburg, honorary chair of the NAACP, director of the Westmoreland Trust, and membership in the Western Pennsylvania Conservancy. He is an ordained Lay Pastor in the United Methodist Church and has long been associated with the Boy Scouts of America. He currently serves on the Advisory Board of the Northeast Region of the Boy Scouts.

His accomplishments are really too numerous to mention, but I wish Jay well in his retirement and thank him for his tireless commitment to Allegheny Energy and Pennsylvania.

REGARDING WASHINGTON STATE PROFESSOR OF THE YEAR DR. TERRY L. MARTIN

HON. DOC HASTINGS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

Friday, November 14, 2003

Mr. HASTINGS of Washington. Mr. Speaker, I rise today to recognize and honor Dr. Terry Martin who has been named the Washington State Professor of the year by the Carnegie Foundation for the Advancement of Teaching and the Council for Advancement and Support of Education.

Each year outstanding professors are honored by the Carnegie Foundation and the Council for Advancement and Support of Education for their service as models of excellence in undergraduate instruction. I would like to take this opportunity to congratulate the 2003 Washington State award winner, Dr. Terry Martin, an English professor at Central Washington University. Clearly, Dr. Martin has demonstrated her dedication to teaching and her students.

Dr. Martin has been honored for her commitment to academic excellence in the classroom and her contribution to the education community. She has published over 35 articles in professional journals, judged numerous writing and poetry contests, served as a member of the Washington State Steering Committee for Improving Undergraduate Education, and served as a State Board member for the Washington Council of Teachers of English.

Thank you for the opportunity to recognize Dr. Martin. Her innovation and commitment to teaching has clearly had a tremendous impact on the lives of her students and colleagues, and serves as an example of excellence in education.

SENATE—*Monday, November 17, 2003*

The Senate met at 12 noon and was called to order by the President pro tempore [Mr. STEVENS].

PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Eternal Spirit, Your righteousness is like the mighty mountains, Your justice like the ocean depths. You clothe the meadows and provide carpet for the valleys.

Lord, You have given us the new chapter of another week with opportunities and challenges. We have opportunities to build bridges and to mend the defective. But we face the challenges of a world filled with divisive forces that desecrate and destroy. May the things that unite us overcome the powers that divide us.

Today, bless Your servants in this place with patience. Remind them that laudable goals usually take time. Slow us down, Lord, that we may take time to appreciate Your many blessings. Keep us from feelings of futility and may we feel the uplift of Your everlasting arms. We pray in Your holy Name. Amen.

PLEDGE OF ALLEGIANCE

The PRESIDENT pro tempore led the Pledge of Allegiance, as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

RECOGNITION OF THE ACTING MAJORITY LEADER

The PRESIDENT pro tempore. The acting majority leader is recognized.

SCHEDULE

Mr. McCONNELL. Mr. President, today the Senate will resume consideration of the VA-HUD appropriations measure. We were unable to reach an agreement for finishing the bill, and it is unclear how much further progress we can make on this bill. At this time, we will continue with the bill this afternoon and make a determination later today as to whether the Senate can complete action on this important measure.

Under a previous order, beginning at 4:30 p.m. today, the Senate will begin 1 hour of debate prior to the vote on invoking cloture on the FAA reauthorization bill. It is hoped that cloture will be invoked and that the Senate can complete its work on the conference report today. Again, that vote is expected around 5:30 this afternoon.

Also later today, the Senate will conduct a 1-hour debate on the issue of jobs and the economy. There will be two Members from each side of the aisle engaged in that debate, and all Senators are encouraged to be present for the discussion.

As a reminder, two cloture motions were filed with respect to the nomination of Thomas Dorr to be Under Secretary of Agriculture for Rural Development. Those cloture votes will occur tomorrow morning, and Senators will be notified of the exact timing of those votes.

Finally, on behalf of the majority leader, I remind everyone this is expected to be a busy workweek in the Senate. There are a number of important conferences that have been completed and others that will be finished shortly. These legislative matters will be scheduled as soon as they are available so the Senate may adjourn at the earliest possible time. All Senators should adjust their schedules for a busy session as we approach what will very likely be the final week of this session.

RECOGNITION OF THE ACTING MINORITY LEADER

The PRESIDENT pro tempore. The acting minority leader is recognized.

Mr. REID. Mr. President, through the Chair to the distinguished majority whip, is there some estimate as to when we would get to the conference reports on Energy and Medicare?

Mr. McCONNELL. Mr. President, I say to my friend from Nevada, it is a little bit difficult to ascertain exactly when, but we hope the Energy bill might be ready by Wednesday. We are going to work as hard as we can to get those measures ready for consideration in the Senate certainly this week. Hopefully, we can get to Energy by Wednesday.

The PRESIDING OFFICER (Mr. BURNS). The Senator from Nevada.

Mr. REID. Mr. President, I hate to broach the subject because last time it didn't work out as well as I had contemplated, but I hope if something comes up that we can't finish our work on Friday, we will go over into the weekend because everyone believes they would rather work—I don't know about everyone—most people believe they would rather work this weekend knowing we don't have to come back until after the first of the year. I hope the leadership on the other side will keep that in mind and alert Senators that we may have to work Saturday and maybe even Sunday to get out of here for the Thanksgiving holiday and the year generally.

Mr. McCONNELL. Mr. President, I say to my friend from Nevada, I think that is a widely held sentiment on this side of the aisle as well. It will be vastly more desirable to wrap it up this week, even if this week means a longer week than normal, than to carry it over to next week or certainly December. We are going to be pushing to complete the business of the Senate this week. This week ideally would be Friday, but it could end up being Saturday or later. It is our goal to wrap up this session of the 108th Congress this week.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. JEFFORDS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. COCHRAN). Without objection, it is so ordered.

MORNING BUSINESS

Mr. JEFFORDS. Mr. President, I ask unanimous consent that the Senate proceed to a period of morning business until 1:30 p.m. with Senators permitted to speak therein.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. JEFFORDS. Mr. President, like every loyal Red Sox fan, I believe that next season my team will be victorious. I bring this same level of optimism to my efforts to reduce the amount of wasted resources and litter caused by discarded beverage containers.

I rise today to speak again to the National Beverage Producer Responsibility Act of 2003, the bottle bill, convinced that this is our year.

I have long been an advocate for increased recycling. Vermont passed its bottle bill in 1972 when I was state attorney general. In 1975, during my first session as a Representative in the U.S. House, I introduced a national bottle bill, closely resembling Vermont's very successful example. Last Congress, as chairman of the Environment and Public Works Committee, I convened the first Congressional hearing in many years on recycling, in which the committee heard expert testimony on the merits of a national program to recycle beverage containers.

The reason that I continue to push this issue is simple—it makes sense.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Beverage container recycling is one of the simplest ways to see a dramatic improvement in our environment. As this chart shows, 120 billion—let me repeat, 120 billion with a "b"—beverage containers were wasted by not being recycled in 2001.

If we could raise the Nation's recycling rate to 80 percent, we would save the equivalent of 300 million barrels of oil over the next 10 years and eliminate 4 million tons of greenhouse gas emissions annually. States that have enacted bottle bills also have benefited by reducing road side litter by up to 84 percent.

These savings may sound unrealistic. But in Vermont alone, recycling efforts in 2001 reduced greenhouse gas emissions by 94,000 metric tons of carbon equivalent. That's equal to approximately two-thirds of all industrial carbon dioxide emissions from fossil fuel combustion in Vermont and 4.5 percent of greenhouse gas emissions. To me, those savings sound remarkable.

Why a refundable deposit program? Thirty years of experience demonstrates that refundable deposit bottle bills are dramatically more effective than voluntary efforts. As this chart illustrates, the ten States that have implemented deposit laws recycle more containers than all of the other 40 States combined.

While I applaud curbside and other voluntary recycling efforts, the 71 percent of Americans who live in non-bottle bill States account for only 28 percent of recycled beverage containers. My bill, the National Beverage Producer Responsibility Act of 2003, strikes a balance between the wishes of industry, the authority of individual States, and the needs of a healthy environment.

Unlike traditional bottle bills, this legislation would fully harness market incentives by setting an 80 percent recovery performance standard and allowing industry the freedom to design the most efficient deposit-return program to reach the standard. States that already have bottle bills will retain their authority to continue their programs in their own individual ways as long as they meet the national performance standard.

This past Saturday, November 15, 2003, was America Recycles Day in Vermont and across the country. Two years ago, to help commemorate the 2001 America Recycles Day, I participated in a public service announcement to raise awareness regarding the need to buy recycled goods.

The importance of recycling deserves, however, more than a 30-second public service announcement and more than its own day on the calendar. For it to work, recycling must be a commitment of all of ours each and every day of the year.

Vermont's commitment to recycling has provided some impressive statistics. For example, in 2001, 31 percent of Vermont's municipal waste was diverted from landfills. That year, 13,260 tons of containers were recycled through soft drink and beer distributors and materials recovery facilities.

The benefit of these programs is, of course, that they help keep our Green Mountains green.

I commend and thank Governor Jim Douglas for his many recent initiatives to encourage and improve the efficiency of recycling across Vermont. For example, under Governor Douglas' leadership, Vermont has implemented beverage container recycling programs at 20 State information centers.

In the first phase, in less than 2 months, over 200 pounds of aluminum, glass, and plastic were recovered from 51,00 visitors passing through one such information center in Willison, VT. And today, the U.S. Senate's other Vermonter, PATRICK LEAHY, joins me and Senators JOSEPH LIEBERMAN, DANIEL AKAKA, and JOHN KERRY as original cosponsors as I introduce the National Beverage Producer Responsibility Act of 2003.

I recommend that all take advantage of this wonderful system we have in Vermont and in other States. I ask everyone to take a close look and see if we wouldn't be much better off if the rest of the country follows suit.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. JEFFORDS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. JEFFORDS. I ask unanimous consent to speak in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

ENVIRONMENTAL PROVISIONS IN THE CONFERENCE REPORT ON H.R. 6

Mr. JEFFORDS. Mr. President, the conference report on H.R. 6, the comprehensive energy legislation, was released over the weekend. As the ranking member of the Environment and Public Works Committee, I have come to the floor today to share my deep concern that this bill will endanger our environment and unfairly benefit special interests.

The final conference report contains provisions that significantly change environmental law and undermine long-standing environmental protections. It is my sincere hope that the conference will remove many of these provisions during their meeting today.

The Environment and Public Works Committee, on which I serve, has jurisdiction over environmental matters, and we were not consulted in the development of any of these provisions.

This bill drastically rewrites existing clean air law. It postpones ozone attainment standards across the country. This is a matter never considered in either House or Senate bill that has been inserted into the conference report. By inserting this language, the conference will expose the public to dangerous air pollution emissions for far more time than under existing law. Several Federal courts have already struck down regulatory proposals similar to the provisions in the conference report as violations of the Clean Air Act.

The gasoline additive MTBE, which is known to contaminate groundwater, would have been phased out in 4 years in the Senate bill. This conference report extends the phaseout for a decade and includes provisions that would allow the President to decide to continue the MTBE use.

This bill provides legal immunity to large petrochemical companies from "defective product" liability arising from the contamination of groundwater supplies by the gasoline additive MTBE.

It also terminates a lawsuit filed by the State of New Hampshire by reaching back to provide immunity as of September 5, 2003. This language allows a contaminating product to be used, possibly indefinitely, and provides communities with no fiscal remedies to clean it up.

As a further subsidy to the industry, the bill exempts all construction activities at oil and gas drilling sites from coverage under the runoff requirements of the Clean Water Act.

This means that contaminants, such as toxic chemicals, grease, and other pollutants from oil and gas drilling, will end up in our waterways.

Conferees have also removed hydraulic fracturing, an underground oil and gas recovery technique, from coverage under the Safe Drinking Water Act. This is a process in which water, sand, and toxic chemicals are injected under high pressure into oil- and gas-bearing rocks, potentially polluting drinking water supplies.

This bill suspends these existing drinking water protections, even though courts have found that hydraulic fracturing should be regulated to protect the public health.

Also, the conferees have included language to speed up energy exploration and development at the expense of environmental review and public participation on both Federal and non-Federal lands. The public will have less time to review and consider the impact of these projects.

When these reviews occur, oil, gas and geothermal energy companies can be reimbursed through credits against future royalties payable to the taxpayer for the costs of undertaking environmental assessments. These provisions subsidize energy development on our public lands.

The conferees have also included provisions that mandate specific timeframes and deadlines for agency decisions on Federal oil and gas leases. This would establish oil and gas development as the dominant use of our Federal public lands.

Our other Federal lands are at risk of becoming electric transmission corridors with this bill as well. The Department of Energy can open new areas for transmission line construction, harming the wildlife, water quality, recreational and other values we have sought to protect for years.

My colleagues should know that this is not an exhaustive list of the environmental provisions of concern in this bill.

In almost every title, there are significant changes to long standing environmental law and policy. In addition, important issues which received majority support in the Senate, such as a Renewable Portfolio Standard for electricity, requirements to reduce our dependency on foreign oil, and adoption of sensible climate change policy, have been dropped.

While I support the establishment of a comprehensive energy policy for the United States, we should not use the final energy bill as a means to roll back important environmental protections.

This bill will not promote energy self-sufficiency, will not promote it, and will cause environmental damage. It is my sincere hope that these unwise provisions will be removed, and I urge my colleagues to consider seriously the environmental effects of this legislation in making their final decisions regarding whether or not to support this measure when it come before the Senate.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KENNEDY. Mr. President, I ask unanimous consent to speak as if in morning business.

The PRESIDING OFFICER (Mr. ROBERTS). Without objection, it is so ordered.

MEDICARE PRESCRIPTION DRUG BENEFIT

Mr. KENNEDY. Mr. President, I wanted to take a short time this afternoon to talk about some of the concerns that I have on the recently agreed to proposition on the Medicare prescription drug agreement that was reached over the course of the weekend.

As we are anticipating this measure which is now being examined in terms of the Congressional Budget Office estimates and the legislative language that is being prepared, I expect that we will be addressing it at the end of this week or sometime in the very near future. I want to at least bring some focus and attention to some of the provisions in the legislation that haven't gotten the focus and attention they deserve, which they should have, and which I hope our Members will give study.

There is no truer indication of a nation's priorities than the investment it makes, and the legislation the Senate considers today I believe squanders a historic opportunity with a disregard for the Nation's health, particularly for our seniors. There is a provision in this bill dealing with a $12 billion slush fund to lure HMOs into Medicare.

Let's see if I have the reasoning behind this fund right. The supporters of the legislation are so concerned that HMOs can provide health care to seniors more efficiently than Medicare that they give HMOs a $12 billion payoff so they can compete. If they are so efficient, why do they need the handout? I guess the sponsors of the legislation believe a 9 percent reimbursement bonus for HMOs is not enough. In this legislation there is the assurance the HMOs will get a 9 percent increase over Medicare in reimbursement rates.

In addition, there is what they call a stabilization fund which is effectively a $12 billion slush fund which will also be available to subsidize the HMOs.

That package adds up to a rather extraordinary benefit to the HMOs. The bill calls for competition between Medicare and the HMOs. Yet in this agreement private plans are going to get paid 109 percent of traditional Medicare reimbursements. And, those enrolled in HMOs are 16 percent healthier. That cumulatively is a 25 percent bonus to the private sector to compete with Medicare, without even considering the $12 billion slush fund. Our friends on the other side say we want competition in this system. Yet they are giving them the 25 percent advantage in order to compete with Medicare.

The bill that passed the Senate was a prescription drug bill that had bipartisan support, with 76 Members for it. I was proud to stand here and support it. But now we basically have the restructuring of our Medicare system. We do it in a way that provides a fundamental risk to the Medicare system. That is why I am opposed to this agreement and the proposal.

I have given one illustration of why this proposal that is strongly supported by our friends in the House is going to weight this agreement so heavily for the HMOs and the PPOs. They talk about a fair playing field between the private sector and the Medicare. That is hogwash. In the Senate bill we passed a prescription bill. It had real competition for all parts of the country with a backup system of Medicare, but not in the proposal that comes out of the conference.

I remind our seniors the 25 percent bonus that is going to the HMOs is effectively being paid by our seniors today in the Medicare premiums. They are the ones, on the one hand, who are paying into this fund; on the other hand, it is the conference report that is effectively taking the 25 percent and giving it over to the private sector.

And we wonder why seniors might be somewhat concerned about that arrangement. Do Members think the seniors at home will not ask: Why aren't we using all that money to either make sure the benefit package is a stronger benefit package to help me, to help my family, or to help my grandparents? The decision made in the conference was no, we insist on "competition." But they are going to take the 25 percent, which has been paid in dollar by dollar by dollar by hard-working Americans over a lifetime that they thought was going to be put into the Medicare system, and we are going to use that to subsidize the private sector. I hope we will have a chance for explanations.

Second, there is a provision included in this conference that was not included in the Senate proposal, premium support. I never heard the President indicate strong support for it, or those who speak for the President. I don't think a great many of our colleagues are able to define what premium support is, but they will learn about it soon enough if they vote for this legislation. Premium support is a proposal that is primarily sponsored by those who are opposed to the Medicare system.

Let's make no bones about it. There are a number of other colleagues who are still strongly opposed to Medicare. That is no mystery, no secret. This proposal puts forward one of their strongest beliefs—that we need to change the Medicare system—I say undermine the Medicare system—with premium support. What that means is the averaging of various premium bids to determine the Medicare system reimbursement rate. The difference between what the Medicare system reimburses and what real cost is going to be paid by the individual. The premium support proposal does what the insurance companies do best, and that is cherry pick the healthiest senior citizens for their plans so they are able to make money, and leave those who are sicker and older in the Medicare system where the premiums will rise.

I will demonstrate with this chart. This is the Medicare actuarial estimates of the disparity of the premium support, what the premium would be under the proposed legislation. The national average of the current law is $1,200. Several years ago, the estimate under the premium support was $1,771. The new average this year is $1,501. How do we know what the true estimates will be? Premium support is untested, untried, unworkable. We are playing roulette with premium costs for our senior citizens. This is a social experiment that uses our seniors as guinea pigs. That is what premium support is.

Look at the difference, say, if you are in Florida. The agreement reached said by the year 2010 the Secretary will be able to designate six metropolitan statistical areas that qualify. Currently, half the States have those areas. With the kind of subsidies we are providing in this legislation, by the year 2010, I doubt whether there is any State that will not have the opportunity to qualify. I hope our colleagues listen carefully to that because this diversity in premiums is going to come to your State and you are going to have to explain why a senior in one county, who pays same taxes, worked just as hard all his life, and who deserves Medicare, has to pay twice as much as his neighbor in the next county over in premiums for medicare.

Medicare is a universal system that guarantees everyone will be treated equally, according to their medical needs. This legislation turns that proposition on its head and makes your medicare benefits dependent on where you live and what will help private insurance companies the most.

This is the House Budget Committee, the Medicare actuarial data. The difference if we have premium support in Florida, what the premiums would be 1 year in Dade County and another year in Osceola, Fl: Double the premium for the Medicare patients living in Dade; half that for those in Osceola. Now that is in Florida.

Take premium support in California. If you live in Los Angeles, $1,700; in Yolo, CA, $775.

It is just based on where you live. You have lived there all your life. You have your home. You have paid your taxes. You have brought up your children, and you have retired, and you find you are going to pay $1,700 for your premium; and someone in Yolo County, CA, is going to pay $775. Why? Because of this new concept of premium support.

It will happen in every State. For New York City, the Medicare actuaries' estimate that in Queens, seniors would pay $2,000, but only $975 in Erie, NY, because that is the estimate of what the premiums will be with competition in New York.

Try to explain that to your seniors who have lived their life, who have served this country, brought the Nation out of the Depression, fought in the wars, are living back home, and find out their premiums have increased 100 percent or 200 percent or 300 percent.

This is not just what I am saying about premium support, these are the Medicare actuaries. This information comes to us from testimony given before the Finance Committee.

Here we have figures from my home State of Massachusetts: $1,450 in Barnstable, $1,000 in Hampden, MA. So, $400 more if you live down in Barnstable County, in Cape Cod, than the center part of the State.

So if you support this proposal, and you support the premium support, then you are going to have to explain to your constituents and to your elderly people that if they live in one community, they may be paying double what their neighbors are paying in another community.

What this proposal puts forward has never been tried. It has never been tested. And it is mandated—mandated—in this compromise from the House of Representatives. It is mandated in this bill.

You will hear the other side saying: Senator KENNEDY has not got it quite right. You will hear them say: We put a restriction in there, they can only go up 5 percent this year. Five percent this year, 10 percent the next year, 50 percent the year after.

Let's get real. Look at the direction in which we are going. This proposal has heavy subsidies for the HMOs and a roll of the dice on the premiums for our senior citizens. And that is not even the beginning.

Currently, of our 40 million seniors, there are 6 million who have Medicare but also who have what they call Medicaid to those who are very poor, we are talking about 100 percent of poverty or below. Those beneficiaries have to pay copayments for medical care. Most of the States pick up those copayments. That is what is existing today.

Do you think that is going to continue under this bill? No. No, no. No, no, that does not continue under this proposal. That is actually prohibited under this legislation.

There will be 6 million of our seniors who are getting help and assistance from their States today who will be prohibited from getting it under this proposal. Why? This all saves the money—probably $9 to $12 billion—to use for other purposes.

If you come from a State with large numbers of very poor, and where the State is paying that $1, $3, $5, in terms of the prescription drugs, it does not sound like a lot of money. But if seniors need that drug two or three times a week, it piles up every week, it piles up every month, and it piles up every year.

Why does the conference bill do that? Why in the world did they do that? It was not in the Senate bill. It was in the House bill, and it was accepted in the conference.

Now we come back to those who are the very needy and the very poor, and we see many of our elderly who are excluded from this program with what we call an asset test.

The asset test is basically the following: If you own a car that is worth more than $4,500, you have a wedding ring worth $2,300, you have $6,200 in savings, and you have a burial plot that is worth more than $1,500, all that is considered in terms of your assets to exclude you from being eligible for benefits targeted to the poorest of the poor.

The Senate bill said that low-income people could get the assistance they needed without going through a cruel and demeaning assets test.

Senators from New Mexico, Mr. BINGAMAN and Mr. DOMENICI offered an amendment, which passed by 67 votes, to reaffirmed the Senate's desire not to penalize people because they managed to save a small amount of money during their working lives. I was proud of the Senate, of Republicans and Democrats alike, for recognizing that if we were going to pass a prescription drug bill, it ought to be targeted on the neediest of the needy. But the bill put forward by this conference went in the opposite direction and restored that cruel and demeaning assets test.

We had a good bill. We did not provide these large subsidies to the PPOs and the HMOs. We did not have premium support program that so threatens, undermines and endangers Medicare. No, no, we did not have those. Ours was basically a prescription drug program focused on the neediest seniors built on private sector delivery with a backup in terms of the Medicare system. That was the compromise.

But not here. The conference needed more money to pay for what they call health savings account, the medical savings account, which they have put in this particular conference report, at the cost of anywhere from $6 to $7 billion, draining our national deficit even more and adds to the total cost of the legislation.

Health savings accounts are designed for the healthiest and wealthiest people in our society leaving the sickest and poorest of the workers in this country in the private sector where their premiums could be increased by 20 to 30 to 40 percent. As the debate unfolds, we will be presenting further estimates on this. It was best estimated, from the Urban Institute, at 60 percent increases.

This conference report gives us a whole new kind of a system. We have the heavy subsidizing of private plans with 25 percent more being paid for by seniors. We have the experimental system where you are going to have those enormous swings in premiums all over the country without any predictability, and it is untested and untried. We have the cutting back of 3 million of the neediest people because of the reimposition of the asset test. We have the introduction of the health savings account which is going to skew the health delivery system for millions of workers and the young people in this country.

Many people are going to bail out of their traditional system, and leave their coworkers, who may have greater kinds of health threats, to pay a very enhanced premium and also enhance the premium of the companies themselves.

What are we talking about with this legislation? Let's add it up. Of the about 10 to 12 million American workers who now have retiree accounts, under this proposal, the best estimate is that 2 to 3 million of those who are covered today will lose that, according to CBO.

We heard the estimate—this was a real good one—that up to 30 percent of those who were getting coverage were going to lose it. And then some of our Republican friends said that is too much, that is too many, so let's expand the base, which they did. Let's include all the Federal employees. Let's include other groups in there to lower the percentage. Now they come out and say: I know it was 33 percent before; now it is only 12 or 14 percent.

The total numbers are the same. You are going to lose the 3 million.

This is what we have: 6 million Medicaid beneficiaries who now have wraparound coverage; they are going to be paying more. You have 2 to 3 million retirees who lose their coverage. They are going to be hurt by this legislation.

We have 6 million people in the untested, untried premium support demonstration. Add that up, 15 million of the elderly and disabled are going to be impacted or affected by this program. At the same time we are talking about billions of dollars in the slush fund for the PPOs. We are talking about the health savings accounts, which are billions of dollars, that the taxpayers are going to end up paying. Then we have the asset test which is going to exclude many of our seniors.

This legislation has been altered and changed. It was a prescription drug program when it passed the Senate with strong bipartisan support. Now it is a Medicare Program. At the heart of this program are the kinds of instruments that can undermine Medicare and threaten our seniors now and in the years to come. It doesn't deserve to pass.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MORNING BUSINESS

Mr. BOND. Mr. President, I ask unanimous consent that the Senate proceed to a period for morning business with Members permitted to speak up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

MEASURES PLACED ON THE CALENDAR—S. 1862, S. 1863, S. 1864, S. 1865, S. 1877

Mr. BOND. Mr. President, I understand there are five bills at the desk, and they are due for a second reading. I ask unanimous consent that the clerk read the titles of the bills en bloc for a second time.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will read the bills by title.

The assistant legislative clerk read as follows:

A bill (S. 1862) to provide certain exceptions from requirements for bilateral agreements with Australia and the United Kingdom for exemptions from the International Traffic in Arms Regulations.

A bill (S. 1863) to authorize the transfer of certain Naval vessels.

A bill (S. 1864) to enhance the security of the United States and United States allies.

A bill (S. 1865) to enhance the security of the United States and United States allies.

A bill (S. 1866) to enhance the security of the United States and United States allies.

Mr. BOND. I would object to further proceedings en bloc.

The PRESIDING OFFICER. The objection is heard. The bills will be placed on the calendar.

Mr. BOND. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mrs. FEINSTEIN. Mr. President, is the Senate in morning business?

The PRESIDING OFFICER. The Senate is in morning business.

SMALL ENGINE POLLUTION

Mrs. FEINSTEIN. Mr. President, I will make my remarks as if in morning business, but my remarks pertain to the HUD–VA bill, and in particular to the small engine provision of that bill.

If Members will remember, the Senator from Missouri, in the Appropriations Committee, placed an environmental rider into the HUD–VA bill which would prevent California from moving forward with its regulation to regulate off-road engines under 175 horsepower. The State has developed a regulatory scheme to do so because these engines were a substantial part—17 percent—of the mobile source pollution in the State, and it was believed by the California Air Resources Board that regulation of these engines could be achieved and, in fact, could reduce pollutants considerably.

On the floor of the Senate, the Senator from Missouri offered an amendment to his amendment from committee. The new language which changed the amendment, in my view, making it better, by only affecting engines under 50 horsepower. I spoke against his amendment in the Appropriations Committee. I did not press for a vote on the small engine amendment which he offered on the floor largely because I thought we would lose it and that we had a better chance of trying to remove the language from the bill in conference.

The bill has been preconferenced. Sadly, we have not been able to remove that language from the bill. I am told today that if I were to submit the amendment we had prepared which would eliminate the Bond amendment in its entirety, I would not be allowed a vote on that amendment. I believe the rationale is because I agreed to go to conference. I had only because I didn't want to lose on the floor and I thought I didn't have the votes.

Since that time, a number of States have realized that their regulatory schemes would also be impacted by this provision. Other States would be affected because the 1990 amendments to the Clean Air Act essentially said that California has the ability to regulate these engines, and other States may then take various components of that regulation and enact them as their own State law if they so choose. Since last week, a number of States have weighed in indicating they have regulatory regimes underway that would be affected and that they are opposed to the Bond amendment. Nonetheless, we are where we are.

I have come to the floor today simply to speak about why I think this is so egregious—and I do think it is egregious. I believe it is the first major setback from the clean air amendments of 1990, and specifically from the amendments allowing States to regulate air quality for the protection of their own people. By eliminating this, we are taking important rights away from the States certain rights and diminishing the States' ability to take care of their own people.

As the fire chiefs have said to me in a letter, if they waited for the Federal Government to regulate bedding and upholstery, they would be still be waiting for that regulation. Instead, the States have taken it on their own to make those regulations. The people of California are much safer because of it.

Let there be no doubt. I believe very strongly that this small engine provision should be removed from the bill and that we should restore the States' rights to protect public health under the Clean Air Act.

On the surface, the amendment that was adopted on Wednesday looked like a substantial improvement. At the time I thought it was an improvement simply because it dropped from 175 horsepower to 50 horsepower. However, the amendment still blocks all States from regulating some of the dirtiest engines out there.

The States will lose the ability to reduce pollution from all spark-ignition engines smaller than 50 horsepower. This includes lawn and garden equipment, some forklifts, recreational boats, off-road motorcycles, and all-terrain vehicles. The original small engine provision would not have affected boats or off-road motorcycles. But the amendment adopted on Wednesday is broad enough to affect a whole new group of engines.

This provision will take four California regulations off the books. My State will lose regulations on lawn and garden equipment, recreational boats, and off-road motorcycles.

I don't know whether the effects on additional engines were intentional or not. We told the Senator from Missouri about them and the language did not change.

But I want to point out another important fact about the amendment adopted on Wednesday. The language requires the U.S. Environmental Protection Agency to propose a new national regulation by December 1, 2004. It does not require the EPA to finalize that regulation, ever. They could propose a regulation and never finalize it. The one promising part of this amendment guarantees nothing. The States need to reduce these emissions now.

I want to remind my colleagues just how dirty these engines are. You will see here that mowing the lawn produces as much pollution as driving a car for 13 hours. I didn't know that before. I didn't know that if you mow your lawn for 1 hour it is like driving the automobile for 13 hours.

This chart shows how long you would have to drive a car to produce as much pollution as when you operate various types of equipment for one hour.

In other words, using a weed trimmer for 1 hour produces as much pollution as driving a car for 8 hours, mowing a lawn for 1 hour produces as much pollution as driving a car for 13 hours, and operating a forklift for 1 hour produces as much pollution as driving a car for a full 17 hours.

Clearly, this is a problem. In 8 hours a person can drive from Washington to Charleston, SC. Or he can mow the lawn for an hour and produce just as much pollution. The States need to be able to clean up these engines.

The small engine provision is bad for the States and for public health. The compromise from last week did not change the substantive issues.

The small engine provision is still using an appropriations bill to make fundamental changes to the Clean Air Act. It is an environmental rider on the HUD–VA bill. It has had no authorization. It has had no hearing. It does not belong in this bill.

The amendment from Wednesday still takes a longstanding right away from the States. States with serious air pollution need to be able to reduce emissions from these engines. The 1990 amendments to the Clean Air Act guarantee the States the right to do so. This provision overturns that right without even going through the proper channels.

Under the compromise, my State alone will lose the right to regulate over 4 million cars' worth of pollution. That is what is being taken away—access to 4 million cars' worth of pollution. That means the State is most likely going to have to tighten regulations on stationary sources, which is going to mean more expense to major industries in the State of California. That means job loss in other industries.

I cannot see how building cleaner engines should cost jobs to individuals at one company when every other company has said they will be able to build the engines without job loss. Because Briggs & Stratton does not like one California regulation, every State in the Union is going to permanently lose the right to reduce pollution from these engines. States with serious pollution problems need to be able to reduce these emissions or risk harming public health and losing transportation funds.

This provision affects every single State, not just California. For example, I understand that New York has already adopted the California regulation affecting recreational boat motors. New York will lose that regulation because of this provision.

Eight southeastern States—Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee—have all written a letter opposing this provision. The letter clearly states that any compromise that does not fully restore the State's rights is unacceptable to those States.

Mr. President, I ask unanimous consent that the November 10 letter from the Southeastern States Air Resources Managers be printed in the RECORD following my remarks.

The PRESIDING OFFICER (Mr. CRAPO). Without objection, it is so ordered.

(See exhibit No. 1.)

Mrs. FEINSTEIN. Thirdly, States still need flexibility to improve air quality. One size-fits-all solutions just do not work. We should not force every State to rely on national regulations. National regulations move too slowly and are often just not strong enough for States with a lot of pollution.

We have heard a lot about unfunded mandates lately in the Senate. We have given the States a duty to protect public health. The small engine provision does not change the States' responsibility but it takes away a mechanism by which they might comply with this mandate. This provision, in a sense, creates another unfunded mandate.

The amended provision still creates a very bad precedent. I don't think one company should be allowed to overturn States' rights under the Clean Air Act, especially when that company said on their annual report to the Securities and Exchange Commission on September 11, 2003, that the disputed regulation would not "have a material effect on their financial condition or results of operations, given that California represents a relatively small percentage of Briggs & Stratton's engine sales and increased costs will be passed on to California consumers."

This is their 10–K, their report to the Securities and Exchange Commission, from just 2 months ago. Where does the truth really lie? If California is just a small part of the company's market and the company will just pass on the costs, why does Briggs and Stratton object to the California regulation and insist on changing the Clean Air Act? It makes no sense.

I believe people will pay the necessary costs for cleaner engines. I believe that people will pay for cleaner lawnmowers when they learn that you have to drive your car for 13 hours to produce as much pollution as your lawn mower does in 1 hour.

Every company and every industry needs to do their part to protect public health. Briggs & Stratton should be no different. We should not allow them to pass the buck to other industries.

Once again I will quote from a letter from Allen Lloyd, the Chairman of the California Air Resources Board, about this provision. According to Mr. Lloyd,

> . . . the aggregate impact of the 50 hp [horsepower] preemption will be 70 tons per day of smog by 2010, the date by which California's various offroad regulations would have been fully effective. This tonnage impact is over and above Federal regulations for the same emission sources and reflects California's more health-protective rules. For context, 70 tons per day is equivalent to adding 2.4 million cars to California roadways . . .

So when the conference committee includes this provision in their conference report, they are effectively adding 70 tons of pollutants to California's air each day. The California Air Resources Board has also said that this provision could well result in the death of more than 300 people per year in California alone.

California already has seven nonattainment areas, more than any other

State. My State has the worst air quality in the country, and now this provision is taking away the State's right to regulate some of the dirtiest engines available. It is a strike at the core of States' rights under the Clean Air Act.

The small engine provision also threatens our economy. California has to reduce emissions from these engines to comply with air quality requirements under the Clean Air Act. Taking away the State's right to reduce emissions threatens our State Implementation Plan, with serious economic consequences.

Violating the State's plan will jeopardize $1 billion in transportation funds per year in Southern California alone. The South Coast could lose those funds next summer. The South Coast has the worst air quality in the nation and cannot afford to lose $1 billion per year in transportation funds.

Statewide, this provision threatens $2.4 billion in transportation funds. And this is just in California.

So this has huge ramifications for my State and every other State facing serious pollution. They will all be in a serious situation in the future when the time comes and they find their hands are tied because one company did not want to build cleaner engines.

It has become clear that the supporters of the small engine provision have confused two very different ideas. Just because a group is concerned about the California regulation on lawn and garden equipment does not mean they support the small engine provision.

The California Association of Fire Chiefs has expressed important safety concerns about a specific regulation. But the chiefs have also clearly said they oppose the small engine provision because of its affect on States' rights. The Fire Chiefs understand the importance of state leadership on these issues. To quote the chiefs' November 11 letter in reference to the small engine provision:

> We were never asked to comment on this matter, but for the record, we do not support legislation that would interfere with a state's ability to protect its own citizens.

Mr. President, I ask unanimous consent that the Fire Chiefs' letter from November 11 be printed in the RECORD following my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 2.)

Mrs. FEINSTEIN. Mr. President, I do not quite know what to do. I would very much like to have a vote on this matter. I have tried to importune the conferees. I am told the Governor of California, Mr. Schwarzenegger, now inducted as Governor, has indicated his support for the removal of this amendment. It is my understanding that a whole panoply of States oppose this provision.

It is clear to me this is a bad thing. It is clear to me this is going to set back the cause of clean air. It is clear to me this is going to impact youngsters and the elderly with asthma and other lung diseases. It is clear to me that it is going to impact our transportation dollars. It is clear to me that by 2010, because of one company, California is going to have deal with 70 additional tons of smog per day. None of this needs to happen.

I regret that I cannot send an amendment to the desk. I regret I am not being allowed a vote on the amendment. But this is the wrong thing to do.

I yield the floor, Mr. President.

EXHIBIT 1

SOUTHEASTERN STATES AIR
RESOURCE MANAGERS, INC.,
November 10, 2003.

Hon. ZELL MILLER,
Dirksen Senate Office Bldg.,
Washington, DC.

DEAR SEN. MILLER: Southeastern States Air Resource Managers, Inc. (SESARM), representing the directors of the southeastern state air pollution control agencies in Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee, is writing this letter to encourage your support of the removal of a position introduced by Senator Bond in S. 1584, the Fiscal Year 2004 VA, HUD and Independent Agencies Appropriations Bill. The provision would amend Section 209(e)(1)(A) of the Clean Air Act to curtail a state's authority to reduce emissions from diesel and gasoline off-road equipment and engines.

While Senator Bond's proposed provision regarding the off-road engines apparently was intended to address rules adopted only in California, it will limit the ability of all states to solve serious public health-related air quality problems. Senator Bond's proposal revises a very important provision of the Clean Air Act which allows states to adopt engine emission standards more stringent than the federal standards as long as appropriate federal review processes are followed. Congress wisely put this provision into the Act to give states the ability to deal with serious air quality problems across the country. SESARM opposes the impact of the Bond proposal on this important provision.

Please note that other compromise amendments which fall short of fully restoring Section 209(e)(1)(A) are, in our opinion, unacceptable and will constrain states as discussed above. SESARM and your state air pollution control agency would appreciate your support of removal of the Bond Amendment from S. 1584.

Sincerely,

JOHN E. HORNBACK,
Executive Director.

EXHIBIT 2

CALIFORNIA FIRE CHIEFS ASSOCIATION,
November 11, 2003.

Sen. DIANNE FEINSTEIN,
Hart Senate Office Building,
Washington, DC.

DEAR SEN. FEINSTEIN: The California Fire Chiefs Association (CFCA) has been expressing concerns about the potential fire hazard posed by catalytic converters that may be required for certain lawnmowers and other outdoor power equipment. In just the past few days, out concerns seem to be receiving significant attention.

After further investigation we have determined that there were some misunderstandings between CFCA representatives and the California Air Resources Board (CARB) as it relates to the regulations.

The fire safety issues we raised need more attention and require independent assessment before engineering and production decisions are made. In our most recent discussions with CARB, they support the idea of an independent study, and have proposed moving forward with a study, much the same as what is now underway with catalytic converters being used in marine applications. We enthusiastically support this idea, and will be working closely with CARB, the Sate Fire Marshal, and the US Environmental Protection Agency to ensure that all fire safety concerns are addressed. We wish to make clear that we regard fire safety and environmental quality as being equally important, and wish to make it clear that we support without reservation the air quality goals of the proposed requirements. We support the regulation moving forward as we have received assurances from CARB that our safety concerns will be addressed through the independent study.

Finally, we understand that as a separate matter, the Senate is debating the question of whether states are free to develop safety and environmental standards. We were never asked to comment on this matter, but for the record, we do not support legislation that would interfere with a state's ability to protect its own citizens. To the contrary, we have had to count on the Sate of California to develop fire safety standards for upholstered furniture, mattresses and bedding because the federal government has failed to do so. The issues of fire safety and air quality as they relate to outdoor power equipment can be addressed, and I believe that working closely with CARB we will find a solution that will provide a high degree of fire safety while maintaining CARB's goals for air quality.

In closing, allow me to express my personal apologies to you. We were not aware that you had an interest in this matter or that we were engaged in anything beyond fire safety. As you know, we have had our hands full in the past month. Even so, if we had been aware of your interest, we would have asked for your help in sorting through these issues. You have always been there when we've needed your help. We look forward to moving beyond the current issues and working with you on higher levels of air quality and fire safety for the communities of California.

Sincerely,

WILLIAM J. MCCAMMON,
President,
California Fire Chiefs Association.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BOND. Mr. President, I have had numerous discussions with the Senator from California. Obviously, we see these issues very differently.

Let me point out to my colleagues, this is not something that has just come up. When we had the committee markup of this bill, the Senator and I had an opportunity to debate it at that point. An amendment, not modified, such as the one I presented on the floor last week, was kept in the bill. Her motion to strike failed 17 to 12.

After that time, we met with the Senator from California and other concerned Senators to make sure we did not do the things that the current California Air Resources Board regulation would do; that is, cost 22,000 American jobs and put at risk of fire, burn, and explosion people using small engines, whether they be in a lawnmower, a leaf blower, a weed eater, or a chain saw. These were the real problems in the California Air Regulation Board proposal.

Now, when I listened to the Senators, they wanted to make sure, No. 1, they did not affect diesels. I said good point; make sure we cut diesels. They wanted to make sure it only applied to smaller engines, and that is why we put the 50 horsepower and smaller engine limitation in it. They wanted to make sure you could require retrofitting, and we made it clear it was only for new engines.

Most of all, almost every State wanted to get some form of reduction of pollution from these small engines, so we crafted an amendment that made all those changes and specifically directed the EPA to move forward with a rule. The fastest they can do that rule is that it is to be proposed by December 1, 2004; and then the EPA is required to move forward on it. That would be a quicker reduction in emissions than under CARB, the California Air Resources Board, proposal.

Now, when this measure came to the floor, I had a number of cosponsors, people who felt very strongly, as do I, about this amendment, and we debated it on the floor. The Democratic leadership came to us and said: We do not want to vote on this. We want to accept it by voice vote. We said: All right, we will cut off the debate, accept it by voice vote, if that is the last we are going to deal with it.

Now, today, my colleague from California says she was not a party to that agreement and she wants a vote on it. Well, I view it as a failure to live up to that agreement.

Nevertheless, there are a very significant number of Senators on my side, and I assume on the other side, who would want to weigh in on it, and some of those Senators are not back. As I said, we have a deadline this afternoon when we are going to try to take other amendments on this bill. I said we would not be debating this amendment today because other Senators have amendments that must come up.

But there is so much misunderstanding about what the Clean Air Act provides, what CARB has done, and what my amendment would do.

First, the Senator has said, on a number of instances, that every State loses the right to fight pollution. States can take bits and pieces of the California ruling and use it in their State.

Well, No. 1, California is the only State that has a narrow exemption for engines under 175 horsepower that do not affect agriculture and construction. Obviously, many of these engines that are affected would affect agriculture and construction. No State can pick and choose and develop its own regulations from part of the California regulation or take bits and pieces of the California regulation. No State, on its own, can go out and regulate these small engines. There was a presumption in the Clean Air Act that we would have a national standard.

Now, the EPA has moved forward on regulations on a wide variety of engines. We are directing them specifically to go after these small engines and get the proposed rule out within 1 year, to consider job loss, and to consider the fire hazard of these catalytic converters.

I understand the CARB regulation would not go into effect until 2007. My colleague from California said we cannot force all States to rely on national standards. Well, that is what the Clean Air Act does. We want to make sure the national standards are imposed to give every State the reduction in air pollution which comes about from implementing the kinds of changes that were made for ATVs and snowmobiles that do not require catalytic converters.

At the end of the day, if they cannot get the reductions, then EPA, which has a national responsibility, can listen to all of these arguments. Frankly, many of the arguments made by the Senator from California reflect a completely different understanding than I have on the science and on the technology involved.

Under these circumstances, I do not think we ought to be exporting 22,000 jobs to the Far East, perhaps China, and posing a significant fire risk to anybody using small engines.

As I have said before, I use those small engines. When I am using a chainsaw, I am very aware of the danger of that saw blade. If it had a catalytic converter-heated engine, at 1,100 degrees, I do not know how I would do it. I would probably, if I cut down a tree, set the tree on fire with the catalytic converter.

When we are talking about fire hazards, as I would think anybody in California would be very much concerned about, a catalytic converter is a tremendous fire hazard. I will go into that in a moment.

But my colleague said one company, referring to Briggs and Stratton, should not be allowed to change our air quality rules. Frankly, California wrote a rule that favors one company, Honda, which manufactures small engines and has very significant production in the Far East already.

They could start up just like that because the American companies would not be able to retool immediately. Honda would capture the market. I am arguing for the jobs of 5,000 workers in Missouri, 5,101 workers for Briggs & Stratton, and about 2,000 of them work for Briggs & Stratton; 3,000 of them work for other companies that have part of this: In Wisconsin, 5,158 jobs; Georgia, 2,542 jobs; Kentucky, 2,198 jobs; Illinois, 2,116 jobs; Alabama, 1,288 jobs.

I am worried about the workers. I have visited those workers. I did not know the Senator from California was coming to the floor today. Otherwise, I would have brought out a scroll signed by the workers who would lose their jobs if this amendment were adopted.

The Senator points out that Briggs & Stratton said it wouldn't cause them much trouble. Well, they are a multi-billion-dollar company. They can move their production to China as well. I fully expect that they would. It wouldn't make much of a difference to the shareholders. They said it wouldn't affect the shareholders, no. But it will affect 22,000 jobs in the United States. That is why this amendment is important.

These arguments and the totally differing view of how this problem can be addressed should rightly be debated at the national level. The EPA is directed to move forward, take all the technological information, take the arguments, listen to the safety concerns, listen to the cost benefit arguments, and figure out how the Nation can get cleaner air by further limiting the pollution from these small engines. If they come down with a modified catalytic converter proposal at the end of the day, so be it.

But the California fire chiefs were excluded from the negotiations. The negotiation went on between CARB and Honda. The California fire chiefs were stunned because they had been assured that there would not be a problem with the regulation causing fire.

After they saw the CARB rule, the California State fire marshals wrote a letter saying:

> We categorically do not support the CARB proposed regulation because we believe it will lead to a substantial increase in residential and wildland fires.

The Senator and the chief of staff from California have had very direct conversations with representatives of the California fire chiefs. They must have been very persuasive because now their letter says:

> We are sure that the safety concerns can be addressed.

I think that suggests that there was a great deal of effective persuasion applied. But they were not the only ones who believed there was a problem, when you look at the other people who have raised questions about it. The National Association of State Fire Marshals remains very concerned that the CARB rule cannot be safely met. The U.S. Consumer Product Safety Commission expressed concerns over the potential for burn, fire, or material hazards that remain unaddressed. The Missouri State fire marshals remain concerned that the CARB rule creates a significant threat to the safety of the people, property, and the environment. The National Marine Manufacturing Association is concerned that California's activities create marine safety issues that must be evaluated further before they are imposed on industry.

There is one place where they can evaluate those concerns and evaluate the technology and make sure we clean up the air without an undue cost, a cost in risk of fire and explosion. I was talking with a fellow in Missouri this weekend at a football game. His neighbor drove a car with a catalytic converter out into the field, caught the field on fire. A lot of people are very much concerned, in addition to these groups, as to the dangerousness of catalytic converters, which can get up to 1,151 degrees.

In the November 6 letter I received before there was this very persuasive meeting with the eloquent Senator from California, the California fire chiefs said:

> Earlier this year, in oral and written communications to the California Air Resources Board, our association expressed serious concerns about the CARB's plan to require catalytic converters on lawn mowers and other lawn and garden power equipment. Firefighters have far too much experience suppressing fires caused by catalytic converters on automobiles carelessly parked on combustible grass and leaves. After this past month of fighting wildland fires, we are almost too tired to think about catalytic converters on lawn mowers which, after all, are intended for use on grass. California does not need yet another way of igniting fires.

That was the November 6 letter sent to me.

Grass ignites at about 500 degrees. Grass clippings ignite at 518 degrees. High efficiency catalytic converters from CARB's own testing reach temperatures of 1,126 degrees Fahrenheit. We wrote to CARB. I asked them if they had any safety data, if they had done any studies, had they looked at alternative methods, had they tried out any of these small engines with catalytic converters, had they done any tests. We asked them a whole list of questions that any responsible agency would be expected to answer. I fully expect the Environmental Protection Agency to make sure we have a rule that cleans up the environment but doesn't cost jobs and doesn't increase significantly the risk of fire.

There are many issues we are not going to be able to resolve here today. I want to see these technology issues debated, worked out on a prompt schedule, and produced in a resolution by the EPA.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mrs. FEINSTEIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

Mr. BOND. I object.

The PRESIDING OFFICER. Objection is heard.

The clerk will continue the call of the roll.

The legislative clerk continued with the call of the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Mr. President, I have been working with the distinguished Senator from California for more than a day. I am trying to work out this very sensitive issue dealing with small engines, which has been talked about at some length.

I am very disappointed that the majority is not going to allow the Senator from California to have a vote on this amendment. It is too bad. It happens. It happens too much around here. When there is some decision made that they may not be able to win the vote, they just don't give us a vote. I think that is unfortunate.

I have spoken to the Senator from California and, of course, everybody needs to hear it from her. We are going to take our chances in conference on this matter. The House has said this should not be in the bill. The Senator from California, if she wanted to be like too many people are around here and say if she doesn't get what she wants, nobody will get anything, could hold up action on this important legislation that Senator MIKULSKI has worked on for many months with the majority.

The only thing I can say is I applaud the Senator from California for what she has indicated she reasonably might do, and that is not go forward on this amendment. I think it is too bad.

I have said it before, and I will say it again. I personally think she is on the right side of this issue. If this matter were brought to a vote, I think she would win it on the Senate floor. Obviously, we have been here now for 3½ hours, and the majority has indicated they are not going to allow a vote. When this amendment goes down, it will allow us to move forward with other pieces of this legislation.

I say to my friend from California, it is my understanding that she has heard the statements that I have made. And as I have indicated through the Chair to the Senator from California, this happens far too often here. When it appears there is a chance that we can win a vote, they don't give us a vote. As a result of that, we are not going to be able to have a vote. But for the Senator from California, being the team player she is, we would not be able to go forward on the bill. I still think the Senator from California and the Senator from Nevada are members of the conference, and we will do our best in full conference to see that justice prevails. I will do what I can.

I express my appreciation to the Senator from California for her not moving forward with the amendment at this time.

Mrs. FEINSTEIN. Mr. President, I thank the Democratic whip for his concern and his words.

I want to correct a couple of things. The Senator from Missouri pointed out that catalytic converters are fire hazards. That may be true with some. But virtually every automobile, every pickup truck, every sport utility vehicle driving on the roads and highways of California today is equipped with a catalytic converter. It has been that way for a substantial period of time. Catalytic converters are nothing new.

Secondly, I want you to know that Honda has said that they would increase their U.S. production of these engines even with the California regulation. So, in other words, there are other companies manufacturing these engines in the United States that have said they would adhere to these new regulations and produce cleaner engines.

Thirdly, I want you to know that Briggs & Stratton has already moved some of its operations to China. I very much doubt that this California regulation has much to do with it. I am told they have been manufacturing in China since 1986, and in April of this year they increased their ownership share of two factories in China from 52 percent to a controlling 90 percent. I am also told that California regulators have incorporated Briggs & Stratton's own recommendations into its final rule issued in September. The Air Resources Board relaxed the regulation's exhaust emissions standard, relying instead on controlling evaporative emissions, as recommended by Briggs & Stratton.

So I don't know why this is being done. But I will tell you one thing: everybody who votes to sustain this will be also voting to put 70 more tons of smog into California's skies in 2010. That is how important this issue is to our State.

I yield the floor.

Mr. REID. Mr. President, it is my understanding that the Senator is going to withdraw the amendment.

Mrs. FEINSTEIN. I did not send it to the desk.

The PRESIDING OFFICER. The Senate is in morning business at this time.

Mr. REID. Could the bill be reported?

Mr. BOND. Mr. President, I ask that we go to the bill.

DEPARTMENTS OF VETERANS AFFAIRS AND HOUSING AND URBAN DEVELOPMENT AND INDEPENDENT AGENCIES APPROPRIATIONS ACT, 2004—Resumed

The PRESIDING OFFICER. The clerk will state the bill.

The legislative clerk read as follows:

> A bill (H.R. 2861) making appropriations for the Departments of Veterans Affairs and

Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes.

Pending:

Bond/Mikulski amendment No. 2150, in the nature of a substitute.

Clinton amendment No. 2152 (to amendment No. 2150), to permit the use of funds for the Capital Asset Realignment for Enhanced Services (CARES) initiative of the Department of Veterans Affairs for purposes of enhanced services while limiting the use of funds for the initiative for purposes of the closure or reduction of services pending a modification of the initiative to take into account long-term care, domiciliary care, and mental health services and other matters.

Mr. REID. Mr. President, I ask unanimous consent that the only amendments in order on this bill be the Dayton amendment on the Wellstone Center; Durbin amendment on senior discount; Jeffords amendment on new source review study; Bingaman sense-of-the-Senate amendment on DOD smallpox vaccine; Schumer, EPA clean air amendment; Feingold, VA health care fairs/outreach; Reid-Graham, Iraq prisoners; Daschle, Agent Orange; and the managers' amendments that are approved by Senators MIKULSKI and BOND.

Mr. BOND. Mr. President, I have no objection on this side.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Mr. President, I appreciate the actions taken by the distinguished minority whip, the Senator from Nevada, and also the agreement by the Senator from California to withdraw her amendment.

All I can say about it is, No. 1, we had an agreement, we thought, with the floor staff when we debated this last week—requested by the minority floor staff—that there not be a vote because they did not want a vote. Our condition was we needed to move on to other things. We would have a brief time schedule. As you can see, there is no way that we can restart, in the 45 minutes we have left, this entire debate.

I will state that I categorically disagree with the views reached by the Senator from California. If we are successful in including the measure in the final VA–HUD amendment, all these issues will be resolved by the EPA.

Mr. President, we had an oversight. Senator MCCAIN has an amendment that he was promised the other day. I ask the minority leader if he would agree to adding that since we told Senator MCCAIN he could bring his amendment up.

Mr. REID. Yes, I agree that he should be able to do so.

I ask unanimous consent that the McCain amendment be added to the list.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Mr. President, we are open for business. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2194 TO AMENDMENT NO. 2150

Mr. BOND. Mr. President, I send an amendment to the desk on behalf of Senator REID of Nevada and Senator GRAHAM of Florida, and I ask for its immediate consideration.

The PRESIDING OFFICER. Is there objection to laying aside the pending amendment?

Without objection, it is so ordered. The clerk will report.

The legislative clerk read as follows:

The Senator from Missouri [Mr. BOND], for Mr. REID, for himself, and Mr. GRAHAM of Florida, proposes an amendment numbered 2194 to amendment No. 2150.

Mr. BOND. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To express the sense of Congress on damages caused by the regime of Saddam Hussein during the First Gulf War)

On page 125, between lines 7 and 8, insert the following new section:

SEC. 418. (a) Congress makes the following findings:

(1) During Operation Desert Shield and Operation Desert Storm (in this section, collectively referred to as the "First Gulf War"), the regime of Saddam Hussein committed grave human rights abuses and acts of terrorism against the people of Iraq and citizens of the United States.

(2) United States citizens who were taken prisoner by the regime of Saddam Hussein during the First Gulf War were brutally tortured and forced to endure severe physical trauma and emotional abuse.

(3) The regime of Saddam Hussein used civilian citizens of the United States who were working in the Persian Gulf region before and during the First Gulf War as so-called human shields, threatening the personal safety and emotional well-being of such civilians.

(4) Congress has recognized and authorized the right of United States citizens, including prisoners of war, to hold terrorist states, such as Iraq during the regime of Saddam Hussein, liable for injuries caused by such states.

(5) The United States district courts are authorized to adjudicate cases brought by individuals injured by terrorist states.

(b) It is the sense of Congress that—

(1) notwithstanding section 1503 of the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108–11; 117 Stat. 579) and any other provision of law, a citizen of the United States who was a prisoner of war or who was used by the regime of Saddam Hussein and by Iraq as a so-called human shield during the First Gulf War should have the opportunity to have any claim for damages caused by the regime of Saddam Hussein and by Iraq incurred by such citizen fully adjudicated in the appropriate United States district court;

(2) any judgment for such damages awarded to such citizen, or the family of such citizen, should be fully enforced; and

(3) the Attorney General should enter into negotiations with each such citizen, or the family of each such citizen, to develop a fair and reasonable method of providing compensation for the damages each such citizen incurred, including using assets of the regime of Saddam Hussein held by the Government of the United States or any other appropriate sources to provide such compensation.

Mr. REID. Mr. President, I rise on behalf of myself and Senator GRAHAM of Florida, and on behalf of 17 brave Americans who were taken hostage and tortured by Saddam Hussein during the first Gulf War.

I have already spoken in this Chamber about the horrible treatment these Americans endured. Saddam's evil henchmen violated international law in the treatment of these war prisoners, and they violated every law of human decency.

After the war, these prisoners sought justice against Saddam. They did it not only because he had tortured them in violation of the law, but also to send a message that would protect other Americans in the future. And Congress supported their effort. In 1996, Congress amended the Foreign Sovereign Immunities Act so their case would be able to proceed.

They won their case in court on its merits because they had the truth and the law on their side. But now they are in danger of losing the judgment they legally obtained because they do not have the United States Government on their side.

The Justice Department intervened to prevent them from collecting their judgment from seized Iraqi assets. And when this Senate responded by passing this very same amendment a few weeks ago, the State Department intervened by seeking to strike the amendment from the special Iraq-Afghanistan appropriations bill.

In a letter dated October 27, Deputy Secretary of State Armitage wrote these words:

> Under the President's May 7, 2003 Determination . . . any provision of law that applies to countries that have supported terrorism was made inapplicable to Iraq.

This is the country we invaded as part of our war on terrorism . . . yet the President has said that Iraq will not be treated as a nation that supported terrorists.

I think that is wrong, and my amendment, which is exactly the same as the one the Senate earlier approved, makes perfectly clear the longstanding intent of Congress that terrorists who torture U.S. citizens must be held accountable.

Saddam Hussein was a tyrant who committee horrible atrocities against his own people and against Americans.

In fact, many believe that he is behind the continuing attacks on our American solders. It is beyond my comprehension why these Federal bureaucrats are now siding with Saddam Hussein and against these former prisoners of war who suffered at his hands.

These brave heroes are merely seeking to hold Iraq accountable for its crimes, and deter the torture of any American citizen by a terrorist state in the future. A civilized world cannot let such crimes go unpunished. The perpetrators must be held to account.

I urge adoption of this amendment.

Mr. GRAHAM of Florida. Mr. President, I join Senator REID today in offering an amendment that would allow a group of 17 prisoners of war from the first war in Iraq and their families, to collect the damages that have been awarded to them in a court of law, that are being blocked by the Bush administration.

Historically, foreign nations and their diplomats have been protected from lawsuits in the United States, for their actions. However, that historical protection has been limited in certain instances. In 1996, Congress amended the Foreign Sovereign Immunities Act to allow American citizens and families of American citizens to sue nations that have been found to be "terrorist states," for acts of terrorism such as torture or taking of hostages. Congress went on to enact the Terrorism Risk Insurance Act of 2002, which included a provision to allow frozen assets of terrorist states in U.S. banks to be used to pay court-awarded damages.

Relying upon this legal framework, 17 of 21 prisoners of war of the 1991 Persian Gulf War and 37 members of their immediate families filed suit against Iraq. I won't describe the horrific experiences of every one of these brave men or the unimaginable distress of their families. But I do want to tell you about the experience of three of these POWs: LTC Michael Robert; LTC Russell Sanborn; and LTC Craig Berryman, three service members from Florida. It is important for the Senate and the American people to understand what they suffered while they were held in captivity.

These soldiers endured horrendous treatment and are fortunate just to have survived. LTC H. Michael Roberts was shot down while flying over Iraq on January 19, 1991, He was able to eject but was immediately captured when he landed. In captivity, he suffered repeated beatings—his captors cut his head from repeated blows from their rifle butts and he was shocked with an electronic prod.

LTC Russell Sanborn's plane was shot down on February 9, 1991, and he was taken prisoner by a group of Iraqi soldiers. He was brutally beaten and suffered severe malnutrition. He lost 14 pounds in 26 days. Upon his release, Russell was diagnosed with parasitic anomalies and hearing loss.

LTC Craig Berryman's aircraft was shot down on January 28, 1991. In captivity he survived numerous beatings and torture. As a result of his abuse in Iraq, Craig has continued to experience health problems.

After having to relive these horrors in court, on July 7, 2003, a judgment was rendered in their favor and they were awarded compensatory and punitive damages. The problem is that when they went to collect their damages against the frozen Iraqi assets held in U.S. banks, the money was no longer there. That is because on March 20, 2003, immediately after start of military action against Iraq, President Bush issued an executive order confiscating Iraq's frozen assets in the United States and placing them in the Iraq Development Fund for use in its reconstruction.

The Bush administration has done every thing in its power to undermine the integrity of this judicial process and to protect the interests of Iraq over the interests of American former prisoners of war. On May 22, 2003, the President issued another executive order which prohibits any judicial action that would seek funds from the Development Fun for Iraq, or other Iraqi national assets. The Bush administration went on to interpret the language in the 2003 emergency war supplemental intended to remove restrictions to providing foreign assistance to Iraq as a bar attachment of Iraqi foreign asset.

When repeatedly asked about why the administration is standing in the way of these veterans being paid their court-awarded damages, the White House spokesman, never answered the question, but reiterated, three times, that "there is no amount of money that can truly compensate these brave men and women for the suffering they went through at the hands of Saddam Hussein." If the Bush White House has their way, there will, in fact be no amount of money to compensate these brave men and women despite having proven their case in a court of law.

Earlier this month, Congress approved President Bush's $87 billion supplemental appropriation request for the occupation and rebuilding of Iraq. At that time, I raised some significant questions as to our national priorities. We are facing mounting national debt. While our roads, bridges, schools, water and sewer lines, and electric grids are deteriorating, we will be sending billions of dollars to rebuild Iraq.

This is another one of those questions. We are sending money to rebuild Iraq, but we are turning our back on a judicial decision that was achieved under laws this body created. We are turning our backs on the torture inflicted upon these 17 veterans who were taken as prisoners of war while serving our country.

Mr. President, the costs of war do not end at the borders of Iraq; veterans will continue to pay them for years to come. I urge my colleagues to join us in this effort to see this injustice is rectified. I thank Senator REID for his leadership on this issue.

Mr. BOND. Mr. President, we are willing to accept the amendment on this side.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Mr. President, again this is an amendment that was offered and adopted earlier. It deals with Americans who were held prisoner of war in the first gulf war. This is legislation that is directly in keeping with the sense of the last amendment that was adopted. Senator GRAHAM feels strongly about this issue, as do I. I ask that the Senate approve the amendment.

The PRESIDING OFFICER. Is there further debate?

If not, the question is on agreeing to amendment No. 2194.

The amendment (No. 2194) was agreed to.

Mr. REID. I move to reconsider the vote.

Mr. BOND. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. BOND. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. McCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. McCONNELL. I ask unanimous consent that I be permitted to speak as in morning business for 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

(The remarks of Mr. MCCONNELL are printed in today's RECORD under "Morning Business.")

Mr. McCONNELL. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DURBIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. Mr. President, are we on the VA-HUD appropriations bill?

The PRESIDING OFFICER. We are.

Mr. DURBIN. It is my understanding that at 4:30 we are going to move to the FAA reauthorization bill. Understanding that deadline faces us, with the approval of the chairman of the subcommittee—I hope to have his attention before I make this request—if I might ask the Senator from Missouri, would it be acceptable for me to divide the time between now and 4:30 so that

I would use 15 minutes and then yield to Senator DAYTON for 15 minutes, who also has an amendment to offer? That way, we would reach the 4:30 deadline by dividing the time equally. If that meets with the approval of the chairman of the subcommittee, I would like to make a unanimous consent request along those lines.

Mr. BOND. Mr. President, to respond to my good friend, No. 1, we are ready to accept his amendment. If we could have some more time to handle other business, I would like to. If, perhaps, the Senator—each Senator could take 5 minutes or 10 minutes?

Mr. DURBIN. Let me thank the chairman for accepting my amendment. I will take 5 minutes and that is all. I would like to give 15 minutes, if it is acceptable, to Senator DAYTON to offer his amendment, and then I think that leaves you a balance of 10 minutes before 4:30.

Let me say I accept the offer of the Senator from Missouri. I will speak for 5 minutes.

Mr. BOND. I thank the Chair.

AMENDMENT NO. 2195

Mr. DURBIN. Mr. President, I send an amendment to the desk.

The PRESIDING OFFICER (Mr. CHAMBLISS). Without objection, the pending amendment is set aside. The clerk will report.

The legislative clerk read as follows:

The Senator from Illinois [Mr. DURBIN], for himself Ms. SNOWE, Mr. JEFFORDS, Mrs. BOXER, Mr. LAUTENBERG, Ms. CANTWELL, and Mr. LIEBERMAN, proposes an amendment numbered 2195.

Mr. DURBIN. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

At the appropriate place insert the following:

None of the funds provided in this Act may be expended to apply, in a numerical estimate of the benefits of an agency action prepared pursuant to Executive Order 12866 or section 812 of the Clean Air Act, monetary values for adult premature mortality that differ based on the age of the adult.

Mr. DURBIN. Mr. President, I ask the following Senators be added as cosponsors of this amendment: Senators SNOWE, JEFFORDS, BOXER, LAUTENBERG, CANTWELL, and LIEBERMAN.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. In 5 minutes, I will try to describe very briefly what this amendment does.

This amendment will stop the Environmental Protection Agency and other agencies funded in this bill from using the discriminatory method known as the senior death discount. Right now, heart disease, cancer, and strokes are the leading causes of death of people over 65. According to CDC, air pollution can be particularly devastating to the health of seniors.

The EPA should be creating regulations to protect everybody. However, now we are in the cost-benefit era, and that means each regulation has to be costed out. In other words, we must determine the burden regulations have on the private sector of our economy, including what will it cost them. We must also determine the benefit regulations have for all Americans.

In order to reach the proper evaluation of any regulation, you have to determine the cost of the harm that is being done. That is why this amendment is being offered.

Right now, the EPA is discounting the lives of senior citizens. You may have seen this ad in magazines and newspapers showing this forlorn senior. This lady has been told that since she is over the age of 70, she is only worth 63 percent of any other person, say someone age 69. You can understand her sadness, and a sadness that might be shared, incidentally, by some 19 Senators who are 70 years old or older. Try to tell these Senators they are worth only two-thirds of those younger, and you are in for a fight—and rightly so. Their lives are as important to them and to our Nation as anyone else's life.

We need to try to establish the cost to America in honest terms, to determine, for example, the real cost of the regulation relating to heavy diesel equipment, and not say senior citizens are worth less today than others.

I ask unanimous consent that a letter in support of my amendment from the AARP be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

AARP,
Washington, DC, November 14, 2003.

Hon. RICHARD J. DURBIN,
Senate Dirksen Office Building,
U.S. Senate, Washington, DC.

DEAR SENATOR DURBIN: AARP commends you for your efforts to amend H.R. 2861, the Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriations bill for Fiscal Year 2004, to prohibit the use of funds to "apply numerical values for adult premature mortality that differ based on the age of the adult in a numerical estimate of the costs and benefits of an agency action. . . ." We urge that you continue your efforts as the bill is folded into an omnibus appropriations measure.

AARP submitted comments in May to the Office of Management and Budget in response to its Draft 2003 Report to Congress on the Costs and Benefits of Federal Regulations. In them, we expressed our deep concerns regarding the arbitrary 37 percent discount to the life value of adults aged 70 and over incorporated by the Environmental Protection Agency in its cost-benefit analysis of the Administration's Clear Skies Initiative. We noted that the discount lacked a sound scientific basis, and we voiced concerns regarding its ultimate impact not only on older persons, but on the rest of the population as well.

OMB's Office of Information and Regulatory Affairs subsequently called upon EPA to discontinue use of the age adjustment factor cited above, and advised other federal agency analysts that they should not use it either. At the same time, the agency appeared to encourage other methodologies that might assign monetary values for adult premature mortality that differ based on the age of the adult. Application of age-related analytical methodologies or others involving population subgroupings—particularly when monetary assessments are assigned to life value—hold great risks. We are concerned that there may be insufficient science to justify such action.

Again, AARP strongly supports your efforts as well as those of Representative Thomas Allen, to ensure that the lives of older people not be devalued, and that needed protections not be shortchanged by the application of biased analytical approaches. We urge your colleagues in conference to do the same.

Should you have any questions, please contact me or have your staff contact Jo Reed or Tim Gearan in our Federal Affairs office at 202-434-3800.

Sincerely,

MICHAEL NAYLOR,
Director of Advocacy.

Mr. DURBIN. What we see, and I will summarize, is an effort by some to discount the lives of senior citizens in America, when judging the impact of public health regulations. That has to come to an end. We have to make certain the policy we follow in this country, the policy that is being articulated by John Graham, the head of the OMB regulatory office, is one that counts senior citizens the same as any other citizen.

Some of the statements made by Mr. Graham are troubling. But with this statement, and the amendment we have offered today, which is identical to the one offered by the House of Representatives, this bill will say once and for all that senior death discounting has to come to an end.

I ask unanimous consent that a list of supporting groups be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. DURBIN. To reiterate, this amendment would stop the EPA and other agencies funded in this bill from using a discriminatory method of regulatory analysis known as the senior death discount.

Heart disease, cancer, and strokes are the leading causes of death for people age 65 and older. According to the CDC, air pollution can be devastating to the healthiest Americans, but can be deadly for senior citizens and other vulnerable populations with these diseases. The EPA should be creating regulations that maximize health protections for everyone, especially older Americans.

However, instead of maximizing the benefits for everyone, the regulatory analysis is being manipulated in a way that makes seniors' lives, and the lives of other vulnerable populations, worth less than the lives of other Americans.

This practice, commonly known as the senior death discount, devalues the lives of almost 30 million Americans who are over the age of 70.

To give you a sense of how this works, when the EPA develops environmental regulations, it must evaluate the costs and benefits of multiple regulatory alternatives. As part of the calculation of benefits, the EPA places a dollar amount on each life that can be saved by implementing each alternative. The EPA often makes a determination about which regulatory alternative to adopt based on the comparison of the benefits and costs.

Historically, the EPA valued all lives equally by using the same dollar amount for every potential life saved. But now the OMB is encouraging agencies to base the value of a life on the age of a person. In many cases, when discounting was applied, the life of each person over the age of 70 was valued at 37 percent less than the life of a younger person. In other cases, each year people aged, their lives were considered to be worth less—leading to some lives being worth a de minimus amount. In still other cases, the lives of people with illnesses or other health conditions were further devalued.

The use of the senior death discount has played a significant role in some very important environmental policies. In a rule to cut emissions from heavy diesel equipment, the EPA not only lowered the value of saving the lives of seniors, but also for children and the disabled. In the end, discounting calculations shrank the benefits from over $81 billion to just over $12 billion.

In a regulatory proposal to control air pollution from snowmobiles, the benefits were originally calculated to be approximately $77 billion by 2030. However, the health benefits dropped to only $8.8 billion—half of this decrease was due to the senior death discount and half was due to selective use of scientific studies limiting the amount of people who were affected. Applying the senior death discount in this instance made certain regulatory alternatives less appealing, and the rule was ultimately weakened as a result.

Some of my colleagues may wonder whether this amendment is still necessary, given that former EPA administrator Christine Todd Whitman said the agency would no longer discount the lives of seniors by 37 percent when calculating the benefits of regulatory policies. However, there is no guarantee that the new administrator or other agencies will follow this policy.

In addition, Whitman's remarks did not apply to other forms of discounting, which continue to be used. These other forms of discounting also reduce the benefits of important regulatory policies. Besides seniors, vulnerable populations, such as children and those with chronic illnesses and disabilities, are affected when these forms of discounting are used.

John Graham, the head of the OMB regulatory office, has backed away from his support of the 37 percent discount rate for seniors. However, as recently as June 16, he is still insisting that the value of saving lives should depend on a person's age, and he is still pushing agencies to use forms of discounting.

It seems that the end goal is to whittle down the benefits, until they are so close to the costs that regulations will be difficult to justify. So unless we take action today, it appears that the lives of vulnerable Americans will continue to be devalued.

The House already passed Congressman ALLEN's amendment to the House VA-HUD bill, which is similar to my amendment. Members from both sides of the aisle spoke in favor of the amendment and it was accepted unanimously. It's now time for the Senate to act.

Twenty-two national organizations, including AARP and a host of environmental and faith-based organizations, support this amendment.

Our Nation's regulatory system must use methods of analysis that produce regulations that will fairly protect all Americans from the effects of air pollution, toxic waste and other dangerous substances in our environment. We cannot afford to back away from decades of environmental laws that have improved the quality of life for all of us.

EXHIBIT 1

The following organizations support stopping the Senior Death Discount: 20/20 Vision; American Association of Retired Persons; American Baptist Churches USA; American Lung Association; Breakthrough Technologies Institute; Christian Church Disciples of Christ; Church Women United; Clean Air Task Force; Clear The Air; Coalition on the Environment and Jewish Life (COEJL); League of Conservation Voters; Natural Resources Defense Council; National Environmental Trust; OMB Watch; Physicians for Social Responsibility; Presbyterian Church (USA), Washington Office; Sierra Club; Sisters of Mercy of the Americas, Institute Leadership Team; United Church of Christ Justice and Witness Ministries; United Methodist Church General Board of Church and Society; United States Public Interest Research Group; Unitarian Universalist Association of Congregations.

Mr. DURBIN. I thank the chairman for accepting the amendment. I ask the chairman if at this point we could move the adoption, but I defer to him first.

Mr. BOND. As I indicated, we are ready to accept the amendment by the Senator from Illinois by voice vote.

(At the request of Mr. DASCHLE, the following statement was ordered to be printed in the RECORD.)

• Mr. LIEBERMAN. Mr. President, I support this important amendment, to put a halt to the Bush administration's disrespectful and disturbing treatment of the lives of America's seniors in setting environmental policy. It is unconscionable that the administration continues to push agencies to evaluate pollution-control proposals on the basis of the age of the individuals who are protected. Judging people as less worth protecting based on their age—and to do so for the benefit of polluters—is preposterous and wrong.

Despite statements by administration officials aimed to quiet protest over the "senior death discount" factor —a factor used by the Environmental Protection Agency in recent regulatory cost-benefit analyses that literally devalues the lives of Americans 70 and older—the administration continues to push agencies to apply economic techniques for evaluating pollution-control proposals on the basis of the life expectancies of the individuals protected, slanting the analysis against the elderly who, of course, have fewer years left.

This effort by the administration reinforces the broader bias against the environment inherent in economic cost-benefit analysis, which can give short shrift to unquantifiable values of human health and a strong ecology, while overestimating the economic costs to polluters. By lowering the calculated economic benefit of protecting the elderly, these techniques will understate the apparent benefits of environmental protection, because the old are among the most vulnerable to respiratory and other diseases caused by pollution. The intended result is to block tougher environmental protections.

Selling out America's grandparents at a discount for the benefit of polluters is discriminatory and wrong. I am pleased to support this amendment to put a halt to this repugnant practice.•

The PRESIDING OFFICER. Is there further debate? If not, the question is on agreeing to the amendment.

The amendment (No. 2195) was agreed to.

Mr. BOND. Mr. President, I move to reconsider the vote.

Mr. DURBIN. I move to lay that motion on the table.

The motion to lay on the table was agreed.

The PRESIDING OFFICER. The Senator from Minnesota.

Mr. DAYTON. What is the pending business, Mr President?

The PRESIDING OFFICER. The pending business is the Clinton amendment.

AMENDMENT NO. 2193

Mr. DAYTON. I ask unanimous consent the amendment be set aside and that I be allowed to offer amendment No. 2193.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered. The clerk will report.

The legislative clerk read as follows:

The Senator from Minnesota [Mr. DAYTON] proposes an amendment numbered 2193.

Mr. DAYTON. I ask unanimous consent the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To fully fund the Paul and Sheila Wellstone Center for Community Building)

On page 58, line 21, strike "$1,112,130,000" and insert "$1,111,030,000".

On page 125, between lines 7 and 8, insert the following:

SEC. 418. There shall be made available $1,100,000 to the Secretary of Housing and Urban Development for the purposes of making the grant authorized under section 3 of the Paul and Sheila Wellstone Center for Community Building Act.

Mr. DAYTON. Mr. President, this amendment will provide $1.1 million in funding for the Paul and Sheila Wellstone Center for Community Building at the Neighborhood House in St. Paul, MN. It is funding for the completion of a commitment which Congress made last year as a memorial for the late Senator Paul Wellstone, my colleague and my friend, who lost his life in an airplane crash last October along with his wife Sheila, his daughter Marcia, and three staff members and two pilots.

This is a very emotional subject for me at an emotional time, so I ask my colleagues for their forbearance. We just passed the first anniversary of that terrible day Paul and Sheila and the others were lost forever. One of Minnesota's greatest Senators and most passionately loved and admired political leaders—not unanimous, but the most widely shared and deeply felt connection that I have ever seen in my lifetime between a political figure and the people of Minnesota.

He lost his life while flying to northern Minnesota for the funeral of the father of a State legislator, up on the Iron Range of Minnesota where a funeral is community. He knew, even though he had other commitments elsewhere, and even though Senator TED KENNEDY had graciously come to Minnesota to the metropolitan area on his behalf before the elections, which were just a few days away—those events were important, but Paul knew the family of the deceased would be helped in their grief by his presence. The community up there would be honored by his presence as a United States Senator, so he left his campaign schedule and the media market to go worship and pray and mourn with those others, friends and family and relatives, fellow citizens, as their U.S. Senator and as their friend..

That is what all of us do all the time in our jobs—Republicans, Democrats, liberals, conservatives, Senators here, Congressmen and Congresswomen, across the country—we drive, and if there is not time we charter small planes into small airports in our States. That day Paul's plane didn't land on the runway. It crashed perpendicular to it 2 miles away into a Minnesota forest and peat bog and caught on fire and burned eight people.

Tomorrow—another reason this is an emotional topic for all of Minnesota—we are told in the news reports today, the National Transportation Safety Board will hold a hearing to pass final judgment on the causes of that crash. Whatever they were, they will not bring Paul and Sheila and Marcia and the others back. The circumstances, as they are reported, are unofficial, so I will not comment on them here, but as they report them in the press, it will make it, if anything, more difficult, more painful, more awful an accident that didn't have to happen.

Paul Wellstone lost his life as a U.S. Senator in service of his country.

As the late Senator John Heinz, Republican from Pennsylvania, lost his life several years ago in a small plane crash in the service of his country; as other Senators, Members of the House, Governors, Cabinet Secretaries, and public officials have lost their lives in airplane crashes or other accidents in the performance of their official duties in the service of their country; and when brave men and women lose their lives in the service of their country, I call that man or woman a true American hero. If they are wearing the service uniform of our Armed Forces in Iraq, Afghanistan, or elsewhere around the world, they are true American heroes. If they are wounded or maimed when serving in those awful conditions, they are American heroes.

I have been to funerals for Minnesotans who lost their lives in training exercises in this country and overseas. They gave their lives and paid the ultimate price in the service of their country. They are true American heroes.

Paul Wellstone is a true American hero. He would have been under any circumstances losing his life, but he is even more so, and forever, in my judgment. That is why it is so fitting and appropriate—and I was glad that I thought it only appropriate—that the Senate last year did what I would want to do for any colleague of this body or of the House who lost his or her life under similar—or any—circumstances in the performance of his or her official duties—to find a suitable memorial, a fitting tribute to that American hero.

The surviving members of the Wellstone family—two sons, David and Mark Wellstone—through their own deliberations, identified this project and St. Paul, MN, where especially people from other countries—recent immigrants to the United States—in need of all sorts of assistance but who want to become part of this country, who want to have a chance to participate and raise their kids as American citizens and become the next Paul and Sheila Wellstone, so they can get the help they need and give a helping hand as Paul and Sheila would have given themselves.

We authorized $10 million. The House didn't have anything in there on that matter. But we went to the President of the United States. He was gracious enough to assist, and we got the funding provided in that bill—the authorization of $10 million. President Bush invited the Minnesota congressional delegation and members of the Wellstone family to the Oval Office last December for the signing ceremony. He just couldn't have been more extraordinary in his graciousness to the surviving members of Paul and Sheila's families. He took the time and extended his schedule to be with us, to share his condolences and make it a truly memorable occasion for the members of that family. I know they were enormously grateful, as I was to the President for his compassion and for his humanity.

When we got to the appropriations for this fiscal year, it was delayed. The bill that finally came forward provided $8.9 million for the $10 million project that was authorized. I am hopeful the balance of that commitment as a memorial to our former colleague will be part of the committee bill that is coming before us today.

I was disappointed there was nothing provided in it, and there is nothing provided in the House bill. I pursued this matter and indicated my intention to offer this amendment for $1.1 million—that is an "m" for million, not "b" for billion—$1.1 million to complete the commitment that was made—the authorization to commit the money the President authorized by his own signature into law. I was told via my staff and in talking with committee staff that if this amendment were agreed to by the Senate, then it would be taken out of some other project for the people of Minnesota—from the people in Roseville, MN, in the northwestern part of the State who were victims of flooding last spring, who need help in relocating, who are still rebuilding and trying to reconfigure the locks and dams in that river so they don't flood again—and from all sorts of other projects around the State in counties that need sewer systems so people can have safe drinking water, so the kids don't get sick.

I have to share with the people of Minnesota a confession. They think when they send us out here, we each have a vote; since we are all taxpayers, and since Minnesotans' taxes as a relatively high income State are proportionate to others that send tax money to this great Federal Government, we get back at least our fair proportionate share. But it doesn't work that way in this legislation. It doesn't work that way. We get the appropriations and those who have more seniority, who have been here longer, have more influence, connections, whatever—it doesn't come out the same. If you were to rank Minnesota with other States, you would find that we give more than our share in contributions to this great center of our Nation and we get in return relatively less than most other States.

I find it deeply offending that I am essentially being told, forewarned, threatened, that if I bring this amendment forward and it passes the Senate, it is going to come out of some other Minnesota project. I appreciate at least being told that so I know what I am getting into here.

So much happens in these conference committees. It is just a sneak attack behind closed doors. In Minnesota, we have an open meeting law where you can't go behind closed doors with three or four members of the elected body and conduct public business in private somewhere. That law is a foreign concept here on Capitol Hill; it happens all the time. People go behind closed doors and members of conference committees can't even get into the conference room to find out what is going on.

They have a bill coming up next for reauthorizing the FAA. Somebody in that conference committee stuck something in the bill that hurts the people of Minnesota—thousands of people in and around airports in my State—no hearings, no deliberation, no vote in the Senate, no vote in the House, just put in by Senators who don't represent the people of Minnesota.

The conference committees are great places where you can put something in there and you can vote on it. I had an amendment to the Medicare bill which is coming up, and it is going to come out of committee, I am told and I am quite sure. I have an amendment that would require Members of Congress to receive prescription drug coverage that is the same and is no better than seniors of America and other Medicare beneficiaries receive. Boy, it passed the Senate by a vote of 93 to 3. That is pretty overwhelming support.

I thought: My goodness gracious, the Senate is going to back this one because the people of America would back that one. I know from my experience in Minnesota that we sure agree with that concept and principle—that Members of Congress should receive a prescription drug benefit no better than we vote for senior citizens. But then I read an article the next week stating that many of those who voted for it had been told they could do so because it was guaranteed to die in the conference committee and it would not become part of the law.

I respect those three who voted against my amendment because they weren't going to take that escape route and say, Oh, I voted for that amendment, and to my great dismay it is not going to get conference support.

So Members of Congress can continue to get drug coverage twice as good or more or better than those senior citizens of America.

In this case, before this bill goes into the conference committee, I urge my colleagues—and I will ask for the yeas and nays on this amendment—if they don't particularly think enough of the situation, and circumstances, and the memory of Paul Wellstone, then vote against it. I will ask the conferees, if it passes and goes to conference and is going to come out of some other Minnesota project, to drop the amendment because I know what Paul would say. I know what he would want us to do. That would be to do what is best for all the people of Minnesota. This project is true to the people of Minnesota. But the last thing Paul Wellstone would want to do is take $1.1 million away from people who are suffering and need help and give it to other people in Minnesota in his memory. That would be the antithesis of what is good, for what he believed in, and what he spoke for on this floor. It would be far preferable if the Senate said forthrightly, that is the view of the Members or the powers that be, that $1.1 million of the $10 million authorized last year is too much to bear, too much money, and it is just not available in the budget for the people of Minnesota, for the State of Minnesota. Unlike other States, we would not have this discussion on the Senate floor—it would be $1.1 million for anything any Member wanted.

If they cannot find it, won't find it, do not want to find it, forget it. But tell the American people that. Tell the people of Minnesota that. Don't take it out of somewhere else in Minnesota for a project that is underfunded to begin with, that is needed to save people's lives, that makes their communities stronger. They elected the two Senators to do just as much as any other State in this Nation. Tell them that straight, and then Paul will wait. He should not have to, but he will.

The Senate should do the right thing, pass this amendment, put it in the bill, and instruct the conferees to come out of the conference report with the money for the Wellstone Community Center and every project in Minnesota, and not sell anybody out behind closed doors, behind our backs, and I will once again respect this body, the Senate of the United States.

I yield the floor.

The PRESIDING OFFICER. The Senator from Missouri.

Mr. BOND. Mr. President, I know the Senator from Minnesota feels strongly about this; both Senators do.

I ask that Senator COLEMAN be added as a cosponsor.

We are willing to accept the amendment. I ask that it be accepted by voice vote.

Mr. DAYTON. I object. I ask for the yeas and nays.

The PRESIDING OFFICER. Does the Senator object to the adding of a cosponsor?

Mr. DAYTON. The Senator does not object to that.

The PRESIDING OFFICER. Without objection, the Senator is added as a cosponsor.

Mr. DAYTON. I repeat my request for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

At this moment, there is not a sufficient second.

Mr. DAYTON. I will restate my request when there is a sufficient second. What number of Members constitute a sufficient number?

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BOND. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Mr. President, I ask that the pending Dayton-Coleman amendment be set aside.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 2152 WITHDRAWN

Mr. BOND. Mr. President, I ask that the Clinton-Enzi amendment on which there is a colloquy be withdrawn.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2152) was withdrawn.

AMENDMENT NO. 2196 TO AMENDMENT NO. 2150

Mr. BOND. Mr. President, I send to the desk an amendment on behalf of Senator DASCHLE relating to an agreement with the Institute of Medicine and the National Academy of Sciences to develop epidemiological studies on Vietnam veterans with respect to Agent Orange, and I ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Missouri [Mr. BOND], for Mr. DASCHLE, proposes an amendment numbered 2196 to amendment No. 2150.

Mr. BOND. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To provide for epidemiological studies on Vietnam veterans exposed to Agent Orange and other herbicides used in Vietnam)

At the end of title I, add the following:

SEC. 116. Not later than 120 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall enter into an agreement with the Institute of Medicine of the National Academy of Sciences under which agreement the Institute of Medicine shall develop and evaluate epidemiological studies on Vietnam veterans in accordance with the recommendations of the 2003 National Academy of Sciences report entitled

"Characterizing Exposure of Veterans to Agent Orange and Other Herbicides Used in Vietnam: Interim Findings and Recommendations".

Mr. BOND. There are no objections on either side. I ask that it be agreed to by voice vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

The question is on agreeing to the amendment.

The amendment (No. 2196) was agreed to.

Mr. BOND. I move to reconsider the vote.

Mr. LOTT. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2197 TO AMENDMENT NO. 2150

Mr. BOND. I send an amendment to the desk on behalf of Senator FEINGOLD.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Missouri [Mr. BOND, for Mr. FEINGOLD, proposes an amendment numbered 2197 to amendment No. 2150.

Mr. BOND. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To prohibit the use of funds by the Department of Veterans Affairs to implement policies that prohibit the Veterans Integrated Service Networks from conducting outreach or marketing to enroll new veterans in such Networks)

At the end of title I, insert the following:

SEC. 116. No funds appropriated or otherwise made available for the Department of Veterans Affairs by this Act or any other Act may be obligated or expended to implement the policy contained in the memorandum of the Department of Veterans Affairs dated July 18, 2002, from the Deputy Under Secretary for Health for Operations and Management with the subject "Status of VHA Enrollment and Associated Issues" or any other policy prohibiting the Directors of the Veterans Integrated Service Networks (VISNs) from conducting outreach or marketing to enroll new veterans within their Networks.

Mr. FEINGOLD. Mr. President, I want to thank the chairman and the ranking member of the subcommittee for agreeing to accept my amendment pertaining to veterans outreach programs. My amendment would restore a valuable—and statutorily mandated—service to our nation's veterans and their families.

In July 2002, the Department of Veterans Affairs Deputy Under Secretary for Health for Operations and Management sent a memo to Veterans Integrated Service Network Directors ordering them to "ensure that no marketing activities to enroll new veterans occur within [their] networks."

This memo cited an increased demand for VA health care services as the reason for this change in policy. While it is clear that more funding should be provided for VA health care and other programs and I strongly support doing so it is inappropriate for the VA to institute a policy to stop making veterans aware of the health care services for which they may be eligible.

I joined with a number of our colleagues last year in sending a letter to the President asking that this policy be immediately reversed. I regret that the VA's reply indicated that the Secretary of Veterans Affairs stands by this policy, which remains in effect.

My amendment would prohibit the VA from using Federal funds to enforce this policy, or any other policy prohibiting regional health care directors from conducting outreach to enroll new veterans into the VA health care system. A similar amendment offered earlier this year by Congressmen SANDERS and KANJORSKI was accepted to the House version of the underlying VA-HUD appropriations bill.

I have long been concerned that tens of thousands of our veterans are unaware of Federal health care and other benefits for which they may be eligible. We can and should do more to educate our veterans and their families about these benefits, and to provide adequate funding to ensure that all veterans who wish to take advantage of their benefits are able to do so. Halting health care marketing activities is not the answer. Our brave veterans have earned these benefits. The Federal department that is charged with advocating for and providing benefits to our veterans should not be allowed to continue to restrict health care outreach activities.

This is especially important as we welcome home a new generation of veterans who are serving in Iraq and in the fight against terrorism. Today's soldiers, sailors, airmen, and marines are tomorrow's veterans. These men and women selflessly put their lives on the line to protect our freedoms, as have countless military personnel before them. We must ensure that their service and sacrifice, which is much lauded during times of conflict, is not forgotten once the battles have ended and our troops have come home.

Our veterans and their families have made great personal sacrifices to protect our freedoms. We owe them a great debt of gratitude. Making sure that our veterans know about the benefits that they have earned is an important first step in starting to repay this debt.

Again, I thank the chairman and the ranking member of the subcommittee for working with me on this important issue.

Mr. BOND. Mr. President, this is an amendment with respect to VA marketing. It is acceptable on both sides. I ask that be it be agreed to on a voice vote.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2197) was agreed to.

Mr. BOND. I move to reconsider the vote.

Mr. REID. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENT NO. 2198 TO AMENDMENT NO. 2150

Mr. BOND. Mr. President, because we had done a list of amendments and we neglected to include an amendment by Senators CANTWELL, CARPER, BROWNBACK, HAGEL, and others with respect to section 8 public housing, moving to work demonstration agreements, I ask unanimous consent that this be acceptable and I send the amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Missouri [Mr. BOND], for Ms. CANTWELL, for herself, Mr. CARPER, Mr. BROWNBACK, Mr. HAGEL, Mr. ROBERTS, Mr. NELSON of Nebraska, Mrs. MURRAY, and Mr. DEWINE, proposes an amendment numbered 2198 to amendment No. 2150.

Mr. BOND. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

(Purpose: To require a study of the Moving to Work demonstration program, and for other purposes)

On page 125, between lines 7 and 8, insert the following:

SEC. 418. EXTENSION OF CERTAIN PUBLIC HOUSING/SECTION 8 MOVING TO WORK DEMONSTRATION AGREEMENTS.

(a) EXTENSION.—The Secretary of Housing and Urban Development shall extend the term of the Moving to Work Demonstration Agreement entered into between a public housing agency and the Secretary under section 204, title V, of the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (Pub. L. 104–134, April 26, 1996) if—

(1) the public housing agency requests such extension in writing;

(2) the public housing agency is not at the time of such request for extension in default under its Moving to Work Demonstration Agreement; and

(3) the Moving to Work Demonstration Agreement to be extended would otherwise expire on or before December 31, 2004.

(b) TERMS.—Unless the Secretary of Housing and Urban Development and the public housing agency otherwise agree, the extension under subsection (a) shall be upon the identical terms and conditions set forth in the extending agency's existing Moving to Work Demonstration Agreement, except that for each public housing agency that has been or will be granted an extension to its original Moving to Work agreement, the Secretary shall require that data be collected so that the effect of Moving to Work policy changes on residents can be measured.

(c) EXTENSION PERIOD.—The extension under subsection (a) shall be for such period as is requested by the public housing agency, not to exceed 3 years from the date of expiration of the extending agency's existing Moving to Work Demonstration Agreement.

(d) BREACH OF AGREEMENT.—Nothing contained in this section shall limit the authority of the Secretary of Housing and Urban Development to terminate any Moving to Work Demonstration Agreement of a public housing agency if the public housing agency is in breach of the provisions of such agreement.

SEC. 419. STUDY OF MOVING TO WORK PROGRAM.

(a) IN GENERAL.—The General Accounting Office shall conduct a study of the Moving to Work demonstration program to evaluate—

(1) whether the statutory goals of the Moving to Work demonstration program are being met;

(2) the effects policy changes related to the Moving to Work demonstration program have had on residents; and

(3) whether public housing agencies participating in the Moving to Work program are meeting the requirements of the Moving to Work demonstration program under law and any agreements with the Department of Housing and Urban Development.

(b) REPORT.—Not later than 18 months after the date of enactment of this Act, the General Accounting Office shall submit to Congress a report on the study conducted under subsection (a).

Mr. BOND. Mr. President, this is acceptable on our side.

Mr. REID. There is no objection on this side.

Mr. BOND. I suggest we agree to it by voice vote.

The PRESIDING OFFICER. The question is on agreeing to the amendment.

The amendment (No. 2198) was agreed to.

Mr. BOND. I move to reconsider the vote.

Ms. MIKULSKI. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. Mr. President, I ask unanimous consent that we delay the FAA bill for 5 minutes and the debate would be from 4:35 to 5:35 and a vote occur at that time.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONGRESSIONAL AWARD PROGRAM

Mr. CRAIG. Mr. President, several Senators were prepared to offer an amendment today to provide for support for the Congressional Award Program, through a collaboration with the Corporation for National and Community Service. I understand from the Subcommittee the difficulties that this would present and will not press forward with such an amendment at this time. I did want to engage the Chairman of the VA-HUD-Independent Agencies Subcommittee in a colloquy about this valuable program.

Congress established the highly successful Congressional Award in 1979 to recognize initiative, achievement, and service in young people. The Congressional Award is the U.S. Congress' award for young Americans. It is nonpartisan, voluntary, and noncompetitive. The award enjoys broad bipartisan support. This excellent program has grown by more than 3,000 participants during fiscal year 2003, and currently, there are some 14,750 active participants from across the nation.

In the past, the Congressional Award Program has been able to sustain itself. Because of the tremendous growth of this program, its resources have been stretched to the breaking point. After the events of 9/11 and the recent recession, patterns of charitable giving have changed and this program, like many worthy causes, has had an extremely difficult time maintaining earlier levels of contributions, much less accommodating its rapid growth. The congressional award needs a modest amount in a funding base to regain its footing and momentum and continue its growth for the future. Congressional support is needed to leverage renewed and increased private donations.

Supporters of this program had looked to this bill because the Congressional Award Program already is being cited by the Corporation for National and Community service as the kind of program it supports and encourages and already is listed as an official partner of America's Promise, another related program. Congress already has explicitly provided in the Congressional Award Act that, while this program may not receive a direct appropriation, it may receive financial support through collaborations with other programs receiving appropriated funds.

I note that the Appropriations Committee, in the report accompanying this bill, has expressed its concern with current costs per participant in volunteer service programs. In particular, the report mentioned the $16,000 cost per AmeriCorps members for program and education award costs and called upon the Corporation to reduce costs. In contrast, the Congressional Award Program costs only about $68 per participant. It is more than just a great program, it is a bargain.

The Congressional Award is one of only two standing awards given by Congress. The other is the Congressional Medal of Honor. It is time that Congress became a partner of the congressional award in more than just name.

Mr. BAUCUS. I add my comments in support of the Congressional Award Program. This excellent program is open to all 14- to 23-year-olds. Participants earn bronze, silver, and gold congressional award certificates and bronze, silver, and gold congressional award medals. Each level involves setting goals in four program areas: volunteer/public service, personal development, physical fitness, and expedition/exploration. Earning the award is a fun and interesting way to get more involved in something young men and women already enjoy or something they might like to try for the first time.

Regardless of an individual's situation, he or she can earn this award. The congressional award has no minimum grade point average requirements. It accommodates young people with special needs or disabilities who are willing to take the challenge. The award is open to all. We consider this to be a valuable priority within a fiscally responsible appropriations bill.

Mr. President, this is a program that all of us want to see grow and flourish. It is not just another program. It is not just another foundation pursuing a worthy cause. It is our award—a unique program created by the Congress to recognize and encourage leadership and voluntary service to the community by our young people. It requires and deserves our support.

Mr. BOND. I thank my colleagues for their attention to this matter.

It is certainly our intent, in continuing congressional support for the corporation, that it look for additional ways for actively partnering and collaborating with organizations such as the Congressional Award Program. I look forward to working with my colleagues on appropriate ways to carry that goal forward.

CAPITAL ASSET REALIGNMENT FOR ENHANCED SERVICES (CARES) INITIATIVE

Mrs. CLINTON. Mr. President, I thank the managers for working with Senator ENZI, Senator SCHUMER and myself on a compromise to ensure that our concerns are addressed. We understand that they have committed to pursue language in the conference report that expresses the committee's concerns about the Draft National CARES Plan recommendations of closure and reduction of services in long-term care, domiciliary care, and mental health services at VA facilities. The language urges that no closures or reduction in long-term care, domiciliary care, and mental health care services take place until the full analysis is completed. The language would also require the VA to submit updates on their progress in this analysis to the appropriate committees. Finally, the managers have agreed to send a letter to VA Secretary Principi outlining these concerns on our behalf.

Mr. ENZI. I would like to add to my colleague's discussion. I got involved in this process to bring attention to the concerns of veterans in rural and frontier areas. Based on these concerns, I hope in any further analysis on the future needs of veterans health care the VA will consider all access issues related to travel, such as road conditions, the number of lanes on roads, and seasonal changes and other factors relating to the weather. I know many of my colleagues share these concerns and I appreciate their taking this opportunity to address them.

Mr. SCHUMER. I thank my friends from Missouri and Maryland for engaging us in this colloquy, and appreciate their efforts to work with us on addressing our concerns with the CARES process. Among these concerns, I am particularly pleased that the managers of this bill have agreed to work with us in addressing the participation of veterans at hearings held by the CARES Commission. The participation of veterans is critical to a process that so directly impacts the quality of healthcare they receive from the VA. It is my understanding that the managers have committed to addressing this specific issue by presenting language to the conference that would recognize the benefits of and the need to have CARES related hearings within 30 miles of all facilities facing closure or a reduction in services, as well as the importance of veteran participation at these hearings. I also understand that the managers have committed to presenting language to the conference that encourages the VA to hold additional hearings in all affected communities following the Secretary's final recommendation.

Mr. BOND. Mr. President I thank the Senators from New York and the Senator from Wyoming for their thoughtful comments. Their understanding is correct, and we will pursue such language in the conference report. Senator MIKULSKI and I will also be sending a letter on their behalf to Secretary Principi with these concerns.

Ms. MIKULSKI. I acknowledge the validity of my colleagues' concerns and look forward to working with them to try to address these concerns in conference and with Secretary Principi.

Mr. LOTT. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BOND. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BOND. Mr. President, I think we have reached the point where we are ready to get a final list and a means of proceeding. So if it is agreeable on both sides, I ask unanimous consent that the only other amendments in order to the VA-HUD bill, other than the substitute, be the following: Dayton No. 2193 with 5 minutes equally divided; Senator MCCAIN, amendment on NASA; Senator INHOFE, amendment on air quality; Senator JEFFORDS, National Academy of Sciences study; further that following the scheduled cloture votes on Tuesday, the Senate resume consideration of the VA-HUD appropriations bill for the consideration of the remaining amendments.

Ms. MIKULSKI. No objection.

Mr. REID. Mr. President, I ask unanimous consent that the time for debate on cloture dealing with FAA be for a full 1 hour, with the time equally divided pursuant to the previous order.

The PRESIDING OFFICER. Is there objection to any of the foregoing requests?

Mr. REID. I express my appreciation to Senator LAUTENBERG and Senator LOTT for allowing us to go forward.

The PRESIDING OFFICER. Without objection, it is so ordered.

VISION 100—CENTURY OF AVIATION REAUTHORIZATION ACT—CONFERENCE REPORT—Resumed

The PRESIDING OFFICER. Under the previous order, the hour of 4:40 having arrived, the Senate will proceed to consideration of the conference report to accompany H.R. 2115, which the clerk will report.

The assistant legislative clerk read as follows:

> Conference report to accompany H.R. 2115, an act to amend title 49, United States Code, to reauthorize programs for the Federal Aviation Administration, and for other purposes.

The PRESIDING OFFICER. Under the previous order, there will be 1 hour equally divided for debate prior to a vote. The Senator from Mississippi will control one-half hour, the Senator from New Jersey will control one-half hour.

The Senator from Mississippi.

Mr. LOTT. Mr. President, this is an important piece of legislation that has been in the process all year now. As we know, the aviation industry has had its difficulties since the events of 9/11 and the Iraq war. Aviation across the board has struggled to comply with additional security requirements and to become economically viable again. A lot of changes are happening in the industry.

But Congress certainly has not been insensitive to the needs of this industry. We passed legislation to be of assistance in, I guess, 6 weeks after the 9/11 events, and then earlier this year additional assistance was provided to the airline industry as a result of losses they were experiencing and expected to experience as a result of the war in Iraq.

But they need the broader long-term Federal Aviation Administration reauthorization. I consider this legislation to be the third leg of the stool to give the aviation industry, as a whole, an opportunity to get up and running, to provide service to the American people, and to, frankly, see blue skies again. That is why this legislation is very important.

If we do not extend this FAA reauthorization, there are certain parts of the program that will either be deferred or will have to shut down. So it is not insignificant that we are up against the wall in terms of extending the Federal Aviation Administration legislation.

I emphasize, too, that this is not just about the agency. This is about an important part of our economy. We are very mobile in America. Transportation is such an important part of our economy. Americans are flying all over the country, as we speak, on airlines and in general aviation. They are in our airports. It is an important part of our economy. It creates hundreds of thousands of jobs, when it is allowed to function as it should. So we need to get this legislation passed.

It is, in my opinion, about safety in the aviation industry at our airports, in general aviation, with the airlines. We need to make sure the money is there for the aviation program, for the security that needs to be put in place on the airplanes, in the airports, on the perimeters. This is very important legislation. It is part of our overall homeland security program.

I remind my colleagues that H.R. 2115, the FAA reauthorization bill, is a 4-year $60 billion bill. This is a huge piece of legislation. We need to get it done.

I would like to point out to my colleagues some of the impacts we see as a result of this industry and what it means. First, aviation generates more than $900 billion in GDP every year. Over the life of this bill, the legislation is expected to create approximately 665,000 jobs; $14.2 billion in airport grant funding would create these 665,000 jobs. There would be 162,000 jobs in 2004 alone; $14.2 billion will be used for security, safety, and capacity projects at airports; $13.3 billion would be to modernize the air traffic control system, and $500 million for the Essential Air Service program.

This is an important piece of legislation. A lot of money is involved. It is not just about the big airports; this is about the smaller airports. We do have good programs included here, including the Essential Air Service, and also a program that allows communities to be involved and participate with some funding of their own.

We have had an experimental program in place now for the last couple years. This would extend that small community Essential Air Service program. A number of communities around the country are very much interested in having that opportunity.

It also provides new opportunities for flights out of Reagan National Airport, 8 new flights inside and 12 new flights outside the perimeter. So this is very important legislation in terms of the airports.

For the first time we actually make sure the regional airlines get some assistance. When we passed the big legislation back in 2001, the regional airlines were sort of left out. So we would get that done.

It provides for cost-effective programs that could save the taxpayers $173 million per year. It has a huge impact on States all over the country. I would like to show a chart to give you some idea of the amount of money and the amount of jobs that would be affected by this legislation. I have the list here. It is too small probably for most of you to see, but I will just pick a couple of them: Alaska, $522 million, 24,000-plus jobs.

I see the Senator from Georgia, a very important terminal in Atlanta, one of the most important in the country, $162.6 million; 7,722 jobs; a smaller State, North Dakota, $59.2 million, 2,814 jobs.

The list is here. If you want to see how your State would be affected with dollars and jobs, we have the information for you.

The question would be, Why has this taken so long? We passed it back in May in the Senate. It passed the House. We went to conference. We worked out an agreement on good legislation. But it did include some language that became controversial. It did say there would not be privatization of the air traffic control system, but it identified 69 sites in medium and small communities where contract hours could be considered or could be actually put into place. So there was a criticism about that.

After trying to work it out in a variety of ways, we went back to conference and took that language out. So we basically went back to the status quo. We don't say there won't be privatization of the air traffic control system, and there won't be. We didn't say that, well, these 69 contract areas might be considered for contract hours. We took both of those out, thinking, well, we are ready to go now.

Strangely enough, that was not acceptable, either. So we have been working in a bipartisan way to try to come up with some solution that would satisfy both parties, all parties, and how this could be handled.

Senator McCAIN, Senator HOLLINGS, Senator ROCKEFELLER, Senator DORGAN, and I sent a letter to the FAA Administrator, Marion Blakey, last week saying we thought it would be appropriate to have a 1-year moratorium on any effort of privatization. We have been working with the administration on that issue since that time.

The administration, I believe, is willing to make a commitment to not go forward for 1 year, for a moratorium, while GAO does a study of the impact of privatization, and also so the Commerce Committee, chaired by the Senator from Arizona, can have hearings on that matter. But they want to be able to go forward with those things that are already underway.

The net result for the air traffic controllers and for other unions within the FAA would be a 1-year moratorium. However, where there is an ongoing A-76 study, that would not be stopped. Now I am being told maybe even that is not enough. I ask, how much is enough?

This is very important legislation that affects the economy of the country and this industry. Are we going to let 1 or 2 groups decide we will not have this $60 billion bill unless they get some guarantee on something that is not going to happen, anyway? I don't believe that is reasonable. I think we need to go forward and have this vote. Let the American people see who wants to be of assistance to aviation, who really wants to have safety in the skies.

Let me say to all of my colleagues on both sides of the aisle, be careful how you vote because this legislation provides funds for security at airports. It changes who pays for the security costs and where that money would go. The AIP, airport improvement program, which was used for $500 million in security costs over the last couple of years would not continue to be used for that purpose. It would go back to being used for what it was originally intended—improvements at terminals, runways, and aprons, but there would be a dedicated line of money that would go to security. If you vote against this legislation, and it continues to drag out indefinitely, and we don't get these security funds to the proper place they are supposed to go—particularly the airports—if we have another instance at an airport, or with the airline industry, I would not want to be on record voting against this very important legislation that has been developed over a long period of time, in a bipartisan way.

Mr. McCAIN. Will the Senator yield for a question?

Mr. LOTT. Yes.

Mr. McCAIN. Mr. President, I thank Senator LOTT for all the work he did as chairman of the subcommittee on this issue. I know we don't have a great deal of time. Is the Senator aware in this bill we have $14.2 billion for security and safety for AIP, $13 billion to modernize the air traffic control system, $31 billion to operate—the list goes on and on. There are billions of dollars, including drastically needed improvements in security and essential air service.

I note the Senator from West Virginia, as long as I have been on the committee, has sought money for essential air service. We also have environmental provisions. These are all being held up on one issue on which we have tried to reach some kind of compromise.

My question to the Senator from Mississippi is this: Let's suppose we don't achieve cloture and we don't have 60 votes on this bill. What do the opponents gain by that? It seems to me what they gain is sooner or later we are going to extend the existing programs, which allows further privatization of the towers and other aspects of our air traffic control system, which is what they are fighting against. Yet they will lose. Is this some kind of a statement being made or is this reality? Is there anybody who believes we are going to shut down the air traffic control system, shut down aviation in America if we don't pass this bill? Either existing law will be extended or we are going to pass this bill. Is that the Senator's assessment? I think our colleagues ought to know what the consequences of this vote will be if we fail to achieve cloture.

Mr. LOTT. Mr. President, I say to the distinguished chairman of the subcommittee he has put his finger right on the heart of the problem. There are funds that would not go out for security and airport improvement if we don't pass this legislation. The alternative would just be to extend the current law for, I don't know, 6 months. The Senator is right that in that case the status quo is in place. As a matter of fact, any privatization efforts that might be underway or they want to do in that period could go forward. We had worked it out where we had language both in the conference report and in a letter that would say there would not be privatization of the air traffic control system.

Finally, even other parts of the FAA would get a 1-year moratorium. This is the classic example of where my colleagues in the Senate—Democrats—seem to be hopelessly pursuing where the last rose lingers. We have a whole bouquet in this bill. It is good for the American people. It is going to be good for the industry and it will create jobs. We are looking for this one last thorny rose we can claim and say, well, we got it done. I note the House has already passed this legislation and we are, I assume, sometime in the next month going to complete our session of this year. We need to get this done. It would be very positive for the industry and for the Congress for us to go ahead and complete this action.

The Senator is absolutely right. The alternative, if we don't pass this legislation, is the status quo, which would allow the administration to do whatever they please in terms of privatization under legislation Congress has previously passed.

I will make one other note. On this idea of contract towers, there are mixed emotions on both sides of the aisle. It is not a Republican or Democrat thing. But there have been hundreds of these contractors put into place. Usually, they are supported by local congressmen and senators—and, by the way, it is an idea that really exploded and was used extensively during the Clinton administration. I am not being critical. In many cases, it makes common sense. In many communities, if you don't have the contract towers, you would not have anything.

For the life of me, I cannot understand why we haven't been able to bring this to conclusion. I think it is time to vote and see who is for getting this legislation done and who wants to preserve the status quo, I guess, or have nothing, which would hold up funds to the tune of billions for security and improvements at our airports.

Since the chairman is here, and I know Senator LAUTENBERG is waiting to speak, I will reserve the remainder of my time. We will claim more time after Senator LAUTENBERG has had a chance to speak.

I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. LAUTENBERG. On my time, I ask the Senator from Mississippi just one question, if the Senator is available. I want to put a question to him.

Can the Senator tell me why Congressman YOUNG from Alaska fought so hard to take two of his airports off of the privatization possibility?

Mr. LOTT. Mr. President, on the time of the Senator, I am glad to respond.

Mr. LAUTENBERG. Take a short minute, if you will.

Mr. LOTT. I will give the Senator a direct answer. Senator STEVENS indicated that is what he wanted. I understand there are extenuating circumstances with those two areas in Alaska. That varies from State to State. In some States, they want contract towers for a particular site, and in others not. I agree with the Senator on that. I think we should not have excluded them.

Mr. LAUTENBERG. Mr. President, it is apparent the Congressman from Alaska wants to make sure his people are safe when they are in and out of that airport. He doesn't want to be privatized, and neither do I, or most of the people in the Chamber.

I have great respect for the Senator from Mississippi. He and I will agree on lots of things. When we don't, they are usually deep disagreements. We all want the system to function. The Senator from Arizona certainly understands aviation and how the system operates, but he said something in his remarks that really struck me. No matter what happens, this program is going to get funded. It is going to get funded regardless of the action we take tonight. Why it is that the President of the United States and his people decided to delay implementation of this reauthorization, I will never know. This is kind of like a Custer's last stand: We are going to teach you Democrats something.

Don't teach us; teach the American people how you care about them, about their safety. Why, suddenly, are we so concerned about going commercial? We took roughly 28,000 baggage handlers and said, you know what. The private sector can't handle them. They mess up all the inspections. They are terrible. We have to get them in Government hands where we know things can be properly operated. But when it comes to the FAA, the people who responded so heroically when the tragedy of 9/11 struck our country, no, then we want to put security on the cheap. We want them to be operated by Acme Air, or whoever else it is.

The aviation industry has had a lot of difficulty. Much of that is because our country had an overwhelming tragedy strike us on 9/11, and so our citizens were afraid to travel. They were afraid to get up in an airplane. Now they don't have to worry so much, except for shoulder-guided missile launchers and except for terrorists constantly trying to break through. And now, to make life easier, we are going to take the FAA, the most well-trained group in the country, people who are on the job 24/7, constantly, they are always there when we need them, regardless of weather, regardless of what else happens—when those airplanes struck the Trade Towers, we are now talking about my neighborhood.

I saw the Trade Towers from my apartment house. I didn't see them that day because I happened not to be there, but I notice their absence. It is very clear. The people in the tower at Newark—I know those guys and the ladies. I know them well. I have been up in that tower many times. I used to be commissioner of the Port Authority of New York and New Jersey. I know what goes on in towers. I know we used to gauge rainfall with a pail outside. It wasn't that long ago. The fact is, they could see the buildings burning, and when the order came to take safer action, they did.

We are going to soon be voting cloture on the FAA conference report, and it would have passed except for the fact there was an insert put in after neither House had a Democrat in the conference—neither the Senate nor the House of Representatives, neither had a Democrat in the conference. Nevertheless, we are now suddenly delivered a program that includes a recommendation from the White House, which neither body acted upon, and when we voted overwhelmingly to preserve the no-privatization view.

On June 24, 2002, just in the aftermath of 9/11, the President signed an Executive order. So this issue has been in the works for some time. We don't have to talk about who is delaying the movement of the reauthorization bill. There it is. June 4, 2002: Section 1 of this Executive order:

> The first sentence of that order is amended by deleting " . . . an inherently governmental function."

That is what the President of the United States said on June 4, 2002, not too many months after 9/11 took place.

We took up the FAA bill in June. The Senate spoke loudly and clearly: No privatization. The House also spoke loudly: No privatization. But in the conference, the prohibitions disappeared. Conference leaders simply dropped all the language dealing with privatization.

Why did the Members of the conference, sitting behind closed doors, ignore the mandates for safety and security of our aviation system? If you ask them, they say the White House said we had to; so the order. Both Houses of Congress were clear. Both Houses spoke on the issue. Both Houses said no privatization of air traffic controllers. But in the conference, that commitment disappears. Why? Apparently in this Congress, we pass bills in both Houses, and then the White House writes the conference report.

It is presented graphically on this chart. House bill: No privatization. Senate bill: No privatization of air traffic controllers. White House position: Silence on privatization. Conference bill: Silence on privatization. That is a coverup. What that means is they can go ahead and do it any time they want to.

In this Congress, if the House and Senate agree on something and you throw it out and allow the White House to write whatever they want, we don't usually respond favorably to that happening. The stakes are high because the safety and security of our families, our friends, and our neighbors are at stake. The clearest evidence of this is how our air traffic control system performed on September 11, 2001.

The first airplane struck one of the Trade Towers at 8:45 a.m. This chart shows what the skies looked like at that time. The little light green areas represent airplanes. You can barely see the ground. This was 1 hour, and it was even more crowded than that. The order came out to get the airplanes out of the sky, get them on the ground, get people safely to someplace where they could call their families and let them know what was happening.

One hour later, 5,000 airplanes were taken out of the sky, directed to land at destinations that were not originally planned, and the picture looks like this chart. It is a lot safer. If my family was flying, I would have been very happy to hear they landed someplace, whether it was in Wyoming or Arizona—anyplace else besides New Jersey. I would have just been happy to know they were on the ground.

My State suffered major losses. Almost 700 people—691, to be exact—from New Jersey lost their lives that day in the World Trade Center attack. We are very sensitive to safety. We know this hits home. This is no academic exercise for us. We know there are families tortured by the loss of a father or mother or brother or sister. My oldest daughter lost her best friend in that World Trade Center. They worked together at one financial firm. My daughter went to law school, and this lady went to a place called Kantor Fitzgerald. They lost 700 of their 1,000 employees.

These acts of terror utilizing our aviation system introduced a new era of fear for the U.S. travelers.

September 11 also highlighted the heroic act of many public employees who did their jobs, as they do every day, with skill, courage, and professionalism. Emergency responders, rescuers, firefighters, police officers, and other government employees aided people out of the burning buildings. We heard of a historic incident where a couple of policemen and firemen went into the buildings knowing very well their lives were at stake. Unfortunately, they were right; their lives were at stake, but they tried to save others.

As our aviation system was both under attack and being used as a means of attack, it was the air traffic controllers who protected the tens of thousands of Americans aboard aircraft at that time. The snapshots we have seen tell us the picture quite precisely. Within an hour of the time that the flights were ordered to the ground, the Nation's air traffic controllers made unbelievable progress. We saw that in the chart. Within an hour, numbers of those planes—huge numbers—were successfully grounded.

I repeat, almost 5,000 aircraft were guided safely to the ground in a matter of hours, a tremendous feat. All parts of the system worked well, worked together, and worked safely to bring home those traveling by plane that day. This included roughly 15,000 air controllers, 6,000 technicians, and 2,800 flight service station employees.

These people acted bravely and professionally. So why does President Bush want to honor these heroes of 9/11 by firing them? I do not get that at all. The administration plans to privatize our air traffic control system.

I heard the distinguished Senator from Mississippi say there are no plans, no, but just take away the safeguards and anything one wants can be done. This conference report allows them to do exactly that. It is a bad idea, truly disrespectful to the thousands of September 11 heroes and disrespectful to all of those who worry about air travel when they read about shoulder-fired weapons and even worse.

It is no coincidence that this important section of the FAA bill was omitted without any Democratic input or debate. The American people do not want safety and security on the cheap. They want air traffic control to remain essentially a Government safety function, as it was before President Bush signed that Executive order in 2002. That is why the Senate voted on June 12 of this year—I remind my colleagues who are in the Chamber, talking about who should vote for what—I want everybody in this Chamber to feel like they can look in the mirror and answer the question: What was the best thing I did for the safety and the safeguarding of our airplanes and our passengers? That is to make sure this system stays intact.

The Senate voted on June 12, a vote of 56 to 41—we do not have 56 on this side—to ban this privatization. I remind my colleagues that safety and security are not partisan issues. Eleven of my Republican colleagues voted for safety and security. This conference report on the FAA is not the first conference report produced on this bill. Conferees produced an original conference report that was downright strange.

How much time do we have remaining on our side?

The PRESIDING OFFICER. Fifteen and a half minutes remaining.

Mr. LAUTENBERG. For starters, it exempted the State of Alaska. Of course, that has something to do with the fact the chairman of the House Transportation Committee is from Alaska. He did not want his airports privatized. He was very specific.

He said: Of course, the criticism of myself is that I exempted the State of Alaska, and here is the reason for that. One, he describes Juneau Field itself to be going under Capstone next year so it would not be eligible to be contracted out. The Merrill Field is a real complex issue. He winds up saying that the airplanes take off right toward my hotel room every morning. I look out and there is one coming right at me. It is an interesting experience and I want to make sure everything is done right in that field.

He does not want Acme air controllers to be there perhaps in the middle of a labor dispute or something like that. He wants to know that the tried and trusted hand of the FAA as it is presently composed continues. If he thinks that exempting Alaska is a good idea, let the other States have an exemption, too. The other 49 should just as well be exempt.

If the Chair would let me know when we have 10 minutes, I would like to turn that time over to the Senator from West Virginia.

The PRESIDING OFFICER (Mr. CORNYN). The Senator will be so notified.

Mr. LAUTENBERG. Privatizing the air traffic control system is a bad idea for many reasons. We should heed the lessons of other countries that tried this already: Canada, Australia, and the United Kingdom. All of these attempts resulted in failures.

We should heed the lessons of the blackouts we experienced in the Northeast this summer that shut down six major airports. Our air traffic control system guided stranded flights safely to the ground.

I do not think it can be any clearer that air traffic control is a vital Government safety and security function.

I sense my colleague from West Virginia would like to use his 10 minutes now.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. LOTT. Mr. President, for the sake of a flow back and forth, I yield 5 minutes of our remaining time to the chairman of the full committee.

Mr. LAUTENBERG. I yield the time with unanimous consent that I regain it and turn it over to my friend from West Virginia.

Mr. LOTT. I yield 5 minutes to the Senator from Arizona.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. McCAIN. First, when Air Force One takes the President down to his ranch in Texas, guess what. Horrors, the plane lands at an airport with a contract tower. When the Vice President travels to Jackson Hole, WY, his plane lands at an airport with a contract tower. Perhaps the safety concerns that always surrounds a President and Vice President have been waived in this case.

One of the most respected men in Washington is Ken Mead. He is the inspector general of the Department of Transportation. He did a study on the issue of contract towers. I ask unanimous consent that his letter and that of the Professional Air Traffic Controllers Organization be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF TRANSPORTATION,
Washington, DC, July 22, 2003.

Hon. DON YOUNG,
Chairman, Committee on Transportation and Infrastructure, U.S. House of Representatives,
Washington, DC.

DEAR CHAIRMAN YOUNG: We understand that the House and Senate Conferees may be meeting this week to discuss the Federal Aviation Administration's (FAA) Reauthorization. One issue that will no doubt be included in those deliberations is the provision of the legislation that prohibits FAA from contracting out any Air Traffic Control functions. Specifically, we are concerned that this restriction would eliminate even the option of expanding FAA's Contract Tower Program to the 71 visual flight rule (VFR) towers still operated by the FAA, regardless of how safely and cost efficiently towers in the existing Contract Tower Program are operated.

Based on our work, we think the Conferees should take into account the track record of the 218 VFR towers in the Contract Tower Program. Since 1998, we have conducted audits of various aspects of the Contract Tower Program and have found consistently that the program works well. We found that contract towers provide cost-effective services that are comparable to the quality and safety of FAA-operated towers. For example, last year the level of operational errors at contract towers was comparable to the level of operational errors at FAA VFR towers. The Contract Tower Program also provides services at towers that FAA would otherwise not have staffed because they were too expensive to operate. In 2002, we estimated that contracting out the VFR tower still operated by FAA could save the agency about $780,000 per tower each year. That translates into about $55 million in annual savings if all 71 towers were contracted out.

Our point here is not that the 71 VFR towers still operated by FAA should be converted to the Contract Tower Program, but that the option should remain open. We do not support expanding this option beyond the remaining 71 VFR towers still operated by FAA. But in light of the sharp decline in Aviation Trust Fund revenues and the most recent projections of the Federal deficit, we think FAA needs the flexibility to evaluate alternatives for ensuring its operations at all VFR towers are conducted in the safest and most cost-effective manner possible.

We urge the Conferees to consider preserving at least the option of expanding the Contract Tower Program to the 71 VFR towers still operated by the FAA.

If I can answer any questions or be of further assistance in this or any other matter, please feel free to call me at (202) 366–1959, or my Deputy, Todd J. Zinser, at (202) 366–6767.

Sincerely,

KENNETH M. MEAD,
Inspector General.

PROFESSIONAL AIR TRAFFIC
CONTROLLERS ORGANIZATION,
Douglasville, GA, November 6, 2003.

Hon. TRENT LOTT,
U.S. Senate, Russell Senate Office Building, Washington, DC.

DEAR SENATOR LOTT: I am writing to urge you to support the conference report accompanying H.R. 2115, Vision 100—The Century of Aviation Reauthorization Bill. Please make no mistake; Labor is divided on this issue.

I am the National Representative for the Professional Air Traffic Controllers Organization, PATCO/AFL–CIO, and represent the air traffic controllers in 50 FAA contract air traffic visual flight rule (VFR) control towers (ATC) across the United States. I take exception to the National Air Traffic Controllers Association position that the FAA contract controllers are unsafe. The DOT Inspector General's report released on September 5th states unequivocally the safety benefits to the aviation community and the cost savings to the American taxpayers of the Federal Contract Tower Program. The FAA contract controllers are all FAA certified, most have 15–20 years of experience and the large majority are retired military and former FAA controllers. FAA also closely monitors and oversees all FAA contract tower operations.

H.R. 2115 will enhance aviation safety, security and supports the Airport Improvement Program. The important issue of expanding capacity to aid congested airports is also addressed by the building of new runways and other projects, all of this resulting in the creation of new jobs.

There are those who oppose this bill because they believe it mandates privatization. It does not. The measure, as you know, is now silent on the issue of privatization, leaving the FAA with the management flexibility they have held for decades to evaluate staffing at individual facilities and to make appropriate decisions with regard to safety, efficiency, and fiscal responsibility. Please support the conference report accompanying H.R. 2115 and encourage your colleagues to pass this legislation as quickly as possible.

Sincerely,

JERRY TUSO,
PATCO National Representative.

Mr. McCAIN. He says:

Since 1998, we have conducted audits of various aspects of the Contract Tower Program and have found consistently that the program works well. We found that contract towers provide cost-effective services that are comparable in quality and safety to FAA-operated towers.

The difference is it saves $170 million a year for the taxpayers. By the way, I hope the Senator from New Jersey can get over the Alaska issue. This is a fairly big bill. In all deep sympathy, I hope he can get over two towers in Alaska as we consider this serious issue.

The process was not perfect. We probably should not have put this provision in in conference. We did so at the urging of the administration because there was the threat of a veto by the administration. Ever since then, we have tried to reach some kind of an agreement. We have agreed to have it language neutral. We have agreed there would be a year-long moratorium while GAO and other studies are conducted.

The Senator from Mississippi and I have spent literally hundreds of hours trying to reach some accommodation to avoid a veto by the President of the United States who flat out said that—guaranteed in writing that we would have a veto—and at the same time try to satisfy the legitimate concerns because of the position of Senator LAUTENBERG and others who voted for the measure to which Senator LAUTENBERG referred.

It seems to me we should have been able to come to some kind of an agreement, including the commitment that we got from the administration, or at least we would have held to, for an all-out moratorium.

Now, if the Senator from New Jersey prevails on this vote, we have previous authorization and privatization will go on. So the Senator from New Jersey may feel great about it but the fact is that with the compromises we offered, he would have been far better off. Instead, we worry about two towers in Alaska.

The point is, we have tried. We have tried to address this issue, which is a very small part of very large legislation, that has to do with aviation security; it has to do with airports; it has to do with all kinds of things. It is a massive bill and we are hung up on this one aspect for which there is a refusal to compromise on the part of the Senator from New Jersey, and I regret it. I deeply regret it because we may lose this vote, although I hope Members realize the consequences of the loss of this vote. Believe me, we are not going to shut down aviation in the United States of America over this issue. We are not going to allow that to happen. It is far too important to all of America's citizens.

Again, I hope my colleagues will pay attention to the letter from Ken Mead, the inspector general of the Department of Transportation, that says clearly that the contract-operated towers are safe consistently, they are cost effective, and their quality and safety is comparable to FAA-operated towers.

I reserve the remainder of Senator LOTT's time.

The PRESIDING OFFICER. The Senator from West Virginia.

Mr. ROCKEFELLER. Mr. President, this is all odd, perplexing.

Mr. LAUTENBERG. Mr. President, I am sorry, but there was a unanimous consent that was agreed to that the time would be turned back, and I just want to make sure we divide it up properly. So I would like to be able to recover the time and then just make a decision to hear our chairman of the subcommittee. How much time is remaining on our side?

The PRESIDING OFFICER. Twelve and a half minutes remain.

Mr. LAUTENBERG. I yield up to 10 minutes to the Senator from West Virginia.

Mr. ROCKEFELLER. I am grateful to my colleague from New Jersey for that. But I am still perplexed. This is all kind of odd to me.

We could, I think, pass this whole thing, the entire authorization bill. The chairman of the full committee and Senator HOLLINGS and Senator LOTT, both of whom have spoken here, myself, the ranking member on the Aviation Subcommittee, and BYRON DORGAN—we wrote to FAA Administrator Blakey and made a reasonable request, asking for an extension on a certain part of this for a period of a year. We might get that in the next 7 or 8. We might very well get it. The language didn't appear to be quite proper at the time.

We do have the President's statement. As the Senator from New Jersey pointed out, he specifically deleted "an inherently governmental function" when it referred to air traffic performance-based organizations.

I want to support the FAA conference report. I think virtually everybody in the Senate would want to do it. It includes a lot of things that are very important to me for West Virginia. West Virginia is not at the center. We are not exactly a hub of jet aviation, but we are served by many good airlines that do their best to help us. We all know the issue of privatizing the air traffic control system has held this whole thing up for months. It is perplexing, because it does not seem to me to be that big an issue. Yet if we are simply to accede to it, in language which is potentially very vague, we have no idea what might happen.

That is why we sent this letter—my good friend and chairman, and I, and the chairman of the full committee—to try to get this extended for a year so we could look at it and go ahead and pass the rest of all this.

But we have not gotten the letter. We still have 7½ minutes, if I read the clock correctly. It could come in. Then we could all vote for the entire conference report. But short of getting that letter and that commitment, which we all signed on a bipartisan basis, then I think we have to vote against cloture because it is entirely a matter of employees being accountable to the public who maintain the airplanes, who are the service stations that send them from one place to another. That is accountability to the public. It is not accountability to the bottom line. It is not a matter of contracting out. This is fundamental safety.

If you ever go out to Herndon, VA, as I have, and you see the latest technology and you see all the airplanes in the air at any given moment in the United States of America, you can hardly see the country. There are airplanes everywhere and they are all traveling. They have to be guided. A lot of them are general aviation. Some of them are not, obviously.

The inability of Congress to resolve this issue has created a very significant uncertainty for our airports in particular. These are hard times for aviation. I don't think it is the right time to add more trouble in their life, more uncertainty in their life, less predictability in their life, and the worry about less safety in their life.

Last week we did attempt to resolve the main issue that held this up. As I indicated, Senators McCAIN, HOLLINGS, LOTT, DORGAN, and myself did send the FAA Administrator a very straightforward, honest letter and we requested the FAA impose a 1-year moratorium on the actual contracting out of any air traffic control functions, including flight service stations, which provide enormously important information to pilots. You can't do without them.

I have a little community in my State called Elkins, WV, which is currently not served by commercial aviation, but it does have a critically important flight service station that handles traffic for a significant part of the Washington, DC metropolitan area that is at risk of being contracted out—and will be.

Flight service stations such as these are absolutely vital security links in our Nation's air traffic control system and they have to be protected from privatization.

I come from a private enterprise background, and that has been pointed out to me humorously, or not, but you just can't fool around with public safety. You can't do it. Police officers are not contracted out. I guess they are in Iraq, but they are not in this country. They are public servants. Or you hire a private guard if you want to, something of that sort, but basically, protection of public life and public passage is in the hands of the Federal Government. And it should be. It has always been there. People trust it. If you took it away, or parts of it away, people would be stunned. I think they would be stunned.

This Senator can only support cloture if the administration has made a strong commitment to hold off any changes to the management of the air traffic control system for a year. And we have still 4 minutes to get that letter. Then we will vote for the conference report and I will happily do so because I agree with the Senator from Mississippi, there are lots of good things in it. But safety, unfortunately, is one of those things you cannot compromise.

The Senator from Arizona spoke about Air Force One and Air Force Two. I have never had any doubt they are well cared for. But there is a lot of other general aviation that may not be quite as well tended to, and we have to worry about that.

I don't think the conference report is going to pass the Senate if this letter doesn't arrive. It is not just a case of where the perfect is the enemy of the good but, rather, it is a fundamental debate over the future of aviation and security. It is a huge subject. Aviation is an enormous employer, creating enormous economic activity in our country.

This is not the process we should have to use for the FAA conference report. I would be the first to say that. It grieves me. This legislation has always enjoyed bipartisan support.

I want to set the record straight for 1 second and then I will be finished, on how this came about. When the Senate debated, as has been said by the Senator from New Jersey, we debated this important bipartisan bill. We had a bipartisan majority of Senators express serious concerns over the executive branch's future plans for the safety management of the air traffic control system as a whole. As the Senator indicated, we voted 56 to 41 to impose restrictions on the administration's proposal precisely to avoid the very outcome of the conference report we are now facing, which is allowing the administration to privatize functions of the air traffic control system.

I will not get into the House of Representatives. They also had voted to impose these safety restrictions. In the end, the majority of conferees—we were never invited to be a part of, I was never invited be a part of, but I have become accustomed to that because I was part of the Medicare conference and I wasn't part of that, so my threshold of expectations was low. But we had the will of both Chambers being expressed. Unfortunately, the conferees bent to the desire of the administration.

Congress has clearly spoken on its concerns over air traffic control privatization. Let us use next year to develop policies and make the system more secure, more safe, and more efficient. I urge my colleagues to reject cloture unless we get a letter in the next minute and a half which commits to this protection which I think we all want.

This is an enormous subject. I deeply regret we have come to this point. There is no reason we should have, but we have. Assuming that letter will not come, I will have to ask my colleagues to vote against cloture.

The PRESIDING OFFICER. The Senator from Mississippi.

Mr. LOTT. Mr. President, before he leaves the Chamber, I thank the Senator from West Virginia for his work on the Commerce Committee, and specifically for his work and his cooperation on the development of this legislation, both at the subcommittee and full committee level and here in the Chamber of the Senate, and also for the tone of his remarks. He wants to get this done and that is the attitude we should all have. In fact, that has been my goal. I am trying to find a way we can get a bill completed that has $60 billion in it, billions of dollars for security for our airports and for the airline industry as a whole and that the President will sign.

Is this about trying to win the point—the congressional position will prevail and the President's position will prevail? How about finding a position we can both live with? That is, fortunately or unfortunately, how it works sometimes in a legislative body. That has always been my attitude. I am not interested in making statements. We came here to get things done. We need to get this legislation completed. That is why we have been working feverishly to try to come to a conclusion.

With regard to contract towers, we have one in Tupelo, MS. It works fine.

I believe the record will show that the Senator from New Jersey has over the years supported the concept of contract towers. As a matter of fact, when he was chairman of the Transportation Appropriations Subcommittee, in 1994, the number of contract towers grew from 14 in 1987 to 59 at the end of 1994—an increase of 300 percent while he was subcommittee chairman.

I repeat again something I said: This is not a Republican idea. I am not even sure it is a Democrat idea. But it is an idea that was used effectively during Democratic administrations and Republican administrations.

The 1994 Senate report says:

> In light of the recent recommendations in the "Report of the National Performance Review" which calls for converting level I control towers to contract operations, the Committee has provided an additional $1 million above the amount requested for this program.

That was in the Transportation Appropriations Subcommittee report in 1994.

Here is the most important language from the subcommittee chairman, Senator LAUTENBERG.

> The Committee believes this public/private sector program (contract towers) has provided significant safety and economic benefits to smaller communities at a reduced cost to the Federal Government since its inception in 1982. The Committee urges FAA to expand the programs where appropriate.

Now, all of a sudden, contract towers are something really heinous. What is the difference in 1994 and 2003? We have done a lot more—I think over 200 of them. I think most of them work just fine.

I do not know. We are doing a little revisionist history here.

I emphasize this: There is no language in this conference report that would identify contract towers for Alaska, in or out. We took that out. It is not here.

We also had language in the conference report that said we would not have privatization of the air traffic control system.

Declare victory? Oh, no. That was a problem because it didn't apply to all parts and all unions involved in FAA.

That is what this is really all about. It is about making sure that every one of the unions that are involved in the Federal Aviation Administration are excluded.

Again, we are, I guess, looking for the perfect here. All the talk is about air traffic controllers, but as a matter of fact, it involves the Federal Flight Weather Service people, it involves maintenance, it involves everybody.

We can't have privatization of any part of the FAA, would be the attitude of some. I just do not understand that language here.

So it is very important that we realize what is actually in this conference report and what is not. My guess is, Can you accept victory? Can you accept victory? The administration has said they will put it in writing; they would have supported it in legislation; no privatization of air traffic control systems.

I ask the Senator from New Jersey. He addressed a question to me. I address a question to the Senator from New Jersey. Will he accept a commitment of a 1-year moratorium of no privatization of the air traffic controllers?

Mr. LAUTENBERG. If the Senator from Mississippi would read that infamous letter we are talking about, it says no actual privatization will take place.

Mr. LOTT. That is my point.

Mr. LAUTENBERG. My goodness, we couldn't privatize it within a year if we started today. That letter doesn't say what it is purported to say.

Mr. THOMAS. Mr. President, the FAA conference report before us this evening is critical because it provides funding for crucial safety, security and capacity projects at airports across the country.

I strongly believe that all Senators should support this cloture vote—especially since it includes provisions to strengthen our Nation's air service. However, a handful of Members on the other side of the aisle have held this measure up due to inaccurate claims that the administration wants to privatize our air traffic control system. I would like to take a few minutes to set the record straight.

The objective of the FAA contract tower program is to reduce costs to the Federal Government by contracting out the operation of low-activity towers while providing a safe and efficient service to users of the National Airspace System. Without the contract tower program, many smaller airports would be left with no air traffic control services.

Since 1982, the FAA has used the contract tower program to provide air traffic control services at low activity Visual Flight Rules towers across the country.

In 1994, the Program was expanded to include the conversion of FAA Level 1 Visual Flight Rule towers to contract operations. This expansion was included in Vice President Gore's National Performance Review and supported by Congress. The Department of Transportation's Inspector General has publicly stated how important the contract tower program is. This program makes sense because it allows the FAA to realign its resources in a more efficient and effective manner; it has a better safety rate than FAA towers; and, it saves taxpayer dollars.

All contract controllers are certified by FAA, and contract tower facilities are monitored on a regular basis by the agency. Additionally, the vast majority of contract controllers are former FAA and military controllers. All contract controllers are subject to the same training requirements and operating rules and procedures.

Presently, the FAA is operating 219 contract towers at airports throughout the continental United States, Alaska, Hawaii, Guam, and Puerto Rico. The Contract Tower program cost for FY 2002 was $73.5 million. This program results in annual savings of over $54 million.

A recent audit by the Inspector General at the Department of Transportation validated the cost savings, and found that contract towers operate as safely and efficiently as FAA towers. Contract tower locations are evaluated by the FAA under the same requirements as FAA staffed towers.

Contract towers are staffed at the levels required under current contracts. Contracts are required to submit monthly staffing reports—which provides verification that they are in compliance with their FAA approved staffing plans.

Several audits have commended the FAA's Contract Tower program for oversight of contractors and strict monitoring of controller staffing levels.

According to Department of Transportation Inspector General Kenneth Mead, the contract tower program provides "cost-effective services that are comparable to the quality and safety of FAA-operated towers." Additionally, the National Transportation Safety Board—NTSB—supports the contract tower program.

I find it hard to believe that a handful of Democrats know more than NTSB or the inspector general when it comes to aviation safety.

There are many aspects of our Nation's aviation system. Nothing in the FAA Conference Report would allow for privitization. Simply put, under this bill the FAA would continue to exercise the authority it has had since 1982.

A number of my colleagues have implied that this bill is an attempt to contract out the job of Enroute Control Centers. Enroute controllers are responsible for directing traffic across the United States—the Contract Tower Program has nothing to do with these positions.

At Congressional hearings this year, DOT's inspector general stated that with the sharp decline in revenues to the aviation trust fund and the most recent projections of the federal deficit, the FAA needs the flexibility to ensure VFR towers are conducted in the safest and most cost-effective manner possible.

Wyoming's busiest commercial airport—Jackson Hole—operates under a contract tower. The Jackson Airport handles over 63 percent of Wyoming's commercial air traffic.

For those who question the safety of contract towers, I would like to point out that Vice President CHENEY and President Bush both use contract towers when they fly to their respective home States. If the contract towers are safe enough for the President and Vice President—I believe they are safe enough for the American public.

I would like to quote Senator LAUTENBERG'S floor statement during consideration of the fiscal year 1994 Department of Transportation and Related Agencies Appropriations Act on October 4, 1993. He said:

> The use of contract towers is an example of how we can reduce the costs of Government services and achieve savings over the long run. FAA estimates that the use of a contract control tower saves $200,000 annually because of the flexibility available in scheduling controller working hours around changes in air traffic activity levels.

I ask unanimous consent that the Talon News article by Jeff Gannon dated September 23, 2003 be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Talon News Sept. 23, 2003]

Daschle, Lautenberg Vow to Fight FAA Privatization They Supported in 1994

(By Jeff Gannon)

WASHINGTON (TALON NEWS).—New Jersey Democrat Sen. Frank Lautenberg is promising to hold up the Federal Aviation Administration reauthorization bill over the subcontracting of some air traffic control jobs. He cited safety concerns as the basis for his opposition to the outsourcing of air traffic control functions.

President Bush has threatened to veto a bill that does not include language to allow the privatization that his administration says will result in increased savings with no reduction in safety. Democrats are challenging competitive sourcing of thousands of federal jobs through insertion of amendments into departmental appropriations bills that would prohibit the practice.

Some are characterizing Lautenberg's opposition to the privatization as political, since he championed a similar program in 1994.

Geoffrey Segal, the Director of Government Reform Policy for the Reason Foundation, told Talon News, "The change in position clearly is pandering to special interests, in this case NATCA (National Air Traffic Controllers Association), who have aggressively stepped up their lobbying efforts to fight competition in the FAA."

Segal pointed out that, while serving as chairman of the Senate Transportation Appropriations Subcommittee, Lautenberg supported the part of Vice President Al Gore's program for "reinventing government" that included the changes now being proposed by President Bush.

Segal continued his criticism of Lautenberg, saying, "The flip-flop in position is pure partisan politics—it's reform when proposed by a Democrat, but it's trading safety and security for profits when it's a Republican proposal."

Lautenberg was quoted in the Washington Post in 1994, saying, "The [Clinton] administration's proposal to privatize the air traffic control system is consistent with the desire to bring more efficiency and reform to government and should be reviewed seriously."

On the Senate floor in 1993, the New Jersey Democrat declared, "I strongly endorse the FAA's contract tower program for level 1 (the smallest) control towers. . . . The use of contract towers is an example of how we can reduce the costs of Government services and achieve savings over the long run."

Lautenberg justified his support of privatization by saying, "FAA estimates that the use of a contact tower saves $200,000 annually because of the flexibility available in scheduling controller working hours around changes in air traffic activity levels."

At the time, South Dakota Sen. Tom Daschle (D–SD) praised Lautenberg's efforts, saying, "I would like to compliment the Senator from New Jersey for once again doing a masterful job in providing the Senate with an appropriations bill that recognizes the importance of our transportation systems to the health of our economy and fairly balances the competing demands for improved transportation services throughout the United States." .

Daschle continued his complimentary assessment of the privatization provision, saying, "I am grateful that report directs the FAA to include the Aberdeen (South Dakota) Airport in the FAA's contract tower program."

Lind Hall Daschle, the senator's wife, was a deputy administrator for the FAA from 1993 until 1997.

The Reason Foundation's Segal summarized his assessment of the political motivation of the Senate Democrats by saying, "Of course, the larger picture is that both Sens. Lautenberg and Daschle supported bringing competition to government, however, as part of President Bush's plan to do the same, both senators are outspoken opponents of the plan. It seems that competition in Aberdeen is good for Sen. Daschle's constituents but not for American taxpayers."

FAA officials have suggested that unless action is taken by the September 30 expiration of the current authorization, it would begin to furlough non-essential personnel. Marion C. Blakey, the agency's administrator, predicts more dire consequences. The New York Times quotes her as saying, "We see ourselves on the brink of closing the doors."

A temporary reauthorization measure is being proposed to break the impasse and to avoid a shutdown of the FAA. Two Republicans, Sens. Trent Lott (R–MS) and John McCain (R–AZ), indicated they would oppose any short-term extension and intend to continue work on the full four-year bill.

Mr. THOMAS. Mr. President, I hope my colleagues and the American public see that under the Clinton administration the Contract Tower Program was okay but it's not today—under a Republican administration.

This conference report includes many important provisions for our aviation system. It includes billions in funding for the Airport Improvement Program; provides continuation of the Essential Air Service and Small Community Air Service programs; funds FAA operations, air traffic control facilities and equipment; extends War Risk Insurance to March 2008; and it provides streamlining for airport capacity, safety and security projects.

Secretary Norman Mineta has stated that "passage of this legislation offers millions of American travelers the assurance that the Nation's aviation system will remain the safest, most efficient and most competitive in the world." The facts speak for themselves. The Contract Tower Program provides cost effective, quality and safe air traffic control services to smaller airports.

I urge my colleagues to support cloture on this important bill.

Mr. KENNEDY. Mr. President, the tragedy of September 11 has been seared into all our memories. We will never forget the sudden massive loss of lives, and the realization that our country was now extremely vulnerable to terrorist attack. We remember the extraordinary courage of the passengers on the fourth plane who prevented the terrorists from completing their murderous mission. We also remember the extraordinary courage of the firefighters, police officers, and other rescue workers at the sites of the attacks, and millions of our fellow citizens who reached out to help the families of the victims.

We remember as well the extraordinary performance of the air traffic controllers, who took on the incredible challenge of protecting the whole aviation network and ensuring the safety of the public on that tragic day and in the days that followed. Their professionalism and patriotism inspired us all.

So why in the world is the administration now attempting to undermine those brave citizens? We must defend them instead, because the air traffic controllers are defending us and defending the safety of the American flying public.

Over and over again we see the problems in the administration's privatization policy throughout the Federal Government. We have been fighting other battles to correct those policies and make them fair for Federal employees.

But we must be especially careful with these policies when they affect homeland security. We all know what a disaster it was when private companies screened bags at our airports. Now, Federal workers are doing the job better, and Americans are feeling safer.

Both the House and the Senate specifically voted to protect air traffic controllers and keep these vital safety jobs as part of the Federal workforce. Yet now, because of a shameful veto threat from the White House, the House and Senate Republican leadership have yielded to and agreed to a privatization of these jobs. That change is unacceptable.

In fact, the Senate bill contained even stronger protections than the House bill. The Senate voted 56 to 41 to approve Senator LAUTENBERG's amendment to protect not just air traffic controllers, but also systems specialists and flight service station controllers from privatization. I commend my colleague from New Jersey for his continued leadership in this important battle.

The FAA reauthorization bill now before us defies the will of the majority in both the House and the Senate. It undermines the safety of our aviation system, and I urge my colleagues to vote "no" on cloture.

Mr. REID. Mr. President, the U.S. air traffic control system works miraculously well. It is a public system that is admired around the world. American air traffic controllers safely and efficiently guide 9 million flights a year with more than 600 million passengers.

When it comes to the safety of air travel, the American people demand perfection, and rightfully so. That is why the Federal Aviation Administration has set a goal of reducing air traffic fatalities to near zero. This challenge has become increasingly complex as flights have increased to meet the growing needs of the traveling public. There isn't much room for error.

Unfortunately, the administration and House Republican leaders are backing a plan that compromises passenger safety by privatizing the air traffic control system. This flawed and misguided plan is contained in the conference report on this FAA bill. It is opposed by 71 percent of Americans.

Earlier this summer, the U.S. Senate and House of Representatives both voted in their respective FAA bills to maintain air traffic control as a public function and prevent it from being privatized. That is the will of Congress.

Instead of affirming that the safety of air travelers is the responsibility of the United States Government, members of the conference committee, at the urging of the administration, passed an initial conference report that allowed for immediate privatization of 69 air traffic control towers.

This brazen attempt at privatization was met with such opposition that the House was forced to recommit the bill to conference. However, once recommitted, the House simply stripped language in the conference report dealing with privatization. No conference committee meetings were held. The bill was passed along party lines. And our Republican friends say this is the status quo.

Nothing could be further from the truth. The House and Senate passed language to prohibit privatization in response to an Executive order by the administration to privatize the air traffic control system.

Put simply, the conference report allows the FAA to privatize any air traffic control functions at its whim. This policy creates a puzzling contradiction. Our Government has declared that your luggage is important enough to be screened by trained Federal workers, but once you are up in the sky, with your life in the balance, the administration apparently feels that your safety isn't as important as your suitcase.

Any meaningful legislation must follow the mandate of the Senate and House bills and refrain from trying to privatize our air traffic control system.

If the House attempts to force privatization of our Nation's air traffic control system, it will only delay funding of essential airport infrastructure and security programs. That would be irresponsible and even reckless.

We urge our colleagues to work with us to craft a revised FAA bill that honors the overwhelming sentiment in Congress against privatization of air traffic control operations and maintenance, that protects the U.S. aviation industry from unfair foreign competition and maintains Federal support of the essential air service, and a bill that ensures that our Nation's flight attendants receive mandatory antiterrorism training.

Let's move forward by passing a straight 6-month extension of all FAA programs that will provide the necessary time to work through these issues. An extension bill, introduced by Senators ROCKEFELLER, LAUTENBERG, and DASCHLE, will provide a vehicle for the Congress to get the process and substance of the FAA bill right.

I am confident that both Chambers of Congress will reassert their intent to block privatization, protect the integrity of essential air service, continue the ban on cabotage, and train flight attendants as mandated under existing legislation.

Americans entrust their lives every day to our air traffic controllers. Now they are trusting us to protect their safety.

FAA PRIVATIZATION

Mr. REID. Our friends of the other side of the aisle suggest that President Bush has no plans to privatize the air traffic control system. They point out that the President hasn't privatized any towers in the past 3 years. Then why is the President threatening to veto this bill if it includes language to prohibit privatization? Why is the President delaying the funding for essential airport construction projects? Does this make any sense to the Senator?

Mr. LAUTENBERG. Unfortunately, certain Senate conferees to the FAA bill decided to remove all barriers to privatizing our national air traffic control system. But both the Senate and the House voted to put these barriers in the bill as a response to President Bush's actions, including the issuance of an Executive order, to move towards privatizing air traffic control. And the President feels so strongly about privatizing that he has forced conference leaders not to take any actions in the bill. And this is not agreeable to those of us concerned about the safety impacts of the President's plan. To my dismay, this ideological crusade by the White House has held up passage of the legislation for over 3 months, and I am disappointed that some of my colleagues are willing to sacrifice safety for this zeal to privatize.

Mr. REID. Our colleagues also point out that President Clinton privatized 116 of the current 219 contract towers. Isn't it inconsistent for Democrats to argue privatization when it was a common practice under the Clinton administration?

Mr. LAUTENBERG. Between 1994 and 2000, the FAA did contract out 130 small FAA towers. These were "level I towers"—generally with less than 25 operations per hour and operating under "visual flight rules"—that is, without radar equipment. I also note that the current list of 219 towers constitutes a small fraction of overall air traffic in the United States. While exploring ways to modernize air traffic control equipment for the entire national system, the Clinton administration proposed a Federal corporation to take over air traffic operations. While I initially was willing to consider this proposal, it was rapidly determined to be a poor idea, and the President eventually made the determination that air traffic control is an inherently governmental function. So during reauthorization of the FAA bill in 1996 and 2000, we agreed to FAA management reforms, to give FAA the flexibility it needs to act as a better manager, not privatization. In the end, the President and the Congress agreed that air traffic control is an inherently governmental function, and recognized that it was not wise to pursue privatization. Unfortunately, the Bush administration reversed the Clinton administration's executive order last year, reclassifying air traffic control functions so that privatization could proceed. And this was after September 11. In summary, the Clinton administration did not support privatization, while the Bush administration does support privatization.

Mr. REID. You mentioned that the Bush administration reversed the Executive order issued by the Clinton administration establishing air traffic control as an inherently governmental function. Did the Bush administration have second thoughts about that after September 11, 2001?

Mr. LAUTENBERG. I say to Senator REID, this may be hard to believe, but the Bush administration issued their Executive order after September 11. I find that especially troubling in light of the incredible and even heroic performance by the Federal employees of our Nation's air traffic control system on September 11. The security of the Nation's airlines became so important that we felt the need to federalize baggage screening. But somehow, this administration still wants to privatize the air traffic control system.

Mr. JEFFORDS. Mr. President, I have serious concerns about several provisions found in the FAA reauthorization conference report. Before the Senate passed S. 824, the FAA reauthorization bill, we expressly prohibited additional privatization of air traffic controllers. We also eliminated a proposed cost-sharing requirement for local communities that participate in the essential air service program. This requirement would have placed an insurmountable burden on many remote communities struggling to maintain commercial air service.

Our colleagues in the House responded similarly to these issues. When the Senate and House bills went to conference, neither Chamber's legislation permitted privatization of air traffic controllers, nor did either bill contain an essential air service cost-share requirement.

Therefore, I was surprised and disappointed to learn that the final conference report allows both.

I am also very concerned about the provisions in this bill affecting the National Environmental Policy Act, NEPA. While not actually an amendment to NEPA, these provisions are more likely to lead to extended conflict, litigation and confusion—far from a streamlined result. In addition, the Department of Transportation has neither the authority nor the expertise to determine the environmental impact of various alternatives to a project under environmental statutes such as the Clean Water Act and the Endangered Species Act. Other Federal entities, such as the Army Corps of Engineers or the Fish and Wildlife Service who have specific statutory mandates, must evaluate alternatives under Federal law when their jurisdiction is invoked.

For example, regulations governing wetlands permits under section 404 of the Clean Water Act require the Army Corps of Engineers to evaluate several factors such as "fish and wildlife values," "water quality," "conservation," and "aesthetics" in determining whether a permit is in the public's interest. The Clean Water Act imposes specific substantive standards on the Corps' decision and prohibits the Corps from issuing a permit to fill a wetland if there is a less damaging practicable alternative. Under current law, the Corps has the authority to supplement NEPA documents with additional information in order to fulfill its legal responsibility. The legal obligations of these other agencies have not been repealed by the language in this bill, nor should they be.

There is ample authority contained in the existing NEPA statute and regulations for coordination among Federal agencies in performing required environmental reviews. The confusing statutory directions contained in this bill are both unnecessary and counterproductive if the desired result is efficient project completion.

Given its current content, I cannot support this conference report.

Just last year, Congress determined that, for security reasons, airport passenger screeners should be Federal employees. Why would we treat air traffic controllers differently? They play an equally important role in ensuring the safety of our air travelers.

Our air traffic control network safely guides more than 700 million passengers a year. In addition, the ATC network provides a crucial national security service by coordinating the national air space for military aircraft as well as for commercial aircraft. As we saw immediately following the terrorist attacks of September 11, 2001, the ATC system must be prepared to respond quickly and efficiently in emergency situations.

In order to best ensure the safety of air travel in this country, our air traffic control network must remain a Federal responsibility. This bill permits privatization of air traffic control towers around the country.

I am also very concerned that the essential air service cost-share language found its way back into this legislation. The EAS program was created in 1978, when Congress passed the Airline Deregulation Act, reflecting Congress's belief that deregulation should not result in the elimination of airport service in rural communities. In my home State of Vermont, the Rutland State Airport depends on this program to maintain commercial service in and out of the Rutland region.

For many cash-strapped EAS communities, the local match required by the cost-share provision in this bill is insurmountable. Mandatory cost-shares will mean the end of commercial air service in many economically depressed rural areas. If we adopt this provision, we have essentially defeated the goal of the EAS program.

Both the House and the Senate acted on these two provisions earlier this year. The FAA conference report reverses the positions that a majority of our Members agreed to on the House and Senate floors. Rather than endorse the flaws found in this legislation, I urge my colleagues to support S. 1618, Senator ROCKEFELLER's short-term extension of the Federal Aviation Administration programs. This bill provides the additional time we need to work out a long-term reauthorization package that represents the positions of a majority of Members of both Houses of Congress.

(At the request of Mr. DASCHLE, the following statement was ordered to be printed in the RECORD.)

• Mr. KERRY. Mr. President, I would like the record to reflect my opposition to the Vision 100—Century of Flight conference report. The final bill does not include any prohibition against privatizing the air traffic control system, an issue that has serious safety and national security implications. I voted in favor of the Lautenberg amendment in June and will oppose ending debate today because passage of this bill without language protecting ATC from privatization will make our aviation system less secure and more vulnerable to terrorist attacks.

After the September 11 attacks it was obvious that the Federal Government needed to assume a greater role in aviation security. Although we passed legislation that made baggage and passenger screening a federal responsibility—legislation that the administration supported—the President signed an executive order that designated air traffic control as a "commercially competitive" enterprise. This is a strange dichotomy. The President seems to believe that, in the realm of aviation security, airport security and air traffic control are mutually exclusive. I fail to see how these issues are mutually exclusive and am disturbed at the administration's efforts to undermine the protections that were originally included in both the House and Senate bills.

Mr. President, if this bill passes without a prohibition on privatization, the executive order signed by the President will stand and he will be able to contract out the Nation's ATC to the lowest bidder. I cannot imagine a worse policy for our Nation. This work should only be performed by well trained and experienced Federal workers. These men and women perform a valuable service to their country and their jobs should not be shipped out to a private entity. I urge my colleagues to oppose this bill.•

Mrs. MURRAY. Mr. President, I oppose the motion to close debate on the FAA reauthorization bill.

While I strongly support the bill's authorized funding for infrastructure and operations for our Nation's aviation system, I am troubled that this bill still gives the Administration too much leeway to privatize our Nation's air traffic control, ATC, system.

We know this administration is eager to privatize government jobs even when it costs more money and does not improve productivity. We also know that air traffic control involves special considerations like safety, cost and flight delays.

That's why both the House and Senate passed amendments to the FAA bill to explicitly limit the administration's ability to privatize FAA-controlled towers. I voted for the Lautenberg Amendment in June, and it passed the Senate 56-41.

You would have thought that the White House would recognize that it was on the wrong side of this bipartisan issue. But instead of accepting this reality, the White House pressured the members of the conference committee to remove the limiting language during the first conference. Regrettably, a majority on the conference committee followed the White House's request.

In its place, the conferees added new language that goes even further in supporting privatization. That new language would allow 69 of current FAA controlled towers to be eligible for privatization. Eleven of those towers are among the 50 busiest in the nation, including Boeing Field in Seattle.

The conferees then presented that proposal, only to realize that it faced strong opposition in both Houses of Congress.

The conferees were forced to take their first report back for further deliberation. Their second conference report, which is before us today, dropped the expanded privatization provision. However, it did not reinstate the initial language that both chambers supported, which would explicitly limit the administration's ability to privatize our air traffic control system.

Given the administration's disregard for congressional intent, I believe that this limiting language is critical.

As ranking Member of the Transportation, Treasury and General Government Appropriations Subcommittee, I have supported some privatization of ATC, but only at low-traffic airports that would otherwise not have a tower.

This is not just a process or philosophical issue but raises questions about benefits, safety and cost. The countries that have privatized their ATC systems—Canada, Australia and the U.K.—have seen increased flight delays and—in the case of Great Britain—an increase in "near misses" that could result in accidents. In addition, this private control requires more resources than government-run systems.

It is important to note that the Lautenberg amendment would have allowed the government to continue to provide private air traffic control to smaller airports.

Senator ROCKEFELLER has offered a simple 6-month extension of AIR–21, which will allow us to reexamine this issue and put together a package that reflects the will of Congress and the people.

I urge my colleagues to oppose this conference report.

Mrs. BOXER. Mr. President, I discuss why I am voting against cloture on the FAA Reauthorization bill.

This bill includes some very good provisions, including funding for our Nation's airports and two provisions that I was able to include in this bill—certification of flight attendant anti-terrorism training and allowing trained cargo pilots to carry guns in the cockpit.

However, these good provisions do not make up for the threat to the safety of air travel that this bill will cause.

On June 12, 2003, Senator LAUTENBERG's amendment to the FAA bill passed 56 to 41. His amendment, which I supported, would have prevented the Administration from privatizing the U.S. air traffic control system. The House bill had a similar provision.

However, during the conference process the provisions in both bills were ignored. This summer, Republican conference leaders filed a conference report that specifically sanctioned privatization at up to 69 airports, some of which are the busiest in the country in terms of flight operations. For instance, Van Nuys airport in California is the eighth busiest airport in the country in terms of flight operations.

When that clearly did not have the support of the Congress, the conference report was rewritten, and the privatization language was dropped. But, the language prohibiting privatization was not reinserted, and the administration has indicated it intends to go forward.

Privatizing the controllers is a bad idea. The system is not broken, and we should not try to "fix" it. Our air traffic controllers did a valiant job after the terrorist attacks on September 11 by closing air space and by landing all of the planes safely. We should not mess with success.

Safety must be a top priority in air travel. Privatization puts that safety at risk.

Mr. FEINGOLD. Mr. President, today the Federal Aviation Administration reauthorization conference report comes before the full Senate. I plan to vote against cloture on the conference report to accompany H.R. 2115 because it would permit the contracting out of certain air traffic controller positions currently filled by Federal Government employees.

I do not support efforts to contract out air traffic controller positions because these positions are vital to our national security. I regret that the FAA conference report does not include language passed by both the Senate and the House—which I supported—that would have prohibited the administration from contracting out these important positions.

I support the funding for airports and airline industries in our country that this bill contains and it is not my intention to slow down funding for airports or airlines. However, the safety of Americans must outweigh the possibility of airlines and airports being temporarily inconvenienced.

Supporters of this legislation will argue that airport construction projects will be delayed if we do not pass this bill soon. However, how can the lives of Americans be compared to the value of construction projects? Airport projects are certainly important, but the lives of Americans are worth a slight delay in the passage of this bill.

Safety is one of the most important elements of this bill for me and for Wisconsin residents. I have been contacted by a number of constituents from my home State of Wisconsin who stated their opposition to the contracting out of air traffic controller positions. I share their concerns and I am not prepared to vote for cloture on a bill that does not contain adequate safeguards to ensure passenger safety.

The contracting out of air traffic controller positions would be a major mistake with potentially life-threatening consequences. In recent years, other countries have attempted to privatize their air traffic control systems only to encounter major problems, with increases in "near-misses" of airplanes or actual airplane crashes. Furthermore, in attempting to privatize their air traffic control systems, other countries have experienced increased delays and higher costs and fees for passengers. With our economy in its current condition, higher costs and fees are the last thing that consumers want or deserve.

In Canada, where air traffic control privatization was established in 1998, the Canadian Transportation Safety Board found that under-staffing at some towers has been a major concern and may have contributed to near mid-air collisions. According to the London Daily Telegraph in Great Britain, flight delays caused by air traffic control increased by 20 percent since the system there was outsourced. More importantly, the UK Airport Board found that "near miss" plane crash incidents had risen to their highest levels in a decade. We cannot and must not take that risk here in the United States.

Those supporting this bill as it presently stands argue that the legislation needs to be passed immediately and should not be held up because of the privatization debate. The safety of Americans is no minor issue. The bill as it currently stands puts many American lives at risk, as demonstrated by the increased danger of air collisions that we have seen in other countries.

This conference report also fails to address an important issue regarding flight attendants. This issue is an important one following the events of September 11, 2001. Since that tragic event in our Nation's history, cockpit doors have been reinforced, some pilots have been trained and certified to carry firearms and marshals have been added to some flights. Pilots have also been directed to remain in the cockpit during a highjacking, leaving flight attendants alone in the cabin with only minimal training on how to work with a marshal or respond alone to such an event. The provision that was not included in the legislation before us seeks to protect flight attendants by making it mandatory that the Transportation Security Administration issue minimum training standards for flight attendant self-defense training within one year.

The current legislation states that the Transportation Security Administration "may" issue minimum training standards for flight attendant self-defense training. This is simply not enough to protect the flight attendants or the flying public.

For the above reasons I regret that I cannot vote for cloture.

Mr. LOTT. Mr. President, I reserve the remainder of my time.

Mr. LAUTENBERG. How much time is left on our side, Mr. President?

The PRESIDING OFFICER. Two minutes 32 seconds.

Mr. LAUTENBERG. On the majority side?

The PRESIDING OFFICER. Five minutes on the majority side.

Mr. LAUTENBERG. Mr. President, I have listened, and if I were not experienced I would be shocked at what is being said. Get over Alaska. What do you care about Alaska? I care about my family. I even care about the other guy's family.

Why was FAA started in the first place?

June 30, 1956: TWA Flight 2 collided with United Flight 17 killing 128 people. The record shows that one probable cause of the accident was insufficiency of the en route traffic control advisory.

They can trivialize it on the other side all they want—smile and smirk.

But the fact is that Don Young was the smartest of them all. And why didn't we hear from the Republican side when the vote was taking place in June? We had 11 Republicans vote with us. I did not hear the cry that: We are not going to be able to fund this. We are going to be able to fund it.

Senator ROCKEFELLER and I proposed a compromise in S. 1618, which was an FAA temporary extension act. Let us get it all out there. But no, the other side persists in getting this thing through by one hook or another.

The fact is that by any sense of one's decency, don't throw FAA into the same pot out of which we dug the baggage screeners. It is ridiculous to have this kind of a debate.

Sure, we can prove Air Force One can land anyplace. We know the President lands it all over in fundraising, for goodness' sake. We see that airplane going out there. But that is a different situation than the one we are talking about when we have pilots who can occasionally make mistakes even when aided by the guidance of the FAA controllers. They know exactly what to do with the weather, they know what wind sheer looks like, and they know all of the conditions. And I am not the pilot. Senator MCCAIN is the pilot in this room.

The fact is it is safety; that is what I am concerned about. I am not interested in protecting anybody's turf except the families who fly every day across this country and the people who want to know they are going to get there in a timely and safe fashion. With the scares we suddenly see coming out, and shoulder-fired missiles, and here—oh, no; we don't have to talk about safety; let us talk about process.

The PRESIDING OFFICER. The Senator's time has expired.

Mr. LOTT. Mr. President, I yield whatever time remains to Senator MCCAIN who will wrap up. Any time he doesn't use I would like to retain.

The PRESIDING OFFICER. The Senator from Arizona.

Mr. MCCAIN. Mr. President, I thank my colleague. I will be brief.

The letter says:

> Let me be absolutely clear. The administration has no plans to privatize the Nation's air traffic control system.

I would resist and join in efforts to prevent that.

It is very interesting: Baggage screeners? Could the Senator from New Jersey be talking about TSA, talking about baggage screeners? That is an interesting depiction. They are required to make sure there is security in our airports, I inform my colleague.

We are talking about hundreds of thousands of jobs here. We are talking about safety. We are talking about improved security. We know what needs to be done to improve security at our airports. That is in this bill. These come from the recommendations of the TSA and the Department of Homeland Security. They are vital.

If the Senator from New Jersey is interested in safety, then he will support the passage of this bill because it enhances in a broad variety of ways the safety of the airports in America. It is vital we implement these safety procedures.

If they were not interested, Vice President Gore's National Performance Review in 1994, recommendation No. 9 for Department of Transportation, recommended converting 99 FAA staff control towers to contract operations. I wonder if the Vice President had that in mind at the time this process began.

The important point is we tried very hard to come to some agreement. I don't think this has been a good process, but we made offer after offer. We have pressured the administration to come up with other offers. But the reality we were faced with was the threat of a Presidential veto. So we tried to reach accommodation. Obviously, that has not been enough.

But I assure my colleagues that if we don't pass this legislation, we will be back to the status quo, and the status quo—because we are not going to let this authorization die—will be continued privatization of towers in America, a program which has been a successful experiment.

I thank Senator ROCKEFELLER for his hard work on this issue. I appreciate it. Especially, I thank Senator LOTT for the many hours he put in trying to get this very important legislation passed.

The PRESIDING OFFICER. The Senator from Mississippi has 2 minutes.

Mr. LOTT. I ask unanimous consent that the letter to which Senator MCCAIN referred a moment ago from administrator Marion C. Blakely be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

U.S. DEPARTMENT OF TRANSPORTATION, FEDERAL AVIATION ADMINISTRATION,
Washington, DC, November 17, 2003.

Hon. JOHN MCCAIN,
Chairman, Committee on Commerce, Science, and Transportation, Russell Senate Office Building, Washington, DC.

DEAR MR. CHAIRMAN: I have received your November 13, 2003, letter regarding the issue of contracting our functions performed by Federal Aviation Administration (FAA) employees. It is unfortunate that the recent debate on FAA's pending reauthorization bill, Vision 100—The Century of Aviation Reauthorization Act has led some to confuse maintaining the status quo of the FAA's Contract Tower Program with privatizing our nation's air traffic control system. Let me be absolutely clear: the Administration has no plans to privatize the nation's air traffic control system.

I welcome and respect the Committee's duty to perform oversight of the FAA. I look forward to participating in the hearings you described, as there are many misconceptions as to the FAA's plans with respect to competitive sourcing that I would like to correct. In the meantime, if the legislation is enacted in its current form, you have my commitment that during the current fiscal year the FAA will not contract out any air traffic separation and control function currently performed by the FAA. Further, during that period, the FAA will not convert any Visual Flight Rule (VFR) tower to a contract tower.

I look forward to working with the Committee on the important challenges facing the Federal Aviation Administration. The Conference Report contains many provisions which will provide us with important tools to enhance aviation safety, security, and capacity. I hope that my assurances to the Committee will allow us to move forward on this important piece of legislation.

Sincerely,

MARION C. BLAKEY,
Administrator.

Mr. LOTT. Let me read from part of that letter. She acknowledges the letter the bipartisan group sent her last week, dated November 13, regarding contracting out functions performed by the Federal Aviation Administration employees.

> It is unfortunate that the recent debate on FAA's pending reauthorization bill, Vision 100—the Century of Aviation Reauthorization Act has led to some confusing maintaining the status quo of FAA's Contract Tower Program with privatizing our nation's air traffic control system. Let me be absolutely clear: The Administration has no plans to privatize the nation's air traffic control system.
>
> I welcome and respect the Committee's duty to perform oversight of the FAA. I look forward to participating in the hearings you describe, as there are many misconceptions as to the FAA's plans with respect to competitive sourcing that I would like to correct. In the meantime, if the legislation is enacted in its current form, you have my commitment that during the current fiscal year the FAA will not contract out any air traffic separation and control function currently performed by the FAA. Further, during that period, the FAA will not convert any Visual Flight Rule (VFR) tower to a contract tower.

What more can you ask? This is a letter from the Administrator, responding to our letter assuring us of those things we have been asking. They are not going to contract the air traffic control system, and they are not going to convert the visual flight rule tower to a contract tower.

I urge my colleagues, for the safety of the American people, for the importance of jobs in the economy, to vote for cloture. Let's pass this legislation and move it to the President for his signature.

Have the yeas and nays been ordered?

The PRESIDING OFFICER. The yeas and nays are mandatory under the rule.

Mr. LOTT. I yield the floor.

CLOTURE MOTION

The PRESIDING OFFICER. Under the previous order, the clerk will report the motion to invoke cloture.

The legislative clerk read as follows:

CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the

Standing Rules of the Senate, do hereby move to bring to a close debate on the conference report to accompany H.R. 2115, the Flight 100–Century of Aviation Reauthorization Act.

Bill Frist, John McCain, Conrad Burns, Ben Nighthorse Campbell, Wayne Allard, Jeff Sessions, Mike Crapo, Larry E. Craig, Kay Bailey Hutchison, John E. Sununu, George Allen, Saxby Chambliss, Rick Santorum, Norm Coleman, Craig Thomas, Pat Roberts, Trent Lott.

Mr. CORNYN. By unanimous consent, the mandatory quorum call has been waived.

The question is, Is it the sense of the Senate that debate on the conference report to accompany H.R. 2115 shall be brought to a close? The yeas and nays are mandatory under the rule.

The clerk will call the roll.

The bill clerk called the roll.

Mr. McCONNELL. I announce that the Senator from Utah (Mr. BENNETT), the Senator from Kansas (Mr. BROWNBACK), the Senator from Kentucky (Mr. BUNNING), the Senator from South Carolina (Mr. GRAHAM), the Senator from New Hampshire (Mr. GREGG), and the Senator from New Hampshire (Mr. SUNUNU) are necessarily absent.

I further announce that if present and voting the Senator from Kentucky (Mr. BUNNING) would vote "yes."

Mr. REID. I announce that the Senator from New Jersey (Mr. CORZINE), the Senator from Connecticut (Mr. DODD), the Senator from North Carolina (Mr. EDWARDS), the Senator from Florida (Mr. GRAHAM), the Senator from Massachusetts (Mr. KERRY), and the Senator from Connecticut (Mr. LIEBERMAN) are necessarily absent.

I further announce that, if present and voting, the Senator from Massachusetts (Mr. KERRY) would vote "nay."

The PRESIDING OFFICER (Mr. ALLARD). Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 45, nays 43, as follows:

[Rollcall Vote No. 453 Leg.]

The PRESIDING OFFICER. On this vote, the yeas are 45, the nays are 43. Three-fifths of the Senators duly chosen and sworn not having voted in the affirmative, the motion is rejected.

The majority leader is recognized.

Mr. FRIST. Mr. President, I enter a motion to reconsider the vote by which cloture failed.

The PRESIDING OFFICER. That motion is entered.

Mr. FRIST. Mr. President, for the information of colleagues, we will have no more rollcall votes tonight. For my colleagues' planning purposes, we will come in tomorrow morning at 9:30 and have two cloture votes beginning at 10:30 tomorrow morning. Tonight, we will continue with the debate for which we will get unanimous consent in a moment. I encourage our colleagues to participate and to stay for this debate for which we will propound a unanimous consent request at this juncture.

Again, we will have no more rollcall votes tonight. We will have two cloture votes at 10:30 tomorrow morning.

MORNING BUSINESS

The PRESIDING OFFICER. The Senator from Arizona.

Mr. KYL. Mr. President, I ask unanimous consent that there now be a period for morning business for up to 65 minutes, with the time divided as follows:

Senators DORGAN and KYL be recognized first in this order for up to 1 minute each; the next 20 minutes be divided with the Democratic side in control of the first 5 minutes, to be followed by 5 minutes under the control of the Republican side, to be followed by an additional 5 minutes for the Republican side, with the final 5 minutes under Democratic control.

I further ask unanimous consent that the next period of time be divided, as follows:

Each side be permitted to ask up to four questions for up to 1 minute each in an alternating fashion, to be followed by a response of up to 2 minutes to be controlled by the other side of the aisle; to be followed by an additional minute by the first side, with the Republicans to ask the first question.

I further ask unanimous consent that the next 8 minutes be allotted in 2-minute segments alternating with the Democrats first and the Republicans concluding; further, that Senator DORGAN then be recognized to speak for up to 1 minute, to be followed by Senator KYL for the final minute; that upon the yielding of the floor, any debate time remaining during that period of controlled time be yielded back.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KYL. Mr. President, let me announce to my colleagues that this is the second in a series of scheduled debates between the Republican and Democratic sides of the Senate on subjects of importance to the American people to be conducted in actual debate format. Rather than the usual situation where we speak to an empty Chamber or talk across each other, we have actually set up a debate in which two Republicans and two Democrats will tackle a subject of interest today and respond to each other and engage in debate the way it was originally intended by our Founders and by the people who set up the rules of the Senate.

All of the speakers will go through the Chair, but they will be addressing this subject in prepared remarks and then in rebuttal and response to each other. Senator DORGAN and I, who chair our respective policy committees, hope we can thus establish a precedent in this body that at least once a month we will pick a topic and engage in debates the way it was intended to be. We hope both our colleagues and the American people will be edified by this process, not to mention the other Senators in the body.

The PRESIDING OFFICER. The Senator has used 1 minute. The Senator from North Dakota.

Mr. DORGAN. Mr. President, before we begin, let me say to my colleague from Arizona that I think this is a good idea. We will engage now for the second time today in a debate about a specific topic. We will do it for 1 hour talking about something that is very important to the country. In this circumstance, it is going to be jobs and economic policies that create jobs.

This Senate is considered the greatest deliberative body in the world and, from time to time, people might tune in and wonder whether that description best suits the Senate these days. I think it does, however.

There are some extraordinary men and women who serve in this body, very capable of debating the issues. So Senator KYL and myself, as chairmen of the respective policy committees, have decided to establish this 1-hour debate on important issues. I am going to participate in the debate on our side at this time, and I believe Senator KYL will participate in a future debate.

The PRESIDING OFFICER. The Senator has spoken for 1 minute.

Mr. DORGAN. Mr. President, I look forward to this debate.

The PRESIDING OFFICER. The Democrats now have 5 minutes. The Senator from Iowa is recognized.

JOBS AND THE ECONOMY

Mr. HARKIN. Mr. President, again I join Senator DORGAN and my colleagues on the other side in saying how pleased we are to be here this evening to continue this process of having legitimate debates on the Senate floor regarding topics of importance to the American people.

Tonight we will be talking about jobs and the economy. In my 5-minute opening statement, I am prepared to show that Democratic economic policies are superior to Republican economic policies as it benefits the American public.

How are Democratic policies better? Simply because we create more and better jobs.

We create a better standard of living and quality of life for the majority of Americans who are working. We do this through worker and consumer protections, equal opportunity for women and minorities with basic measures such as the Family and Medical Leave Act, all historic steps led by Democrats, with Republicans either trailing or opposing outright.

Now, another example: The last Democratic administration and our economic plan, embodied in the 1993 budget, set us on a course of adding 6.4 million jobs in just 2 years. We eroded the annual deficits and eventually created the actual largest projected Federal budget surpluses in history. Every Republican in the Congress voted against that budget in 1993, with dire warnings about its effect.

We invested in people and family. We balanced the budget and we set the conditions for the most successful economic recovery and expansion ever in the history of the United States. Our friends on the other side cannot match our record on jobs, and I point to this chart I have. If we look at the average monthly change in jobs, Democratic versus Republican Presidents, jobs gained or lost per month, going clear back to Lyndon Johnson, we can see that under Johnson, Carter, and Clinton, we had tremendous job growth. Under Nixon, Reagan, Ford, and Bush 1, we had job growth but not as much as under Democrats.

If we look to the far right, we will see some devastating things that have happened since this President took office, not a job growth but an actual job loss, my point being that under Democrats we build better jobs and more jobs.

In 3 years, this administration has lost 3 million private sector jobs and their budget and tax policies have contributed to the largest and actual budget deficits in the history of the country.

The last quarter showed some improvement in our economy, and that is good, but it is not nearly enough. This administration will be the first since Herbert Hoover's to preside over a net loss of jobs over a 4-year period. We need to be creating about 150,000 jobs a month just to stay even. We are not doing that today. We are not even treading water in terms of job creation.

If my colleagues think the economy is tough now, look at the economic future the Republicans are creating. This administration turned a projected 10-year, $5.7 trillion surplus into a $4 trillion deficit over the coming 10 years. That debt imperils Social Security and Medicare, which might not bother some of my friends on that side who would like to privatize Social Security or Medicare or end it as we know it. That debt hurts our economy, it crowds our private sector investments we need for economic growth. It makes it difficult for us to make the investments in education, health, schools, roads, and our infrastructure.

For the long term, the Federal Government will have to borrow $400 billion a year, squeezing out private sector investment we need for a growing economy. The law of supply and demand which cannot be repealed means that borrowing will make investment dollars scarce and interest rates higher. Higher interest rates in the future will limit growth and limit jobs.

Now, instead of massive tax cuts that benefit the wealthiest, the answer should have been our approach: Fiscal responsibility, tax cuts targeted to low- and middle-income working families, and good job-creating, direct investments such as building roads and schools, our economic infrastructure. That should be the path we should be on.

The PRESIDING OFFICER. The Republicans are recognized for 5 minutes.

Mr. ALLEN. Mr. President, I thank my colleagues for joining with us in this debate on the most important issue we have facing us in the Senate and in our country. That is: How can we work to make sure we have the best policies for more investment and more job creation?

The reality is, right now things are getting better. They need to get better, though, than they are currently. Nevertheless, the facts are clear. Job growth is up by 126,000 in October. When my colleagues talk about the last 20 years, last month we had an annual growth rate of 7.2 percent. That is the best in 20 years.

The Republicans' point of view, I would say to my colleagues, is that we want to make sure every American, regardless of their race, their gender, their ethnicity, or their religious beliefs, has the opportunity to compete and succeed. That means our tax policies have to be conducive to investment. Regulations need to be based on sound science, not political science.

We also need to make sure the people of our country, in our States, have the capabilities and the knowledge to get the good jobs in the future. We also need to have security. When we see people in communities worried about crime or worried about terrorism, those are adverse impacts, on confidence and investment and therefore job creation. We have seen the adverse impacts of 9/11, particularly in the travel and tourism industry.

I know as Governor of the Commonwealth of Virginia what matters to businesses when they are looking to invest. They look at what is the cost of doing business, what is the tax rate, what is the cost of workers compensation. Ours are low in Virginia because we keep lawyers out of workers compensation. We get the money to the person who is injured so he or she can get back to work. Unemployment insurance taxes matter. The fact that we have a right to work law, which gives individuals the right, if they so desire, not to join a union as a condition of work, that helps attract business. Health insurance matters as well.

In a variety of areas, we have found Virginia ended up with much more job growth, more investment. It was called the Silicon Dominion because of the investment, because of having taxes competitively low, prompt permitting, reasonable regulations, and also investment in security and also in the capabilities of our students for high academic standards.

The Democrats talk about all of these Presidents. Interesting. Richard Nixon was elected after President Johnson. If one wants to call Jimmy Carter their second best President, with the malaise and the high interest rates, the high unemployment, and the high inflation. People put in Ronald Reagan to help revive this economy and make us stronger as well as, of course, keep our peace through strength.

I find it interesting my good friend from Iowa talks about, oh, the Republicans somehow want to imperil Social Security and gets off on these tangents on privatization. Of course the Democrats care about Social Security because in 1993 they not only taxed all families and all small businesses and every taxpayer, they even taxed Social Security benefits. When given the opportunity most recently on a measure introduced by Senator BUNNING of the Commonwealth of Kentucky, virtually every Democrat voted against that effort to repeal the tax on Social Security benefits.

The fact is, we are making good progress. We need to keep moving forward. We have ideas, as Republicans, in a variety of ways that we can make sure the American economy can compete internationally, can help create more jobs and greater opportunity. Indeed, we want to make health care costs more affordable and predictable, reduce the burden of lawsuits on our economy, whether it is asbestos reform or class action reform, make sure we have an affordable, reliable energy supply, streamline regulations, open new markets for American products, and also make sure there is confidence in investment in this country by making sure the tax reductions are permanent.

I will close with the words of Mr. Jefferson who said that the Government should restrain men from injuring one another but otherwise leave them free to regulate their own pursuits of industry and improvement and shall not take from the mouths of labor the bread they have earned.

That remains the sum of good government today.

The PRESIDING OFFICER. A Democrat is recognized.

Mr. DORGAN. Mr. President, I am not someone who believes Democrats are all right and the Republicans are all wrong. I believe both political parties contribute to this process.

We do not have to debate theory today about jobs. Let's just debate what we know. Here is what we know. In the 8 years under the Presidency of President Clinton, 237,000 jobs a month were created. Since President Bush took over, we have lost 70,000 jobs a month. There were 22.7 million jobs created during the 8 years of the Clinton administration; since President Bush took office, 2.3 million jobs lost. On June 7, 2002, the White House said: The tax cut will help create 800,000 new jobs by the end of 2002. In fact, we lost 1.9 million jobs during that period.

Finally, take a look at the red line, and my colleagues will see where these jobs have gone, and my colleagues will see the improvement about which my colleague just talked. They said, gosh, things are turning around. Here is the improvement; right here. All of us want good jobs in this country. They come with three things in my judgment: Fiscal policy that is responsible—no, not $500 billion deficits, which this administration is proposing and running up but fiscal policy that is responsible, trade policies that are fair to this country, to its businesses and workers, and especially as a result of good policies in both of those areas, confidence the American people would have in the future.

In 1993, we put a new economic plan in place by one vote in the House, one vote in the Senate, and we didn't get one vote for it on that side of the aisle—not one, not even by accident. As a result: 22.7 million jobs. On your side of the aisle they predicted catastrophe—the economy is going to be in terrible trouble. We had the strongest growth of any President, 22.7 million jobs.

Let me talk for just a moment about trade. We now have a trade ambassador trying to negotiate trade agreements in every part of the world. Let me talk just a moment about Huffy bicycles. Mr. President, 850 people in Ohio lost their jobs. They used to put American flags on the front of Huffy bicycles. They replaced that with a globe because they now make them in China. Why? Because the folks in Ohio who make them—who got fired, by the way—were making too much money, $11 an hour. So Huffy bicycles are now made in China for 33 cents an hour and sold at Wal-Mart, Target, and Sears. But they are not cheaper because they pay 33 cents an hour; it is just that Americans lost their jobs. Our trade policy is bankrupt, and we have a trade ambassador right now trying to do three more free trade agreements, more of the same. If you want good jobs in this country, then you have to stand up for American interests. You have to have a fiscal policy that adds up. This administration's doesn't. We are running the biggest deficits in history.

You have to have a trade policy that stands for this country's interest, and this trade policy doesn't. We have the highest trade deficits in history, and we have jobs moving wholesale overseas, where you can hire 12-year-old kids, work them 12 hours a day, and pay them 12 cents an hour, and that simply is not fair.

As a result of trade and fiscal policies that do not add up, the American people do not have the confidence in the future they ought to have. Confidence, after all, is what relates to the expansion side of the business cycle. When people are confident about the future, they buy a home; they take a trip; they buy a car; they do the things that expand the economy. When they are not confident, they do exactly the opposite.

We need to get to work and fix this country's fiscal policy, fix this country's trade policies, and not just go back right over the same old recipe about regulation and taxes and all those sorts of things. We know what creates jobs. We don't have to describe theory here. We can talk about the facts.

The facts are we put in place a plan in 1993 that created 22.7 million jobs because it said to the American people we are serious about fiscal responsibility. It said to the American people we are going to stop this sea of red ink, and we did. It was a hard vote, but it was the right vote. I have always been proud of it.

Now we have a sea of red ink, the largest budget surplus in this country's history when President Bush took office has been turned to the largest budget deficit in our history, and that is not going to breed confidence for the American people about the future. We need to put this country's economic house in order, and we need to do it soon.

Fiscal policy and trade policy that represents the long-term interests of the American people will represent expansion and jobs and opportunity once again for our country.

The PRESIDING OFFICER. Who seeks recognition on the Republican side? The Senator from Minnesota is recognized.

Mr. COLEMAN. Mr. President, before I arrived here, I read many times about the Senate as the "world's greatest deliberative body." Over my first 10 months, I would say that I have not experienced as much deliberating as I'd hoped. And I am glad my colleague, Senator ALLEN and I are doing this today—and that we are doing it deliberately.

The subjects of jobs and the economy are very personal and important to every American family. With the lone exception of maintaining national security at home and abroad, we have no greater responsibility as a government. I note to my colleague from North Dakota that, by the way, consumer spending is up 6.6 percent in the last quarter. Confidence is up. It must tell you something about the way the American people are thinking.

I want to begin by making a general observation. It seems to me that as a country we are awakening to a set of stark realities after what I'd call a decade of unrealism in the 1990s.

In the 1990s we came to believe that somehow we had conquered the business cycle—that we had ended the age old rise and inevitable fall of economic activity.

In the 1990s we came to believe that we are safe behind our borders from the violence and chaos that is a daily reality of many in the world because of the scourge of terrorism.

We have had a rude awakening. The speculative bubble of dot com industries burst. Revenues generated by our highly progressive tax system fell rapidly at the national and State level. We were attacked, at the very symbol of our commercial strength. How can you talk about job loss without once mentioning 9/11? Every conceivable threat to the confidence of the American people was leveled at us. But like the residents of the Massachusetts countryside in 1775, when Paul Revere rode by, we were awakened, and we are fighting a difficult war to restore our safety and our prosperity.

On Minnesota's Lake Superior; huge ore boats ply the world's largest body of fresh water. It literally takes miles and hours to turn around one of their massive boats. So it is with the American economy. The bigger the object, the longer it takes to turn. As we look at the American economy, we need to recognize a few critical facts.

First, the economic difficulty we are in began in 2000, the year before President Bush took office. In March 2000, the NASDAQ lost 44 percent of its value. In the year before the President took office, economic growth in this country fell from 3.9 percent to .9 percent.

Second, we have not repealed the laws of economics. The aftermath of a long expansion and a speculative economic bubble is recession, a slow recovery and large Government deficits. Even it its peak, our unemployment rate is substantially below that of previous recessions. In 1983 unemployment was over 10 percent and in 1992 it was almost 8 percent. And the difference between 6 percent and 8 percent or 10 percent represents millions of families back at work.

And third, the economy is now moving forward. The American economy has been bent, but it did not break.

Historic growth in the GDP—a growth rate of 7.2 percent—is nothing to scoff at. Yet, my Democratic colleagues seem to be able to find gloom and doom even during the brightest days.

We've added 225,000 new jobs in the last 2 months. A jobless recovery? I think not. Job growth is still a challenge, but a we have always seen, employment gains are the lagging feature of recovery.

I have not been the White House as often as some of my colleagues. But as far as I know there is not a brake pedal or a throttle for the economy under the president's desk.

But the President has done good work with the tools at his disposal. Federal Reserve Chairman Alan Greenspan has lauded the 2001 tax cut, which the Treasury Department has reported saved some 1.5 million jobs. The most recent tax cuts for both mom's and dad's and small businesses have been key to the 7.2 percent growth in GDP in the last quarter.

More than a generation ago there was Nobel Prize winning economic research done at the University of Minnesota. It seems obvious to us now, but the point of that research was that raw numbers and events are not the only thing that moves the economy. An equal or greater affect is the way people perceive what is happening.

At this point, I am forced to point out there is a drag on the economy from nine candidates for President constantly standing up and bad mouthing the economy. It seems they are living in that weird political world where good news is bad news and bad news is good news. I would like to remind these Democrats of something a hero of theirs and mine one said in a similar situation. "We have nothing to fear," said FDR, "but fear itself." Those who talk tough and breed fear and cynicism to get notice in a political environment bear some responsibility for the fear they spread.

Tough times are not new to the American people. Each generation has its own new challenges. Ours is that we are asked to deal with overlapping threats to our national security and our economic security.

But almost all of the key economic indicators; job growth, business investment, consumer spending, have shown that we are making progress on both fronts. We need to listen to the voices of hope and optimism at such times, or we can become our own enemy.

Today we face unparalleled challenges to our security—and concerns about our economy.

We will only get through them if we say yes to the things Republicans are working on now, such as tax cuts, continuing our jobs agenda by passing an energy bill; stemming the costly litigation mentality, keeping the lid on spending, and say no to those who would snatch defeat from the jaw of victory.

I yield the floor.

The PRESIDING OFFICER. The Republicans have 1 minute to ask a question.

Mr. COLEMAN. Mr. President, contrary to specific evidence that shows the economy is growing, Alan Greenspan's positive comment about the 2001 tax cut, and most observers crediting the 2003 tax cut for creating the recent 7.2 percent GDP figure, some of the leading Democratic candidates for President, Dean and GEPHARDT, have said we should repeal all the tax cuts, in effect raising taxes just as our economy is beginning to grow. Senator EDWARDS has said that Governor Dean misses the point. On that, I quote:

> Unfortunately, instead of addressing the problem, he makes it worse by raising taxes on the middle class and families that work.

Senator LIEBERMAN has said repealing all the Bush tax cuts, as Dean and GEPHARDT have proposed, would hurt the middle class. I wonder if my colleagues will join me by rejecting the proposals by Dean and GEPHARDT to roll back the entire tax cut, which would raise the lowest tax bracket back up to 15 percent from 10 percent, reduce the child tax credit from $1,000 to $500, and force 4 million working poor people to pay taxes.

The PRESIDING OFFICER. There are now 2 minutes to respond from the Democrat side.

Mr. DORGAN. Mr. President, it is an interesting question posed by my colleague from Minnesota, and prior to him posing the question, he talked about more tax cuts and a lid on spending. Frankly, he is proposing and his party is proposing more defense spending, more homeland security spending, more spending in virtually every category, and then tax cuts in addition, which leaves us with very large deficits.

But he asked specifically about tax cuts, so let me describe the difference in tax cuts relative to our party and their party. We believe in tax cuts and support tax cuts for working families. In fact, we had a very significant tax cut plan that would have said to working families in this country who bear a pretty significant tax, payroll tax and income tax, that we are going to give you a pretty good size tax cut. But the majority party said that is not what we want to do.

But the majority party said: That is not what we want to do. We want to say to the person who is making $1 million a year, you really need the relief. We are going to give you a $93,000 tax cut because we believe the economy works better when you put something in at the top and somehow it trickles down. We happen to believe the percolate-up approach is what makes this economic engine of ours work. And we believe if you give working people something to work with, tax cuts targeted to working people, we will have an economy that regains its footing, provides economic growth, opportunity, and hope once again. That is the way to engineer economic growth and new jobs and expansion of opportunity in this country.

The PRESIDING OFFICER. There is 1 minute for rebuttal on the Republican side.

Mr. COLEMAN. Mr. President, the comments of my colleague from North Dakota indicate that they do reject the Dean-Gephardt proposal that will roll back all the tax cuts.

Two observations: No. 1, spending. Goodness gracious, the Republican Conference has rejected $1.3 trillion in additional spending proposals from my colleagues across the aisle since the beginning of January. That is like the kid who kills his parents and throws himself on the mercy of the court and says: I need mercy. I am an orphan.

You are talking about spending and, in addition, talking about tax cuts. We always hear: Tax cuts for the rich, tax cuts for the rich. Seventy-nine percent of the tax cuts at the top bracket are small business people. They are folks in Minnesota I deal with all of the time who come to me and say: This makes a difference; this is important to us. Seventy-nine percent. We have to get away from the class warfare and recognize that we are growing jobs by helping small business.

The PRESIDING OFFICER. The Senator's time has expired.

The Democrats are recognized for 1 minute to ask a question.

Mr. HARKIN. Mr. President, the Bush administration wants to eliminate overtime pay for some 8 million Americans, including many policemen, firefighters, and nurses. One big reason overtime pay was created in 1938 was to create jobs by Franklin Roosevelt to give employers the incentive to hire new workers rather than paying time and a half to current workers. By killing overtime for millions of workers, the administration will also kill the incentive to create new jobs and hire new workers.

At a time when we are struggling to create new jobs, why in the world do so many Republicans want to give employers a new disincentive to begin hiring again by taking away what we have had since 1938—overtime pay protection for almost 8 million American workers? Why would we want to take that away and give employers more of an incentive to continue to hire people—or to work people longer in the day or the week without paying them any more money?

The PRESIDING OFFICER. The Republicans are recognized for 2 minutes to respond.

Mr. COLEMAN. Mr. President, first, we can have a great debate about overtime. I can tell you from talking to folks in Minnesota—I get calls from the building trades and others—that the issue doesn't affect them.

The fact is what we are looking to do is make business more efficient. That is what it is about. We do not want to hurt workers. I think it is about time we addressed the root causes. What is it that helps business expand or not? I think that is what my colleagues on the other side of the aisle at times just do not seem to get.

You talk to business people, and what do they tell you? Cut taxes, cut regulation, give them the opportunity. That is what is in the tax cut. Increasing depreciation, increasing expensing for small business, if we do those things, they will grow jobs.

There are a whole range of issues on which I hope we can find common ground when it comes to protecting workers. I will work with you, but in the end, you have to have workers, and you can't have workers unless you do those things that allow small business to grow. If you roll back tax cuts and roll back expanding accelerated depreciation, if you roll back the increased expensing, if you continue to short business and increase regulation, in the end there will be no jobs for folks to work overtime. That is what it is all about.

Let us address the root causes of things that grow jobs. That is what this Republican agenda is doing. That is what the President's tax cuts are doing. Let us keep moving in that direction.

The PRESIDING OFFICER. The Democrats have 1 minute for rebuttal.

Mr. HARKIN. Mr. President, I had some calls like that, too, from labor groups and building trades on the overtime issue. I thought, well, it doesn't affect you. With a union contract they get their overtime pay. But check with their spouses. They will be told to stay another 2 or 4 hours. Right now, sometimes in America almost 25 percent of a family's income comes from overtime pay. That is taking away family income. It is taking away time from ones family. And, it is reducing the need to hire additional workers. That is why we oppose the administration's regulation to take away overtime pay protection.

The PRESIDING OFFICER. The Senator's time has expired. The Republicans have 1 minute to pose a question.

Mr. ALLEN. Mr. President, I would like to pose a question to Mr. HARKIN, the Senator from Iowa. This question gets into the issue we are talking about, which is jobs.

Taxes cuts help create more jobs for small businesses, especially the most recent tax cuts for accelerated depreciation. Regulations from the Federal Government also can reduce choice and cost jobs. For example, we believe free people and families ought to be able to keep working. The proposal would harm those choices and jobs.

For example, the proposal which has strong Democrat support would increase the cost of purchasing pickup trucks, SUVs, and minivans. America is dominant in the manufacturing of minivans, SUVs, and pickup trucks. Many people are choosing to buy them for the safety of their families.

I ask the Senator from Iowa: How many SUV jobs would have been lost had your side prevailed?

Mr. HARKIN. Mr. President, I am trying to understand the question posed by my friend from Virginia.

Mr. ALLEN. How many jobs would have been lost had your position prevailed?

Mr. HARKIN. On SUVs and pickup trucks?

Mr. ALLEN. I am talking about the CAFE standards.

Mr. HARKIN. I see.

First of all, as my friend from Virginia knows, I represent a rural State, as does my colleague from North Dakota. We have a particular use for SUVs as pickup trucks and heavy vehicles in the country.

I happen to have a house out in the Senator's State, in Fairfax County. I drive back and forth to work 12 miles every day. There is traffic congestion. I can't believe how many SUVs, pickup trucks, and big trucks I see. I do not believe that we need to give high income doctors a special $100,000 tax deduction if they buy an oversized SUV weighing more than what is the tax definition of a car so they can drive around the suburbs. For legitimate business reasons, a farmer or a rancher might need them out in the countryside for that kind of work, you bet. They need that, but not the people who live in this city.

We are hemorrhaging debt and don't need to create that tax break.

CAFE standards: I have to say to my friend from Virginia, you can't have long-term sustained economic growth in this country if you are destroying the environment or if we continue to sharply increase our oil supply. That makes us far more dependent on Mideast oil. There has to be a balance. We do have to have balance. But what I see from the other side is just to heck with any regulations, throw caution to the wind, pollute as much as you want and not to worry about the huge oil bills we are paying to the Mideast.

Our taxpayers today—the Senator's taxpayers and mine—are coughing up billions of dollars every year to clean up the toxic waste sites that big corporations left and walked away from, and now our taxpayers have to pay to clean it up. That is why it is important to have regulations to make sure that companies don't pollute and that they do things in the best environmentally sound manner.

The PRESIDING OFFICER. One minute is remaining for the Republicans.

Mr. ALLEN. Mr. President, I don't think SUVs, minivans, and pickup trucks cause toxic waste sites. I will agree with one thing, and I think most people in America will agree: The comments of the Senator about all of these SUVs, minivans, and pickup trucks driving around in northern Virginia are driving to nowhere; most people in America would probably consider DC nowhere.

Cost in lives: 4,500 deaths would occur each year if they had increased these standards. Vehicle costs would have gone up $2,500 for cars and $2,750 for SUVs and pickup trucks. The United Auto Workers said this proposal would have cost hundreds of thousands of jobs.

We have a Ford assembly plant in Virginia. And I would hate to see a 20-percent loss there and have to go to those 2,200 employees and say 1 out of every 10 of you is going to lose a job because the nannies up in Washington want to take away your choice to drive a vehicle that people would want for their families and for their safety.

The PRESIDING OFFICER. The Senator from North Dakota is recognized for the next question.

Mr. DORGAN. Mr. President, the issue this evening is jobs. Let me ask a question of my colleagues about the insidious and perverse incentives in our Tax Code that subsidize companies which move their United States jobs overseas.

I mentioned Huffy Bicycles, gone from Ohio because they made $11 an hour. That is too much. They can produce bicycles where they pay 33 cents an hour. I am saying your party has included, and is at the moment, coming from the Finance Committee, including more incentives to move jobs overseas. I ask the question whether you are prepared to vote with us to shut down the incentives in the Tax Code that tell people if you move your United States jobs overseas and shut your U.S. plant down, we will give you a benefit in the Tax Code. Where I come from, that does not add up and it makes no sense. Are you prepared to join with us and vote to end all of those subsidies now?

The PRESIDING OFFICER. The Senator from Virginia.

Mr. ALLEN. I am not sure what the Senator from North Dakota is actually talking about. What we are talking about and what we are trying to do is make sure the United States of America is a place that is conducive to do business. It is a shame and it is aggravating to all of us when a company goes overseas. It takes jobs away. One of the reasons they will move away is the cost of doing business. We are in competition with other countries. It is our view what we ought to be doing is target assistance to businesses to invest in this country. That is why we tripled the amount that could be expensed for small businesses, allowed also that if people buy new equipment, new technology, to be more productive and more competitive, they could write it off more quickly.

These initiatives, the depreciation, the writeoffs, have actually had a beneficial impact on our economy, not only those businesses that are investing in this country, most of which are small businesses that create about 75 percent of the jobs, but those that fabricate or manufacture whatever equipment or manufacturing efforts they have, whoever is assembling it, whoever is transporting it, packaging it, or selling it. That is all beneficial.

Our point of view is we need to make sure America has tax laws and the regulatory policies that allow America to compete so companies do not have any incentives or need to move overseas. I will later bring up a question which I think will be very helpful for getting those profits back into this country.

Republicans will join with Democrats saying we do not like to see companies go overseas, but we have positive, constructive solutions and ideas to keep those jobs here, so companies do not feel they have to go to another country with less regulations and lower taxes for them to provide for themselves and their shareholders.

The PRESIDING OFFICER. One minute for the minority.

Mr. DORGAN. One of the issues of competition is wages. Companies now leave this country because they can find somewhere in the world where they can hire a 12-year-old and pay them 12 cents an hour. Some think that is global competition. That ignores that which we fought for, for a century, about safe workplaces, environmental standards, child labor laws, and fair compensation.

Let me also say there is a bill coming from the Finance Committee that will give us a chance to vote on the question of whether we want to keep subsidizing the movement of jobs overseas. That bill will once again say to companies, we will give you a break. Move your jobs overseas, you do not have to pay tax on your income until you repatriate. And when you do, by the way, we will charge you 5 percent. We will charge you a third or fourth the tax rate a receptionist is paid, the lowest in the office.

Is that fair? The answer is no. Once again, it is another incentive to say to people, if you move your jobs overseas, go find lower labor rates somewhere else, call yourself an American firm but hire foreign labor, we will give you a benefit. That ought to be shut out of the Tax Code. Your party is opening it up.

The PRESIDING OFFICER. The time has expired. One minute for the next question from the majority.

Mr. COLEMAN. Mr. President, Democrats express concern of a loss of manufacturing jobs and our country's ability to compete in the world; again, a concern I share. But then Democrats turn around and oppose each and every policy objective the National Association of Manufacturers says it needs to stay competitive.

That is what this is about. How do we stay competitive—including medical malpractice reform, to rein in runaway health care costs killing our small businesses, asbestos reform, class action reform, and a myriad of other reforms.

In addition, there is talk of perhaps Democratic obstruction to an Energy bill that will create 500,000 to 700,000 new jobs. Are the Democrats prepared to come around on these issues and finally support the thing our Nation's manufacturers say they need to stay alive?

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I have not heard a description of my colleagues riding Huffy bicycles or their desire to ride a Huffy bicycle in the future, but let me come back to that point. You are talking about U.S. manufacturers and the conditions of competition. Do you think Huffy bicycles decided to make bikes in China rather than Ohio because of some bill we did or did not pass in the Senate? I am sorry, they went China because they could pay 33 cent an hour in China, they could have people work 7 days a week, 15 hours a day, and they could not do that in this country. That reduced the price and the cost of producing that bicycle.

I ask, if you have bought a bicycle for your child lately, whether you saw a reduction in the price of Huffy bicycles just because they went from $11 an hour to 33 cents an hour. I will answer for you. The answer is no. It was about profits.

The question is, do you want to have a race to the bottom? Is that what you want for the American businesses and the American workers? Do you want to have a race to the bottom on wages, on health standards? Is that where we are? I don't think so.

We can compete anywhere in the world, but the competition has to be fair. American companies and American workers ought not to have to compete with 12 cents an hour or 33 cents an hour labor. That is not fair competition. That is why I raised the issue of trade.

We have the trade ambassador busy running around the world right now trying to do more trade agreements. The last one, incidentally, which both of you voted for, put in an immigration provision that had nothing to do with the trade agreement, so that we could have an enormous number of people come through Singapore to take jobs in this country. We could not get it out. They will displace American workers, coming into this country to take American jobs, and we had an amendment we could not get out. Instead, they pass an amendment that says you better watch it, but you cannot take something out of a trade bill because of fast track.

This issue of competition—you want to change the subject, let's talk about what fair competition is for American businesses and American workers.

The PRESIDING OFFICER. The Senator's time is expired.

One minute for rebuttal for the majority.

Mr. COLEMAN. I deeply appreciate my colleague's concern for fair compensation. I note Senator DORGAN has been one of the chief advocates for trade with Cuba. I hope he would take that same philosophy about human rights and workers rights in dealing with Cuba.

I would also reflect a little bit on the comment about trade. NAFTA was signed by President Clinton and the Uruguay Round after being approved by a Democrat House and Democrat Senate. I believe Senator HARKIN supported both of those votes. On NTR trade with China, I believe both Senators DORGAN and HARKIN supported that. The reality is, we have a trade ambassador going there right now to push for some controls, push for expanded buying by China, cut down the deficit. But the bottom line is, How do we make us competitive?

Going back to the National Association of Manufacturers, they say the U.S. industry is burdened by legal and regulatory systems that retard growth and destroy jobs. That is what we have to deal with. We have to deal with the underlying things that make it impossible for businesses to grow in this country.

The PRESIDING OFFICER. The Senator's time has expired. One minute for the minority to ask a question.

Members are reminded to direct their remarks through the Chair.

Mr. HARKIN. Mr. President, in less than 3 years time President Bush has turned a projected surplus of $5.7 trillion into a projected deficit of $4.2 trillion over the next 10 years. Now not even Congress is powerful enough to reverse the law of supply and demand.

This vast new debt will raise interest rates and damage the economy in the long run. It is going to hurt the Federal Government's ability to cover the Social Security and Medicare costs of baby boomers and the education of our kids.

The tax bill gave a $93,000 tax cut, on average, to those earning more than $1 million a year. The majority of Americans, however, get less than $100.

Also, right now, more and more foreign countries are owning our debt and more and more will be owning that debt over the next 10 years.

My question is, are these tax cuts for wealthy Americans worth the long-term damage they will cause our economy?

The PRESIDING OFFICER. The Senator from Virginia.

Mr. ALLEN. I thank the Senator from Iowa for that great question. What we care about is fiscal discipline and we do care about fiscal deficits, but what we care most about, as Republicans, is the job deficit.

As my wonderful colleague from Minnesota, Senator COLEMAN, said, this country has been hit by something that is unprecedented, other than maybe Pearl Harbor, with the attacks on September 11. That had a devastating impact on the confidence and the capabilities of our economy for a short while, but we are coming back, even in the midst of a war on terrorism.

When our friends on the Democrat side of the aisle talk about fiscal discipline, what they are talking about is continuing to tax the taxpayers. The bottom line is they think taxes ought to be higher on married people, on families, on individuals, on small businesses; even on people who die.

When you discuss fiscal discipline, as shown on this chart, here is the reality. As we were trying to cut taxes to help create more jobs and more investment in this country, Democrats proposed a variety of different amendments on the floor, as shown on this chart, is how much it would have raised spending: Each year it would be about $87.9 billion; over 10 years, $1.3 trillion—$1.3 trillion additionally spent.

Our view is, the best way to raise revenues for the Government, for key priorities in research, in aeronautics, in education, for national defense and homeland security is to have a vibrant economy where people are working and paying taxes, and businesses are prospering and paying taxes, rather than going bankrupt or having people unemployed.

Shown on this chart is the cost of Democratic proposals in the Senate. Fortuitously, we have a majority, and we are able to include responsible spending so that the taxpayers will get more of their money and not have added burdensome debt for the future.

The PRESIDING OFFICER (Mr. SUNUNU). There is 1 minute for the minority to rebut.

Mr. HARKIN. Mr. President, I am somewhat taken. I cannot believe it. The Republicans are in charge of the White House, the Senate, and the House, and they are blaming the Democrats for this economic downturn and for the fact that we have these huge budget deficits. They are the ones who are in charge.

They are the ones that produced an 8 percent increase in domestic discretionary spending last year, far more than the average increase in the Clinton years. And, that excludes Iraq and Defense.

I would respond to my friend from Virginia, no, we do not believe in higher taxes, but we do believe in fairer taxes—fairer taxes—for the American people.

Right now, the corporate income tax rate is the lowest it has been since the 1930s except for 1983—1.2 percent—yet payroll taxes, paid by every hard-working American, is at the highest level ever. That is what has been happening; not that the people ought to pay more taxes, we ought to have fairer taxes.

Why is it fair that in the 2003 tax bill those making over a million dollars a year are getting, on average, $93,000 while half the taxpayers got $100 or less. That is what we are opposed to.

The PRESIDING OFFICER. There is 1 minute for the majority to ask a question.

The Senator from Virginia.

Mr. ALLEN. Thank you, Mr. President.

Mr. President, I would like to ask the Senator from North Dakota, Mr. DORGAN, this question. It follows up on some of his questions to me, and that has to do with what we call the Invest in the USA Act, which the Senate has passed, although there were dozens of Democrats who voted against it.

Current tax policies in this country hinder and punish U.S. companies that conduct business overseas. We would like them to do well and get into other markets, but if they want to bring that money back into this country, they are taxed at 35 percent.

Now, Senator DORGAN and Senator HARKIN oppose this investment in America. Can Senator DORGAN share with us the positive economic impact if this were actually put into law?

Mr. DORGAN. Mr. President, it is interesting that this behaves in exactly the opposite way as the Senator from Virginia understands it.

When you say to a company in this country, if you will simply invest overseas, heck, move a plant overseas, fire your workers in North Dakota and Virginia and Ohio, and employ foreign workers, if you will just do that, we will give you a deal. You will never, ever have to pay taxes on your earnings overseas. So get rid of that U.S. plant. Move it overseas. Earn your money there. And you simply do not have to pay taxes on it. That is called deferral. And the only time you will ever have to pay taxes is if you repatriate your income to this country. So there is a built-in incentive to move your company overseas.

I am surprised the Senator from Virginia would ask a question about that because, in fact, the Finance Committee is now saying: I have an even better deal. We will keep deferral in the law—which is the perverse incentive—and we will allow you to repatriate that which you did earn, and we will charge you only a 5-percent income tax.

Any company that takes a look at that would say: Well, I can't have a better deal than this. They will continually support me to invest overseas. And there will now be precedent to allow me to repatriate the income and pay—I don't know—a fourth of the tax of the lowest paid workers in this country. What a deal, except that every company will now understand that is the way this Congress works, and so there is a big bonus for me to shut down my U.S. plant and invest overseas.

You talk about perversity, look, I am interested in jobs. I am interested in companies to expand their job base. The way to do that is to encourage that expansion in this country, to hire American workers, and pay them well, and to give them good benefits, and then, through them, earn good profits.

That is what I want for this country. But this country cannot any longer ignore the perversity in the Tax Code. And one of them is exactly what the Senator from Virginia alleged, that subsidizes the flight of jobs overseas.

The PRESIDING OFFICER. There is 1 minute for the Republican side to rebut.

The Senator from Virginia.

Mr. ALLEN. Mr. President, I would say, thank goodness the views of the Senator from North Dakota are the minority view. The reality is, most countries do not impose these 35 percent taxes. The current tax law prohibits businesses or impinges on their ability to bring profits back into this country to help create jobs.

A number of people, from Dr. Allen Sinai to Decision Economics to JP Morgan, have shown there would be 400,000 to 500,000 new U.S. jobs in this country, $100 billion in increased investment in this country in equipment and research and development, and a reduction in corporate debt if this legislation were enacted.

You can keep the laws the way they are without this provision, and what you will see is more jobs going overseas. But if you have this 1-year benefit, you will find the benefit being in the hundreds of thousands of new jobs, with important investment here in America as opposed to overseas.

Mr. DORGAN. Mr. President, as I ask a question, might I say, I don't know about all these doctors and analysts, but I know about Americans who lost their jobs because of this perverse incentive; and that is what I want to shut down.

But let me ask my colleagues a question about this record. Again, we do not have to debate theory tonight. Let's just debate what has happened.

The odds against this being a coincidence are highly unlikely. Every Democratic administration has produced far more jobs than every Republican administration. Does that mean one is good and one is bad? No. It means different strategies produce different results.

Isn't it the case that, over many years, the strategy by which we invest in working people and invest in small businesses, and giving them something to work with, produces the robust economic opportunity and economic growth across this land? It is true with Clinton, . Carter, Johnson, right on down the line. And the evidence does not lie.

As I said, might this be a coincidence? Mathematicians say the odds are highly unlikely against that being a coincidence. In the last 40 years, every Democratic administration has done better than every Republican administration in creating jobs.

The PRESIDING OFFICER. The Senator's time has expired.

The Senator from Minnesota.

Mr. COLEMAN. Thank you, Mr. President. I love that chart. Let's go back to Jimmy Carter: 18 percent inflation, 23 percent interest rates, long lines at the gas pump. You talk about turning a sow's ear into a silk purse, that chart does it.

But let's talk about reality and let's get away from the abstract. I agree with my colleague from North Dakota: Let's get away from what the economists say. I want to quote Joan Thompson, executive vice president and CFO of Midwest Wire and Cable in St. Paul, Minnesota, a small business. She says:

> Our company will be stronger, continue to grow and provide more jobs with these type of incentives [we have seen in the tax cut].

She singled out the increase in small business expensing for new investment and increase in first year bonus depreciation as two keys in her company's resurgence.

Cirrus Manufacturing, one of the largest private employers in Duluth, MN, an area up north that suffered a lot of job loss right after the tax cut was passed—they sell private airplanes—talked about how they got sales that all of a sudden happened, that had been on hold for ages, because of the increase in depreciation.

I am not going to talk about charts. I am going to talk about reality.

I have to hit one other thing about reality; and that is, the reality is we were hit with September 11. We were hit with Enron and Worldcom. We were hit with the burst of the dot.coms. And we have come back. And why? That is the choice here today. Do we come back with providing the opportunity for small business to invest and grow jobs or do we continue to tax? Do we continue to regulate? Do we continue to overspend and drive this economy further down?

We are moving forward. Business investment is up, consumer spending is up, GDP is up. Housing starts are up. Jobless claims are down. Payroll jobs are up. Productivity is increasing substantially. Total investment is up. The unemployment rate is down.

We are moving in the right direction with this President's and this Republican Senate's vision. Let's keep moving in that direction.

The PRESIDING OFFICER. There is 1 minute for the minority.

Mr. DORGAN. Mr. President, we certainly agree. I hope very much that we are moving in the right direction. We want economic expansion and jobs. But the fact is, Jimmy Carter has come up several times here. I am not surprised it is Grover Cleveland. There are so many excuses.

We are choking on Federal budget deficits. We are choking on a trade deficit that is the highest in history. The fact is, the American people lack confidence in the future because we don't have our fiscal house in order. We can blame others but we are dramatically increasing spending on defense, on homeland security, and cutting taxes substantially, and we have a fiscal policy that does not add up.

I want one that adds up, that creates new jobs and new economic expansion and hope for the American people. Most families just want a good job that pays well, that gives them some security. Most small businesses want a chance to expand in order to create new employment. That is all we want. The question is rooted in this chart. Where has the performance been? We don't have to debate theory. Just debate the performance of those who believe if you invest in working families, our economy does just fine.

The PRESIDING OFFICER. At this time, each Member will have 2 minutes for closing argument, beginning with a Member on the minority.

The Senator from Iowa.

Mr. HARKIN. Mr. President, this has been a good debate. I wish we could go for another hour.

Just a couple points. First, on job growth, that I have heard my friends on the other side talk about here this evening and the last month. The fact is, manufacturing jobs are going down. The service sector has increased. Manufacturing jobs continue to lose. One in seven manufacturing jobs were lost during the Bush administration. We are now at the lowest level of manufacturing jobs in our country since 1958, and it continues to go down. So when they talk about job growth, they are talking about the lowest kinds of jobs and the lowest paid kinds of jobs in the service sector.

Again, what we ought to be talking about are jobs. Again, as my colleague from North Dakota said, just look at the facts, the three major budget bills and job creation bills. In 1981, 1.4 million jobs were lost in 2 years after the Republican budget bill past. Under the Democratic budget bill passed in 1993, under our economic plan, 6.4 million jobs were created in 2 years. Of course, we know what is happening under this President Bush: after his budget bill passed in 2001, 2.1 million jobs were lost in the next two years. It is the same old thing—Republican trickle-down economics was tried in 1981 and 2001. Put it in at the top, hope that it trickles down. That is the fundamental difference between Democratic and Republican economic policies.

We have long believed—and the proof is what we did in the 1990s—that if you put it in at the bottom, give it more to working families, invest in education and health care, educational opportunities, make the economy more efficient, it percolates up. It is percolate-up economics that works versus trickle down.

The problem with trickle down is when you give it to those at the top, they take too big a cut and it never quite trickles down. But when you put it at the bottom, you put people to work and you get the economy humming. We need to do it by expanding educational opportunities. Under this President, we have had the lowest request for educational funding in the last 30 years. That policy is going to mean a less well trained work force in the long-term, an economy that will not compete as well and larger deficits for our country.

The PRESIDING OFFICER. The Senator's time has expired. The Senator from Minnesota.

Mr. COLEMAN. Again, I thank my Democratic colleagues for participating in this debate. Much of the reasoning I have heard this evening reminds me of the definition of an economist: Someone who sees something beginning to work in reality and tells you why it won't in theory.

Simply put: The President's tax cuts have begun to stimulate the economy and grow jobs. I will go out on a limb here and say as a fact that the sky has not fallen, that we are not in the worst economy since Herbert Hoover, and the United States is not selling off the Grand Canyon to cover its debts.

Facts are facts. The business cycle lives. The economy started down long before George Bush became President. After a relatively short time of negative growth, the economy began to recover. Despite serious setbacks not of the President's making, such as 9/11, the economy is coming back strong.

Jobs and deficits are the remaining problems. In the aftermath of recessions, they always are for a period. But we are headed strongly in the right direction. What every person knows is what matters is what we do here.

This is the question: Which do you think helps the economy and which hurts, raising taxes on everyone, especially on small business and job creators and then increasing Federal spending, or leaving that money in the pockets of consumers to consume or save or invest?

Tax increases would clearly hurt the economy more than increased spending would help. Today we need to look forward. To my Democratic colleagues, I ask you to join your Republican colleagues to keep the wheels of economic progress turning. I ask you to join us in enacting class-action reform, medical malpractice reform, asbestos reform, all of which the National Association of Manufacturers says is absolutely critical to this country's ability to maintain domestic manufacturing jobs. Help put an end to the perception that Democrats care about manufacturing jobs, just not enough to offend the trial lawyers.

As for the deficit, talk about the kid who killed his folks and then threw himself on the mercy of the court because he was an orphan. Here we have Democrats offering $1.3 trillion in new spending above and beyond what the budget will allow since January.

The question before us is whether Democrats will roll up their sleeves and help get the job done by passing an Energy bill or will more obstruction be the order of the day?

The PRESIDING OFFICER. The Senator's time has expired. The Senator from North Dakota.

Mr. DORGAN. My dad always told me never buy something from somebody who is out of breath. There is kind of a breathless quality to this debate from the other side. They want us to essentially ignore the fact that we have lost more than 3 million jobs in a couple of years. Of the biggest fiscal policy budget deficit in history, the biggest trade deficit in history, just ignore that. Be happy. In fact, call for more tax cuts, preferably tax cuts for businesses that are moving jobs overseas and tax cuts for people at the top of the income ladder.

Let's talk about jobs, though. What is the menu that creates new jobs? The Oscar Meyer Company had an opening for their Weinermobile driver. Eight hundred college graduates showed up to apply to drive the Weinermobile. What does that tell you about jobs in this country? This is a sad commentary on our job situation.

This country needs new jobs. We don't need an economic strategy that shrinks. We need one that expands jobs. We will best serve the American people if we decide these things matter. Deficits matter. Trade policies matter. If we decide these things matter and start working on them in a bipartisan way, in a thoughtful way, in a commonsense way, we will best serve this country's interests.

But facts remain. This is the first administration since Herbert Hoover that had a net loss of jobs, nearly 3 million jobs since it took office. I take no pleasure in saying that. I wish it were not so. I hope a year from now I can say there are massive new jobs being created and our economy is growing.

But I tell you this: That won't happen if we ignore the fundamentals. Let's get back to the fundamentals: fiscal policy that adds up and works; trade policy that adds up and supports this country's best interests in a way that can give confidence to the American people about the future. We won't provide confidence by putting our head in the sand and saying: Be happy. Just call for more tax cuts.

I am for tax cuts, but I am also for a world-class educational system, protecting our environment, and creating more jobs.

The PRESIDING OFFICER. The Senator from Virginia.

Mr. ALLEN. Mr. President, I thank my colleagues for joining in this debate. I think we all do share the same goals for this country: a strong national defense, homeland security; education, stronger nanotechnology, aeronautics and so forth. The question though is, How do you get there? How do you achieve this goal? That is where the difference lies.

We have been pushing for tax cuts because we trust free people and free enterprise. We figure families who have children, when they got that $400 check this summer, needed that money for their kids. You have seen the results. They spent it on shoes or clothes or electronics, and it increased retail selling, which is great for the retailers and manufacturers of the products and the transporters and all the rest.

You see the job growth. Is it where we want to be? Of course not. What we are doing on the Republican side is putting forward a positive, constructive agenda and solutions to move America forward and help create more jobs. The difference is, on the Democrat side, their view is more taxes. They opposed our efforts to reduce taxes on married people. We wanted to get rid of the marriage penalty tax. We wanted to reduce taxes on families, on small businesses, entrepreneurs. They opposed us. But things are moving forward in the right direction.

We also disagree on their taxing of Social Security benefits. I know some of them, my friend from North Dakota, even want to tax the Internet which I believe ought to be free from burdensome regulations.

The bottom line of our philosophy was best summed up by Ronald Reagan who said in 1985: Every dollar the Government does not take from us, every decision it does not make for us will make our economy stronger, our lives more abundant, and our future more free.

That sums up the Republican approach and, indeed, its current success shows that it is right.

The PRESIDING OFFICER. Under the previous order, at this time the Senator from North Dakota, Mr. DORGAN, and the Senator from Arizona, Mr. KYL, will each be recognized for 1 minute.

Mr. DORGAN. Mr. President, first of all, I have enjoyed the opportunity to exchange views with my colleagues. They are very able legislators. I thank my colleague from Iowa and my colleagues from Virginia and Minnesota and also my colleague from Arizona, chairman of the Republican Policy Committee.

I must, however, correct one little misstatement at the end. My good friend from Virginia just raised this little issue about the Internet tax, and nobody is suggesting we tax the Internet. We will save that for another day. We can have another date—just the two of us—on that subject. We need to do that based on facts.

I will say that I think this is a good exchange of views. My colleague from Arizona and I, with our caucuses, have created an opportunity—and we will try to do this each month—which allows us to exchange views on specific subjects. I think it merits additional opportunities in the Senate, and I will be pleased in the coming months when we are in session to work with my friend, Senator KYL, to find additional topics and debaters and to further advance discussions on public policy in our country.

I yield the floor.

Mr. KYL. Mr. President, I, too, thank our four debaters this evening, and especially my colleague from North Dakota, Senator DORGAN. He and I chair the policy committees of our respective conferences. We decided that too much of our debate in this body wasn't very civil or very much in the way of debate because we were frequently talking to an empty Chamber. We basically were talking past each other rather than engaging with each other.

The best way for the American people to understand our different philosophies and actually test ideas was to see us in a situation in which, like tonight, you saw questions being asked of each other and the responses being given at that same period, the rebuttals and the replies in proximity to each other, so that these ideas could be evaluated in a context of real meaning, rather than the way the debate frequently occurs here. That is not to denigrate our colleagues in the way we conduct other debates, but we think that by having this kind of an opportunity, we will not only elucidate particular issues, as was done this past week, but we can work together as friends and colleagues and bring out the best ideas and participate in debate of the kind that was originally contemplated in this Chamber.

Again, I thank the debaters. As was indicated, we intend to do this about once a month, and we hope everybody will tune in again. With that, I think we have a wrap-up request.

For the time being, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

REAL MEDICARE REFORM IS POSSIBLE WITHOUT OBSTRUCTIONISM

Mr. McCONNELL. Mr. President, for 3 continuous days last week we focused on the obstructions imposed over the past year against President Bush's circuit court nominees by the Democratic minority in the Senate. The Senate obstructionism has claimed victims, and unless we break their holds, more highly qualified legal scholars will be lost due to their ongoing obstructionism.

Obstructionism is not just for judges anymore. It has been used also against the Healthy Forests Act, a bill that was approved while the southern California fires raged on but was subjected to obstructionism by a minority when it was time to go to conference.

Now our seniors are on the verge of receiving a new Medicare prescription drug benefit unless the Senate chooses to obstruct it. After 38 years of broken promises, a real Medicare drug benefit is right around the corner. Opponents claim that reforms in the Medicare conference are too great and the spending too little. I disagree. Seniors have waited too long and this bill does too much for it to be subjected to obstructionism.

As I indicated a moment ago, after 38 years of broken promises our seniors will finally get a Medicare drug benefit unless the Senate obstructs it. After 38 years of delay, help can begin in as soon as 6 months unless the Senate obstructs it.

Looking at the second chart, this Medicare bill will provide unprecedented resources for seniors' prescription drug benefits, almost one and a half times what President Clinton proposed and a third more than Senate Democrats wanted just 2 years ago, and we will have all of this unless the Senate obstructs it.

Looking at the third chart, the Medicare bill will cover nearly all prescription drug costs for low-income seniors—nearly all prescription drug costs for low-income seniors. This is a terrific deal for our low-income elderly in America. We will have this unless the Senate obstructs it.

This Medicare bill will cover nearly all catastrophic drug costs for seniors with high drug bills—nearly all catastrophic costs for seniors with high prescription drug bills. Let me say that again. This Medicare bill will cover 95 percent of catastrophic costs for seniors with high prescription drug bills. This is a good deal for America's seniors and we will have this unless the Senate obstructs it.

The Medicare bill will give seniors unprecedented choices. All of these new choices in yellow on this chart are choices that are not available to seniors today. Senior will have all of these new choices, both the drug plan as well as comprehensive health plans with choices that Federal workers currently enjoy, unless the Senate obstructs it.

The Medicare bill will use competition to stop waste and abuse and give seniors group purchasing power. A specialty cane that Medicare pays $44 for is purchased by the VA for $15. That waste of Medicare and retirees' money will stop unless the Senate obstructs it.

This is a picture of that cane, for which Medicare currently overpays, that the VA can get for a mere $15. Medicare pays $44. All of this kind of waste will stop unless the Senate obstructs this bill.

The Medicare bill will protect seniors by keeping the drug benefits both available and voluntary. Let me just say that again. This Medicare bill will keep seniors' drug benefits both voluntary and available. Retirees can keep what they have or get help to maintain their employer-based plans, can get a drug benefit through traditional Medicare, will get new choices in improved Medicare, will be protected by a Government backup plan and substantial resources to make sure the choices are really there, not just on paper but choices that are really there. Seniors get all of this protection unless the Senate obstructs it.

This Medicare bill will protect Medicare for tomorrow's seniors by controlling costs and preserving the system. While the bill provides an unprecedented amount of resources—again, almost one and a half times what President Clinton proposed and a third more than Senate Democrats wanted just 2 years ago—the bill requires that costs be monitored to control spending in excess of $400 billion. The bill adds competitive forces to drive down costs, reward efficiency, eliminate waste and abuse, and weed out fraud so that Medicare will be preserved for our children. All of this will happen unless the Senate obstructs this measure.

Finally, looking at chart 9, the Medicare bill provides real resources, real benefits, real health, real choice, real protections, real competition, and real cost control. All of those items are in this measure, and we will have a chance to approve it later this week.

After 38 years, seniors will finally get a good prescription drug benefit unless the Senate obstructs it. I think it is the poorest and frailest seniors who will suffer enormously from more obstructionism this time against this Medicare prescription drug bill.

So that is where we are. This is a great new plan that will be before the Senate later this week, an opportunity to really help seniors with prescription drugs for the first time, after years of conversation. Let us not miss that opportunity.

I yield the floor.

RECENT BROADCAST FLAG REGULATIONS

Mr. LEAHY. Mr. President, I rise today to commend the Federal Communications Commission for its continuing work on the important broadcast flag regulations. Over-the-air-television remains a critical part of the distribution of American television, and these regulations help to promote and improve over-the-air broadcasting of high quality digital programming. They do this by giving broadcasters the tools they need to protect their digital broadcasts against piracy. Without this protection, broadcasters would simply not broadcast their high value content over the air, and we would be left with two classes of American consumers: those who can afford, and live somewhere where they can receive, cable television with its high-value content, and those who receive only low-value over-the-air television. We must not allow this to happen.

While I am encouraged by the FCC's progress, and in particular pleased to see that they have taken steps to keep the setting of technical criteria for protective technologies open and transparent, the FCC's recent notice of proposed rulemaking raises some concerns. First, the FCC should make the process inclusive of all parties with an interest in the outcome, especially consumers. Second, a sound final regulation should address the effect of a broadcast flag on fair use rights and works that are already in the public domain. Third, the final regulation should address the broadcast flag's effect on privacy. What is intended as a technological measure to ensure the security of over-the-air broadcasts should not turn into an ability to track viewer behavior. Last, the final regulation must continue to ensure that no one player becomes dominant in this industry, and that the American consumer continues to reap the benefits of innovative new technologies. Most of all, the FCC should not lose sight of the most important goal of these regulations: to provide the highest quality content possible through over-the-air television. I am confident that it will do so.

NOMINATION OF JAMES COMEY

Mr. GRASSLEY. Mr. President, I rise today to state that I object to proceeding to the consideration of executive nominee James Comey to be Deputy Attorney General at the Justice Department.

I have placed a hold on this person because I have been unable to resolve outstanding issues with the Justice Department. I have been working with the Justice Department to get a satisfactory promise to ensure there are no reprisals against certain Justice Department employees in connection with testimony before the Senate Finance Committee. Although I support Mr. Comey's nomination, I intend to reserve my right to object to the Senate proceeding with this nominee of this legislation at this time.

LOCAL LAW ENFORCEMENT ACT OF 2003

Mr. SMITH. Mr. President, I rise today to speak about the need for hate crimes legislation. On May 1, 2003, Senator KENNEDY and I introduced the Local Law Enforcement Enhancement Act, a bill that would add new categories to current hate crimes law, sending a signal that violence of any kind is unacceptable in our society.

I would like to describe one such crime today. In protest of a wedding between two men in Seattle, WA, several young men and one adult who call themselves "Deliverance Unlimited" refused to leave a local Christian Church. In the October 25, 2003 incident, the co-pastor of the church asked the protestors to leave, and the group then began verbally assaulting the church staff. One of the protestors, Christopher Dudley, entered the sanctuary and began yelling that the church needed to be cleansed of sin. He then vandalized the church by spraying and wiping oil on the walls and furniture. The co-pastor told police that he was afraid for his own life and the lives of his staff.

I believe that Government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act is a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

TRIBUTE TO BOB STILLER OF GREEN MOUNTAIN COFFEE ROASTERS

Mr. LEAHY. Mr. President, the Burlington Free Press recently ran a story about expansion plans by Green Mountain Coffee Roasters in Waterbury, VT. The company has begun work on a 52,000-square-foot warehouse and distribution center that will significantly expand manufacturing capacity. Under the leadership of Bob Stiller, Green Mountain Coffee has consistently been rated one of the fastest growing and best managed small public companies in the United States.

Small businesses are the backbone of Vermont's economy, and Green Mountain Coffee has been an outstanding corporate partner in our State for over 20 years. Started in a small café in Waitsfield, VT, in 1981, growing into a publicly traded company in 1993, and now announcing this $8.4 million expansion in Waterbury, Green Mountain has been a national leader in the specialty coffee market and an international leader in promoting fair trade coffee.

I commend Bob and all the employees at Green Mountain Coffee for their success at not only selling great coffee but also promoting sustainable farming throughout the world. I ask unanimous consent that a copy of the article that appeared in the Burlington Free Press be printed in the RECORD so that all Senators can read about the success of this company.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Burlington Free Press, Nov. 6, 2003]

GMC HAS EXPANSION BREWING

Green Mountain Coffee Roasters Inc. plans to begin construction this month on a 52,000-square-foot warehouse and distribution center in Waterbury in an $8.4 million project that's intended to also expand the specialty coffee company's manufacturing capacity, the company said Wednesday.

"We are impressed with Waterbury's support, which enables us to expand our facilities in the downtown Waterbury location contiguous to our manufacturing and roasting operations," Green Mountain Coffee Chairman and CEO Robert Stiller said.

Green Mountain Coffee said the company expects to save money over the long term thanks to new automation equipment to be installed in the new building. The additional warehouse space also will allow for more product diversity and eliminate outside storage expenses.

This expansion will mean the company's packaging, warehousing and distribution capacities will match its current coffee roasting capacity of about 40 million to 50 million pounds.

Moving functions into the new building will allow Green Mountain Coffee to increase its packaging capacity in its 65,000-square-foot plant that houses its roasting, warehouse and distribution operations, the company said.

The company expects the building to be finished by fall 2004, and the transfer of distribution and warehousing functions completed by the spring 2005.

"This expansion is critical to our success in executing our long-term growth plans to be the leader in roasting and selling specialty coffee to a broad array of customers," Stiller said.

ADDITIONAL STATEMENTS

TRIBUTE TO MORTIMER CAPLIN

• Mr. WARNER. Mr. President, I rise today to recognize a remarkable man, Mr. Mortimer M. Caplin, on his outstanding legal career as an academic, public servant and distinguished practitioner. Through the years, Mr. Caplin, has been an inspiration to us all and a shining example of what hard work, dedication and perseverance can accomplish.

I feel a special connection with Mr. Caplin as we both graduated from the University of Virginia School of Law and both served our country proudly during World War II in the United States Navy. As an undergraduate and law student at the University of Virginia, Mr. Caplin earned a reputation as a hard working student who always had time to lend a helping hand. During his undergraduate career at Mr. Jefferson's University, Mr. Caplin was elected to Phi Beta Kappa while becoming a standout on Johnny LaRowe's great boxing teams of the mid '30's.

After earning his Bachelor of Science degree, Mr. Caplin went on to the University's law school where he continued his excellent academic career and his affiliation with the University's boxing team. As coach of the First Year team. Mr. Caplin instilled in the newly arrived First Years the value of a well rounded education. He also managed to find the time to be selected and serve as Editor-in-Chief of the Virginia Law Review in 1940.

Upon graduation in 1940, Mr. Caplin clerked for Judge Armistead M. Dobie on the United States Court of Appeals for the Fourth Circuit in Richmond. Upon completing his clerkship, he joined the New York law firm Paul, Weiss, Rifkind, Wharton & Garrison as an associate but, like so many of us during this era, interrupted his career to defend this country and the freedom we all enjoy. Mr. Caplin joined the Navy and on June 6, 1944, came ashore on Omaha Beach as a member of the initial landing force where he served as U.S. Navy beachmaster.

After the war, Mr. Caplin returned to the legal profession and eventually made his way back to the University of Virginia in 1950 where he became a law professor concentrating on tax and corporate law. From 1950 to 1962, he taught countless students the value of a legal education until he was again called into public service by President John F. Kennedy to head the Internal Revenue Service.

After retiring from the post in 1964, Mr. Caplin received the Alexander Hamilton Award, the highest honor bestowed by the Treasury Department. Thereafter, he founded Caplin & Drysdale which became, and remains today, one of the leading tax firms in the United States. Mr. Caplin was the 2001 recipient of the Thomas Jefferson Foundation Medal in Law which is awarded to individuals that exemplify the Jeffersonian ideal of the lawyer as public citizen. He truly embodies this ideal and it is right to honor his accomplishments.

On May 18, 2003, Mr. Caplin was invited to address the University of Virginia's 2003 graduating class. His words about the importance of public service are an inspiration to us all. As a tribute to his achievements and his contributions, I ask that his remarks be entered into the RECORD at this time.

The remarks follow:

A DEBT OF SERVICE

I must confess, in trying to recall who spoke and what was said at my own college graduation—"The Great Class of 1937"—my mind remains a blank.

The one commencement I do remember was here at my law graduation in 1940. The speaker was the president of the United States—Franklin Delano Roosevelt. He came to the University to attend the law graduation of his son, Franklin Jr., one of our classmates.

The Nazi armies of Adolph Hitler were then overrunning Europe and threatening the freedom of the entire world. On that very morning, Mussolini's fascist forces—joining Hitler—had invaded their neighbor France. Soon, every member of our class would be required to register under the vigorously debated Selective Service Act, the first peacetime military draft in our nation's history.

In Memorial Gymnasium, the president delivered a historic speech—the most sensitive part inserted by him during his train ride from Washington, contrary to the State Department's specific pleas that America's neutrality would be compromised.

FDR dramatically declared: "On this tenth day of June 1940, the hand that held the dagger has struck it into the back of its neighbor. On this tenth day of June 1940, in this University founded by the first great American teacher of democracy, we send forth our prayers and our hopes to those beyond the seas who are maintaining with magnificent valor their battle for freedom."

Remember, in 1940 there was no television, no cell phones, no Internet. Until then, we heard President Roosevelt only on the radio. To have the president of the United States before us in person, delivering to the world his famous "dagger-in-the-back" speech, is a moment I will never forget.

That day, he also gave us a glimpse into what lay before us when he solemnly committed, for the first time and without congressional approval, to "extend . . . the material resources of this nation" to the embattled democracies.

First Lady Eleanor Roosevelt later said: "Franklin's address was not just a commencement address, it was a speech to the nation . . . that brought us one step nearer to total war."

For us, World War II had begun. It was not at all what we graduates had been planning.

As a law student, I spent many hours thinking about my postgraduation career and dreams. I had already accepted a legal clerkship with Judge Armistead Mason Dobie, our former Law School dean and, at that time, a U.S. Circuit Court of Appeals judge. Next, I would go to New York to begin the practice of law. With two U.Va. degrees in hand, I felt prepared to face and perhaps conquer the world. But on Dec. 7, 1941, the Japanese attacked Pearl Harbor and all our lives changed.

I had hardly begun my Wall Street law practice, when I found myself in uniform, commissioned an ensign, U.S. Naval Reserve. When my training was completed, I said goodbye to Ruth, my wife of just one year, and set sail for duty as a beachmaster on Omaha Beach on June 6, 1944, for the D-Day landing on the Normandy coast of France.

World War II and the Navy did teach me a number of important life skills—many still of help in my private career. Two, in particular, are worth remembering. First, avoid fixed and rigid plans. Instead, allow for flexibility, innovation and possible change—but always hold true to your personal values. Second, be willing to accept risk when necessary as you move forward toward your goals.

Philosopher William James acutely observed: "It is only by risking our persons from one hour to another that we live at all. And often enough our faith beforehand in an uncertified result is the only thing that makes the result come true."

Simply put, have faith in your choices, and be at the ready to risk challenge as well as change. You will grow in strength as you do.

We've heard a great deal of late about those involved in what has been dubbed "The Greatest Generation"—glorifying our ordinary citizens who, through hard work, courage and sacrifice, successfully confronted the Great Depression and World War II. Let me confess, though—as a duly designated member of that body—I find the anointment somewhat overdone. Countless generations, both before and after—including today—have also faced challenging times and national crises. And, in each case, everyday Americans have always demonstrated equal patriotism, equal devotion, equal courage—all inherently part of our national culture, traditions and training.

What may we expect of your generation? A former U.Va. Law School student of mine—who later became attorney general of the United States—Robert F. Kennedy, offered an answer in his 1966 Capetown University speech: "Few will have the greatness to bend history; but each of us can work to change a small portion of events, and in the total of all these acts will be written the history of this generation."

Mr. Jefferson consistently laid stress on, not just the rights of citizens of this country, but also on the responsibilities. Writing in 1796—shortly before he assumed the unhappy post of vice president—he stated strongly: "There is a debt of service due from every man to his country, proportioned to the bounties which nature and fortune have measured to him."•

RECOGNITION OF JAMES J. GILLIN, JR.

• Mr. SPECTER. Mr. President, I rise today to salute James J. Gillin, Jr., of Philadelphia, a premier Pennsylvania business and community leader. Pennsylvanians for Effective Government, the Commonwealth's oldest and largest probusiness PAC, recently recognized Jim Gillin's contributions by selecting him to receive its prestigious new civic leadership award.

The Clifford L. Jones Award, which Jim will formally receive next month, recognizes Pennsylvanians who "have demonstrated exemplary civic leadership in support of free enterprise and democratic processes" and focuses on a lifetime of achievement rather than a single effort.

Jim Gillin certainly qualifies. He was president of the Philadelphia-based Petroleum Heat and Power Company, a major fuel distributor throughout the Delaware Valley. He was also a member of the Executive Board of Continental Bank of New Jersey, president of Transport Employers, Inc., and chairman of the Philadelphia Parking Authority.

Jim was also active politically, serving as treasurer of the Philadelphia County Democratic Executive Committee and as a member of the Democratic House and Senate Council in Washington, DC. He has always been bipartisan, willing to reach across the aisle to support political leaders who support business.

Jim has helped shape PEG for a quarter century, serving as chairman from 1985 through 1989 and on its board since 1979. He also played major roles at the Pennsylvania Chamber of Business and Industry during the late 1980s.

PEG has made a superb choice in presenting its important new award to Jim Gillin. I join them in their tribute.•

RECOGNITION OF BING JUDD

• Mr. GREGG. Mr. President, this January, Burnham A. Judd will be stepping down from his position as chairman of the Board of Selectmen of Pittsburg, NH. Bing, as he is known to all throughout New Hampshire's North Country, has served on the board in Pittsburg for 34 years, since 1969, and I rise in tribute to his outstanding service to his community, its residents and the State of New Hampshire throughout this time.

Pittsburg is New Hampshire's largest town in area and its farthest north, sharing borders with Canada, Maine, and Vermont. Located well north of the notches through New Hampshire's White Mountains, Pittsburg contains the majestic Connecticut Lakes and Lake Francis, headwaters of the Connecticut River, and areas of unparalleled scenic and wild beauty. It is a community with a rich heritage of residents skilled in the ways of the woods and with a passion for life in the outdoors.

Throughout its rich history, no one has been more true to the community, its residents, its landscape, and its lifestyles than Bing Judd. An avid and skillful sportsman, knowledgeable in the woods and with an uncanny knack of always knowing where the fish are, his vast experience includes a varied and accomplished record of service to the public: A Pittsburg road agent in the 1960s, a New Hampshire State Representative in 1974, 17 years of service as a forest ranger for the State of New Hampshire from 1975 to 1992, a New Hampshire fish and game commissioner for 10 years, on the Pittsburg Police and Fire Departments for many years and service continuing to this day as Pittsburg health officer, as a Coos County commissioner since 1997 and on the State of New Hampshire's Water Resources Council and New Hampshire Wetlands Board. In addition, as chairman of the Connecticut Lakes Headwaters Citizens Advisory Committee, Bing has been, and continues to be, instrumental in assisting to guide policy for preserving and protecting the vital water and woodland resources of this important region, especially in the recent successful effort to preserve for future generations and traditional uses over 170,000 acres of area woodlands.

In my time of service to New Hampshire as Second District Congressman, Governor and U.S. Senator, I have had no higher privilege than to count on Bing Judd for his sound judgement, sage advice and friendship. I know of no individual more dedicated to his community and his region or more able in its governance. The Town of Pittsburg, Coos County, and the State of New Hampshire have been fortunate he has been willing to share his wisdom and experience on our behalf for so well and for so long. While he will continue to serve his town, region, and State in many roles, it is important his longevity of quality service to his town as selectman be recognized and honored. It is because of the outstanding community service performed by citizens like Bing Judd that civil needs are met, our communities prosper, and our Nation hands to future generations a landscape and a society better off for his selfless and committed participation.

I thank Bing Judd on behalf of his many constituents and neighbors of Pittsburg, NH, who he has served and helped throughout the years.●

TRIBUTE TO THE 100TH ANNIVERSARY OF THE BELLOWS FREE ACADEMY OF FAIRFAX, VT

● Mr. JEFFORDS. Mr. President, I rise today to recognize the 100th anniversary of the founding of Bellows Free Academy in Fairfax, VT.

Bellows Free Academy is one of the last schools in Vermont that serves student from kindergarten through 12th grade. As such, many families in Fairfax enjoy the advantage of having their children attend the facility from their first day of school through high school graduation.

And it is a very nice facility. The original 1903 building, which burned down in January 1941, was replaced and dedicated in 1942. Additions in 1960, 1973, 1990, and 1999 have kept the school up to date with modern space, equipment and facilities. Located in the heart of one of Vermont's fastest growing towns, BFA is a venerable school whose playgrounds and athletic fields are framed by woods and meadows, with a new land acquisition providing access to the nearby Lamoille River. Several vantage points reveal majestic views of Mount Mansfield, Vermont's tallest mountain.

In discussing BFA, a point of clarity is in order, as there are two schools in Vermont named Bellows Free Academy, and both are in Franklin County. Each school owes its founding to the same benefactor, but people in Fairfax are quick to point out that theirs is the original BFA, even if it is smaller, in terms of student enrollment, to its namesake in St. Albans.

BFA, Fairfax, was established through the generous provisions of the 1876 will of Hiram Bellows, who was born in Fairfax in 1798.

As a young person, Hiram Bellows lived at the farm of his birth and attended grammar school at a nearby schoolhouse. He advanced to the small graded school in town when good fortune brought a college graduate to Fairfax to teach for a short period of time. Hiram was unable to progress further in formal education, however, because his parents could not afford the academy fees to attend the high school equivalent of his day.

Hiram Bellows was an industrious man and an able judge of character. For some time, he made his living operating a general store and 'tinkering' in real estate. It is said that he liked to bargain, and invariably whittled on a piece of wood while studying the face of the man with whom a deal was being contemplated.

He served as State senator from Franklin County; was a charter member of the Vermont and Canada Railroad Company; founding associate of the Parish of Christ Church, Episcopal; and first president of the First National Bank of St. Albans.

In regard to his nature and character, a niece once recalled that he was "a kind, delightful gentleman, whose house was always open."

Upon his death, Hiram Bellows' will included provisions for the establishment of a free academy in Fairfax. Here follows several terms of his will:

> I give, and bequeath in trust to my native town of Fairfax, two hundred and fifty shares in the Chicago, Rock Island and Pacific Railroad Company, the par value, one hundred dollars each.
>
> The dividends thereon as far as practical, to be invested in said stock, until the same shall amount to two hundred and fifty thousand dollars, for the purpose of establishing a free school in said town of Fairfax. Said school to be located upon the premises hereinafter mentioned and described.
>
> Said school to be known and called 'the Bellows Free Academy of Fairfax, Vermont'. In which Academy the primary and higher branches of learning shall be taught. Said Academy shall be conducted in all respects in such a manner as to further the education of children and young men, so as to fit them for usefulness, and so as is practical, it is my wish that children of indigent parents receive an advantage of said school in preference to those who have ample means of support of their children . . .

And so, in the same year that Orville and Wilbur Wright achieved human flight from a sand dune in Kitty Hawk, NC, Hiram Bellows' estate of railroad stock founded a free academy on a village lot in Fairfax, VT.

Generations of Hiram Bellows' family have attended and graduated from the school he so generously established. I am told his descendants attend BFA to this day. And with the generations of Bellows', so have been graduated generation after generation of other familiar Fairfax families.

A school of course, does not exist and cannot thrive in and of itself. In this regard, Fairfax has a strong tradition of community support for its school, and that tradition is reflected in the quality of students, teachers, administrators, directors, and staff at BFA over the century of its existence.

The list of those responsible for the continued growth and success of the academy goes on and on. There are specific individuals who, I am sure, are worthy of specific praise. But perhaps even more importantly, there are the countless people who contribute immeasurable hours in innumerable ways to endless projects. They are the backbone of the community; they comprise the sustaining force of the school.

So the Bellows Free Academy of Fairfax owes its beginnings to a remarkable man named Hiram Bellows. It does its proud history to its administration, teachers, students, and above all, its community.

Its future depends on sustaining all of the above. And while there are indeed numerous families who count generations of graduates from Bellows Free Academy, judging by its rate of growth, Fairfax also benefits greatly from contributions of newer residents, many drawn to this community, I suspect, precisely because of the strong reputation of its school system.

So, it is with great pleasure that I offer my congratulations to all those, past and present, involved with the Bellows Free Academy of Fairfax, VT.

Moreover, I am pleased to recognize the generosity and foresight of its founder, Hiram Bellows.

Happy 100th birthday, BFA.●

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Ms. Evans, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting a treaty, and sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

MEASURES PLACED ON THE CALENDAR

The following bills were read the second time, and placed on the calendar:

S. 1862. A bill to provide certain exceptions from requirements for bilateral agreements with Australia and the United Kingdom for exemptions from the International Traffic in Arms Regulations.

S. 1863. A bill to authorize the transfer of certain naval vessels.

S. 1864. A bill to enhance the security of the United States and United States allies.

S. 1865. A bill to enhance the security of the United States and United States allies.

S. 1866. A bill to enhance the security of the United States and United States allies.

MEASURES READ THE FIRST TIME

The following bill was read the first time:

S. 1875. A bill to amend the Employee Retirement Income Security Act of 1974, the Public Health Service Act, and the Internal Revenue Code of 1986 to extend the mental health benefits parity provisions for an additional year.

EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC–5240. A communication from the Secretary of Agriculture, transmitting, a draft of proposed legislation relative to the Commodity Promotion, Research, and Information Act of 1996; to the Committee on Agriculture, Nutrition, and Forestry.

EC–5241. A communication from the Chairman of the Board of Governors of the Federal Reserve System and the Secretary of the Treasury, transmitting, pursuant to law, a report relative to financial holding companies; to the Committee on Banking, Housing, and Urban Affairs.

EC–5242. A communication from the Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service, transmitting, pursuant to law, the report of a rule entitled "Closure of the Commercial Fishery for King Mackerel in the Exclusive Economic Zone in the Western Zone of the Gulf of Mexico" received on November 13, 2003; to the Committee on Commerce, Science, and Transportation.

EC–5243. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Colorado: Final Authorization of State Hazardous Waste Management Program Revision" (FRL#7586–9) received on November 13, 2003; to the Committee on Environment and Public Works.

EC–5244. A communication from the Deputy Associate Administrator, Environmental Protection Agency, transmitting, several documents related to the Agency's regulatory programs; to the Committee on Environment and Public Works.

EC–5245. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "Annual Pensions Plan, etc. Cost of Living Adjustments for 2004" (Notice 2003–73) received on November 13, 2003; to the Committee on Finance.

EC–5246. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "Weighted Average Interest Rate Update Notice" (Notice 2003–74) received on November 13, 2003; to the Committee on Finance.

EC–5247. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "Bureau of Labor Statistics Price Indexes for Department Stores" (Rev. Rule 2003–121) received on November 13, 2003; to the Committee on Finance.

EC–5248. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "TD: Return of Partnership Income" (RIN1545–BC01) received on November 13, 2003; to the Committee on Finance.

EC–5249. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "CPI Adjustment for Section 7872(g) for 2004" (Rev. Rul. 2003–118) received on November 13, 2003; to the Committee on Finance.

EC–5250. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "Computation of Required Interest Using Mean Reserves" (Rev. Rul. 2003–120) received on November 13, 2003; to the Committee on Finance.

EC–5251. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "Tax Exempt Bond Partnership Revenue Procedure" (Rev. Proc. 2003–84) received on November 13, 2003; to the Committee on Finance.

EC–5252. A communication from the Acting Chief, Publications and Regulations Branch, Internal Revenue Service, transmitting, pursuant to law, the report of a rule entitled "CPI Adjustment for Section 1274A for 2004" (Rev. Rul. 2003–119) received on November 13, 2003; to the Committee on Finance.

EC–5253. A communication from the Assistant Secretary for Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, a request to permit the use of Foreign Military Financing for the sale of 125 M1A1 ABRAMS tank kits for Egypt; to the Committee on Foreign Relations.

EC–5254. A communication from the Assistant Secretary for Legislative Affairs, transmitting, pursuant to the Arms Export Control Act, the report of a certification of a proposed license for the export of defense articles or defense services sold commercially under a contract in the amount of $100,000,000 or more to the United Kingdom; to the Committee on Foreign Relations.

EC–5255. A communication from the Assistant Secretary for Legislative Affairs, transmitting, pursuant to the Arms Export Control Act, the report of the certification of a proposed license for the export of defense articles and defense services sold under a contract in the amount of $50,000,000 or more; to the Committee on Foreign Relations.

EC–5256. A communication from the Director, Office of Personnel Management, transmitting, pursuant to law, the report of a rule entitled "Miscellaneous Changes in Office of Personnel Management's Regulations" (RIN3206–AJ54) received on November 13, 2003; to the Committee on Governmental Affairs.

EC–5257. A communication from the Director, Workforce Compensation and Performance Service, Office of Personnel Management, transmitting, pursuant to law, the report of a rule entitled "Final Regulations Locality-Based Comparability Payments" (RIN3206–AI81) received on November 13, 2003; to the Committee on Governmental Affairs.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. GREGG, from the Committee on Health, Education, Labor, and Pensions, with an amendment in the nature of a substitute:

S. 720. A bill to amend title IX of the Public Health Service Act to provide for the improvement of patient safety and to reduce the incidence of events that adversely effect patient safety (Rept. No. 108–196).

By Mr. SPECTER, from the Committee on Veterans' Affairs, with an amendment in the nature of a substitute:

S. 1136. A bill to restate, clarify, and revise the Soldiers' and Sailors' Civil Relief Act of 1940 (Rept. No. 108–197).

By Mr. INHOFE, from the Committee on Environment and Public Works, with an amendment in the nature of a substitute:

S. 793. A bill to provide for increased energy savings and environmental benefits through the increased use of recovered mineral component in federally funded projects involving procurement of cement or concrete (Rept. No. 108–198).

By Mr. HATCH, from the Committee on the Judiciary, without amendment and with a preamble:

S. Res. 253. A resolution to recognize the evolution and importance of motorsports.

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. HATCH for the Committee on the Judiciary.

James B. Comey, of New York, to be Deputy Attorney General.

*Michael J. Garcia, of New York, to be an Assistant Secretary of Homeland Security.

Federico Lawrence Rocha, of California, to be United States Marshal for the Northern District of California for the term of four years.

*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

(Nominations without an asterisk were reported with the recommendation that they be confirmed.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mr. CRAIG (for himself, Ms. CANTWELL, Mrs. MURRAY, Mr. ENZI, Mr. BURNS, and Mr. BAUCUS):

S. 1868. A bill to authorize a 3-year demonstration program to recruit and train physicians to serve in rural settings; to the Committee on Health, Education, Labor, and Pensions.

By Mrs. FEINSTEIN:

S. 1869. A bill for the relief of Robert Kuan Liang and Chun-Mei Hsu-Liang; to the Committee on the Judiciary.

By Mr. SMITH (for himself and Mr. WYDEN):

S. 1870. A bill to establish an alternative trigger for determining if an extended benefit period is in effect for a State for purposes of certain benefits under the Temporary Extended Unemployment Compensation Act of 2002; to the Committee on Finance.

By Mr. HATCH (for himself, Mr. LEAHY, and Mr. CHAMBLISS):

S. 1871. A bill to authorize salary adjustments for Justices and judges of the United States for fiscal year 2004; to the Committee on the Judiciary.

By Mr. SMITH (for himself, Mr. BIDEN, Mr. CHAMBLISS, Mr. COCHRAN, Mr. HAGEL, Mr. LIEBERMAN, Mr. LUGAR, and Mr. VOINOVICH):

S. 1872. A bill to award a congressional gold medal to Lord Robertson of Port Ellen; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. DASCHLE (for Mr. KERRY):

S. 1873. A bill to require employees at a call center who either initiate or receive telephone calls to disclose the physical location of such employees, and for other purposes; to the Committee on Commerce, Science, and Transportation.

By Mr. FEINGOLD (for himself and Mr. MCCAIN):

S. 1874. A bill to require Senate candidates to file designations, statements, and reports in electronic form; to the Committee on Rules and Administration.

By Mr. GREGG (for himself and Mr. KENNEDY):

S. 1875. A bill to amend the Employee Retirement Income Security Act of 1974, the Public Health Service Act, and the Internal Revenue Code of 1986 to extend the mental health benefits parity provisions for an additional year; read the first time.

* * *

ADDITIONAL COSPONSORS

S. 50

At the request of Mr. JOHNSON, the name of the Senator from New Jersey (Mr. CORZINE) was added as a cosponsor of S. 50, a bill to amend title 38, United States Code, to provide for a guaranteed adequate level of funding for veterans health care, and for other purposes.

S. 417

At the request of Ms. SNOWE, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 417, a bill to amend title 5, United States Code, to ensure that coverage of bone mass measurements is provided under the health benefits program for Federal employees.

S. 419

At the request of Ms. SNOWE, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 419, a bill to amend title XVIII of the Social Security Act to expand coverage of bone mass measurements under part B of the medicare program to all individuals at clinical risk of osteoporosis.

S. 595

At the request of Mr. HATCH, the name of the Senator from Alaska (Ms. MURKOWSKI) was added as a cosponsor of S. 595, a bill to amend the Internal Revenue Code of 1986 to repeal the required use of certain principal repayments on mortgage subsidy bond financings to redeem bonds, to modify the purchase price limitation under mortgage subsidy bond rules based on median family income, and for other purposes.

S. 596

At the request of Mr. ENSIGN, the name of the Senator from Colorado (Mr. ALLARD) was added as a cosponsor of S. 596, a bill to amend the Internal Revenue Code of 1986 to encourage the investment of foreign earnings within the United States for productive business investments and job creation.

S. 664

At the request of Mr. HATCH, the name of the Senator from Connecticut (Mr. DODD) was added as a cosponsor of S. 664, a bill to amend the Internal Revenue Code of 1986 to permanently extend the research credit, to increase the rates of the alternative incremental credit, and to provide an alternative simplified credit for qualified research expenses.

S. 1143

At the request of Mrs. HUTCHISON, the name of the Senator from Maryland (Ms. MIKULSKI) was added as a cosponsor of S. 1143, a bill to amend the Public Health Service Act to direct the Secretary of Health and Human Services to establish, promote, and support a comprehensive prevention, research, and medical management referral program for hepatitis C virus infection.

S. 1172

At the request of Mr. FRIST, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 1172, a bill to establish grants to provide health services for improved nutrition, increased physical activity, obesity prevention, and for other purposes.

S. 1195

At the request of Mr. KYL, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of S. 1195, a bill to amend title XIX of the Social Security Act to clarify that inpatient drug prices charged to certain public hospitals are included in the best price exemptions for the medicaid drug rebate program.

S. 1197

At the request of Mr. ENZI, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1197, a bill to amend the Public Health Service Act to ensure the safety and accuracy of medical imaging examinations and radiation therapy treatments.

S. 1246

At the request of Mr. ROBERTS, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 1246, a bill to amend the Internal Revenue Code of 1986 to provide for collegiate housing and infrastructure grants.

S. 1647

At the request of Mr. JOHNSON, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 1647, a bill to amend title XVIII of the Social Security Act to provide for direct access to audiologists for medicare beneficiaries, and for other purposes.

S. 1793

At the request of Mr. KENNEDY, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 1793, a bill to provide for college quality, affordability, and diversity, and for other purposes.

S. 1841

At the request of Mrs. CLINTON, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 1841, a bill to amend title 10, United States code, to provide for the award of a military service medal to members of the Armed Forces who served honorably during the Cold War era.

S. 1856

At the request of Mrs. CLINTON, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 1856, a bill to designate the Department of Veterans Affairs outpatient clinic in Sunnyside, Queens, New York, as the "Thomas P. Noonan, Jr., Department of Veterans Affairs Outpatient Clinic".

S. RES. 253

At the request of Mr. CAMPBELL, the names of the Senator from Indiana (Mr. LUGAR) and the Senator from New York (Mrs. CLINTON) were added as cosponsors of S. Res. 253, a resolution to recognize the evolution and importance of motorsports.

S. RES. 263

At the request of Mr. GRASSLEY, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. Res. 263, a resolution honoring the men and women of the Drug Enforcement Administration on the occasion of its 30th Anniversary.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DASCHLE (for Mr. KERRY):

S. 1873. A bill to require employees at a call center who either initiate or receive telephone calls to disclose the physical location of such employees, and for other purposes; to the Committee on Commerce, Science, and Transportation.

(At the request of Mr. DASCHLE, the following statement was ordered to be printed in the RECORD.)

• Mr. KERRY. Mr. President, I am pleased to introduce today the "Call Center Consumer's Right to Know Act." This legislation is in response to the mounting evidence showing that U.S. corporations are rapidly shifting hundreds of thousands high-tech and service sector jobs abroad. Labor officials, business leaders, economists, elected officials and ordinary Americans are concerned that this bleeding of American jobs will further slow our economy. In addition to the more than 2 million manufacturing jobs that have been lost since 2000, some have indicated that we may also be witnessing the largest out-sourcing of non-manufacturing jobs in the history of the U.S. economy. The statistics are staggering. In the month of July 2003 alone, between 25,000 and 30,000 jobs were outsourced to India. According to the Bureau of Labor Statistics, roughly one in ten jobs held by Americans in 2001 are now at risk to be outsourced abroad.

These jobs are not specific to one sector or a select few companies, but span a broad array of services, including customer call service centers, payroll and other back-office related activities, stock market research for financial firms, medical transcription services, legal online database research and data analysis for consulting firms. In addition, firms involved with software services and business process outsourcing are rapidly expanding to a host of different countries, including India, the Philippines, Malaysia, China, Russia, Israel, and Ireland.

In addition to rapid service sector job losses, consumers are concerned with the growing threat of identity theft. So far, efforts to stem this tide and keep up with the technological advancements that enable these crimes have done little to allay concerns. This trend becomes all the more alarming when millions of calls involving personal financial transactions are routed beyond our borders, where they are not protected by our laws and law enforcement. Aside from the very serious concerns related to identify theft, there is also a consumer awareness element of this problem, as very few Americans are aware that the person on the other end of the telephone line is in another country. Americans should have full information about the outsourcing of call center jobs when they decide who they will purchase their products and services from.

The "Call Center Consumer's Right to Know Act" is a simple and straightforward answer to the challenges posed by these unprecedented service sector job losses and growing risks of identity theft. The bill simply requires call center representatives to disclose their physical location at the beginning of each phone call. Consumers will therefore have important information about who is providing the services in question and the level of risk involved in proceeding with their transaction by phone. This legislation will help American consumers make informed choices about who is providing the services they purchase, and at the same time, addresses the growing problem of U.S. corporations moving hundreds of thousands of service sector jobs abroad. Furthermore, my bill will go a long way to restoring consumer confidence in the booming call center market and help provide a measure of security for telephone and Internet consumer transactions.

There can be no doubt that the outsourcing of these important American service sector jobs abroad has played a part in the jobless, or what some call the "job-loss" economic recovery of 2003. It is predicted that future outsourcing of service sector jobs may provide more costly to the US. economy than the loss of American manufacturing jobs we are witnessing today. Unfortunately, the economics that produced this trend are unlikely to change without a concerted effort to both provide companies with an incentive to keep their jobs in American and promote consumer awareness of the services they unknowingly purchase from other countries. This is precisely what the Call Center Consumer's Right to Know Act seeks to accomplish.

I ask unanimous consent that the text of the bill be printed in the RECORD.•

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1873

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Call Center Consumer's Right to Know Act of 2003".

SEC. 2. CALL CENTER REQUIREMENTS.

(a) IN GENERAL.—A United States corporation or its subsidiaries that utilizes a call center to initiate telephone calls to, or receive telephone calls from, individuals located in the United States, shall require each employee in the call center to disclose the physical location of such employee at the beginning of each telephone call so initiated or received.

(b) CERTIFICATION REQUIREMENT.—A corporation or subsidiary described in subsection (a) shall annually certify to the Federal Trade Commission whether or not the corporation or subsidiary, and the employees of the corporation or subsidiary at its call centers, have complied with that subsection.

(c) NONCOMPLIANCE.—A corporation or subsidiary that violates subsection (a) shall be subject to such civil penalties as the Federal Trade Commission prescribes under section 3.

(d) CALL CENTER DEFINED.—In this section, the term "call center" means a location that provides customer-based service and sales assistance or technical assistance and expertise to individuals located in the United States via telephone, the Internet, or other telecommunications and information technology.

SEC. 3. FEDERAL TRADE COMMISSION RULES.

Not later than 9 months after the date of enactment of this Act, the Federal Trade Commission shall prescribe rules to provide for effective monitoring and compliance with this Act. The Federal Trade Commission's rulemaking shall include appropriate civil penalties for noncompliance with this Act.

By Mr. FEINGOLD (for himself and Mr. MCCAIN):

S. 1874. A bill to require Senate candidates to file designations, statements, and reports in electronic form; to the Committee on Rules and Administration.

Mr. FEINGOLD. Mr. President, today I will introduce with the Senator from Arizona, Mr. MCCAIN, a bill to bring Senate campaigns into the 21st century by requiring that Senate candidates file their campaign finance disclosure reports electronically and that those reports be promptly made available to the public. This step is long overdue, and I hope the Senate will act quickly on this legislation.

A recent report by the Campaign Finance Institute highlighted the anomaly in the election laws that makes it nearly impossible for the public to get access to Senate campaign finance reports while most other reports are available on the Internet within 24 hours of their filing with the Federal Election Commission (FEC). The Campaign Finance Institute report opened with a rhetorical question: "What makes the Senate so special that it exempts itself from a key requirement of campaign finance disclosure that applies to everyone else, including candidates for the House of Representatives and Political Action Committees?"

The answer, of course, is nothing. The United States Senate is special in many ways. I am proud to serve here. But there is no justification for not making our campaign finance information as readily accessible to the public as the information filed by House candidates or others.

My bill amends the section of the election laws dealing with electronic filing to require reports filed with the Secretary of the Senate to be filed electronically and forwarded to the FEC within 24 hours. The FEC is required to make available on the Internet within 24 hours any filing it receives electronically. So if this bill is enacted, electronic versions of Senate reports should be available to the public within 48 hours of their filing. That will be a vast improvement over the current situation, which, according to CFI, requires journalists and interested members of the public to review computer images of paper-filed copies of reports, and involves a completely wasteful expenditure of hundreds of thousands of dollars to re-enter information into databases that almost every campaign has available in electronic format.

The current filing system also means that the detailed coding that the FEC does, which allows for more sophisticated searches and analysis, is completed over a week later for Senate reports than for House reports. This means that the final disclosure reports covering the first 2 weeks of October are not susceptible to detailed scrutiny before the election.

It is time for the Senate to relinquish its Luddite attitude toward campaign finance disclosure. I urge the enactment of this simple bill that will make our reports subject to the same prompt, public scrutiny as those filed by PACs and candidates for the other body.

I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1874

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Senate Campaign Disclosure Parity Act".

SEC. 2. SENATE CANDIDATES REQUIRED TO FILE ELECTION REPORTS IN ELECTRONIC FORM.

(a) IN GENERAL.—Section 304(a)(11)(D) of the Federal Election Campaign Act of 1971 (2 U.S.C. 434(a)(11)(D)) is amended to read as follows:

"(D) As used in this paragraph, the terms 'designation', 'statement', or 'report' mean a designation, statement or report, respectively, which—

"(i) is required by this Act to be filed with the Commission, or

"(ii) is required under section 302(g) to be filed with the Secretary of the Senate and forwarded by the Secretary to the Commission."

(b) CONFORMING AMENDMENTS.—

(1) Section 302(g)(2) of such Act (2 U.S.C. 432(g)(2)) is amended by inserting "or 1 working day in the case of a designation, statement, or report filed electronically" after "2 working days".

(2) Section 304(a)(11)(B) of such Act (2 U.S.C. 434(a)(11)(B)) is amended by inserting "or filed with the Secretary of the Senate under section 302(g)(1) and forwarded to the Commission" after "Act".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to any designation, statement, or report required to be filed after the date of enactment of this Act.

Mr. MCCAIN. Mr. President, I am proud to join Senator RUSS FEINGOLD as a co-sponsor of legislation that will require Senate candidates to file campaign finance reports in electronic form. This bill will finally remove the exemption the Senate has given itself from an important requirement of campaign finance disclosure laws that apply to everyone else, including candidates for the U.S. House of Representatives and Political Action Committees, PACs.

Political committees active in federal elections must submit their quarterly financial reports for disclosure by the Federal Election Commission, FEC. Anyone interested can nearly instantaneously download the reports from the FEC website and conduct computer searches to learn about the contributions and expenditures of individual candidates for the House, non-Senate national party committees and PACs. The current problem is that they cannot do the same for Senate candidates and parties because of the Senate's insistence on paper rather than electronic filing. The FEC must do more processing of Senate paper reports than of House electronic ones. This involves printing or copying the Senate reports, up to 10,000 pages a day at times, hand-coding transactions that cannot be automatically processed, and keypunching the data into the electronic database. House electronic reports do not need the same treatment. The end result is that in contrast to the House, information from the Senate paper reports are often available well after the election has occurred.

Due to this problem, voters are not well-informed about the campaign finance information of their Senators and Senate candidates. For voters who want to consider the nature of the campaign finance support received by a Senate candidate and its relationship to Senate legislative votes as a factor in deciding for whom they will cast a vote, they clearly cannot.

To address this problem, our legislation requires Senate candidates to file their campaign finance reports electronically with the Secretary of the Senate. Within 24 hours of receipt of those reports, the Secretary is required to forward those reports to the FEC. The FEC, in turn is required to make those reports available on the Internet within 24 hours as they do other reports. Therefore, electronic versions of Senate reports will be available to the public within 48 hours of their filing.

Electronic reports are not only transmitted instantly but are more accurate than paper submissions because software can easily correct mistakes. On the other hand, hand entering of data is always prone to error. Furthermore, the data in electronic reports can be rapidly searched via the Internet for answers to specific questions. Voters will no longer have to go through the time consuming process of reading pages and pages filed by Senate candidates or Senate party committees to figure out the major donors and their employers, and the major recipients of campaign spending. Instead, they can download a filed report from the FEC website onto their personal computers and quickly locate the information they need. This creates effective public disclosure.

The Senate's current failure to provide its constituents with electronically disclosed, timely information is unconscionable. Senate filings should follow the same criteria as other campaign finance reports. There must not be a separate standard for the Senate. Ironically, while they do not currently file electronically, Senators and Senate candidates already use electronic software in compiling their paper reports. If Senators and Senate candidates can use technology to run their offices and websites, why can't they use it to better inform their own constituents about how their campaigns are funded? Their constituents have earned a right to that information. The public interest will be better served and voters' faith in their elected leaders will be restored.

AMENDMENTS SUBMITTED AND PROPOSED

SA 2191. Ms. CANTWELL (for herself, Mr. CARPER, Mr. BROWNBACK, Mr. HAGEL, Mr. ROBERTS, Mr. NELSON of Nebraska, Mrs. MURRAY, and Mr. DEWINE) submitted an amendment intended to be proposed to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; which was ordered to lie on the table.

SA 2192. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, supra; which was ordered to lie on the table.

SA 2193. Mr. DAYTON (for himself and Mr. COLEMAN) submitted an amendment intended to be proposed to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, supra.

SA 2194. Mr. BOND (for Mr. REID (for himself and Mr. GRAHAM, of Florida)) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, supra.

SA 2195. Mr. DURBIN (for himself, Ms. SNOWE, Mr. JEFFORDS, Mrs. BOXER, Mr. LAUTENBERG, Ms. CANTWELL, and Mr. LIEBERMAN) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, supra.

SA 2196. Mr. BOND (for Mr. DASCHLE) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, supra.

SA 2197. Mr. BOND (for Mr. FEINGOLD) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, supra.

SA 2198. Mr. BOND (for Ms. CANTWELL (for herself, Mr. CARPER, Mr. BROWNBACK, Mr. HAGEL, Mr. ROBERTS, Mr. NELSON of Nebraska, Mrs. MURRAY, and Mr. DEWINE)) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, supra.

TEXT OF AMENDMENTS

SA 2191. Ms. CANTWELL (for herself, Mr. CARPER, Mr. BROWNBACK, Mr. HAGEL, Mr. ROBERTS, Mr. NELSON of Nebraska, Mrs. MURRAY, and Mr. DEWINE) submitted an amendment intended to be proposed to amendment SA 2150 by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; which was ordered to lie on the table; as follows:

On page 125, between lines 7 and 8, insert the following:

SEC. 418. EXTENSION OF CERTAIN PUBLIC HOUSING/SECTION 8 MOVING TO WORK DEMONSTRATION AGREEMENTS.

(a) EXTENSION.—The Secretary of Housing and Urban Development shall extend the term of the Moving to Work Demonstration Agreement entered into between a public housing agency and the Secretary under section 204, title V, of the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (Pub. L. 104–134, April 26, 1996) if—

(1) the public housing agency requests such extension in writing;

(2) the public housing agency is not at the time of such request for extension in default under its Moving to Work Demonstration Agreement; and

(3) the Moving to Work Demonstration Agreement to be extended would otherwise expire on or before December 31, 2004.

(b) TERMS.—Unless the Secretary of Housing and Urban Development and the public housing agency otherwise agree, the extension under subsection (a) shall be upon the identical terms and conditions set forth in the extending agency's existing Moving to Work Demonstration Agreement, except that for each public housing agency that has been or will be granted an extension to its original Moving to Work agreement, the Secretary shall require that data be collected so that the effect of Moving to Work policy changes on residents can be measured.

(c) EXTENSION PERIOD.—The extension under subsection (a) shall be for such period as is requested by the public housing agency, not to exceed 3 years from the date of expiration of the extending agency's existing Moving to Work Demonstration Agreement.

(d) BREACH OF AGREEMENT.—Nothing contained in this section shall limit the authority of the Secretary of Housing and Urban Development to terminate any Moving to Work Demonstration Agreement of a public housing agency if the public housing agency is in breach of the provisions of such agreement.

SEC. 419. STUDY OF MOVING TO WORK PROGRAM.

(a) IN GENERAL.—The General Accounting Office shall conduct a study of the Moving to Work demonstration program to evaluate—

(1) whether the statutory goals of the Moving to Work demonstration program are being met;

(2) the effects policy changes related to the Moving to Work demonstration program have had on residents; and

(3) whether public housing agencies participating in the Moving to Work program are meeting the requirements of the Moving to Work demonstration program under law and any agreements with the Department of Housing and Urban Development.

(b) REPORT.—Not later than 18 months after the date of enactment of this Act, the General Accounting Office shall submit to Congress a report on the study conducted under subsection (a).

SA 2192. Mrs. FEINSTEIN submitted an amendment intended to be proposed to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; which was ordered to lie on the table; as follows:

On page 106, strike line 14 and all that follows through "PRESIDENT" and insert the following:

as determined by the Administrator.

EXECUTIVE OFFICE OF THE PRESIDENT

SA 2193. Mr. DAYTON (for himself and Mr. COLEMAN) submitted an amendment intended to be proposed to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; as follows:

On page 58, line 21, strike "$1,112,130,000" and insert "$1,111,030,000".

On page 125, between lines 7 and 8, insert the following:

SEC. 418. There shall be made available $1,100,000 to the Secretary of Housing and Urban Development for the purposes of making the grant authorized under section 3 of the Paul and Sheila Wellstone Center for Community Building Act.

SA 2194. Mr. BOND (for Mr. REID (for himself and Mr. GRAHAM of Florida)) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; as follows:

On page 125, between lines 7 and 8, insert the following new section:

SEC. 418. (a) Congress makes the following findings:

(1) During Operation Desert Shield and Operation Desert Storm (in this section, collectively referred to as the "First Gulf War"), the regime of Saddam Hussein committed grave human rights abuses and acts of terrorism against the people of Iraq and citizens of the United States.

(2) United States citizens who were taken prisoner by the regime of Saddam Hussein during the First Gulf War were brutally tortured and forced to endure severe physical trauma and emotional abuse.

(3) The regime of Saddam Hussein used civilian citizens of the United States who were working in the Persian Gulf region before and during the First Gulf War as so-called human shields, threatening the personal safety and emotional well-being of such civilians.

(4) Congress has recognized and authorized the right of United States citizens, including prisoners of war, to hold terrorist states, such as Iraq during the regime of Saddam Hussein, liable for injuries caused by such states.

(5) The United States district courts are authorized to adjudicate cases brought by individuals injured by terrorist states.

(b) It is the sense of Congress that—

(1) notwithstanding section 1503 of the Emergency Wartime Supplemental Appropriations Act, 2003 (Public Law 108–11; 117 Stat. 579) and any other provision of law, a citizen of the United States who was a prisoner of war or who was used by the regime of Saddam Hussein and by Iraq as a so-called human shield during the First Gulf War should have the opportunity to have any claim for damages caused by the regime of Saddam Hussein and by Iraq incurred by such citizen fully adjudicated in the appropriate United States district court;

(2) any judgment for such damages awarded to such citizen, or the family of such citizen, should be fully enforced; and

(3) the Attorney General should enter into negotiations with each such citizen, or the family of each such citizen, to develop a fair and reasonable method of providing compensation for the damages each such citizen incurred, including using assets of the regime of Saddam Hussein held by the Government of the United States or any other appropriate sources to provide such compensation.

SA 2195. Mr. DURBIN (for himself, Ms. SNOWE, Mr. JEFFORDS, Mrs. BOXER, Mr. LAUTENBERG, Ms. CANTWELL, and Mr. LIEBERMAN) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; as follows:

None of the funds provided in this Act may be expended to apply, in a numerical estimate of the benefits of an agency action prepared pursuant to Executive Order 12866 or section 812 of the Clean Air Act, monetary values for adult premature mortality that differ based on the age of the adult.

SA 2196. Mr. BOND (for Mr. DASCHLE) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; as follows:

At the end of title I, add the following:

SEC. 116. Not later than 120 days after the date of the enactment of this Act, the Secretary of Veterans Affairs shall enter into an agreement with the Institute of Medicine of the National Academy of Sciences under which agreement the Institute of Medicine shall develop and evaluate epidemiological studies on Vietnam veterans in accordance with the recommendations of the 2003 National Academy of Sciences report entitled "Characterizing Exposure of Veterans to Agent Orange and Other Herbicides Used in Vietnam: Interim Findings and Recommendations".

SA 2197. Mr. BOND (for Mr. FEINGOLD) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; as follows:

At the end of title I, insert the following:

SEC. 116. No funds appropriated or otherwise made available for the Department of Veterans Affairs by this Act or any other Act may be obligated or expended to implement the policy contained in the memorandum of the Department of Veterans Affairs dated July 18, 2002, from the Deputy Under Secretary for Health for Operations and Management with the subject "Status of VHA Enrollment and Associated Issues" or any other policy prohibiting the Directors of the Veterans Integrated Service Networks (VISNs) from conducting outreach or marketing to enroll new veterans within their Networks.

SA 2198. Mr. BOND (for Ms. CANTWELL (for herself, Mr. CARPER, Mr. BROWNBACK, Mr. HAGEL, Mr. ROBERTS, Mr. NELSON of Nebraska, Mrs. MURRAY, and Mr. DEWINE)) proposed an amendment to amendment SA 2150 proposed by Mr. BOND (for himself and Ms. MIKULSKI) to the bill H.R. 2861, making appropriations for the Departments of Veterans Affairs and Housing and Urban Development, and for sundry independent agencies, boards, commissions, corporations, and offices for the fiscal year ending September 30, 2004, and for other purposes; as follows:

On page 125, between lines 7 and 8, insert the following:

SEC. 418. EXTENSION OF CERTAIN PUBLIC HOUSING/SECTION 8 MOVING TO WORK DEMONSTRATION AGREEMENTS.

(a) EXTENSION.—The Secretary of Housing and Urban Development shall extend the term of the Moving to Work Demonstration Agreement entered into between a public housing agency and the Secretary under section 204, title V, of the Omnibus Consolidated Rescissions and Appropriations Act of 1996 (Pub. L. 104–134, April 26, 1996) if—

(1) the public housing agency requests such extension in writing;

(2) the public housing agency is not at the time of such request for extension in default under its Moving to Work Demonstration Agreement; and

(3) the Moving to Work Demonstration Agreement to be extended would otherwise expire on or before December 31, 2004.

(b) TERMS.—Unless the Secretary of Housing and Urban Development and the public housing agency otherwise agree, the extension under subsection (a) shall be upon the identical terms and conditions set forth in the extending agency's existing Moving to Work Demonstration Agreement, except that for each public housing agency that has been or will be granted an extension to its original Moving to Work agreement, the Secretary shall require that data be collected so that the effect of Moving to Work policy changes on residents can be measured.

(c) EXTENSION PERIOD.—The extension under subsection (a) shall be for such period as is requested by the public housing agency, not to exceed 3 years from the date of expiration of the extending agency's existing Moving to Work Demonstration Agreement.

(d) BREACH OF AGREEMENT.—Nothing contained in this section shall limit the authority of the Secretary of Housing and Urban Development to terminate any Moving to Work Demonstration Agreement of a public housing agency if the public housing agency is in breach of the provisions of such agreement.

SEC. 419. STUDY OF MOVING TO WORK PROGRAM.

(a) IN GENERAL.—The General Accounting Office shall conduct a study of the Moving to Work demonstration program to evaluate—

(1) whether the statutory goals of the Moving to Work demonstration program are being met;

(2) the effects policy changes related to the Moving to Work demonstration program have had on residents; and

(3) whether public housing agencies participating in the Moving to Work program are meeting the requirements of the Moving to Work demonstration program under law and any agreements with the Department of Housing and Urban Development.

(b) REPORT.—Not later than 18 months after the date of enactment of this Act, the General Accounting Office shall submit to Congress a report on the study conducted under subsection (a).

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON THE JUDICIARY

Mr. KYL. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet to conduct a markup on Monday, November 17, 2003, at 5:40 p.m. in the President's Room 216, The Capitol. Note: This markup was rescheduled from Thursday, November 13, 2003.

Agenda:

I. Nominations: Henry W. Saad to be U.S. Circuit Judge for the Sixth Circuit; James B. Comey to be Deputy Attorney General; Michael J. Garcia to be Assistant Secretary of U.S. Immigration and Customs Enforcement; Claude A. Allen to be U.S. Circuit Judge for the Fourth Circuit; and Federico L. Rocha to be U.S. Marshal for the Northern District of California.

II. Bills: H.R. 1437—To improve the United States Code [Sensenbrenner, Conyers]; S. Res. 253—To recognize the evolution and importance of motorsports [Campbell, Kyl].

The PRESIDING OFFICER. Without objection, it is so ordered.

PRIVILEGES OF THE FLOOR

Mr. HARKIN. Mr. President, first I ask unanimous consent that Theresa Frueh of my office be given privileges of the floor tonight and tomorrow.

The PRESIDING OFFICER. Without objection, it is so ordered.

REMOVAL OF INJUNCTION OF SECRECY—TREATY DOCUMENT NO. 108–11

Mr. KYL. Mr. President, as in executive session, I ask unanimous consent that the injunction of secrecy be removed from the following treaty transmitted to the Senate on November 17, 2003, by the President of the United States:

Cybercrime Convention (Treaty Document 108–11).

I further ask that the treaty be considered as having been read the first time; that it be referred, with accompanying papers, to the Committee on Foreign Relations and ordered to be printed; and that the President's message be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The message of the President is as follows:

To the Senate of the United States:

With a view to receiving the advice and consent of the Senate to ratification, I transmit herewith the Council of Europe Convention on Cybercrime (the "Cybercrime Convention" or the "Convention"), which was signed by the United States on November 23, 2001. In addition, for the information of the Senate, I transmit the report of the Department of State with respect to the Convention and the Convention's official Explanatory Report.

The United States, in its capacity as an observer at the Council of Europe, participated actively in the elaboration of the Convention, which is the only multilateral treaty to address the problems of computer-related crime and electronic evidence gathering. An overview of the Convention's provisions is provided in the report of the Department of State. The report also sets forth proposed reservations and declarations that would be deposited by the United States with its instrument of ratification. With these reservations and declarations, the Convention would not require implementing legislation for the United States.

The Convention promises to be an effective tool in the global effort to combat computer-related crime. It requires Parties to criminalize, if they have not already done so, certain conduct that is committed through, against, or related to computer systems. Such substantive crimes include offenses against the "confidentiality, integrity and availability" of computer data and systems, as well as using computer systems to engage in conduct that would be criminal if committed outside the cyber-realm, i.e., forgery, fraud, child pornography, and certain copyright-related offenses. The Convention also requires Parties to have the ability to investigate computer-related crime effectively and to obtain electronic evidence in all types of criminal investigations and proceedings.

By providing for broad international cooperation in the form of extradition and mutual legal assistance, the Cybercrime Convention would remove or minimize legal obstacles to international cooperation that delay or endanger U.S. investigations and prosecutions of computer-related crime. As such, it would help deny "safe havens" to criminals, including terrorists, who can cause damage to U.S. interests from abroad using computer systems. At the same time, the Convention contains safeguards that protect civil liberties and other legitimate interests.

I recommend that the Senate give early and favorable consideration to the Cybercrime Convention, and that it give its advice and consent to ratification, subject to the reservations, declarations, and understanding described in the accompanying report of the Department of State.

GEORGE W. BUSH.

THE WHITE HOUSE, *November 17, 2003.*

APPOINTMENT

The PRESIDING OFFICER. The Chair, on behalf of the Majority Leader, pursuant to Public Law 96–114, as amended, announces the appointment of John M. Falk, of Washington, DC, to be Chairman of the Congressional Award Board.

PRIVATE SECURITY OFFICER EMPLOYMENT AUTHORIZATION ACT OF 2003

Mr. KYL. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 322, S. 1743.

The PRESIDING OFFICER. The clerk will state the bill by title.

The legislative clerk read as follows:

A bill (S. 1743) to permit reviews of criminal records of applicants for private security officer employment.

There being no objection, the Senate proceeded to consider the bill.

Mr. KYL. Mr. President, I ask unanimous consent that the bill be read the third time and passed, the motion to reconsider be laid upon the table with no intervening action or debate; that any statements relating to this measure be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1743) was read the third time and passed, as follows:

S. 1743

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Private Security Officer Employment Authorization Act of 2003".

SEC. 2. FINDINGS.

Congress finds that—

(1) employment of private security officers in the United States is growing rapidly;

(2) private security officers function as an adjunct to, but not a replacement for, public law enforcement by helping to reduce and prevent crime;

(3) such private security officers protect individuals, property, and proprietary information, and provide protection to such diverse operations as banks, hospitals, research and development centers, manufacturing facilities, defense and aerospace contractors, high technology businesses, nuclear power plants, chemical companies, oil and gas refineries, airports, communication facilities and operations, office complexes, schools, residential properties, apartment complexes, gated communities, and others;

(4) sworn law enforcement officers provide significant services to the citizens of the United States in its public areas, and are supplemented by private security officers;

(5) the threat of additional terrorist attacks requires cooperation between public and private sectors and demands professional, reliable, and responsible security officers for the protection of people, facilities, and institutions;

(6) the trend in the Nation toward growth in such security services has accelerated rapidly;

(7) such growth makes available more public sector law enforcement officers to combat serious and violent crimes, including terrorism;

(8) the American public deserves the employment of qualified, well-trained private security personnel as an adjunct to sworn law enforcement officers; and

(9) private security officers and applicants for private security officer positions should be thoroughly screened and trained.

SEC. 3. DEFINITIONS.

In this Act:

(1) EMPLOYEE.—The term "employee" includes both a current employee and an applicant for employment as a private security officer.

(2) AUTHORIZED EMPLOYER.—The term "authorized employer" means any person that—

(A) employs private security officers; and

(B) is authorized by regulations promulgated by the Attorney General to request a criminal history record information search of an employee through a State identification bureau pursuant to this section.

(3) PRIVATE SECURITY OFFICER.— The term "private security officer"—

(A) means an individual other than an employee of a Federal, State, or local government, whose primary duty is to perform security services, full- or part-time, for consideration, whether armed or unarmed and in uniform or plain clothes (except for services excluded from coverage under this Act if the Attorney General determines by regulation that such exclusion would serve the public interest); but

(B) does not include—

(i) employees whose duties are primarily internal audit or credit functions;

(ii) employees of electronic security system companies acting as technicians or monitors; or

(iii) employees whose duties primarily involve the secure movement of prisoners.

(4) SECURITY SERVICES.—The term "security services" means acts to protect people or property as defined by regulations promulgated by the Attorney General.

(5) STATE IDENTIFICATION BUREAU.—The term "State identification bureau" means the State entity designated by the Attorney General for the submission and receipt of criminal history record information.

SEC. 4. CRIMINAL HISTORY RECORD INFORMATION SEARCH.

(a) IN GENERAL.—

(1) SUBMISSION OF FINGERPRINTS.—An authorized employer may submit to the State identification bureau of a participating State, fingerprints or other means of positive identification, as determined by the Attorney General, of an employee of such employer for purposes of a criminal history record information search pursuant to this Act.

(2) EMPLOYEE RIGHTS.—

(A) PERMISSION.—An authorized employer shall obtain written consent from an employee to submit to the State identification bureau of a participating State the request to search the criminal history record information of the employee under this Act.

(B) ACCESS.—An authorized employer shall provide to the employee confidential access to any information relating to the employee received by the authorized employer pursuant to this Act.

(3) PROVIDING INFORMATION TO THE STATE IDENTIFICATION BUREAU.—Upon receipt of a request for a criminal history record information search from an authorized employer pursuant to this Act, submitted through the State identification bureau of a participating State, the Attorney General shall—

(A) search the appropriate records of the Criminal Justice Information Services Division of the Federal Bureau of Investigation; and

(B) promptly provide any resulting identification and criminal history record information to the submitting State identification bureau requesting the information.

(4) USE OF INFORMATION.—

(A) IN GENERAL.—Upon receipt of the criminal history record information from the Attorney General by the State identification bureau, the information shall be used only as provided in subparagraph (B).

(B) TERMS.—In the case of—

(i) a participating State that has no State standards for qualification to be a private security officer, the State shall notify an authorized employer as to the fact of whether an employee has been—

(I) convicted of a felony, an offense involving dishonesty or a false statement if the conviction occurred during the previous 10 years, or an offense involving the use or attempted use of physical force against the person of another if the conviction occurred during the previous 10 years; or

(II) charged with a criminal felony for which there has been no resolution during the preceding 365 days; or

(ii) a participating State that has State standards for qualification to be a private security officer, the State shall use the information received pursuant to this Act in applying the State standards and shall only notify the employer of the results of the application of the State standards.

(5) FREQUENCY OF REQUESTS.—An authorized employer may request a criminal history record information search for an employee only once every 12 months of continuous employment by that employee unless the authorized employer has good cause to submit additional requests.

(b) REGULATIONS.—Not later than 180 days after the date of enactment of this Act, the Attorney General shall issue such final or interim final regulations as may be necessary to carry out this Act, including—

(1) measures relating to the security, confidentiality, accuracy, use, submission, dissemination, destruction of information and audits, and recordkeeping;

(2) standards for qualification as an authorized employer; and

(3) the imposition of reasonable fees necessary for conducting the background checks.

(c) CRIMINAL PENALTIES FOR USE OF INFORMATION.—Whoever knowingly and intentionally uses any information obtained pursuant to this Act other than for the purpose of determining the suitability of an individual for employment as a private security officer shall be fined under title 18, United States Code, or imprisoned for not more than 2 years, or both.

(d) USER FEES.—

(1) IN GENERAL.—The Director of the Federal Bureau of Investigation may—

(A) collect fees to process background checks provided for by this Act; and

(B) establish such fees at a level to include an additional amount to defray expenses for the automation of fingerprint identification and criminal justice information services and associated costs.

(2) LIMITATIONS.—Any fee collected under this subsection—

(A) shall, consistent with Public Law 101-515 and Public Law 104-99, be credited to the appropriation to be used for salaries and other expenses incurred through providing the services described in such Public Laws and in paragraph (1);

(B) shall be available for expenditure only to pay the costs of such activities and services; and

(C) shall remain available until expended.

(3) STATE COSTS.—Nothing in this Act shall be construed as restricting the right of a State to assess a reasonable fee on an authorized employer for the costs to the State of administering this Act.

(e) STATE OPT OUT.—A State may decline to participate in the background check system authorized by this Act by enacting a law or issuing an order by the Governor (if consistent with State law) providing that the State is declining to participate pursuant to this subsection.

MEASURE READ THE FIRST TIME—S. 1875

Mr. KYL. Mr. President, I understand that S. 1875, which was introduced earlier today, is at the desk, and I ask for its first reading.

The PRESIDING OFFICER. The clerk will read the title of the bill for the first time.

The assistant legislative clerk read as follows:

A bill (S. 1875) to amend the Employee Retirement Income Security Act of 1974, the Public Health Service Act, and the Internal Revenue Code of 1986 to extend the mental health benefits parity provisions for an additional year.

Mr. KYL. Mr. President, I now ask for its second reading and object to further proceedings on the matter.

The PRESIDING OFFICER. Objection is heard. The bill will receive its second reading on the next legislative day.

APPOINTMENT OF ADDITIONAL CONFEREES

Mr. KYL. Mr. President, I ask unanimous consent that the number of conferees appointed for H.R. 2673, the Agriculture appropriations bill for fiscal year 2004, be expanded to include the following additional members of the Senate Appropriations Committee: Senators DOMENICI, SHELBY, GREGG, CAMPBELL, HUTCHISON, DEWINE, INOUYE, HOLLINGS, LEAHY, MIKULSKI, REID, and MURRAY.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR TUESDAY, NOVEMBER 18, 2003

Mr. KYL. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m., Tuesday, November 18. I further ask unanimous consent that following the prayer and the pledge, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to executive session to consider the nomination of Thomas Dorr, with the time until 10:30 a.m. equally divided between the chairman and ranking member of the Agriculture Committee, or their designees; provided, that at 10:30 a.m., the Senate proceed to the two cloture votes in relation to the nomination; that following the two votes, and regardless of the outcome of either vote, the Senate return to legislative session and resume consideration of H.R. 2861, the VA-HUD appropriations bill. I further ask unanimous consent that the Senate recess from 12:30 p.m. to 2:15 p.m. for the weekly party luncheons.

The PRESIDING OFFICER. Without objection, it is so ordered.

PROGRAM

Mr. KYL. Mr. President, for the information of all Senators, tomorrow the Senate will consider the nomination of Thomas Dorr to be Under Secretary of Agriculture for Rural Development and to be a member of the board of directors of the Commodity Credit Corporation. At 10:30 a.m., the Senate will proceed to two cloture votes in relation to the nomination. Those two votes will be the first votes of tomorrow's session.

Following the two cloture votes, the Senate will resume consideration of the VA-HUD appropriations bill. It is the hope and expectation of the majority leader that we will be able to dispose of the remaining amendments quickly and move to vote on passage of the bill.

For the remainder of the day, the Senate will consider any legislative or executive items that are available for action. Last week, we reached a unanimous consent agreement limiting the debate on the nomination of Robert Clark to be a lieutenant general in the Army, and the Senate may take up the nomination tomorrow. In addition, the Senate may take up appropriations conference reports as they become available. Therefore, Senators should expect rollcall votes throughout the day tomorrow.

ADJOURNMENT UNTIL 9:30 A.M. TOMORROW

Mr. KYL. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that the Senate stand in adjournment under the previous order.

There being no objection, the Senate, at 7:41 p.m., adjourned until Tuesday, November 18, 2003, at 9:30 a.m.

NOMINATIONS

Executive nominations received by the Senate November 17, 2003:

DEPARTMENT OF TRANSPORTATION

FRANCIS MULVEY, OF MARYLAND, TO BE A MEMBER OF THE SURFACE TRANSPORTATION BOARD FOR A TERM EXPIRING DECEMBER 31, 2007, VICE WAYNE O. BURKES, RESIGNED.

W. DOUGLAS BUTTREY, OF TENNESSEE, TO BE A MEMBER OF THE SURFACE TRANSPORTATION BOARD FOR A TERM EXPIRING DECEMBER 31, 2008, VICE LINDA JOAN MORGAN, RESIGNED.

DEPARTMENT OF STATE

IN THE AIR FORCE

THE FOLLOWING NAMED OFFICER FOR REGULAR APPOINTMENT IN THE GRADE INDICATED IN THE UNITED STATES AIR FORCE UNDER TITLE 10, U.S.C., SECTIONS 531 AND 1552:

To be lieutenant colonel

ROBERT G. CATES III, 1542

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES AIR FORCE, UNDER TITLE 10, U.S.C., SECTIONS 624 AND 1552:

To be lieutenant colonel

MARY J. QUINN, 8013

THE FOLLOWING NAMED OFFICERS FOR A REGULAR APPOINTMENT IN THE GRADE INDICATED IN THE UNITED STATES AIR FORCE UNDER TITLE 10, U. S. C., SECTION 531:

To be lieutenant colonel

CHRISTOPHER C. ERICKSON, 9054
MARK A. MCCLAIN, 0234

IN THE COAST GUARD

THE FOLLOWING INDIVIDUALS FOR APPOINTMENT AS PERMANENT COMMISSIONED REGULAR OFFICERS IN THE

UNITED STATES COAST GUARD IN THE GRADE INDICATED UNDER TITLE 14, U.S.C., SECTION 211:

To be lieutenant

MICHAEL P. GULDIN, 6590
LAURIE J. MOSIER, 5037

IN THE ARMY

THE FOLLOWING NAMED ARMY NATIONAL GUARD OF THE UNITED STATES OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE RESERVE OF THE ARMY UNDER TITLE 10, U.S.C., SECTIONS 12203 AND 12211:

To be colonel

JOHN D. MCGOWAN II, 1177
KENNETH E. NETTLES, 6752

THE FOLLOWING NAMED ARMY NATIONAL GUARD OF THE UNITED STATES OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE RESERVE OF THE ARMY UNDER TITLE 10, U.S.C., SECTIONS 12203 AND 12211:

To be colonel

VERNAL G. ANDERSON, 6763
DONALD J. KERR, 9895

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES ARMY MEDICAL SPECIALIST CORPS UNDER TITLE 10, U.S.C., SECTIONS 624 AND 3064:

To be colonel

GASTON P. BATHALON, 7704
STEVEN D. HUNTE, 3839
PAULA J. RUTAN, 0787

THE FOLLOWING NAMED OFFICER FOR APPOINTMENT TO THE GRADE INDICATED IN THE RESERVE OF THE ARMY UNDER TITLE 10, U.S.C., SECTION 12203:

To be colonel

WILLIAM B. CARR JR., 1988

I NOMINATE THE FOLLOWING NAMED INDIVIDUALS FOR APPOINTMENT IN THE GRADE INDICATED IN THE RESERVE OF THE ARMY UNDER TITLE 10, U.S.C., SECTION 12203:

To be colonel

JOHN E. ATWOOD, 3895
CRAIG B. COLLIER, 2174
WILLIAM E. ZOESCH, 4276

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE RESERVE OF THE ARMY UNDER TITLE 10, U.S.C., SECTION 12203:

To be colonel

CHERYL KYLE, 5584
TERRY C. WASHAM, 0670

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES ARMY VETERINARY CORPS UNDER TITLE 10, U.S.C., SECTIONS 624 AND 3064:

To be colonel

MICHAEL A. BULEY, 9818
DAVID S. ROLFE, 1350
PAUL W. SCHMIDT, 8659
DAVID R. SCHUCKENBROCK, 4488
PETER J. SCHULTHEISS, 3211
JOHN P. SKVORAK, 6280
STANLEY E. SMITH, 4892
BOB E. WALTERS, 7410
GARY M. ZAUCHA, 2008

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES ARMY NURSE CORPS AND FOR REGULAR APPOINTMENT (IDENTIFIED BY AN ASTERISK(*)) UNDER TITLE 10, U.S.C., SECTIONS 624, 531, AND 3064:

To be colonel

JULIA A. ADAMS, 2052
CARYL J. DOWELL, 1389
ELLEN E. FORSTER, 0905
HOGSTON S. HAGA, 0136
MARGARET A. HAWTHORNE, 9613
BARBARA J. HECTOR, 8223

GARY R. MCMEEN, 9206

HOUSE OF REPRESENTATIVES—*Monday, November 17, 2003*

The House met at 12:30 p.m. and was called to order by the Speaker pro tempore (Mr. PENCE).

DESIGNATION OF SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,
November 17, 2003.

I hereby appoint the Honorable MIKE PENCE to act as Speaker pro tempore on this day.

J. DENNIS HASTERT,
Speaker of the House of Representatives.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Monahan, one of its clerks, announced that the Senate has passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 1261. An act to enhance the workforce investment system of the Nation by strengthening one-stop career centers, providing for more effective governance arrangements, promoting access to a more comprehensive array of employment, training, and related services, establishing a targeted approach to serving youth, and improving performance accountability, and for other purposes.

The message also announced that the Senate has passed a bill of the following title in which the concurrence of the House is requested:

S. 1824. An act to amend the Foreign Assistance Act of 1961 to reauthorize the Overseas Private Investment Corporation, and for other purposes.

MORNING HOUR DEBATES

The SPEAKER pro tempore. Pursuant to the order of the House of January 7, 2003, the Chair will now recognize Members from lists submitted by the majority and minority leaders for morning hour debates.

The Chair will alternate recognition between the parties, with each party limited to not to exceed 30 minutes, and each Member, except the majority leader, the minority leader, or the minority whip, limited to not to exceed 5 minutes.

The Chair recognizes the gentleman from Florida (Mr. STEARNS) for 5 minutes.

STEMMING THE SPREAD OF CARGO THEFT

Mr. STEARNS. Mr. Speaker, billions and billions of dollars are sapped from our economy each year by cargo theft. It is a staggering problem, and, at the same time, a problem that really no one is aware of.

Every day, millions of cargo carrying trucks transport their contents across the highways of our districts. And, every day, millions of dollars of goods are stolen from these trucks, often times with violent results.

Mr. Speaker, this week I will introduce legislation that will seek to address the growing tide of cargo theft in hopes of bringing awareness of this problem to the national spotlight.

With the prevalence of cargo theft today, insurance companies have placed a heavy burden on the trucking industry. The costs associated with investigation, insurance payments, are only exacerbating what is already an industry crisis.

Typical targets for cargo theft often include shipments of clothing, prescription drugs, computers and jewelry. A truckload of computer microprocessors can be worth millions of dollars. A single pallet of pharmaceuticals, another common target, can be worth upwards of $2 million dollars, and cargo containers are capable of carrying dozens of such pallets.

The high value-to-volume ratio of these goods has encouraged criminals previously involved in drug dealing to move into this area of activity, where they run less risk of detection and suffer less severe penalties if they are caught. The National Cargo Security Council reported that cargo worth $12 billion is stolen in the United States every year, and yet the penalties for cargo theft are lower than those for selling drugs.

Cargo thieves employ creative means to prey on cargo carriers and have managed to stay one step ahead of authorities. Thieves know what they want and where they can find it, striking cargo containers at ports and at trains and 18-wheelers.

Thieves will either roll the dice, stealing containers with unknown contents, or they will go as far as camping outside of distribution centers. This method is called "full load truck theft." It involves monitoring shipments out of distribution centers that are known for putting out expensive goods. The thieves will then follow the trucks in rental cars waiting for the right time to pounce. This will often occur at truck rest stops, where the driver leaves the vehicle. The process can amazingly take but a few minutes. These professional criminals are usually licensed truck drivers, who can hot wire a truck quickly and efficiently.

The legislation that I have proposed will seek to finally give both lawmakers and law enforcement officials the tools they need to combat this growing crime. Cargo theft does not receive the attention it deserves because very little concrete information exists today concerning this problem. There currently is no all-inclusive database that collects, contains or processes distinct information and data concerning cargo theft. My bill would require the creation of such a database that will allow State and local law enforcement officials to coordinate reports of cargo theft, helping them prove to lawmakers just how severe this problem really is.

Also, after speaking with officials in my Congressional District, it has become clear to me that stricter criminal penalties are needed in order to keep criminals from turning to cargo theft. My bill does just this, requiring that the United States Sentencing Commission determine what sentencing enhancement must be made.

Finally, this legislation would ensure that cargo theft reports would be reflected as a separate category in the Uniform Crime Reporting System, the data collection system used by the FBI. Currently no such category exists, resulting in ambiguous data and the inability to track and monitor trends.

Mr. Speaker, Members in this Chamber need to be aware of this problem, a problem not only specific to the large port cities of this country, but a problem specific to all Congressional districts. Flowing up and down I–75, through the heart of my district, thieves transport goods to and from Miami. Billions of dollars are being sapped from our economy, and this body is doing little to stop it. It is time that we get aggressive and make our highways safe again for commerce.

This body must make an example of cargo thieves. We must let them know that they will not get away with merely a slap on the hand. And as sheriff's departments begin integrating special cargo theft task forces, we must arm them with the ability to prosecute criminals with stiffer penalties.

Mr. Speaker, my bill represents a cohesive effort backed by law enforcement and industry representatives alike. I urge Members to support this bill, in hopes of bringing acknowledgment of this fight against cargo theft at the Federal level.

☐ This symbol represents the time of day during the House proceedings, e.g., ☐ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

With links even to terrorism, cargo theft is a problem that has flown under our radar screens for far too long. Until we strengthen these laws, this 30-year-old crime wave will persist, threatening our ports and roads and costing our economy billions of dollars.

LOOMING DIABETES EPIDEMIC CAUSING HEALTHCARE CRISIS

The SPEAKER pro tempore. Pursuant to the order of the House of January 7, 2003, the gentleman from New Mexico (Mr. UDALL) is recognized during morning hour debates for 5 minutes.

Mr. UDALL of New Mexico. Mr. Speaker, the headlines shout out: "Healthcare crisis looms." "Diabetes epidemic." "Increase in childhood obesity." Solutions abound, but the one which could make a real difference, prevention, is only paid lip service. We say "an ounce of prevention is worth a pound of cure," but then we fail to reinvent our health policy to make prevention a cornerstone.

The facts are ominous, unrelenting and tell it all:

An obesity epidemic started in the early 1980s and equally impacts all age groups. Nearly one in four Americans are obese. Obesity is highly predictive of diabetes.

One in three children now being born in the United States ultimately will become diabetic.

Diabetes incidence increased 61 percent in the last decade; 76 percent for people in their thirties.

An alarming British study reported one-third of 5-year-old girls were overweight and showing signs of developing Type II diabetes, formerly called adult onset diabetes.

The Surgeon General in his December 2001 report left no doubt where we are headed. "Left unabated, overweight and obesity may soon cause as much preventable disease and death as cigarette smoking."

The healthcare costs to deal with these trends are overwhelming and unaffordable. The National Institutes of Health has estimated that diabetes costs the United States close to $138 billion each year in direct and indirect costs. Let me repeat, $138 billion. We cannot afford to double, triple and quadruple these costs. Even if we could find the resources, would this be a wise expenditure of our finite healthcare dollars?

Today we spend 95 percent of our healthcare dollars on treating chronic and acute illnesses, many of which could be prevented in the first place. In other cases we could at least delay the onset of disease for a number of years and provide a higher quality of life. The dollars we spend on prevention are minuscule, and we do not track the outcomes in a meaningful way.

This Nation needs a new approach to healthcare, which puts prevention front and center. The key to prevention is personal responsibility and personal action. If people are given the facts and alternatives, they can take charge of their health.

We are facing an epidemic of diabetes in New Mexico due to obesity and unhealthy lifestyles. Minority communities are disproportionately impacted. But there is hope in many of our communities, where individuals are taking charge of their health and their future.

I was in the Navajo community of Thoreau recently and saw some dynamic seniors reshaping the health of their community. These Navajo seniors knew that decades ago, when the Navajo people were leading an active life and herding their sheep and livestock and eating traditional food, there was very little disease. They remember diabetes and other modern ailments were also unheard of in the Navajo population. So with the help of the Centers for Disease Control and the University of New Mexico Preventive Health Center, they designed a menu of healthy traditional foods.

They call the regimen of regular exercise and healthier eating "The Healthy Path." The seniors are teaching younger parents and their grandchildren the benefits of these healthier foods and how to begin The Healthy Path. Word has spread, and there are now a dozen healthy path initiatives ongoing in Navajo chapter houses.

This is not rocket science. We know prevention works. We have the tests and screening to know when someone is pre-diabetic, on a path to diabetes. Doctors have known for years that regular exercise, weight loss and healthy diet will virtually eliminate Type II diabetes. Let us put this knowledge to work and create healthier individuals and communities.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until 2 p.m. today.

Accordingly (at 12 o'clock and 44 minutes p.m.), the House stood in recess until 2 p.m.

□ 1400

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. PETRI) at 2 p.m.

PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord God, all Your ways are just. You alone are the source of true compassion and love. We turn to You to be strengthened this week so we may accomplish the work You set before us.

By their deeds You judge all peoples. May this Congress prove to be just stewards of the resources of this Nation and worthy leaders who gain the respect of the people.

Above all and in all, guide their judgment and place prudence and practicality in their hearts. May they meet their responsibilities with fair and open debate, seeking the best means to achieve common goals.

May their work, conversations and all their efforts be dedicated to Your service and meet the needs of the least in our midst now and forever. Amen.

THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Minnesota (Mr. GUTKNECHT) come forward and lead the House in the Pledge of Allegiance.

Mr. GUTKNECHT led the Pledge of Allegiance as follows:

> I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken after 6:30 p.m. today.

RECOGNIZING AGRICULTURAL RESEARCH SERVICE FOR 50 YEARS OF OUTSTANDING SERVICE

Mr. GUTKNECHT. Mr. Speaker, I move to suspend the rules and pass the Senate joint resolution (S.J. Res. 22) recognizing the Agricultural Research Service of the Department of Agriculture for 50 years of outstanding service to the Nation through agricultural research.

The Clerk read as follows:

S.J. RES. 22

Whereas the Agricultural Research Service is the primary research agency of the Department of Agriculture and provides the Department of Agriculture and other Federal offices with objective research that is critical to the missions of those offices;

Whereas the agricultural research conducted by the Agricultural Research Service has an enormous impact on the economic viability of agriculture in the United States and around the world;

Whereas people around the world, especially rural Americans, enjoy a higher quality of life due in part to the work of the Agricultural Research Service to expand scientific knowledge;

Whereas the Agricultural Research Service has achieved major scientific breakthroughs that have benefited farmers, ranchers, agribusiness, and consumers;

Whereas the Agricultural Research Service has made scientific discoveries and technological developments that address agricultural problems of broad scope and high national priority, ensure safe and high quality food and other agricultural products that meet nutritional needs, and maintain a quality environment and natural resource base; and

Whereas the Agricultural Research Service continues to play a vital role in maintaining the global competitiveness and leadership of the United States in the next millennium: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress—

(1) recognizes the Agricultural Research Service of the Department of Agriculture for 50 years of outstanding service to the Nation through agricultural research; and

(2) acknowledges the promise of the Agricultural Research Service to continue to perform outstanding agricultural research in the next 50 years and beyond.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. GUTKNECHT) and the gentleman from Texas (Mr. STENHOLM) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, Senate Joint Resolution 22 honors the Agricultural Research Service, the primary research agency of the United States Department of Agriculture. On Wednesday, October 29, the House Committee on Agriculture reported out an identical resolution, House Joint Resolution 74.

Although ARS can trace its heritage back to early 19th century seed collection activities in the U.S. Patent Office, it was originally organized on November 2, 1953, when the USDA consolidated most of its research functions into one newly-named Agricultural Research Service.

I am very pleased to help ARS mark its 50th anniversary and to use this occasion to recognize the important contributions ARS has made to the agricultural community, as well as to our Nation.

ARS is a public institution that conducts agricultural research exclusively for the public good. ARS scientists and other employees serve the Nation in their capacity of public servants and are accountable to the American people. The research is often long-term and costly and unlikely to be undertaken by the private sector. The ARS discoveries and innovations touch the lives of every American through the food we eat, the clothes we wear, and the environment in which we all live. Those of us from rural districts see firsthand the impact of ARS research but we should all be mindful of the agency's unique contributions to the quality of life for people everywhere. This impact is far greater than anyone could have imagined 50 years ago.

To mark its five decades of public service and to look forward to the next 50 years and beyond of even greater service to this Nation, ARS will be celebrating with various events throughout the next year. In fact, in recognition of the local and national partnerships that are the foundation of much of their research, ARS has declared this a year of outreach and will hold an open house or in some other way throw open their doors at each location over the next year. With over 100 locations across the country, I hope you will support these activities and provide special encouragement for continued ARS leadership in the agricultural, natural resources and technological arenas.

I urge all Members to support this important resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of S.J. Res. 22, a resolution commending the USDA Agricultural Research Service for their 50 years of service to America. For half a century now, the ARS has been a leader in publicly-funded basic and applied research. Given the structure of U.S. agriculture, individual family farms are certainly not able to provide for their own technical and research needs. Publicly-funded research entities such as ARS can provide the lead for long-term projects and have been an obvious and significant success to the benefit of the American people.

Over the years, ARS scientists have made hundreds of technical advances, released thousands of new plant varieties, and contributed to the abundant food supply that all our citizens enjoy. My own State and district have benefited in many tangible ways from the work of the Agricultural Research Service, and I doubt that there are any of us here today who could not say the same thing. The ARS has contributed so very much to advances in the quality and quantity of our food supply, benefiting rural and urban dwellers alike.

I congratulate the Agricultural Research Service on their 50 years of service and I look forward to continue working with them to enhance both American agriculture and the well-being of all our citizens. I encourage all Members to support this well-deserved resolution of commendation.

Mr. Speaker, I yield back the balance of my time.

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

This is a very important resolution. The ARS has done some wonderful work for us. This is one small way that Congress can say thank you and recognize their efforts.

Mr. HOYER. Mr. Speaker, I rise today to recognize the Agriculture Research Service (ARS) of the Department of Agriculture for 50 years of outstanding research. ARS is the established leader in agriculture science, producing quality research used by many to help create responsible science-based policy. As we prepare to celebrate their accomplishments of the past half-century, it is also an opportunity for us to bear in mind future achievements.

ARS is the largest science organization in the world dedicated to agriculture research. As the Department of Agriculture's in-house agency. ARS conducts research to solve problems that are of high national priority and in the best interests of the Nation. This science is vital to the mission area of several Department of Agriculture agencies such as the Animal and Plant Health Inspection Service (APHIS), Food Safety Inspection Service (FSIS), Grain Inspection, Packers and Stockyard Administration (GIPSA), and the Natural Resources Conservation Service (NRCS). ARS also serves a number of other Federal agencies such as the Food and Drug Administration (FDA), the Environmental Protection Agency (EPA), and some components within the Department of Defense (DOD), and the Department of Interior (DOI). Not only is ARS responsible for providing data to these agencies, they also distribute information to producers, consumers, and other stakeholders.

It is easy to see that research is an essential tool, but it is also a worthy investment. Federal agriculture research is a critical element in maintaining our competitive edge in the international arena as well as helps us address environmental challenges. We can better protect our resources from plant pests and animal diseases and can expect improved water quality, resource conservation, and renewable sources of energy. The value of these should research programs benefit not only agriculture, but all Americans.

ARS is able to carry out their mission of providing scientific research through collaborative efforts. There are more than 2,100 scientists conducting research at approximately 100 locations across the country and overseas. At any given time, ARS has more than 1,000 research projects underway, each of which is incorporated into one of 22 national programs. The network of laboratories and research centers across the country allows ARS to address problems quickly and efficiently.

I am proud to represent one center that has significantly contributed to this effort, the Beltsville Area Research Center (BARC), located in Beltsville, MD. I have worked with BARC over the years and have witnessed the work these researchers do and how critical it is to our daily lives.

BARC is the largest and most diversified agricultural research complex in the world. Beltsville's record of accomplishments and programs has earned the center international accolade and attracts thousands of visitors each year. Research in the Beltsville area addresses issues of agriculture importance and high national priority through programs in the Plant Sciences Institute, the Animal and Natural Resources Institute, the Beltsville Human Nutrition Research Center, and the U.S. National Arboretum. I am sure BARC will live up to its reputation of producing high quality research on the cutting edge that will propel U.S. agriculture into the future.

We should take great pride for the many milestones that have been met and continue to support ARS and American agriculture.

Mr. VISCLOSKY. Mr. Speaker, for the past 50 years, the Agriculture Research Service, or ARS as they are better known, has performed indispensable agriculture research across the country, including in the Congressional District I represent. I would like to take this opportunity to recognize ARS in honor of their 50th anniversary as the U.S. Department of Agriculture's main research authority.

From improving food safety to protecting crops and livestock, ARS has proved itself invaluable throughout the past 50 years. As the Department of Agriculture's research arm, they have been able to translate their raw data into profitability for farmers and lower costs for consumers. ARS has formed lasting partnerships with Universities throughout the nation, and has done so at Purdue University since 1965 when they released their first nationwide soil erosion-prediction equation. ARS maintains top-notch Crop Production and Pest Control, Livestock Behavior, and National Soil Erosion Laboratory units at Purdue. ARS, in conjunction with Purdue, continues to stay on the leading edge of agricultural research. Just this summer, they released their cutting edge Water Erosion Prediction Project over the Internet with software known as GeoWEPP.

From this research station, individuals such as Larry Dunkle, Donald Lay, and Darrell Norton have been able to study the agricultural dynamic of Northwest Indiana. They have all contributed a fundamental service to Northwest Indiana as well as the rest of the state, and their service with the ARS is indeed recognized and deeply appreciated. The agricultural community of Northwest Indiana has counted on their contributions of ARS for 50 years now, and that strong partnership will continue into the future.

Mr. Speaker, I ask that my colleagues join me as I congratulate ARS and its researchers on their 50th anniversary by supporting S.J. Res. 22. I would further like to express my gratitude for their service to the agricultural community. Their accomplishments speak volumes, and I thank them for their vital public service.

Mr. GUTKNECHT. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. GUTKNECHT) that the House suspend the rules and pass the Senate joint resolution, S.J. Res. 22.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. GUTKNECHT. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

NATIONAL VETERINARY MEDICAL SERVICE ACT

Mr. GUTKNECHT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1367) to authorize the Secretary of Agriculture to conduct a loan repayment program regarding the provision of veterinary services in shortage situations, and for other purposes, as amended.

The Clerk read as follows:

H.R. 1367

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION. 1. SHORT TITLE.

This Act may be cited as the "National Veterinary Medical Service Act".

SEC. 2. ESTABLISHMENT OF LOAN REPAYMENT PROGRAM REGARDING VETERINARY MEDICINE.

The National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3101 et seq.) is amended by inserting after section 1415 the following new section:

"SEC. 1415A. VETERINARY MEDICINE LOAN REPAYMENT.

"(a) PROGRAM.—

"(1) SERVICE IN SHORTAGE SITUATIONS.—The Secretary shall carry out a program of entering into agreements with veterinarians under which the veterinarians agree to provide, for a period of time as determined by the Secretary and specified in the agreement, veterinary services in veterinarian shortage situations. For each year of such service under an agreement under this paragraph, the Secretary shall pay an amount, as determined by the Secretary and specified in the agreement, of the principal and interest of qualifying educational loans of the veterinarians.

"(2) SERVICE TO FEDERAL GOVERNMENT IN EMERGENCY SITUATIONS.—

"(A) IN GENERAL.—The Secretary may enter into agreements of one year duration with veterinarians who have agreements pursuant to paragraph (1) for such veterinarians to provide services to the Federal Government in emergency situations, as determined by the Secretary, under terms and conditions specified in the agreement. Pursuant to an agreement under this paragraph, the Secretary shall pay an amount, in addition to the amount paid pursuant to the agreement in paragraph (1), as determined by the Secretary and specified in the agreement, of the principal and interest of qualifying educational loans of the veterinarians.

"(B) REQUIREMENTS.—Agreements entered into under this paragraph shall include the following:

"(i) A veterinarian shall not be required to serve more than 60 working days per year of the agreement.

"(ii) A veterinarian who provides service pursuant to the agreement shall receive a salary commensurate with the duties and shall be reimbursed for travel and per diem expenses as appropriate for the duration of the service.

"(b) DETERMINATION OF VETERINARIAN SHORTAGE SITUATIONS.—In determining 'veterinarian shortage situations' the Secretary may consider the following:

"(1) Urban or rural areas that the Secretary determines have a shortage of veterinarians.

"(2) Areas of veterinary practice that the Secretary determines have a shortage of veterinarians, such as public health, epidemiology, and food safety.

"(3) Areas of veterinary need in the Federal Government.

"(4) Other factors that the Secretary considers to be relevant.

"(c) ADMINISTRATION.—

"(1) AUTHORITY.—The Secretary may carry out this program directly or enter into agreements with another Federal agency or other service provider to assist in the administration of this program.

"(2) BREACH REMEDIES.—

"(A) IN GENERAL.—Agreements with program participants shall provide remedies for any breach of an agreement by a participant, including repayment or partial repayment of financial assistance received, with interest.

"(B) AMOUNTS RECOVERED.—Funds recovered under this subsection shall be credited to the account available to carry out this section and shall remain available until expended.

"(3) WAIVER.—The Secretary may grant a waiver of the repayment obligation for breach of contract in the event of extreme hardship or extreme need, as determined by the Secretary.

"(4) AMOUNT.—The Secretary shall develop regulations to determine the amount of loan repayment for a year of service by a veterinarian. In making the determination, the Secretary shall consider the extent to which such determination—

"(A) affects the ability of the Secretary to maximize the number of agreements that can be provided under the Veterinary Medicine Loan Repayment Program from the amounts appropriated for such agreements; and

"(B) provides an incentive to serve in veterinary service shortage areas with the greatest need.

"(5) QUALIFYING EDUCATIONAL LOANS.—Loan repayments provided under this section may consist of payments on behalf of participating individuals of the principal and interest on government and commercial loans received by the individual for attendance of the individual at an accredited college of veterinary medicine resulting in a degree of Doctor of Veterinary Medicine or the equivalent, which loans were made for—

"(A) tuition expenses;

"(B) all other reasonable educational expenses, including fees, books, and laboratory expenses, incurred by the individual; or

"(C) reasonable living expenses as determined by the Secretary.

"(6) REPAYMENT SCHEDULE.—The Secretary may enter into an agreement with the holder of any loan for which payments are made under this section to establish a schedule for the making of such payments.

"(7) TAX LIABILITY.—In addition to educational loan repayments, the Secretary shall make such additional payments to participants as the Secretary determines to be appropriate for the purpose of providing reimbursements to participants for individual tax liability resulting from participation in this program.

"(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for carrying out this section such sums as may be necessary and such sums shall remain available to the Secretary for the purposes of this section until expended.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. GUTKNECHT) and the gentleman from Texas (Mr. STENHOLM) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 1367, the National Veterinary Medical Service Act. I commend the gentleman from Mississippi (Mr. PICKERING) for his leadership on this issue.

H.R. 1367, as amended, authorizes the Secretary of Agriculture, subject to the availability of appropriations, to assist veterinarians in repaying their educational loans if they agree to provide veterinary medical services in areas where the Secretary has determined a shortage of qualified veterinarians exists.

In addition, at the request of the USDA, the bill authorizes the Secretary to provide additional loan repayment for those veterinarians in this program who agree to provide services to the Federal Government in emergency situations. Examples of when this may be important include California's recent experience with Exotic Newcastle Disease, or in a case closer to home, an outbreak of low pathogenic Avian influenza in Virginia here in 2002. In both of these examples, the Federal Government, acting through USDA's Animal and Plant Health Inspection Service, mobilizes its resources in order to detect, control and eradicate disease. Having a pool of qualified veterinarians able to assist in a time of emergency simply bolsters our ability to rapidly contain diseases which can cost our economy millions or even billions of dollars.

Once again, I commend the gentleman from Mississippi for his hard work on this important legislation and urge all Members to support it.

Mr. Speaker, I reserve the balance of my time.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of H.R. 1367, the National Veterinary Medical Services Act. I want to commend the gentleman from Mississippi (Mr. PICKERING) and the gentleman from Texas (Mr. TURNER) for their good work in advancing this legislation.

Assuring an adequate supply of veterinarians in many underserved rural and urban areas is a critical issue for our Nation's animal health infrastructure. It is generally private veterinarians who are the first to identify and respond to animal disease outbreaks. In addition, there is a great need for private veterinarians to supplement the Federal response during future animal health emergencies. The assistance that this legislation will provide to encourage veterinary practice in underserved areas, along with the creation of something like a "National Guard" for private veterinarians who can be called up in emergencies, should wisely enhance our preparation to deal with future animal health emergencies.

The bill under consideration will help to encourage both goals through a very modest public investment with the U.S. Department of Agriculture. I believe H.R. 1367 is a good, cost-effective policy. I encourage Members to support passage of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. GUTKNECHT. Mr. Speaker, I yield such time as he may consume to the gentleman from Mississippi (Mr. PICKERING), the author of the bill.

Mr. PICKERING. Mr. Speaker, I want to thank the gentleman from Minnesota (Mr. GUTKNECHT), the gentleman from Texas (Mr. STENHOLM), and the gentleman from Virginia (Mr. GOODLATTE) and all of his staff who have worked in a bipartisan manner with the gentleman from Texas (Mr. TURNER) and myself as we have brought this much-needed legislation through the committee and now to the floor of the U.S. House of Representatives.

I want to thank those leaders at Mississippi State University who had the foresight and the ability to bring to our attention here on the committee and in my office the need that we have, the critical need, the desperate need that we have to be able to help our students, our veterinarian students who often end up their education with up to, on average, $70,000 in debt. When that occurs, it is so difficult for them to pay the debt and practice in rural or underserved markets and make the type of salary that is needed to be able to retire that debt and pay that debt and raise a family, start a family and start their dreams. And so we are doing just as we have done for medical doctors and dentists and nurses and teachers, and, that is, starting a program that will help them repay their debt, that will pick up those obligations, if in return, they will agree to serve in those areas where we have critical shortages in the rural and the large-animal practices and the underserved markets. Not only will they fill that critical need that is so important not only in animal health, but as it relates to the connections to human health, and in national security, and in homeland security, where we have new threats of bioterrorism, or we have the outbreaks of dreaded diseases that we have seen ravage not only Europe, the economy and the agricultural economy in Europe with mad cow disease, that in those times of crisis those that sign up and meet these requirements and then have their debts repaid, will agree to serve their country, in essence, a National Guard for veterinarians.

□ 1415

So we see today a way to meet the critical shortage of veterinarians in rural and underserved markets. We see a way to encourage the service to our country in homeland security and to meet the threats of either bioterrorism or major animal disease outbreaks. This is much-needed legislation that will help us as we go forward.

Again, I want to thank the committee, the staff, the chairman, and the ranking member for all their help and assistance in getting us to this point. We hope that this legislation can pass not only today in the House but move quickly through the Senate as we address this much-needed legislation and to address the critical shortages that we face in rural districts like mine and across the country.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

I would ask to engage the gentleman from Minnesota (Mr. GUTKNECHT) on behalf of the gentleman from Virginia (Chairman GOODLATTE) in a brief colloquy.

During the Committee consideration of H.R. 1367, I raised some concerns about the potential that implementation of this bill, should it be passed and signed into law, might include an arbitrary graduation cutoff date for veterinarians wishing to participate. We certainly do not want to preclude participation by veterinarians that may have years of valuable experience. This has been a problem with regard to a different educational loan repayment program that folks from my district have tried to access in the past. It is my understanding that nothing in this legislation before us today would encourage the establishment of such a standard by USDA. It is my understanding that any veterinarian who meets the general standards for participation would be eligible to apply for this program no matter how long might have elapsed since her or his graduation from an accredited school of veterinary medicine. Is that the gentleman's understanding of the bill language?

Mr. GUTKNECHT. Mr. Speaker, will the gentleman yield?

Mr. STENHOLM. I yield to the gentleman from Minnesota.

Mr. GUTKNECHT. Mr. Speaker, I thank the gentleman from Texas (Mr. STENHOLM) for yielding and for raising this issue. We have talked to the gentleman from Virginia (Chairman GOODLATTE), and it is our understanding and intent that nothing in this language would preclude any veterinarian, no matter when they graduated from vet school, from applying or to participate so long as they have eligible student loan debt and meet other criteria for participation as described in the legislation.

Mr. STENHOLM. Mr. Speaker, I thank the gentleman for helping to make this point clear.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

I would like to thank the gentleman from Mississippi (Mr. PICKERING). I think this is a very important piece of legislation. I think veterinarians in some respects are like tourniquets: we do not need one often; but when we do need one, we need one rapidly; and in underserved areas, it could become a very serious problem. So I think this is an important piece of legislation. I hope my colleagues will join me in supporting this bill.

Mr. HAYES. Mr. Speaker, I want to commend my colleagues for this needed legislation which ensures the Federal Government's deep commitment to a highly trained and diverse workforce in rural and underserved areas, and encourages veterinarians to assist the U.S. Department of Agriculture in emergency disease outbreak situations. But we should go even further. In order to best maximize Federal Government resources, both in this program at the Department of Agriculture, as well as loan repayment programs throughout the Federal Government, we should allow competition within other aspects of the student loan program, including consolidation loans.

The 1998 reauthorization of the Higher Education Act allowed Federal Family Education Loan (FFEL) student loan borrowers who hold loans from more than one underlying lender to select from those lenders when consolidating their loans. This change has enabled many recent college graduates to refinance their loans at a lower fixed-interest rate. However, student loan borrowers who hold loans through a single lender must consolidate loans through their current lender. This rule is known as the "Single Holder Rule."

In order to ensure that we instill competition, we will need to make sure that during the reauthorization of the Higher Education Act, which is currently moving through the Education and the Workforce Committee, we repeal the single holder rule. I want to thank Chairman BOEHNER and Congressman MCKEON for their efforts to keep college costs under control during consideration of this important legislation. It will be part of my commitment to Federal agencies, students and families everywhere that they have the benefit of competition from qualified lenders in the program when they consolidate their loans and, thus, allow them to take advantage of historically low fixed interest rates—just as other borrowers are able to do every day.

Mr. GUTKNECHT. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PETRI). The question is on the motion offered by the gentleman from Minnesota (Mr. GUTKNECHT) that the House suspend the rules and pass the bill, H.R. 1367, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

PROVIDING FOR CONVEYANCE OF LAND IN APALACHICOLA NATIONAL FOREST, FLORIDA

Mr. GUTKNECHT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3217) to provide for the conveyance of several small parcels of National Forest System land in the Apalachicola National Forest, Florida, to resolve boundary discrepancies involving the Mt. Trial Primitive Baptist Church of Wakulla County, Florida, and for other purposes.

The Clerk read as follows:

H.R. 3217

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LAND CONVEYANCE, APALACHICOLA NATIONAL FOREST, FLORIDA.

(a) CONVEYANCE AUTHORIZED.—The Secretary of Agriculture may convey, without consideration, to the Mt. Trial Primitive Baptist Church of Wakulla County, Florida, all right, title, and interest of the United States in and to four parcels of real property in the Apalachicola National Forest, Florida, located in section 5 of township 5 south, range 2 west, Tallahassee meridian, and consisting of approximately 9.95 acres, 0.09 acres, 0.09 acres, and 0.096 acres, respectively, as depicted on a map, plat number 5-118, prepared as part of a 1983 Forest Service survey.

(b) DESCRIPTION OF PROPERTY.—The exact acreage and legal description of the real property to be conveyed under subsection (a) shall be determined by the Secretary.

(c) ADDITIONAL TERMS AND CONDITIONS.—The Secretary may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Secretary considers appropriate to protect the interests of the United States.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. GUTKNECHT) and the gentleman from Texas (Mr. STENHOLM) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3217 allows the Forest Service to convey without consideration 10.2 acres of the Apalachicola National Forest to the Mt. Trial Primitive Baptist Church of Wakulla County, Florida.

This parcel of land was purchased by the Mt. Trial church in the 1930s; but for a variety of reasons, the deed was never recorded. Unfortunately, the original landowner subsequently resold the land to the National Forest Service in the 1950s. While the Forest Service now technically owns the land, it is more than happy to return this cemetery to the church. This is a fair and equitable resolution to this unfortunate situation.

H.R. 3217 was marked up by the Committee on Agriculture on October 29, 2003. It was approved by the committee on a voice vote without amendment. The bill enjoys the support of the local community and the administration. I urge all Members to support this legislation and return this property to its rightful owner.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

I rise in support of H.R. 3217, legislation to convey several small parcels of National Forest System land in the Apalachicola National Forest in order to resolve boundary discrepancies involving the U.S. Forest Service and the Mt. Trial Primitive Baptist Church of Wakulla County, Florida.

Briefly, H.R. 3217 would allow the Mt. Trial church to expand a cemetery that it maintains next to its church building. This legislation would correct boundary discrepancies that resulted from the church and the Forest Service claiming ownership to the same 10-acre tract of land.

By way of background, the Mt. Trial Primitive Baptist Church is a historically African American church that purchased 10 acres of land in the 1930s in anticipation of expanding its cemetery. The church, however, never recorded the deed for the land purchased at the local county courthouse.

In 1938, the U.S. Forest Service purchased the same 10 acres of land as part of a larger tract that was incorporated into the Apalachicola National Forest. In that instance, the Forest Service did record its deed; and while there is no dispute about the validity of the church's purchase, the Department of Agriculture's legal counsel has ruled that because the Federal Government did file its deed with the county, it is the rightful owner of the property. I would also note that two graves are already located on the Federal Government property and the church's existing cemetery is full.

Mr. Speaker, H.R. 3217 will solve the boundary discrepancies by giving the Secretary of Agriculture the authority to transfer the property to the Mt. Trial Primitive Baptist Church. I encourage my colleagues to support this measure. This measure has been brought to our attention by the gentleman from Florida (Mr. BOYD).

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

This is a fair and equitable way to deal with this problem. All parties agree to it, and hopefully the Members of the House will join us in support of this important legislation.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. GUTKNECHT) that the House suspend the rules and pass the bill, H.R. 3217.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GUTKNECHT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 3217, the bill just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

PROVIDING FOR DESIGNATION OF A DEPARTMENT OF AGRICULTURE DISASTER LIAISON

Mr. GUTKNECHT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3157) to provide for the designation of a Department of Agriculture disaster liaison to assist State and local employees of the Department in coordination with other disaster agencies in response to a federally declared disaster area as a result of a disaster, as amended.

The Clerk read as follows:

H.R. 3157

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. LIAISON FOR DISASTER EMERGENCIES.

(a) DEPLOYMENT OF DISASTER LIAISON.—The Secretary of Agriculture shall deploy disaster liaisons to State and local Department of Agriculture Service Centers in a federally declared disaster area whenever Federal Emergency Management Agency Personnel are deployed in that area, to coordinate Department programs with the appropriate disaster agencies designated under the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.).

(b) QUALIFICATIONS.—Disaster liaisons shall be selected from among Department employees who have experience providing emergency disaster relief in federally declared disaster areas.

(c) DUTIES.—A disaster liaison shall—

(1) serve as a liaison to State and Federal Emergency Services;

(2) be deployed to a federally declared disaster area to coordinate Department interagency programs in assistance to agricultural producers in the declared disaster area;

(3) facilitate the claims and applications of agricultural producers who are victims of the disaster that are forwarded to the Department by the appropriate State Department of Agriculture agency director; and

(4) coordinate with the Director of the State office of the appropriate Department agency to assist with the application for and distribution of economic assistance.

(d) DURATION OF DEPLOYMENT.—The deployment of a disaster liaison under subsection (a) may not exceed 30 days.

(e) DEFINITION.—In this section, the term "federally declared disaster area" means—

(1) an area covered by a Presidential declaration of major disaster, including a disaster caused by a wildfire, issued under section 301 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5170); or

(2) determined to be a disaster area, including a disaster caused by a wildfire, by the Secretary under subpart A of part 1945 of title 7, Code of Federal Regulations.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. GUTKNECHT) and the gentleman from Texas (Mr. STENHOLM) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3157, a bill to designate and deploy U.S. Department of Agriculture liaison teams to areas of the country declared disaster areas, was approved by the Committee on Agriculture on October 29 of this year.

The bill seeks to ensure prompt Federal assistance to agricultural producers in rural areas affected by natural disasters that have been declared by the President or the Secretary of Agriculture. The teams will coordinate the activities of USDA employees assisting agricultural producers within the disaster area. The teams will facilitate the making of claims and applications for economic assistance of affected producers and others as they deal with the agencies designated under the Robert T. Stafford Disaster Relief and Emergency Assistance Act.

During the business meeting to consider H.R. 3157, the committee considered and adopted as a substitute amendment four changes to the legislation as originally introduced by the gentleman from Missouri (Mr. BLUNT). These changes include directing the Secretary of Agriculture to use USDA Food and Agriculture Council as a point of contact for the liaison team, requiring the Secretary to make the deployment only when FEMA has been sent to the disaster area, providing that the team will conduct and conclude its business within 30 days of the deployment, and, finally, adding wildfire as a specific disaster under a secretarial disaster declaration.

The bill before the House this afternoon makes a minor amendment to the committee-reported bill by returning to the Secretary of Agriculture the full discretion to assign USDA employees to the liaison positions, instead of acting through the Department's Food and Agriculture Council.

As I am certain my colleagues can understand, natural disasters over large geographical areas often are followed by chaotic circumstances on the ground. Traditionally, USDA has had a significant role along with FEMA in assisting farmers, ranchers, and other rural residents; and this bill attempts to make those circumstances more orderly and more predictable for our rural constituents during a time when those residents and the communities in which they live need Federal help.

I hope the House will join with me in supporting this bill that seeks to improve Federal disaster assistance on our farms and in rural communities.

Mr. Speaker, I reserve the balance of my time.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3157 is a bipartisan piece of legislation that attempts to address the very serious issue of USDA program coordination and information dissemination during times of federally declared national disasters.

Currently, there is no statutory requirement that USDA make a representative available at the Emergency Operations Center following a catastrophic disaster. As a result, if a farmer or rancher suffers a loss due to a natural disaster, there is no USDA point of contact on site to answer questions or provide information about departmental relief programs. Such information is obviously critical, and this legislation simply ensures that farmers and ranchers will have access to an on-site USDA point of contact.

While expressing support for this bill, let me briefly address a bigger issue for farmers and ranchers that have been adversely affected by a disaster. The fact is there are only minimal standing disaster programs within USDA to help farmers and ranchers deal with the variety of losses that can occur as a result of a natural disaster. In effect, all that USDA on-site points of contact can do is to tell farmers and ranchers, Sorry, the United States Department of Agriculture cannot help you. In addition, farmers and ranchers do not qualify for Small Business Administration programs and, in point of fact, receive very little help from FEMA.

So again, while I support H.R. 3157, the bigger question is what can be done to provide farmers and ranchers with greater certainty in terms of permanent disaster programs so that they may have some hope of recovering from such disasters.

Mr. BLUNT. Mr. Speaker, I rise today to urge support for the Rural Disaster Liaison Bill (H.R. 3157).

This past May, my district saw devastating losses in the aftermath of a series of tornadoes.

Estimates indicate that our agriculture community in southwest Missouri lost an estimated $27 billion in damages.

On the ground at home following those tornadoes, I noticed that the U.S. Department of Agriculture (USDA) had no staff in the statewide disaster field office (DFO) where officials from FEMA and the Small Business Administration were helping individuals and business owners.

Because Disaster Act declarations make no arrangements for a USDA representative, a single voice from USDA was noticeably absent on the ground in Southwest Missouri during disaster response discussions in the days and weeks after those terrible tornadoes.

This legislation will bring greater coordination from the USDA's three major agencies—Natural Resources Conservation Service, the Farm Service Agency and Rural Development—by requiring that a liaison from USDA be a member of future Federal disaster response teams. This individual would be dispatched to a disaster to work side-by-side with representatives from the local Farm Service Agency (FSA) for 30 days to help find relief for those disaster victims. Once the 30 days are up, the liaison will return to his or her post in Washington, DC, and continue to work on behalf of the farmers and others who need the services that the USDA provides.

Mr. Speaker, I hope that a disaster response team is never necessary in any of the districts my colleagues represent. However, should disaster strike, let's make sure that our agriculture communities are represented and that they get the help they deserve in a prompt fashion.

I urge my colleagues to support the passage of H.R. 3157.

Mr. BACA. Mr. Speaker, I rise in support of H.R. 3157. I am proud to support this legislation that will help farmers recover from national disasters because I believe that far too often, farmers are not thought of during times of emergency.

Representative BLUNT has authored a good bill. I supported it in the House Agriculture Committee and I even introduced an amendment that would make sure that the people in my home State of California, who suffered from the recent wildfires, could be helped by this bill.

Too many Californians have no idea how they will get by without their orchards, olive groves, and other farming operations that burned to the ground.

This legislation will compel the Department of Agriculture to create disaster liaisons and dispatch them to disaster zones.

In California, we have suffered greatly from several wildfires that have caused great damage throughout the state.

In San Bernardino County, over 40,000 people were evacuated from their homes, and nearly 1,200 buildings burned to the ground.

Far too many people lost their homes, farms, and in some cases—their lives—to these wild fires.

This bill and my amendment are only a small step in the right direction. We must funnel Federal attention and resources to rebuild after these deadly wildfires and help prevent similar events in the future.

Mr. CARDOZA. Mr. Speaker, H.R. 3157 would require USDA to designate employees of the Department to serve as disaster liaisons to State and local emergency agencies in a federally declared disaster area. These liaisons would be responsible for coordinating interagency programs and assisting agricultural producers in the area to navigate through the bureaucracy of Federal Government support.

I want to thank Majority Whip BLUNT for taking the initiative to introduce this legislation on behalf of farmers and growers in the United States. I was more than happy to sign on as the lead cosponsor because of a situation faced by a handful of growers in my congressional district earlier this year.

During this past April, an unusual hailstorm descended upon Merced Country, ruining acres and acres of peach orchards. That event set off a chain of events involving numerous agencies within USDA, which in turn led to me and my staff to negotiate on their behalf with countless officials and administrators throughout USDA attempting to elicit some type of assistance from the Federal Government. It was a trying experience to say the least.

When a disaster happens now, multiple USDA agencies involved with numerous programs actively assess damage in a disaster area, while compiling information from hundreds of phone calls and by talking to numerous disaster victims. This information is then assembled and sent to representatives of the State. The farmer is left to fend for himself or herself with no point of contact for follow up.

Those situations are what Mr. BLUNT and I are trying to avoid with this legislation.

When enacted, H.R. 3157 will require USDA to recognize the importance of quick response time to agricultural disasters by deploying an experienced disaster specialist to an affected area. This official will facilitate such things as crop insurance claims processing and other applications for economic assistance as well as provide one legitimate source of information and comfort from the Federal Government.

My growers affected by the hailstorm were continually given conflicting information from different USDA employees. It is imperative that growers, especially the more skeptical growers in my home State of California, be able to receive clear and concise information on how to proceed after a Federal disaster as been declared in order to most efficiently proceed to the next crop year.

H.R. 3157 is the right thing to do for America's agricultural industry and I am proud to be a sponsor of this bill.

Again, I would like to thank Chairman GOODLATTE, Ranking Member STENHOLM, and Majority Whip BLUNT for recognizing the importance of the legislation. I urge an aye vote on this bill.

Ms. BORDALLO. Mr. Speaker, I rise today in support of H.R. 3157, which will direct the Secretary of Agriculture to designate employees of the Department of Agriculture to serve as liaisons between the federal agencies and state and local governments in the event of a federally declared disaster area.

As Delegate and long-term resident of Guam, I can attest to the debilitating state of confusion in the after math of a disaster. Just last year, individuals and businesses on Guam sustained millions of dollars in damage as result of the destruction wrought by two supertyphoons, Cha'at'an in May and Pongsona in December, 2002. While federal agencies worked quickly to implement disaster recovery plans for Guam, the central communications mechanism between GovGuam and the various agencies through FEMA and its designated liaisons was crucial to the typhoon recovery.

H.R. 3157 will create a consistent mechanism of communication between the federal government and state and local entities for agricultural issues in the event of a disaster. I strongly support passage of H.R. 3157 and encourage my colleagues to vote in favor of this important disaster legislation.

Mr. STENHOLM. Mr. Speaker, I yield back the balance of my time.

Mr. GUTKNECHT. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. GUTKNECHT) that the House suspend the rules and pass the bill, H.R. 3157, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GUTKNECHT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill, H.R. 3157, as amended.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

RESOLVING BOUNDARY CONFLICTS IN VICINITY OF MARK TWAIN NATIONAL FOREST IN BARRY AND STONE COUNTIES, MISSOURI

Mr. GUTKNECHT. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2304) to resolve boundary conflicts in the vicinity of the Mark Twain National Forest in Barry and Stone Counties, Missouri, that resulted from private landowner reliance on a subsequent Federal survey, and for other purposes, as amended.

The Clerk read as follows:

H.R. 2304

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. FINDINGS AND PURPOSE.

(a) FINDINGS.—Congress finds the following:

(1) Certain landowners in Barry and Stone Counties, Missouri, innocently and in good faith relied on subsequent land surveys, which they believed to be correct, and occupied, improved, or claimed portions of adjoining Federal lands based on such survey information.

(2) The appropriate Federal agencies should undertake actions to correctly reestablish the corners of the Public Land Survey System in Barry and Stone Counties, Missouri, and rectify boundary conflicts and landownership claims against Federal lands resulting from subsequent land surveys, and do so in a manner which imposes the least cost and inconvenience to affected private landowners.

(b) PURPOSES.—The purposes of this Act are—

(1) to resolve boundary conflicts in Barry and Stone Counties, Missouri, arising from subsequent land surveys; and

(2) to minimize costs and inconvenience to the affected private property owners in Barry and Stone Counties, Missouri.

SEC. 2. RESOLUTION OF BOUNDARY CONFLICTS, VICINITY OF MARK TWAIN NATIONAL FOREST, BARRY AND STONE COUNTIES, MISSOURI.

(a) DEFINITIONS.—In this section:

(1) The term "appropriate Secretary" means the Secretary of the Army or the Secretary of Agriculture.

(2) The term "boundary conflict" means the situation in which the private claim of ownership to certain lands, based on subsequent land surveys, overlaps or conflicts with Federal ownership of the same lands.

(3) The term "Federal land surveys" means any land survey made by any agency or department of the Federal Government using Federal employees, or by Federal contract with State-licensed private land surveyors or corporations and businesses licensed to provide professional land surveying services in the State of Missouri.

(4) The term "original land surveys" means the land surveys made by the United States General Land Office as part of the Public Land Survey System in the State of Missouri, and upon which Government land patents were issued conveying the land.

(5) The term "Public Land Survey System" means the rectangular system of original Government lands surveys made by the United States General Land Office and its successor, the Bureau of Land Management, under Federal laws providing for the survey of the public lands upon which the original land patents were issued.

(6) The term "qualifying claimant" means a private owner of real property in Barry or Stone County, Missouri, who has a boundary conflict as a result of good faith and innocent reliance on subsequent land surveys, and as a result of such reliance, has occupied, improved, or made ownership claims to Federal lands.

(7) The term "subsequent land surveys" mean any land surveys made after the original land surveys.

(b) NOTICE OF BOUNDARY CONFLICT.—

(1) SUBMISSION AND CONTENTS.—A qualifying claimant shall notify the appropriate Secretary in writing of a claim that a boundary conflict exists with Federal land administered by the appropriate Secretary. The notice shall be accompanied by the following information, which, except as provided in subsection (d)(2)(B), shall be provided without cost to the United States:

(A) A land survey plat and legal description of the affected Federal lands, which are based upon a land survey completed and certified by a Missouri State-licensed professional land surveyor, and done in conformity with the Public Land Survey System and in compliance with the applicable State and Federal land surveying laws.

(B) Information relating to the claim of ownership of the Federal lands, including supporting documentation showing the landowner relied on a subsequent land survey due to actions by the Federal Government in making or approving surveys for the Table Rock Reservoir.

(2) DEADLINE FOR SUBMISSION.—To obtain relief under this section, a qualifying claimant shall submit the notice required by paragraph (1) within 15 years after the date of the enactment of this Act.

(3) RESPONSIBILITIES OF CLAIMANTS.—The qualifying claimant shall have the responsibility for establishing that the qualifying claimant qualifies for the remedies provided in subsection (c).

(c) RESOLUTION AUTHORITIES.—The appropriate Secretary may take any of the following actions, or combination of actions, in order to resolve boundary conflicts with qualifying claimants involving lands under the administrative jurisdiction of the appropriate Secretary:

(1) Convey and quitclaim all right, title, and interest of the United States in land subject to a boundary conflict.

(2) Confirm Federal title to, and retain in Federal management, any land subject to a boundary conflict, if the appropriate Secretary determines there are Federal interests, including improvements, authorized uses, easements, hazardous materials, or historical and cultural resources, on the land that necessitates retention of the land.

(3) Compensate the qualifying claimant for the value of the overlapping property for which title is confirmed and retained in Federal management pursuant to paragraph (2).

(d) CONSIDERATION AND COST.—

(1) CONVEYANCE WITHOUT CONSIDERATION.—The conveyance of land under subsection (c)(1) shall be made without consideration if the appropriate Secretary determines that the boundary conflict was the result of the innocent detrimental reliance by the qualifying claimant on a subsequent land survey.

(2) COSTS.—The appropriate Secretary shall—

(A) pay administrative, personnel, and any other costs associated with the implementation of this section, including the costs of survey, marking, and monumenting property lines and corners; and

(B) reimburse the qualifying claimant for reasonable out-of-pocket survey costs necessary to establish a claim under this section.

(3) VALUATION.—Compensation paid to a qualifying claimant pursuant to subsection (c)(3) for land retained in Federal ownership pursuant to subsection (c)(2) shall be valued on the basis of the contributory value of the tract of land to the larger adjoining private parcel and not on the basis of the land being a separate tract. The appropriate Secretary shall not consider the value of any Federal improvements to the land.

(e) PREEXISTING CONDITIONS; RESERVATIONS; EXISTING RIGHTS AND USES.—

(1) PREEXISTING CONDITIONS.—The appropriate Secretary shall not compensate a qualifying claimant or any other person for any preexisting condition or reduction in value of any land subject to a boundary conflict because of any existing or outstanding permits, use authorizations, reservations, timber removal, or other land use or condition.

(2) EXISTING RESERVATIONS AND RIGHTS AND USES.—Any conveyance pursuant to subsection (c)(1) shall be subject to—

(A) reservations for existing public uses for roads, utilities, and facilities; and

(B) permits, rights-of-way, contracts and any other authorization to use the property.

(3) TREATMENT OF LAND SUBJECT TO SPECIAL USE AUTHORIZATION OR PERMIT.—For any land subject to a special use authorization or permit for access or utilities, the appropriate Secretary may convert, at the request of the holder, such authorization to a permanent easement prior to any conveyance pursuant to subsection (c)(1).

(4) FUTURE RESERVATIONS.—The appropriate Secretary may reserve rights for future public uses in a conveyance made pursuant to subsection (c)(1) if the qualifying claimant is compensated for the reservation in cash or in land of equal value.

(f) RELATION TO OTHER CONVEYANCE AUTHORITY.—Nothing in this section affects the Quiet Title Act (28 U.S.C. 2409a) or other applicable law, or affects the exchange and disposal authorities of the Secretary of Agriculture, including the Small Tracts Act (16 U.S.C. 521c), or the exchange and disposal authorities of the Secretary of the Army.

(g) ADDITIONAL TERMS AND CONDITIONS.—The appropriate Secretary may require such additional terms and conditions in connection with a conveyance under subsection (c)(1) as the Secretary considers appropriate to protect the interests of the United States.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. GUTKNECHT) and the gentleman from Texas (Mr. STENHOLM) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. GUTKNECHT).

☐ 1430

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill provides a mechanism for the Forest Service and the Army Corps of Engineers to resolve boundary conflicts between the Mark Twain National Forest and adjacent private landowners. The dispute over boundaries stems from recent surveys conducted by contractors to the U.S. Army Corps of Engineers, which have subsequently been found severely flawed by the State Surveyor for Missouri.

The measure sets a process for dealing with disputed boundaries. The landowner would notify the Secretary of Agriculture of a disputed boundary, prompting a new land survey. If the Secretary determines that the boundary conflict is the result of a reliance on a previous land survey, the land in dispute can be returned to the property owner.

It is important to note that the bill does not require the conveyance of any particular lands. Where a new survey shows that the lands in question were surveyed improperly, the Forest Service can either execute a quit claim deed, assert Federal ownership if the Federal Government has improved the land, or compensate the landowner for the land.

We made one minor change to the bill which requires that any liability for environmental hazards on the property, if any, be settled through an agreement between the landowner and the Federal Government. This change was requested by the Committee on Transportation and Infrastructure.

This is a case where the Federal Government has not exercised adequate due diligence in maintaining their land surveys to the detriment of their neighbors. Rather than redrawing map boundaries from Washington, we are creating a process where these folks can address their claims closer to home. The Committee on Agriculture regards this as an equitable solution to a local problem created by the Federal Government. I urge my colleagues to join me in support of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. STENHOLM. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 2304, legislation to resolve boundary conflicts in the vicinity of the Mark Twain National Forest in Barry and Stone Counties, Missouri, resulting from private landowner reliance on a subsequent Federal survey.

These boundary conflicts resulted from discrepancies between recent land surveys conducted by the U.S. Forest Service and its implementation of the Restoration of Original Corners Program, and decades-old surveys conducted by the Army Corps of Engineers. As a result of the more recent land surveys, private property lands adjoining Federal lands were moved, and private property landowners discovered that, due to their reliance on the older land surveys, they had inadvertently trespassed on Federal land.

Mr. Speaker, H.R. 2304 would remedy these boundary discrepancies by authorizing and directing the Secretary of Agriculture to convey title to U.S. Forest Service land on which private landowners can demonstrate that they inadvertently trespassed because of their reliance on a previous inaccurate Federal survey, or relied on a survey based on a previous inaccurate survey.

I urge my colleagues to support this legislation in order to resolve these boundary discrepancies.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. GUTKNECHT. Mr. Speaker, I yield myself such time as I may consume.

This is a commonsense solution at the local level to problems that the Federal Government has created. The Committee on Agriculture strongly supports this bill, and I hope that Members will join us in supporting this bill.

Mr. BLUNT. Mr. Speaker, I rise today to urge support for the speedy resolution of a boundary dispute affecting private property owners in my Congressional District.

Apparently, there are some local issues that apparently only an act of Congress can solve.

This issue surfaced when private property owners' historic boundary lines neighboring the Mark Twain National Forest and Table Rock Lake in Missouri's Barry and Stone Counties were blurred when the U.S. Forest Service restored the mid-1800s Corners program.

Over the years, the Forest Service has been effectively shaving off substantial sections of private property that adjoins federal lands. Recent land surveys have found major differences in surveys conducted by the Forest Service and the Army Corps of Engineers. My legislation would resolve these discrepancies, so private property owners don't lose property adjoining Federal lands.

A fight with the Federal Government over a boundary line can be an uphill battle. This bill will maintain the original property lines and hand the title of the disputed land to the private landowner.

The Federal Government already owns a third of the nation's land, and inaccuracies in federally conducted surveys should never force landowners to forfeit their property.

Mr. Speaker, I urge the House's approval of this common-sense bill.

Mr. GUTKNECHT. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PETRI). The question is on the motion offered by the gentleman from Minnesota (Mr. GUTKNECHT) that the House suspend the rules and pass the bill, H.R. 2304, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GUTKNECHT. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 2304, the bill just considered.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess for approximately 10 minutes.

Accordingly (at 2 o'clock and 34 minutes p.m.), the House stood in recess for approximately 10 minutes.

□ 1448

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. PETRI) at 2 o'clock and 48 minutes p.m.

GEORGE HENRY WHITE POST OFFICE BUILDING

Mr. DUNCAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3353) to designate the facility of the United States Postal Service located at 525 Main Street in Tarboro, North Carolina, as the "George Henry White Post Office Building".

The Clerk read as follows:

H.R. 3353

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. GEORGE HENRY WHITE POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 525 Main Street in Tarboro, North Carolina, shall be known and designated as the "George Henry White Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the George Henry White Post Office Building.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentleman from North Carolina (Mr. BALLANCE) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, on behalf of the Committee on Government Reform, I am pleased that the House is considering H.R. 3353. This bill names a post office after a great American statesman, George Henry White. From 1897 to 1901, Republican George Henry White served two terms as the U.S. Representative for North Carolina's Second Congressional District. At that time, he was the only African American Member of Congress. As such, not only was Congressman White responsible for his North Carolina constituents, but as the highest-ranking black government official in the Nation he also shouldered the burden of representing the 10 million African Americans at the turn of the century.

Congressman White took principled stands against the racial inequality that was far too prevalent for this time period in American history. His eloquence and temperance toward injustice made him a well-respected Member of Congress, and he is truly worthy of commendation by this body from which he departed more than 100 years ago.

Mr. Speaker, this legislation commemorates George Henry White's courageous legacy as the last black Member of this House following Reconstruction. I congratulate the gentleman from North Carolina (Mr. BALLANCE) for having his bill considered by the whole House.

Mr. Speaker, I urge passage of H.R. 3353.

Mr. Speaker, I reserve the balance of my time.

Mr. BALLANCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we gather this afternoon to honor a great man and leader who blazed trails for African Americans not only in North Carolina but throughout the Nation, Congressman George Henry White from my home State of North Carolina.

I want to express my appreciation for the strong bipartisan support from the North Carolina delegation and the sponsorship of this bill.

We are here today, Mr. Speaker, to show our appreciation for Congressman White by naming the post office after him in Tarboro, North Carolina, the town which he represented; and the County of Edgecombe, which he represented with distinction as a part of the second congressional district, I now have the great privilege of representing that same community, humbly following in his footsteps.

Mr. George Henry White was born in Rosendale, Bladen County, North Carolina, during slavery. He grew up the son of a sharecropper in nearby Columbus County. He was educated at the Whitten School in Lumberton. He first embarked on his trail of excellence when he left his job as a farm laborer and ventured here to the Nation's Capital to attend Howard University. Many people mistake him as being a graduate of Howard Law School, but actually he was a graduate of high school and Howard undergraduate school.

Upon graduation from Howard University in 1877, Mr. White returned to North Carolina settling in the coastal town of New Bern, to begin the fight to better his North Carolina for all families and helping empower the African American community.

He became a teacher and then a principal and is credited with establishing four new schools. Mr. White knew then what we all know now: information is power, and the key to steering one's own course is a quality education.

While living in New Bern, where he also worked as an attorney, having read law to become a lawyer, Mr. White embarked upon a career in public service spanning more than 2 decades when, in 1880, he was elected to the North Carolina House of Representatives.

In 1884 he was elected to the North Carolina State Senate. And in 1886 he was elected as a solicitor for the second judicial district of North Carolina where he served two terms. During this time, George Henry White was the only African American district attorney in the United States. Continuing a political career steeped in innovation and leadership, blazing trails unheard of in his day, in 1894 Mr. White moved to Tarboro. It might be interesting to know that the one reason he moved was because there was redistricting going on and his hometown of New Bern was carved out of the second district. So he just packed up and moved down to Tarboro, North Carolina, his wife's hometown.

Three years later, he would become Congressman White, and only the third African American elected to the U.S. House of Representatives from North Carolina, John Adams Hyman being the first, Henry P. Cheatham the second.

Congressman White was the only African American in the United States Congress during his two terms and was the highest-ranking elected African American in the United States. He essentially represented not only citizens of the second congressional district but all 10 million African Americans across the Nation. He was the last former slave and the last African American to serve in the Congress during the post-Reconstruction era.

He opened doors while in Congress to pave the way for the civil rights movement more than half a century later. He campaigned against racial discrimination and urged enforcement of the second section of the 14th amendment.

In January 1901, his last year in office, Congressman White proposed a bill that would make lynching of African Americans a Federal crime. Unfortunately, this bill did not pass; but it did have some impact in the Deep South in particular. Despite Congressman White's passionate plea, as I indicated, the term ended without his bill passing.

George Henry White's farewell speech on the floor of Congress, often referred to as the "Phoenix Speech," or his farewell speech, was made January 29, 1901: "This, Mr. Chairman, is perhaps the Negroes' temporary farewell to the American Congress; but let me say, Phoenix-like he will rise up some day and come again. These parting words on behalf of an outraged, heartbroken, bruised and bleeding, but God-fearing people, faithful, industrious, loyal, rising people full of potential force."

Mr. Speaker, while Congressman White is deserving of far greater accolades, and I am sure they will come in time, it is my great pleasure to offer this legislation on his behalf. I urge the passage of this bill.

Mr. Speaker, I yield back the balance of my time.

Mr. DUNCAN. Mr. Speaker, I commend the gentleman from North Carolina (Mr. BALLANCE) for introducing this very appropriate bill, and I urge all of our colleagues to support the passage of H.R. 3353.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 3353.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

JAMES E. DAVIS POST OFFICE BUILDING

Mr. DUNCAN. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1590) to redesignate the facility of the United States Postal Service, located at 315 Empire Boulevard in Crown Heights, Brooklyn, New York, as the "James E. Davis Post Office Building".

The Clerk read as follows:

S. 1590

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. JAMES E. DAVIS POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 315 Empire Boulevard in Crown Heights, Brooklyn, New York, shall be known as designated as the "James E. Davis Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the James E. Davis Post Office Building.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentleman from North Carolina (Mr. BALLANCE) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1590, a bill sponsored by Senator SCHUMER of New York, names a postal facility in Brooklyn, New York, as the James E. Davis Post Office Building. My distinguished colleague on the Committee on Government Reform, the gentleman from New York (Mr. TOWNS), authored the House version of this postal naming bill, H.R. 3012. I commend both the gentleman from New York (Mr. TOWNS) and Senator SCHUMER for their work on this meaningful effort.

Mr. Speaker, James E. Davis was a devoted public official who lived and worked in Brooklyn all of his life. The son of a corrections officer himself, Davis became an officer in the New York Police Department in 1983. After nearly 2 decades on the police force, he was elected to the New York City Council in November of 2001. In that capacity Davis was able to utilize his dynamic public speaking ability. He truly had a gift for connecting with audiences and delivering messages that advocated non-violence.

Mr. Speaker, defeating crime and eliminating violence in inner-city New York were lifelong missions for James E. Davis both as a law enforcement and elected official. This reality made July

23, 2003, an even more ironically tragic day for New Yorkers as well as all Americans. On that afternoon, James Davis had invited a political rival to City Hall to attend a council meeting. Just after 2 o'clock, Councilman Davis' guest brandished a handgun and inexplicably shot Davis twice in the chest. Mr. Davis sadly passed away at a nearby hospital later that afternoon.

Mr. Speaker, many of us saw the story of James E. Davis' tragic murder in New York City Hall on national newscasts last summer. I want to join with the gentleman from New York (Mr. TOWNS) and Senator SCHUMER in extending the sympathy of all Members of Congress to the family, friends, and supporters of James E. Davis. I am pleased that passage of this legislation will immortalize James E. Davis' contributions to his community and to the Nation.

Mr. Speaker, I urge passage of S. 1590.

Mr. Speaker, I reserve the balance of my time.

□ 1500

Mr. BALLANCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to stand at this time as the designee for the gentleman from Illinois (Mr. DAVIS) on behalf of this resolution. I am pleased to join my colleagues in consideration of S. 1590, legislation naming a postal facility after the late James E. Davis.

S. 1509, which was introduced by Senator SCHUMER on September 8, 2003, was unanimously adopted by the Committee on Government Reform on November 6, 2003. An identical bill, H.R. 3012, sponsored by the gentleman from New York (Mr. TOWNS) has the support and cosponsorship of the entire New York delegation.

Mr. James Davis was born in 1962 and graduated from Tilden High School in Brooklyn, New York in 1980. He obtained a degree from Pace University in 1989 and then joined the New York City Correctional Department. He became a police officer in 1991 and was assigned to the 73rd Precinct in Brooklyn. A youth officer, Mr. DAVIS served in the New York Police Department until he decided to enter the political arena in 1988 by running for assemblyman for the 43rd District. Although unsuccessful, he ran again and won office in November 2001, where he served as councilman for the 35th District.

Tragically, as we have just heard, Councilman Davis's life was cut short when he was gunned down in a violent shooting in the City Hall at the young age of 41.

Mr. Speaker, James Davis was a man of the community. He has dedicated his life to improving conditions in Brooklyn, New York, helping young people realize their dreams and stopping urban violence.

I commend my colleagues, the gentleman from New York (Mr. TOWNS) and Senator SCHUMER for seeking to honor the legacy of Councilmember James Davis and urge the adoption of this bill.

Mr. Speaker, I yield back the balance of my time.

Mr. DUNCAN. Mr. Speaker, I have no additional speakers. I urge passage of S. 1590, and I urge all of my colleagues to join in support of this very worthwhile and appropriate measure.

Mr. TOWNS. Mr. Speaker, as the lead sponsor of the House version of S. 1590, I am pleased that we are considering this legislation today. S. 1590 would rename the post office located at 315 Empire Boulevard in Crown Heights, Brooklyn, New York, as the "James E. Davis Post Office Building." I would also like to note that this bill has been cosponsored by the entire New York delegation, and I would like to thank my colleagues from New York for doing so.

On that tragic day when Councilman James Davis of Brooklyn was murdered in a violent shooting in City Hall, New York City, we lost a true public servant. He was an intelligent, passionate, and energetic young man who had an extremely bright future. He worked very hard and took his duties as a public servant very, very seriously. He was only 41 years old and had served almost one term in the New York City Council. But he had already made his mark.

I met James through the Youth March Against Violence that he organized. His commitment to this issue was genuine.

However, when I think of him, I remember one of the last conversations we had, which I think really embodies his approach to public service. We were meeting with housing authority officials, and he told them we weren't there to point fingers at every one. But if we didn't work together to get thing done, we would all take the blame. Sound advice that I think all public officials should take to heart.

With James, it was always about the community. He was dedicated to its betterment, having served as a police officer and district leader before being elected to the city council. One could always see the love he had for his neighbors and constituents. Naming a post office after him would be a lasting tribute to all of his hard work for the community that he loved so much. While we still have a heavy heart for losing such a good friend, the James E. Davis post office can help us celebrate his life. I think I can speak for all of Brooklyn when I say that the James E. Davis post office is something that we will all be proud of.

Mr. DUNCAN. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PETRI). The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the Senate bill, S. 1590.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

HUGH GREGG POST OFFICE BUILDING

Mr. DUNCAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3185) to designate the facility of the United States Postal Service located at 38 Spring Street in Nashua, New Hampshire, as the "Hugh Gregg Post Office Building".

The Clerk read as follows:

H.R. 3185

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. HUGH GREGG POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 38 Spring Street in Nashua, New Hampshire, shall be known and designated as the "Hugh Gregg Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the Hugh Gregg Post Office Building.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentleman from North Carolina (Mr. BALLANCE) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 3185.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, on behalf of the Committee on Government Reform, I am pleased to call up H.R. 3185 for consideration. This legislation introduced by my colleague, the gentleman from New Hampshire (Mr. BASS) designates the postal facility at 38 Spring Street in Nashua, New Hampshire, as the Hugh Gregg Post Office Building.

Hugh Gregg, a giant in New Hampshire politics for several decades, was elected Governor of the Granite State in 1953 at the age of 34. As a result, he was forevermore nicknamed the "Boy Governor." One of his most notable achievements was his work in organizing the first-in-the-Nation Presidential primary in New Hampshire. What began as little more than a beauty contest for candidates in 1952, his tireless work is a big reason the New Hampshire primary has evolved into such a critical date for modern Presidential candidates.

It is also important to note that Governor Gregg's son, Judd, went on to be elected Governor of New Hampshire in 1989, and he now serves as the State's senior United States Senator.

Mr. Speaker, America mourned on September 24th of this year, when Hugh Gregg passed away at age 85. He is survived by his wife, Catherine Warner Gregg, two sons, five grandchildren and one great-grandchild.

Mr. Speaker, I commend the gentleman from New Hampshire (Mr. BASS) for his work on H.R. 3185, and I strongly support its passage.

Mr. Speaker, I reserve the balance of my time.

Mr. BALLANCE. Mr. Speaker, I yield myself such time as I may consume.

I am honored and pleased to join my colleagues in consideration of H.R. 3185, legislation naming a postal facility after Hugh Gregg. H.R. 3185 which was introduced by the gentleman from New Hampshire (Mr. BASS) on September 25, 2003, was unanimously approved by the Committee on Government Reform on October 8, 2003.

H.R. 3185 has the support and cosponsorship of the entire New Hampshire Congressional delegation. Hugh Gregg, a former Republican Governor of New Hampshire from 1953 until 1955, was born in New Hampshire and became its youngest Governor at the age of 34. A graduate of Yale and Harvard Law School, he served as a Special Agent of the Counterintelligence Corps during World War II and the Korean Crisis.

A well-known businessman and community leader, Mr. Gregg passed away on September 24, 2003 at the age of 85. Hugh Gregg was remembered as a statesman and gentleman. His love for his State and country and dedication to public service was well known.

Mr. Speaker, I commend my colleagues for seeking to honor the late Hugh Gregg and urge swift adoption on H.R. 3185.

Mr. Speaker, I yield back the balance of my time.

Mr. DUNCAN. Mr. Speaker, I yield as much time as he may consume to the gentleman from New Hampshire (Mr. BASS), the author of the bill.

Mr. BASS. Mr. Speaker, I thank my friend, the gentleman from Tennessee (Mr. DUNCAN) for recognizing me and for making it possible along with my friend, the gentleman from North Carolina (Mr. BALLANCE) to have the opportunity to bring this bill to the floor.

As the gentleman said at the end of his speech just previously, Governor Hugh Gregg died on September 24th of this year after a brief illness, and brief it was, because just prior to that illness, the city of Nashua, which is the largest city in my district, celebrated its 150th anniversary. And guess who walked at the front of the line in a top hat and tuxedo with a cane but Hugh Gregg, the grand marshall of the parade. Governor Hugh Gregg celebrating the city that he loved and lived in his entire life.

Indeed, he served our country during World War II, not once, but twice. He served in the Korean War. He served on the Nashua City Council. He became its mayor, and he was elected Governor of the State of New Hampshire in his early thirties, the year I was born.

Hugh Gregg also took on big projects. He was not one to think about things pragmatically or think about things in any small way.

During my political career, he achieved two major accomplishments. First, he sought out to establish a museum of political history in New Hampshire. It is no secret that New Hampshire is the first part of the Nation's primary and always will be. Hugh Gregg wanted to make sure that the political history of the State, going back as far as anybody cared to, was properly recorded. And as time went on, candidates running for office would have a place to repose their memorabilia and great events and so forth. He published no less than three books on the subject of New Hampshire political history, the latest with our Secretary of State, Bill Gardner. Hugh Gregg is responsible for the establishment of this institution, which will live on in perpetuity.

The second big project he took on was an effort to try to prove that New Hampshire was the birthplace of the Republican party and not Ripon, Wisconsin, as it has been previously thought. No offense to our distinguished presiding officer here today, but he turned out to be right about that. He made extensive research and determined that the records of the party originated in Exeter, New Hampshire, and he established a society called the Amos Tuck Society.

Indeed, Mr. Speaker, Hugh Gregg was not only Governor, mayor of Nashua, father of U.S. Senator JUDD GREGG and Cy Gregg, long-time husband of Catherine Gregg, a great political crusader for many different causes, not all of which were necessarily associated with Republicans, but were really focussed on the good of the State of New Hampshire and the good of the lives of the people around him. The efforts he made on behalf of others, not only in the area of politics, but in charity through the Crotched Mountain Rehabilitation Center which is one of the Nation's leading centers for the treatment of those brain-injured and developmentally-disabled individuals established by his father but nurtured and expanded significantly by him.

He served on a number of different boards, serving on the board of the Fleet Bank, at that time Indian Head Bank. He was involved in businesses all over the place.

Hugh Gregg was a man of courage. He was a man that some might say was tactless on occasion. I know, as Governor of the State of New Hampshire, on a couple of occasions he was known to become frustrated with people he came in contact with, and he had a habit of taking scissors and snipping their ties off just to get their attention and, indeed, it did.

Hugh Gregg campaigned with me during one of my many campaigns in the Nashua Recycling Center. We were trying to meet people there, of course. He was in his early eighties or late seventies. He said, You go over there and work over there in recycling, where they bring in bottles and cans. That is a nice clean thing for you to do. I will go over and carry the garbage because nobody is going to tell a 75-year-old man that they do not like him for carrying their garbage over to the garbage area.

Hugh Gregg was the kind of man that was full of energy, full of enthusiasm and full of compassion and a commitment to the folks around him in the city of Nashua and the State of New Hampshire. He will be sorely missed by all of us. I think this is a wonderful opportunity to name the Nashua Post Office after this great American citizen.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, since the gentleman from New Hampshire (Mr. BASS) has brought up the founding of the Republican party and Mr. Gregg's interest in that, I would mention that I have the privilege of representing the only district in the United States that has had continuous Republican representation in the United States House of Representatives since the founding of the Republican party.

This legislation seems to be very fitting and proper to name this post office facility after Hugh Gregg who was a very great American, who saw the American dream come true in his life in several different ways. I urge passage of this bill.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 3185.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

COMMENDING INSPECTORS GENERAL FOR EFFORTS DURING PAST 25 YEARS

Mr. DUNCAN. Mr. Speaker, I move to suspend the rules and pass the Senate joint resolution (S.J. Res. 18) commending the Inspectors General for their efforts to prevent and detect waste, fraud, abuse, and mismanagement, and to promote economy, efficiency, and effectiveness in the Federal Government during the past 25 years.

The Clerk read as follows:

S.J. RES. 18

Whereas the Inspector General Act of 1978 (5 U.S.C. App.) was signed into law on October 12, 1978, with overwhelming bipartisan support;

Whereas Inspectors General now exist in the 29 largest executive branch agencies and in 28 other designated Federal entities;

Whereas Inspectors General work to serve the American taxpayer by promoting economy, efficiency, effectiveness, and integrity in the administration of the programs and operations of the Federal Government;

Whereas Inspectors General conduct audits and investigations to both prevent and detect waste, fraud, abuse, and mismanagement in the programs and operations of the Federal Government;

Whereas Inspectors General make Congress and agency heads aware, through semiannual reports and other communications, of problems and deficiencies in the administration of programs and operations of the Federal Government;

Whereas Congress and agency heads utilize the recommendations of Inspectors General in the development and implementation of policies that promote economy and efficiency in the administration of, or prevent and detect waste, fraud, abuse, and mismanagement in, the programs and operations of the Federal Government;

Whereas Federal employees and other dedicated citizens report information to Inspectors General regarding the possible existence of an activity constituting a violation of law, rules, or regulations, or mismanagement, gross waste of funds, abuse of authority, or a substantial and specific danger to public health and safety;

Whereas Inspector General audits and investigations result in annual recommendations for more effective spending of billions of taxpayer dollars, thousands of successful criminal prosecutions, hundreds of millions of dollars returned to the United States Treasury through investigative recoveries, and the suspension and debarment of thousands of individuals or entities from doing business with the Government; and

Whereas for 25 years the Inspectors General have worked with Congress to facilitate effective oversight to improve the programs and operations of the Federal Government: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled, That Congress—

(1) recognizes the many accomplishments of the Inspectors General in preventing and detecting waste, fraud, abuse, and mismanagement in the Federal Government;

(2) commends the Inspectors General and their employees for the dedication and professionalism displayed in the performance of their duties; and

(3) reaffirms the role of Inspectors General in promoting economy, efficiency, and effectiveness in the administration of the programs and operations of the Federal Government.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentleman from North Carolina (Mr. BALLANCE) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on S.J. Res. 18.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, Senate Joint Resolution 18 commends Inspectors General across the Federal Government for their contributions to taxpayers and overall government efficiency over the last 25 years.

This year marks the 25th anniversary of the Inspector General Act of 1978 that created the position of Inspector General in Federal agencies and departments. I had the honor of introducing the original legislation to name an Inspector General or create an Inspector General position for the Tennessee Valley Authority.

Today, Inspectors General exist in 57 executive branch agencies. Their work has eliminated waste in management at all levels of the Federal Government and saved countless taxpayer dollars.

Mr. Speaker, this body has already passed the House version of this resolution, so I will similarly urge all Members to support the adoption of Senate Joint Resolution 18.

Mr. Speaker, I reserve the balance of my time.

Mr. BALLANCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support Senate Joint Resolution 18 which recognizes Inspectors General for their efforts to prevent waste, fraud and abuse over the past 25 years. In fact, as has been just pointed out, the House passed H.J. Res. 70 by voice just a few days ago.

Twenty-five years ago the Inspector General Act of 1978 established, for the first time, IG's in 12 executive branch agencies. They proved so successful that today there are IG's in 59 Federal agencies. The Inspectors General report both to the agency head and to Congress and are one of Congress's principal watchdogs in the executive branch.

☐ 1515

IGs have a tough job. As independent investigators within Federal agencies, they are often the last person a manager wants to hear from.

The IGs returned over $4.5 billion to the Federal Government during fiscal year 2002 in restitutions and recoveries. IG audits also identified another $72 billion in funds that could be used more efficiently and effectively. They also had more than 10,000 successful criminal prosecutions.

The IGs make similar contributions year after year. They have more than proven their usefulness to Congress and the American people. I urge my colleagues to support this resolution commemorating their 25th anniversary.

Mr. Speaker, I yield back the balance of my time.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume to close by saying that many, many people have paid lip service to waste, fraud, and abuse within the Federal Government, but these Inspectors General and their staffs are on the front lines trying to do something about this to save taxpayers money and help make our Federal Government run more honestly and efficiently, so I urge passage of this legislation.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PETRI). The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the Senate joint resolution, S.J. Res. 18.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. DUNCAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

HONORING MR. SARGENT SHRIVER

Mr. DUNCAN. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 299) honoring Mr. Sargent Shriver for his dedication and service to the United States of America, for his service in the United States Navy, and for his lifetime of work as an ambassador for the poor and powerless citizens of the United States of America, and for other purposes.

The Clerk read as follows:

H. CON. RES. 299

Whereas from 1955 to 1960, Mr. Shriver served as president of the Chicago Board of Education;

Whereas Mr. Shriver earned the rank of Lieutenant Commander after 5 years of service in the United States Navy;

Whereas in 1960, Mr. Shriver began his career in public service by working as a political and organization coordinator for Senator John F. Kennedy in the Wisconsin and West Virginia Presidential primaries;

Whereas from 1961 to 1966, Mr. Shriver organized and directed the Peace Corps, developing volunteer activities in Africa, Asia, and Latin America;

Whereas from 1964 to 1968, as the first Director of the Office of Economic Opportunity during President Lyndon B. Johnson's administration, Mr. Shriver helped establish Head Start, VISTA, Community Action, Job Corps, Legal Services, Foster Grandparents, Indian and Migrant Opportunities, and Neighborhood Health Services;

Whereas in 1964, Mr. Shriver was appointed by President Johnson to serve as United States Ambassador to France;

Whereas in 1972, Mr. Shriver was selected by the Democratic party as the Vice Presidential candidate during Senator George McGovern's Presidential campaign against President Nixon;

Whereas in 1984, Mr. Shriver served as president of the Board of Directors of Special Olympics and was responsible for the operation and international development of sports programs around the world;

Whereas in 1990, Mr. Shriver was appointed chairman of the Board of Special Olympics;

Whereas in 2003, Mr. Shriver was appointed chairman of the Board Emeritus of Special Olympics and has held positions in many associations, including the American Council on Germany, the National Interreligious Task Force on Soviet Jewry, the Navy League, the Veterans of Foreign Wars, and the Knights of Columbus;

Whereas Mr. Shriver has been honored with numerous awards, including the Distinguished American Award from the John F. Kennedy Library and Foundation for his work with the Peace Corps and the Presidential Medal of Freedom, the United States' highest civilian honor; and

Whereas Mr. Shriver has been honored with more than 24 honorary degrees from universities around the world, including Yale University, Brandeis University, Boston College, Yeshiva University, the University of Liberia, and Chulalongkorn University in Bangkok, Thailand: Now, therefore, be it

Resolved by the House of Representatives (the Senate concurring), That Congress—

(1) honors Mr. Sargent Shriver for his dedication and service to the United States of America, for his service in the United States Navy, and for his lifetime of work acting as an ambassador for the poor and powerless citizens of the United States; and

(2) recognizes Mr. Sargent Shriver for his steadfast dedication and lifelong service to his country.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentleman from North Carolina (Mr. BALLANCE) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Con. Res. 299, the resolution now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, House Concurrent Resolution 299 honors Mr. Sargent Shriver for his dedication and service to the United States of America. In 1961, President John F. Kennedy appointed Sargent Shriver the first director of the United States Peace Corps, an organization that continues to help millions of people all over the globe today. Three years later, because of his success establishing the Peace Corps, Sargent Shriver was also named director of the Office of Economic Opportunity by President Lyndon Johnson. He ultimately resigned from the Peace Corps in 1966 to devote himself full time to the OEO. In 1968, he was selected as our Ambassador to France. Ambassador Shriver joined the national Presidential ticket in 1972, when he became George McGovern's Vice Presidential running mate in that year.

Mr. Speaker, Sargent Shriver lived a remarkable life committed to public service in the U.S. and around the world. I congratulate the gentleman from California for recognizing Mr. Sargent Shriver for his steadfast dedication and lifelong service to his country.

Mr. Speaker, I reserve the balance of my time.

Mr. BALLANCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, Sargent Shriver is a humanitarian, an advocate, a public servant, and a leader whose contributions to his country and his fellow man are immeasurable. Leading President Johnson's War on Poverty, Shriver ushered in many of the great society programs aimed at helping Americans better their lives. A list of programs Sargent Shriver started, defended, and expanded, and which remain in place today, are the Peace Corps, which in 1961 he helped organize and became its first director, Head Start, Job Corps, Legal Services, Upward Bound, Community Action, Foster Grandparents, and VISTA. Along with his wife Eunice, the founder of Special Olympics International, Sargent Shriver has nurtured the Special Olympics since 1968.

A man of stellar character and tireless energy, Shriver was raised on a farm in Westminster, Maryland. He worked his way through college, graduating from Yale University, cum laude, in 1938, and Yale Law School in 1941. Shriver served 5 years in the Navy during World War II ending his service as Lieutenant Commander.

Sargent Shriver worked to unite common concerns of the citizens of America and of the world. In 2001, during a speech at the 40th Anniversary of the Peace Corps Vigil at the Lincoln Memorial, Shriver stated: "Be servants of peace: work at home as you have worked abroad, humbly, persistently, intelligently. Weep with those who are sorrowful, care for those who are sick. Serve your wives, serve your husbands, serve your families, serve your neighbors, serve your citizens, serve your cities, serve the poor. Join others who serve. Serve, serve, serve. That's the end. That is the challenge. For in the end, it will be the servants who save us all."

Be servants of peace. This is an important directive not only for the Peace Corps, but for all of us who work to seek to make America and the world a better place, as Sargent Shriver has. We owe men and women like Sargent Shriver a debt of gratitude and this resolution serves to do that.

Mr. Speaker, I yield back the balance of my time.

Mr. DUNCAN. Mr. Speaker, I yield such time as he may consume to the gentleman from California (Mr. MCKEON).

Mr. MCKEON. Mr. Speaker, I thank the gentleman for yielding me this time.

Mr. Speaker, I rise today as the proud sponsor of House Concurrent Resolution 299, honoring the life and accomplishments of my friend Sargent Shriver. I have another good friend here today who I met on the Hill and have known for many years, David Bradley. Mr. Bradley worked for Sargent, considers him a mentor, and is the one that really got me interested in studying more about what Sargent Shriver has accomplished in this life. Just a short week after his 88th birthday, we honor this American Patriot for his accomplishments in life, for his compassion for humanity, for his philanthropy, for his generosity, and for his commitment to public service.

As children, we all have visions and dreams of one day being able to change the world, to make a real difference to mankind, to be remembered. But in reality, it is difficult to find a person who has actually done so. As an ambassador and advocate for the poor and powerless, as a man of strong conviction, faith, and devotion, as a man who genuinely loves his country and all that it stands for, it is safe to say that Sargent Shriver truly has made a difference in the world.

Born 88 years ago last Sunday, Sargent received both his undergraduate and law degrees from Yale University. He married his long-time sweetheart, Eunice Kennedy, and 50 years later, their love remains as strong as the day they met. His devotion to his wife and his five children, throughout his life, exemplify his character and represent the true American spirit.

His love for family is followed closely by his love of country. As an international lawyer and administrator, Sargent Shriver has compiled an unparalleled record of public service at every tier, from the local level to the world community. Sargent served as an attorney in the United States Navy during World War II and retired as a Lieutenant Commander after 5 years of service.

After ending his military career, Mr. Shriver worked briefly as an editorial assistant at Newsweek magazine. In 1955, he began a 5-year tenure as president of the Chicago Board of Education, a position that would teach him the sense of patriotism and community activism, which he would carry throughout his life.

In 1961, Mr. Shriver answered the call of duty again, this time by President John F. Kennedy. Sargent established and directed the newly-founded organization called the Peace Corps, and helped organize operations around the world, from Africa and Asia to Latin America. The Peace Corps would eventually come to the aid of foreign communities needing medical, educational and technical assistance, while giving millions of Americans the opportunity share our culture and values and democratic way of life to those less fortunate around the world.

After September 11, many Americans have been searching for their role in the war against terrorism, asking what can I do. President Bush has called on every citizen to devote a portion of their lives to service. Since September 2001, more than 3,000 potential Peace Corps volunteers have started applications and almost 7,000 men and women have contacted the Peace Corps to ask about volunteering. The Peace Corps estimates that there has been a 300 percent increase in volunteer interest. Sargent Shriver deserves the gratitude of every American for his contributions to this most noble of causes.

As the true patriot he is, Sargent's commitment to those in need did not stop there. He served as the first director of the Office of Economic Opportunity under President Johnson. Using his principles as his guiding light, Sargent played the American Dream a reality for millions of Americans across America. And, today, at the young age of 88, Sargent's mission of service continues. He was elected president of the Special Olympics in 1984 and was appointed Chairman of the Board Emeritus of Special Olympics earlier this year.

Martin Luther King said, "You ought to believe in something in life, and believe that thing so fervently that you will stand up for it until the end of your days." As a man of unflinching moral character, visionary leadership, and a compassion that sees no end, Sargent Shriver embodies the idealism that helped make the United States the world's cornerstone of freedom, opportunity, and democracy.

Mr. Shriver once said that the politics of life is personal initiative, creativity, experience, and grace. Mr. Speaker, Sargent Shriver exemplifies the American spirit which represents the very best in humanity. His life is a celebration of democracy. I am proud to have sponsored this resolution and encourage all Members to follow the example set by my friend, Sargent Shriver.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume to commend the gentleman from California for introducing this very worthwhile legislation, and I join him in commending Sargent Shriver on his career. He has led a life of public service that has set a great example for everyone in this Nation. He has tried to serve this Nation well.

Mr. MCGOVERN. Mr. Speaker, I am pleased to join my colleagues in honoring Sargent Shriver for his years of outstanding service to our country. As a lawyer, government administrator, ambassador, and passionate spokesman for the poor, Mr. Shriver has devoted his life to the most vulnerable among us.

Sargent Shriver is perhaps best known as the founder and first administrator of President John F. Kennedy's Peace Corps. In that position, Mr. Shriver organized Peace Corps operations in more than 50 countries in the developing world.

After founding the Peace Corps, Mr. Shriver dedicated himself to President Lyndon B. Johnson's Great Society. Within the Great Society, Mr. Shriver founded Head Start; he created the Job Corps; he organized Legal Services; and he created Volunteers in Service to America.

In time, Mr. Shriver's service to our country took on a diplomatic perspective when he went to Paris as our ambassador to France under both President Johnson and President Richard M. Nixon.

Upon his return from Paris, Mr. Shriver threw himself into Democratic politics. During the 1970 election, he traveled the country on behalf of Democratic House and Senate candidates. And then in 1972 he was the Democratic nominee for vice president joining the ticket with my good friend George McGovern. In 1976, Mr. Shriver ran in the Democratic presidential primaries.

Mr. Speaker, throughout the 1980s and 1990s, Mr. Shriver devoted himself to philanthropic causes. Among other things, he served on the Rockefeller University Council; he was elected president of the Special Olympics; he was later appointed Chairman of the Board of Special Olympics, Inc. Mr. Shriver went on to receive numerous awards and honorary degrees from colleges and universities.

Mr. Speaker, this summer I had the opportunity to see and talk with Sargent Shriver in Massachusetts. He shared with me his dreams of a peaceful world and his hopes for a brighter future. And he looks great.

Mr. Speaker, as we honor Mr. Shriver today, I believe it is important that we reflect on his life of service to our country and how we can learn from him. In a letter he composed about his fight with Alzheimer's disease, he wrote of the challenges we face as a country "to search for the pathways to peace . . . to overcome the horrors of poverty and neglect in this country and around the world. Indeed, Mr. Shriver's words should guide us each day.

Again, Mr. Speaker, I am pleased to join my colleagues in honoring Mr. Shriver for his decades of selfless service to our country and the world community.

Mr. HOYER. Mr. Speaker, in 5 days, we will observe the 40th anniversary of one of the darkest moments in American history—the assassination of our 35th President, John F. Kennedy.

President Kennedy stirred the imagination of our Nation and inspired a generation to "ask not what your country can do for you—ask what you can do for your country."

Today, Mr. Speaker, I join my colleagues in honoring a man who answered that clarion call to a life in public service; a man who quite literally was a pillar in President Kennedy's New Frontier; and a man who is one of the greatest public servants in the history of our Nation.

I, of course, am referring to Robert Sargent Shriver, Jr., who celebrated his 88th birthday one week ago.

Sargent Shriver's devotion to this nation—and humanity—sets an example for all to emulate and a high bar that only a few will ever hope to exceed.

A native of the State of Maryland, and in fact a member of one of the Free State's founding families, Sargent Shriver has dedicated his life to improving the lives of others.

A few years ago, Sarge was asked to explain his lifelong commitment to public service. "I just feel my faith," he said. "A life of service is like catching a disease. In a family it's passed on. . . . Our five children are all involved in service. It's in their veins."

There is no doubt that this generation and future generations of Americans are the beneficiaries of his life of service.

After graduating from Yale Law School in 1941, Sarge enlisted in the Navy, where he received the Navy Unit Citation and the Submarine Medal for service in both the Atlantic and Pacific.

After World War II, Sarge accepted a position as assistant editor with Newsweek magazine. He later went into business with Joseph Kennedy, President Kennedy's father, and met Eunice, his wife of more than 50 years.

Sarge then moved his family to Chicago, where he served on the Board of Education. In 1956, he was elected President of the Board, the youngest person to serve in such a position in any major American city.

And in 1960, he joined the Presidential campaign of then-Senator Kennedy. After the election, he was asked by President Kennedy to create the Peace Corps and in March 1961 was appointed its founding Director.

Sarge's vision for the Peace Corps was straight-forward and strong: "to permit Americans to participate directly, personally, and effectively in this struggle for human dignity."

In nearly 6 years at the Peace Corps, Sarge developed programs in 55 countries with more than 14,500 volunteers. Forty-two years later, the solid foundation that he created has only strengthened and expanded. Today, 163,000 Peace Corps volunteers have served in 135 countries.

However, while Sarge is rightly identified as the founding father of this great American idea, his contributions to the Peace Corps do not tell the whole story.

Sarge also served as the first Director of the Office of Economic Opportunity under President Johnson. Then, between 1964 and 1968, he created VISTA, Head Start, Community Action, Foster Grandparents, Job Corps, Legal Services, Indian and Migrant Opportunities and Neighborhood Health Services.

And, then, from 1968 to 1970, he served as U.S. Ambassador to France, before being nominated in 1372 to serve as the Vice Presidential candidate on the Democratic Party's ticket with George McGovern.

Few Americans have given so much to help so many. Yet, in the twilight of this incredible life, Sarge and Eunice continue to give.

To call this record of public service exemplary is a vast understatement. Words cannot adequately convey the decency and humanity that has been brought into the lives of millions worldwide through the work of Sargent Shriver—international lawyer, ambassador, humanitarian. His life's work shall live on long after this and succeeding generations have passed the torch of public service to their progeny.

"Serve, serve, serve," Sarge was know to say, "because in the end it is the servants who save us all."

Mr. Speaker, today, I honor a great American and wish him only the best, and I urge all my colleagues on both sides of the aisle to support this Resolution recognizing Sargent Shriver.

Mr. DUNCAN. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 299.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. DUNCAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

WALTER F. EHRNFELT, JR. POST OFFICE BUILDING

Mr. DUNCAN. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3300) to designate the facility of the United States Postal Service located at 15500 Pearl Road in Strongsville, Ohio, as the "Walter F. Ehrnfelt, Jr. Post Office Building."

The Clerk read as follows:

H.R. 3300

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. WALTER F. EHRNFELT, JR. POST OFFICE BUILDING.

(a) DESIGNATION.—The facility of the United States Postal Service located at 15500 Pearl Road in Strongsville, Ohio, shall be known and designated as the "Walter F. Ehrnfelt, Jr. Post Office Building".

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the facility referred to in subsection (a) shall be deemed to be a reference to the Walter F. Ehrnfelt, Jr. Post Office Building.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Tennessee (Mr. DUNCAN) and the gentleman from North Carolina (Mr. BALLANCE) each will control 20 minutes.

The Chair recognizes the gentleman from Tennessee (Mr. DUNCAN).

GENERAL LEAVE

Mr. DUNCAN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H.R. 3300, the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Tennessee?

There was no objection.

Mr. DUNCAN. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3300, introduced by another of my distinguished colleagues on the Committee on Government Reform, the gentleman from Ohio (Mr. LATOURETTE), designates the postal facility in Strongsville, Ohio, as the Walter F. Ehrnfelt, Jr. Post Office Building. All Members of the Ohio delegation have signed on as cosponsors to this legislation.

Walter Ehrnfelt served as Mayor of Strongsville, Ohio, for 25 years, and he was a civic and social institution in this northern Ohio community outside of Cleveland for even longer than that.

☐ 1530

He was reelected six times after first being appointed as mayor in 1978. The town of Strongsville nearly doubled its population during Mayor Ehrnfelt's tenure. Largely due to the mayor's efforts over the years, Strongsville boasts a fantastic school system, a productive industrial base, and many safe and wonderful neighborhoods.

Mr. Speaker, Mayor Ehrnfelt sadly passed away in office after suffering a heart attack on May 25 of this year. Naming this post office after Mayor Ehrnfelt in the city he governed and loved would be a small, but very deserved, tribute to his leadership. I urge all Members to support passage of H.R. 3300. I commend the gentleman from Ohio (Mr. LATOURETTE) for working to honor Mr. Walter Ehrnfelt.

Mr. Speaker, I reserve the balance of my time.

Mr. BALLANCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to join my colleagues in support of H.R. 3300, sponsored by the gentleman from Ohio (Mr. LATOURETTE).

Walter Ehrnfelt, Jr., was first elected mayor of Strongsville, Ohio, in 1978. He was elected for six 4-year terms until his death on May 25, 2003. He was a devoted family man, public servant, and businessman. He served the citizens of Strongsville in many capacities. He was a member of the Strongsville school board, and was later elected president of the board and served as county councilman prior to being elected mayor. In addition to holding positions in many civic organizations, he was an honorary trustee of the Strongsville Chamber of Commerce and a member of the Strongsville United Methodist Church.

I am honored to join my colleagues seeking to honor the many contributions of Walter Ehrnfelt, and I urge swift passage of H.R. 3300.

Mr. KUCINICH. Mr. Speaker, I feel honored today to support H.R. 3300, a bill to rename the United States Post Office in Strongsville, OH in tribute to the city's distinguished and dedicated former mayor and my friend, the late Walter F. Ehrnfelt. I would also like to extend special thanks to my colleague, Congressman LATOURETTE, for helping to bring his legislation to the floor, along with all of the Ohio delegation for co-sponsoring this bill.

Mayor Ehrnfelt's impact on the city of Strongsville will never be forgotten. After graduating from Strongsville High School, he began what would become a lifetime commitment to civic involvement. In 1973, while running Ehrnfelt Meats, a family business that operates still today, his neighbors convinced him to run for the Strongsville School Board, leading the fight against a campaign to dismiss teachers and ban books in the school district. He won that race, and in 1978 he was appointed mayor of Strongsville, later winning his first mayoral race in November 1979 by more than a 2 to 1 margin. Voters rewarded his effective leadership by re-electing him to six consecutive 4-year terms, the last beginning in 2000.

As mayor, Walter Ehrnfelt guided Strongsville through an unprecedented period of growth, evolving from a community of 22,000 to a thriving suburb of 45,000 residents. He served on Governor Taft's State and Local Government Commission and was president of the Ohio Municipal League. But most importantly, Mayor Ehrnfelt lived each day with the people of Strongsville close to his heart, truly living his life for the betterment of others.

I'm pleased we have the opportunity to honor Mayor Ehrnfelt for his service and spirit today. The people of Strongsville, the state of Ohio, and everyone who knew him will miss him greatly.

Mr. BALLANCE. Mr. Speaker, I yield back the balance of my time.

Mr. DUNCAN. Mr. Speaker, I urge support for this very fitting and proper legislation, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. PETRI). The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and pass the bill, H.R. 3300.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. DUNCAN. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

JOHN F. KENNEDY CENTER REAUTHORIZATION ACT OF 2003

Mr. PORTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3198) to amend the John F. Kennedy Center Act to authorize appropriations for the John F. Kennedy Center for the Performing Arts, and for other purposes.

The Clerk read as follows:

H.R. 3198

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "John F. Kennedy Center Reauthorization Act of 2003".

SEC. 2. AUTHORIZATIONS OF APPROPRIATIONS.

Section 13 of the John F. Kennedy Center Act (20 U.S.C. 76r) is amended by striking subsections (a) and (b) and inserting the following:

"(a) Maintenance, Repair, and Security.—There are authorized to be appropriated to the Board to carry out section 4(a)(1)(H)—

"(1) $17,000,000 for fiscal year 2004; and

"(2) $18,000,000 for each of fiscal years 2005 and 2006.

"(b) Capital Projects.—There are authorized to be appropriated to the Board to carry out subparagraphs (F) and (G) of section 4(a)(1)—

"(1) $16,000,000 for fiscal year 2004; and

"(2) $18,000,000 for each of fiscal years 2005 and 2006.".

SEC. 3. JOHN F. KENNEDY CENTER PLAZA.

(a) Responsibilities of the Secretary.—Section 12(b) of the John F. Kennedy Center Act (20 U.S.C. 76q–1(b)) is amended by adding at the end the following:

"(6) Project team.—

"(A) Establishment.—To further construction of the Project, the Secretary shall establish a Project Team.

"(B) Membership.—The Protect Team shall be composed of the following members:

"(i) The Secretary (or the Secretary's designee).

"(ii) The Administrator of General Services (or the Administrator's designee).

"(iii) The Chairman of the Board (or the Chairman's designee).

"(iv) Such other individuals as the Secretary considers appropriate.

"(C) Project director.—The Project Team shall have a Project Director who shall be appointed by the Secretary, in consultation with the Administrator of General Services and the Chairman of the Board. The Project Director shall report directly to the Project Team.".

(b) Responsibilities of the Board.—

(1) In general.—Section 12(c)(1) of such Act (20 U.S.C. 76q–1(c)(1)) is amended by inserting ", in consultation with the Project Team," after "The Board".

(2) Construction of buildings.—Section 12(c)(3) of such Act (20 U.S.C. 76q–1(c)(3)) is amended by inserting ", in consultation with the Project Team," after "The Board".

(3) Approval by project team.—Section 12(c) of such Act (20 U.S.C. 76q–1(c)) is amended by adding at the end the following:

"(5) Approval by project team.—Notwithstanding section 5(e), any decision by the Board that will significantly affect the scope, cost, schedule, or engineering feasibility of any element of the Project, other than buildings to be constructed on the Plaza, shall be subject to the approval of the Project Team.".

(c) GAO Review.—Section 12 of such Act (20 U.S.C. 76q–1) is amended by adding at the end the following:

"(g) GAO Review.—

"(1) In general.—Until completion of the Project, the Comptroller General shall review the management and oversight of construction of the Project by the Board and report periodically on the results of the review to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate.

"(2) Objectives.—In carrying out paragraph (1), the Comptroller General shall assess the progress made by the Board in achieving each of the following objectives:

"(A) Development and implementation of adequate policies and procedures to guide the planning and management of the Project.

"(B) Receipt of timely construction data on schedules and costs related to the Project.

"(C) Improvement of human capital resources and expertise in managing construction of the Project.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Nevada (Mr. PORTER) and the gentleman from New York (Mr. BISHOP) each will control 20 minutes.

The Chair recognizes the gentleman from Nevada (Mr. PORTER).

Mr. PORTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3198 reauthorizes the John F. Kennedy Center for the Performing Arts for 3 years, authorizing funding for its capital repair and maintenance, allows for the GAO review of ongoing construction projects, and creates a new mechanism to ensure effective project oversight.

This bill is the product of a thorough legislative process. The subcommittee held an oversight hearing that included the GAO and the Kennedy Center, reviewed their comprehensive building plan and capital program, and discussed options for improving upon their programs. This process resulted in the bipartisan legislation we are bringing to the floor this afternoon.

I would like to recognize and congratulate the subcommittee chairman, the gentleman from Ohio (Mr. LATOURETTE), and the ranking member, the gentlewoman from the District of Columbia (Ms. NORTON), as well as full committee chairman, the gentleman from Alaska (Mr. YOUNG), and the ranking member, the gentleman from Minnesota (Mr. OBERSTAR), for their hard work in developing this legislation.

Since its founding, the Kennedy Center has become one of the world's premier entertainment venues, featuring award-winning theater, opera, and symphony performances. The funds we are authorizing today will go solely towards the upkeep and maintenance of the facility, for such repairs as elevator upgrades, handicap accessibility, enhanced fire and life safety equipment, and improved security systems. These repairs are in line with a comprehensive building plan maintained by the Kennedy Center and created at the direction of Congress in 1994. This legislation also incorporates several provisions that ensure effective project oversight.

It is no secret that there are Federal construction projects that have gone beyond their original budget, beyond schedule, and well beyond their original scope. Oftentimes it is the lack of adequate project management and oversight that allow this type of growth. That was the finding of a GAO report requested by the Committee on Transportation and Infrastructure on the Kennedy Center's garage expansion project.

The provision in this bill, including the creation of a project team, the requirement of a project director, and enhanced oversight by the GAO, should prevent such problems as the Kennedy Center goes forward with the construction of a new plaza and two new buildings. However, this reauthorization does not include any money for the plaza project. All of the funding authorized in this bill will be used for the existing structure and its surroundings. By supporting the regular maintenance and upkeep of the Kennedy Center, we will ensure that the center will continue to be a world-class venue well into the future. I support this legislation and urge my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. BISHOP of New York. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to rise in support of H.R. 3198, a bill to authorize appropriations for the John F. Kennedy Center for the Performing Arts. Almost a decade ago, the Committee on Public Works, recognizing the inefficiency of years of divided responsibility for the operations, maintenance, and capital repairs of the Kennedy Center, passed H.R. 3567, which gave the board of trustees of the Kennedy Center centralized responsibilities for these matters.

In an effort to prevent continued deterioration of this landmark structure and Presidential memorial, the board asked for and received authority to maintain and improve the center. Former presidents Wolfensohn and Wilker, along with the current president, Michael Kaiser, continually worked to identify and put in place a capital improvement program to enhance the building. They believed it was of the utmost importance that the Kennedy Center management have the responsible and accountability for the building as well as its performing arts and education activities.

The Committee on Transportation and Infrastructure's interest then, as it is now, focuses on the use of appropriated funds for the capital improvement program and the repair and alteration of this Presidential memorial. To avoid the previous situation of unmet building needs and delayed repair, the center is now required to submit a 5-year capital plan to the committee. H.R. 3198 authorizes $53 million over 3 years for routine repair and alteration and $52 million for capital projects.

To address improved management for the plaza project, the bill authorizes the Secretary of Transportation, our former colleague, Norman Mineta, to establish a project team and appoint a project director. The president of the Kennedy Center and the administrator of General Services will serve on the team. The plaza project, when completed, will change the face of Washington in the West End. It is a monumental project that will not only enhance our Nation's Capital, but also provide safer and easier access to the center for patrons, visitors, and tourists. The center, under the leadership of Michael Kaiser, is working diligently to address general management of the facility as well as unmet personal needs. I support H.R. 3198 and urge its passage.

Mr. YOUNG of Alaska. Mr. Speaker, I rise today to offer my strong support for H.R. 3198, "The John F. Kennedy Center Reauthorization Act of 2003."

The Kennedy Center serves an important role in our Nation. Not only is it one of the most active theaters in the world, hosting millions of patrons each year to its seven stages, but is also one of the most recognizable theater buildings.

The legislation we are considering this afternoon, which I have offered with my colleagues Mr. OBERSTAR, Mr. LATOURETTE, and Ms. HOLMES-NORTON, reauthorizes the Capital Infrastructure program of the Kennedy Center for an additional three years. The bill also makes a number of important changes that will improve the management of large construction projects at the Kennedy Center.

This legislation will help ensure that the Kennedy Center continues to have a world class facility to house world class entertainment, which includes everything from classical opera to cutting edge films.

In addition to authorizing funds for maintenance, repair, and security as well as other capital projects, this legislation puts into place important tools for improved project management.

The legislation creates a project team for the plaza project. This team will include the secretary of transportation, administrator of general services, and chairman of the board of trustees of The Kennedy Center. This team will be responsible for overseeing all aspects of the plaza project through a project director, who reports to the project team and is appointed by the Secretary of Transportation.

The legislation also provides for ongoing review by the General Accounting Office of the plaza project until its completion, with periodic reporting to the Congress. The GAO will be looking at the personnel, policies and procedures used to carry out the project.

I support The Kennedy Center Reauthorization and encourage my colleagues to do the same.

Mr. BISHOP of New York. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. PORTER. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nevada (Mr. PORTER) that the House suspend the rules and pass the bill, H.R. 3198.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

CONVEYANCE TO FRESNO COUNTY, CALIFORNIA, OF EXISTING FEDERAL COURTHOUSE

Mr. PORTER. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1274) to direct the Administrator of General Services to convey to Fresno County, California, the existing Federal courthouse in that county, as amended.

The Clerk read as follows:

H.R. 1274

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

[SECTION 1. CONVEYANCE TO FRESNO COUNTY, CALIFORNIA.

[On completion of a new Federal courthouse in Fresno, California, the Administrator of General Services shall convey to Fresno County, California, without consideration, the existing Federal courthouse in that county.]

SECTION 1. CONVEYANCE OF B.F. SISK FEDERAL BUILDING AND UNITED STATES COURTHOUSE, CALIFORNIA.

(a) CONVEYANCE AUTHORIZED.—Notwithstanding any other provision of law, the Administrator of General Services may convey to Fresno County, California, for nominal consideration, all right, title, and interest of the United States in and to the building and site located at 1130 O Street in Fresno, California, known as the B.F. Sisk Federal Building and United States Courthouse.

(b) TIMING OF CONVEYANCE.—The Administrator may make the conveyance under subsection (a) only after the completion of construction of a new Federal courthouse in Fresno County and the relocation of the tenants in the building referred to in subsection (a) to the new Federal courthouse.

(c) RESTRICTIONS ON USE.—

(1) IN GENERAL.—The deed for the conveyance under subsection (a) shall include a covenant that provides that the property will be used for public use purposes, and specifically provides for substantial use of the property for the administration of justice.

(2) REVERSION.—If the Administrator determines that the property is not being used for the purposes described in paragraph (1), all right, title, and interest in and to the property shall revert to the United States, at the option of the United States.

(3) EXPIRATION.—The reversionary interest of the United States in the property under this subsection shall expire 20 years after the date of the conveyance.

(d) ADDITIONAL TERMS AND CONDITIONS.—The Administrator may require such additional terms and conditions in connection with the conveyance under subsection (a) as the Administrator considers appropriate to protect the interests of the United States.

(e) APPLICATION OF OTHER LAWS.—This section is not subject to the provisions of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11301 et seq.).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Nevada (Mr. PORTER) and the gentleman from New York (Mr. BISHOP) each will control 20 minutes.

The Chair recognizes the gentleman from Nevada (Mr. PORTER).

Mr. PORTER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1274, introduced by the gentleman from California (Mr. DOOLEY) and the gentleman from California (Mr. RADANOVICH), allows the administrator of General Services to convey the B.F. Sisk United States Courthouse located in Fresno, California, to Fresno County. This is a worthwhile endeavor, as the GSA is currently constructing a new Federal courthouse in Fresno, and this legislation will ensure that the people of Fresno County continue to receive a judicial benefit from the existing Federal courthouse.

This legislation also includes a number of provisions that will help protect the interests of the Federal Government. Among the provisions included in this legislation are the requirement that the courthouse be used for public purpose for at least 20 years, that the transfer not take place until the new courthouse is completed and occupied, and the conveyance may also include any additional provisions the administrator deems necessary to protect the interests of the government. I support this legislation and urge my colleagues to do the same.

Mr. Speaker, I reserve the balance of my time.

Mr. BISHOP of New York. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of H.R. 1274, as amended, a bill to convey a Federal courthouse in Fresno, California, to the County of Fresno. The bill transfers for a nominal fee an obsolete Federal building in Fresno, California, to the County of Fresno. The bill ensures that the transfer documents contain a reverter clause, as well as a public use clause, both of which protect Federal interests.

I would like to thank the chairman of the Subcommittee on Economic Development, Public Buildings and Emergency Management, the gentleman from Ohio (Mr. LATOURETTE), and ranking member, the gentlewoman from the District of Columbia (Ms. NORTON), for their work on this legislation and for recognizing that outmoded Federal buildings are still viable and can continue to serve a public purpose. I also commend the gentleman from California (Mr. DOOLEY) for introducing this bill, which is a win/win for all parties involved.

I support H.R. 1274 and urge its passage.

Mr. Speaker, I reserve the balance of my time.

Mr. PORTER. Mr. Speaker, I reserve the balance of my time.

Mr. BISHOP of New York. Mr. Speaker, I yield 2 minutes to the gentleman from California (Mr. DOOLEY).

Mr. DOOLEY of California. Mr. Speaker, I rise in support of H.R. 1274 as introduced by the gentleman from California (Mr. RADANOVICH) and me, and I want to thank the gentleman from Ohio (Mr. LATOURETTE) and the gentlewoman from the District of Columbia (Ms. NORTON) for their work in advancing this piece of legislation.

The Eastern District of California is very pleased that they have decided to build a new Federal courthouse in the city of Fresno. The entire community, as well as the surrounding areas, is very pleased with this investment into the construction of a new courthouse which will serve the needs of the entire Eastern District of California.

This legislation is also very important in that it will transfer the B.F. Sisk Building to the County of Fresno, with the appropriate stipulations that this legislation embodies, ensuring that it remains in public use for a considerable period of time. This also meets the needs of Fresno, it meets the needs of public service, and ensures that the taxpayers' interests are protected. I thank the committee members for advancing this legislation.

Mr. BISHOP of New York. Mr. Speaker, I yield back the balance of my time.

Mr. PORTER. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nevada (Mr. PORTER) that the House suspend the rules and pass the bill, H.R. 1274, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds of those present have voted in the affirmative.

Mr. PORTER. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

GENERAL LEAVE

Mr. PORTER. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 3198 and H.R. 1274, the measures just considered by the House.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nevada?

There was no objection.

□ 1545

CLARIFYING ACREAGE FOR IRRIGATION WATER UNDER MISSOURI RIVER BASIN PROJECT

Mr. OSBORNE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3209) to amend the Reclamation Project Authorization Act of 1972 to clarify the acreage for which the North Loup division is authorized to provide irrigation water under the Missouri River Basin project.

The Clerk read as follows:

H.R. 3209

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. CLARIFICATION OF ACREAGE FOR IRRIGATION WATER.

Section 501 of the Reclamation Project Authorization Act of 1972 (43 U.S.C. 615dddd) is amended by striking "fifty-three thousand acres" and inserting "approximately 53,000 acres".

The SPEAKER pro tempore (Mr. PETRI). Pursuant to the rule, the gentleman from Nebraska (Mr. OSBORNE) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. OSBORNE).

GENERAL LEAVE

Mr. OSBORNE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

Mr. OSBORNE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3209 is a bill I introduced to clarify the amount of acreage for which the North Loup Division is authorized under the Missouri River Basin Project. This bill provides for a technical correction by inserting the word "approximately" on the amount of acreage authorized under the project.

Under current law, irrigators must cite the specific amount of irrigated acreage served under the North Loup project. Conflicting Federal and State statutes for reporting irrigable service areas, conversion of irrigated ground to right-of-ways, land conservation programs and habitat easements are causing ever-changing and misunderstood adjustments to irrigated acreage. This bill allows for more flexibility in determining the amount of irrigated acreage.

This is not a new concept and would bring consistency to the act, as well as to contracts between the irrigation districts and the United States. I urge my colleagues to support this noncontroversial bill.

Mr. Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 3209 would make a minor change by requiring the North Loup Division of the Pick-Sloan Missouri Basin Program to deliver water to "approximately" 53,000 acres. Existing law, as was explained by my colleague, requires the project to deliver to exactly 53,000 acres. Yet, the project does not annually deliver water to precisely 53,000 acres.

The bill is not controversial. I urge Members to support this legislation.

Mr. Speaker, I yield back the balance of my time.

Mr. OSBORNE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nebraska (Mr. OSBORNE) that the House suspend the rules and pass the bill, H.R. 3209.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

AUTHORIZING PARTICIPATION IN WILLIAMSON COUNTY, TEXAS, WATER RECYCLING AND REUSE PROJECT

Mr. OSBORNE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1732) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to authorize the Secretary of the Interior to participate in the Williamson County, Texas, Water Recycling and Reuse Project, and for other purposes, as amended.

The Clerk read as follows:

H.R. 1732

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. PROJECT AUTHORIZATION.

(a) SHORT TITLE.—This section may be cited as the "Williamson County Water Recycling Act of 2003".

(b) IN GENERAL.—The Reclamation Wastewater and Groundwater Study and Facilities Act (Title XVI of Public Law 102–575; 43 U.S.C. 390h et seq.) is amended by inserting after section 1635 the following new section:

"SEC. 1636. WILLIAMSON COUNTY, TEXAS, WATER RECYCLING AND REUSE PROJECT.

"(a) AUTHORIZATION.—The Secretary, in cooperation with the Lower Colorado River Authority, Texas, is authorized to participate in the design, planning, and construction of permanent facilities to reclaim and reuse water in Williamson County, Texas.

"(b) COST SHARE.—The Federal share of the costs of the project described in subsection (a) shall not exceed 25 percent of the total cost.

"(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project described in subsection (a).".

(c) CLERICAL AMENDMENT.—The table of sections in section 2 of the Reclamation Projects Authorization and Adjustment Act of 1992 is amended by inserting after the item relating to section 1635 the following:

"Sec. 1636. Williamson County, Texas, Water Recycling and Reuse Project.".

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from

Nebraska (Mr. OSBORNE) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. OSBORNE).

GENERAL LEAVE

Mr. OSBORNE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

Mr. OSBORNE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1732, offered by the gentleman from Texas (Mr. CARTER) and the gentleman from Texas (Mr. EDWARDS), authorizes the Secretary of the Interior to participate in the design, planning and construction of facilities to reclaim and reuse water in Williamson County, Texas. Williamson County is one of the fastest growing counties in the State of Texas. The Texas Water Development Board has concluded that existing water wells are being overdrawn, and surface water supplies are not meeting current drinking water demands. This bill will allow the communities to stretch potable water resources by replacing drinking water with recycled water on parks, golf courses and school grounds.

This bill is a commonsense solution for communities that want to safeguard drinking water supplies for future generations. I urge my colleagues to support this bipartisan bill.

Mr. Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H.R. 1732. This bill provides the Secretary of the Interior with authority to help finance a water recycling project to serve residents of Williamson County, Texas. As my colleagues know, these water recycling projects are becoming not only increasingly popular but necessary with communities who need reliable and cost-effective ways to firm up their community clean water supplies. It is unfortunate, however, that this administration refuses to understand and fund the potential of these projects. We will continue to press the administration to support these projects.

H.R. 1732 is not controversial. I urge support for this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. OSBORNE. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. CARTER).

Mr. CARTER. I thank the gentleman for yielding me this time.

Mr. Speaker, I rise to strongly support H.R. 1732 which authorizes the Secretary of the Interior to participate in the Williamson County, Texas, water recycling and reuse project. I am proud to represent Williamson County, or most of it, and I have been living there for over 30 years. During this time, I have witnessed Williamson County become one of the fastest growing communities in the entire Nation and it has been consistently the fastest growing county for over a decade. I have observed the needs of this county because it has a limited supply of water. Today some would say that water has replaced oil as the commodity most important to the future of Texas. Unfortunately, current water supplies will simply not meet the growing needs of Williamson County and that community.

To meet this need, I introduced H.R. 1732 to allow the Lower Colorado River Authority, the Brazos River Authority and local communities to work with the Bureau of Reclamation to design, build and construct permanent facilities to reclaim and reuse water in Williamson County. This partnership will be an essential part of the county's water planning efforts.

In short, this legislation will ensure current and future sources of drinking water are made available for the residents of Williamson County. I am excited about this partnership and believe it is a great example of Federal and local agencies working together to make a positive difference.

Mr. Speaker, I would like to thank the gentleman from California (Mr. POMBO), the gentleman from California (Mr. CALVERT) and their staffs for their efforts in having this legislation brought to the floor in a timely manner. I would also like to thank the gentleman from Texas (Mr. EDWARDS), my neighbor to the north, for joining me in this effort. I urge my colleagues to support this legislation.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

I am very happy to hear the remarks of my colleagues. Water reuse, water recycling has been a very, very critical project and favorite subject of mine. Having been born and raised in Brownsville, Texas, I understand a lot of the Texas issues with the drought along the border that is creating havoc with farming and the economy thereof. I hope that we can continue to address and include funding to be able to expand not only to those areas that are in critical need but also those areas that can be used.

We have no new water in this world. It is all the same water that Mother Earth is recycling for us and we are helping recycle. We just trust that we can convince the administration of its need and begin doing it before we face very critical needs.

Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. EDWARDS), the coauthor of this bill.

Mr. EDWARDS. Mr. Speaker, I would first like to thank the gentlewoman from California for her leadership in this very, very important area. I also want to congratulate my colleague and neighbor in Williamson County (Mr. CARTER) for offering this important piece of legislation. Just as oil and gas was the economic engine for Texas in the 20th century, the availability of water will be the economic engine to Texas in the future in the 21st century.

As someone who represents part of Williamson County, the gentleman from Texas (Mr. CARTER) represents about 80 percent of that county, it is one of the largest, fastest-growing counties in the country. Water usage there is increasing dramatically. Yet our water supply is limited. I was very glad to cosponsor this bill with the gentleman from Texas (Mr. CARTER) and will look forward to working with him to try to see that we find the appropriations to fund this important piece of legislation.

Mrs. NAPOLITANO. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. OSBORNE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nebraska (Mr. OSBORNE) that the House suspend the rules and pass the bill, H.R. 1732, as amended.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

CORRECTING TECHNICAL ERROR FROM UNIT OF JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM

Mr. OSBORNE. Mr. Speaker, I move to suspend the rules and pass the Senate bill (S. 1066) to correct a technical error from Unit T–07 of the John H. Chafee Coastal Barrier Resources System.

The Clerk read as follows:

S. 1066

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. REPLACEMENT OF JOHN H. CHAFEE COASTAL BARRIER RESOURCES SYSTEM MAP.

(a) IN GENERAL.—The map described in subsection (b) is replaced by the map entitled "John H. Chafee Coastal Barrier Resources System Matagorda Peninsula Unit T07/T07P" and dated July 12, 2002.

(b) DESCRIPTION OF REPLACED MAP.—The map referred to in subsection (a) is the map relating to the John H. Chafee Coastal Barrier System unit designated as Coastal Barrier Resources System Matagorda Peninsula Unit T07/T07P that is subtitled "T07/T07P" and included in the set of maps entitled "Coastal Barrier Resources System" and referred to in section 4(a) of the Coastal Barrier Resources Act (16 U.S.C. 3503(a)).

(c) AVAILABILITY.—The Secretary of the Interior shall keep the replacement map referred to in subsection (a) on file and available for inspection in accordance with section 4(b) of the Coastal Barrier Resources Act (16 U.S.C. 3503(b)).

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Nebraska (Mr. OSBORNE) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. OSBORNE).

GENERAL LEAVE

Mr. OSBORNE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

Mr. OSBORNE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1066 introduced by Senator KAY BAILEY HUTCHISON will remove 19 acres of private property that has been mistakenly included within the Coastal Barrier Resources System. An identical bill, H.R. 154, has been proposed by the gentleman from Texas (Mr. PAUL). I compliment him for his leadership on behalf of this measure.

Specifically, the Matagorda dunes subdivision in Matagorda, Texas, was placed into the system despite the fact that a full complement of infrastructure, including roads and electricity, existed prior to 1977 and that it exceeded the number of structures per acre rule that is required for inclusion under the act.

For more than 20 years, these homeowners were told they were not within the system and therefore eligible for both Federal flood insurance and State wind insurance. These policies have now been canceled, and it is essential that this mistake be corrected so that their property can be protected from any future flooding problems. It is difficult, if not impossible, to sell coastal property or obtain a home mortgage without access to Federal flood insurance.

During the hearing before the Committee on Resources on this legislation, the administration expressed strong support and a local county judge testified, "A mistake was made 21 years ago that placed this little subdivision in CBRA. It does not matter who made the mistake, but now since the mistake has come to light, please help us fix it."

Finally, the House version of this bill was unanimously approved by the Committee on Resources. I urge my colleagues to support Senate 1066. I again compliment the gentleman from Texas (Mr. PAUL) for representing his constituents in such an effective way.

Mr. Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, S. 1066 is a noncontroversial piece of legislation that is identical to companion legislation, H.R. 154, passed and reported by the Committee on Resources earlier this year as was just addressed by my colleague.

By all evidence this technical correction appears to be genuine and needed to fix a legitimate error in the maps depicting the Matagorda subdivision in Unit T–07. For this reason and because this legislation would not undermine the policies of the Coastal Barrier Resources Act, Members should not oppose this legislation, and I recommend they vote for it.

Mr. PAUL. Mr. Speaker, I am pleased to support S. 1066, the Senate version of my H.R. 154, which I introduced on the first day of the 108th Congress. This legislation fixes a mistake in the official Fish and Wildlife Services' maps by removing a 19-acre area known as Matagorda Dunes, in Matagorda County, Texas, from the John H. Chafee Coastal Barrier Resources Act (COBRA). This change is fully supported by the Fish and Wildlife Service. In fact, a Fish and Wildlife Service created map, dated July 12, 2002, acknowledges the error.

This change will ensure property owners who had already begun developing this area are able to obtain insurance. Congress never intended to deny these landowners access to insurance. Matagorda Dunes was included in COBRA as a result of a drafting error when the COBRA maps were revised in the early eighties. Unless this mistake is fixed, the result could be catastrophic for these property owners who invested in developing Matagorda Dunes under the belief that the land was excluded from COBRA. A failure to fix this mistake could also be quite costly to the American taxpayers.

Fixing this mistake is also quite important to the people of Matagorda County, which is why a county official traveled to Washington to testify at a hearing on this bill in September. In conclusion, I thank Chairman POMBO and my colleague from Texas, Senator HUTCHISON, for their work on this issue and I urge my colleagues to support this important bill.

Mr. Speaker, I yield back the balance of my time.

Mr. OSBORNE. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Nebraska (Mr. OSBORNE) that the House suspend the rules and pass the Senate bill, S. 1066.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the Senate bill was passed.

A motion to reconsider was laid on the table.

CARPINTERIA AND MONTECITO WATER DISTRIBUTION SYSTEMS CONVEYANCE ACT OF 2003

Mr. OSBORNE. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1648) to authorize the Secretary of the Interior to convey certain water distribution systems of the Cachuma Project, California, to the Carpinteria Valley Water District and the Montecito Water District.

The Clerk read as follows:

H.R. 1648

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Carpinteria and Montecito Water Distribution Systems Conveyance Act of 2003".

SEC. 2. CONVEYANCE OF WATER DISTRIBUTION SYSTEMS OF THE CACHUMA PROJECT, CALIFORNIA.

(a) IN GENERAL.—The Secretary of the Interior—

(1) may convey to the Carpinteria Valley Water District, located in Santa Barbara County, California, all right, title, and interest of the United States in and to the Carpinteria Distribution System of the Cachuma Project, California, consistent with the terms and conditions set forth in the agreement entitled "Agreement Between the United States and the Carpinteria Valley Water District to Transfer Title to the Federally Owned Distribution System to the Carpinteria Valley Water District" (Agreement No. 00–XC–20–0364); and

(2) may convey to the Montecito Water District, located in Santa Barbara County, California, all right, title, and interest of the United States in and to the Montecito Water Distribution System of the Cachuma Project, California, consistent with the terms and conditions set forth in the agreement entitled "Agreement Between the United States and the Montecito Water District to Transfer Title to the Federally Owned Distribution System to the Montecito Water District" (Agreement No. 01–XC–20–0365).

(b) LIABILITY.—Effective upon the date of conveyance of a distribution system under this section, the United States shall not be held liable by any court for damages of any kind arising out of any act, omission, or occurrence relating to the distribution system, except for damages caused by acts of negligence committed by the United States or by its employees or agents prior to the date of conveyance. Nothing in this section increases the liability of the United States beyond that provided in chapter 171 of title 28, United States Code (popularly known as the Federal Tort Claims Act) on the date of the enactment of this Act.

(c) BENEFITS.—After conveyance of a water distribution system to the Carpinteria Valley Water District or the Montecito Water District under this section—

(1) such water distribution system shall not be considered to be a part of a Federal reclamation project; and

(2) such water district shall not be eligible to receive any benefits with respect to any facility comprising that distribution system, except benefits that would be available to a similarly situated person with respect to such a facility that is not part of a Federal reclamation project.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from

Nebraska (Mr. OSBORNE) and the gentlewoman from California (Mrs. NAPOLITANO) each will control 20 minutes.

The Chair recognizes the gentleman from Nebraska (Mr. OSBORNE).

GENERAL LEAVE

Mr. OSBORNE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on the bill under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nebraska?

There was no objection.

□ 1600

Mr. OSBORNE. Mr. Speaker, I yield myself such time as I may consume.

This bill authorizes the Secretary of the Interior to transfer specific water distribution systems of the Cachuma Project of the Carpinteria Valley Water District and the Montecito Water District in Santa Barbara County, California.

While this transfer would only apply to land and facilities and would not affect the repayment obligations of the Federal Government, it will help simplify the operation and maintenance of the districts' water delivery systems and eliminate unnecessary paperwork. Both districts have worked through all Federal requirements and need only to complete the process with an act of Congress.

Transfers such as those included in this bill help shrink the size and budget of Federal Government and help our communities manage our water resources in a more efficient manner. I urge my colleagues to support this consensus bill.

Mr. Speaker, I reserve the balance of my time.

Mrs. NAPOLITANO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 1648 simply authorizes the transfer of certain features of the Bureau of Reclamation's Cachuma Project near Santa Barbara, California, to the local water districts. Allowing the local districts to take over parts of the project will help simplify the operation and maintenance of the districts' water distribution systems. I would like very much to commend the gentlewoman from California (Mrs. CAPPS), my Democratic colleague and sponsor of this bill, who is unable to be on the floor at this moment, for her efforts to get this very important bill passed.

Mr. Speaker, H.R. 1648 is not controversial, and I urge my colleagues to support this bill.

Mrs. CAPPS. Mr. Speaker, I rise in strong support of H.R. 1648, the Carpinteria and Montecito Water Distribution Systems Conveyance Act of 2003—a bill I introduced that would authorize the title transfer of federally owned water distribution systems in my congressional district.

I want to commend my colleagues from California, the chairman of the Resources Committee, Mr. POMBO, the chairman and ranking member of the Subcommittee on Water and Power, Mr. CALVERT and Mrs. NAPOLITANO, as well as the ranking member of the full Committee, Mr. RAHALL for expediting the consideration of this legislation in their respective committees and for bringing H.R. 1648 before us today.

This legislation will authorize the title transfer of two federally owned water distribution systems from the Bureau of Reclamation to the Carpinteria Valley Water District and Montecito Water District, as requested by the two Santa Barbara area Districts.

The purpose of the legislation is to simplify the operation and maintenance of the Districts' water distribution systems and eliminate unnecessary paperwork and consultation between the Districts and the Bureau of Reclamation.

The Carpinteria Valley Water District and Montecito Water District, which have operated and maintained the facilities proposed for transfer since 1956 and 1995, respectively. The Districts have worked through all requirements of the Bureau of Reclamation's title transfer process including public meetings, fulfillment of their repayment obligations, completion of an environmental assessment, which resulted in a finding of no significant impact (FONSI), and compliance with all other applicable laws. The only step remaining to complete the process is an act of Congress enabling the Secretary of the Interior to transfer title.

The proposed transfer would apply only to lands and facilities associated with these facilities and would not affect the Districts' existing water service contract with the Santa Barbara County Water Agency nor the Federal government receipts from water deliveries under the contract. In addition, the proposed transfer does not envision any new physical modification or expansion of the service infrastructure.

Mr. Speaker, the proposed transfer of ownership would include the following facilities:

Carpinteria: The distribution system consisting of 36 miles of pipeline and laterals; Gobernador Reservoir; Shephard Mesa Tank; Lateral 10L, Carpinteria and Shephard Mesa pumping plants; several pressure regulating vaults located throughout the system; fences and structures; and rights-of-way, easements, leases and other property permitting access to the Federal system.

Montecito: 9.5 miles of pipelines and laterals; the Asegra Pumping Plant (a deactivated pumping plant connected to a portion of lateral 3 located on Asegra Road); Ortega Ridge Pumping plant located on Ortega Ridge Road; pressure regulating vaults, fences and structures appurtenant to the distribution system; and rights-of-way, easements, leases, and other property permitting access to the Federal system.

Again, I would like to thank the Committee on Resources for supporting this bill, and urge its immediate passage.

Mrs. NAPOLITANO. Mr. Speaker, I yield back the balance of my time.

Mr. OSBORNE. Mr. Speaker, I commend the gentlewoman from California for her assistance through this process.

I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. CULBERSON). The question is on the motion offered by the gentleman from Nebraska (Mr. OSBORNE) that the House suspend the rules and pass the bill, H.R. 1648.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the bill was passed.

A motion to reconsider was laid on the table.

HONORING THE 101ST AIRBORNE AT FORT CAMPBELL

(Mrs. BLACKBURN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BLACKBURN. Mr. Speaker, today I rise to talk a little bit about the 101st Airborne at Fort Campbell, which is in Clarksville, Tennessee, and in my district. And I have visited with General Petreaus, commander of the 101st, and members of this elite group of American soldiers in Mosul where they are working to stabilize Iraq. Their work in Iraq is absolutely astounding. What they have accomplished is astounding, and it is a testament to their training, to their dedication, and to their love of liberty.

For the past 2 weeks the activity has absolutely broken our hearts. We have lost some of our Nation's finest, and Fort Campbell has lost some loved ones. And to the family, the friends, and their colleagues, we offer our thoughts and our prayers. And we want them to know that America is grateful not only for their service but certainly grateful for their sacrifice.

Throughout the history of the 101st, this country has relied on these brave soldiers, these brave defenders of freedom, to keep us free; and today is no different. We ask that God bless America, that He bless our Fort Campbell families and our fallen heroes.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12(a) of rule I, the Chair declares the House in recess until approximately 6:30 p.m.

Accordingly (at 4 o'clock and 4 minutes p.m.), the House stood in recess until approximately 6:30 p.m.

□ 1900

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. DUNCAN) at 7 p.m.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

S.J. Res. 22, by the yeas and nays;

S.J. Res. 18, by the yeas and nays;

H. Con. Res. 299, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. The remaining votes in this series will be conducted as 5-minute votes.

RECOGNIZING AGRICULTURAL RESEARCH SERVICE FOR 50 YEARS OF OUTSTANDING SERVICE

The SPEAKER pro tempore. The pending business is the question of suspending the rules and pass the Senate joint resolution, S.J. Res. 22.

The Clerk read the title of the Senate joint resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Minnesota (Mr. GUTKNECHT) that the House suspend the rules and pass the Senate joint resolution, S.J. Res. 22, on which the yeas and nays are ordered.

The vote was taken by electronic device, and there were—yeas 332, nays 0, not voting 102, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1931

So (two-thirds having voted in favor thereof) the rules were suspended and the Senate joint resolution was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mrs. BONO. Mr. Speaker, on November 17, 2003, had I been present, I would have voted "yes" on S.J. Res. 18 and S.J. Res. 22.

HONORING MR. SARGENT SHRIVER

The SPEAKER pro tempore (Mr. DUNCAN). The pending business is the question of suspending the rules and agreeing to the concurrent resolution, H. Con. Res. 299.

The Clerk read the title of the concurrent resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Tennessee (Mr. DUNCAN) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 299, on which the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 325, nays 3, not voting 106, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). Members are advised 2 minutes remain in this vote.

☐ 1938

So (two-thirds having voted in favor thereof) the rules were suspended and the concurrent resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. COLLINS. Mr. Speaker, I was unavoidably detained and not present on rollcall vote 620, recognizing the Agricultural Research of the Department of Agriculture (S.J. Res. 22); rollcall vote 621, commending the Inspectors General (S.J. Res. 18); and rollcall vote 622, honoring Mr. Sargent Shriver (H. Con. Res. 299). Had I been present, I would have voted "yea" for rollcall votes 620, 621, 622.

PERSONAL EXPLANATION

Mr. OXLEY. Mr. Speaker, I was returning from an official delegation trip to Iraq on Monday evening, and was absent from the House floor during the rollcall votes on S.J. Res. 22, recognizing the Agricultural Research Service, S.J. Res. 18, commending the service of Inspectors General; and H. Con. Res. 299, honoring Sargent Shriver. Had I been present, I would have voted "aye" on each of these resolutions.

HOUR OF MEETING ON TUESDAY, NOVEMBER 18, 2003

Mr. LINDER. Mr. Speaker, I move that when the House adjourns today, it adjourn to meet at 10 a.m. tomorrow for morning hour debates.

The SPEAKER pro tempore. The motion is not debatable.

The question is on the motion offered by the gentleman from Georgia (Mr. LINDER).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Ms. DEGETTE. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 296, noes 25, not voting 113, as follows:

[Roll No. 623]

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. NEUGEBAUER) (during the vote). Members are advised that 2 minutes remain in this vote.

□ 1954

So the motion was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. EMANUEL. Mr. Speaker, due to a previously scheduled commitment, I missed rollcall votes 620 through 623 on Monday, November 17. Had I been present, I would have voted "yes" on each measure.

ANNOUNCEMENT OF INTENTION TO OFFER MOTION TO INSTRUCT CONFEREES ON H.R. 1, MEDICARE PRESCRIPTION DRUG AND MODERNIZATION ACT OF 2003

Ms. BERKLEY. Mr. Speaker, under rule XXII, clause 7(c), I hereby announce my intention to offer a motion to instruct on H.R. 1, the prescription drug bill.

The form of the motion is as follows:

I move that the managers on the part of the House at the conference on the disagreeing votes of the two Houses on the Senate amendment to the bill, H.R. 1, be instructed as follows:

(1) To reject the provisions of subtitle C of title II of the House bill.

(2) To reject the provisions of section 231 of the Senate amendment.

(3) Within the scope of conference, to increase payments for physician services by an amount equal to the amount of savings attributable to the rejection of the aforementioned provisions.

(4) To insist upon section 601 of the House bill.

ANNOUNCEMENT OF INTENTION TO OFFER MOTION TO INSTRUCT CONFEREES ON H.R. 2660, DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2004

Mr. KENNEDY of Rhode Island. Mr. Speaker, pursuant to clause 7(c) of House rule XXII, I hereby notify the House of my intention tomorrow to offer the following motion to instruct House conferees on H.R. 2660, the fiscal year 2004 Labor, Health and Human Services, Education and Related Agencies Appropriations Act.

The form of the motion is as follows:

I move that the managers on the part of the House at the conference on the disagreeing votes of the two Houses on the bill, H.R. 2660, be instructed to insist on the highest funding levels possible for nutrition programs for our Nation's seniors authorized by the Older Americans Act.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on additional motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote is objected to under clause 6 of rule XX.

Record votes on postponed questions will be taken tomorrow.

CONGRATULATING JOHN GAGLIARDI ON OCCASION OF HIS BECOMING ALL-TIME WINNINGEST COACH IN COLLEGIATE FOOTBALL HISTORY

Mr. KLINE. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 438) congratulating John Gagliardi, football coach of St. John's University, on the occasion of his becoming the all-time winningest coach in collegiate football history.

The Clerk read as follows:

H. Res. 438

Whereas John Gagliardi began his coaching career in 1943 at the age of 16 when his high school football coach was drafted and John Gagliardi asked to take over his position;

Whereas John Gagliardi won four conference titles during the six years he coached high school football;

Whereas John Gagliardi graduated from Colorado College in 1949 and began coaching football, basketball, and baseball at Carroll College in Helena, Montana, winning titles in all three sports;

Whereas John Gagliardi took over the football program at St. John's University in Collegeville, Minnesota, in 1953 and the football team won the Minnesota Intercollegiate Athletic Conference title in his first year as coach;

Whereas by the end of the 2002 season, John Gagliardi had won three national championships, coached 25 conference title teams, appeared in 45 post-season games and compiled a 400–114–11 record during his 50 years at St. John's University;

Whereas under the leadership of John Gagliardi, St. John's University has been nationally ranked 37 times in the past 39 years, and the university set a record with a 61.5 points per game average in 1993;

Whereas over 150 students participate in the St. John's University football program each year and every player dresses for home games;

Whereas John Gagliardi's coaching methods follow the "Winning with No's" theory: no blocking sleds or dummies, no whistles, no tackling in practices, no athletic scholarships, and no long practices;

Whereas John Gagliardi has coached over 5,000 players during his 50 years at St. John's University, and no player has failed to graduate and most have graduated in four years;

Whereas, in 1993, the John Gagliardi trophy was unveiled, and it is given each year to the most outstanding Division III football player;

Whereas on November 1, 2003, John Gagliardi tied Grambling University coach Eddie Robinson's record of 408 wins with a 15 to 12 victory over the University of St. Thomas;

Whereas on November 8, 2003, John Gagliardi broke Eddie Robinson's record with a 29 to 26 victory over Bethel College;

Whereas John Gagliardi is admired by his players, as well as by the students, faculty, and fans of St. John's University for his ability to motivate and inspire;

Whereas students who take his course, Theory of Football, credit John Gagliardi for teaching them more about life than about football;

Whereas those closest to John Gagliardi will tell you that football is only part of his life—he values the time he spends with Peg, his wife of 47 years, and their four children; and

Whereas the on- and off-the-field accomplishments of John Gagliardi have placed him in an elite club that includes the best coaches in history: Now, therefore, be it

Resolved, That the House of Representatives congratulates John Gagliardi, football coach of St. John's University in Collegeville, Minnesota, on becoming the all-time winningest coach in collegiate football history.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. KLINE) and the gentlewoman from California (Ms. WOOLSEY) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. KLINE).

GENERAL LEAVE

Mr. KLINE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks on H. Res. 438.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. KLINE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of House Resolution 438. I would like to thank my colleague, the gentleman from Minnesota (Mr. KENNEDY), for bringing this resolution forward. Mr. Speaker, this resolution recognizes the achievement of Coach John Gagliardi of St. John's University for becoming the all-time winningest coach in collegiate football history.

Coach Gagliardi—John to his players, colleagues and friends—has long been a force in college athletics and in life. In his 51 years at St. Johns, John has found great success on the field, leading St. John's to 23 conference titles and the winningest record in Division III history.

His performance as a coach is impressive, but it tells only one side of the story of this great man. John has invested in thousands of lives over his career in the coaching business. The success earned by the St. John's team reflects the dedication he inspires in each player. John's investment in these young lives is, to him, the most important contribution he can make, and to them the most important reward they will receive.

I extend my congratulations to Coach John Gagliardi on this important day for him and for the St. John's community. I am happy to join my colleagues in honoring a great man and wishing him continued success.

I ask my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. WOOLSEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H. Res. 438. This resolution honors John Gagliardi, the football coach at St. Johns University. Coach Gagliardi is the winningest coach in college football history. This month he overtook the legendary Eddie Robinson by winning the 409th football game of his career. This record puts Coach Gagliardi at the very top of his profession. It should come as no surprise that the students, the student athletes, the faculty and fans of St. John's University greatly admire Coach Gagliardi. Fortunately, we are not only honoring Coach Gagliardi for his winning ways but also his commitment to his school, his team and, most importantly, his players and their education.

Coach Gagliardi has coached over 5,000 players during his 50 years at St. John's. Over that time, none of his players have failed to graduate and most have graduated within 4 years.

□ 2000

This is an amazing feat in today's world of college athletes. Coach Gagliardi more than deserves the honor we are bestowing on him today. Mr. Speaker, I urge all Members of the House to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. KLINE. Mr. Speaker, I yield 10 minutes to the gentleman from Minnesota (Mr. KENNEDY).

Mr. KENNEDY of Minnesota. Mr. Speaker, I thank the gentleman for yielding me this time, and I rise today to honor St. John's University's Coach John Gagliardi for becoming the winningest college football coach ever. After beating archrival St. Thomas to tie Eddie Robinson's record of 408 wins at Grambling, Coach Gagliardi's Johnnies set a new record by defeating nationally ranked Bethel in a hard-fought game before over 13,000 fans in the natural bowl of Clemens Stadium. That is quite a crowd, since the stadium only seats 5,500.

As a graduate of St. John's, I was honored to be able to join John at the White House today where the President rightly praised both his achievement and his character. Both St. John's University and Coach John Gagliardi are quite special; and as one might expect from a relationship stretching over half a century, they are special for many of the same reasons. Indeed, the similarities begin with both the university and the coach being named ultimately after St. John.

St. John's, with 1,900 male students, is one of the oldest universities in the State of Minnesota, having been founded by Benedictine monks in 1856. It sits on a beautiful campus of 2,400 acres with four lakes on campus. Their sister school, St. Benedict's, with 2,000 students, was founded by Benedictine nuns in 1913.

The Benedictines live according to the Rule of St. Benedict with an emphasis on faithfulness, community, study, work, prayer, and humility. They have infused these values into the culture of St. John's and St. Ben's as well. Community is important to Johnnie and Bennie alumni, who are among the most loyal anywhere.

Coach Gagliardi has personified these values. After coaching 4 years at Carroll College in Helena, Montana, John has coached at St. John's for the last 51 seasons. That record of faithfulness has been matched with 47 years of marriage to the partner of his life, his wife, Peggy.

The Gagliardi family has been intertwined with the St. John's community. They live on campus, and all four of their children have attended St. John's or St. Ben's. I attended St. John's with their son John, Jr. Their son Jim is one of St. John's assistant coaches and joined him today at the White House. Since he is assistant coach there at St. John's, the President said that he appreciated sons following in their father's footsteps.

Consistent with John's commitment to community, he cuts no one from games, from coming out for football, and over 150 players regularly suit up for home games. In fact, St. John's was recently penalized for having two players with the same number on the field, a penalty few teams ever have to worry about. And while Gagliardi is acclaimed for his perennial success on the football field, he is equally loved and admired at St. John's for his commitment to making sure that his players get a quality education.

Consistent with his commitment to study, I am proud to say that no player has ever failed to graduate in John's over a half century of coaching. Every class of graduating football players includes those who go on to graduate, law, or medical school. St. John's and St. Ben's, which are ranked as among the best Catholic national liberal arts colleges in the country by "U.S. News and World Report," match Gagliardi's commitment to educational excellence. The Benedictine monks have long stressed work and in their early days were almost entirely self-sufficient, growing and building most of what they needed. Coach Gagliardi's personal work ethic is reflected in his intent to continue coaching even after he has achieved this important milestone.

Yet John has a nontraditional view towards work in the form of practice. His practices involve no blocking sleds, no dummies, no whistles, no pads, no tackling, and no mandatory weight training. John does not conduct spring practices, and he gives his team the day off if it is too cold, too hot, or there are too many mosquitos, as is often the case in Minnesota.

But where Gagliardi asks his players to work is on game day. They work and they win. In over 55 years of coaching, he has now had 410 wins and only 114 losses. My son Peter recently commented that it is impossible to be a fair-weather fan of St. John's because they always win. Gagliardi's teams have won 26 conference titles, appeared in 45 post-season games, and won three national championships. Their most recent national championship was in 1976, while I was a student at St. John's, when they beat Towson State of Maryland, a school 10 times its size.

Playing bigger schools is not unusual for St. John's with its 1,900 students. I fondly remember sitting at a playoff game with St. John's president, Brother Dietrich Reinhart, in Dayton, Ohio, against the University of Dayton. They were playing St. John's in football, but Michigan State in basketball that evening.

According to St. John's folklore, prayer is vitally important to their football success. The St. John's abbey is the largest Benedictine abbey in the world. As the saying goes, if the team gets it close, they will pray it in.

Despite John's unmatched record of success, he remains amongst the most humble people one will ever meet. His news director, Michael Hemisch, has a hard time getting him to speak to the press. John avoids the limelight and wears a coat during games that everyone is happy to see has now been contributed to the College Football Hall of Fame, so he will not wear it anymore. But he said it is the only coat that will keep him warm enough for Minnesota falls.

Some were surprised that he accepted President Bush's invitation to come to the White House today. When the press asked him what was the secret of his success, he answered: talented players, luck, and prayers.

Certainly, the many players that have played for Coach Gagliardi should be congratulated on this achievement. John took no credit for himself but would be happy to ascribe some of the credit to his current coaching staff and his coaching staff over the years, three of whom joined him: his son Jim, Jerry Haugen, and Gary Fasching. He would also give credit to the monks, including athletic director Father Tim Backous, who joined him as well at the White House. Father Tim and I sang together at men's chorus at St. John's. And John likes to joke that the monks said they would always be with him, win or tie.

Though John is humble, my fellow alumni at St. John's and St. Ben's, including 13 of my family members, have great pride not just in his success as the winningest college football coach ever but the way his life has modeled the Benedictine values of faithfulness, community, study, work, prayer, and humility.

I appreciated the Johnnies who joined John at the White House and the many that came out to the reception this afternoon here in Washington to honor John, including Senator Dave Durenberger; Al Eisele, editor of "The Hill," David Rehr from the Beer Wholesalers; and Tom Super, whose wife, Kathy, works for President Bush, Sr.

I encourage my fellow Members to join me in honoring his achievement.

Ms. WOOLSEY. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

Mr. KLINE. Mr. Speaker, I yield myself such time as I may consume.

I thank the gentlewoman for her very kind remarks on this occasion, and I thank the gentleman from Minnesota (Mr. KENNEDY) for bringing this forward. I encourage all of my colleagues to vote for this, with a hearty congratulations to Coach John Gagliardi.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. NEUGEBAUER). The question is on the motion offered by the gentleman from Minnesota (Mr. KLINE) that the House suspend the rules and agree to the resolution, H. Res. 438.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

HONORING RICE UNIVERSITY OWLS BASEBALL TEAM

Mr. KLINE. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 379) honoring the Rice University Owls baseball team for winning the NCAA baseball championship.

The Clerk read as follows:

H. RES. 379

Whereas, on June 23, 2003, the Rice University Owls baseball team won the NCAA baseball championship, defeating Stanford, with a final score of 14 to 2, before 18,494 Owls fans in the final game at the College World Series;

Whereas Rice University is a small but prestigious school, which opened in 1912, and prides itself on being one of the Nation's best academic institutions;

Whereas winning the national championship in a major Division I sport is a remarkable accomplishment for Rice University, which has an undergraduate enrollment of only 2,700 students and holds its athletes to the same high academic standards as the rest of the school population;

Whereas, before this 2003 victory, the Owls made three trips to the College World Series, in 1997, 1999, and 2002, but won just one of seven games;

Whereas the Owls' coach, Wayne Graham, advanced Rice University's baseball program from obscurity to a national championship in 12 years;

Whereas the Owls' victory at the College World Series is Rice University's first national championship in any team sport and easily the University's crowning athletic achievement;

Whereas Rice University is the second school in the State of Texas to win the NCAA baseball title, joining the University of Texas, which won titles in 1949, 1950, 1975, 1983, and 2002;

Whereas the Owls' victory completed a remarkable season in which Rice University won 58 of the 70 games it played;

Whereas the Owls opened the 2003 College World Series by first defeating Southwest Missouri State and then by defeating Texas University twice in a span of three days, eliminating the defending national champions and securing a spot in the championship round;

Whereas Rice University defeated Stanford, with a score of 4 to 3, in the first championship game, and then lost to Stanford, with a score of 8 to 3, in the second game, forcing the final game; and

Whereas the final score of 14 to 2, establishing Rice University's national championship victory, is the largest margin of victory in a College World Series final game: Now, therefore, be it

Resolved, That the House of Representatives honors and congratulates the Rice University Owls baseball team for their successful season and their historic, outstanding, and memorable NCAA baseball championship victory.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Minnesota (Mr. KLINE) and the gentlewoman from California (Ms. WOOLSEY) each will control 20 minutes.

The Chair recognizes the gentleman from Minnesota (Mr. KLINE).

GENERAL LEAVE

Mr. KLINE. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on H. Res. 379.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

Mr. KLINE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Resolution 379. This resolution honors the Rice University Owls baseball team for their victory in the 2003 NCAA baseball championship. With their 14 to 2 victory over Stanford, the Rice Owls scored the largest margin of victory in a College World Series championship game and earned their first, their first, NCAA baseball championship ever. The Owls won five of six games in their fourth College World Series appearance to complete a remarkable season in which they won 58 of their 70 games. The Owls' victory at the College World Series was Rice University's first national championship in any team sport. The distinction earned by these players and the remarkable repeat victories of the team reflect the dedication of each player, the leadership of Coach Wayne Graham, and the support of family, friends, and fans.

I want to thank the gentleman from Texas (Mr. BELL) for introducing this resolution and extend my congratulations to Coach Graham, Rice University, and each of the hardworking players on the successful Owls team. As the only Member of Congress to claim Rice University as my alma mater, I am especially proud and happy to join my colleagues and am very thankful to have the opportunity to join my colleagues in honoring the accomplishment of this team and wishing them continued success. I ask my colleagues to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Ms. WOOLSEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H. Res. 379. This resolution honors the Rice University Owls baseball team for winning the NCAA baseball championship. This summer the Rice University Owls captured the national championship in their fourth trip to the College World Series in the past 7 years. College fans, student athletes, and the general public were treated to an exciting 14 to 2 win in the final game of the year's College World Series. I want to extend my hearty congratulations to the Owls' head coach, Wayne Graham. His leadership over the past 12 years has taken baseball at Rice University from obscurity to national prominence. Rice University's student athletes also deserve our congratulations. We are on the floor today because of their hard work, their determination, and their winning ways.

I would be remiss if I did not also recognize the outstanding play by Stanford University's student athletes in the College World Series. Both teams are to be congratulated for their excellent play.

Winning a championship has brought national acclaim to Rice University. I hope the Owls fans and their community treasure this moment for many years to come. And in closing, Mr. Speaker, I urge Members to support this resolution.

Mr. Speaker, I reserve the balance of my time.

Mr. KLINE. Mr. Speaker, I have no further requests for time, and I reserve the balance of my time.

Ms. WOOLSEY. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. BELL), the author of this resolution.

Mr. BELL. Mr. Speaker, I rise in support of the resolution to honor the Rice University Owls, the 2003 NCAA baseball national champions. It is a study in persistence. Before this victory, the Owls made three trips to the College World Series in 1997, 1999, and 2002, but won just one of seven games during those three trips.

The Owls' convincing win over Stanford in the College World Series championship game this year brought home the school's first national championship in any team sport.

Rice University is a tremendous source of pride for my 25th Congressional District in Texas. As one of the Nation's most highly regarded universities, Rice has always been well known for its academic excellence. The school now has the added distinction of being a baseball powerhouse. Winning a national title in a major Division I sport is a remarkable accomplishment for a school as small as Rice with only 2,700 undergraduates.

□ 2015

Additionally, Rice athletes are held to the same high academic standards as all of the other students, signifying the incredible well-roundedness of these ball players.

Since starting at Rice 12 years ago, coaching legend Wayne Graham has catapulted the team into baseball history. Coach Graham's leadership took Rice to the NCAA tournament in 1995 and to the College World Series in 1997, 1999 and 2002. Previously, Coach Graham won five national junior college titles at San Jacinto College.

The Owls had an unforgettable season, winning 58 of their 70 games. Early in the season, the team broke a school record by winning 30 games in a row. In the College World Series, Rice beat Southwest Missouri State and last year's champion University of Texas team twice, before meeting Stanford in the championship round. Rice beat Stanford 4–3 in the first game, lost 8–3 in the second, and won the championship, 14–2, the largest margin of victory in the history of the College World Series championship games.

Mr. Speaker, with wholehearted enthusiasm, I congratulate Coach Graham and the entire Rice Owl College World Series championship team, including Philip Umber, Jeff Niemann, Wade Townsend, Vincent Sinisi, Enrique Cruz, Craig Stansberry, Paul Janish, Chris Kolkhorst, Austin Davis, Dan Bubela, Justin Ruchti, David Aardsma, Joseph Baker, Jeff Blackinton, Matthew Cavanaugh, Lyndon Duplessis, Matthew Emerson, Jonathan Gillespie, Steven Herce, Sean Hirsch, Jeff Jorgensen, Colin Matheny, Matthew Moake, and Lance Pendleton.

These players' success, both in the classroom and on the baseball field, make them stand out as the very best college sports has to offer. They played with honor and sportsmanship and raised the bar for the expectations of college athletes everywhere. Well done, Owls. You have made Houston, Texas very proud.

Ms. WOOLSEY. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. RODRIGUEZ).

Mr. RODRIGUEZ. Mr. Speaker, I rise today to join my colleagues and the gentleman from Texas (Mr. BELL) for authoring this legislation in honoring the National Champion Rice University baseball team. I commend the hard work of the players and their coaches. Their years of training and preparation, combined with their ability to work together as a team, led to an outstanding and overwhelming victory.

It is also important to recognize the unwavering dedication of the Rice supporters who cheered the team to victory. All Texans are proud of Rice University. Rice University, its alumni, the city of Houston, the Houston Astros and others have honored the Rice baseball team, and now the Congress is joining the local community and the State to show our support for their achievement.

I have the great honor of being a father of a Rice Owl. My daughter Xochil attends Rice University, and I am proud that she has chosen to be a part of this outstanding academic institution. Not only is Rice University one of the Nation's top-ranking schools, Rice University students have distinguished themselves by creating a unique academic atmosphere that provides a well-rounded educational experience.

The win at this year's College World Series marks the first national championship for a Rice University sports team, but with the hard work and the discipline shown by the group of student athletes, I have no doubt that this is only the first of many accomplishments and championships. Congratulations, Rice University.

Ms. WOOLSEY. Mr. Speaker, I yield such time as he may consume to the gentleman from Texas (Mr. GREEN).

Mr. GREEN of Texas. Mr. Speaker, I rise to place in the RECORD a statement in offering my congratulations to the Rice University baseball team for winning the College World Series.

Mr. Speaker, I rise today to offer my congratulations to the Rice University Baseball team. An exemplary group of young men, the Rice team won its first baseball national championship this year and showed the true grit needed to win the College World Series.

The Owls have been no stranger to the College World Series, appearing with the best of college baseball for 4 out of the last 7 years. The championship eluded them, however, until this year when they finished the regular season with an impressive 58–12 record. Thirty of those wins came during a remarkable winning streak.

And being a University of Houston graduate, it pains me to admit that the Owls' streak began with a 3–0 win over my beloved Cougars. However, if we had to lose to a crosstown rival, I'm glad that it was one who went on to win the national championship.

The national championship was even sweeter for Houstonians considering that the Owls crushed a Stanford team that had made its third trip to the finals in the past 4 years. And in winning the final game 14–2, the Rice team secured the largest margin of victory in any College World Series final game. Without a doubt, Rice's national championship is a well-deserved honor for a first-rate team.

My congratulations go out to the Owls, along with my best wishes for a successful 2004 season in defense of their title.

Ms. WOOLSEY. Mr. Speaker, I yield back the balance of my time.

Mr. KLINE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to thank, again, the gentlewoman from California for her kind remarks and the other speakers today, and certainly the gentleman from Texas (Mr. BELL) for authoring this resolution. I will dare to speak on behalf of all Rice alumni and say to Coach Graham and to the team, congratulations and thank you from the bottom of our hearts. The first-ever NCAA championship is a big thing to the alumni community and Rice University.

Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. NEUGEBAUER). The question is on the motion offered by the gentleman from Minnesota (Mr. KLINE) that the House suspend the rules and agree to the resolution, H. Res. 379.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended and the resolution was agreed to.

A motion to reconsider was laid on the table.

PERMISSION TO HAVE UNTIL 6 A.M. TUESDAY, NOVEMBER 18, 2003 TO FILE CONFERENCE REPORT ON H.R. 6, ENERGY POLICY ACT OF 2003

Mr. MORAN of Kansas. Mr. Speaker, I ask unanimous consent that the managers on the part of the House may have until 6 a.m. on November 18, 2003 to file a conference report to accompany the bill (H.R. 6) to enhance energy conservation and research and development, to provide for security and diversity in the energy supply for the American people, and for other purposes.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

TWENTY-FIFTH ANNIVERSARY OF JONESTOWN AND THE DEATH OF CONGRESSMAN LEO RYAN

(Mr. LANTOS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANTOS. Mr. Speaker, tomorrow is the 25th anniversary of the massacre at Jonestown where more than 900 people lost their lives to the sick cause of a sociopath masquerading as a visionary.

Among the victims was my distinguished predecessor and good friend, Congressman Leo Ryan, the first Member of Congress ever killed in the line of duty. He was gunned down along with four others of his delegation whom he led to investigate reports of human rights abuses in the jungles of Guyana.

Mr. Speaker, while we continue to struggle to understand such events, let us also continue to commemorate the people they affect.

I would like to ask all of my colleagues for a moment of silence to remember our fallen colleague, my predecessor representing the San Francisco peninsula in Congress, Congressman Leo Ryan, and to honor his work for justice and human rights.

Mr. Speaker, November 18, is the 25th anniversary of the massacre at Jonestown. A quarter century ago, more than 900 people lost their lives to the sick cause of a sociopath masquerading as a visionary.

Among the victims was Congressman Leo Ryan, the first Member of Congress ever killed in the line of duty. He was gunned down, along with four others of the delegation that he led to investigate reports of human rights abuses at a compound in the jungles of Guyana. Ten members of his group were wounded, some of them seriously, including California State Senator Jackie Speier, who was then a member of Congressman Ryan's staff.

In addition to those who died, thousands more were directly affected by the Jonestown tragedy: the grieving family members and friends of those who had misplaced their faith in the so-called Peoples Temple led by Jim Jones.

Mr. Speaker, survivors of that misguided movement, as well as relatives of Leo Ryan and of others who died, are gathering in Foster City, California, in a park that bears Congressman Ryan's name. They will consider his gifts and accomplishments as a public servant, and they will carry on with the struggle to make sense of the events that cut short his life and those of so many others.

Leo Ryan dedicated his life to protecting the oppressed. Elected to the California State Assembly in 1962, he was so moved by the conditions that led to the Watts Riots two years later that he volunteered as a substitute schoolteacher in Watts while the community rebuilt itself. This was typical of Leo Ryan: Confronted with a complex situation of social injustice, he insisted on getting his facts firsthand. In 1970, after hearing about abuses against convicts in California's top-security institutions, he spent a week undercover behind bars in Folsom Prison to see for himself how they were treated.

Mr. Speaker, this hands-on approach characterized Leo Ryan's work here in Congress, where he served on the Foreign Affairs Committee. In early 1978, concerns had been raised about U.S. citizens being held against their will in Guyana; stories were filtering out about beatings and forced rehearsals for mass suicides. When constituents brought the issue to Leo Ryan's attention, he took action.

There were warnings, but characteristically, Congressman Ryan was undeterred. He moved with caution, yet without trepidation, to organize a trip to Guyana. And to alert the world to what he expected to find, he brought along with him a handful of journalists, as well as members of the Concerned Relatives group whose loved ones were in the thrall of Jim Jones. But after challenging Jones and confirming some of his concerns, Leo Ryan, three of the journalists and a defector from the Peoples Temple were to lose their lives on a jungle airstrip as the cataclysm at Jonestown began.

What lessons can be drawn from these experiences, Mr. Speaker? What can we conclude when we continue to see the rise of aberrant social groups that use violence to control their members, and are capable of unleashing brutality upon the world?

Jim Jones' methods of control mirror those of totalitarian leaders throughout history. He created a cult of personality centered on himself, demanded absolute obedience, isolated those who surrounded him from their former lives, and instilled in them a profound sense of paranoia about the outside world.

The Peoples Temple's members were manipulated to see in it whatever they wanted it to be. It was a self-help group for some, for others a religious movement, and for many it represented a new means to address society's shortcomings. Jim Jones also managed to legitimize the group among some conventional religious and political leaders by supporting their public events and contributing money to their causes during the years when the Peoples Temple was based in San Francisco.

How could so many people find themselves hoodwinked to varying degrees, letting themselves even be linked with this deviant community, much less joining its ranks and sacrificing their lives?

Mr. Speaker, it is a hard question to confront. And the Peoples Temple example teaches us most dramatically not to be seduced by easy answers. It is left to historians and specialists in mass psychology to piece together and place in context the puzzle of Jonestown, the rise of Fascism in Europe, and any number of other instances in which a twisted and charismatic individual has found ways to exploit the weaknesses of large groups and to destroy their will.

As John Ross Hall wrote in one of the definitive studies of Jonestown, Gone From the Promised Land, "We hear the screams, but we do not entirely understand them, and we will continue to wrestle with the apocalypse they unveiled."

And I would add, we will continue to commemorate the victims, and to pay tribute to their lives. Mr. Speaker, I would like to ask for a moment of silence here in this chamber to remember our fallen colleague, my predecessor representing the San Francisco Peninsula in Congress, Leo Ryan, and to honor his work for justice and human rights.

SPECIAL ORDERS

The SPEAKER pro tempore (Mr. NEUGEBAUER). Under the Speaker's announced policy of January 7, 2003, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

H.R. 876, THE LOCAL RAILROAD REHABILITATION AND INVESTMENT ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas (Mr. MORAN) is recognized for 5 minutes.

Mr. MORAN of Kansas. Mr. Speaker, I rise tonight on behalf of thousands of America's rural communities, and I would like to focus attention on a looming crisis within our Nation's transportation infrastructure. Short line railroads, rural America's link to the national rail network, are approaching a crisis point.

Before the rail industry was deregulated, Federal policy created a tremendous investment disincentive whose repercussions can still be felt today. With America's generation of heavier rail cars, which many short lines cannot accommodate, this situation has grown worse. We must move quickly, because thousands of miles of track are in danger of being abandoned forever.

Over 550 short line rail carriers now operate 30 percent of the Nation's rail network. Short line railroads exist in all 50 States and in over 70 percent of all congressional districts. They operate 50,000 miles of track, employ over 23,000 workers at an average wage of $47,000, and earn $3 billion in annual revenue.

Today, this local service is threatened due to the introduction of heavier 286,000 pound railcars that have become a new industry standard. Because of the interconnectivity of our Nation's rail network, short lines are forced to use these heavier cars, placing an added strain on track structure and making rehabilitation urgent. Studies indicate that it will take $7 billion in new investment for our Nation's short lines to accommodate these heavier railcars. To keep our constituents connected with the national rail network, these lines must be upgraded. Unfortunately, the small railroad revenue is insufficient to get the job done.

Today, our Nation's short line railroads need help to make the capital investment required to maintain and rebuild rail service between rural and urban America. This is why I introduced H.R. 876, the Local Railroad Rehabilitation and Investment Act. This legislation has enjoyed bipartisan support with, currently, 178 cosponsors. H.R. 876 provides a $10,000-per-mile tax credit as an offset for rehabilitation investments needed to maintain and strengthen local rail service. This temporary incentive program provides a valuable tool for our railroads to rebuild and improve as they work to meet our Nation's increasing shipping needs.

Short line railroads play an important role in my home State of Kansas. Kansas ranks second in the Nation in the amount of farm products it ships out of State by rail. These railroads keep our farmers and small businesses connected to a national rail network. However, since 1980, approximately 2,500 miles of short line rail in Kansas have been abandoned.

In my State alone, the loss of short line railroads would add nearly $50 million in annual repair costs to the State's highway system. The loss of short line rail service could also add over $20 million to the annual cost of transporting and handling the State's wheat harvest, which would result in an annual net decline in farm income of over $17 million. Nearly every State and every congressional district would experience similar consequences without short line rail service.

Congress should have a strong interest in preserving the freight connection between rural and urban America, because once track is abandoned, odds are it will never be replaced. In today's world, a disruption of the network that carries our food, raw materials, and the fuel for our power plants can be ill afforded. Tens of thousands of jobs in agriculture, manufacturing, refining, and mining in almost every congressional district depend upon this service. I urge my colleagues to join me in cosponsoring this vital transportation infrastructure legislation, and I ask the leadership of this Congress to bring this bill forward.

PHARMACEUTICAL PROMOTION AND PROFITS PROTECTION ACT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon (Mr. DEFAZIO) is recognized for 5 minutes.

Mr. DEFAZIO. Mr. Speaker, Christmas has come early for the pharmaceutical and insurance industries, and it is going to be presented as a very large and complex piece of legislation that as yet no rank and file Member of Congress, no Democrat on this side of the Hill, has been able to review, and it will be voted on later this week.

It is being cast as simply a pharmaceutical benefit for seniors and some sort of a revision of Medicare to make it competitive and so on and so forth. But what it really is is legislation that was written by and for the pharmaceutical and insurance industries, the most powerful lobbies in this country and the most generous of campaign contributors, particularly to the President and the Republican Party; and it is first and foremost designed to protect their profits. In fact, perhaps we should call it the "Pharmaceutical Promotion and Profits Protection Act." That would be an apt title.

Boston University School of Public Health has analyzed the bill and they said, 61 percent of the benefits will flow as increased profits to the pharmaceutical industry. The bill specifically prohibits the Government of the United States of America, on behalf of America's seniors and, indeed, all of the American people, to do anything to lower the extortionate price of prescription drugs in the United States. In fact, it closes the door on the importation of prescription drugs from Canada, which is the only relief that many Americans are able to find today. Oh, they say, well, we do not close the door; we are going to give the authority to the Secretary of Health and Human Services to certify whether or not American-manufactured, FDA-approved pharmaceuticals that have had a short vacation in Canada, where their price goes down by 50 percent or more, would be safe if they flowed back into the United States. And, of course, the Secretary of Health and Human Services, in his wisdom, has already said that he will not find them to be safe, just to reassure the industry. So they will give him a power which he will not use, or which he has already arbitrarily decided.

In fact, it is arguable that the chain of custody of drugs in Canada is safer than in the United States of America, and it would be arguable that, in fact, those drugs would be safer than those that are sometimes made available in the system here because of unregulated, unlicensed pharmacies, and phoney, closed-door pharmacies and other things that were exposed recently in a series by the Washington Post. But nonetheless, we are going to act to protect here, and what we are really protecting, the Congress will vote, and I am sure the House will vote; the President is proposing and the conference committee has proposed to protect the profits of the pharmaceutical industry.

Then, not to leave out the insurance industry, because they are almost as generous in their campaign contributions, we are going to set up a new market for them where we will subsidize the private health insurance industry to create competition. Now, is that not ironic?

□ 2030

The only industry in the United States of America exempted from antitrust law, an industry which can, and does, legally fix prices, collude with their so-called competitors, and, you know, collude also to determine who they might cover or not cover, we are going to bring about competition by subsidizing them.

There are quite a few seniors in my district that have a rather bitter taste in their mouths about the HMO Medicare+Choice and all these other foolhardy things that have been levied upon them. Those companies walked away one day and left them high and dry. And under this bill they will be able to walk away again and leave people high and dry or they will be able to choose the people they want to cover and tell the rest of them to go over to the Medicare fee-for-service plan which will be more expensive. It will get ever more expensive because all the low-risk people will be moved out and taken by the insurance industry and these subsidized plans until they become high risk, until they have to actually file a claim. That is the way the insurance industry works in America today: they will cover you until you ask them to cover something that you have been paying premiums for. And the next time renewal comes up, sorry, we will not renew you. This does not go on just in health care; it is going on in homeowners and car insurance and everything else. But it is particularly egregious in the area of health care. This bill is going to do nothing to rectify that problem.

Let us look at what the great benefits will be. In the first year, next year, there will be discount cards that will come out before the election so the President can say he did something for people, which will be to give a discount, maybe as much as 15 to 25 percent. That means that seniors will only have to pay 50 to 75 percent more than they would have to pay for those drugs imported from Canada. Oh, what a benefit that is. No, but it is a wonderful windfall for the pharmaceutical industry. They will still be paying prices higher than people covered by other private insurance plans, as are Federal employees, as am I, Blue Cross/Blue Shield, and many others; but they will get that juicy 15 to 25 percent discount.

Then the big plan kicks in in 2007. Why 2007? Because people, if it went into effect sooner, if it was such a great deal, people might figure out what a turkey it is before the next election. So they will dangle it out there 4 years in the future and say this will be really great, you just wait. It is so complicated, few people can figure it out. But here are a couple of numbers. A person who pays $1,000 for pharmaceuticals under this great plan would only pay $945 for their pharmaceuticals after they did their premiums and copayments and deductibles. They would get a benefit of $55 on an annual $1,000 prescription drug benefit.

Well, let us look at someone who has much bigger costs. Someone who pays $3,700, $300 a month. Their benefit would be a grand total of $855. Only about, you know, half of that they could get purchasing the drugs from Canada. This is a sham.

MEDICARE LEGISLATION

The SPEAKER pro tempore (Mr. NEUGEBAUER). Under a previous order of the House, the gentleman from Ohio (Mr. BROWN) is recognized for 5 minutes.

Mr. BROWN of Ohio. Mr. Speaker, this summer AARP devised a litmus test for Medicare legislation. Specifically, AARP said Congress must be careful not to pass any legislation that jeopardizes employer-sponsored retiree benefits, or that leaves such large gaps in the drug coverage that seniors still will not be able to afford needed medicines, or that includes a premium support privatization provision which will invariably give HMOs control over Medicare, or undercuts popular support for the Medicare program by requiring higher-income beneficiaries to pay more for the same coverage. In other words, we should not pass any legislation that introduces means testing into Medicare.

The Medicare conference committee agreement that was outlined this weekend still jeopardizes employer-sponsored retiree coverage for 12 million seniors. In other words, as many as a third of the seniors who now have prescription drug coverage will lose it under this bill because employers will say why should we do it, we will put you in that government program.

It still leaves such huge gaps in coverage the average senior will run out of drug benefits by August each year. Understand that the average senior will run out of drug benefits two-thirds of the way through the year, but, get this, will still be required to pay the premiums through December. That is a great deal.

It still includes a premium support provision that stacks the deck so resolutely against Medicare fee-for-service, the Medicare that seniors in this country respect and love and have benefited so greatly from. It stacks the deck so resolutely against the Medicare fee-for-service program that seniors will have no choice but to join a private insurance HMO. And it still means tests seniors.

What else does this bill do? It creates a $12 billion slush fund for HMOs to induce them to provide coverage. If anyone still believes privatizing Medicare will reduce health care costs, this $12 billion bribe going to the insurance industry from U.S. taxpayers, this $12 billion bribe should cure them of that misperception.

Mr. Speaker, there is no surprise here. After all, the insurance industry gives tens of billions of dollars to my friends on the other side of the aisle, to President Bush, to Vice President CHENEY, to Republican legislative leadership. This bill also increases drug profits by nearly 40 percent, an estimated $139 billion over 8 years. Again, no surprise there, Mr. Speaker. The drug industry gives actually tens and tens of billions of dollars to President Bush. The word on the street in Washington is they may give $100 million to President Bush's reelection. So, of course, they are going to look out for the drug industry.

Coincidentally, this bill specifically prohibits the Federal Government from negotiating lower prices on behalf of seniors and taxpayers to secure lower drug prices. It abandons the one strategy that would deliver meaningful drug savings to seniors, businesses, and all prescription drug purchasers. It abandons legislation that my friend, the gentleman from Minnesota (Mr. GUTKNECHT), who is in this Chamber, worked on; the gentleman from Washington (Mr. MCDERMOTT); the gentleman from New Jersey (Mr. PALLONE); the gentleman from Arkansas (Mr. ROSS); the gentleman from Texas (Mr. GREEN); the gentlewoman from California (Ms. WOOLSEY), a lot of us on both sides of the aisle worked on. It abandons legislation to allow importation of prescription drugs, safe, affordable prescription drugs from Canada and other countries that charge one-third, one-fourth, one-fifth as much as they do in the United States.

Other countries negotiate for lower drug prices, but the U.S. is a passive drug taker. As a result, U.S. consumers get robbed; the drug industry gets rich. This bill ignores public support for prescription drug reimportation from other countries for lower price, the same drug but for lower price, ignores the consequences for consumers, for employers, and for the Federal Treasury if we fail to bring drug prices down.

Seniors cannot afford the high cost, employers cannot afford the high cost, taxpayers cannot afford the high cost of prescription drugs anymore in this country.

If anyone still believes the drug industry and the insurance industry are not the ghost writers of this bill and are not its principal beneficiaries, perhaps the $12 billion HMO slush fund, the $139 billion in additional drug industry profits, the prohibition on negotiated drug prices, and the stifling of prescription drug importation just might convince you.

One more thing. While the drug and insurance industries fair extremely well under this legislation, the bill's authors decided to cut corners by barring 3.9 million seniors living at or near poverty from receiving low-income prescription drug assistance.

Under the deal described this weekend, a senior earning $8,000 a year may still be required to pay as much as $2,500 to $3,500 for coverage. That is not protection, Mr. Speaker. It is a cruel joke.

FALSE PROMISE FOR AMERICA'S SENIORS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arkansas (Mr. ROSS) is recognized for 5 minutes.

Mr. ROSS. Mr. Speaker, after years of talk about the need to help our seniors with the high cost of prescription drugs, it appears that sometime this week, or perhaps this weekend, this Congress will be voting. They will be voting on a bill that is nothing more than a false hope and a false promise for America's seniors. In fact, Max Richmond, the head of the National Committee to Preserve Social Security and Medicare, a nonpartisan, not bipartisan, but a nonpartisan, nonprofit organization, has been quoted as saying, "Have you ever heard of Medicare fraud? Well, this Republican prescription drug bill is Medicare fraud."

Let me tell you why. As I see it, there are three major problems with the bill. Problem number one: the Republican leadership actually had the nerve to put language in the bill that says the Federal Government shall be prohibited from negotiating with the big drug manufacturers to bring down the high cost of medicine. That is in the bill. Then they call it a seniors bill.

Problem number two is the prescription drug plan will be privatized. And what is worse than that is the rest of Medicare could very well be privatized by 2010 under this bill. Insurance is about spreading the risk. When our homeowners policy comes due, sure, we complain; but when you think about the fact that they will replace everything in our house and build us a new house if something happens, it is fairly reasonable, the premium we pay. And why is that? When is the last time you saw a home in your neighborhood burn down or get blown away? It does not happen very often. Insurance is about spreading the risk.

Well, with seniors there is no risk to spread. Seniors require a lot of medicine and a lot of health care to either get well or to stay healthy. That is why we created Medicare 38 years ago.

So why do the Republican leadership and the big drug manufacturers want to privatize the Medicare prescription drug benefit? Well, let me tell you why. You hear about how prescription drugs are less expensive in other countries. It is true. I did a survey about a year ago where I compared the price paid by seniors of the five most commonly used brand-name drugs in my district with seven other countries. And guess what we found: seniors in my district pay on average 110 percent more than seniors in these other countries.

Now, why is that? Because America is the only industrialized Nation in the world where people go without health insurance; 43.6 million of them today, 10 million of them are children and the rest of them, for the most part, are people that are trying to do the right thing and work jobs, but they are working the jobs with no benefits.

In other countries everybody has health care. And in other countries they tell the big drug manufacturers if you want your medicine, your brand in our country, you are going to give us a discount. And they do. And the drug manufacturers and the Republican leadership know good and well that if we have 40 million seniors under one plan in America, that we too will demand those kinds of discounts to help offset the cost of this program.

So they want to privatize the plan and spread seniors out over about 100 plans and have 100 different insurance companies knocking on your door and calling and sending mail to your mother or dad or grandfather or grandmother all trying to sell them, what? Exactly the same plan. Privatization will not work.

The third big problem with this is it is not really a meaningful benefit. Most people who are fortunate enough to have a private health insurance company, and every plan is a little different, but most people who are fortunate to have private health insurance, well, the first $3,500 worth of medicine they pay about $700 out of pocket. Under this Republican prescription drug plan, on the first $3,500 worth of medicine, seniors are going to get stuck with $2,600 of it. All this talk in Washington amounts to $900 worth of help on the first $3,500 worth of medicine.

You see, it is going to have a $250 deductible. And during that time, you have got to pay the monthly premium, which they say may be $35; but they are not real sure what it will be, it could be more. And then after $250 up to $2,000, Medicare is going to pay 80 percent and you pay 20 percent. That sounds pretty good. But on a $100 prescription, once you get to the $250 mark and you are paying $20, what happens when you hit $2,000? All the way up to $3,500 you are back paying the full $100. Medicare pays nothing. But they still bill you monthly for this premium. This is Medicare fraud. It is wrong. This is America, and we can do better than that by our seniors.

□ 2045

EXCHANGE OF SPECIAL ORDER TIME

Mr. GUTKNECHT. Mr. Speaker, I ask unanimous consent to claim the time of the gentleman from North Carolina (Mr. COBLE).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Minnesota?

There was no objection.

PRESCRIPTION DRUG MARKET ACCESS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Minnesota (Mr. GUTKNECHT) is recognized for 5 minutes.

Mr. GUTKNECHT. Mr. Speaker, I will not take the whole 5 minutes. I have been listening to the discussions about Medicare reforms, and I must tell my colleagues that some of the arguments they are making on the other side, I agree with. Some of them, I do not agree with.

I do want to let Members know that in first hour there will be a special order, and I invite Members from the Republican and Democrat and Independent parties to join us tonight and talk about the issue of market access because I think that is one thing that most Members here in the House agree on, and that is, that Americans deserve to have world class prices for world class drugs.

As the gentleman from Arkansas (Mr. ROSS) was just saying, in the studies that he has done, in the studies that I have done, the studies that other Americans have done, that have been done by the press and other groups, they all come to the same conclusion; and that is that Americans pay by far and away the world's highest prices, even though we are the world's best customers.

Later on tonight, we will be talking about that issue and whether or not there is a way that we, here in the House, can exercise the will of the people and get something done on that issue before we go home for the break.

BEWARE THE GHOSTS OF CHRISTMAS PAST

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. GREEN) is recognized for 5 minutes.

Mr. GREEN of Texas. Mr. Speaker, I want to associate myself with the remarks of both my colleague, the gentleman from Arkansas (Mr. ROSS) and also my colleague, the gentleman from Ohio (Mr. BROWN) in the concern about what happened in the Medicare conference committee on prescription drugs.

It is sad that we came here to talk about a prescription drug plan for seniors, but we are actually going to take it away from them in the process. But the reason I am here tonight, Mr. Speaker, is to talk about the problem we have in our country with the unemployment.

Mr. Speaker, as we embark on what we hope will be our last week in sessions before the holiday recess, I rise to warn my colleagues about the ghost of Christmas Past, the economic mistakes that Congress and this administration have made on the eve of past holidays. Let us take time to learn from those mistakes and not recreate them.

I can say with confidence that each Member of this Chamber was pleased to hear the impressive economic growth figures for July through September. Over the past 3 years, this country has suffered through some of the worst economic conditions since the Great Depression, and it was certainly uplifting to see the reports of 7.2 percent growth in gross domestic product. While we remain optimistic about an economic rebound for the country, I, however, caution my colleagues against relying on the sustainability of this economic growth.

Economic indicators show that these figures were the result of consumer spending and a tremendous boost in the housing market. Yet with consumer spending outpacing consumer income, it is clear that spending cannot fuel our economic growth indefinitely. Let us remember our reaction to similar news in 2002. After months of job losses and a dismal economic growth, the country boasted growth of 5 percent in the first quarter of 2002. Despite our optimism, however, job losses continued and the next quarter yielded a 1.3 percent growth.

This time last year we were celebrating third quarter growth of 4 percent, and like today, entering the holidays with high hopes. Needless to say, our hopes were dashed and the country has since endured the worst job conditions in 20 years. These are our ghosts of Christmas Past, the flurry of mistaken optimism that failed to deliver on its economic promises.

Like the optimism of Christmas Past, this recent economic growth belies the fact that our manufacturing sector has cut jobs for the 39th straight month. My State of Texas, with 1.6 million lost jobs, ranks third in the amount of manufacturing jobs lost since September of 2000. While the country may be making modest gains in employment, 6 percent of America's workers are still unemployed. Almost one-quarter of these 8.8 million people have been out of work for more than 6 months. These figures do not even count the discouraged workers, 462,000 Americans who have completely given up looking for jobs and are no longer on our unemployment roles.

Fortunately, many former unemployed workers have found jobs, but we must examine the kind of jobs they are turning to; 4.8 million Americans work part-time, but only because they cannot find full-time work, and many of these workers are former engineers, former computer technicians who previously earned up to $60,000 a year, but now must settle for $7.50 an hour at a retail store.

No amount of economic statistics can hide the realities that these people face. Our unemployed workers are hurting. Our unemployed families are draining their savings to survive. And this Congress holds in its hands the ability to extend their unemployment benefits.

Let me remind my colleagues that the holiday season is the time of the year when we give thanks for our blessings and extend our hearts to the less fortunate. Last year, that important lesson must have been lost on the majority's leadership, because Congress packed up for the year without extending unemployment benefits.

That is right. Congress left town to enjoy the holidays and in doing so, left America's unemployed workers in the cold.

Mr. Speaker, this year is no different. Unfortunately, if we do not act soon, the Ghost of Christmas Past will be forced to remind us of the tremendous mistake we made by withholding these benefits last year. Even Scrooge learned from his mistakes.

I implore the administration and my colleagues to let us take a hard, realistic look at our economy and make sure that any recovery helps the Americans who have been most hurt by this downturn, and above all, let us pass the extension of the temporary unemployment benefits before we adjourn for the holidays.

It is the right thing to do for our economy and for America's unemployed.

IRAQ PROPAGANDA CAMPAIGN

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from California (Ms. WOOLSEY) is recognized for 5 minutes.

Ms. WOOLSEY. Mr. Speaker, the Coalition Provisional Authority which is the title of the American authority overseeing the reconstruction of Iraq, and the Bush administration which created it, are openly dissatisfied with the stories the media has chosen to broadcast regarding the United States' role in Iraq. In fact, they say the news media too often covers the negative events that occur in Iraq, but rarely reports any positive happenings there. They even pressured reporters to find the so-called good news in Iraq or lose access in an attempt to manipulate the stories coming out of Iraq.

Let us keep in mind that over 400 American soldiers have died in Iraq since the start of the war in March. That is more than 11 brave young men and women killed each week. It is hard to find the good news when our sons and daughters keep coming home in body bags. And it is exceptionally insulting to the families of these victims to complain about media bias at the same time four helicopters have been destroyed by enemy fire over the last 2 weeks.

The situation in Iraq is getting less safe for our troops, not safer. In addition to the 404 troops killed in action, over 2,000 have been wounded and another 7,000 have been evacuated for noncombat medical conditions. And yet, the President continues to complain about media bias. So what has the White House decided to do about the quote/unquote "unfair reporting" by the media?

Why, bypass that very media, of course. The President's handlers plan to influence public perception by creating a government-run broadcast operation to provide American news agencies unfettered access to the real stories in Iraq. This broadcasting system which the administration unofficially refers to as C-SPAN Bagdad will run via satellite 24 hours a day. C-SPAN Bagdad. More like American Al-Jazeera, the media giant that reports to the Arab world in a very biased fashion.

The White House is increasingly aware, of course, that President Bush's fate in the upcoming 2004 election is directly linked to the progress of the war in Iraq. So bypassing the third-party national media allows the Bush administration to mold public perception of the war effort. I think our country's founders would be ashamed to know that at the same time hundreds of our soldiers and thousands of Iraqi civilians are dying, President Bush is thinking about the chances for reelection. That is nothing short of appalling.

But equally appalling is that the American taxpayer will finance this shameful propaganda machine. That is right. The administration is directing money from the $87 billion emergency supplemental spending bill that Congress approved last month to help pay for the new Bush media machine. This is not emergency spending. This is campaign spending. This is propaganda spending. Instead of trying to win the hearts and minds of Americans through propaganda, President Bush should be trying to win the hearts and minds of the insurgents who are making Iraq less stable. He should show them a United States to which burgeoning democracies like Iraq can aspire, a United States that would be a democratic model for the rest of the world. I daresay an autocratic state-sponsored propaganda campaign is not a part of this model.

TENTATIVE AGREEMENT ON MEDICARE CONFERENCE REPORT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New Jersey (Mr. PALLONE) is recognized for 5 minutes.

Mr. PALLONE. Mr. Speaker, I rise this evening to express my extreme disappointment regarding the tentative agreement that has been reached by the Republicans in Congress with regard to Medicare and prescription drugs.

Mr. Speaker, the source of my frustration stems from the fact that this agreement is not good public policy. It is not good for seniors or any Medicare consumer and it does nothing to reduce the cost of soaring prescription drugs.

What this bill does, simply stated, is it kills the Medicare program and, in the process, shores up hundreds of billions of dollars of funding for the HMO industry and for the name-brand pharmaceutical industry. If this so-called deal is enacted into law, make no mistake about it, the Medicare program will be privatized. Medicare, as we know it today, will be turned into a voucher system and seniors will be forced into HMO's.

Republicans are trying to fool us into believing that their privatization provisions are merely a demonstration project or a test, but nothing could be further from the truth.

Mr. Speaker, the Republican Medicare provisions are unacceptable because they have nothing to do with prescription drugs. The "demo" goes way beyond the scope of providing seniors with prescription drug coverage, and, in fact, aims to bankrupt seniors, denying them their right to adequate health care under Medicare, and ultimately forcing them into HMOs because they can no longer afford Medicare.

This is exactly where the insurance companies come in to get their big payoff because greater risk and cost are shifted to senior citizens.

Furthermore, the provisions in the medicare agreement that deal with prescription drug coverage are completely inadequate in terms of benefit structure. We are talking about a $275 deductible, a $35 monthly premium, 75-25 coverage, in other words, 75 percent paid by the Federal Government, 25 percent by the senior to the first $2,200 and no assistance until $3,600, at which point, the catastrophic is reached. So there is a huge doughnut hole; basically, between $2,200 and $3,600, in assistance, seniors get nothing. This means that seniors will have to pay nearly $2,600 before the government pays for all drug costs.

Twenty million seniors or half of all seniors will be paying premiums year-round but would have no coverage for part of the year due to this large gap or doughnut hole in the coverage.

Now, the combination of this insufficient benefit combined with watered-down generic provisions, watered-down reimportation provisions, and the prohibition of the Medicare Administrator to negotiate lower drug prices brings me to my point that this Medicare final agreement is a giveaway to the name-brand pharmaceutical industry.

Mr. Speaker, there are so many fundamental problems with this upcoming Medicare agreement beyond what I have discussed tonight. There is no Medicare fallback in this bill that is favorable to seniors. We expect 2 to 3 million retirees to have their coverage dropped. Ten million, or one out of four, seniors will be forced to pay more for Medicare or to join an HMO. Low-income seniors are not financially protected and will be subject to an assets test for the first time in Medicare history. And the Medicare Part B will rise for the first time in 12 years. Means testing will be implemented in the Medicare program for the first time in its history, and tax sheltered accounts for the wealthy are going to be part of this bill, even though it is not really a Medicare bill.

Mr. Speaker, the list of problems in this so-called Medicare agreement is overwhelming, and I really do not know how the Republicans or groups like the AARP or the President and others who have endorsed this agreement can live with their deceit and ill will against America's seniors.

□ 2100

UNDERMINING THE WHOLE CONCEPT OF MEDICARE

The SPEAKER pro tempore (Mr. TANCREDO). Under a previous order of the House, the gentleman from Washington (Mr. MCDERMOTT) is recognized for 5 minutes.

Mr. MCDERMOTT. Mr. Speaker, I want to associate myself with the remarks of the gentleman from New Jersey (Mr. PALLONE). This week is one of the most important weeks that I have seen in the 16 years I have been in the Congress because we are dealing with an issue that is about the question of what is in the common good.

We have no problem in this country believing that fire departments and police departments and road systems and schools are issues of the common good. We all pay our taxes. We all get benefits from them, and we have since 1964 had a program in this country called Medicare which was a program in which everybody put their money and people over the age of 65 took out their money to pay for health care benefits when they needed them. Everybody got the same thing everywhere in the whole country.

But there have been people in this Congress who have always thought that the idea of doing something collectively was somehow, I do not know, socialism or something bad. I do not know. They believe that everybody should be individually responsible for themselves, that they should be on their own and that they should deal with these things in a market, like they were buying cars or buying refrigerators or television sets.

So we have a bill before us that is going to undo what we have had in this country for senior citizens for the last 38 years. They have been waiting. They have been trying to do this for 4 or 5 years.

I was on the Medicare commission. One of the Members of the other body and the gentleman from Michigan (Mr. DINGELL) of this body and I represented the Democrats on that commission, and we managed to hold off the disaster which is being foisted on the senior citizens and the country itself in the next week.

This attitude about the common good really began to be undermined under Mr. Reagan. It was his campaign slogan in 1980: Are you better off than you were 4 years ago? Not are "we" better off than we were 4 years ago, but are "you."

This bill is going to say we are going to guarantee a premium support to every senior citizen in this country; we are going to write them a check, $5,900, $6,000, $6,300, whatever; and we are going to say now you, grandma, take that check out and find yourself an insurance company that will take care of what your needs are. You can stay in the program of Medicare as we know it, but since the healthy and the least sick will go out and find these good deals somewhere, who will be left in the regular program? The old and the sick.

The price per person is going to go up, so they are going to raise the premium on anybody who stays in the regular program. Is that thinking about the common good, that we are going to pick on the ones who are the old and the sick, and we are going to let the young and the healthy seniors go off and make a good deal somewhere? No, it is not. It is wrong, it is un-American, and it is undermining the whole concept of Medicare.

The idea that all seniors put their money into the pot, nobody sits around in this country and says, gee, I hope I get sick so I can use some money out of the pot. There is nobody that crazy in our country. Everybody wants insurance there when they are sick and particularly they want to feel independent, they have taken care of it themselves. It is not their children that have to do it or their grandchildren.

My father died a couple of years ago at 93. My mother is 93, and we four kids in my family have not had to spend anything on our mother's health or our father's health. Like every American, we pay our taxes into the pot, and they have taken out when they needed to; and that has gone on over the entire country.

What they are saying in this bill is send your mother out and let her pick her own plan. That is wrong; and as we watch this debate, understand that is what they are saying to every senior citizen. Here is your money; good luck, Grandma; I hope you find something for yourself.

I hope every Member votes "no" on this. We could do better than this.

PRESCRIPTION DRUG PRICES

The SPEAKER pro tempore. Under the Speaker's announced policy of January 7, 2003, the gentleman from Texas (Mr. NEUGEBAUER) is recognized for 60 minutes as the designee of the majority leader.

Mr. NEUGEBAUER. Mr. Speaker, I yield to the gentleman from Minnesota (Mr. GUTKNECHT).

Mr. GUTKNECHT. Mr. Speaker, I want to thank the gentleman from Texas (Mr. NEUGEBAUER) for yielding to me, and I want to thank him for claiming the time.

I rise tonight to talk about an issue where we have had a lot of discussion so far tonight. We have had a lot of discussion during this entire legislative session. In fact, we have had a lot of discussion for a number of years, and that is the issue of the price that Americans pay for prescription drugs relative to the rest of the industrialized world; and the gentleman from Texas (Mr. NEUGEBAUER) was good enough to join us in what really is an overwhelming majority of Members of the House who voted on this issue earlier this year.

It all started several years ago for me when I went to a town hall meeting in Faribault, Minnesota, and there were a lot of seniors there; and they were talking about their trips up to Canada to save some money on prescription drugs. It was a little like a Nolan Ryan fastball. It just blew right by me, and I guess I decided if they wanted to go to Canada to buy their drugs, that is fine by me; and I never thought much about the issue.

They continued to pester me about this, saying things like, why is it we as seniors are treated like common criminal, just because we are trying to save a few bucks on prescription drugs; and still I did not pay much attention to the issue until something totally unrelated happened.

The price of pigs collapsed. Live hogs dropped from about $37 per hundred weight down to about $7, and we produce a lot of hogs in my part of the world. My pork producers kept calling me saying, Congressman, can you not do something about this; and so I called the Secretary of Commerce, and I called the Secretary of Agriculture. I got essentially the same answer. I should finish the story. What they really complained about was all of these Canadian hogs coming across our borders making our supply-and-demand situation even worse, and they said can you not do something at least about all these Canadian hogs.

I called the Secretary of Agriculture, called the Secretary of Commerce, got essentially the same answer. They said, well, that is NAFTA. That is free trade. We cannot stop the Canadian hogs from coming in, and all of a sudden a lightbulb went on over my head, and I said, wait a minute, you mean we have free markets and free trades when it comes to pork bellies, but not when it comes to Prilosec? I think the Secretary of Commerce sort of chuckled and said, well, I guess that is right.

That is when I began this little crusade of mine, and I began to study this issue even more, and Mr. Speaker, the more I have learned, the more I realized we in Congress need to do something about this because we created this environment. Unlike some of my friends on the left, I usually do not spend a whole lot of time saying shame on the pharmaceutical companies. I say shame on us because essentially we have created an environment that they are taking advantage of. We protect them like no other product from foreign competition, but let me talk first about the differences between what we pay in the United States versus what they pay in the rest of the industrialized world.

Let me give my colleagues some examples. We were in Munich, Germany, earlier this year; and we purchased 10 of the most commonly prescribed prescription drugs off the shelf at the Munich airport pharmacy, and here are some of the prices we paid.

We bought 10 tablets of Cipro, 250 milligrams for $35.12 American. That same product here in Washington, D.C., is $55. We bought Coumadin. That is a drug my father takes. It is a blood thinner that was developed at the University of Wisconsin. The generic version is called Warfarin. It actually is a rat poison. We bought it in Germany, 100 tablets, 5 milligrams for $21. That same package of drugs here in the United States, same product, made by the same company, under the same FDA approval, sells here in the United States not for $21 but for $89.95.

Glucophage, a miracle drug for diabetes, a drug that we purchased in Germany, 30 tablets, 850 milligrams, $5 in Germany, $29.95.

Pravachol, Prozac, Synthroid, all the same story. Come down here to this one, and this is the one that really gets to my gizzard, and that is the issue of the anticancer drugs, where we, American taxpayers, have paid so much to develop these drugs. Tamoxifen, we bought, in fact the actual number, we rounded it off here. It was $59.05 for 60 tablets, 20 milligrams of Tamoxifen. An amazing drug, a miracle drug in terms of the treatment of breast cancer. That same drug we checked here in Washington, D.C., local pharmacy, $360, six times more in the United States. Here is what really chaps my hide.

American taxpayers paid to develop that drug. As a matter of fact, through the NIH we paid to take that drug all the way through phrase two trials. The American taxpayer paid to take that drug through phase two trials, and then we licensed it to one of the pharmaceutical companies, and they sell it back to us.

Clearly, we ought to pay our fair share of the cost of research. I think we ought to subsidize the people in sub-Saharan Africa, but I do not think the American taxpayers and the American consumers should have to subsidize the starving Swiss or the starving Germans. It really is time for them to pay their fair share.

Mr. Speaker, we have to ask is it really fair to make American consumers pay six times more for a drug that they paid to develop and take through phase two trials? This story goes on.

If we look down here at Zoloft, $82.52 in Germany, $132.95 for American consumers and the story goes on; and some people say, well, that is because in some countries they fix' the prices. They have price controls. In some respects that is true, but it is not always true.

For example, in Great Britain, the pharmaceutical companies can sell their drugs for whatever they want. There are no price controls in Great Britain. That is according to a report that was done and paid for by the Pharmaceutical Association in Europe, done, we have a copy of it in my office; and if any Member would like a copy, they can just call and we will send them a copy. Essentially what they do in Great Britain is they can charge whatever they want, but the British medical plan will only reimburse so much for these drugs, and they found that consumers in Great Britain have a tremendous amount of resistance to paying huge co-pays.

I have a drug here, Cipro, a marvelous drug. We bought this in Germany, $35 in Germany, $55 here in the United States, and my colleagues do not have to take my word for it. They do not have to just take my word for it now. More and more of the media are actually doing their own research, and here is another copy and Members can get a copy of this by going to my office, calling my office. I think we may even have this on our Web site. There is one done by USA Today. This was done by the Associated Press; and I will not bore my colleagues with all the numbers, but they are exactly the same, and they compare the prices.

For example, Lipitor in the United States, the best price they could find online in the U.S., 10 milligrams, 90 tablets each, Lipitor, $207.99. One can buy that drug in Canada, the online price, $132.07. Paxil, $80.99 in the United States, $40.80 in Canada; and those stories go on and on. Vioxx, an amazing drug. I guess it is an antirheumatoid-type drug. Fortunately, I do not have to take it yet, but it is $85.99 in the United States. It is only $36.17 in Canada.

But the real issue is, why is it that the world's best customers pay the world's highest prices? That is a fair question. It seems to me we as policymakers for the United States of America ought to ask that question, and we ought to demand better answers.

I want to come back to something I mentioned earlier; and I had the Congressional Research Service do a little research for me, and I asked is there any other product class that you can think of where we provide so much protection from competition from the same product from abroad? They went through and they did some research, and in fact, I will just read from what the CRS says, and they are our official researcher. I will quote. It said: "We have been unable to locate any statutory provisions similar in language and structure to the one in the Food and Drug Cosmetic Act." In other words, nobody enjoys that kind of protection.

Matter of fact, they went even further. They said: "As indicated above, our research has uncovered no other statute that contains language similar to that in section 381(d)," and this is the interesting thing. Even heavily regulated industries such as chemicals, pollutants and munitions are not apparently subject to the statutory provisions limiting reimportation of the product to its original manufacturer.

□ 2115

In other words, there is no other product class.

Now, some people say, well, safety. It is all about safety. We want to protect the consumers. Members, understand this, we keep incredibly good records in terms of how many people have become seriously ill or died from taking drugs from other countries. The FDA keeps those records and the CDC keeps those records. As far as we can determine, and this is under testimony that was given in front of a subcommittee of the Committee on Government Reform, and it is an easy number to remember, it is zero. It is a nice round number.

Now, you contrast that to how many people get very ill and die every year from food-borne pathogens. Now, it is the Food and Drug Administration, and yet for some unknown reason, some reason unknown to me, we have set, for things like Cipro, we have set the bar impossibly high. We have an absolutist standard. But when it comes to fruits and vegetables, we barely even look at them when they come into the country.

The bottom line is you can get just as sick, as a matter of fact you can die, from food-borne pathogens. By their own studies, the FDA acknowledges that 2 percent of the fruits and vegetables that come into the United States every day, 2 percent of them, are contaminated with food-borne pathogens, including things like salmonella. My colleagues, if you get salmonella, and particularly if you have any other kind of medical problem going on in your system at that time, you can die.

We know, for example, in the last 2 years, that 2,264 Americans have become seriously ill from eating raspberries from Guatemala. Do we stop raspberries from Guatemala from coming in today? I do not think so. Forty percent of the orange juice that Americans consume comes from other countries, and yet it comes right in. They say, well, gee whiz, somebody might get in there and contaminate the drug supply. What about contaminating the orange juice supply? It seems to me we have this ridiculous measure when it comes to safety for prescription drugs and virtually no measure when it comes to our food supply.

Now, I am not saying we need to have a much stronger implementation of a security system for fruits and vegetables, but it seems to me if you are going to have one standard for fruits and vegetables and another standard for prescription drugs, at least we, as public policymakers, ought to demand some kind of a rationale from the Food and Drug Administration.

Now, the bill we are going to probably consider here at the end of the week does nothing about allowing Americans to have access to world-class drugs at world-market prices, and I think that is a terrible mistake. Because I think, here in Washington, we have spent so much time talking about coverage, we have to find ways to get people coverage for prescription drug benefits, that we have missed the big picture. The issue is not so much about coverage. Every senior in America qualifies to buy prescription drug coverage. They can buy it through the AARP. Prescription drug coverage is available in lots of ways from lots of sources. The issue is not coverage, the issue is affordability. And that is the tragic problem with the bill that we will consider later this week, and that is that it does precious little to deal with affordability.

Now, the sponsors are going to say, well, wait a second, Congressman GUTKNECHT, we are going to create these systems, sort of like the Federal Employees Health Benefit Plan, and that is going to bring down and hold down the price of prescription drugs. Well, we have some evidence of just how well the Federal Employees Health Benefit Plan does in terms of lowering the cost of prescription drugs. Let me give some examples.

For example, the Blue Cross/Blue Shield plan that services Federal employees, they do get a discount on Coumadin. I mentioned here that Coumadin, at the retail price in the United States, can be $90, or $89.95. Well, the Blue Cross/Blue Shield plan does not pay $89.95. They get a discount. They buy it for $55.31. The Mail Handlers Plan, however, does not get their drugs for $55, they pay $72.24. My colleagues, you can buy that same drug off the shelf in Munich, Germany, at the Munich Airport pharmacy, for $21. In other words, the Blue Cross/Blue Shield plan pays more than double what the Blue Cross/Blue Shield Federal Employees Benefit Plan does.

And it goes on. Take Glucophage. We talked about Glucophage. Well, this is in a different quantity. We are talking about a larger prescription. But the Glucophage they are buying using the Federal Employees Benefit Plan, they buy it for $90 for the Blue Cross/Blue Shield plan. The Mail Handlers pay $118. The HMO plan, they get a heck of a deal, they buy it for $18.30. But you can buy it right off the shelf in Germany for $22 for that exact same drug.

And the story goes on with all of the plans. And Members, do not take my word for it. This is information that was done by the gentleman from Oklahoma (Mr. ISTOOK) and his subcommittee staff, where they did some comparisons about what we pay even through the Federal Employees Benefit Plan versus prices off the shelf in Canada, in Europe, and other industrialized countries. And the answer is that in every category we pay a lot more, even with the discounts that we get for the Federal employees.

As I say, I think we ought to pay our fair share, and I believe research is important. I am vice president of the Committee on Science, and I am proud of the fact we Americans represent 6 percent of the world's population, but we represent over half of the basic research done in the world. That is important. And I think it is important that the pharmaceutical companies continue to do that kind of research. But I think Members have to understand that we subsidize that research here in the United States in three separate ways.

First of all, we subsidize it through the Tax Code. Now, when these pharmaceutical companies say, well, we spend so much on research, well, you might just ask them how much are you able to write-off on your Federal tax forms? And if you do business in Puerto Rico, how much Federal income tax do you pay? And in addition to that, is it not true over the last 10 years you have taken over $28 billion in investment tax credits for the research that you do: for research and development tax credits? So you add it up, and the net real cost to the pharmaceutical industry is much less than they sometimes say.

And, incidentally, more and more independent groups, bipartisan groups, nonpartisan groups are coming to the same conclusion, and that is that the pharmaceutical industry is now spending more money on marketing and advertising, in fact, in some cases some companies dramatically more on marketing and advertising than they are for research. So research is important, but we pay for it through the Tax Code. We subsidize it through the Tax Code.

We subsidize it also in the amount that we spend on research. I mentioned that I am proud of the fact that we finance an awful lot of research with taxpayers' dollars here in Washington. This year we will spend upwards of $27 billion through the NIH, the CDC, even the Department of Defense on research projects which will directly or indirectly benefit the pharmaceutical industry.

And then, finally, of course, the way we subsidize them is in the prices we pay. I think once is enough. I think once we help to develop Taxoxiphen, we ought to at least be able to buy it at world market prices for American consumers.

This is a huge issue, my colleagues. And it is one that more and more seniors, and not only seniors but American consumers in general understand this issue. And I think there is a feeling here that if we just pass this prescription drug benefit plan that somehow this will go away. Well, Members, you need to understand a few things about, ultimately, the facts about this prescription drug benefit. And I am not here to criticize the Medicare reforms, I think most of the Medicare reforms we are talking about in this bill are very good, very necessary, and perhaps even overdue. But when you start talking about the prescription drug benefit, I hope you will understand, at least from my perspective, the facts:

First of all, this bill, they purport, is going to cost $400 billion. I think it is going to be a lot more than $400 billion, because we do not have effective ways of dealing with the cost, we are going to pay in the affordability of these drugs. But let us say it is $400 billion. Well, the CBO tells us virtually every dollar of that is going to have to be borrowed. To pay for this new entitlement, we are literally going to have to borrow the money from our kids and grandkids. In some respects, I think that is a terrible tragedy.

But as we look at the overall issue, what is going to happen is next year, by the time people begin to understand this, they are going to say, now, wait a second, and whether it is going to be 16 percent or 36 percent, no one really knows, but we do know this, there will be people who have prescription drug coverage today, through their former employers, who are going to be pushed off of the system and all of a sudden they are going to be thrown into this new government plan, and what they are going to find out is it is not as generous as the plan that they had through their former employer, for the most part. And they are not going to be happy.

I think a lot of conservatives and taxpayers are not going to be happy when they see the cost of this. And I think as they look at the final issue, if next year they look at the system and say, wait a second, you mean even after this, we are still going to be spending $360, or some number, let us say we get a 15 percent discount or a 20 percent discount off $360, that is roughly a $72 discount, that gets the prices down to about $290. That still is a lot more than they are paying in Europe for the same drugs.

No, I think Americans should pay their fair share. I think we are paying our fair share. But I think if we pass this bill later this week without dealing with the fundamental cause, or one of the fundamental drivers of this whole debate in affordability, it seems to me we are making a huge mistake. And it is one I think the voters will not be appreciative of once they begin to realize.

Yes, we need to reform Medicare. We have 50 million baby boomers moving on their way towards retirement. And it is inevitable that as we go forward, we have to do something about reforming the Medicare system. We have to make it fairer. We have to give consumers and seniors more choices. But if we are going to add a prescription drug benefit to the package, this new $400 billion entitlement, and going up in my opinion, then it seems to me we have an obligation to make sure American consumers, American taxpayers are getting their monies worth.

So I would hope that Members would at least pause and ask the question what are we going to do about opening up markets? What are we going to do to control the cost of these prescription drugs? What are we going to do to make them more affordable for American consumers? I think the answer ultimately to me is quite simple, and that is give the market access. Do what we do with those pig producers, require some competition across the border. Allow prescription drugs to work as virtually every other market does.

When markets work, when competition works, prices will level. And the net result is that we will pay considerably less in the United States. And some of the people in other industrialized countries are going to probably have to pay a little more. But that is the way markets work. They tend to level.

Mr. Speaker, again I want to thank the gentleman from Texas (Mr. NEUGEBAUER) for giving me the chance to present some of these things tonight. I know that not everyone agrees with me. I try to be respectful when I debate and discuss these, but it is such an important issue. And if I could just close with one other point, because some people say this cannot be done safely.

Members, I would encourage you to take a look at the newest technology that exists today. This is not pie in the sky. I have the technology right here in this little vial literally about 100 computer clips. And within 2 years, most of the products being sold at Wal-Mart stores will have these on them. This is the new UPC codes. And these little computer chips in this vial, there are about 100 of them, they are so small you cannot see them, but they will be able to track that product literally so that you will know when it runs through the scanner that this Cipro was produced at the Munich, Germany, plant on September 3, 2001 at 1 p.m. in the afternoon and it is in fact Cipro.

So the idea that we do not have the technology to do this today is really laughable. It exists. It is being used on other products. It will expand and be used even more. But, Mr. Speaker, and particularly the gentleman from Texas (Mr. NEUGEBAUER), I appreciate having the opportunity to present some of these things. If Members would like more information from my office or want to go to my Web site, simply go to gil.house.gov. We have some great charts which explain this.

As John Adams said, "Facts are stubborn things." This is a stubborn thing. This chart is not going to go away. And under the bill we are considering this week, it will not change much. Ultimately, we have the power to change it. The FDA works for us, not the other way around. It is not shame on the pharmaceutical industry, it is shame on us.

DECLINING MEDICARE REIMBURSEMENT FOR PHYSICIANS

The SPEAKER pro tempore (Mr. TANCREDO). Under a previous order of the House, the gentleman from Alabama (Mr. GINGREY) is recognized for 5 minutes.

Mr. GINGREY. Mr. Speaker, I rise again today, as I have a number of times before, to call attention to declining Medicare reimbursements for physicians.

Effective January 1, 2004, physicians and other providers paid pursuant to the Medicare physician fee schedule, face at least a 4.5 percent cut in reimbursements.

□ 2130

Mr. Speaker, I have been outspoken on this issue and have described several instances in which the citizens of Georgia and our Nation will be negatively affected by this cut. There is a staffing issue within the trauma center at Grady Memorial Hospital in Atlanta. Dr. Harry Sherman in Augusta is contemplating retirement due to a lack of adequate Medicare reimbursement and the high cost of liability premiums. And more specifically, I demonstrated the decreasing reimbursement for, and thus the eventual reduction in access to very common procedures provided to Medicare recipients.

I would like to bring the attention of my colleagues to a survey conducted by the American Academy of Family Physicians. This survey is not necessarily scientific, but I believe it is indicative of the problem we are facing. AAFP found that 24 percent of family physicians no longer accept new Medicare patients. After the 4.5 percent cut was announced, AAFP surveyed again to find out what its members would do if the cut takes effect. As detailed in a release from the American Academy of Family Physicians, only 36 percent said they would take new Medicare patients if these new cuts occur.

Mr. Speaker, come January, doctors are going to take a cut in their reimbursement for treating our Nation's most needy individuals. There is an old saying, however, that the night is always darkest just before the dawn. With a physician-reimbursement disaster looming, Congress is on the verge of a breakthrough. Housed within the Medicare modernization bill is temporary relief for the medical community. House and Senate negotiators have announced an agreement that will potentially bring this legislation before the Congress this week. I thank the gentleman from California (Mr. THOMAS) and the subcommittee chair, the gentlewoman from Connecticut (Mrs. JOHNSON), and those from the other Chamber, such as Senators FRIST, GRASSLEY, BAUCUS and BREAUX, who have worked so hard to get us to where we are today.

I encourage all of those involved in this process to continue to act in the best interests of the American people, but especially our seniors and the medical community on which they so desperately depend. Let me be clear, as a physician Member of the United States House of Representatives, I believe that we must pass the Medicare conference report now. For nearly 40 years, Medicare has provided necessary health care to millions of patients across this country. Another steep cut in reimbursement rates would have been devastating for the physicians who care for Medicare patients; but with the language that has been crafted, the physician-reimbursement update would be a positive 1.5 percent.

This chart is representative of the positive impact the current Medicare legislation will have on Medicare providers throughout the country. For example, New York will see a benefit of $865 million; Washington State benefits $155 million; Texas, $641 million; and most important to me and my colleagues from Georgia, our State will benefit $254 million. All 50 States will see a positive impact from the current version of the Medicare conference report.

I cannot overstate the importance of just this one piece of the overall Medicare bill. It is my hope this will allow for the continued access to quality health care for our seniors. I am proud that as the door was slamming shut on our seniors' health care, this Congress stood up, and will stand up, in a bipartisan fashion and hold this door open.

Mr. Speaker, one of the greatest achievements of the Medicare program is the access to high-quality care it has brought to our Nation's seniors and disabled patients. This level of access is more likely to continue in light of this temporary fix. This legislation will allow Congress and the Center for Medicare Services the time to work together to finally find a more permanent solution by revamping the Medicare payment formula.

Doctors are the linchpin of the Medicare program. Let me say that a prescription drug plan is no benefit at all unless there are physicians willing to accept Medicare patients and to write those prescriptions. We need to pass this conference report and pass it now.

IRAQ WATCH

The SPEAKER pro tempore (Mr. TANCREDO). Under the Speaker's announced policy of January 7, 2003, the gentleman from Pennsylvania (Mr. HOEFFEL) is recognized for 60 minutes as the designee of the minority leader.

Mr. HOEFFEL. Mr. Speaker, I am here tonight with my colleagues to resume the Iraq Watch we have been conducting almost every week on the floor since sometime last spring. I believe it was April that we started speaking every week on the floor about our concerns about our policies in Iraq, trying to ask questions, trying to seek answers from the administration regarding the policies that we have been pursuing. Also, we have been suggesting changes that we would like to see in those policies. Of course, a lot has happened in Iraq since last spring, since the very impressive and brave work of our military men and women, the impressive victory that they won over Saddam Hussein, a victory no one thought was in doubt, but everyone was happy to see with minimal loss of life. We thought that the military performed with great courage and great skill.

Since that time, of course, it has become clear as the military battle was conducted, the planning for and the actual reconstruction and security of Iraq has been very poor. We have all been disappointed in the difficulties. The continuing casualties have been heartbreaking. The inability to get the American-appointed Governing Council to work effectively to try to bring the Iraqi society together has been disappointing. I think the Bush administration finally understands they need to change their plan for the ultimate creation of a new government and a representative democracy and hopefully a pluralistic society in Iraq.

Recently the administration has announced a change. They will no longer ask that the Governing Council in Iraq be responsible for writing a new constitution and holding new elections before America gives up authority for the reconstruction and the occupation of Iraq.

Instead, Mr. Speaker, we are now putting time limits on our occupation. We have apparently announced that we will give to the Iraqis the responsibility for their reconstruction next summer, although the President has been clear, and I agree with the President that we must continue to keep our forces there to make sure the tyrants and the murderers do not come back if the Iraqi democrats-to-be fail to move forward and secure their country.

The question is what is the best policy for this country? How do we best achieve a stable and secure Iraq, which is a goal all of us share? How do we best achieve the creation of a pluralistic society? How do we best establish a representative government based upon principles of self-government and tolerance and cooperation with the rights of women protected, with sharing of responsibility between the three great ethnic groups in Iraq, the Sunnis, the Shiites and the Kurds? How do we best achieve this in the face of a security threat in Iraq where our troops are not safe, where the guerilla attacks against our troops continue, where there is no Iraqi Army yet ready to step forward to provide for its own security, where the Iraqi police are not yet capable of providing for security domestically? How do we best proceed?

Some fear that the President after holding on to power and not allowing the Iraqi Governing Council or any other group to have any decision-making power, some fear that the President now is moving too quickly to give up power to the Iraqis; and I think it is a very legitimate question because if we leave too early, if we leave a vacuum in any way in Iraq, only bad things can happen, whether Saddam Hussein or his followers attempt to come back, whether a new group of lawless thugs attempt to take over, whether forces from other countries attempt to infiltrate and take over Iraq, none of that would be good. None of that would be good for the Western democracies; none of that would honor the sacrifices that brave young Americans have made, including those who have made the ultimate sacrifice and have died serving their country.

A premature departure from Iraq by this country could lead to a less stable country in Iraq. It could lead to a less stable Middle East. It could allow Iraq to become a haven for terrorists, which is a process, unfortunately, already under way, a haven which did not exist when Saddam Hussein was in power. As murderous a tyrant as he was, he operated in a secular fashion and did not apparently have relationships with the religious fundamentalists and extremists that form al Qaeda and other terrorist groups. But now with the instability in Iraq, it has become a magnet for those who want to attack Americans and disrupt the search for peace in the Middle East.

It is my view, Mr. Speaker, the way to best achieve our national goals in Iraq is to recognize that while this country is uniquely capable of winning military victories and facing down tyrants and working for the liberation of oppressed people, we are perhaps not best suited for nation-building; that we are probably not using our resources and our skills to our highest potential when we get bogged down in having to administer a country. It is admirable that we are willing to pay for the reconstruction or some of the reconstruction of a nation, and that is a great and wonderful American tradition of rebuilding vanquished foes and those less fortunate. But how do we best achieve this stabilized society, representative government and the creation of a pluralistic society where tolerance and economic freedom and personal liberty can flourish?

I am here tonight to say that I continue to believe that we should turn to our multinational organizations such as the United Nations, NATO, and others, to help us with nation-building in Iraq. I would point out that the United Nations is perhaps uniquely qualified through experience and organization to be responsible for reconstruction and nation-building.

In fact, this is what the United Nations was created to do in 1945. I fear that an almost irrational opposition to the notion and the concept of the United Nations from some on the other side of the aisle is preventing this country from calling upon the United Nations to assume this burden. There are many reasons why I would like to see this happen. It is not only to get out from under the financial burden of reconstructing Iraq on our own. It is partly that; it is also partly to share the responsibility for the reconstruction of Iraq. It is to share the credibility that is needed, to call upon other nations and multilateral organizations like the United Nations to provide the stability and take away from the equation some of the animosity that has wrongfully built up against America, but nonetheless exists in some part of the world.

□ 2145

Frankly, the United Nations is designed to do this kind of work. It is designed to relieve the United States from taking on all of the burden of reconstructing a country and building a new Nation. If we turn to the United Nations, we will still be the senior partner. We pay 25 percent of the bills of the United Nations. We will still have tremendous influence over what happens, but we would be in a position where the responsibility and accountability and the burden of reconstruction would be shared with an organization that is created to do that very thing.

Secondly, I do not believe, Mr. Speaker, that anyone, the United States, the United Nations, or anyone else, will have success in the stabilization of Iraq, not the least of which I would include the Iraqi Governing Council itself, unless we establish security in Iraq, and that has not been done. Again, I think it is asking too much of our American military to become a long-term occupying power, to have our young men and women serving in what, in parts of Iraq, seems to be, literally, a shooting gallery, with 20 or 25 daily attacks on American Forces and our Coalition Forces. We are not in a position to have secured Iraq. We clearly need more troops to do that. Yet, in my view, it should not be America's burden to send more troops.

So I would say that it is by far the best strategy to turn to NATO, the North Atlantic Treaty Organization, which is a military organization, to provide security in Iraq. NATO, of course, historically never fired a shot, was designed as a defensive alliance to keep the world safe from any hostility from the Soviet Union. In the conflict in Kosovo, the NATO forces were used for the first time out of the traditional confines of Europe, or at least on the southern stretches of Europe, used for the first time in a proactive way to defeat another tyrant, another dictator, Milosevic, in Kosovo. And NATO performed brilliantly and was able to liberate that country from the abuses of that dictator and has also now moved into Afghanistan to take over some of the security functions in that country. I believe that NATO would be the appropriate international organization to provide security in Iraq while we turn to the United Nations to take primary responsibility for the reconstruction of Iraq.

Now, none of this will happen, Mr. Speaker, none of this will happen until the United States is willing to give up some authority in Iraq. We cannot continue to call all of the shots in Iraq and expect our traditional allies to send troops or money or advice or anything else. It is time for us not just to put Iraqis back in charge, because it is not yet clear Iraqis are able to be back in charge, particularly, with the insecure conditions that exist there; but it is time for us, in concert with our traditional allies, in concert with international organizations that we created at the end of the Second World War, that we established for the very purpose of Nation-building. Nation-building was not a phrase then, it is a newer phrase, but the concept is exactly why NATO was established, and, particularly, why the United Nations was established. It is time for us to use our diplomatic skill to give up the necessary authority and responsibility, to share the obligations with these two international organizations, so that we can more quickly and more effectively and more safely stabilize Iraq, establish a pluralistic society, and move them towards self-government.

Now, Mr. Speaker, I would like to turn to my colleague, the gentleman from Massachusetts (Mr. DELAHUNT), one of the senior members of the House Committee on International Relations and a founding member of Iraq Watch, my good friend.

Mr. DELAHUNT. Mr. Speaker, I thank the gentleman. It is good to be here with my colleague tonight and share a few observations regarding this situation in Iraq. Also, I think at some point in time, I think it is necessary to present some information to the American people and to those who are listening here tonight relative to what is transpiring in Afghanistan.

I think to sum up what the gentleman said, one only has to look at the cover of the November 3 edition of Newsweek magazine, and it is entitled, "Bush's $87 Billion Mess. Waste, Chaos, and Cronyism. The Real Cost of Rebuilding Iraq."

It has become a matter of concern, as the gentleman well knows, not only to Members on this side of the aisle, Democrats, but clearly to our colleagues on the Republican side, particularly in the United States Senate, because if there is any term that best characterizes what is occurring, it is chaos.

Mr. Speaker, in our previous efforts in terms of Iraq Watch, we discussed the lack of post-major combat phase planning. And again, that opinion was shared by many, most specifically, the chairman of the Senate Foreign Relations Committee, RICHARD LUGAR who, in fact, had written an article that I thought was very incisive and appeared in the Washington Post. But not only do we not have a plan, but the plan seems to change almost on a daily basis.

If my colleagues remember, I think it was, in fact, a colleague of ours here in the House, a senior Republican Member of the House Committee on International Relations, the gentleman from Iowa (Mr. LEACH), highly-regarded and well-respected by all Members, who implored the President to establish, once and for all, who is in charge of whatever plan may or may not exist out there. Initially, Jay Garner, a former general, was dispatched to Iraq to work with Iraqis that were favorably disposed to the United States to begin the process of rebuilding. And, after a relatively short period of time, there was a change there. And L. Paul Bremer became, if you will, the viceroy of Iraq. Mr. Bremer indicated that his boss to whom he reported directly was the Secretary of Defense Mr. Rumsfeld. Yet, several months thereafter, there was an announcement from the White House that in fact it was the National Security Adviser, Condoleezza Rice, who was vested with the responsibility of coordinating the plan for Iraq. Of course, recently we learn that Mr. Bremer, because of the deteriorating situation in Iraq, either reached out or was summonsed by the White House for a special meeting directly with the President.

Mr. Speaker, I think it is important that there be one individual that can be held accountable, other than the President, for the shaping of this policy that means so much to the American people with our sons and daughters tragically dying there on an all-too-frequent basis, and to the American taxpayers who were asked by this White House to appropriate some $87 billion on top of the $79 billion that we have already spent in Iraq to create security in Iraq and to rebuild Iraq, if you will, to reconstruct Iraq. Many of us on this side of the aisle were adamantly opposed, primarily based on the fact that this money was not in the form of a loan, but was a gift to Iraq, a nation with incredible resources, some of the largest reserves in terms of energy anywhere in the world, second only to Saudi Arabia. And hopefully, at some time in the not-too-distant future, would clearly be able to repay the American taxpayers for the sacrifices that they are making now while we are dealing with these burgeoning deficits that will at some point in time be a severe drag on our economy.

But not only do we have a confusion in terms of who is in charge, but we have had a series of different plans. It would appear now that the most recent plan is what I would describe as the French plan, the plan that France suggested would be the most fruitful initiative in terms of bringing stability and rebuilding Iraq. I find that rather ironic, given our recent rather divisive relationship with France.

Mr. HOEFFEL. Mr. Speaker, the gentleman refers to the latest plan as the French plan. The New York Times on Sunday, in looking at the plan that they characterize as throwing the problem to the Iraqis, called it the "hot potato plan." French, hot potato french fries perhaps, whatever.

Mr. DELAHUNT. Mr. Speaker, maybe this was a hot french fries plan; I honestly do not know.

I notice we have been joined by the gentleman from Ohio (Mr. STRICKLAND), our friend, who is also a member of our Iraq Watch group. But I think what is difficult to accept is that what we have now achieved is the expenditure of billions of dollars of American taxpayers' money. Of course, the White House made note of the fact that there were other international donors in a conference in Madrid. But what I thought was particularly noticeable in Madrid was that not a single donor there, with the exception of the Japanese, provided gifts, outright grants like this institution did and like this White House did, but no, they decided they would loan the money so that their people would be repaid rather than our people who are carrying the entire burden.

But here we are, we have suffered, and let us be very candid and frank: We have suffered a loss of prestige all over the world. One only has to turn to nightly news shows. Leading the news now are the preparations in Great Britain for the visit of our President, President Bush who, according to the most recent polls is viewed negatively by our ally, the English people, by 60 percent. Sixty percent of the English people disapprove of President Bush. Whether one is a Democrat or whether one is a Republican, that is painful to us. That is painful to us. We do not wish our President to be viewed as negative by our ally. And recently during the course of a hearing on the Subcommittee on Latin America, data was put forward that 87 percent of our neighbors here in this hemisphere disapprove of our President. Again, that pains us all.

□ 2200

That pains us all.

Mr. HOEFFEL. Mr. Speaker, may I interrupt the gentleman from Massachusetts (Mr. DELAHUNT) again?

There was additional polling information made available over the weekend from a European pollster, I do not know the name, saying that a majority of citizens in virtually every European country except, I believe, Italy, view the United States as the most likely country to start a war or to create instability. Now, I reject that view completely. We are the peacemakers and we are not the war makers; but I wanted to emphasize the gentleman's point that something has gone wrong with the way we are viewed by our friends around the world, let alone how we are viewed by our enemies. I am not so concerned about how the enemies look at us, but when the Western European democracies have a negative view of our President and our country, a negative view that I do not share, but that they have come to that conclusion, something is dramatically wrong.

Mr. Speaker, would the gentleman from Massachusetts (Mr. DELAHUNT) mind if we bring our colleague into the conversation?

Mr. DELAHUNT. Mr. Speaker, I would welcome our friend, the gentleman from Ohio (Mr. STRICKLAND).

Mr. STRICKLAND. Mr. Speaker, it is good to be with you this evening. I was asked a few days ago by a reporter in my district why the emphasis on what has gone wrong in Iraq. The question was phrased in this way: Should you not be concerned about the future and what we do next? And my response was this: The same people who are in charge of planning for the future are the people who have gotten us to the point where we are now. And unless we look at how we got into this situation, unless we scrutinize the decision-makers who brought us to this point, we cannot have confidence that we are being taken in the right direction as far as the future is concerned.

If I could just say a word about the $87 billion that my friend referred to earlier. I think the American people need to know that if we were to take the 435 congressional districts in this country, and we were to divide $87 billion by the 435 congressional districts, what we would come out with is $200 million that could be spent in every congressional district in this country for the needs that exist back home, for the jobless people, for the children who do not have health care, for the older people who do not have prescription drugs.

Mr. DELAHUNT. And, Mr. Speaker, for our veterans.

Mr. STRICKLAND. For our veterans. And that leads me to the fact that we are underfunding veterans health care by $1.8 billion. $1.8 billion. We are sending $87 billion to Iraq in addition to what we have already spent this year, and we are being so stingy with our veterans that we are underfunding their health care by $1.8 billion.

And the American people need to know that over in the Senate they passed an amendment to add an additional $1.3 billion of that $1.8 billion shortfall. And the very day that amendment passed the Senate, the White House put out a statement opposing it. Now, think of that. Here we have a President, we have a President who has asked for $87 billion for Iraq and takes active opposition toward the efforts in this Congress to give an additional $1.8 billion to our veterans. I mean, I think that is shocking; I think it is something the American people would object to. And they need to know about that.

But I want to talk about one other thing, if I can, in regard to this war effort, and it is something that I have talked about and I think others have talked about on this floor before. But it is something that the American people need to know about. As our soldiers continue to die on a daily basis in Iraq, I think Americans have a right to ask for answers from the President, from our Secretary of Defense, from the Pentagon: Why do all of our troops who are fighting for us this very moment in Iraq not have the best protective armor available? When will this armor be available to all of our soldiers? Why were soldiers sent into battle with these cheap, Vietnam-era flak jackets that are not capable of stopping bullets?

I have asked the Secretary of Defense, Mr. Rumsfeld, to provide answers as to how many American soldiers have been killed or have been seriously wounded in part because they were not adequately protected. And I have asked the Secretary to commit that we will not provide this protection to foreign troops until every, every American soldier in harm's way is so protected.

Somebody needs to be held accountable for this. We had months to prepare for this war, months during which we knew we were likely to be sending young Americans into harm's way. And yet we did so without giving them this protection. Somebody ought to be held responsible. Either the President or Secretary Rumsfeld or some lower-level individual apparently made the decision that this was not a priority. And I believe American soldiers have lost their lives because of this failure to plan, failure to set appropriate priorities. And who is going to be helped accountable, and when is the situation going to be altered?

Americans need to know that as we sit in our homes and watch TV, and those of us who work in this Chamber are here, we carry out our daily lives, that there are young Americans over there in tanks and in Humvees and walking patrols that do not have the most basic protection, this body armor that is capable of stopping bullets. Why do they not have that protection?

Mr. DELAHUNT. Mr. Speaker, would the gentleman from Ohio (Mr. STRICKLAND) yield for just a moment.

I met with families of Reservists and National Guard, military that are serving in Iraq currently. They have been trained as a transportation unit. They are now serving in a different role that exposes them to great danger. They are using their own equipment, trucks that have no armor protection, that are open, that leave these men and women on the back of what I would call a large pickup vehicle as a sitting target. These families were outraged. One actually had to go to a military hardware store, presumably, to purchase for their son a $900 kevlar suit because the parents simply could not sleep at night. And it cost that family $400 to send it via the United States Post Office.

Mr. STRICKLAND. General Myers and others have been widely quoted in the press as saying this is not a money problem; it is a supply problem. Well, it is a supply problem because this war was under way for almost 7 months before the first request came to this Congress for resources to provide this protection. But even beyond that, I got a call in my office, week before last, from a company that told me they had 30,000 of these plates in stock, plates that meet specifications. Because they say they also provide them to our Army Rangers.

I do not know how those responsible can sleep at night. They ought to stay up until they solve this problem.

I just met with a young soldier back in my district who was wounded by shrapnel. He told me that he sees no way that this Pentagon commitment to have these vests delivered to all of our troops by December is going to be possible. He says there are thousands of troops over there without this most basic protection.

Now, how can we trust these people to tell us what is the best course of action for the future of this war in Iraq when they have been so incompetent and negligent in providing our troops with this most basic protection?

Mr. DELAHUNT. And yet, Mr. Speaker, they would criticize those who ask those questions and instead put forth, if you will, a PR campaign to say what is right in Iraq. But it is time, I believe, to listen to the troops who give us insight. We all know, for example, because we travel abroad and oftentimes we visit our troops, that these trips are very carefully structured so that only those things the civilian leadership of the Department of Defense wants us to hear is provided us.

If I could just indulge my two friends for a moment. Back in mid-October there was a report in The Washington Post and it is entitled, "Many Troops Dissatisfied, Iraq Poll Finds." A broad survey of U.S. troops in Iraq found that half of those questioned described their unit's morale as low and their training as insufficient and said they do not plan to reenlist. Now, this was not a poll conducted by The Washington Post or the New York Times, or the Los Angeles Times or the Boston Globe. It was a poll that was conducted by the Stars and Stripes newspaper, a newspaper funded by our Pentagon, our Department of Defense.

The findings, if I can just go on, the findings drawn from 1,900 questionnaires presented to U.S. servicemembers throughout Iraq conflict with statements by military commanders and Bush administration officials that portray the deployed troops as highly spirited and generally well prepared. Though not obtained through scientific methods, the survey results indicate that prolonged tours in Iraq are wearing down a significant portion of the U.S. force and threatening to provoke a sizable exodus from military service. And yet the paper quotes General Sanchez, commander of the U.S. forces in Iraq, saying in a September 9 interview for this particular series, "There is no moral problem."

Of course, as we know, the Bush administration has launched this campaign. But the Stars and Stripes, the military's paper, raised questions about what visiting dignitaries, such as us and our other colleagues who have visited Iraq, get to see. Let me quote again from the Stars and Stripes: "Many soldiers, including several officers, allege that VIP visits from the Pentagon and Capitol Hill are only given hand-picked troops to meet with during their tours of Iraq," the newspaper said in its interview with General Sanchez.

The phrase "dog and pony show" is usually used. Some troops even go so far as to say they have been ordered not to talk to VIPs because leaders are afraid of what they might say.

Let me say it is about time for the unvarnished truth to be presented to the American people. And that is what we attempt to do during the course of this hour, of which we have had many.

Mr. STRICKLAND. Mr. Speaker, if I could just say a word about the troops. I spent some time last weekend with two young soldiers from my district, both of whom have been wounded, and they have come back for medical treatment. They are good, loyal, patriotic soldiers. They are going ,to do their duty. They care about Iraq. They care about the Iraqi people. They care about the final outcome in that country. The problem is not with our troops. These are wonderful young Americans who are simply doing what they are called upon to do. And they are doing it well.

The problem, as I see it, exists with the decision-makers, those who sit here in the safety of the offices in Washington D.C. and elsewhere and make decisions which affect real lives. I had breakfast in a restaurant in Ohio a couple of weekends ago. As I was finishing my breakfast, I struck up a conversation with a young woman sitting in a booth next to me. She was leaving Ohio as soon as she finished her breakfast and driving to Baltimore to meet her husband, who is stationed in Africa and who is coming home, who is coming home for a 2-week leave. And then she told me that she had just gotten her orders and she is being deployed to Iraq. The children are going to be taken care of by the grandparents.

□ 2215

I just share that with you to emphasize the fact that we are talking about real people, real mothers and dads, real sweethearts, real sons and daughters. These are real Americans, and decisions are being made to expose them to the most incredible danger.

The question is, is this war being pursued in a way that is rationale and reasonable? I still wish that this President, this administration would go to the world community, would seek out the help that we need, would internationalize the effort in Iraq, would stop our soldiers being the only targets basically.

We hear talk about a coalition. Let us face it. There are a handful basically of coalition forces in Iraq. Most of the young people there are being killed and injured and shot at are American troops; and we need to internationalize our effort, spread this responsibility and not just simply allow our kids, our children for the next, no one knows for sure. The most recent estimate I have heard is that at least for 5 years our troops are likely to be there, and I just do not think the American people want this to continue as it is unfolding before our eyes. Every day we see it happening.

Mr. HOEFFEL. Mr. Speaker, I agree with the gentleman. The problem is not with our troops. It is with the policymakers and our planners here in Washington.

I referred earlier to the New York Times article this Sunday. They entitled it "Iraq Goes Sour." And I take issue, actually, with one of the claims they make here. They blame the intelligence agencies for the failures to understand what was actually happening in Iraq. The editorial said, for example, the Central Intelligence Agency we now realize had no idea what was going on inside Iraq. They continue, the CIA's estimate regarding weapons of mass destruction were basically worst-case scenarios of what the Hussein regime might have been up to in the interim, in 1998 when inspections were cut off.

They continue, that was apparently a mistake, if an understandable one. The reality I think is different. I think that while the intelligence agencies clearly did not get it right, they were telling the policymakers last fall before Congress voted on whether or not to authorize the war, they were telling the White House that there was great uncertainty about what Hussein had and what he did not have. We know that now. We did not know it then.

This past Spring, 6 months after we voted, and after the war was fought and won, at least according to the President's proclamation on May 1, at least the military's battle was won, if not the guerilla battle. The House Permanent Select Committee on Intelligence made available to rank and file members 18 or 20 boxes of intelligence information, most notably the Defense Intelligence Agency report of September 2002. And then the great summary report the national intelligence estimate of October of 2002. And I have read the executive summaries of those documents. It is very long, and I spent a couple of hours reading it. It would take days to read all of those boxes, but those summaries which are still classified are replete with uncertainties, with the agencies saying, well, we believe he has got this. We believe he has got that but we are not sure. He had this amount of weapons in the past and we are not quite sure where they are today.

They have made the case, as the Vice President has said, that Hussein was trying to do certain things, but they were full of uncertainty. And my objection is none of that uncertainty was communicated to Congress and to the American people. The President and all of his people, and I want to give an example in a second, told us with complete clarity and certainty that Hussein had these weapons. We knew where they were. We knew how much they weighed. We knew everything about them. We were going to get them and we could not trust him for another moment. And it is my view that it is not the intelligence agencies that failed, but the politicians.

Mr. DELAHUNT. Mr. Speaker, I thank the gentleman for yielding to me.

I cannot agree more. Ironically, in this week's edition of Newsweek magazine, there is an article that I would commend to all of our colleagues here in the House and to the viewing audience here tonight. This is very important to read. As one can see, there is a picture of the Vice President on the cover. It is entitled, "How Dick Cheney Sold the War. Why He Fell for Bad Intelligence and Pitched It to the President."

The Central Intelligence Agency, I daresay, made a solid effort from what information now appears to be back in the public domain. I think it is safe to conclude that key players led by the Vice President, supported by Secretary Rumsfeld, and Under Secretary Wolfowitz, and Under Secretary Fife, cherry-picked, if you will, those pieces of information that buttress their case and made unequivocal statement to the American people.

It is very fascinating when the American people and the United States Congress learn that there is a special covert group within the Department of Defense. And this is within the civilian leadership, called the Office for Special Plans that was running a parallel operation in terms of intelligence analysis. It was that group that was doing the cherry-picking. It was that group that got us into this war. They made unequivocal statements, like Secretary Rumsfeld, that those weapons of mass destruction, we know where they are. They are in Tikrit, in the west here and in the east here. And, of course, we have discovered after expending close to a billion dollars to just simply looking for them that they do not exist, much to our embarrassment and again our loss of prestige.

So I think it is important that those who attack the CIA often do it in a way that I think reveals their own political agenda. Again, demeaning the professionalism of the men and women that serve in the CIA is not the way to have a constructive debate about what we ought to occur, what we ought to be doing right now.

Mr. STRICKLAND. Mr. Speaker, I would just concur with the gentleman that that is a very interesting Newsweek article. I read it a few hours ago. It is very disturbing because it does lay out how under the Vice President's leadership, this Office of Special Plans collected their own information and drew their own conclusions, and then they use those conclusions to encourage the kind of action that occurred.

Now, the fact is that the President has finally admitted quite publicly, in spite of the Vice President's statement to the contrary, that there is no evidence that Iraq or Saddam Hussein was responsible for the attack upon our Nation on September 11, 2001. That is a very critical conclusion, I think, for us to have come to. Because given that and given the fact that we had weapons inspectors in Iraq and they were asking for more time, would not you think that if there is uncertainty about exactly what Saddam Hussein has or may have, that there is no evidence that he was involved in the direct attack upon our country, that we would have approached this situation a little more cautiously, a little more thoughtfully, that we would have expended the time that the inspectors were asking for.

If we had done that, it may have been possible. It may have been possible.

Mr. DELAHUNT. Again, this is a situation that is continuing today where a conclusion or an opinion or a predisposed policy is searching for facts.

Talking about the CIA, what prompted Paul Bremer to come to Washington, DC, was a new top secret CIA report from Iraq that growing numbers of Iraqis are concluding that the U.S.-led coalition can be defeated and a supporting the insurgents.

Again, I am quoting from a newspaper report, "The report paints a bleak picture of the political and security situation in Iraq and cautions that the U.S.-led drive to rebuild a country as a democracy could collapse."

The report's bleak tone and Bremer's private endorsement differ sharply with the upbeat public assessments that President Bush, his chief aids, and even Bremer are giving as part of an aggressive publicity campaign aimed at countering rising anxieties over increasing U.S. causalities in Iraq. Let us be honest with the American people. Remember in Vietnam what, I daresay, forced Lyndon Johnson to reassess his plans for reelection, was the fact that there was such a great divergence and disparity between the reality that was being presented to the American people and the reality on the ground.

Mr. HOEFFEL. Mr. Speaker, let me introduce our colleague who has been waiting patiently. The gentleman from Washington (Mr. MCDERMOTT).

Mr. MCDERMOTT. Mr. Speaker, I thank the gentleman for putting this special order together.

I think that it is very clear we now know that they wanted to go to war immediately after 9/11 in Iraq. They went to Afghanistan really because that was more obvious to people at that point, but they were clearly planning for a long time and they simply misled us about what was there.

Everybody understands that now. There is no mystery in this country or anywhere else in the world. The question is, What are we going to do now?

I picked up the Sunday morning newspaper and last Thursday I came back to Washington, DC and went out to MCI Center to a hockey game with a bunch of amputees from Walter Reed. The next day I went up there and walked through several of the wards. There are two pictures of the front page of young men who have been severely injured that I know. I have met them. These are young kids who did what their country asked them, and we honored them.

I told them I was there because I wanted to say thank you. But the fact is that that is exactly what happened in Vietnam. Young people went and died doing exactly what they were asked to do. It is the leadership that ought to have to pay the price and they ought to start paying it right now.

We have a President who simply will not get off the fact that he made a mistake. He simply went the wrong place. He should never have stopped the war on terror. He should have finished what was going on in Afghanistan and then perhaps you look later at something, but Afghanistan is as bad or worse than it was when we went in there.

We still have people dying there. One died yesterday from the State of Washington. And we continued to allow our young people, men and women, now to be killed in a war that makes no sense in the way it is being run. And the President will not admit it. The whole world has told him that. They told him on the 25th of February, ten million people marched in the streets this in this country. The President said, It is just a focus group. We are going to war.

Now, my belief is that we have to figure out how we get out and how we, with honor, get out of this thing. It is going to be very difficult to do that.

□ 2230

When they called Bremer back here in the other day, it was simply because they said, gee, it is 1 year to the election. How in the heck are we going to explain this mess at election time? We have got to end it. So we are now, in every decision that will be made, it will be made not about what is good for our troops or what is good for the Reservists or the Guard people or anybody else, but what is seen to be good for the President's reelection campaign.

I am afraid that unless the Congress raises some noise about this, we are going to see more people sacrificed in this process because they will not get the international community in. If the President would say tomorrow, I want Kofi Annan to take over the reconstruction and Kofi Annan to take over the military peacekeeping in the country, we will make a contribution as we have but we are not going to run it, things would begin to change dramatically.

This is viewed as an occupation. The actual choice of where do they go with their headquarters when they came into Baghdad, they went to the palaces that Saddam Hussein had built and they moved in, and they said to the people, this is where we belong; we are running the place. No Iraqi missed the message.

Mr. STRICKLAND. Mr. Speaker, if the good doctor will allow me to interject a thought here, the President tries to set this up as a two choice paradigm. We either do exactly what we are doing now or, as he says, we cut and run, as if there are no other options, but the gentleman is describing a third option. There may be a fourth or a fifth option. We ought to be looking at the situation, not just simply blindly pursuing a course of action that is resulting in more and more death.

Quite frankly, I resent it when the President refers to those of us who question his policies as those who want to cut and run. The last thing I want to do in Iraq is cut and run. We cannot cut and run, and I know not a single

Democrat who is suggesting that course of action, but that does not mean that we endorse his plan because his plan is getting us deeper and deeper and deeper into a quagmire. More and more young Americans are being killed, and even more are being seriously wounded. We cannot allow this situation to continue.

Mr. McDERMOTT. The hardest part about this is that the American people are not being told the truth. If we read the American newspapers, they are told there are only 5,000 in al Qaeda over in Iraq. If we read the European papers, they say 50,000. We do not see any bodies coming back. They have absolutely prohibited the press and the media from going out to Dover when the troops come back or to go to cemeteries when people are being buried. They are simply blinding the American people's eyes. In my view, the American people have to demand that they know what is going on, and I think there is really no excuse for what they have done except that they have to make the political campaign look better.

This is a mess. Everywhere in the world we look at the press, any country in the world we see the press. They have all analyzed the President made a big mistake. The French, in fact, were right. If people really want to understand what is going on here, go watch the movie The Battle of Algiers. The French went through exactly the same thing in Algeria. There has not been a country in the 20th century that invaded a sovereign country and came out whole. Everybody loses.

Whether we are talking about Vietnam or we are talking about Algeria or we are talking about Lebanon or we are talking about any of those countries, the people who invaded always back out with their tail between their legs, and that is where we are today. Those kids, we have still got them out on the line; hold on, kid; keep fighting; try and save yourself. The people behind them are making bad decisions, again and again and again. It is a terrifying thing, and I think the American people cannot let them be blinded from it. They have to begin to demand that they see what the truth is.

Mr. HOEFFEL. Mr. Speaker, I thank the gentleman for his comments.

I believe our hour is up. I thank all of my colleagues for taking part in Iraq Watch tonight, and we will be back next week.

RECESS

The SPEAKER pro tempore (Mr. TANCREDO). Pursuant to clause 12(a) of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 10 o'clock and 35 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 0850

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. HASTINGS of Washington) at 8 o'clock and 50 minutes a.m.

CONFERENCE REPORT ON H.R. 6

Mr. TAUZIN submitted the following conference report and statement on the bill (H.R. 6), to enhance energy conservation and research and development, to provide for security and diversity in the energy supply for the American people, and for other purposes:

CONFERENCE REPORT (H. REPT. 108–375)

The committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 6), to enhance energy conservation and research and development, to provide for security and diversity in the energy supply for the American people, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses as follows:

That the House recede from its disagreement to the amendment of the Senate and agree to the same with an amendment as follows:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the following:

SECTION 1. SHORT TITLE; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Energy Policy Act of 2003".

(b) TABLE OF CONTENTS.—The table of contents for this Act is as follows:

TITLE I—ENERGY EFFICIENCY

Subtitle A—Federal Programs

Sec. 101. Energy and water saving measures in congressional buildings.
Sec. 102. Energy management requirements.
Sec. 103. Energy use measurement and accountability.
Sec. 104. Procurement of energy efficient products.
Sec. 105. Energy savings performance contracts.
Sec. 106. Energy savings performance contracts pilot program for nonbuilding applications.
Sec. 107. Voluntary commitments to reduce industrial energy intensity.
Sec. 108. Advanced Building Efficiency Testbed.
Sec. 109. Federal building performance standards.
Sec. 110. Increased use of recovered mineral component in federally funded projects involving procurement of cement or concrete.

Subtitle B—Energy Assistance and State Programs

Sec. 121. Low Income Home Energy Assistance Program.
Sec. 122. Weatherization assistance.
Sec. 123. State energy programs.
Sec. 124. Energy efficient appliance rebate programs.
Sec. 125. Energy efficient public buildings.
Sec. 126. Low income community energy efficiency pilot program.

Subtitle C—Energy Efficient Products

Sec. 131. Energy Star program.
Sec. 132. HVAC maintenance consumer education program.
Sec. 133. Energy conservation standards for additional products.
Sec. 134. Energy labeling.

Subtitle D—Public Housing

Sec. 141. Capacity building for energy-efficient, affordable housing.
Sec. 142. Increase of CDBG public services cap for energy conservation and efficiency activities.
Sec. 143. FHA mortgage insurance incentives for energy efficient housing.
Sec. 144. Public Housing Capital Fund.
Sec. 145. Grants for energy-conserving improvements for assisted housing.
Sec. 146. North American Development Bank.
Sec. 147. Energy-efficient appliances.
Sec. 148. Energy efficiency standards.
Sec. 149. Energy strategy for HUD.

TITLE II—RENEWABLE ENERGY

Subtitle A—General Provisions

Sec. 201. Assessment of renewable energy resources.
Sec. 202. Renewable energy production incentive.
Sec. 203. Federal purchase requirement.
Sec. 204. Insular areas energy security.
Sec. 205. Use of photovoltaic energy in public buildings.
Sec. 206. Grants to improve the commercial value of forest biomass for electric energy, useful heat, transportation fuels, petroleum-based product substitutes, and other commercial purposes.
Sec. 207. Biobased products.

Subtitle B—Geothermal Energy

Sec. 211. Short title.
Sec. 212. Competitive lease sale requirements.
Sec. 213. Direct use.
Sec. 214. Royalties and near-term production incentives.
Sec. 215. Geothermal leasing and permitting on Federal lands.
Sec. 216. Review and report to Congress.
Sec. 217. Reimbursement for costs of NEPA analyses, documentation, and studies.
Sec. 218. Assessment of geothermal energy potential.
Sec. 219. Cooperative or unit plans.
Sec. 220. Royalty on byproducts.
Sec. 221. Repeal of authorities of Secretary to readjust terms, conditions, rentals, and royalties.
Sec. 222. Crediting of rental toward royalty.
Sec. 223. Lease duration and work commitment requirements.
Sec. 224. Advanced royalties required for suspension of production.
Sec. 225. Annual rental.
Sec. 226. Leasing and permitting on Federal lands withdrawn for military purposes.
Sec. 227. Technical amendments.

Subtitle C—Hydroelectric

PART I—ALTERNATIVE CONDITIONS

Sec. 231. Alternative conditions and fishways.

PART II—ADDITIONAL HYDROPOWER

Sec. 241. Hydroelectric production incentives.
Sec. 242. Hydroelectric efficiency improvement.
Sec. 243. Small hydroelectric power projects.
Sec. 244. Increased hydroelectric generation at existing Federal facilities.
Sec. 245. Shift of project loads to off-peak periods.
Sec. 246. Corps of Engineers hydropower operation and maintenance funding.
Sec. 247. Limitation on certain charges assessed to the Flint Creek Project, Montana.
Sec. 248. Reinstatement and transfer.

TITLE III—OIL AND GAS

Subtitle A—Petroleum Reserve and Home Heating Oil

Sec. 301. Permanent authority to operate the Strategic Petroleum Reserve and other energy programs.
Sec. 302. National Oilheat Research Alliance.

Subtitle B—Production Incentives

Sec. 311. Definition of Secretary.
Sec. 312. Program on oil and gas royalties in-kind.
Sec. 313. Marginal property production incentives.
Sec. 314. Incentives for natural gas production from deep wells in the shallow waters of the Gulf of Mexico.
Sec. 315. Royalty relief for deep water production.
Sec. 316. Alaska offshore royalty suspension.
Sec. 317. Oil and gas leasing in the National Petroleum Reserve in Alaska.
Sec. 318. Orphaned, abandoned, or idled wells on Federal land.
Sec. 319. Combined hydrocarbon leasing.
Sec. 320. Liquified natural gas.
Sec. 321. Alternate energy-related uses on the Outer Continental Shelf.
Sec. 322. Preservation of geological and geophysical data.
Sec. 323. Oil and gas lease acreage limitations.
Sec. 324. Assessment of dependence of State of Hawaii on oil.
Sec. 325. Deadline for decision on appeals of consistency determination under the Coastal Zone Management Act of 1972.
Sec. 326. Reimbursement for costs of NEPA analyses, documentation, and studies.
Sec. 327. Hydraulic fracturing.
Sec. 328. Oil and gas exploration and production defined.
Sec. 329. Outer Continental Shelf provisions.
Sec. 330. Appeals relating to pipeline construction or offshore mineral development projects.
Sec. 331. Bilateral international oil supply agreements.
Sec. 332. Natural gas market reform.
Sec. 333. Natural gas market transparency.

Subtitle C—Access to Federal Land

Sec. 341. Office of Federal Energy Project Coordination.
Sec. 342. Federal onshore oil and gas leasing and permitting practices.
Sec. 343. Management of Federal oil and gas leasing programs.
Sec. 344. Consultation regarding oil and gas leasing on public land.
Sec. 345. Estimates of oil and gas resources underlying onshore Federal land.
Sec. 346. Compliance with Executive Order 13211; actions concerning regulations that significantly affect energy supply, distribution, or use.
Sec. 347. Pilot project to improve Federal permit coordination.
Sec. 348. Deadline for consideration of applications for permits.
Sec. 349. Clarification of fair market rental value determinations for public land and Forest Service rights-of-way.
Sec. 350. Energy facility rights-of-way and corridors on Federal land.
Sec. 351. Consultation regarding energy rights-of-way on public land.
Sec. 352. Renewable energy on Federal land.
Sec. 353. Electricity transmission line right-of-way, Cleveland National Forest and adjacent public land, California.
Sec. 354. Sense of Congress regarding development of minerals under Padre Island National Seashore.
Sec. 355. Encouraging prohibition of off-shore drilling in the Great Lakes.
Sec. 356. Finger Lakes National Forest withdrawal.
Sec. 357. Study on lease exchanges in the Rocky Mountain Front.
Sec. 358. Federal coalbed methane regulation.
Sec. 359. Livingston Parish mineral rights transfer.

Subtitle D—Alaska Natural Gas Pipeline

Sec. 371. Short title.
Sec. 372. Definitions.
Sec. 373. Issuance of certificate of public convenience and necessity.
Sec. 374. Environmental reviews.
Sec. 375. Pipeline expansion.
Sec. 376. Federal Coordinator.
Sec. 377. Judicial review.
Sec. 378. State jurisdiction over in-State delivery of natural gas.
Sec. 379. Study of alternative means of construction.
Sec. 380. Clarification of ANGTA status and authorities.
Sec. 381. Sense of Congress concerning use of steel manufactured in North America negotiation of a project labor agreement.
Sec. 382. Sense of Congress and study concerning participation by small business concerns.
Sec. 383. Alaska pipeline construction training program.
Sec. 384. Sense of Congress concerning natural gas demand.
Sec. 385. Sense of Congress concerning Alaskan ownership.
Sec. 386. Loan guarantees.

TITLE IV—COAL

Subtitle A—Clean Coal Power Initiative

Sec. 401. Authorization of appropriations.
Sec. 402. Project criteria.
Sec. 403. Report.
Sec. 404. Clean coal Centers of Excellence.

Subtitle B—Clean Power Projects

Sec. 411. Coal technology loan.
Sec. 412. Coal gasification.
Sec. 413. Integrated gasification combined cycle technology.
Sec. 414. Petroleum coke gasification.
Sec. 415. Integrated coal/renewable energy system.
Sec. 416. Electron scrubbing demonstration.

Subtitle C—Federal Coal Leases

Sec. 421. Repeal of the 160-acre limitation for coal leases.
Sec. 422. Mining plans.
Sec. 423. Payment of advance royalties under coal leases.
Sec. 424. Elimination of deadline for submission of coal lease operation and reclamation plan.
Sec. 425. Amendment relating to financial assurances with respect to bonus bids.
Sec. 426. Inventory requirement.
Sec. 427. Application of amendments.

Subtitle D—Coal and Related Programs

Sec. 441. Clean air coal program.

TITLE V—INDIAN ENERGY

Sec. 501. Short title.
Sec. 502. Office of Indian Energy Policy and Programs.
Sec. 503. Indian energy.
Sec. 504. Four Corners transmission line project.
Sec. 505. Energy efficiency in federally assisted housing.
Sec. 506. Consultation with Indian tribes.

TITLE VI—NUCLEAR MATTERS

Subtitle A—Price-Anderson Act Amendments

Sec. 601. Short title.
Sec. 602. Extension of indemnification authority.
Sec. 603. Maximum assessment.
Sec. 604. Department of Energy liability limit.
Sec. 605. Incidents outside the United States.
Sec. 606. Reports.
Sec. 607. Inflation adjustment.
Sec. 608. Treatment of modular reactors.
Sec. 609. Applicability.
Sec. 610. Prohibition on assumption by United States Government of liability for certain foreign incidents.
Sec. 611. Civil penalties.

Subtitle B—General Nuclear Matters

Sec. 621. Licenses.
Sec. 622. NRC training program.
Sec. 623. Cost recovery from Government agencies.
Sec. 624. Elimination of pension offset.
Sec. 625. Antitrust review.
Sec. 626. Decommissioning.
Sec. 627. Limitation on legal fee reimbursement.
Sec. 628. Decommissioning pilot program.
Sec. 629. Report on feasibility of developing commercial nuclear energy generation facilities at existing Department of Energy sites.
Sec. 630. Uranium sales.
Sec. 631. Cooperative research and development and special demonstration projects for the uranium mining industry.
Sec. 632. Whistleblower protection.
Sec. 633. Medical isotope production.
Sec. 634. Fernald byproduct material.
Sec. 635. Safe disposal of greater-than-class C radioactive waste.
Sec. 636. Prohibition on nuclear exports to countries that sponsor terrorism.
Sec. 637. Uranium enrichment facilities.
Sec. 638. National uranium stockpile.

Subtitle C—Advanced Reactor Hydrogen Cogeneration Project

Sec. 651. Project establishment.
Sec. 652. Project definition.
Sec. 653. Project management.
Sec. 654. Project requirements.
Sec. 655. Authorization of appropriations.

Subtitle D—Nuclear Security

Sec. 661. Nuclear facility threats.
Sec. 662. Fingerprinting for criminal history record checks.
Sec. 663. Use of firearms by security personnel of licensees and certificate holders of the Commission.
Sec. 664. Unauthorized introduction of dangerous weapons.
Sec. 665. Sabotage of nuclear facilities or fuel.
Sec. 666. Secure transfer of nuclear materials.
Sec. 667. Department of Homeland Security consultation.
Sec. 668. Authorization of appropriations.

TITLE VII—VEHICLES AND FUELS

Subtitle A—Existing Programs

Sec. 701. Use of alternative fuels by dual-fueled vehicles.
Sec. 702. Neighborhood electric vehicles.
Sec. 703. Credits for medium and heavy duty dedicated vehicles.
Sec. 704. Incremental cost allocation.
Sec. 705. Alternative compliance and flexibility.
Sec. 706. Review of Energy Policy Act of 1992 programs.
Sec. 707. Report concerning compliance with alternative fueled vehicle purchasing requirements.

Subtitle B—Hybrid Vehicles, Advanced Vehicles, and Fuel Cell Buses

PART 1—HYBRID VEHICLES

Sec. 711. Hybrid vehicles.

PART 2—ADVANCED VEHICLES

Sec. 721. Definitions.

Sec. 722. Pilot program.
Sec. 723. Reports to Congress.
Sec. 724. Authorization of appropriations.
PART 3—FUEL CELL BUSES
Sec. 731. Fuel cell transit bus demonstration.
Subtitle C—Clean School Buses
Sec. 741. Definitions.
Sec. 742. Program for replacement of certain school buses with clean school buses.
Sec. 743. Diesel retrofit program.
Sec. 744. Fuel cell school buses.
Subtitle D—Miscellaneous
Sec. 751. Railroad efficiency.
Sec. 752. Mobile emission reductions trading and crediting.
Sec. 753. Aviation fuel conservation and emissions.
Sec. 754. Diesel fueled vehicles.
Sec. 755. Conserve by bicycling program.
Sec. 756. Reduction of engine idling of heavy-duty vehicles.
Sec. 757. Biodiesel engine testing program.
Sec. 758. High occupancy vehicle exception.
Subtitle E—Automobile Efficiency
Sec. 771. Authorization of appropriations for implementation and enforcement of fuel economy standards.
Sec. 772. Revised considerations for decisions on maximum feasible average fuel economy.
Sec. 773. Extension of maximum fuel economy increase for alternative fueled vehicles.
Sec. 774. Study of feasibility and effects of reducing use of fuel for automobiles.
TITLE VIII—HYDROGEN
Sec. 801. Definitions.
Sec. 802. Plan.
Sec. 803. Programs.
Sec. 804. Interagency task force.
Sec. 805. Advisory Committee.
Sec. 806. External review.
Sec. 807. Miscellaneous provisions.
Sec. 808. Savings clause.
Sec. 809. Authorization of appropriations.
TITLE IX—RESEARCH AND DEVELOPMENT
Sec. 901. Goals.
Sec. 902. Definitions.
Subtitle A—Energy Efficiency
Sec. 904. Energy efficiency.
Sec. 905. Next Generation Lighting Initiative.
Sec. 906. National Building Performance Initiative.
Sec. 907. Secondary electric vehicle battery use program.
Sec. 908. Energy Efficiency Science Initiative.
Sec. 909. Electric motor control technology.
Sec. 910. Advanced Energy Technology Transfer Centers.
Subtitle B—Distributed Energy and Electric Energy Systems
Sec. 911. Distributed energy and electric energy systems.
Sec. 912. Hybrid distributed power systems.
Sec. 913. High power density industry program.
Sec. 914. Micro-cogeneration energy technology.
Sec. 915. Distributed energy technology demonstration program.
Sec. 916. Reciprocating power.
Subtitle C—Renewable Energy
Sec. 918. Renewable energy.
Sec. 919. Bioenergy programs.
Sec. 920. Concentrating solar power research and development program.
Sec. 921. Miscellaneous projects.
Sec. 922. Renewable energy in public buildings.
Sec. 923. Study of marine renewable energy options.
Subtitle D—Nuclear Energy
Sec. 924. Nuclear energy.
Sec. 925. Nuclear energy research and development programs.
Sec. 926. Advanced fuel cycle initiative.
Sec. 927. University nuclear science and engineering support.
Sec. 928. Security of reactor designs.
Sec. 929. Alternatives to industrial radioactive sources.
Sec. 930. Geological isolation of spent fuel.
Subtitle E—Fossil Energy
PART I—RESEARCH PROGRAMS
Sec. 931. Fossil energy.
Sec. 932. Oil and gas research programs.
Sec. 933. Technology transfer.
Sec. 934. Research and development for coal mining technologies.
Sec. 935. Coal and related technologies program.
Sec. 936. Complex well technology testing facility.
Sec. 937. Fischer-Tropsch diesel fuel loan guarantee program.
PART II—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES
Sec. 941. Program authority.
Sec. 942. Ultra-deepwater program.
Sec. 943. Unconventional natural gas and other petroleum resources program.
Sec. 944. Additional requirements for awards.
Sec. 945. Advisory Committees.
Sec. 946. Limits on participation.
Sec. 947. Sunset.
Sec. 948. Definitions.
Sec. 949. Funding.
Subtitle F—Science
Sec. 951. Science.
Sec. 952. United States participation in ITER.
Sec. 953. Plan for fusion energy sciences program.
Sec. 954. Spallation Neutron Source.
Sec. 955. Support for science and energy facilities and infrastructure.
Sec. 956. Catalysis research and development program.
Sec. 957. Nanoscale science and engineering research, development, demonstration, and commercial application.
Sec. 958. Advanced scientific computing for energy missions.
Sec. 959. Genomes to Life program.
Sec. 960. Fission and fusion energy materials research program.
Sec. 961. Energy-Water Supply Program. .
Sec. 962. Nitrogen fixation.
Subtitle G—Energy and Environment
Sec. 964. United States-Mexico energy technology cooperation.
Sec. 965. Western Hemisphere energy cooperation.
Sec. 966. Waste reduction and use of alternatives.
Sec. 967. Report on fuel cell test center.
Sec. 968. Arctic Engineering Research Center.
Sec. 969. Barrow Geophysical Research Facility.
Sec. 970. Western Michigan demonstration project.
Subtitle H—Management
Sec. 971. Availability of funds.
Sec. 972. Cost sharing.
Sec. 973. Merit review of proposals.
Sec. 974. External technical review of departmental programs.
Sec. 975. Improved coordination of technology transfer activities.
Sec. 976. Federal laboratory educational partners.
Sec. 977. Interagency cooperation.
Sec. 978. Technology infrastructure program.
Sec. 979. Reprogramming.
Sec. 980. Construction with other laws.
Sec. 981. Report on research and development program evaluation methodologies.
Sec. 982. Department of Energy Science and Technology Scholarship Program.
Sec. 983. Report on equal employment opportunity practices.
Sec. 984. Small business advocacy and assistance.
Sec. 985. Report on mobility of scientific and technical personnel.
Sec. 986. National Academy of Sciences report.
Sec. 987. Outreach.
Sec. 988. Competitive award of management contracts.
Sec. 989. Educational programs in science and mathematics.
TITLE X—DEPARTMENT OF ENERGY MANAGEMENT
Sec. 1001. Additional Assistant Secretary position.
Sec. 1002. Other transactions authority.
TITLE XI—PERSONNEL AND TRAINING
Sec. 1101. Training guidelines for electric energy industry personnel.
Sec. 1102. Improved access to energy-related scientific and technical careers.
Sec. 1103. National Power Plant Operations Technology and Education Center.
Sec. 1104. International energy training.
TITLE XII—ELECTRICITY
Sec. 1201. Short title.
Subtitle A—Reliability Standards
Sec. 1211. Electric reliability standards.
Subtitle B—Transmission Infrastructure Modernization
Sec. 1221. Siting of interstate electric transmission facilities.
Sec. 1222. Third-party finance.
Sec. 1223. Transmission system monitoring.
Sec. 1224. Advanced transmission technologies.
Sec. 1225. Electric transmission and distribution programs.
Sec. 1226. Advanced Power System Technology Incentive Program.
Sec. 1227. Office of Electric Transmission and Distribution.
Subtitle C—Transmission Operation Improvements
Sec. 1231. Open nondiscriminatory access.
Sec. 1232. Sense of the Congress on Regional Transmission Organizations.
Sec. 1233. Regional Transmission Organization applications progress report.
Sec. 1234. Federal utility participation in Regional Transmission Organizations.
Sec. 1235. Standard market design.
Sec. 1236. Native load service obligation.
Sec. 1237. Study on the benefits of economic dispatch.
Subtitle D—Transmission Rate Reform
Sec. 1241. Transmission infrastructure investment.
Sec. 1242. Voluntary transmission pricing plans.
Subtitle E—Amendments to PURPA
Sec. 1251. Net metering and additional standards.
Sec. 1252. Smart metering.
Sec. 1253. Cogeneration and small power production purchase and sale requirements.
Subtitle F—Repeal of PUHCA
Sec. 1261. Short title.
Sec. 1262. Definitions.

Sec. 1263. Repeal of the Public Utility Holding Company Act of 1935.
Sec. 1264. Federal access to books and records.
Sec. 1265. State access to books and records.
Sec. 1266. Exemption authority.
Sec. 1267. Affiliate transactions.
Sec. 1268. Applicability.
Sec. 1269. Effect on other regulations.
Sec. 1270. Enforcement.
Sec. 1271. Savings provisions.
Sec. 1272. Implementation.
Sec. 1273. Transfer of resources.
Sec. 1274. Effective date.
Sec. 1275. Service allocation.
Sec. 1276. Authorization of appropriations.
Sec. 1277. Conforming amendments to the Federal Power Act.

Subtitle G—Market Transparency, Enforcement, and Consumer Protection

Sec. 1281. Market transparency rules.
Sec. 1282. Market manipulation.
Sec. 1283. Enforcement.
Sec. 1284. Refund effective date.
Sec. 1285. Refund authority.
Sec. 1286. Sanctity of contract.
Sec. 1287. Consumer privacy and unfair trade practices.

Subtitle H—Merger Reform

Sec. 1291. Merger review reform and accountability.
Sec. 1292. Electric utility mergers.

Subtitle I—Definitions

Sec. 1295. Definitions.

Subtitle J—Technical and Conforming Amendments

Sec. 1297. Conforming amendments.

TITLE XIII—ENERGY TAX INCENTIVES

Sec. 1300. Short title; amendment of 1986 code.

Subtitle A—Conservation

PART I—RESIDENTIAL AND BUSINESS PROPERTY

Sec. 1301. Credit for residential energy efficient property.
Sec. 1302. Extension and expansion of credit for electricity produced from certain renewable resources.
Sec. 1303. Credit for business installation of qualified fuel cells.
Sec. 1304. Credit for energy efficiency improvements to existing homes.
Sec. 1305. Credit for construction of new energy efficient homes.
Sec. 1306. Energy credit for combined heat and power system property.
Sec. 1307. Credit for energy efficient appliances.
Sec. 1308. Energy efficient commercial buildings deduction.
Sec. 1309. Three-year applicable recovery period for depreciation of qualified energy management devices.
Sec. 1310. Credit for production from advanced nuclear power facilities.

PART II—FUELS AND ALTERNATIVE MOTOR VEHICLES

Sec. 1311. Repeal of 4.3-cent motor fuel excise taxes on railroads and inland waterway transportation which remain in general fund.
Sec. 1312. Reduced motor fuel excise tax on certain mixtures of diesel fuel.
Sec. 1313. Small ethanol producer credit.
Sec. 1314. Incentives for biodiesel.
Sec. 1315. Alcohol fuel and biodiesel mixtures excise tax credit.
Sec. 1316. Nonapplication of export exemption to delivery of fuel to motor vehicles removed from United States.
Sec. 1317. Repeal of phaseouts for qualified electric vehicle credit and deduction for clean fuel-vehicles.
Sec. 1318. Alternative motor vehicle credit.
Sec. 1319. Modifications of deduction for certain refueling property.

Subtitle B—Reliability

Sec. 1321. Natural gas gathering lines treated as 7-year property.
Sec. 1322. Natural gas distribution lines treated as 15-year property.
Sec. 1323. Electric transmission property treated as 15-year property.
Sec. 1324. Expensing of capital costs incurred in complying with Environmental Protection Agency sulfur regulations.
Sec. 1325. Credit for production of low sulfur diesel fuel.
Sec. 1326. Determination of small refiner exception to oil depletion deduction.
Sec. 1327. Sales or dispositions to implement Federal Energy Regulatory Commission or State electric restructuring policy.
Sec. 1328. Modifications to special rules for nuclear decommissioning costs.
Sec. 1329. Treatment of certain income of cooperatives.
Sec. 1330. Arbitrage rules not to apply to prepayments for natural gas.

Subtitle C—Production

PART I—OIL AND GAS PROVISIONS

Sec. 1341. Oil and gas from marginal wells.
Sec. 1342. Temporary suspension of limitation based on 65 percent of taxable income and extension of suspension of taxable income limit with respect to marginal production.
Sec. 1343. Amortization of delay rental payments.
Sec. 1344. Amortization of geological and geophysical expenditures.
Sec. 1345. Extension and modification of credit for producing fuel from a nonconventional source.

PART II—ALTERNATIVE MINIMUM TAX PROVISIONS

Sec. 1346. New nonrefundable personal credits allowed against regular and minimum taxes.
Sec. 1347. Business related energy credits allowed against regular and minimum tax.
Sec. 1348. Temporary repeal of alternative minimum tax preference for intangible drilling costs.

PART III—CLEAN COAL INCENTIVES

Sec. 1351. Credit for clean coal technology units.
Sec. 1352. Expansion of amortization for certain pollution control facilities.
Sec. 1353. 5-year recovery period for eligible integrated gasification combined cycle technology unit eligible for credit.

PART IV—HIGH VOLUME NATURAL GAS PROVISIONS

Sec. 1355. High volume natural gas pipe treated as 7-year property.
Sec. 1356. Extension of enhanced oil recovery credit to high volume natural gas facilities.

Subtitle D—Additional Provisions

Sec. 1361. Extension of accelerated depreciation benefit for energy-related businesses on Indian reservations.
Sec. 1362. Payment of dividends on stock of cooperatives without reducing patronage dividends.
Sec. 1363. Distributions from publicly traded partnerships treated as qualifying income of regulated investment companies.
Sec. 1364. Ceiling fans.
Sec. 1365. Certain steam generators, and certain reactor vessel heads, used in nuclear facilities.
Sec. 1366. Brownfields demonstration program for qualified green building and sustainable design projects.

TITLE XIV—MISCELLANEOUS

Subtitle A—Rural and Remote Electricity Construction

Sec. 1401. Denali Commission programs.
Sec. 1402. Rural and remote community assistance.

Subtitle B—Coastal Programs

Sec. 1411. Royalty payments under leases under the Outer Continental Shelf Lands Act.
Sec. 1412. Domestic offshore energy reinvestment.

Subtitle C—Reforms to the Board of Directors of the Tennessee Valley Authority

Sec. 1431. Change in composition, operation, and duties of the board of directors of the Tennessee Valley Authority.
Sec. 1432. Change in manner of appointment of staff.
Sec. 1433. Conforming amendments.
Sec. 1434. Appointments; effective date; transition.

Subtitle D—Other Provisions

Sec. 1441. Continuation of transmission security order.
Sec. 1442. Review of agency determinations.
Sec. 1443. Attainment dates for downwind ozone nonattainment areas.
Sec. 1444. Energy production incentives
Sec. 1445. Use of granular mine tailings.

TITLE XV—ETHANOL AND MOTOR FUELS

Subtitle A—General Provisions

Sec. 1501. Renewable content of motor vehicle fuel.
Sec. 1502. Fuels safe harbor.
Sec. 1503. Findings and MTBE transition assistance.
Sec. 1504. Use of MTBE.
Sec. 1505. National Academy of Sciences review and presidential determination.
Sec. 1506. Elimination of oxygen content requirement for reformulated gasoline.
Sec. 1507. Analyses of motor vehicle fuel changes.
Sec. 1508. Data collection.
Sec. 1509. Reducing the proliferation of State fuel controls.
Sec. 1510. Fuel system requirements harmonization study.
Sec. 1511. Commercial byproducts from municipal solid waste and cellulosic biomass loan guarantee program.
Sec. 1512. Resource center.
Sec. 1513. Cellulosic biomass and waste-derived ethanol conversion assistance.
Sec. 1514. Blending of compliant reformulated gasolines.

Subtitle B—Underground Storage Tank Compliance

Sec. 1521. Short title.
Sec. 1522. Leaking underground storage tanks.
Sec. 1523. Inspection of underground storage tanks.
Sec. 1524. Operator training.
Sec. 1525. Remediation from oxygenated fuel additives.
Sec. 1526. Release prevention, compliance, and enforcement.
Sec. 1527. Delivery prohibition.
Sec. 1528. Federal facilities.
Sec. 1529. Tanks on tribal lands.
Sec. 1530. Future release containment technology.
Sec. 1531. Authorization of appropriations.
Sec. 1532. Conforming amendments.
Sec. 1533. Technical amendments.

TITLE XVI—STUDIES
Sec. 1601. Study on inventory of petroleum and natural gas storage.
Sec. 1602. Natural gas supply shortage report.
Sec. 1603. Split-estate Federal oil and gas leasing and development practices.
Sec. 1604. Resolution of Federal resource development conflicts in the Powder River Basin.
Sec. 1605. Study of energy efficiency standards.
Sec. 1606. Telecommuting study.
Sec. 1607. LIHEAP report.
Sec. 1608. Oil bypass filtration technology.
Sec. 1609. Total integrated thermal systems.
Sec. 1610. University collaboration.
Sec. 1611. Reliability and consumer protection assessment.

TITLE I—ENERGY EFFICIENCY

Subtitle A—Federal Programs

SEC. 101. ENERGY AND WATER SAVING MEASURES IN CONGRESSIONAL BUILDINGS.

(a) IN GENERAL.—Part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.) is amended by adding at the end the following:

“SEC. 552. ENERGY AND WATER SAVINGS MEASURES IN CONGRESSIONAL BUILDINGS.

“(a) IN GENERAL.—The Architect of the Capitol—

“(1) shall develop, update, and implement a cost-effective energy conservation and management plan (referred to in this section as the ‘plan’) for all facilities administered by Congress (referred to in this section as ‘congressional buildings’) to meet the energy performance requirements for Federal buildings established under section 543(a)(1); and

“(2) shall submit the plan to Congress, not later than 180 days after the date of enactment of this section.

“(b) PLAN REQUIREMENTS.—The plan shall include—

“(1) a description of the life cycle cost analysis used to determine the cost-effectiveness of proposed energy efficiency projects;

“(2) a schedule of energy surveys to ensure complete surveys of all congressional buildings every 5 years to determine the cost and payback period of energy and water conservation measures;

“(3) a strategy for installation of life cycle cost-effective energy and water conservation measures;

“(4) the results of a study of the costs and benefits of installation of submetering in congressional buildings; and

“(5) information packages and ‘how-to’ guides for each Member and employing authority of Congress that detail simple, cost-effective methods to save energy and taxpayer dollars in the workplace.

“(c) ANNUAL REPORT.—The Architect of the Capitol shall submit to Congress annually a report on congressional energy management and conservation programs required under this section that describes in detail—

“(1) energy expenditures and savings estimates for each facility;

“(2) energy management and conservation projects; and

“(3) future priorities to ensure compliance with this section.”.

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the National Energy Conservation Policy Act is amended by adding at the end of the items relating to part 3 of title V the following new item:

“Sec. 552. Energy and water savings measures in congressional buildings.”.

(c) REPEAL.—Section 310 of the Legislative Branch Appropriations Act, 1999 (2 U.S.C. 1815), is repealed.

(d) ENERGY INFRASTRUCTURE.—The Architect of the Capitol, building on the Master Plan Study completed in July 2000, shall commission a study to evaluate the energy infrastructure of the Capital Complex to determine how the infrastructure could be augmented to become more energy efficient, using unconventional and renewable energy resources, in a way that would enable the Complex to have reliable utility service in the event of power fluctuations, shortages, or outages.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Architect of the Capitol to carry out subsection (d), $2,000,000 for each of fiscal years 2004 through 2008.

SEC. 102. ENERGY MANAGEMENT REQUIREMENTS.

(a) ENERGY REDUCTION GOALS.—

(1) AMENDMENT.—Section 543(a)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)(1)) is amended by striking “its Federal buildings so that” and all that follows through the end and inserting “the Federal buildings of the agency (including each industrial or laboratory facility) so that the energy consumption per gross square foot of the Federal buildings of the agency in fiscal years 2004 through 2013 is reduced, as compared with the energy consumption per gross square foot of the Federal buildings of the agency in fiscal year 2001, by the percentage specified in the following table:

“Fiscal Year	**Percentage reduction**
2004	2
2005	4
2006	6
2007	8
2008	10
2009	12
2010	14
2011	16
2012	18
2013	20.”.

(2) REPORTING BASELINE.—The energy reduction goals and baseline established in paragraph (1) of section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)(1)), as amended by this subsection, supersede all previous goals and baselines under such paragraph, and related reporting requirements.

(b) REVIEW AND REVISION OF ENERGY PERFORMANCE REQUIREMENT.—Section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)) is further amended by adding at the end the following:

“(3) Not later than December 31, 2012, the Secretary shall review the results of the implementation of the energy performance requirement established under paragraph (1) and submit to Congress recommendations concerning energy performance requirements for fiscal years 2014 through 2023.”.

(c) EXCLUSIONS.—Section 543(c)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(1)) is amended by striking “An agency may exclude” and all that follows through the end and inserting “(A) An agency may exclude, from the energy performance requirement for a fiscal year established under subsection (a) and the energy management requirement established under subsection (b), any Federal building or collection of Federal buildings, if the head of the agency finds that—

“(i) compliance with those requirements would be impracticable;

“(ii) the agency has completed and submitted all federally required energy management reports;

“(iii) the agency has achieved compliance with the energy efficiency requirements of this Act, the Energy Policy Act of 1992, Executive orders, and other Federal law; and

“(iv) the agency has implemented all practicable, life cycle cost-effective projects with respect to the Federal building or collection of Federal buildings to be excluded.

“(B) A finding of impracticability under subparagraph (A)(i) shall be based on—

“(i) the energy intensiveness of activities carried out in the Federal building or collection of Federal buildings; or

“(ii) the fact that the Federal building or collection of Federal buildings is used in the performance of a national security function.”.

(d) REVIEW BY SECRETARY.—Section 543(c)(2) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)(2)) is amended—

(1) by striking “impracticability standards” and inserting “standards for exclusion”;

(2) by striking “a finding of impracticability” and inserting “the exclusion”; and

(3) by striking “energy consumption requirements” and inserting “requirements of subsections (a) and (b)(1)”.

(e) CRITERIA.—Section 543(c) of the National Energy Conservation Policy Act (42 U.S.C. 8253(c)) is further amended by adding at the end the following:

“(3) Not later than 180 days after the date of enactment of this paragraph, the Secretary shall issue guidelines that establish criteria for exclusions under paragraph (1).”.

(f) RETENTION OF ENERGY AND WATER SAVINGS.—Section 546 of the National Energy Conservation Policy Act (42 U.S.C. 8256) is amended by adding at the end the following new subsection:

“(e) RETENTION OF ENERGY AND WATER SAVINGS.—An agency may retain any funds appropriated to that agency for energy expenditures, water expenditures, or wastewater treatment expenditures, at buildings subject to the requirements of section 543(a) and (b), that are not made because of energy savings or water savings. Except as otherwise provided by law, such funds may be used only for energy efficiency, water conservation, or unconventional and renewable energy resources projects.”.

(g) REPORTS.—Section 548(b) of the National Energy Conservation Policy Act (42 U.S.C. 8258(b)) is amended—

(1) in the subsection heading, by inserting “THE PRESIDENT AND” before “CONGRESS”; and

(2) by inserting “President and” before “Congress”.

(h) CONFORMING AMENDMENT.—Section 550(d) of the National Energy Conservation Policy Act (42 U.S.C. 8258b(d)) is amended in the second sentence by striking “the 20 percent reduction goal established under section 543(a) of the National Energy Conservation Policy Act (42 U.S.C. 8253(a)).” and inserting “each of the energy reduction goals established under section 543(a).”.

SEC. 103. ENERGY USE MEASUREMENT AND ACCOUNTABILITY.

Section 543 of the National Energy Conservation Policy Act (42 U.S.C. 8253 is further amended by adding at the end the following:

“(e) METERING OF ENERGY USE.—

“(1) DEADLINE.—By October 1, 2010, in accordance with guidelines established by the Secretary under paragraph (2), all Federal buildings shall, for the purposes of efficient use of energy and reduction in the cost of electricity used in such buildings, be metered or submetered. Each agency shall use, to the maximum extent practicable, advanced meters or advanced metering devices that provide data at least daily and that measure at least hourly consumption of electricity in the Federal buildings of the agency. Such data shall be incorporated into existing Federal energy tracking systems and made available to Federal facility energy managers.

“(2) GUIDELINES.—

“(A) IN GENERAL.—Not later than 180 days after the date of enactment of this subsection, the Secretary, in consultation with the Department of Defense, the General Services Administration, representatives from the metering industry, utility industry, energy services industry, energy efficiency industry, energy efficiency advocacy organizations, national laboratories, universities, and Federal facility energy managers, shall establish guidelines for agencies to carry out paragraph (1).

"(B) REQUIREMENTS FOR GUIDELINES.—The guidelines shall—

"(i) take into consideration—

"(I) the cost of metering and submetering and the reduced cost of operation and maintenance expected to result from metering and submetering;

"(II) the extent to which metering and submetering are expected to result in increased potential for energy management, increased potential for energy savings and energy efficiency improvement, and cost and energy savings due to utility contract aggregation; and

"(III) the measurement and verification protocols of the Department of Energy;

"(ii) include recommendations concerning the amount of funds and the number of trained personnel necessary to gather and use the metering information to track and reduce energy use;

"(iii) establish priorities for types and locations of buildings to be metered and submetered based on cost-effectiveness and a schedule of 1 or more dates, not later than 1 year after the date of issuance of the guidelines, on which the requirements specified in paragraph (1) shall take effect; and

"(iv) establish exclusions from the requirements specified in paragraph (1) based on the de minimis quantity of energy use of a Federal building, industrial process, or structure.

"(3) PLAN.—Not later than 6 months after the date guidelines are established under paragraph (2), in a report submitted by the agency under section 548(a), each agency shall submit to the Secretary a plan describing how the agency will implement the requirements of paragraph (1), including (A) how the agency will designate personnel primarily responsible for achieving the requirements and (B) demonstration by the agency, complete with documentation, of any finding that advanced meters or advanced metering devices, as defined in paragraph (1), are not practicable.".

SEC. 104. PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

(a) REQUIREMENTS.—Part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.), as amended by section 101, is amended by adding at the end the following:

"SEC. 553. FEDERAL PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.

"(a) DEFINITIONS.—In this section:

"(1) ENERGY STAR PRODUCT.—The term 'Energy Star product' means a product that is rated for energy efficiency under an Energy Star program.

"(2) ENERGY STAR PROGRAM.—The term 'Energy Star program' means the program established by section 324A of the Energy Policy and Conservation Act.

"(3) EXECUTIVE AGENCY.—The term 'executive agency' has the meaning given the term in section 4 of the Office of Federal Procurement Policy Act (41 U.S.C. 403).

"(4) FEMP DESIGNATED PRODUCT.—The term 'FEMP designated product' means a product that is designated under the Federal Energy Management Program of the Department of Energy as being among the highest 25 percent of equivalent products for energy efficiency.

"(b) PROCUREMENT OF ENERGY EFFICIENT PRODUCTS.—

"(1) REQUIREMENT.—To meet the requirements of an executive agency for an energy consuming product, the head of the executive agency shall, except as provided in paragraph (2), procure—

"(A) an Energy Star product; or

"(B) a FEMP designated product.

"(2) EXCEPTIONS.—The head of an executive agency is not required to procure an Energy Star product or FEMP designated product under paragraph (1) if the head of the executive agency finds in writing that—

"(A) an Energy Star product or FEMP designated product is not cost-effective over the life of the product taking energy cost savings into account; or

"(B) no Energy Star product or FEMP designated product is reasonably available that meets the functional requirements of the executive agency.

"(3) PROCUREMENT PLANNING.—The head of an executive agency shall incorporate into the specifications for all procurements involving energy consuming products and systems, including guide specifications, project specifications, and construction, renovation, and services contracts that include provision of energy consuming products and systems, and into the factors for the evaluation of offers received for the procurement, criteria for energy efficiency that are consistent with the criteria used for rating Energy Star products and for rating FEMP designated products.

"(c) LISTING OF ENERGY EFFICIENT PRODUCTS IN FEDERAL CATALOGS.—Energy Star products and FEMP designated products shall be clearly identified and prominently displayed in any inventory or listing of products by the General Services Administration or the Defense Logistics Agency. The General Services Administration or the Defense Logistics Agency shall supply only Energy Star products or FEMP designated products for all product categories covered by the Energy Star program or the Federal Energy Management Program, except in cases where the agency ordering a product specifies in writing that no Energy Star product or FEMP designated product is available to meet the buyer's functional requirements, or that no Energy Star product or FEMP designated product is cost-effective for the intended application over the life of the product, taking energy cost savings into account.

"(d) SPECIFIC PRODUCTS.—(1) In the case of electric motors of 1 to 500 horsepower, agencies shall select only premium efficient motors that meet a standard designated by the Secretary. The Secretary shall designate such a standard not later than 120 days after the date of the enactment of this section, after considering the recommendations of associated electric motor manufacturers and energy efficiency groups.

"(2) All Federal agencies are encouraged to take actions to maximize the efficiency of air conditioning and refrigeration equipment, including appropriate cleaning and maintenance, including the use of any system treatment or additive that will reduce the electricity consumed by air conditioning and refrigeration equipment. Any such treatment or additive must be—

"(A) determined by the Secretary to be effective in increasing the efficiency of air conditioning and refrigeration equipment without having an adverse impact on air conditioning performance (including cooling capacity) or equipment useful life;

"(B) determined by the Administrator of the Environmental Protection Agency to be environmentally safe; and

"(C) shown to increase seasonal energy efficiency ratio (SEER) or energy efficiency ratio (EER) when tested by the National Institute of Standards and Technology according to Department of Energy test procedures without causing any adverse impact on the system, system components, the refrigerant or lubricant, or other materials in the system.

Results of testing described in subparagraph (C) shall be published in the Federal Register for public review and comment. For purposes of this section, a hardware device or primary refrigerant shall not be considered an additive.

"(e) REGULATIONS.—Not later than 180 days after the date of the enactment of this section, the Secretary shall issue guidelines to carry out this section.".

(b) CONFORMING AMENDMENT.—The table of contents of the National Energy Conservation Policy Act is further amended by inserting after the item relating to section 552 the following new item:

"Sec. 553. Federal procurement of energy efficient products.".

SEC. 105. ENERGY SAVINGS PERFORMANCE CONTRACTS.

(a) PERMANENT EXTENSION.—Effective September 30, 2003, section 801(c) of the National Energy Conservation Policy Act (42 U.S.C. 8287(c)) is repealed.

(b) PAYMENT OF COSTS.—Section 802 of the National Energy Conservation Policy Act (42 U.S.C. 8287a) is amended by inserting ", water, or wastewater treatment" after "payment of energy".

(c) ENERGY SAVINGS.—Section 804(2) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(2)) is amended to read as follows:

"(2) The term 'energy savings' means a reduction in the cost of energy, water, or wastewater treatment, from a base cost established through a methodology set forth in the contract, used in an existing federally owned building or buildings or other federally owned facilities as a result of—

"(A) the lease or purchase of operating equipment, improvements, altered operation and maintenance, or technical services;

"(B) the increased efficient use of existing energy sources by cogeneration or heat recovery, excluding any cogeneration process for other than a federally owned building or buildings or other federally owned facilities; or

"(C) the increased efficient use of existing water sources in either interior or exterior applications.".

(d) ENERGY SAVINGS CONTRACT.—Section 804(3) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(3)) is amended to read as follows:

"(3) The terms 'energy savings contract' and 'energy savings performance contract' mean a contract that provides for the performance of services for the design, acquisition, installation, testing, and, where appropriate, operation, maintenance, and repair, of an identified energy or water conservation measure or series of measures at 1 or more locations. Such contracts shall, with respect to an agency facility that is a public building (as such term is defined in section 3301 of title 40, United States Code), be in compliance with the prospectus requirements and procedures of section 3307 of title 40, United States Code.".

(e) ENERGY OR WATER CONSERVATION MEASURE.—Section 804(4) of the National Energy Conservation Policy Act (42 U.S.C. 8287c(4)) is amended to read as follows:

"(4) The term 'energy or water conservation measure' means—

"(A) an energy conservation measure, as defined in section 551; or

"(B) a water conservation measure that improves the efficiency of water use, is life-cycle cost-effective, and involves water conservation, water recycling or reuse, more efficient treatment of wastewater or stormwater, improvements in operation or maintenance efficiencies, retrofit activities, or other related activities, not at a Federal hydroelectric facility.".

(f) REVIEW.—Not later than 180 days after the date of the enactment of this Act, the Secretary of Energy shall complete a review of the Energy Savings Performance Contract program to identify statutory, regulatory, and administrative *obstacles that prevent Federal agencies from fully utilizing the program. In addition, this review shall identify all areas for increasing program flexibility and effectiveness, including audit and measurement verification requirements, accounting for energy use in determining savings, contracting requirements, including the identification of additional qualified contractors, and energy efficiency services covered. The Secretary shall report these findings to Congress and shall implement identified administrative and regulatory changes to increase program flexibility and effectiveness to the extent that such changes are consistent with statutory authority.*

(g) Extension of Authority.—Any energy savings performance contract entered into under section 801 of the National Energy Conservation Policy Act (42 U.S.C. 8287) after October 1, 2003, and before the date of enactment of this Act, shall be deemed to have been entered into pursuant to such section 801 as amended by subsection (a) of this section.

SEC. 106. ENERGY SAVINGS PERFORMANCE CONTRACTS PILOT PROGRAM FOR NONBUILDING APPLICATIONS.

(a) In General.—The Secretary of Defense and the heads of other interested Federal agencies are authorized to enter into up to 10 energy savings performance contracts using procedures, established under subsection (b), based on the procedures under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), for the purpose of achieving energy or water savings, secondary savings, and benefits incidental to those purposes, in nonbuilding applications. The payments to be made by the Federal Government under such contracts shall not exceed a total of $200,000,000 for all such contracts combined.

(b) Procedures.—The Secretary of Energy, in consultation with the Administrator of General Services and the Secretary of Defense, shall establish procedures based on the procedures under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.), for implementing this section.

(c) Definitions.—In this section:

(1) Nonbuilding application.—The term "nonbuilding application" means—

(A) any class of vehicles, devices, or equipment that are transportable under their own power by land, sea, or air that consume energy from any fuel source for the purpose of such transportability, or to maintain a controlled environment within such vehicle, device, or equipment; or

(B) any Federally owned equipment used to generate electricity or transport water.

(2) Secondary savings.—The term "secondary savings" means additional energy or cost savings that are a direct consequence of the energy or water savings that result from the financing and implementation of the energy savings performance contract, including, but not limited to, energy or cost savings that result from a reduction in the need for fuel delivery and logistical support, or the increased efficiency in the production of electricity.

(d) Report.—Not later than 3 years after the date of enactment of this section, the Secretary of Energy shall report to Congress on the progress and results of the projects funded pursuant to this section. Such report, shall include a description of projects undertaken; the energy, water, and cost savings, secondary savings, and other benefits that resulted from such projects; and recommendations on whether the pilot program should be extended, expanded, or authorized permanently as a part of the program authorized under title VIII of the National Energy Conservation Policy Act (42 U.S.C. 8287 et seq.).

SEC. 107. VOLUNTARY COMMITMENTS TO REDUCE INDUSTRIAL ENERGY INTENSITY.

(a) Voluntary Agreements.—The Secretary of Energy is authorized to enter into voluntary agreements with 1 or more persons in industrial sectors that consume significant amounts of primary energy per unit of physical output to reduce the energy intensity of their production activities by a significant amount relative to improvements in each sector in recent years.

(b) Recognition.—The Secretary of Energy, in consultation with the Administrator of the Environmental Protection Agency and other appropriate Federal agencies, shall recognize and publicize the achievements of participants in voluntary agreements under this section.

(c) Definition.—In this section, the term "energy intensity" means the primary energy consumed per unit of physical output in an industrial process.

SEC. 108. ADVANCED BUILDING EFFICIENCY TESTBED.

(a) Establishment.—The Secretary of Energy, in consultation with the Administrator of General Services, shall establish an Advanced Building Efficiency Testbed program for the development, testing, and demonstration of advanced engineering systems, components, and materials to enable innovations in building technologies. The program shall evaluate efficiency concepts for government and industry buildings, and demonstrate the ability of next generation buildings to support individual and organizational productivity and health (including by improving indoor air quality) as well as flexibility and technological change to improve environmental sustainability. Such program shall complement and not duplicate existing national programs.

(b) Participants.—The program established under subsection (a) shall be led by a university with the ability to combine the expertise from numerous academic fields including, at a minimum, intelligent workplaces and advanced building systems and engineering, electrical and computer engineering, computer science, architecture, urban design, and environmental and mechanical engineering. Such university shall partner with other universities and entities who have established programs and the capability of advancing innovative building efficiency technologies.

(c) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary of Energy to carry out this section $6,000,000 for each of the fiscal years 2004 through 2006, to remain available until expended. For any fiscal year in which funds are expended under this section, the Secretary shall provide ⅓ of the total amount to the lead university described in subsection (b), and provide the remaining ⅔ to the other participants referred to in subsection (b) on an equal basis.

SEC. 109. FEDERAL BUILDING PERFORMANCE STANDARDS.

Section 305(a) of the Energy Conservation and Production Act (42 U.S.C. 6834(a)) is amended—

(1) in paragraph (2)(A), by striking "CABO Model Energy Code, 1992" and inserting "the 2003 International Energy Conservation Code"; and

(2) by adding at the end the following:

"(3) Revised federal building energy efficiency performance standards.—

"(A) In general.—Not later than 1 year after the date of enactment of this paragraph, the Secretary of Energy shall establish, by rule, revised Federal building energy efficiency performance standards that require that—

"(i) if life-cycle cost-effective, for new Federal buildings—

"(I) such buildings be designed so as to achieve energy consumption levels at least 30 percent below those of the version current as of the date of enactment of this paragraph of the ASHRAE Standard or the International Energy Conservation Code, as appropriate; and

"(II) sustainable design principles are applied to the siting, design, and construction of all new and replacement buildings; and

"(ii) where water is used to achieve energy efficiency, water conservation technologies shall be applied to the extent they are life-cycle cost effective.

"(B) Additional revisions.—Not later than 1 year after the date of approval of each subsequent revision of the ASHRAE Standard or the International Energy Conservation Code, as appropriate, the Secretary of Energy shall determine, based on the cost-effectiveness of the requirements under the amendments, whether the revised standards established under this paragraph should be updated to reflect the amendments.

"(C) Statement on compliance of new buildings.—In the budget request of the Federal agency for each fiscal year and each report submitted by the Federal agency under section 548(a) of the National Energy Conservation Policy Act (42 U.S.C. 8258(a)), the head of each Federal agency shall include—

"(i) a list of all new Federal buildings owned, operated, or controlled by the Federal agency; and

"(ii) a statement concerning whether the Federal buildings meet or exceed the revised standards established under this paragraph.".

SEC. 110. INCREASED USE OF RECOVERED MINERAL COMPONENT IN FEDERALLY FUNDED PROJECTS INVOLVING PROCUREMENT OF CEMENT OR CONCRETE.

(a) Amendment.—Subtitle F of the Solid Waste Disposal Act (42 U.S.C. 6961 et seq.) is amended by adding at the end the following new section:

"INCREASED USE OF RECOVERED MINERAL COMPONENT IN FEDERALLY FUNDED PROJECTS INVOLVING PROCUREMENT OF CEMENT OR CONCRETE

"Sec. 6005. (a) Definitions.—In this section:

"(1) Agency head.—The term 'agency head' means—

"(A) the Secretary of Transportation; and

"(B) the head of each other Federal agency that on a regular basis procures, or provides Federal funds to pay or assist in paying the cost of procuring, material for cement or concrete projects.

"(2) Cement or concrete project.—The term 'cement or concrete project' means a project for the construction or maintenance of a highway or other transportation facility or a Federal, State, or local government building or other public facility that—

"(A) involves the procurement of cement or concrete; and

"(B) is carried out in whole or in part using Federal funds.

"(3) Recovered mineral component.—The term 'recovered mineral component' means—

"(A) ground granulated blast furnace slag;

"(B) coal combustion fly ash; and

"(C) any other waste material or byproduct recovered or diverted from solid waste that the Administrator, in consultation with an agency head, determines should be treated as recovered mineral component under this section for use in cement or concrete projects paid for, in whole or in part, by the agency head.

"(b) Implementation of Requirements.—

"(1) In general.—Not later than 1 year after the date of enactment of this section, the Administrator and each agency head shall take such actions as are necessary to implement fully all procurement requirements and incentives in effect as of the date of enactment of this section (including guidelines under section 6002) that provide for the use of cement and concrete incorporating recovered mineral component in cement or concrete projects.

"(2) PRIORITY.—In carrying out paragraph (1) an agency head shall give priority to achieving greater use of recovered mineral component in cement or concrete projects for which recovered mineral components historically have not been used or have been used only minimally.

"(3) CONFORMANCE.—The Administrator and each agency head shall carry out this subsection in accordance with section 6002.

"(c) FULL IMPLEMENTATION STUDY.—

"(1) IN GENERAL.—The Administrator, in cooperation with the Secretary of Transportation and the Secretary of Energy, shall conduct a study to determine the extent to which current procurement requirements, when fully implemented in accordance with subsection (b), may realize energy savings and environmental benefits attainable with substitution of recovered mineral component in cement used in cement or concrete projects.

"(2) MATTERS TO BE ADDRESSED.—The study shall—

"(A) quantify the extent to which recovered mineral components are being substituted for Portland cement, particularly as a result of current procurement requirements, and the energy savings and environmental benefits associated with that substitution;

"(B) identify all barriers in procurement requirements to greater realization of energy savings and environmental benefits, including barriers resulting from exceptions from current law; and

"(C)(i) identify potential mechanisms to achieve greater substitution of recovered mineral component in types of cement or concrete projects for which recovered mineral components historically have not been used or have been used only minimally;

"(ii) evaluate the feasibility of establishing guidelines or standards for optimized substitution rates of recovered mineral component in those cement or concrete projects; and

"(iii) identify any potential environmental or economic effects that may result from greater substitution of recovered mineral component in those cement or concrete projects.

"(3) REPORT.—Not later than 30 months after the date of enactment of this section, the Administrator shall submit to Congress a report on the study.

"(d) ADDITIONAL PROCUREMENT REQUIREMENTS.—Unless the study conducted under subsection (c) identifies any effects or other problems described in subsection (c)(2)(C)(iii) that warrant further review or delay, the Administrator and each agency head shall, not later than 1 year after the release of the report in accordance with subsection (c)(3), take additional actions authorized under this Act to establish procurement requirements and incentives that provide for the use of cement and concrete with increased substitution of recovered mineral component in the construction and maintenance of cement or concrete projects, so as to—

"(1) realize more fully the energy savings and environmental benefits associated with increased substitution; and

"(2) eliminate barriers identified under subsection (c).

"(e) EFFECT OF SECTION.—Nothing in this section affects the requirements of section 6002 (including the guidelines and specifications for implementing those requirements).".

(b) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Solid Waste Disposal Act is amended by adding after the item relating to section 6004 the following new item:

"Sec. 6005. Increased use of recovered mineral component in federally funded projects involving procurement of cement or concrete.".

Subtitle B—Energy Assistance and State Programs

SEC. 121. LOW INCOME HOME ENERGY ASSISTANCE PROGRAM.

Section 2602(b) of the Low-Income Home Energy Assistance Act of 1981 (42 U.S.C. 8621(b)) is amended by striking "and \$2,000,000,000 for each of fiscal years 2002 through 2004" and inserting "\$2,000,000,000 for fiscal years 2002 and 2003, and \$3,400,000,000 for each of fiscal years 2004 through 2006".

SEC. 122. WEATHERIZATION ASSISTANCE.

Section 422 of the Energy Conservation and Production Act (42 U.S.C. 6872) is amended by striking "for fiscal years 1999 through 2003 such sums as may be necessary" and inserting "\$325,000,000 for fiscal year 2004, \$400,000,000 for fiscal year 2005, and \$500,000,000 for fiscal year 2006".

SEC. 123. STATE ENERGY PROGRAMS.

(a) STATE ENERGY CONSERVATION PLANS.—Section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322) is amended by inserting at the end the following new subsection:

"(g) The Secretary shall, at least once every 3 years, invite the Governor of each State to review and, if necessary, revise the energy conservation plan of such State submitted under subsection (b) or (e). Such reviews should consider the energy conservation plans of other States within the region, and identify opportunities and actions carried out in pursuit of common energy conservation goals.".

(b) STATE ENERGY EFFICIENCY GOALS.—Section 364 of the Energy Policy and Conservation Act (42 U.S.C. 6324) is amended to read as follows:

"STATE ENERGY EFFICIENCY GOALS

"SEC. 364. Each State energy conservation plan with respect to which assistance is made available under this part on or after the date of enactment of the Energy Policy Act of 2003 shall contain a goal, consisting of an improvement of 25 percent or more in the efficiency of use of energy in the State concerned in calendar year 2010 as compared to calendar year 1990, and may contain interim goals.".

(c) AUTHORIZATION OF APPROPRIATIONS.—Section 365(f) of the Energy Policy and Conservation Act (42 U.S.C. 6325(f)) is amended by striking "for fiscal years 1999 through 2003 such sums as may be necessary" and inserting "\$100,000,000 for each of the fiscal years 2004 and 2005 and \$125,000,000 for fiscal year 2006".

SEC. 124. ENERGY EFFICIENT APPLIANCE REBATE PROGRAMS.

(a) DEFINITIONS.—In this section:

(1) ELIGIBLE STATE.—The term "eligible State" means a State that meets the requirements of subsection (b).

(2) ENERGY STAR PROGRAM.—The term "Energy Star program" means the program established by section 324A of the Energy Policy and Conservation Act.

(3) RESIDENTIAL ENERGY STAR PRODUCT.—The term "residential Energy Star product" means a product for a residence that is rated for energy efficiency under the Energy Star program.

(4) SECRETARY.—The term "Secretary" means the Secretary of Energy.

(5) STATE ENERGY OFFICE.—The term "State energy office" means the State agency responsible for developing State energy conservation plans under section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322).

(6) STATE PROGRAM.—The term "State program" means a State energy efficient appliance rebate program described in subsection (b)(1).

(b) ELIGIBLE STATES.—A State shall be eligible to receive an allocation under subsection (c) if the State—

(1) establishes (or has established) a State energy efficient appliance rebate program to provide rebates to residential consumers for the purchase of residential Energy Star products to replace used appliances of the same type;

(2) submits an application for the allocation at such time, in such form, and containing such information as the Secretary may require; and

(3) provides assurances satisfactory to the Secretary that the State will use the allocation to supplement, but not supplant, funds made available to carry out the State program.

(c) AMOUNT OF ALLOCATIONS.—

(1) IN GENERAL.—Subject to paragraph (2), for each fiscal year, the Secretary shall allocate to the State energy office of each eligible State to carry out subsection (d) an amount equal to the product obtained by multiplying the amount made available under subsection (f) for the fiscal year by the ratio that the population of the State in the most recent calendar year for which data are available bears to the total population of all eligible States in that calendar year.

(2) MINIMUM ALLOCATIONS.—For each fiscal year, the amounts allocated under this subsection shall be adjusted proportionately so that no eligible State is allocated a sum that is less than an amount determined by the Secretary.

(d) USE OF ALLOCATED FUNDS.—The allocation to a State energy office under subsection (c) may be used to pay up to 50 percent of the cost of establishing and carrying out a State program.

(e) ISSUANCE OF REBATES.—Rebates may be provided to residential consumers that meet the requirements of the State program. The amount of a rebate shall be determined by the State energy office, taking into consideration—

(1) the amount of the allocation to the State energy office under subsection (c);

(2) the amount of any Federal or State tax incentive available for the purchase of the residential Energy Star product; and

(3) the difference between the cost of the residential Energy Star product and the cost of an appliance that is not a residential Energy Star product, but is of the same type as, and is the nearest capacity, performance, and other relevant characteristics (as determined by the State energy office) to, the residential Energy Star product.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section \$50,000,000 for each of the fiscal years 2004 through 2008.

SEC. 125. ENERGY EFFICIENT PUBLIC BUILDINGS.

(a) GRANTS.—The Secretary of Energy may make grants to the State agency responsible for developing State energy conservation plans under section 362 of the Energy Policy and Conservation Act (42 U.S.C. 6322), or, if no such agency exists, a State agency designated by the Governor of the State, to assist units of local government in the State in improving the energy efficiency of public buildings and facilities—

(1) through construction of new energy efficient public buildings that use at least 30 percent less energy than a comparable public building constructed in compliance with standards prescribed in the most recent version of the International Energy Conservation Code, or a similar State code intended to achieve substantially equivalent efficiency levels; or

(2) through renovation of existing public buildings to achieve reductions in energy use of at least 30 percent as compared to the baseline energy use in such buildings prior to renovation, assuming a 3-year, weather-normalized average for calculating such baseline.

(b) ADMINISTRATION.—State energy offices receiving grants under this section shall—

(1) maintain such records and evidence of compliance as the Secretary may require; and

(2) develop and distribute information and materials and conduct programs to provide technical services and assistance to encourage planning, financing, and design of energy efficient public buildings by units of local government.

(c) Authorization of Appropriations.—For the purposes of this section, there are authorized to be appropriated to the Secretary of Energy $30,000,000 for each of fiscal years 2004 through 2008. Not more than 10 percent of appropriated funds shall be used for administration.

SEC. 126. LOW INCOME COMMUNITY ENERGY EFFICIENCY PILOT PROGRAM.

(a) Grants.—The Secretary of Energy is authorized to make grants to units of local government, private, non-profit community development organizations, and Indian tribe economic development entities to improve energy efficiency; identify and develop alternative, renewable, and distributed energy supplies; and increase energy conservation in low income rural and urban communities.

(b) Purpose of Grants.—The Secretary may make grants on a competitive basis for—

(1) investments that develop alternative, renewable, and distributed energy supplies;

(2) energy efficiency projects and energy conservation programs;

(3) studies and other activities that improve energy efficiency in low income rural and urban communities;

(4) planning and development assistance for increasing the energy efficiency of buildings and facilities; and

(5) technical and financial assistance to local government and private entities on developing new renewable and distributed sources of power or combined heat and power generation.

(c) Definition.—For purposes of this section, the term "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

(d) Authorization of Appropriations.—For the purposes of this section there are authorized to be appropriated to the Secretary of Energy $20,000,000 for each of fiscal years 2004 through 2006.

Subtitle C—Energy Efficient Products

SEC. 131. ENERGY STAR PROGRAM.

(a) Amendment.—The Energy Policy and Conservation Act (42 U.S.C. 6201 et seq.) is amended by inserting the following after section 324:

"SEC. 324A. ENERGY STAR PROGRAM.

"There is established at the Department of Energy and the Environmental Protection Agency a voluntary program to identify and promote energy-efficient products and buildings in order to reduce energy consumption, improve energy security, and reduce pollution through voluntary labeling of or other forms of communication about products and buildings that meet the highest energy efficiency standards. Responsibilities under the program shall be divided between the Department of Energy and the Environmental Protection Agency consistent with the terms of agreements between the 2 agencies. The Administrator and the Secretary shall—

"(1) promote Energy Star compliant technologies as the preferred technologies in the marketplace for achieving energy efficiency and to reduce pollution;

"(2) work to enhance public awareness of the Energy Star label, including special outreach to small businesses;

"(3) preserve the integrity of the Energy Star label;

"(4) solicit comments from interested parties prior to establishing or revising an Energy Star product category, specification, or criterion (or effective dates for any of the foregoing);

"(5) upon adoption of a new or revised product category, specification, or criterion, provide reasonable notice to interested parties of any changes (including effective dates) in product categories, specifications, or criteria along with an explanation of such changes and, where appropriate, responses to comments submitted by interested parties; and

"(6) provide appropriate lead time (which shall be 9 months, unless the Agency or Department determines otherwise) prior to the effective date for a new or a significant revision to a product category, specification, or criterion, taking into account the timing requirements of the manufacturing, product marketing, and distribution process for the specific product addressed.".

(b) Table of Contents Amendment.—The table of contents of the Energy Policy and Conservation Act is amended by inserting after the item relating to section 324 the following new item:

"Sec. 324A. Energy Star program.".

SEC. 132. HVAC MAINTENANCE CONSUMER EDUCATION PROGRAM.

Section 337 of the Energy Policy and Conservation Act (42 U.S.C. 6307) is amended by adding at the end the following:

"(c) HVAC Maintenance.—For the purpose of ensuring that installed air conditioning and heating systems operate at their maximum rated efficiency levels, the Secretary shall, not later than 180 days after the date of enactment of this subsection, carry out a program to educate homeowners and small business owners concerning the energy savings resulting from properly conducted maintenance of air conditioning, heating, and ventilating systems. The Secretary shall carry out the program in a cost-shared manner in cooperation with the Administrator of the Environmental Protection Agency and such other entities as the Secretary considers appropriate, including industry trade associations, industry members, and energy efficiency organizations.

"(d) Small Business Education and Assistance.—The Administrator of the Small Business Administration, in consultation with the Secretary of Energy and the Administrator of the Environmental Protection Agency, shall develop and coordinate a Government-wide program, building on the existing Energy Star for Small Business Program, to assist small businesses to become more energy efficient, understand the cost savings obtainable through efficiencies, and identify financing options for energy efficiency upgrades. The Secretary and the Administrator of the Small Business Administration shall make the program information available directly to small businesses and through other Federal agencies, including the Federal Emergency Management Program and the Department of Agriculture.".

SEC. 133. ENERGY CONSERVATION STANDARDS FOR ADDITIONAL PRODUCTS.

(a) Definitions.—Section 321 of the Energy Policy and Conservation Act (42 U.S.C. 6291) is amended—

(1) in paragraph (30)(S), by striking the period and adding at the end the following: "but does not include any lamp specifically designed to be used for special purpose applications and that is unlikely to be used in general purpose applications such as those described in subparagraph (D), and also does not include any lamp not described in subparagraph (D) that is excluded by the Secretary, by rule, because the lamp is designed for special applications and is unlikely to be used in general purpose applications."; and

(2) by adding at the end the following:

"(32) The term 'battery charger' means a device that charges batteries for consumer products and includes battery chargers embedded in other consumer products.

"(33) The term 'commercial refrigerators, freezers, and refrigerator-freezers' means refrigerators, freezers, or refrigerator-freezers that—

"(A) are not consumer products regulated under this Act; and

"(B) incorporate most components involved in the vapor-compression cycle and the refrigerated compartment in a single package.

"(34) The term 'external power supply' means an external power supply circuit that is used to convert household electric current into either DC current or lower-voltage AC current to operate a consumer product.

"(35) The term 'illuminated exit sign' means a sign that—

"(A) is designed to be permanently fixed in place to identify an exit; and

"(B) consists of an electrically powered integral light source that illuminates the legend 'EXIT' and any directional indicators and provides contrast between the legend, any directional indicators, and the background.

"(36)(A) Except as provided in subparagraph (B), the term 'distribution transformer' means a transformer that—

"(i) has an input voltage of 34.5 kilovolts or less;

"(ii) has an output voltage of 600 volts or less; and

"(iii) is rated for operation at a frequency of 60 Hertz.

"(B) The term 'distribution transformer' does not include—

"(i) transformers with multiple voltage taps, with the highest voltage tap equaling at least 20 percent more than the lowest voltage tap;

"(ii) transformers, such as those commonly known as drive transformers, rectifier transformers, auto-transformers, Uninterruptible Power System transformers, impedance transformers, harmonic transformers, regulating transformers, sealed and nonventilating transformers, machine tool transformers, welding transformers, grounding transformers, or testing transformers, that are designed to be used in a special purpose application and are unlikely to be used in general purpose applications; or

"(iii) any transformer not listed in clause (ii) that is excluded by the Secretary by rule because—

"(I) the transformer is designed for a special application;

"(II) the transformer is unlikely to be used in general purpose applications; and

"(III) the application of standards to the transformer would not result in significant energy savings.

"(37) The term 'low-voltage dry-type distribution transformer' means a distribution transformer that—

"(A) has an input voltage of 600 volts or less;

"(B) is air-cooled; and

"(C) does not use oil as a coolant.

"(38) The term 'standby mode' means the lowest power consumption mode that—

"(A) cannot be switched off or influenced by the user; and

"(B) may persist for an indefinite time when an appliance is connected to the main electricity supply and used in accordance with the manufacturer's instructions,

as defined on an individual product basis by the Secretary.

"(39) The term 'torchiere' means a portable electric lamp with a reflector bowl that directs light upward so as to give indirect illumination.

"(40) The term 'traffic signal module' means a standard 8-inch (200mm) or 12-inch (300mm) traffic signal indication, consisting of a light source, a lens, and all other parts necessary for operation, that communicates movement messages to drivers through red, amber, and green colors.

"(41) The term 'transformer' means a device consisting of 2 or more coils of insulated wire

that transfers alternating current by electromagnetic induction from 1 coil to another to change the original voltage or current value.

"(42) The term 'unit heater' means a self-contained fan-type heater designed to be installed within the heated space, except that such term does not include a warm air furnace.".

(b) TEST PROCEDURES.—Section 323 of the Energy Policy and Conservation Act (42 U.S.C. 6293) is amended—

(1) in subsection (b), by adding at the end the following:

"(9) Test procedures for illuminated exit signs shall be based on the test method used under Version 2.0 of the Energy Star program of the Environmental Protection Agency for illuminated exit signs.

"(10) Test procedures for distribution transformers and low voltage dry-type distribution transformers shall be based on the 'Standard Test Method for Measuring the Energy Consumption of Distribution Transformers' prescribed by the National Electrical Manufacturers Association (NEMA TP 2–1998). The Secretary may review and revise this test procedure. For purposes of section 346(a), this test procedure shall be deemed to be testing requirements prescribed by the Secretary under section 346(a)(1) for distribution transformers for which the Secretary makes a determination that energy conservation standards would be technologically feasible and economically justified, and would result in significant energy savings.

"(11) Test procedures for traffic signal modules shall be based on the test method used under the Energy Star program of the Environmental Protection Agency for traffic signal modules, as in effect on the date of enactment of this paragraph.

"(12) Test procedures for medium base compact fluorescent lamps shall be based on the test methods used under the August 9, 2001, version of the Energy Star program of the Environmental Protection Agency and Department of Energy for compact fluorescent lamps. Covered products shall meet all test requirements for regulated parameters in section 325(bb). However, covered products may be marketed prior to completion of lamp life and lumen maintenance at 40 percent of rated life testing provided manufacturers document engineering predictions and analysis that support expected attainment of lumen maintenance at 40 percent rated life and lamp life time."; and

(2) by adding at the end the following:

"(f) ADDITIONAL CONSUMER AND COMMERCIAL PRODUCTS.—The Secretary shall, not later than 24 months after the date of enactment of this subsection, prescribe testing requirements for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, and commercial refrigerators, freezers, and refrigerator-freezers. Such testing requirements shall be based on existing test procedures used in industry to the extent practical and reasonable. In the case of suspended ceiling fans, such test procedures shall include efficiency at both maximum output and at an output no more than 50 percent of the maximum output.".

(c) NEW STANDARDS.—Section 325 of the Energy Policy and Conservation Act (42 U.S.C. 6295) is amended by adding at the end the following:

"(u) BATTERY CHARGER AND EXTERNAL POWER SUPPLY ELECTRIC ENERGY CONSUMPTION.—

"(1) INITIAL RULEMAKING.—(A) The Secretary shall, within 18 months after the date of enactment of this subsection, prescribe by notice and comment, definitions and test procedures for the power use of battery chargers and external power supplies. In establishing these test procedures, the Secretary shall consider, among other factors, existing definitions and test procedures used for measuring energy consumption in standby mode and other modes and assess the current and projected future market for battery chargers and external power supplies. This assessment shall include estimates of the significance of potential energy savings from technical improvements to these products and suggested product classes for standards: Prior to the end of this time period, the Secretary shall hold a scoping workshop to discuss and receive comments on plans for developing energy conservation standards for energy use for these products.

"(B) The Secretary shall, within 3 years after the date of enactment of this subsection, issue a final rule that determines whether energy conservation standards shall be issued for battery chargers and external power supplies or classes thereof. For each product class, any such standards shall be set at the lowest level of energy use that—

"(i) meets the criteria and procedures of subsections (o), (p), (q), (r), (s), and (t); and

"(ii) will result in significant overall annual energy savings, considering both standby mode and other operating modes.

"(2) REVIEW OF STANDBY ENERGY USE IN COVERED PRODUCTS.—In determining pursuant to section 323 whether test procedures and energy conservation standards pursuant to this section should be revised, the Secretary shall consider, for covered products that are major sources of standby mode energy consumption, whether to incorporate standby mode into such test procedures and energy conservation standards, taking into account, among other relevant factors, standby mode power consumption compared to overall product energy consumption.

"(3) RULEMAKING.—The Secretary shall not propose a standard under this section unless the Secretary has issued applicable test procedures for each product pursuant to section 323.

"(4) EFFECTIVE DATE.—Any standard issued under this subsection shall be applicable to products manufactured or imported 3 years after the date of issuance.

"(5) VOLUNTARY PROGRAMS.—The Secretary and the Administrator shall collaborate and develop programs, including programs pursuant to section 324A (relating to Energy Star Programs) and other voluntary industry agreements or codes of conduct, that are designed to reduce standby mode energy use.

"(v) SUSPENDED CEILING FANS, VENDING MACHINES, AND COMMERCIAL REFRIGERATORS, FREEZERS, AND REFRIGERATOR-FREEZERS.—The Secretary shall not later than 36 months after the date on which testing requirements are prescribed by the Secretary pursuant to section 323(f), prescribe, by rule, energy conservation standards for suspended ceiling fans, refrigerated bottled or canned beverage vending machines, and commercial refrigerators, freezers, and refrigerator-freezers. In establishing standards under this subsection, the Secretary shall use the criteria and procedures contained in subsections (o) and (p). Any standard prescribed under this subsection shall apply to products manufactured 3 years after the date of publication of a final rule establishing such standard.

"(w) ILLUMINATED EXIT SIGNS.—Illuminated exit signs manufactured on or after January 1, 2005, shall meet the Version 2.0 Energy Star Program performance requirements for illuminated exit signs prescribed by the Environmental Protection Agency.

"(x) TORCHIERES.—Torchieres manufactured on or after January 1, 2005—

"(1) shall consume not more than 190 watts of power; and

"(2) shall not be capable of operating with lamps that total more than 190 watts.

"(y) LOW VOLTAGE DRY-TYPE DISTRIBUTION TRANSFORMERS.—The efficiency of low voltage dry-type distribution transformers manufactured on or after January 1, 2005, shall be the Class I Efficiency Levels for distribution transformers specified in Table 4-2 of the 'Guide for Determining Energy Efficiency for Distribution Transformers' published by the National Electrical Manufacturers Association (NEMA TP–1–2002).

"(z) TRAFFIC SIGNAL MODULES.—Traffic signal modules manufactured on or after January 1, 2006, shall meet the performance requirements used under the Energy Star program of the Environmental Protection Agency for traffic signals, as in effect on the date of enactment of this subsection, and shall be installed with compatible, electrically connected signal control interface devices and conflict monitoring systems.

"(aa) UNIT HEATERS.—Unit heaters manufactured on or after the date that is 3 years after the date of enactment of this subsection shall be equipped with an intermittent ignition device and shall have either power venting or an automatic flue damper.

"(bb) MEDIUM BASE COMPACT FLUORESCENT LAMPS.—Bare lamp and covered lamp (no reflector) medium base compact fluorescent lamps manufactured on or after January 1, 2005, shall meet the following requirements prescribed by the August 9, 2001, version of the Energy Star Program Requirements for Compact Fluorescent Lamps, Energy Star Eligibility Criteria, Energy-Efficiency Specification issued by the Environmental Protection Agency and Department of Energy: minimum initial efficacy; lumen maintenance at 1000 hours; lumen maintenance at 40 percent of rated life; rapid cycle stress test; and lamp life. The Secretary may, by rule, establish requirements for color quality (CRI); power factor; operating frequency; and maximum allowable start time based on the requirements prescribed by the August 9, 2001, version of the Energy Star Program Requirements for Compact Fluorescent Lamps. The Secretary may, by rule, revise these requirements or establish other requirements considering energy savings, cost effectiveness, and consumer satisfaction.

"(cc) EFFECTIVE DATE.—Section 327 shall apply—

"(1) to products for which standards are to be established under subsections (u) and (v) on the date on which a final rule is issued by the Department of Energy, except that any State or local standards prescribed or enacted for any such product prior to the date on which such final rule is issued shall not be preempted until the standard established under subsection (u) or (v) for that product takes effect; and

"(2) to products for which standards are established under subsections (w) through (bb) on the date of enactment of those subsections, except that any State or local standards prescribed or enacted prior to the date of enactment of those subsections shall not be preempted until the standards established under subsections (w) through (bb) take effect.".

(d) RESIDENTIAL FURNACE FANS.—Section 325(f)(3) of the Energy Policy and Conservation Act (42 U.S.C. 6295(f)(3)) is amended by adding the following new subparagraph at the end:

"(D) Notwithstanding any provision of this Act, the Secretary may consider, and prescribe, if the requirements of subsection (o) of this section are met, energy efficiency or energy use standards for electricity used for purposes of circulating air through duct work.".

SEC. 134. ENERGY LABELING.

(a) RULEMAKING ON EFFECTIVENESS OF CONSUMER PRODUCT LABELING.—Section 324(a)(2) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)(2)) is amended by adding at the end the following:

"(F) Not later than 3 months after the date of enactment of this subparagraph, the Commission shall initiate a rulemaking to consider the effectiveness of the current consumer products

labeling program in assisting consumers in making purchasing decisions and improving energy efficiency and to consider changes to the labeling rules that would improve the effectiveness of consumer product labels. Such rulemaking shall be completed not later than 2 years after the date of enactment of this subparagraph.''.

(b) Rulemaking on Labeling for Additional Products.—Section 324(a) of the Energy Policy and Conservation Act (42 U.S.C. 6294(a)) is further amended by adding at the end the following:

''(5) The Secretary or the Commission, as appropriate, may, for covered products referred to in subsections (u) through (aa) of section 325, prescribe, by rule, pursuant to this section, labeling requirements for such products after a test procedure has been set pursuant to section 323. In the case of products to which TP–1 standards under section 325(y) apply, labeling requirements shall be based on the 'Standard for the Labeling of Distribution Transformer Efficiency' prescribed by the National Electrical Manufacturers Association (NEMA TP–3) as in effect upon the date of enactment of this paragraph.''.

Subtitle D—Public Housing

SEC. 141. CAPACITY BUILDING FOR ENERGY-EFFICIENT, AFFORDABLE HOUSING.

Section 4(b) of the HUD Demonstration Act of 1993 (42 U.S.C. 9816 note) is amended—

(1) in paragraph (1), by inserting before the semicolon at the end the following: '', including capabilities regarding the provision of energy efficient, affordable housing and residential energy conservation measures''; and

(2) in paragraph (2), by inserting before the semicolon the following: '', including such activities relating to the provision of energy efficient, affordable housing and residential energy conservation measures that benefit low-income families''.

SEC. 142. INCREASE OF CDBG PUBLIC SERVICES CAP FOR ENERGY CONSERVATION AND EFFICIENCY ACTIVITIES.

Section 105(a)(8) of the Housing and Community Development Act of 1974 (42 U.S.C. 5305(a)(8)) is amended—

(1) by inserting ''or efficiency'' after ''energy conservation'';

(2) by striking '', and except that'' and inserting ''; except that''; and

(3) by inserting before the semicolon at the end the following: ''; and except that each percentage limitation under this paragraph on the amount of assistance provided under this title that may be used for the provision of public services is hereby increased by 10 percent, but such percentage increase may be used only for the provision of public services concerning energy conservation or efficiency''.

SEC. 143. FHA MORTGAGE INSURANCE INCENTIVES FOR ENERGY EFFICIENT HOUSING.

(a) Single Family Housing Mortgage Insurance.—Section 203(b)(2) of the National Housing Act (12 U.S.C. 1709(b)(2)) is amended, in the first undesignated paragraph beginning after subparagraph (B)(ii)(IV) (relating to solar energy systems), by striking ''20 percent'' and inserting ''30 percent''.

(b) Multifamily Housing Mortgage Insurance.—Section 207(c) of the National Housing Act (12 U.S.C. 1713(c)) is amended, in the last undesignated paragraph beginning after paragraph (3) (relating to solar energy systems and residential energy conservation measures), by striking ''20 percent'' and inserting ''30 percent''.

(c) Cooperative Housing Mortgage Insurance.—Section 213(p) of the National Housing Act (12 U.S.C. 1715e(p)) is amended by striking ''20 per centum'' and inserting ''30 percent''.

(d) Rehabilitation and Neighborhood Conservation Housing Mortgage Insurance.—Section 220(d)(3)(B)(iii)(IV) of the National Housing Act (12 U.S.C. 1715k(d)(3)(B)(iii)(IV)) is amended—

(1) by striking ''with respect to rehabilitation projects involving not more than five family units,''; and

(2) by striking ''20 per centum'' and inserting ''30 percent''.

(e) Low-Income Multifamily Housing Mortgage Insurance.—Section 221(k) of the National Housing Act (12 U.S.C. 1715l(k)) is amended by striking ''20 per centum'' and inserting ''30 percent''.

(f) Elderly Housing Mortgage Insurance.—Section 231(c)(2)(C) of the National Housing Act (12 U.S.C. 1715v(c)(2)(C)) is amended by striking ''20 per centum'' and inserting ''30 percent''.

(g) Condominium Housing Mortgage Insurance.—Section 234(j) of the National Housing Act (12 U.S.C. 1715y(j)) is amended by striking ''20 per centum'' and inserting ''30 percent''.

SEC. 144. PUBLIC HOUSING CAPITAL FUND.

Section 9 of the United States Housing Act of 1937 (42 U.S.C. 1437g) is amended—

(1) in subsection (d)(1)—

(A) in subparagraph (I), by striking ''and'' at the end;

(B) in subparagraph (J), by striking the period at the end and inserting a semicolon; and

(C) by adding at the end the following new subparagraphs:

''(K) improvement of energy and water-use efficiency by installing fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2-1998 and A112.18.1-2000, or any revision thereto, applicable at the time of installation, and by increasing energy efficiency and water conservation by such other means as the Secretary determines are appropriate; and

''(L) integrated utility management and capital planning to maximize energy conservation and efficiency measures.''; and

(2) in subsection (e)(2)(C)—

(A) by striking ''The'' and inserting the following:

''(i) In general.—The''; and

(B) by adding at the end the following:

''(ii) Third party contracts.—Contracts described in clause (i) may include contracts for equipment conversions to less costly utility sources, projects with resident-paid utilities, and adjustments to frozen base year consumption, including systems repaired to meet applicable building and safety codes and adjustments for occupancy rates increased by rehabilitation.

''(iii) Term of contract.—The total term of a contract described in clause (i) shall not exceed 20 years to allow longer payback periods for retrofits, including windows, heating system replacements, wall insulation, site-based generation, advanced energy savings technologies, including renewable energy generation, and other such retrofits.''.

SEC. 145. GRANTS FOR ENERGY-CONSERVING IMPROVEMENTS FOR ASSISTED HOUSING.

Section 251(b)(1) of the National Energy Conservation Policy Act (42 U.S.C. 8231(1)) is amended—

(1) by striking ''financed with loans'' and inserting ''assisted'';

(2) by inserting after ''1959,'' the following: ''which are eligible multifamily housing projects (as such term is defined in section 512 of the Multifamily Assisted Housing Reform and Affordability Act of 1997 (42 U.S.C. 1437f note)) and are subject to mortgage restructuring and rental assistance sufficiency plans under such Act,''; and

(3) by inserting after the period at the end of the first sentence the following new sentence: ''Such improvements may also include the installation of energy and water conserving fixtures and fittings that conform to the American Society of Mechanical Engineers/American National Standards Institute standards A112.19.2-1998 and A112.18.1-2000, or any revision thereto, applicable at the time of installation.''.

SEC. 146. NORTH AMERICAN DEVELOPMENT BANK.

Part 2 of subtitle D of title V of the North American Free Trade Agreement Implementation Act (22 U.S.C. 290m–290m-3) is amended by adding at the end the following:

''SEC. 545. SUPPORT FOR CERTAIN ENERGY POLICIES.

''Consistent with the focus of the Bank's Charter on environmental infrastructure projects, the Board members representing the United States should use their voice and vote to encourage the Bank to finance projects related to clean and efficient energy, including energy conservation, that prevent, control, or reduce environmental pollutants or contaminants.''.

SEC. 147. ENERGY-EFFICIENT APPLIANCES.

In purchasing appliances, a public housing agency shall purchase energy-efficient appliances that are Energy Star products or FEMP-designated products, as such terms are defined in section 553 of the National Energy Conservation Policy Act (as amended by this title), unless the purchase of energy-efficient appliances is not cost-effective to the agency.

SEC. 148. ENERGY EFFICIENCY STANDARDS.

Section 109 of the Cranston-Gonzalez National Affordable Housing Act (42 U.S.C. 12709) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking ''1 year after the date of the enactment of the Energy Policy Act of 1992'' and inserting ''September 30, 2004'';

(ii) in subparagraph (A), by striking ''and'' at the end;

(iii) in subparagraph (B), by striking the period at the end and inserting ''; and''; and

(iv) by adding at the end the following:

''(C) rehabilitation and new construction of public and assisted housing funded by HOPE VI revitalization grants under section 24 of the United States Housing Act of 1937 (42 U.S.C. 1437v), where such standards are determined to be cost effective by the Secretary of Housing and Urban Development.''; and

(B) in paragraph (2), by striking ''Council of American'' and all that follows through ''90.1–1989')'' and inserting ''2003 International Energy Conservation Code'';

(2) in subsection (b)—

(A) by striking ''within 1 year after the date of the enactment of the Energy Policy Act of 1992'' and inserting ''by September 30, 2004''; and

(B) by striking ''CABO'' and all that follows through ''1989'' and inserting ''the 2003 International Energy Conservation Code''; and

(3) in subsection (c)—

(A) in the heading, by striking ''Model Energy Code'' and inserting ''The International Energy Conservation Code''; and

(B) by striking ''CABO'' and all that follows through ''1989'' and inserting ''the 2003 International Energy Conservation Code''.

SEC. 149. ENERGY STRATEGY FOR HUD.

The Secretary of Housing and Urban Development shall develop and implement an integrated strategy to reduce utility expenses through cost-effective energy conservation and efficiency measures and energy efficient design and construction of public and assisted housing. The energy strategy shall include the development of energy reduction goals and incentives for public housing agencies. The Secretary shall submit a report to Congress, not later than 1 year after *the date of the enactment of this Act, on the energy strategy and the actions taken by the Department of Housing and Urban Development to monitor the energy usage of public housing agencies and shall submit an update every 2 years thereafter on progress in implementing the strategy.*

TITLE II—RENEWABLE ENERGY

Subtitle A—General Provisions

SEC. 201. ASSESSMENT OF RENEWABLE ENERGY RESOURCES.

(a) RESOURCE ASSESSMENT.—Not later than 6 months after the date of enactment of this Act, and each year thereafter, the Secretary of Energy shall review the available assessments of renewable energy resources within the United States, including solar, wind, biomass, ocean (tidal, wave, current, and thermal), geothermal, and hydroelectric energy resources, and undertake new assessments as necessary, taking into account changes in market conditions, available technologies, and other relevant factors.

(b) CONTENTS OF REPORTS.—Not later than 1 year after the date of enactment of this Act, and each year thereafter, the Secretary shall publish a report based on the assessment under subsection (a). The report shall contain—

(1) a detailed inventory describing the available amount and characteristics of the renewable energy resources; and

(2) such other information as the Secretary believes would be useful in developing such renewable energy resources, including descriptions of surrounding terrain, population and load centers, nearby energy infrastructure, location of energy and water resources, and available estimates of the costs needed to develop each resource, together with an identification of any barriers to providing adequate transmission for remote sources of renewable energy resources to current and emerging markets, recommendations for removing or addressing such barriers, and ways to provide access to the grid that do not unfairly disadvantage renewable or other energy producers.

(c) AUTHORIZATION OF APPROPRIATIONS.—For the purposes of this section, there are authorized to be appropriated to the Secretary of Energy $10,000,000 for each of fiscal years 2004 through 2008.

SEC. 202. RENEWABLE ENERGY PRODUCTION INCENTIVE.

(a) INCENTIVE PAYMENTS.—Section 1212(a) of the Energy Policy Act of 1992 (42 U.S.C. 13317(a)) is amended by striking "and which satisfies" and all that follows through "Secretary shall establish." and inserting ". If there are insufficient appropriations to make full payments for electric production from all qualified renewable energy facilities in any given year, the Secretary shall assign 60 percent of appropriated funds for that year to facilities that use solar, wind, geothermal, or closed-loop (dedicated energy crops) biomass technologies to generate electricity, and assign the remaining 40 percent to other projects. The Secretary may, after transmitting to Congress an explanation of the reasons therefor, alter the percentage requirements of the preceding sentence.".

(b) QUALIFIED RENEWABLE ENERGY FACILITY.—Section 1212(b) of the Energy Policy Act of 1992 (42 U.S.C. 13317(b)) is amended—

(1) by striking "a State or any political" and all that follows through "nonprofit electrical cooperative" and inserting "a not-for-profit electric cooperative, a public utility described in section 115 of the Internal Revenue Code of 1986, a State, Commonwealth, territory, or possession of the United States or the District of Columbia, or a political subdivision thereof, or an Indian tribal government or subdivision thereof,"; and

(2) by inserting "landfill gas," after "wind, biomass,".

(c) ELIGIBILITY WINDOW.—Section 1212(c) of the Energy Policy Act of 1992 (42 U.S.C. 13317(c)) is amended by striking "during the 10-fiscal year period beginning with the first full fiscal year occurring after the enactment of this section" and inserting "after October 1, 2003, and before October 1, 2013".

(d) AMOUNT OF PAYMENT.—Section 1212(e)(1) of the Energy Policy Act of 1992 (42 U.S.C. 13317(e)(1)) is amended by inserting "landfill gas," after "wind, biomass,".

(e) SUNSET.—Section 1212(f) of the Energy Policy Act of 1992 (42 U.S.C. 13317(f)) is amended by striking "the expiration of" and all that follows through "of this section" and inserting "September 30, 2023".

(f) AUTHORIZATION OF APPROPRIATIONS.—Section 1212(g) of the Energy Policy Act of 1992 (42 U.S.C. 13317(g)) is amended to read as follows:

"(g) AUTHORIZATION OF APPROPRIATIONS.—

"(1) IN GENERAL.—Subject to paragraph (2), there are authorized to be appropriated such sums as may be necessary to carry out this section for fiscal years 2003 through 2023.

"(2) AVAILABILITY OF FUNDS.—Funds made available under paragraph (1) shall remain available until expended.".

SEC. 203. FEDERAL PURCHASE REQUIREMENT.

(a) REQUIREMENT.—The President, acting through the Secretary of Energy, shall seek to ensure that, to the extent economically feasible and technically practicable, of the total amount of electric energy the Federal Government consumes during any fiscal year, the following amounts shall be renewable energy:

(1) Not less than 3 percent in fiscal years 2005 through 2007.

(2) Not less than 5 percent in fiscal years 2008 through 2010.

(3) Not less than 7.5 percent in fiscal year 2011 and each fiscal year thereafter.

(b) DEFINITIONS.—In this section:

(1) BIOMASS.—The term "biomass" means any solid, nonhazardous, cellulosic material that is derived from—

(A) any of the following forest-related resources: mill residues, precommercial thinnings, slash, and brush, or nonmerchantable material;

(B) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste (garbage), gas derived from the biodegradation of solid waste, or paper that is commonly recycled;

(C) agriculture wastes, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues, and livestock waste nutrients; or

(D) a plant that is grown exclusively as a fuel for the production of electricity.

(2) RENEWABLE ENERGY.—The term "renewable energy" means electric energy generated from solar, wind, biomass, landfill gas, geothermal, municipal solid waste, or new hydroelectric generation capacity achieved from increased efficiency or additions of new capacity at an existing hydroelectric project.

(c) CALCULATION.—For purposes of determining compliance with the requirement of this section, the amount of renewable energy shall be doubled if—

(1) the renewable energy is produced and used on-site at a Federal facility;

(2) the renewable energy is produced on Federal lands and used at a Federal facility; or

(3) the renewable energy is produced on Indian land as defined in title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et. seq.) and used at a Federal facility.

(d) REPORT.—Not later than April 15, 2005, and every 2 years thereafter, the Secretary of Energy shall provide a report to Congress on the progress of the Federal Government in meeting the goals established by this section.

SEC. 204. INSULAR AREAS ENERGY SECURITY.

Section 604 of the Act entitled "An Act to authorize appropriations for certain insular areas of the United States, and for other purposes", approved December 24, 1980 (48 U.S.C. 1492), is amended—

(1) in subsection (a)(4) by striking the period and inserting a semicolon;

(2) by adding at the end of subsection (a) the following new paragraphs:

"(5) electric power transmission and distribution lines in insular areas are inadequate to withstand damage caused by the hurricanes and typhoons which frequently occur in insular areas and such damage often costs millions of dollars to repair; and

"(6) the refinement of renewable energy technologies since the publication of the 1982 Territorial Energy Assessment prepared pursuant to subsection (c) reveals the need to reassess the state of energy production, consumption, infrastructure, reliance on imported energy, opportunities for energy conservation and increased energy efficiency, and indigenous sources in regard to the insular areas.";

(3) by amending subsection (e) to read as follows:

"(e)(1) The Secretary of the Interior, in consultation with the Secretary of Energy and the head of government of each insular area, shall update the plans required under subsection (c) by—

"(A) updating the contents required by subsection (c);

"(B) drafting long-term energy plans for such insular areas with the objective of reducing, to the exteni feasible, their reliance on energy imports by the year 2010, increasing energy conservation and energy efficiency, and maximizing, to the extent feasible, use of indigenous energy sources; and

"(C) drafting long-term energy transmission line plans for such insular areas with the objective that the maximum percentage feasible of electric power transmission and distribution lines in each insular area be protected from damage caused by hurricanes and typhoons.

"(2) Not later than December 31, 2005, the Secretary of the Interior shall submit to Congress the updated plans for each insular area required by this subsection."; and

(4) by amending subsection (g)(4) to read as follows:

"(4) POWER LINE GRANTS FOR INSULAR AREAS.—

"(A) IN GENERAL.—The Secretary of the Interior is authorized to make grants to governments of insular areas of the United States to carry out eligible projects to protect electric power transmission and distribution lines in such insular areas from damage caused by hurricanes and typhoons.

"(B) ELIGIBLE PROJECTS.—The Secretary may award grants under subparagraph (A) only to governments of insular areas of the United States that submit written project plans to the Secretary for projects that meet the following criteria:

"(i) The project is designed to protect electric power transmission and distribution lines located in 1 or more of the insular areas of the United States from damage caused by hurricanes and typhoons.

"(ii) The project is likely to substantially reduce the risk of future damage, hardship, loss, or suffering.

"(iii) The project addresses 1 or more problems that have been repetitive or that pose a significant risk to public health and safety.

"(iv) The project is not likely to cost more than the value of the reduction in direct damage and other negative impacts that the project is designed to prevent or mitigate. The cost benefit analysis required by this criterion shall be computed on a net present value basis.

"(v) The project design has taken into consideration long-term changes to the areas and persons it is designed to protect and has manageable future maintenance and modification requirements.

"(vi) The project plan includes an analysis of a range of options to address the problem it is designed to prevent or mitigate and a justification for the selection of the project in light of that analysis.

"(vii) The applicant has demonstrated to the Secretary that the matching funds required by subparagraph (D) are available.

"(C) PRIORITY.—When making grants under this paragraph, the Secretary shall give priority to grants for projects which are likely to—

"(i) have the greatest impact on reducing future disaster losses; and

"(ii) best conform with plans that have been approved by the Federal Government or the government of the insular area where the project is to be carried out for development or hazard mitigation for that insular area.

"(D) MATCHING REQUIREMENT.—The Federal share of the cost for a project for which a grant is provided under this paragraph shall not exceed 75 percent of the total cost of that project. The non-Federal share of the cost may be provided in the form of cash or services.

"(E) TREATMENT OF FUNDS FOR CERTAIN PURPOSES.—Grants provided under this paragraph shall not be considered as income, a resource, or a duplicative program when determining eligibility or benefit levels for Federal major disaster and emergency assistance.

"(F) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this paragraph $5,000,000 for each fiscal year beginning after the date of the enactment of this paragraph.".

SEC. 205. USE OF PHOTOVOLTAIC ENERGY IN PUBLIC BUILDINGS.

(a) IN GENERAL.—Subchapter VI of chapter 31 of title 40, United States Code, is amended by adding at the end the following:

"§3177. Use of photovoltaic energy in public buildings

"(a) PHOTOVOLTAIC ENERGY COMMERCIALIZATION PROGRAM.—

"(1) IN GENERAL.—The Administrator of General Services may establish a photovoltaic energy commercialization program for the procurement and installation of photovoltaic solar electric systems for electric production in new and existing public buildings.

"(2) PURPOSES.—The purposes of the program shall be to accomplish the following:

"(A) To accelerate the growth of a commercially viable photovoltaic industry to make this energy system available to the general public as an option which can reduce the national consumption of fossil fuel.

"(B) To reduce the fossil fuel consumption and costs of the Federal Government.

"(C) To attain the goal of installing solar energy systems in 20,000 Federal buildings by 2010, as contained in the Federal Government's Million Solar Roof Initiative of 1997.

"(D) To stimulate the general use within the Federal Government of life-cycle costing and innovative procurement methods.

"(E) To develop program performance data to support policy decisions on future incentive programs with respect to energy.

"(3) ACQUISITION OF PHOTOVOLTAIC SOLAR ELECTRIC SYSTEMS.—

"(A) IN GENERAL.—The program shall provide for the acquisition of photovoltaic solar electric systems and associated storage capability for use in public buildings.

"(B) ACQUISITION LEVELS.—The acquisition of photovoltaic electric systems shall be at a level substantial enough to allow use of low-cost production techniques with at least 150 megawatts (peak) cumulative acquired during the 5 years of the program.

"(4) ADMINISTRATION.—The Administrator shall administer the program and shall—

"(A) issue such rules and regulations as may be appropriate to monitor and assess the performance and operation of photovoltaic solar electric systems installed pursuant to this subsection;

"(B) develop innovative procurement strategies for the acquisition of such systems; and

"(C) transmit to Congress an annual report on the results of the program.

"(b) PHOTOVOLTAIC SYSTEMS EVALUATION PROGRAM.—

"(1) IN GENERAL.—Not later than 60 days after the date of enactment of this section, the Administrator, in consultation with the Secretary of Energy, shall establish a photovoltaic solar energy systems evaluation program to evaluate such photovoltaic solar energy systems as are required in public buildings.

"(2) PROGRAM REQUIREMENT.—In evaluating photovoltaic solar energy systems under the program, the Administrator shall ensure that such systems reflect the most advanced technology.

"(c) AUTHORIZATION OF APPROPRIATIONS.—

"(1) PHOTOVOLTAIC ENERGY COMMERCIALIZATION PROGRAM.—There are authorized to be appropriated to carry out subsection (a) $50,000,000 for each of fiscal years 2004 through 2008. Such sums shall remain available until expended.

"(2) PHOTOVOLTAIC SYSTEMS EVALUATION PROGRAM.—There are authorized to be appropriated to carry out subsection (b) $10,000,000 for each of fiscal years 2004 through 2008. Such sums shall remain available until expended.".

(b) CONFORMING AMENDMENT.—The section analysis for such chapter is amended by inserting after the item relating to section 3176 the following:

"3177. Use of photovoltaic energy in public buildings.".

SEC. 206. GRANTS TO IMPROVE THE COMMERCIAL VALUE OF FOREST BIOMASS FOR ELECTRIC ENERGY, USEFUL HEAT, TRANSPORTATION FUELS, PETROLEUM-BASED PRODUCT SUBSTITUTES, AND OTHER COMMERCIAL PURPOSES.

(a) FINDINGS.—Congress finds the following:

(1) Thousands of communities in the United States, many located near Federal lands, are at risk to wildfire. Approximately 190,000,000 acres of land managed by the Secretary of Agriculture and the Secretary of the Interior are at risk of catastrophic fire in the near future. The accumulation of heavy forest fuel loads continues to increase as a result of disease, insect infestations, and drought, further raising the risk of fire each year.

(2) In addition, more than 70,000,000 acres across all land ownerships are at risk to higher than normal mortality over the next 15 years from insect infestation and disease. High levels of tree mortality from insects and disease result in increased fire risk, loss of old growth, degraded watershed conditions, and changes in species diversity and productivity, as well as diminished fish and wildlife habitat and decreased timber values.

(3) Preventive treatments such as removing fuel loading, ladder fuels, and hazard trees, planting proper species mix and restoring and protecting early successional habitat, and other specific restoration treatments designed to reduce the susceptibility of forest land, woodland, and rangeland to insect outbreaks, disease, and catastrophic fire present the greatest opportunity for long-term forest health by creating a mosaic of species-mix and age distribution. Such prevention treatments are widely acknowledged to be more successful and cost effective than suppression treatments in the case of insects, disease, and fire.

(4) The byproducts of preventive treatment (wood, brush, thinnings, chips, slash, and other hazardous fuels) removed from forest lands, woodlands and rangelands represent an abundant supply of biomass for biomass-to-energy facilities and raw material for business. There are currently few markets for the extraordinary volumes of byproducts being generated as a result of the necessary large-scale preventive treatment activities.

(5) The United States should—

(A) promote economic and entrepreneurial opportunities in using byproducts removed through preventive treatment activities related to hazardous fuels reduction, disease, and insect infestation; and

(B) develop and expand markets for traditionally underused wood and biomass as an outlet for byproducts of preventive treatment activities.

(b) DEFINITIONS.—In this section:

(1) BIOMASS.—The term "biomass" means trees and woody plants, including limbs, tops, needles, and other woody parts, and byproducts of preventive treatment, such as wood, brush, thinnings, chips, and slash, that are removed—

(A) to reduce hazardous fuels; or

(B) to reduce the risk of or to contain disease or insect infestation.

(2) INDIAN TRIBE.—The term "Indian tribe" has the meaning given the term in section 4(e) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b(e)).

(3) PERSON.—The term "person" includes—

(A) an individual;

(B) a community (as determined by the Secretary concerned);

(C) an Indian tribe;

(D) a small business, micro-business, or a corporation that is incorporated in the United States; and

(E) a nonprofit organization.

(4) PREFERRED COMMUNITY.—The term "preferred community" means—

(A) any town, township, municipality, or other similar unit of local government (as determined by the Secretary concerned) that—

(i) has a population of not more than 50,000 individuals; and

(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation; or

(B) any county that—

(i) is not contained within a metropolitan statistical area; and

(ii) the Secretary concerned, in the sole discretion of the Secretary concerned, determines contains or is located near land, the condition of which is at significant risk of catastrophic wildfire, disease, or insect infestation or which suffers from disease or insect infestation.

(5) SECRETARY CONCERNED.—The term "Secretary concerned" means—

(A) the Secretary of Agriculture with respect to National Forest System lands; and

(B) the Secretary of the Interior with respect to Federal lands under the jurisdiction of the Secretary of the Interior and Indian lands.

(c) BIOMASS COMMERCIAL USE GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary concerned may make grants to any person that owns or operates a facility that uses biomass as a raw material to produce electric energy, sensible heat, transportation fuels, or substitutes for petroleum-based products to offset the costs incurred to purchase biomass for use by such facility.

(2) GRANT AMOUNTS.—A grant under this subsection may not exceed $20 per green ton of biomass delivered.

(3) MONITORING OF GRANT RECIPIENT ACTIVITIES.—As a condition of a grant under this subsection, the grant recipient shall keep such

records as the Secretary concerned may require to fully and correctly disclose the use of the grant funds and all transactions involved in the purchase of biomass. Upon notice by a representative of the Secretary concerned, the grant recipient shall afford the representative reasonable access to the facility that purchases or uses biomass and an opportunity to examine the inventory and records of the facility.

(d) IMPROVED BIOMASS USE GRANT PROGRAM.—

(1) IN GENERAL.—The Secretary concerned may make grants to persons to offset the cost of projects to develop or research opportunities to improve the use of, or add value to, biomass. In making such grants, the Secretary concerned shall give preference to persons in preferred communities.

(2) SELECTION.—The Secretary concerned shall select a grant recipient under paragraph (1) after giving consideration to the anticipated public benefits of the project, including the potential to develop thermal or electric energy resources or affordable energy, opportunities for the creation or expansion of small businesses and micro-businesses, and the potential for new job creation.

(3) GRANT AMOUNT.—A grant under this subsection may not exceed $500,000.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $50,000,000 for each of the fiscal years 2004 through 2014 to carry out this section.

(f) REPORT.—Not later than October 1, 2010, the Secretary of Agriculture, in consultation with the Secretary of the Interior, shall submit to the Committee on Energy and Natural Resources and the Committee on Agriculture, Nutrition, and Forestry of the Senate and the Committee on Resources, the Committee on Energy and Commerce, and the Committee on Agriculture of the House of Representatives a report describing the results of the grant programs authorized by this section. The report shall include the following:

(1) An identification of the size, type, and the use of biomass by persons that receive grants under this section.

(2) The distance between the land from which the biomass was removed and the facility that used the biomass.

(3) The economic impacts, particularly new job creation, resulting from the grants to and operation of the eligible operations.

SEC. 207. BIOBASED PRODUCTS.

Section 9002(c)(1) of the Farm Security and Rural Investment Act of 2002 (7 U.S.C. 8102(c)(1)) is amended by inserting "or such items that comply with the regulations issued under section 103 of Public Law 100–556 (42 U.S.C. 6914b–1)" after "practicable".

Subtitle B—Geothermal Energy

SEC. 211. SHORT TITLE.

This subtitle may be cited as the "John Rishel Geothermal Steam Act Amendments of 2003".

SEC. 212. COMPETITIVE LEASE SALE REQUIREMENTS.

Section 4 of the Geothermal Steam Act of 1970 (30 U.S.C. 1003) is amended to read as follows:

"SEC. 4. LEASING PROCEDURES.

"(a) NOMINATIONS.—The Secretary shall accept nominations of lands to be leased at any time from qualified companies and individuals under this Act.

"(b) COMPETITIVE LEASE SALE REQUIRED.—The Secretary shall hold a competitive lease sale at least once every 2 years for lands in a State which has nominations pending under subsection (a) if such lands are otherwise available for leasing.

"(c) NONCOMPETITIVE LEASING.—The Secretary shall make available for a period of 2 years for noncompetitive leasing any tract for which a competitive lease sale is held, but for which the Secretary does not receive any bids in a competitive lease sale.

"(d) LEASES SOLD AS A BLOCK.—If information is available to the Secretary indicating a geothermal resource that could be produced as 1 unit can reasonably be expected to underlie more than 1 parcel to be offered in a competitive lease sale, the parcels for such a resource may be offered for bidding as a block in the competitive lease sale.

"(e) PENDING LEASE APPLICATIONS ON APRIL 1, 2003.—It shall be a priority for the Secretary of the Interior, and for the Secretary of Agriculture with respect to National Forest Systems lands, to ensure timely completion of administrative actions necessary to process applications for geothermal leasing pending on April 1, 2003. Such an application, and any lease issued pursuant to such an application—

"(1) except as provided in paragraph (2), shall be subject to this section as in effect on April 1, 2003; or

"(2) at the election of the applicant, shall be subject to this section as in effect on the effective date of this paragraph.".

SEC. 213. DIRECT USE.

(a) FEES FOR DIRECT USE.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is amended—

(1) in paragraph (c) by redesignating subparagraphs (1) and (2) as subparagraphs (A) and (B);

(2) by redesignating paragraphs (a) through (d) in order as paragraphs (1) through (4);

(3) by inserting "(a) IN GENERAL.—" after "SEC. 5."; and

(4) by adding at the end the following:

"(b) DIRECT USE.—Notwithstanding subsection (a)(1), with respect to the direct use of geothermal resources for purposes other than the commercial generation of electricity, the Secretary of the Interior shall establish a schedule of fees and collect fees pursuant to such a schedule in lieu of royalties based upon the total amount of the geothermal resources used. The schedule of fees shall ensure that there is a fair return to the public for the use of a geothermal resource based upon comparable fees charged for direct use of geothermal resources by States or private persons. For direct use by a State or local government for public purposes there shall be no royalty and the fee charged shall be nominal. Leases in existence on the date of enactment of the Energy Policy Act of 2003 shall be modified in order to reflect the provisions of this subsection.".

(b) LEASING FOR DIRECT USE.—Section 4 of the Geothermal Steam Act of 1970 (30 U.S.C. 1003) is further amended by adding at the end the following:

"(f) LEASING FOR DIRECT USE OF GEOTHERMAL RESOURCES.—Lands leased under this Act exclusively for direct use of geothermal resources shall be leased to any qualified applicant who first applies for such a lease under regulations issued by the Secretary, if—

"(1) the Secretary publishes a notice of the lands proposed for leasing 60 days before the date of the issuance of the lease; and

"(2) the Secretary does not receive in the 60-day period beginning on the date of such publication any nomination to include the lands concerned in the next competitive lease sale.

"(g) AREA SUBJECT TO LEASE FOR DIRECT USE.—A geothermal lease for the direct use of geothermal resources shall embrace not more than the amount of acreage determined by the Secretary to be reasonably necessary for such proposed utilization.".

(c) EXISTING LEASES WITH A DIRECT USE FACILITY.—

(1) APPLICATION TO CONVERT.—Any lessee under a lease under the Geothermal Steam Act of 1970 that was issued before the date of the enactment of this Act may apply to the Secretary of the Interior, by not later than 18 months after the date of the enactment of this Act, to convert such lease to a lease for direct utilization of geothermal resources in accordance with the amendments made by this section.

(2) CONVERSION.—The Secretary shall approve such an application and convert such a lease to a lease in accordance with the amendments by not later than 180 days after receipt of such application, unless the Secretary determines that the applicant is not a qualified applicant with respect to the lease.

(3) APPLICATION OF NEW LEASE TERMS.—The amendment made by subsection (a)(4) shall apply with respect to payments under a lease converted under this subsection that are due and owing to the United States on or after July 16, 2003.

SEC. 214. ROYALTIES AND NEAR-TERM PRODUCTION INCENTIVES.

(a) ROYALTY.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended—

(1) in subsection (a) by striking paragraph (1) and inserting the following:

"(1) a royalty on electricity produced using geothermal steam and associated geothermal resources, other than direct use of geothermal resources, that shall be—

"(A) not less than 1 percent and not more than 2.5 percent of the gross proceeds from the sale of electricity produced from such resources during the first 10 years of production under the lease; and

"(B) not less than 2 and not more than 5 percent of the gross proceeds from the sale of electricity produced from such resources during each year after such 10-year period;"; and

(2) by adding at the end the following:

"(c) FINAL REGULATION ESTABLISHING ROYALTY RATES.—In issuing any final regulation establishing royalty rates under this section, the Secretary shall seek—

"(1) to provide lessees a simplified administrative system;

"(2) to encourage new development; and

"(3) to achieve the same long-term level of royalty revenues to States and counties as the regulation in effect on the date of enactment of this subsection.

"(d) CREDITS FOR IN-KIND PAYMENTS OF ELECTRICITY.—The Secretary may provide to a lessee a credit against royalties owed under this Act, in an amount equal to the value of electricity provided under contract to a State or county government that is entitled to a portion of such royalties under section 20 of this Act, section 35 of the Mineral Leasing Act (30 U.S.C. 191), or section 6 of the Mineral Leasing Act for Acquired Lands (30 U.S.C. 355), if—

"(1) the Secretary has approved in advance the contract between the lessee and the State or county government for such in-kind payments;

"(2) the contract establishes a specific methodology to determine the value of such credits; and

"(3) the maximum credit will be equal to the royalty value owed to the State or county that is a party to the contract and the electricity received will serve as the royalty payment from the Federal Government to that entity.".

(b) DISPOSAL OF MONEYS FROM SALES, BONUSES, ROYALTIES, AND RENTALS.—Section 20 of the Geothermal Steam Act of 1970 (30 U.S.C. 1019) is amended to read as follows:

"SEC. 20. DISPOSAL OF MONEYS FROM SALES, BONUSES, RENTALS, AND ROYALTIES.

"(a) IN GENERAL.—Except with respect to lands in the State of Alaska, all monies received by the United States from sales, bonuses, rentals, and royalties under this Act shall be paid into the Treasury of the United States. Of

amounts deposited under this subsection, subject to the provisions of section 35 of the Mineral Leasing Act (30 U.S.C. 191(b)) and section 5(a)(2) of this Act—

"(1) 50 percent shall be paid to the State within the boundaries of which the leased lands or geothermal resources are or were located; and

"(2) 25 percent shall be paid to the County within the boundaries of which the leased lands or geothermal resources are or were located.

"(b) Use of Payments.—Amounts paid to a State or county under subsection (a) shall be used consistent with the terms of section 35 of the Mineral Leasing Act (30 U.S.C. 191).".

(c) Near-Term Production Incentive for Existing Leases.—

(1) In general.—Notwithstanding section 5(a) of the Geothermal Steam Act of 1970, the royalty required to be paid shall be 50 percent of the amount of the royalty otherwise required, on any lease issued before the date of enactment of this Act that does not convert to new royalty terms under subsection (e)—

(A) with respect to commercial production of energy from a facility that begins such production in the 6-year period beginning on the date of the enactment of this Act; or

(B) on qualified expansion geothermal energy.

(2) 4-year application.—Paragraph (1) applies only to new commercial production of energy from a facility in the first 4 years of such production.

(d) Definition of Qualified Expansion Geothermal Energy.—In this section, the term "qualified expansion geothermal energy" means geothermal energy produced from a generation facility for which—

(1) the production is increased by more than 10 percent as a result of expansion of the facility carried out in the 6-year period beginning on the date of the enactment of this Act; and

(2) such production increase is greater than 10 percent of the average production by the facility during the 5-year period preceding the expansion of the facility.

(e) Royalty Under Existing Leases.—

(1) In general.—Any lessee under a lease issued under the Geothermal Steam Act of 1970 before the date of the enactment of this Act may modify the terms of the lease relating to payment of royalties to comply with the amendment made by subsection (a), by applying to the Secretary of the Interior by not later than 18 months after the date of the enactment of this Act.

(2) Application of modification.—Such modification shall apply to any use of geothermal steam and any associated geothermal resources to which the amendment applies that occurs after the date of that application.

(3) Consultation.—The Secretary—

(A) shall consult with the State and local governments affected by any proposed changes in lease royalty terms under this subsection; and

(B) may establish a gross proceeds percentage within the range specified in the amendment made by subsection (a)(1) and with the concurrence of the lessee and the State.

SEC. 215. GEOTHERMAL LEASING AND PERMITTING ON FEDERAL LANDS.

(a) In General.—Not later than 180 days after the date of the enactment of this section, the Secretary of the Interior and the Secretary of Agriculture shall enter into and submit to Congress a memorandum of understanding in accordance with this section regarding leasing and permitting for geothermal development of public lands and National Forest System lands under their respective jurisdictions.

(b) Lease and Permit Applications.—The memorandum of understanding shall—

(1) identify areas with geothermal potential on lands included in the National Forest System and, when necessary, require review of management plans to consider leasing under the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) as a land use; and

(2) establish an administrative procedure for processing geothermal lease applications, including lines of authority, steps in application processing, and time limits for application procession.

(c) Data Retrieval System.—The memorandum of understanding shall establish a joint data retrieval system that is capable of tracking lease and permit applications and providing to the applicant information as to their status within the Departments of the Interior and Agriculture, including an estimate of the time required for administrative action.

SEC. 216. REVIEW AND REPORT TO CONGRESS.

The Secretary of the Interior shall promptly review and report to Congress not later than 3 years after the date of the enactment of this Act regarding the status of all withdrawals from leasing under the Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) of Federal lands, specifying for each such area whether the basis for such withdrawal still applies.

SEC. 217. REIMBURSEMENT FOR COSTS OF NEPA ANALYSES, DOCUMENTATION, AND STUDIES.

(a) In General.—The Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) is amended by adding at the end the following:

"SEC. 30. REIMBURSEMENT FOR COSTS OF CERTAIN ANALYSES, DOCUMENTATION, AND STUDIES.

"(a) In General.—The Secretary of the Interior may reimburse a person that is a lessee, operator, operating rights owner, or applicant for any lease under this Act for reasonable amounts paid by the person for preparation for the Secretary by a contractor or other person selected by the Secretary of any project-level analysis, documentation, or related study required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the lease.

"(b) Conditions.—The Secretary may provide reimbursement under subsection (a) only if—

"(1) adequate funding to enable the Secretary to timely prepare the analysis, documentation, or related study is not appropriated;

"(2) the person paid the costs voluntarily;

"(3) the person maintains records of its costs in accordance with regulations issued by the Secretary;

"(4) the reimbursement is in the form of a reduction in the Federal share of the royalty required to be paid for the lease for which the analysis, documentation, or related study is conducted, and is agreed to by the Secretary and the person reimbursed prior to commencing the analysis, documentation, or related study; and

"(5) the agreement required under paragraph (4) contains provisions—

"(A) reducing royalties owed on lease production based on market prices;

"(B) stipulating an automatic termination of the royalty reduction upon recovery of documented costs; and

"(C) providing a process by which the lessee may seek reimbursement for circumstances in which production from the specified lease is not possible.".

(b) Application.—The amendment made by this section shall apply with respect to an analysis, documentation, or a related study conducted on or after the date of enactment of this Act for any lease entered into before, on, or after the date of enactment of this Act.

(c) Deadline for Regulations.—The Secretary shall issue regulations implementing the amendment made by this section by not later than 1 year after the date of enactment of this Act.

SEC. 218. ASSESSMENT OF GEOTHERMAL ENERGY POTENTIAL.

The Secretary of Interior, acting through the Director of the United States Geological Survey and in cooperation with the States, shall update the 1978 Assessment of Geothermal Resources, and submit that updated assessment to Congress—

(1) not later than 3 years after the date of enactment of this Act; and

(2) thereafter as the availability of data and developments in technology warrant.

SEC. 219. COOPERATIVE OR UNIT PLANS.

Section 18 of the Geothermal Steam Act of 1970 (30 U.S.C. 1017) is amended to read as follows:

"SEC. 18. UNIT AND COMMUNITIZATION AGREEMENTS.

"(a) Adoption of Units by Lessees.—

"(1) In general.—For the purpose of more properly conserving the natural resources of any geothermal reservoir, field, or like area, or any part thereof (whether or not any part of the geothermal field, or like area, is then subject to any Unit Agreement (cooperative plan of development or operation)), lessees thereof and their representatives may unite with each other, or jointly or separately with others, in collectively adopting and operating under a Unit Agreement for such field, or like area, or any part thereof including direct use resources, if determined and certified by the Secretary to be necessary or advisable in the public interest. A majority interest of owners of any single lease shall have the authority to commit that lease to a Unit Agreement. The Secretary of the Interior may also initiate the formation of a Unit Agreement if in the public interest.

"(2) Modification of lease requirements by secretary.—The Secretary may, in the discretion of the Secretary, and with the consent of the holders of leases involved, establish, alter, change, or revoke rates of operations (including drilling, operations, production, and other requirements) of such leases and make conditions with reference to such leases, with the consent of the lessees, in connection with the creation and operation of any such Unit Agreement as the Secretary may deem necessary or proper to secure the proper protection of the public interest. Leases with unlike lease terms or royalty rates do not need to be modified to be in the same unit.

"(b) Requirement of Plans Under New Leases.—The Secretary—

"(1) may provide that geothermal leases issued under this Act shall contain a provision requiring the lessee to operate under such a reasonable Unit Agreement; and

"(2) may prescribe such an Agreement under which such lessee shall operate, which shall adequately protect the rights of all parties in interest, including the United States.

"(c) Modification of Rate of Prospecting, Development, and Production.—The Secretary may require that any Agreement authorized by this section that applies to lands owned by the United States contain a provision under which authority is vested in the Secretary, or any person, committee, or State or Federal officer or agency as may be designated in the Agreement to alter or modify from time to time the rate of prospecting and development and the quantity and rate of production under such an Agreement.

"(d) Exclusion From Determination of Holding or Control.—Any lands that are subject to any Agreement approved or prescribed by the Secretary under this section shall not be considered in determining holdings or control under any provision of this Act.

"(e) Pooling of Certain Lands.—If separate tracts of lands cannot be independently developed and operated to use geothermal steam and associated geothermal resources pursuant to any section of this Act—

"(1) such lands, or a portion thereof, may be pooled with other lands, whether or not owned by the United States, for purposes of development and operation under a Communitization Agreement providing for an apportionment of production or royalties among the separate tracts of land comprising the production unit, if such pooling is determined by the Secretary to be in the public interest; and

"(2) operation or production pursuant to such an Agreement shall be treated as operation or production with respect to each tract of land that is subject to the agreement.

"(f) Unit Agreement Review.—No more than 5 years after approval of any cooperative or Unit Agreement and at least every 5 years thereafter, the Secretary shall review each such Agreement and, after notice and opportunity for comment, eliminate from inclusion in such Agreement any lands that the Secretary determines are not reasonably necessary for Unit operations under the Agreement. Such elimination shall be based on scientific evidence, and shall occur only if it is determined by the Secretary to be for the purpose of conserving and properly managing the geothermal resource. Any land so eliminated shall be eligible for an extension under subsection (g) of section 6 if it meets the requirements for such an extension.

"(g) Drilling or Development Contracts.— The Secretary may, on such conditions as the Secretary may prescribe, approve drilling or development contracts made by 1 or more lessees of geothermal leases, with 1 or more persons, associations, or corporations if, in the discretion of the Secretary, the conservation of natural resources or the public convenience or necessity may require or the interests of the United States may be best served thereby. All leases operated under such approved drilling or development contracts, and interests thereunder, shall be excepted in determining holdings or control under section 7.

"(h) Coordination With State Governments.—The Secretary shall coordinate unitization and pooling activities with the appropriate State agencies and shall ensure that State leases included in any unitization or pooling arrangement are treated equally with Federal leases.".

SEC. 220. ROYALTY ON BYPRODUCTS.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended in subsection (a) by striking paragraph (2) and inserting the following:

"(2) a royalty on any byproduct that is a mineral named in the first section of the Mineral Leasing Act (30 U.S.C. 181), and that is derived from production under the lease, at the rate of the royalty that applies under that Act to production of such mineral under a lease under that Act;".

SEC. 221. REPEAL OF AUTHORITIES OF SECRETARY TO READJUST TERMS, CONDITIONS, RENTALS, AND ROYALTIES.

Section 8 of the Geothermal Steam Act of 1970 (30 U.S.C. 1007) is amended by repealing subsection (b), and by redesignating subsection (c) as subsection (b).

SEC. 222. CREDITING OF RENTAL TOWARD ROYALTY.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended—

(1) in subsection (a)(2) by inserting "and" after the semicolon at the end;

(2) in subsection (a)(3) by striking "; and" and inserting a period;

(3) by striking paragraph (4) of subsection (a); and

(4) by adding at the end the following:

"(e) Crediting of Rental Toward Royalty.—Any annual rental under this section that is paid with respect to a lease before the first day of the year for which the annual rental is owed shall be credited to the amount of royalty that is required to be paid under the lease for that year.".

SEC. 223. LEASE DURATION AND WORK COMMITMENT REQUIREMENTS.

Section 6 of the Geothermal Steam Act of 1970 (30 U.S.C. 1005) is amended—

(1) by striking so much as precedes subsection (c), and striking subsections (e), (g), (h), (i), and (j);

(2) by redesignating subsections (c), (d), and (f) in order as subsections (g), (h), and (i); and

(3) by inserting before subsection (g), as so redesignated, the following:

"SEC. 6. LEASE TERM AND WORK COMMITMENT REQUIREMENTS.

"(a) In General.—

"(1) Primary term.—A geothermal lease shall be for a primary term of 10 years.

"(2) Initial extension.—The Secretary shall extend the primary term of a geothermal lease for 5 years if, for each year after the fifth year of the lease—

"(A) the Secretary determined under subsection (c) that the lessee satisfied the work commitment requirements that applied to the lease for that year; or

"(B) the lessee paid in accordance with subsection (d) the value of any work that was not completed in accordance with those requirements.

"(3) Additional extension.—The Secretary shall extend the primary term of a geothermal lease (after an initial extension under paragraph (2)) for an additional 5 years if, for each year of the initial extension under paragraph (2), the Secretary determined under subsection (c) that the lessee satisfied the work commitment requirements that applied to the lease for that year.

"(b) Requirement to Satisfy Annual Work Commitment Requirement.—

"(1) In general.—The lessee for a geothermal lease shall, for each year after the fifth year of the lease, satisfy work commitment requirements prescribed by the Secretary that apply to the lease for that year.

"(2) Prescription of work commitment requirements.—The Secretary shall issue regulations prescribing minimum equivalent dollar value work commitment requirements for geothermal leases, that—

"(A) require that a lessee, in each year after the fifth year of the primary term of a geothermal lease, diligently work to achieve commercial production or utilization of steam under the lease;

"(B) require that in each year to which work commitment requirements under the regulations apply, the lessee shall significantly reduce the amount of work that remains to be done to achieve such production or utilization;

"(C) describe specific work that must be completed by a lessee by the end of each year to which the work commitment requirements apply and factors, such as force majeure events, that suspend or modify the work commitment obligation;

"(D) carry forward and apply to work commitment requirements for a year, work completed in any year in the preceding 3-year period that was in excess of the work required to be performed in that preceding year;

"(E) establish transition rules for leases issued before the date of the enactment of this subsection, including terms under which a lease that is near the end of its term on the date of enactment of this subsection may be extended for up to 2 years—

"(i) to allow achievement of production under the lease; or

"(ii) to allow the lease to be included in a producing unit; and

"(F) establish an annual payment that, at the option of the lessee, may be exercised in lieu of meeting any work requirement for a limited number of years that the Secretary determines will not impair achieving diligent development of the geothermal resource.

"(3) Termination of application of requirements.—Work commitment requirements prescribed under this subsection shall not apply to a geothermal lease after the date on which geothermal steam is produced or utilized under the lease in commercial quantities.

"(c) Determination of Whether Requirements Satisfied.—The Secretary shall, by not later than 90 days after the end of each year for which work commitment requirements under subsection (b) apply to a geothermal lease—

"(1) determine whether the lessee has satisfied the requirements that apply for that year;

"(2) notify the lessee of that determination; and

"(3) in the case of a notification that the lessee did not satisfy work commitment requirements for the year, include in the notification—

"(A) a description of the specific work that was not completed by the lessee in accordance with the requirements; and

"(B) the amount of the dollar value of such work that was not completed, reduced by the amount of expenditures made for work completed in a prior year that is carried forward pursuant to subsection (b)(2)(D).

"(d) Payment of Value of Uncompleted Work.—

"(1) In general.—If the Secretary notifies a lessee that the lessee failed to satisfy work commitment requirements under subsection (b), the lessee shall pay to the Secretary, by not later than the end of the 60-day period beginning on the date of the notification, the dollar value of work that was not completed by the lessee, in the amount stated in the notification (as reduced under subsection (c)(3)(B)).

"(2) Failure to pay value of uncompleted work.—If a lessee fails to pay such amount to the Secretary before the end of that period, the lease shall terminate upon the expiration of the period.

"(e) Continuation After Commercial Production or Utilization.—If geothermal steam is produced or utilized in commercial quantities within the primary term of the lease under subsection (a) (including any extension of the lease under subsection (a)), such lease shall continue until the date on which geothermal steam is no longer produced or utilized in commercial quantities.

"(f) Conversion of Geothermal Lease to Mineral Lease.—The lessee under a lease that has produced geothermal steam for electrical generation, has been determined by the Secretary to be incapable of any further commercial production or utilization of geothermal steam, and that is producing any valuable byproduct in payable quantities may, within 6 months after such determination—

"(1) convert the lease to a mineral lease under the Mineral Leasing Act (30 U.S.C. 181 et seq.) or under the Mineral Leasing Act for Acquired Lands (30 U.S.C. 351 et seq.), if the lands that are subject to the lease can be leased under that Act for the production of such byproduct; or

"(2) convert the lease to a mining claim under the general mining laws, if the byproduct is a locatable mineral.".

SEC. 224. ADVANCED ROYALTIES REQUIRED FOR SUSPENSION OF PRODUCTION.

Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended by adding at the end the following:

"(f) Advanced Royalties Required for Suspension of Production.—

"(1) Continuation of lease following cessation of production.—If, at any time after commercial production under a lease is achieved, production ceases for any cause the lease shall remain in full force and effect—

"(A) during the 1-year period beginning on the date production ceases; and

"(B) after such period if, and so long as, the lessee commences and continues diligently and in good faith until such production is resumed the steps, operations, or procedures necessary to cause a resumption of such production.

"(2) If production of heat or energy under a geothermal lease is suspended after the date of any such production for which royalty is required under subsection (a) and the terms of paragraph (1) are not met, the Secretary shall require the lessee, until the end of such suspension, to pay royalty in advance at the monthly pro-rata rate of the average annual rate at which such royalty was paid each year in the 5-year-period preceding the date of suspension.

"(3) Paragraph (2) shall not apply if the suspension is required or otherwise caused by the Secretary, the Secretary of a military department, a State or local government, or a force majeure.".

SEC. 225. ANNUAL RENTAL.

(a) Annual Rental Rate.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended in subsection (a) in paragraph (3) by striking "$1 per acre or fraction thereof for each year of the lease" and all that follows through the end of the paragraph and inserting "$1 per acre or fraction thereof for each year of the lease through the tenth year in the case of a lease awarded in a noncompetitive lease sale; or $2 per acre or fraction thereof for the first year, $3 per acre or fraction thereof for each of the second through tenth years, in the case of a lease awarded in a competitive lease sale; and $5 per acre or fraction thereof for each year after the 10th year thereof for all leases.".

(b) Termination of Lease for Failure to Pay Rental.—Section 5 of the Geothermal Steam Act of 1970 (30 U.S.C. 1004) is further amended by adding at the end the following:

"(g) Termination of Lease for Failure to Pay Rental.—

"(1) In general.—The Secretary shall terminate any lease with respect to which rental is not paid in accordance with this Act and the terms of the lease under which the rental is required, upon the expiration of the 45-day period beginning on the date of the failure to pay such rental.

"(2) Notification.—The Secretary shall promptly notify a lessee that has not paid rental required under the lease that the lease will be terminated at the end of the period referred to in paragraph (1).

"(3) Reinstatement.—A lease that would otherwise terminate under paragraph (1) shall not terminate under that paragraph if the lessee pays to the Secretary, before the end of the period referred to in paragraph (1), the amount of rental due plus a late fee equal to 10 percent of such amount.".

SEC. 226. LEASING AND PERMITTING ON FEDERAL LANDS WITHDRAWN FOR MILITARY PURPOSES.

Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Defense, in consultation with each military service and with interested States, counties, representatives of the geothermal industry, and other persons, shall submit to Congress a joint report concerning leasing and permitting activities for geothermal energy on Federal lands withdrawn for military purposes. Such report shall include the following:

(1) A description of the Military Geothermal Program, including any differences between it and the non-Military Geothermal Program, including required security procedures, and operational considerations, and discussions as to the differences, and why they are important. Further, the report shall describe revenues or energy provided to the Department of Defense and its facilities, royalty structures, where applicable, and any revenue sharing with States and counties or other benefits between—

(A) the implementation of the Geothermal Steam Act of 1970 (30 U.S.C 1001 et seq.) and other applicable Federal law by the Secretary of the Interior; and

(B) the administration of geothermal leasing under section 2689 of title 10, United States Code, by the Secretary of Defense.

(2) If appropriate, a description of the current methods and procedures used to ensure interagency coordination, where needed, in developing renewable energy sources on Federal lands withdrawn for military purposes, and an identification of any new procedures that might be required in the future for the improvement of interagency coordination to ensure efficient processing and administration of leases or contracts for geothermal energy on Federal lands withdrawn for military purposes, consistent with the defense purposes of such withdrawals.

(3) Recommendations for any legislative or administrative actions that might better achieve increased geothermal production, including a common royalty structure, leasing procedures, or other changes that increase production, offset military operation costs, or enhance the Federal agencies' ability to develop geothermal resources.

Except as provided in this section, nothing in this subtitle shall affect the legal status of the Department of the Interior and the Department of the Defense with respect to each other regarding geothermal leasing and development until such status is changed by law.

SEC. 227. TECHNICAL AMENDMENTS.

The Geothermal Steam Act of 1970 (30 U.S.C. 1001 et seq.) is further amended as follows:

(1) By striking "geothermal steam and associated geothermal resources" each place it appears and inserting "geothermal resources".

(2) Section 2(e) (30 U.S.C. 1001(e)) is amended to read as follows:

"(e) 'direct use' means utilization of geothermal resources for commercial, residential, agricultural, public facilities, or other energy needs other than the commercial production of electricity; and".

(3) Section 21 (30 U.S.C. 1020) is amended by striking "(a) Within one hundred" and all that follows through "(b) Geothermal" and inserting "Geothermal".

(4) The first section (30 U.S.C. 1001 note) is amended by striking "That this" and inserting the following:

"SECTION 1. SHORT TITLE.

"This".

(5) Section 2 (30 U.S.C. 1001) is amended by striking "Sec. 2. As" and inserting the following:

"SEC. 2. DEFINITIONS.

"As".

(6) Section 3 (30 U.S.C. 1002) is amended by striking "Sec. 3. Subject" and inserting the following:

"SEC. 3 . LANDS SUBJECT TO GEOTHERMAL LEASING.

"Subject".

(7) Section 5 (30 U.S.C. 1004) is further amended by striking "Sec. 5.", and by inserting immediately before and above subsection (a) the following:

"SEC. 5. RENTS AND ROYALTIES.".

(8) Section 7 (30 U.S.C. 1006) is amended by striking "Sec. 7. A geothermal" and inserting the following:

"SEC. 7. ACREAGE OF GEOTHERMAL LEASE.

"A geothermal".

(9) Section 8 (30 U.S.C. 1007) is amended by striking "Sec. 8. (a) The" and inserting the following:

"SEC. 8. READJUSTMENT OF LEASE TERMS AND CONDITIONS.

"(a) The".

(10) Section 9 (30 U.S.C. 1008) is amended by striking "Sec. 9. If" and inserting the following:

"SEC. 9. BYPRODUCTS.

"If".

(11) Section 10 (30 U.S.C. 1009) is amended by striking "Sec. 10. The" and inserting the following:

"SEC. 10. RELINQUISHMENT OF GEOTHERMAL RIGHTS.

"The".

(12) Section 11 (30 U.S.C. 1010) is amended by striking "Sec. 11. The" and inserting the following:

"SEC. 11. SUSPENSION OF OPERATIONS AND PRODUCTION.

"The".

(13) Section 12 (30 U.S.C. 1011) is amended by striking "Sec. 12. Leases" and inserting the following:

"SEC. 12. TERMINATION OF LEASES.

"Leases".

(14) Section 13 (30 U.S.C. 1012) is amended by striking "Sec. 13. The" and inserting the following:

"SEC. 13. WAIVER, SUSPENSION, OR REDUCTION OF RENTAL OR ROYALTY.

"The".

(15) Section 14 (30 U.S.C. 1013) is amended by striking "Sec. 14. Subject" and inserting the following:

"SEC. 14. SURFACE LAND USE.

"Subject".

(16) Section 15 (30 U.S.C. 1014) is amended by striking "Sec. 15. (a) Geothermal" and inserting the following:

"SEC. 15. LANDS SUBJECT TO GEOTHERMAL LEASING.

"(a) Geothermal".

(17) Section 16 (30 U.S.C. 1015) is amended by striking "Sec. 16. Leases" and inserting the following:

"SEC. 16. REQUIREMENT FOR LESSEES.

"Leases".

(18) Section 17 (30 U.S.C. 1016) is amended by striking "Sec. 17. Administration" and inserting the following:

"SEC. 17. ADMINISTRATION.

"Administration".

(19) Section 19 (30 U.S.C. 1018) is amended by striking "Sec. 19. Upon" and inserting the following:

"SEC. 19. DATA FROM FEDERAL AGENCIES.

"Upon".

(20) Section 21 (30 U.S.C. 1020) is further amended by striking "Sec. 21.", and by inserting immediately before and above the remainder of that section the following:

"SEC. 21. PUBLICATION IN FEDERAL REGISTER; RESERVATION OF MINERAL RIGHTS.".

(21) Section 22 (30 U.S.C. 1021) is amended by striking "Sec. 22. Nothing" and inserting the following:

"SEC. 22. FEDERAL EXEMPTION FROM STATE WATER LAWS.

"Nothing".

(22) Section 23 (30 U.S.C. 1022) is amended by striking "Sec. 23. (a) All" and inserting the following:

"SEC. 23. PREVENTION OF WASTE; EXCLUSIVITY.

"(a) All".

(23) Section 24 (30 U.S.C. 1023) is amended by striking "Sec. 24. The" and inserting the following:

"SEC. 24. RULES AND REGULATIONS.

"The".

(24) Section 25 (30 U.S.C. 1024) is amended by striking "Sec. 25. As" and inserting the following:

"SEC. 25. INCLUSION OF GEOTHERMAL LEASING UNDER CERTAIN OTHER LAWS.

"As".

(25) Section 26 is amended by striking "SEC. 26. The" and inserting the following:

"SEC. 26. AMENDMENT.

"The".

(26) Section 27 (30 U.S.C. 1025) is amended by striking "SEC. 27. The" and inserting the following:

"SEC. 27. FEDERAL RESERVATION OF CERTAIN MINERAL RIGHTS.

"The".

(27) Section 28 (30 U.S.C. 1026) is amended by striking "SEC. 28. (a)(1) The" and inserting the following:

"SEC. 28. SIGNIFICANT THERMAL FEATURES.

"(a)(1) The".

(28) Section 29 (30 U.S.C. 1027) is amended by striking "SEC. 29. The" and inserting the following:

"SEC. 29. LAND SUBJECT TO PROHIBITION ON LEASING.

"The".

Subtitle C—Hydroelectric

PART I—ALTERNATIVE CONDITIONS

SEC. 231. ALTERNATIVE CONDITIONS AND FISHWAYS.

(a) FEDERAL RESERVATIONS.—Section 4(e) of the Federal Power Act (16 U.S.C. 797(e)) is amended by inserting after "adequate protection and utilization of such reservation." at the end of the first proviso the following: "The license applicant shall be entitled to a determination on the record, after opportunity for an expedited agency trial-type hearing of any disputed issues of material fact, with respect to such conditions. Such hearing may be conducted in accordance with procedures established by agency regulation in consultation with the Federal Energy Regulatory Commission.".

(b) FISHWAYS.—Section 18 of the Federal Power Act (16 U.S.C. 811) is amended by inserting after "and such fishways as may be prescribed by the Secretary of Commerce." the following: "The license applicant shall be entitled to a determination on the record, after opportunity for an expedited agency trial-type hearing of any disputed issues of material fact, with respect to such fishways. Such hearing may be conducted in accordance with procedures established by agency regulation in consultation with the Federal Energy Regulatory Commission.".

(c) ALTERNATIVE CONDITIONS AND PRESCRIPTIONS.—Part I of the Federal Power Act (16 U.S.C. 791a et seq.) is amended by adding the following new section at the end thereof:

"SEC. 33. ALTERNATIVE CONDITIONS AND PRESCRIPTIONS.

"(a) ALTERNATIVE CONDITIONS.—(1) Whenever any person applies for a license for any project works within any reservation of the United States, and the Secretary of the department under whose supervision such reservation falls (referred to in this subsection as 'the Secretary') deems a condition to such license to be necessary under the first proviso of section 4(e), the license applicant may propose an alternative condition.

"(2) Notwithstanding the first proviso of section 4(e), the Secretary shall accept the proposed alternative condition referred to in paragraph (1), and the Commission shall include in the license such alternative condition, if the Secretary determines, based on substantial evidence provided by the license applicant or otherwise available to the Secretary, that such alternative condition—

"(A) provides for the adequate protection and utilization of the reservation; and

"(B) will either—

"(i) cost less to implement; or

"(ii) result in improved operation of the project works for electricity production,

as compared to the condition initially deemed necessary by the Secretary.

"(3) The Secretary shall submit into the public record of the Commission proceeding with any condition under section 4(e) or alternative condition it accepts under this section, a written statement explaining the basis for such condition, and reason for not accepting any alternative condition under this section. The written statement must demonstrate that the Secretary gave equal consideration to the effects of the condition adopted and alternatives not accepted on energy supply, distribution, cost, and use; flood control; navigation; water supply; and air quality (in addition to the preservation of other aspects of environmental quality); based on such information as may be available to the Secretary, including information voluntarily provided in a timely manner by the applicant and others. The Secretary shall also submit, together with the aforementioned written statement, all studies, data, and other factual information available to the Secretary and relevant to the Secretary's decision.

"(4) Nothing in this section shall prohibit other interested parties from proposing alternative conditions.

"(5) If the Secretary does not accept an applicant's alternative condition under this section, and the Commission finds that the Secretary's condition would be inconsistent with the purposes of this part, or other applicable law, the Commission may refer the dispute to the Commission's Dispute Resolution Service. The Dispute Resolution Service shall consult with the Secretary and the Commission and issue a non-binding advisory within 90 days. The Secretary may accept the Dispute Resolution Service advisory unless the Secretary finds that the recommendation will not provide for the adequate protection and utilization of the reservation. The Secretary shall submit the advisory and the Secretary's final written determination into the record of the Commission's proceeding.

"(b) ALTERNATIVE PRESCRIPTIONS.—(1) Whenever the Secretary of the Interior or the Secretary of Commerce prescribes a fishway under section 18, the license applicant or licensee may propose an alternative to such prescription to construct, maintain, or operate a fishway.

"(2) Notwithstanding section 18, the Secretary of the Interior or the Secretary of Commerce, as appropriate, shall accept and prescribe, and the Commission shall require, the proposed alternative referred to in paragraph (1), if the Secretary of the appropriate department determines, based on substantial evidence provided by the licensee or otherwise available to the Secretary, that such alternative—

"(A) will be no less protective than the fishway initially prescribed by the Secretary; and

"(B) will either—

"(i) cost less to implement; or

"(ii) result in improved operation of the project works for electricity production,

as compared to the fishway initially deemed necessary by the Secretary.

"(3) The Secretary concerned shall submit into the public record of the Commission proceeding with any prescription under section 18 or alternative prescription it accepts under this section, a written statement explaining the basis for such prescription, and reason for not accepting any alternative prescription under this section. The written statement must demonstrate that the Secretary gave equal consideration to the effects of the condition adopted and alternatives not accepted on energy supply, distribution, cost, and use; flood control; navigation; water supply; and air quality (in addition to the preservation of other aspects of environmental quality); based on such information as may be available to the Secretary, including information voluntarily provided in a timely manner by the applicant and others. The Secretary shall also submit, together with the aforementioned written statement, all studies, data, and other factual information available to the Secretary and relevant to the Secretary's decision.

"(4) Nothing in this section shall prohibit other interested parties from proposing alternative prescriptions.

"(5) If the Secretary concerned does not accept an applicant's alternative prescription under this section, and the Commission finds that the Secretary's prescription would be inconsistent with the purposes of this part, or other applicable law, the Commission may refer the dispute to the Commission's Dispute Resolution Service. The Dispute Resolution Service shall consult with the Secretary and the Commission and issue a non-binding advisory within 90 days. The Secretary may accept the Dispute Resolution Service advisory unless the Secretary finds that the recommendation will be less protective than the fishway initially prescribed by the Secretary. The Secretary shall submit the advisory and the Secretary's final written determination into the record of the Commission's proceeding.".

PART II—ADDITIONAL HYDROPOWER

SEC. 241. HYDROELECTRIC PRODUCTION INCENTIVES.

(a) INCENTIVE PAYMENTS.—For electric energy generated and sold by a qualified hydroelectric facility during the incentive period, the Secretary of Energy (referred to in this section as the "Secretary") shall make, subject to the availability of appropriations, incentive payments to the owner or operator of such facility. The amount of such payment made to any such owner or operator shall be as determined under subsection (e) of this section. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application which establishes that the applicant is eligible to receive such payment and which satisfies such other requirements as the Secretary deems necessary. Such application shall be in such form, and shall be submitted at such time, as the Secretary shall establish.

(b) DEFINITIONS.—For purposes of this section:

(1) QUALIFIED HYDROELECTRIC FACILITY.—The term "qualified hydroelectric facility" means a turbine or other generating device owned or solely operated by a non-Federal entity which generates hydroelectric energy for sale and which is added to an existing dam or conduit.

(2) EXISTING DAM OR CONDUIT.—The term "existing dam or conduit" means any dam or conduit the construction of which was completed before the date of the enactment of this section and which does not require any construction or enlargement of impoundment or diversion structures (other than repair or reconstruction) in connection with the installation of a turbine or other generating device.

(3) CONDUIT.—The term "conduit" has the same meaning as when used in section 30(a)(2) of the Federal Power Act (16 U.S.C. 823a(a)(2)).

The terms defined in this subsection shall apply without regard to the hydroelectric kilowatt capacity of the facility concerned, without regard to whether the facility uses a dam owned by a governmental or nongovernmental entity, and without regard to whether the facility begins operation on or after the date of the enactment of this section.

(c) ELIGIBILITY WINDOW.—Payments may be made under this section only for electric energy generated from a qualified hydroelectric facility which begins operation during the period of 10 fiscal years beginning with the first full fiscal year occurring after the date of enactment of this subtitle.

(d) INCENTIVE PERIOD.—A qualified hydroelectric facility may receive payments under this section for a period of 10 fiscal years (referred to in this section as the "incentive period"). Such *period shall begin with the fiscal year in which electric energy generated from the facility is first eligible for such payments.*

(e) AMOUNT OF PAYMENT.—

(1) IN GENERAL.—Payments made by the Secretary under this section to the owner or operator of a qualified hydroelectric facility shall be based on the number of kilowatt hours of hydroelectric energy generated by the facility during the incentive period. For any such facility, the amount of such payment shall be 1.8 cents per kilowatt hour (adjusted as provided in paragraph (2)), subject to the availability of appropriations under subsection (g), except that no facility may receive more than $750,000 in 1 calendar year.

(2) ADJUSTMENTS.—The amount of the payment made to any person under this section as provided in paragraph (1) shall be adjusted for inflation for each fiscal year beginning after calendar year 2003 in the same manner as provided in the provisions of section 29(d)(2)(B) of the Internal Revenue Code of 1986, except that in applying such provisions the calendar year 2003 shall be substituted for calendar year 1979.

(f) SUNSET.—No payment may be made under this section to any qualified hydroelectric facility after the expiration of the period of 20 fiscal years beginning with the first full fiscal year occurring after the date of enactment of this subtitle, and no payment may be made under this section to any such facility after a payment has been made with respect to such facility for a period of 10 fiscal years.

(g) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out the purposes of this section $10,000,000 for each of the fiscal years 2004 through 2013.

SEC. 242. HYDROELECTRIC EFFICIENCY IMPROVEMENT.

(a) INCENTIVE PAYMENTS.—The Secretary of Energy shall make incentive payments to the owners or operators of hydroelectric facilities at existing dams to be used to make capital improvements in the facilities that are directly related to improving the efficiency of such facilities by at least 3 percent.

(b) LIMITATIONS.—Incentive payments under this section shall not exceed 10 percent of the costs of the capital improvement concerned and not more than 1 payment may be made with respect to improvements at a single facility. No payment in excess of $750,000 may be made with respect to improvements at a single facility.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section not more than $10,000,000 for each of the fiscal years 2004 through 2013.

SEC. 243. SMALL HYDROELECTRIC POWER PROJECTS.

Section 408(a)(6) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2708(a)(6)) is amended by striking "April 20, 1977" and inserting "March 4, 2003".

SEC. 244. INCREASED HYDROELECTRIC GENERATION AT EXISTING FEDERAL FACILITIES.

(a) IN GENERAL.—The Secretary of the Interior and the Secretary of Energy, in consultation with the Secretary of the Army, shall jointly conduct a study of the potential for increasing electric power production capability at federally owned or operated water regulation, storage, and conveyance facilities.

(b) CONTENT.—The study under this section shall include identification and description in detail of each facility that is capable, with or without modification, of producing additional hydroelectric power, including estimation of the existing potential for the facility to generate hydroelectric power.

(c) REPORT.—The Secretaries shall submit to the Committees on Energy and Commerce, Resources, and Transportation and Infrastructure of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report on the findings, conclusions, and recommendations of the study under this section by not later than 18 months after the date of the enactment of this Act. The report shall include each of the following:

(1) The identifications, descriptions, and estimations referred to in subsection (b).

(2) A description of activities currently conducted or considered, or that could be considered, to produce additional hydroelectric power from each identified facility.

(3) A summary of prior actions taken by the Secretaries to produce additional hydroelectric power from each identified facility.

(4) The costs to install, upgrade, or modify equipment or take other actions to produce additional hydroelectric power from each identified facility and the level of Federal power customer involvement in the determination of such costs.

(5) The benefits that would be achieved by such installation, upgrade, modification, or other action, including quantified estimates of any additional energy or capacity from each facility identified under subsection (b).

(6) A description of actions that are planned, underway, or might reasonably be considered to increase hydroelectric power production by replacing turbine runners, by performing generator upgrades or rewinds, or construction of pumped storage facilities.

(7) The impact of increased hydroelectric power production on irrigation, fish, wildlife, Indian tribes, river health, water quality, navigation, recreation, fishing, and flood control.

(8) Any additional recommendations to increase hydroelectric power production from, and reduce costs and improve efficiency at, federally owned or operated water regulation, storage, and conveyance facilities.

SEC. 245. SHIFT OF PROJECT LOADS TO OFF-PEAK PERIODS.

(a) IN GENERAL.—The Secretary of the Interior shall—

(1) review electric power consumption by Bureau of Reclamation facilities for water pumping purposes; and

(2) make such adjustments in such pumping as possible to minimize the amount of electric power consumed for such pumping during periods of peak electric power consumption, including by performing as much of such pumping as possible during off-peak hours at night.

(b) CONSENT OF AFFECTED IRRIGATION CUSTOMERS REQUIRED.—The Secretary may not under this section make any adjustment in pumping at a facility without the consent of each person that has contracted with the United States for delivery of water from the facility for use for irrigation and that would be affected by such adjustment.

(c) EXISTING OBLIGATIONS NOT AFFECTED.—This section shall not be construed to affect any existing obligation of the Secretary to provide electric power, water, or other benefits from Bureau of Reclamation facilities, including recreational releases.

SEC. 246. CORPS OF ENGINEERS HYDROPOWER OPERATION AND MAINTENANCE FUNDING.

(a) IN GENERAL.—Notwithstanding the last sentence of section 5 of the Act of December 22, 1944 (commonly known as the "Flood Control Act of 1944") (58 Stat. 890, chapter 665; 16 U.S.C. 825s), the 11th paragraph under the heading "OFFICE OF THE SECRETARY" in title I of the Act of October 12, 1949 (63 Stat. 767, chapter 680; 16 U.S.C. 825s–1), the matter under the heading "CONTINUING FUND, SOUTHEASTERN POWER ADMINISTRATION" in title I of the Act of August 31, 1951 (65 Stat. 249, chapter 375; 16 U.S.C. 825s–2), section 3302 of title 31, United States Code, or any other law, and without further appropriation or fiscal year limitation, for fiscal year 2004, the Administrator of the Southeastern Power Administration, the Administrator of the Southwestern Power Administration, and the Administrator of the Western Area Power Administration may credit to the Secretary of the Army (referred to in this section as the "Secretary"), receipts, in an amount determined under subsection (c), from the sale of power and related services.

(b) USE OF FUNDS.—

(1) IN GENERAL.—The Secretary—

(A) shall, except as provided in paragraph (2), use the amounts credited under subsection (a) to fund only the Corps of Engineers annual operation and maintenance activities that are allocated exclusively to the power function and assigned to the respective power marketing administration and respective project system as applicable for repayment; and

(B) shall not use the amounts for any costs allocated to non-power functions of Corps of Engineer operations.

(2) EXCEPTION.—The Secretary may use amounts credited by the Southwestern Power Administration under subsection (a) for capital and nonrecurring costs.

(c) AMOUNT.—The amount of the receipts credited under subsection (a) shall be equal to such amount as—

(1) the Secretary of the Army requests; and

(2) the appropriate Administrator, in consultation with the power customers of the Administrator's power marketing administration, determines to be appropriate to apply to the costs referred to in subsection (b).

(d) APPLICABLE LAW.—The amounts credited under subsection (a) are exempt from sequestration under the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901 et seq.).

SEC. 247. LIMITATION ON CERTAIN CHARGES ASSESSED TO THE FLINT CREEK PROJECT, MONTANA.

Notwithstanding section 10(e)(1) of the Federal Power Act (16 U.S.C. 803(e)(1)) or any other provision of Federal law providing for the payment to the United States of charges for the use of Federal land for the purposes of operating and maintaining a hydroelectric development licensed by the Federal Energy Regulatory Commission (referred to in this section as the "Commission"), any political subdivision of the State of Montana that holds a license for Commission Project No. 1473 in Granite and Deer Lodge Counties, Montana, shall be required to pay to the United States for the use of that land for each year during which the political subdivision continues to hold the license for the project, the lesser of—

(1) $25,000; or

(2) such annual charge as the Commission or any other department or agency of the Federal Government may assess.

SEC. 248. REINSTATEMENT AND TRANSFER.

(a) REINSTATEMENT AND TRANSFER OF FEDERAL LICENSE FOR PROJECT NUMBERED 2696.—Notwithstanding section 8 of the Federal Power Act (16 U.S.C. 801) or any other provision of such Act, the Federal Energy Regulatory Commission shall reinstate the license for Project No. 2696 and transfer the license, without delay or the institution of any proceedings, to the Town of Stuyvesant, New York, holder of Federal Energy Regulatory Commission Preliminary Permit No. 11787, within 30 days after the date of enactment of this Act.

(b) HYDROELECTRIC INCENTIVES.—Project No. 2696 shall be entitled to the full benefit of any Federal legislation that promotes hydroelectric development that is enacted within 2 years either before or after the date of enactment of this Act.

(c) PROJECT DEVELOPMENT AND FINANCING.—The Federal Energy Regulatory Commission shall permit the Town of Stuyvesant to add as a colicensee any private or public entity or entities to the reinstated license at any time, notwithstanding the issuance of a preliminary permit to the Town of Stuyvesant and any consideration of municipal preference. The town shall be entitled, to the extent that funds are available or shall be made available, to receive loans under sections 402 and 403 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2702 and 2703), or similar programs, for the reimbursement of feasibility studies or development costs, or both, incurred since January 1, 2001, through and including December 31, 2006. All power produced by the project shall be deemed incremental hydropower for purpose of qualifying for any energy credit or similar benefits.

TITLE III—OIL AND GAS

Subtitle A—Petroleum Reserve and Home Heating Oil

SEC. 301. PERMANENT AUTHORITY TO OPERATE THE STRATEGIC PETROLEUM RESERVE AND OTHER ENERGY PROGRAMS.

(a) AMENDMENT TO TITLE I OF THE ENERGY POLICY AND CONSERVATION ACT.—Title I of the Energy Policy and Conservation Act (42 U.S.C. 6211 et seq.) is amended—

(1) by striking section 166 (42 U.S.C. 6246) and inserting the following:

"AUTHORIZATION OF APPROPRIATIONS

"SEC. 166. There are authorized to be appropriated to the Secretary such sums as may be necessary to carry out this part and part D, to remain available until expended.";

(2) by striking section 186 (42 U.S.C. 6250e); and

(3) by striking part E (42 U.S.C. 6251; relating to the expiration of title I of the Act).

(b) AMENDMENT TO TITLE II OF THE ENERGY POLICY AND CONSERVATION ACT.—Title II of the Energy Policy and Conservation Act (42 U.S.C. 6271 et seq.) is amended—

(1) by inserting before section 273 (42 U.S.C. 6283) the following:

"PART C—SUMMER FILL AND FUEL BUDGETING PROGRAMS";

(2) by striking section 273(e) (42 U.S.C. 6283(e); relating to the expiration of summer fill and fuel budgeting programs); and

(3) by striking part D (42 U.S.C. 6285; relating to the expiration of title II of the Act).

(c) TECHNICAL AMENDMENTS.—The table of contents for the Energy Policy and Conservation Act is amended—

(1) by inserting after the items relating to part C of title I the following:

"PART D—NORTHEAST HOME HEATING OIL RESERVE

"Sec. 181. Establishment.
"Sec. 182. Authority.
"Sec. 183. Conditions for release; plan.
"Sec. 184. Northeast Home Heating Oil Reserve Account.
"Sec. 185. Exemptions.";

(2) by amending the items relating to part C of title II to read as follows:

"PART C—SUMMER FILL AND FUEL BUDGETING PROGRAMS

"Sec. 273. Summer fill and fuel budgeting programs.";

and

(3) by striking the items relating to part D of title II.

(d) AMENDMENT TO THE ENERGY POLICY AND CONSERVATION ACT.—Section 183(b)(1) of the Energy Policy and Conservation Act (42 U.S.C. 6250(b)(1)) is amended by striking all after "increases" through to "mid-October through March" and inserting "by more than 60 percent over its 5-year rolling average for the months of mid-October through March (considered as a heating season average)".

(e) FILL STRATEGIC PETROLEUM RESERVE TO CAPACITY.—The Secretary of Energy shall, as expeditiously as practicable, acquire petroleum in amounts sufficient to fill the Strategic Petroleum Reserve to the 1,000,000,000 barrel capacity authorized under section 154(a) of the Energy Policy and Conservation Act (42 U.S.C. 6234(a)), consistent with the provisions of sections 159 and 160 of such Act (42 U.S.C. 6239, 6240).

SEC. 302. NATIONAL OILHEAT RESEARCH ALLIANCE.

Section 713 of the Energy Act of 2000 (42 U.S.C. 6201 note) is amended by striking "4" and inserting "9".

Subtitle B—Production Incentives

SEC. 311. DEFINITION OF SECRETARY.

In this subtitle, the term "Secretary" means the Secretary of the Interior.

SEC. 312. PROGRAM ON OIL AND GAS ROYALTIES IN-KIND.

(a) APPLICABILITY OF SECTION.—Notwithstanding any other provision of law, this section applies to all royalty in-kind accepted by the Secretary on or after the date of enactment of this Act under any Federal oil or gas lease or permit under section 36 of the Mineral Leasing Act (30 U.S.C. 192), section 27 of the Outer Continental Shelf Lands Act (43 U.S.C. 1353), or any other Federal law governing leasing of Federal land for oil and gas development.

(b) TERMS AND CONDITIONS.—All royalty accruing to the United States shall, on the demand of the Secretary, be paid in oil or gas. If the Secretary makes such a demand, the following provisions apply to such payment:

(1) SATISFACTION OF ROYALTY OBLIGATION.—Delivery by, or on behalf of, the lessee of the royalty amount and quality due under the lease satisfies the lessee's royalty obligation for the amount delivered, except that transportation and processing reimbursements paid to, or deductions claimed by, the lessee shall be subject to review and audit.

(2) MARKETABLE CONDITION.—

(A) IN GENERAL.—Royalty production shall be placed in marketable condition by the lessee at no cost to the United States.

(B) DEFINITION OF MARKETABLE CONDITION.—In this paragraph, the term "in marketable condition" means sufficiently free from impurities and otherwise in a condition that the royalty production will be accepted by a purchaser under a sales contract typical of the field or area in which the royalty production was produced.

(3) DISPOSITION BY THE SECRETARY.—The Secretary may—

(A) sell or otherwise dispose of any royalty production taken in-kind (other than oil or gas transferred under section 27(a)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1353(a)(3)) for not less than the market price; and

(B) transport or process (or both) any royalty production taken in-kind.

(4) RETENTION BY THE SECRETARY.—The Secretary may, notwithstanding section 3302 of title 31, United States Code, retain and use a portion of the revenues from the sale of oil and gas taken in-kind that otherwise would be deposited to miscellaneous receipts, without regard to fiscal year limitation, or may use oil or gas received as royalty taken in-kind (in this paragraph referred to as "royalty production") to pay the cost of—

(A) transporting the royalty production;

(B) processing the royalty production;

(C) disposing of the royalty production; or

(D) any combination of transporting, processing, and disposing of the royalty production.

(5) LIMITATION.—

(A) IN GENERAL.—Except as provided in subparagraph (B), the Secretary may not use revenues from the sale of oil and gas taken in-kind to pay for personnel, travel, or other administrative costs of the Federal Government.

(B) EXCEPTION.—Notwithstanding subparagraph (A), the Secretary may use a portion of the revenues from the sale of oil taken in-kind, without fiscal year limitation, to pay transportation costs, salaries, and other administrative costs directly related to filling the Strategic Petroleum Reserve.

(c) REIMBURSEMENT OF COST.—If the lessee, pursuant to an agreement with the United States or as provided in the lease, processes the royalty gas or delivers the royalty oil or gas at a point not on or adjacent to the lease area, the Secretary shall—

(1) reimburse the lessee for the reasonable costs of transportation (not including gathering) from the lease to the point of delivery or for processing costs; or

(2) allow the lessee to deduct the transportation or processing costs in reporting and paying royalties in-value for other Federal oil and gas leases.

(d) BENEFIT TO THE UNITED STATES REQUIRED.—The Secretary may receive oil or gas royalties in-kind only if the Secretary determines that receiving royalties in-kind provides benefits to the United States that are greater than or equal to the benefits that are likely to have been received had royalties been taken in-value.

(e) REPORTS.—

(1) IN GENERAL.—Not later than September 30, 2005, the Secretary shall submit to Congress a report that addresses—

(A) actions taken to develop businesses processes and automated systems to fully support the royalty-in-kind capability to be used in tandem with the royalty-in-value approach in managing Federal oil and gas revenue; and

(B) future royalty-in-kind businesses operation plans and objectives.

(2) REPORTS ON OIL OR GAS ROYALTIES TAKEN IN-KIND.—For each of fiscal years 2004 through 2013 in which the United States takes oil or gas royalties in-kind from production in any State or from the outer Continental Shelf, excluding royalties taken in-kind and sold to refineries under subsection (h), the Secretary shall submit to Congress a report that describes—

(A) the methodology or methodologies used by the Secretary to determine compliance with subsection (d), including the performance standard for comparing amounts received by the United States derived from royalties in-kind to amounts likely to have been received had royalties been taken in-value;

(B) an explanation of the evaluation that led the Secretary to take royalties in-kind from a lease or group of leases, including the expected revenue effect of taking royalties in-kind;

(C) actual amounts received by the United States derived from taking royalties in-kind and costs and savings incurred by the United States associated with taking royalties in-kind, including, but not limited to, administrative savings and any new or increased administrative costs; and

(D) an evaluation of other relevant public benefits or detriments associated with taking royalties in-kind.

(f) DEDUCTION OF EXPENSES.—

(1) IN GENERAL.—Before making payments under section 35 of the Mineral Leasing Act (30 U.S.C. 191) or section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)) of revenues derived from the sale of royalty production taken in-kind from a lease, the Secretary shall deduct amounts paid or deducted under subsections (b)(4) and (c) and deposit the amount of the deductions in the miscellaneous receipts of the United States Treasury.

(2) ACCOUNTING FOR DEDUCTIONS.—When the Secretary allows the lessee to deduct transportation or processing costs under subsection (c), the Secretary may not reduce any payments to recipients of revenues derived from any other Federal oil and gas lease as a consequence of that deduction.

(g) CONSULTATION WITH STATES.—The Secretary—

(1) shall consult with a State before conducting a royalty in-kind program under this subtitle within the State, and may delegate management of any portion of the Federal royalty in-kind program to the State except as otherwise prohibited by Federal law; and

(2) shall consult annually with any State from which Federal oil or gas royalty is being taken in-kind to ensure, to the maximum extent practicable, that the royalty in-kind program provides revenues to the State greater than or equal to those likely to have been received had royalties been taken in-value.

(h) SMALL REFINERIES.—

(1) PREFERENCE.—If the Secretary finds that sufficient supplies of crude oil are not available in the open market to refineries that do not have their own source of supply for crude oil, the Secretary may grant preference to such refineries in the sale of any royalty oil accruing or reserved to the United States under Federal oil and gas leases issued under any mineral leasing law, for processing or use in such refineries at private sale at not less than the market price.

(2) PRORATION AMONG REFINERIES IN PRODUCTION AREA.—In disposing of oil under this subsection, the Secretary of Energy may, at the discretion of the Secretary, prorate the oil among refineries described in paragraph (1) in the area in which the oil is produced.

(i) DISPOSITION TO FEDERAL AGENCIES.—

(1) ONSHORE ROYALTY.—Any royalty oil or gas taken by the Secretary in-kind from onshore oil and gas leases may be sold at not less than the market price to any Federal agency.

(2) OFFSHORE ROYALTY.—Any royalty oil or gas taken in-kind from a Federal oil or gas lease on the outer Continental Shelf may be disposed of only under section 27 of the Outer Continental Shelf Lands Act (43 U.S.C. 1353).

(j) FEDERAL LOW-INCOME ENERGY ASSISTANCE PROGRAMS.—

(1) PREFERENCE.—In disposing of royalty oil or gas taken in-kind under this section, the Secretary may grant a preference to any person, including any Federal or State agency, for the purpose of providing additional resources to any Federal low-income energy assistance program.

(2) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit a report to Congress, assessing the effectiveness of granting preferences specified in paragraph (1) and providing a specific recommendation on the continuation of authority to grant preferences.

SEC. 313. MARGINAL PROPERTY PRODUCTION INCENTIVES.

(a) DEFINITION OF MARGINAL PROPERTY.—Until such time as the Secretary issues regulations under subsection (e) that prescribe a different definition, in this section the term "marginal property" means an onshore unit, communitization agreement, or lease not within a unit or communitization agreement, that produces on average the combined equivalent of less than 15 barrels of oil per well per day or 90 million British thermal units of gas per well per day calculated based on the average over the 3 most recent production months, including only wells that produce on more than half of the days during those 3 production months.

(b) CONDITIONS FOR REDUCTION OF ROYALTY RATE.—Until such time as the Secretary issues regulations under subsection (e) that prescribe different thresholds or standards, the Secretary shall reduce the royalty rate on—

(1) oil production from marginal properties as prescribed in subsection (c) when the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, is, on average, less than $15 per barrel for 90 consecutive trading days; and

(2) gas production from marginal properties as prescribed in subsection (c) when the spot price of natural gas delivered at Henry Hub, Louisiana, is, on average, less than $2.00 per million British thermal units for 90 consecutive trading days.

(c) REDUCED ROYALTY RATE.—

(1) IN GENERAL.—When a marginal property meets the conditions specified in subsection (b), the royalty rate shall be the lesser of—

(A) 5 percent; or

(B) the applicable rate under any other statutory or regulatory royalty relief provision that applies to the affected production.

(2) PERIOD OF EFFECTIVENESS.—The reduced royalty rate under this subsection shall be effective beginning on the first day of the production month following the date on which the applicable condition specified in subsection (b) is met.

(d) TERMINATION OF REDUCED ROYALTY RATE.—A royalty rate prescribed in subsection (d)(1)(A) shall terminate—

(1) with respect to oil production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of West Texas Intermediate crude oil at Cushing, Oklahoma, on average, exceeds $15 per barrel for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property; and

(2) with respect to gas production from a marginal property, on the first day of the production month following the date on which—

(A) the spot price of natural gas delivered at Henry Hub, Louisiana, on average, exceeds $2.00 per million British thermal units for 90 consecutive trading days; or

(B) the property no longer qualifies as a marginal property.

(e) REGULATIONS PRESCRIBING DIFFERENT RELIEF.—

(1) DISCRETIONARY REGULATIONS.—The Secretary may by regulation prescribe different parameters, standards, and requirements for, and a different degree or extent of, royalty relief for marginal properties in lieu of those prescribed in subsections (a) through (d).

(2) MANDATORY REGULATIONS.—Not later than 18 months after the date of enactment of this Act, the Secretary shall by regulation—

(A) prescribe standards and requirements for, and the extent of royalty relief for, marginal properties for oil and gas leases on the outer Continental Shelf; and

(B) define what constitutes a marginal property on the outer Continental Shelf for purposes of this section.

(3) CONSIDERATIONS.—In promulgating regulations under this subsection, the Secretary may consider—

(A) oil and gas prices and market trends;

(B) production costs;

(C) abandonment costs;

(D) Federal and State tax provisions and the effects of those provisions on production economics;

(E) other royalty relief programs;

(F) regional differences in average wellhead prices;

(G) national energy security issues; and

(H) other relevant matters.

(f) SAVINGS PROVISION.—Nothing in this section prevents a lessee from receiving royalty relief or a royalty reduction pursuant to any other law (including a regulation) that provides more relief than the amounts provided by this section.

SEC. 314. INCENTIVES FOR NATURAL GAS PRODUCTION FROM DEEP WELLS IN THE SHALLOW WATERS OF THE GULF OF MEXICO.

(a) ROYALTY INCENTIVE REGULATIONS.—The Secretary shall publish a final regulation to complete the rulemaking begun by the Notice of Proposed Rulemaking entitled "Relief or Reduction in Royalty Rates—Deep Gas Provisions", published in the Federal Register on March 26, 2003 (Federal Register, volume 68, number 58, 14868-14886).

(b) ROYALTY INCENTIVE REGULATIONS FOR ULTRA DEEP GAS WELLS.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, in addition to any other regulations that may provide royalty incentives for natural gas produced from deep wells on oil and gas leases issued pursuant to the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.), the Secretary shall issue regulations, in accordance with the regulations published pursuant to subsection (a), granting royalty relief suspension volumes of not less than 35,000,000,000 cubic feet with respect to the production of natural gas from ultra deep wells on leases issued before January 1, 2001., in shallow waters less than 200 meters deep located in the Gulf of Mexico wholly west of 87 degrees, 30 minutes West longitude. Regulations issued under this subsection shall be retroactive to the date that the Notice of Proposed Rulemaking is published in the Federal Register.

(2) DEFINITION OF ULTRA DEEP WELL.—In this subsection, the term "ultra deep well" means a well drilled with a perforated interval, the top of which is at least 20,000 feet true vertical depth below the datum at mean sea level.

SEC. 315. ROYALTY RELIEF FOR DEEP WATER PRODUCTION.

(a) IN GENERAL.—For all tracts located in water depths of greater than 400 meters in the Western and Central Planning Area of the Gulf of Mexico, including the portion of the Eastern Planning Area of the Gulf of Mexico encompassing whole lease blocks lying west of 87 degrees, 30 minutes West longitude, any oil or gas lease sale under the Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) occurring within 5 years after the date of enactment of this Act shall use the bidding system authorized in section 8(a)(1)(H) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(a)(1)(H)), except that the suspension of royalties shall be set at a volume of not less than—

(1) 5,000,000 barrels of oil equivalent for each lease in water depths of 400 to 800 meters;

(2) 9,000,000 barrels of oil equivalent for each lease in water depths of 800 to 1,600 meters; and

(3) 12,000,000 barrels of oil equivalent for each lease in water depths greater than 1,600 meters.

(b) LIMITATION.—The Secretary may place limitations on the suspension of royalty relief granted based on market price.

SEC. 316. ALASKA OFFSHORE ROYALTY SUSPENSION.

Section 8(a)(3)(B) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(a)(3)(B)) is amended by inserting "and in the Planning Areas offshore Alaska" after "West longitude".

SEC. 317. OIL AND GAS LEASING IN THE NATIONAL PETROLEUM RESERVE IN ALASKA.

(a) TRANSFER OF AUTHORITY.—

(1) REDESIGNATION.—The Naval Petroleum Reserves Production Act of 1976 (42 U.S.C. 6501 et seq.) is amended by redesignating section 107 (42 U.S.C. 6507) as section 108.

(2) TRANSFER.—The matter under the heading "EXPLORATION OF NATIONAL PETROLEUM RESERVE IN ALASKA" under the heading "ENERGY AND MINERALS" of title I of Public Law 96-514 (42 U.S.C. 6508) is—

(A) transferred to the Naval Petroleum Reserves Production Act of 1976 (42 U.S.C. 6501 et seq.);

(B) redesignated as section 107 of that Act; and

(C) moved so as to appear after section 106 of that Act (42 U.S.C. 6506).

(b) Competitive Leasing.—Section 107 of the Naval Petroleum Reserves Production Act of 1976 (as amended by subsection (a) of this section) is amended—

(1) by striking the heading and all that follows through "Provided, That (1) activities" and inserting the following:

"SEC. 107. COMPETITIVE LEASING OF OIL AND GAS.

"(a) In General.—Notwithstanding any other provision of law and pursuant to regulations issued by the Secretary, the Secretary shall conduct an expeditious program of competitive leasing of oil and gas in the National Petroleum Reserve in Alaska (referred to in this section as the 'Reserve').

"(b) Mitigation of Adverse Effects.—Activities";

(2) by striking "Alaska (the Reserve); (2) the" and inserting "Alaska.

"(c) Land Use Planning; BLM Wilderness Study.—The";

(3) by striking "Reserve; (3) the" and inserting "Reserve.

"(d) First Lease Sale.—The";

(4) by striking "4332); (4) the" and inserting "4321 et seq.).

"(e) Withdrawals.—The";

(5) by striking "herein; (5) bidding" and inserting "under this section.

"(f) Bidding Systems.—Bidding";

(6) by striking "629); (6) lease" and inserting "629).

"(g) Geological Structures.—Lease";

(7) by striking "structures; (7) the" and inserting "structures.

"(h) Size of Lease Tracts.—The";

(8) by striking "Secretary; (8)" and all that follows through "Drilling, production," and inserting "Secretary.

"(i) Terms.—

"(1) In general.—Each lease shall be—

"(A) issued for an initial period of not more than 10 years; and

"(B) renewed for successive 10-year terms if—

"(i) oil or gas is produced from the lease in paying quantities;

"(ii) oil or gas is capable of being produced in paying quantities; or

"(iii) drilling or reworking operations, as approved by the Secretary, are conducted on the leased land.

"(2) Renewal of nonproducing leases.—The Secretary shall renew for an additional 10-year term a lease that does not meet the requirements of paragraph (1)(B) if the lessee submits to the Secretary an application for renewal not later than 60 days before the expiration of the primary lease and—

"(A) the lessee certifies, and the Secretary agrees, that hydrocarbon resources were discovered on 1 or more wells drilled on the leased land in such quantities that a prudent operator would hold the lease for potential future development;

"(B) the lessee—

"(i) pays the Secretary a renewal fee of $100 per acre of leased land; and

"(ii) provides evidence, and the Secretary agrees that, the lessee has diligently pursued exploration that warrants continuation with the intent of continued exploration or future development of the leased land; or

"(C) all or part of the lease—

"(i) is part of a unit agreement covering a lease described in subparagraph (A) or (B); and

"(ii) has not been previously contracted out of the unit.

"(3) Applicability.—This subsection applies to a lease that—

"(A) is entered into before, on, or after the date of enactment of the Energy Policy Act of 2003; and

"(B) is effective on or after the date of enactment of that Act.

"(j) Unit Agreements.—

"(1) In general.—For the purpose of conservation of the natural resources of all or part of any oil or gas pool, field, reservoir, or like area, lessees (including representatives) of the pool, field, reservoir, or like area may unite with each other, or jointly or separately with others, in collectively adopting and operating under a unit agreement for all or part of the pool, field, reservoir, or like area (whether or not any other part of the oil or gas pool, field, reservoir, or like area is already subject to any cooperative or unit plan of development or operation), if the Secretary determines the action to be necessary or advisable in the public interest.

"(2) Participation by State of Alaska.—The Secretary shall ensure that the State of Alaska is provided the opportunity for active participation concerning creation and management of units formed or expanded under this subsection that include acreage in which the State of Alaska has an interest in the mineral estate.

"(3) Participation by regional corporations.—The Secretary shall ensure that any Regional Corporation (as defined in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602)) is provided the opportunity for active participation concerning creation and management of units that include acreage in which the Regional Corporation has an interest in the mineral estate.

"(4) Production allocation methodology.—The Secretary may use a production allocation methodology for each participating area within a unit created for land in the Reserve, State of Alaska land, or Regional Corporation land shall, when appropriate, be based on the characteristics of each specific oil or gas pool, field, reservoir, or like area to take into account reservoir heterogeneity and a real variation in reservoir producibility across diverse leasehold interests.

"(5) Benefit of operations.—Drilling, production,";

(9) by striking "When separate" and inserting the following:

"(6) Pooling.—If separate";

(10) by inserting "(in consultation with the owners of the other land)" after "determined by the Secretary of the Interior";

(11) by striking "thereto; (10) to" and all that follows through "the terms provided therein" and inserting "to the agreement.

"(k) Exploration Incentives.—

"(1) In general.—

"(A) Waiver, suspension, or reduction.—To encourage the greatest ultimate recovery of oil or gas or in the interest of conservation, the Secretary may waive, suspend, or reduce the rental fees or minimum royalty, or reduce the royalty on an entire leasehold (including on any lease operated pursuant to a unit agreement), if (after consultation with the State of Alaska and the North Slope Borough of Alaska and the concurrence of any Regional Corporation for leases that include lands available for acquisition by the Regional Corporation under the provisions of section 1431(o) of the Alaska National Interest Lands Conservation Act (16 U.S.C. 3101 et seq.)) the Secretary determines that the waiver, suspension, or reduction is in the public interest.

"(B) Applicability.—This paragraph applies to a lease that—

"(i) is entered into before, on, or after the date of enactment of the Energy Policy Act of 2003; and

"(ii) is effective on or after the date of enactment of that Act.";

(12) by striking "The Secretary is authorized to" and inserting the following:

"(2) Suspension of operations and production.—The Secretary may";

(13) by striking "In the event" and inserting the following:

"(3) Suspension of payments.—If";

(14) by striking "thereto; and (11) all" and inserting "to the lease.

"(l) Receipts.—All";

(15) by redesignating clauses (A), (B), and (C) as clauses (1), (2), and (3), respectively;

(16) by striking "Any agency" and inserting the following:

"(m) Explorations.—Any agency";

(17) by striking "Any action" and inserting the following:

"(n) Environmental Impact Statements.—

"(1) Judicial review.—Any action";

(18) by striking "The detailed" and inserting the following:

"(2) Initial lease sales.—The detailed";

(19) by striking "of the Naval Petroleum Reserves Production Act of 1976 (90 Stat. 304; 42 U.S.C. 6504)"; and

(20) by adding at the end the following:

"(o) Waiver of Administration for Conveyed Lands.—Notwithstanding section 14(g) of the Alaska Native Claims Settlement Act (43 U.S.C. 1613(g)) or any other provision of law—

"(1) the Secretary of the Interior shall waive administration of any oil and gas lease insofar as such lease covers any land in the National Petroleum Reserve in Alaska in which the subsurface estate is conveyed to the Arctic Slope Regional Corporation; and

"(2) if any such conveyance of such subsurface estate does not cover all the land embraced within any such oil and gas lease—

"(A) the person who owns the subsurface estate in any particular portion of the land covered by such lease shall be entitled to all of the revenues reserved under such lease as to such portion, including, without limitation, all the royalty payable with respect to oil or gas produced from or allocated to such particular portion of the land covered by such lease; and

"(B) the Secretary of the Interior shall segregate such lease into 2 leases, 1 of which shall cover only the subsurface estate conveyed to the Arctic Slope Regional Corporation, and operations, production, or other circumstances (other than payment of rentals or royalties) that satisfy obligations of the lessee under, or maintain, either of the segregated leases shall likewise satisfy obligations of the lessee under, or maintain, the other segregated lease to the same extent as if such segregated leases remained a part of the original unsegregated lease.".

SEC. 318. ORPHANED, ABANDONED, OR IDLED WELLS ON FEDERAL LAND.

(a) In General.—The Secretary, in cooperation with the Secretary of Agriculture, shall establish a program not later than 1 year after the date of enactment of this Act to remediate, reclaim, and close orphaned, abandoned, or idled oil and gas wells located on land administered by the land management agencies within the Department of the Interior and the Department of Agriculture.

(b) Activities.—The program under subsection (a) shall—

(1) include a means of ranking orphaned, abandoned, or idled wells sites for priority in remediation, reclamation, and closure, based on public health and safety, potential environmental harm, and other land use priorities;

(2) provide for identification and recovery of the costs of remediation, reclamation, and closure from persons or other entities currently providing a bond or other financial assurance required under State or Federal law for an oil or gas well that is orphaned, abandoned, or idled; and

(3) provide for recovery from the persons or entities identified under paragraph (2), or their sureties or guarantors, of the costs of remediation, reclamation, and closure of such wells.

(c) Cooperation and Consultations.—In carrying out the program under subsection (a), the Secretary shall—

(1) work cooperatively with the Secretary of Agriculture and the States within which Federal land is located; and

(2) consult with the Secretary of Energy and the Interstate Oil and Gas Compact Commission.

(d) Plan.—Not later than 1 year after the date of enactment of this Act, the Secretary, in cooperation with the Secretary of Agriculture, shall submit to Congress a plan for carrying out the program under subsection (a).

(e) Idled Well.—For the purposes of this section, a well is idled if—

(1) the well has been nonoperational for at least 7 years; and

(2) there is no anticipated beneficial use for the well.

(f) Technical Assistance Program for Non-Federal Land.—

(1) In general.—The Secretary of Energy shall establish a program to provide technical and financial assistance to oil and gas producing States to facilitate State efforts over a 10-year period to ensure a practical and economical remedy for environmental problems caused by orphaned or abandoned oil and gas exploration or production well sites on State or private land.

(2) Assistance.—The Secretary of Energy shall work with the States, through the Interstate Oil and Gas Compact Commission, to assist the States in quantifying and mitigating environmental risks of onshore orphaned or abandoned oil or gas wells on State and private land.

(3) Activities.—The program under paragraph (1) shall include—

(A) mechanisms to facilitate identification, if feasible, of the persons currently providing a bond or other form of financial assurance required under State or Federal law for an oil or gas well that is orphaned or abandoned;

(B) criteria for ranking orphaned or abandoned well sites based on factors such as public health and safety, potential environmental harm, and other land use priorities;

(C) information and training programs on best practices for remediation of different types of sites; and

(D) funding of State mitigation efforts on a cost-shared basis.

(g) Federal Reimbursement for Orphaned Well Reclamation Pilot Program.—

(1) Reimbursement for remediating, reclaiming, and closing wells on land subject to a new lease.—The Secretary shall carry out a pilot program under which, in issuing a new oil and gas lease on federally owned land on which 1 or more orphaned wells are located, the Secretary—

(A) may require, but not as a condition of the lease, that the lessee remediate, reclaim, and close in accordance with standards established by the Secretary, all orphaned wells on the land leased; and

(B) shall develop a program to reimburse a lessee, through a royalty credit against the Federal share of royalties owed or other means, for the reasonable actual costs of remediating, reclaiming, and closing the orphaned well pursuant to that requirement.

(2) Reimbursement for reclaiming orphaned wells on other land.—In carrying out this subsection, the Secretary—

(A) may authorize any lessee under an oil and gas lease on federally owned land to reclaim in accordance with the Secretary's standards—

(i) an orphaned well on unleased federally owned land; or

(ii) an orphaned well located on an existing lease on federally owned land for the reclamation of which the lessee is not legally responsible; and

(B) shall develop a program to provide reimbursement of 115 percent of the reasonable actual costs of remediating, reclaiming, and closing the orphaned well, through credits against the Federal share of royalties or other means.

(3) Effect of remediation, reclamation, or closure of well pursuant to an approved remediation plan.—

(A) Definition of remediating party.—In this paragraph the term "remediating party" means a person who remediates, reclaims, or closes an abandoned, orphaned, or idled well pursuant to this subsection.

(B) General rule.—A remediating party who remediates, reclaims, or closes an abandoned, orphaned, or idled well in accordance with a detailed written remediation plan approved by the Secretary under this subsection, shall be immune from civil liability under Federal environmental laws, for—

(i) pre-existing environmental conditions at or associated with the well, unless the remediating party owns or operates, in the past owned or operated, or is related to a person that owns or operates or in the past owned or operated, the well or the land on which the well is located; or

(ii) any remaining releases of pollutants from the well during or after completion of the remediation, reclamation, or closure of the well, unless the remediating party causes increased pollution as a result of activities that are not in accordance with the approved remediation plan.

(C) Limitations.—Nothing in this section shall limit in any way the liability of a remediating party for injury, damage, or pollution resulting from the remediating party's acts or omissions that are not in accordance with the approved remediation plan, are reckless or willful, constitute gross negligence or wanton misconduct, or are unlawful.

(4) Regulations.—The Secretary may issue such regulations as are appropriate to carry out this subsection.

(h) Authorization of Appropriations.—

(1) In general.—There are authorized to be appropriated to carry out this section $25,000,000 for each of fiscal years 2005 through 2009.

(2) Use.—Of the amounts authorized under paragraph (1), $5,000,000 are authorized for each fiscal year for activities under subsection (f).

SEC. 319. COMBINED HYDROCARBON LEASING.

(a) Special Provisions Regarding Leasing.—Section 17(b)(2) of the Mineral Leasing Act (30 U.S.C. 226(b)(2)) is amended—

(1) by inserting "(A)" after "(2)"; and

(2) by adding at the end the following:

"(B) For any area that contains any combination of tar sand and oil or gas (or both), the Secretary may issue under this Act, separately—

"(i) a lease for exploration for and extraction of tar sand; and

"(ii) a lease for exploration for and development of oil and gas.

"(C) A lease issued for tar sand shall be issued using the same bidding process, annual rental, and posting period as a lease issued for oil and gas, except that the minimum acceptable bid required for a lease issued for tar sand shall be $2 per acre.

"(D) The Secretary may waive, suspend, or alter any requirement under section 26 that a permittee under a permit authorizing prospecting for tar sand must exercise due diligence, to promote any resource covered by a combined hydrocarbon lease.".

(b) Conforming Amendment.—Section 17(b)(1)(B) of the Mineral Leasing Act (30 U.S.C. 226(b)(1)(B)) is amended in the second sentence by inserting ", subject to paragraph (2)(B)," after "Secretary".

(c) Regulations.—Not later than 45 days after the date of enactment of this Act, the Secretary shall issue final regulations to implement this section.

SEC. 320. LIQUIFIED NATURAL GAS.

Section 3 of the Natural Gas Act (15 U.S.C. 717b) is amended by adding at the end the following:

"(d) Limitation on Commission Authority.—If an applicant under this section proposes to construct or expand a liquified natural gas terminal either onshore or in State waters for the purpose of importing liquified natural gas into the United States, the Commission shall not deny or condition the application solely on the basis that the applicant proposes to utilize the terminal exclusively or partially for gas that the applicant or any affiliate thereof will supply thereto. In all other respects, subsection (a) shall remain applicable to any such proposal.".

SEC. 321. ALTERNATE ENERGY-RELATED USES ON THE OUTER CONTINENTAL SHELF.

(a) Amendment to Outer Continental Shelf Lands Act.—Section 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1337) is amended by adding at the end the following:

"(p) Leases, Easements, or Rights-of-Way for Energy and Related Purposes.—

"(1) In General.—The Secretary, in consultation with the Secretary of the Department in which the Coast Guard is operating and other relevant departments and agencies of the Federal Government, may grant a lease, easement, or right-of-way on the outer Continental Shelf for activities not otherwise authorized in this Act, the Deepwater Port Act of 1974 (33 U.S.C. 1501 et seq.), or the Ocean Thermal Energy Conversion Act of 1980 (42 U.S.C. 9101 et seq.), or other applicable law, if those activities—

"(A) support exploration, development, production, transportation, or storage of oil, natural gas, or other minerals;

"(B) produce or support production, transportation, or transmission of energy from sources other than oil and gas; or

"(C) use, for energy-related or marine-related purposes, facilities currently or previously used for activities authorized under this Act.

"(2) Payments.—The Secretary shall establish reasonable forms of payments for any easement or right-of-way granted under this subsection. Such payments shall not be assessed on the basis of throughput or production. The Secretary may establish fees, rentals, bonus, or other payments by rule or by agreement with the party to which the lease, easement, or right-of-way is granted.

"(3) Consultation.—Before exercising authority under this subsection, the Secretary shall consult with the Secretary of Defense and other appropriate agencies concerning issues related to national security and navigational obstruction.

"(4) Competitive or noncompetitive basis.—

"(A) In general.—The Secretary may issue a lease, easement, or right-of-way for energy and related purposes as described in paragraph (1) on a competitive or noncompetitive basis.

"(B) Considerations.—In determining whether a lease, easement, or right-of-way shall be granted competitively or noncompetitively, the Secretary shall consider such factors as—

"(i) prevention of waste and conservation of natural resources;

"(ii) the economic viability of an energy project;

"(iii) protection of the environment;

"(iv) the national interest and national security;

"(v) human safety;

"(vi) protection of correlative rights; and

"(vii) potential return for the lease, easement, or right-of-way.

"(5) REGULATIONS.—Not later than 270 days after the date of enactment of the Energy Policy Act of 2003, the Secretary, in consultation with the Secretary of the Department in which the Coast Guard is operating and other relevant agencies of the Federal Government and affected States, shall issue any necessary regulations to ensure safety, protection of the environment, prevention of waste, and conservation of the natural resources of the outer Continental Shelf, protection of national security interests, and protection of correlative rights in the outer Continental Shelf.

"(6) SECURITY.—The Secretary shall require the holder of a lease, easement, or right-of-way granted under this subsection to furnish a surety bond or other form of security, as prescribed by the Secretary, and to comply with such other requirements as the Secretary considers necessary to protect the interests of the United States.

"(7) EFFECT OF SUBSECTION.—Nothing in this subsection displaces, supersedes, limits, or modifies the jurisdiction, responsibility, or authority of any Federal or State agency under any other Federal law.

"(8) APPLICABILITY.—This subsection does not apply to any area on the outer Continental Shelf designated as a National Marine Sanctuary.".

(b) CONFORMING AMENDMENT.—Section 8 of the Outer Continental Shelf Lands Act (43 U.S.C. 1337) is amended by striking the section heading and inserting the following: "LEASES, EASEMENTS, AND RIGHTS-OF-WAY ON THE OUTER CONTINENTAL SHELF.—".

(c) SAVINGS PROVISION.—Nothing in the amendment made by subsection (a) requires, with respect to any project—

(1) for which offshore test facilities have been constructed before the date of enactment of this Act; or

(2) for which a request for proposals has been issued by a public authority,

any resubmittal of documents previously submitted or any reauthorization of actions previously authorized.

SEC. 322. PRESERVATION OF GEOLOGICAL AND GEOPHYSICAL DATA.

(a) SHORT TITLE.—This section may be cited as the "National Geological and Geophysical Data Preservation Program Act of 2003".

(b) PROGRAM.—The Secretary shall carry out a National Geological and Geophysical Data Preservation Program in accordance with this section—

(1) to archive geologic, geophysical, and engineering data, maps, well logs, and samples;

(2) to provide a national catalog of such archival material; and

(3) to provide technical and financial assistance related to the archival material.

(c) PLAN.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a plan for the implementation of the Program.

(d) DATA ARCHIVE SYSTEM.—

(1) ESTABLISHMENT.—The Secretary shall establish, as a component of the Program, a data archive system to provide for the storage, preservation, and archiving of subsurface, surface, geological, geophysical, and engineering data and samples. The Secretary, in consultation with the Advisory Committee, shall develop guidelines relating to the data archive system, including the types of data and samples to be preserved.

(2) SYSTEM COMPONENTS.—The system shall be comprised of State agencies that elect to be part of the system and agencies within the Department of the Interior that maintain geological and geophysical data and samples that are designated by the Secretary in accordance with this subsection. The Program shall provide for the storage of data and samples through data repositories operated by such agencies.

(3) LIMITATION OF DESIGNATION.—The Secretary may not designate a State agency as a component of the data archive system unless that agency is the agency that acts as the geological survey in the State.

(4) DATA FROM FEDERAL LAND.—The data archive system shall provide for the archiving of relevant subsurface data and samples obtained from Federal land—

(A) in the most appropriate repository designated under paragraph (2), with preference being given to archiving data in the State in which the data were collected; and

(B) consistent with all applicable law and requirements relating to confidentiality and proprietary data.

(e) NATIONAL CATALOG.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary shall develop and maintain, as a component of the Program, a national catalog that identifies—

(A) data and samples available in the data archive system established under subsection (d);

(B) the repository for particular material in the system; and

(C) the means of accessing the material.

(2) AVAILABILITY.—The Secretary shall make the national catalog accessible to the public on the site of the Survey on the Internet, consistent with all applicable requirements related to confidentiality and proprietary data.

(f) ADVISORY COMMITTEE.—

(1) IN GENERAL.—The Advisory Committee shall advise the Secretary on planning and implementation of the Program.

(2) NEW DUTIES.—In addition to its duties under the National Geologic Mapping Act of 1992 (43 U.S.C. 31a et seq.), the Advisory Committee shall perform the following duties:

(A) Advise the Secretary on developing guidelines and procedures for providing assistance for facilities under subsection (g)(1).

(B) Review and critique the draft implementation plan prepared by the Secretary under subsection (c).

(C) Identify useful studies of data archived under the Program that will advance understanding of the Nation's energy and mineral resources, geologic hazards, and engineering geology.

(D) Review the progress of the Program in archiving significant data and preventing the loss of such data, and the scientific progress of the studies funded under the Program.

(E) Include in the annual report to the Secretary required under section 5(b)(3) of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d(b)(3)) an evaluation of the progress of the Program toward fulfilling the purposes of the Program under subsection (b).

(g) FINANCIAL ASSISTANCE.—

(1) ARCHIVE FACILITIES.—Subject to the availability of appropriations, the Secretary shall provide financial assistance to a State agency that is designated under subsection (d)(2) for providing facilities to archive energy material.

(2) STUDIES.—Subject to the availability of appropriations, the Secretary shall provide financial assistance to any State agency designated under subsection (d)(2) for studies and technical assistance activities that enhance understanding, interpretation, and use of materials archived in the data archive system established under subsection (d).

(3) FEDERAL SHARE.—The Federal share of the cost of an activity carried out with assistance under this subsection shall be not more than 50 percent of the total cost of the activity.

(4) PRIVATE CONTRIBUTIONS.—The Secretary shall apply to the non-Federal share of the cost of an activity carried out with assistance under this subsection the value of private contributions of property and services used for that activity.

(h) REPORT.—The Secretary shall include in each report under section 8 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31g)—

(1) a description of the status of the Program;

(2) an evaluation of the progress achieved in developing the Program during the period covered by the report; and

(3) any recommendations for legislative or other action the Secretary considers necessary and appropriate to fulfill the purposes of the Program under subsection (b).

(i) MAINTENANCE OF STATE EFFORT.—It is the intent of Congress that the States not use this section as an opportunity to reduce State resources applied to the activities that are the subject of the Program.

(j) DEFINITIONS.—In this section:

(1) ADVISORY COMMITTEE.—The term "Advisory Committee" means the advisory committee established under section 5 of the National Geologic Mapping Act of 1992 (43 U.S.C. 31d).

(2) PROGRAM.—The term "Program" means the National Geological and Geophysical Data Preservation Program carried out under this section.

(3) SECRETARY.—The term "Secretary" means the Secretary of the Interior, acting through the Director of the United States Geological Survey.

(4) SURVEY.—The term "Survey" means the United States Geological Survey.

(k) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $30,000,000 for each of fiscal years 2004 through 2008.

SEC. 323. OIL AND GAS LEASE ACREAGE LIMITATIONS.

Section 27(d)(1) of the Mineral Leasing Act (30 U.S.C. 184(d)(1)) is amended by inserting after "acreage held in special tar sand areas" the following: ", and acreage under any lease any portion of which has been committed to a federally approved unit or cooperative plan or communitization agreement or for which royalty (including compensatory royalty or royalty in-kind) was paid in the preceding calendar year,".

SEC. 324. ASSESSMENT OF DEPENDENCE OF STATE OF HAWAII ON OIL.

(a) ASSESSMENT.—The Secretary of Energy shall assess the economic implication of the dependence of the State of Hawaii on oil as the principal source of energy for the State, including—

(1) the short- and long-term prospects for crude oil supply disruption and price volatility and potential impacts on the economy of Hawaii;

(2) the economic relationship between oil-fired generation of electricity from residual fuel and refined petroleum products consumed for ground, marine, and air transportation;

(3) the technical and economic feasibility of increasing the contribution of renewable energy resources for generation of electricity, on an island-by-island basis, including—

(A) siting and facility configuration;

(B) environmental, operational, and safety considerations;

(C) the availability of technology;

(D) effects on the utility system including reliability;

(E) infrastructure and transport requirements;

(F) community support; and

(G) other factors affecting the economic impact of such an increase and any effect on the economic relationship described in paragraph (2);

(4) the technical and economic feasibility of using liquified natural gas to displace residual fuel oil for electric generation, including neighbor island opportunities, and the effect of the displacement on the economic relationship described in paragraph (2), including—

(A) the availability of supply;

(B) siting and facility configuration for onshore and offshore liquified natural gas receiving terminals;

(C) the factors described in subparagraphs (B) through (F) of paragraph (3); and

(D) other economic factors;

(5) the technical and economic feasibility of using renewable energy sources (including hydrogen) for ground, marine, and air transportation energy applications to displace the use of refined petroleum products, on an island-by-island basis, and the economic impact of the displacement on the relationship described in (2); and

(6) an island-by-island approach to—

(A) the development of hydrogen from renewable resources; and

(B) the application of hydrogen to the energy needs of Hawaii

(b) CONTRACTING AUTHORITY.—The Secretary of Energy may carry out the assessment under subsection (a) directly or, in whole or in part, through 1 or more contracts with qualified public or private entities.

(c) REPORT.—Not later than 300 days after the date of enactment of this Act, the Secretary of Energy shall prepare, in consultation with agencies of the State of Hawaii and other stakeholders, as appropriate, and submit to Congress, a report detailing the findings, conclusions, and recommendations resulting from the assessment.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as are necessary to carry out this section.

SEC. 325. DEADLINE FOR DECISION ON APPEALS OF CONSISTENCY DETERMINATION UNDER THE COASTAL ZONE MANAGEMENT ACT OF 1972.

(a) IN GENERAL.—Section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465) is amended to read as follows:

"APPEALS TO THE SECRETARY

"SEC. 319. (a) NOTICE.—The Secretary shall publish an initial notice in the Federal Register not later than 30 days after the date of the filing of any appeal to the Secretary of a consistency determination under section 307.

"(b) CLOSURE OF RECORD.—

"(1) IN GENERAL.—Not later than the end of the 120-day period beginning on the date of publication of an initial notice under subsection (a), the Secretary shall receive no more filings on the appeal and the administrative record regarding the appeal shall be closed.

"(2) NOTICE.—Upon the closure of the administrative record, the Secretary shall immediately publish a notice that the administrative record has been closed.

"(c) DEADLINE FOR DECISION.—The Secretary shall issue a decision in any appeal filed under section 307 not later than 120 days after the closure of the administrative record.

"(d) APPLICATION.—This section applies to appeals initiated by the Secretary and appeals filed by an applicant.".

(b) APPLICATION.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendment made by subsection (a) shall apply with respect to any appeal initiated or filed before, on, or after the date of enactment of this Act.

(2) LIMITATION.—Subsection (a) of section 319 of the Coastal Zone Management Act of 1972 (as amended by subsection (a)) shall not apply with respect to an appeal initiated or filed before the date of enactment of this Act.

(c) CLOSURE OF RECORD FOR APPEAL FILED BEFORE DATE OF ENACTMENT.—Notwithstanding section 319(b)(1) of the Coastal Zone Management Act of 1972 (as amended by this section), in the case of an appeal of a consistency determination under section 307 of that Act initiated or filed before the date of enactment of this Act, the Secretary of Commerce shall receive no more filings on the appeal and the administrative record regarding the appeal shall be closed not later than 120 days after the date of enactment of this Act.

SEC. 326. REIMBURSEMENT FOR COSTS OF NEPA ANALYSES, DOCUMENTATION, AND STUDIES.

(a) IN GENERAL.—The Mineral Leasing Act is amended by inserting after section 37 (30 U.S.C. 193) the following:

"REIMBURSEMENT FOR COSTS OF CERTAIN ANALYSES, DOCUMENTATION, AND STUDIES

"SEC. 38. (a) IN GENERAL.—The Secretary of the Interior may reimburse a person that is a lessee, operator, operating rights owner, or applicant for any lease under this Act for reasonable amounts paid by the person for preparation for the Secretary by a contractor or other person selected by the Secretary of any project-level analysis, documentation, or related study required pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to the lease.

"(b) CONDITIONS.—The Secretary may provide reimbursement under subsection (a) only if—

"(1) adequate funding to enable the Secretary to timely prepare the analysis, documentation, or related study is not appropriated;

"(2) the person paid the costs voluntarily;

"(3) the person maintains records of its costs in accordance with regulations issued by the Secretary;

"(4) the reimbursement is in the form of a reduction in the Federal share of the royalty required to be paid for the lease for which the analysis, documentation, or related study is conducted, and is agreed to by the Secretary and the person reimbursed prior to commencing the analysis, documentation, or related study; and

"(5) the agreement required under paragraph (4) contains provisions—

"(A) reducing royalties owed on lease production based on market prices;

"(B) stipulating an automatic termination of the royalty reduction upon recovery of documented costs; and

"(C) providing a process by which the lessee may seek reimbursement for circumstances in which production from the specified lease is not possible.".

(b) APPLICATION.—The amendment made by this section shall apply with respect to an analysis, documentation, or a related study conducted on or after the date of enactment of this Act for any lease entered into before, on, or after the date of enactment of this Act.

(c) DEADLINE FOR REGULATIONS.—The Secretary shall issue regulations implementing the amendment made by this section by not later than 1 year after the date of enactment of this Act.

SEC. 327. HYDRAULIC FRACTURING.

Paragraph (1) of section 1421(d) of the Safe Drinking Water Act (42 U.S.C. 300h(d)) is amended to read as follows:

"(1) UNDERGROUND INJECTION.—The term 'underground injection'—

"(A) means the subsurface emplacement of fluids by well injection; and

"(B) excludes—

"(i) the underground injection of natural gas for purposes of storage; and

"(ii) the underground injection of fluids or propping agents pursuant to hydraulic fracturing operations related to oil or gas production activities.".

SEC. 328. OIL AND GAS EXPLORATION AND PRODUCTION DEFINED.

Section 502 of the Federal Water Pollution Control Act (33 U.S.C. 1362) is amended by adding at the end the following:

"(24) OIL AND GAS EXPLORATION AND PRODUCTION.—The term 'oil and gas exploration, production, processing, or treatment operations or transmission facilities' means all field activities or operations associated with exploration, production, processing, or treatment operations, or transmission facilities, including activities necessary to prepare a site for drilling and for the movement and placement of drilling equipment, whether or not such field activities or operations may be considered to be construction activities.".

SEC. 329. OUTER CONTINENTAL SHELF PROVISIONS.

(a) STORAGE ON THE OUTER CONTINENTAL SHELF.—Section 5(a)(5) of the Outer Continental Shelf Lands Act (43 U.S.C. 1334(a)(5)) is amended by inserting "from any source" after "oil and gas".

(b) DEEPWATER PROJECTS.—Section 6 of the Deepwater Port Act of 1974 (33 U.S.C. 1505) is amended by adding at the end the following:

"(d) RELIANCE ON ACTIVITIES OF OTHER AGENCIES.—In fulfilling the requirements of section 5(f)—

"(1) to the extent that other Federal agencies have prepared environmental impact statements, are conducting studies, or are monitoring the affected human, marine, or coastal environment, the Secretary may use the information derived from those activities in lieu of directly conducting such activities; and

"(2) the Secretary may use information obtained from any State or local government or from any person.".

(c) NATURAL GAS DEFINED.—Section 3(13) of the Deepwater Port Act of 1974 (33 U.S.C. 1502(13)) is amended to read as follows:

"(13) natural gas means—

"(A) natural gas unmixed; or

"(B) any mixture of natural or artificial gas, including compressed or liquefied natural gas, natural gas liquids, liquefied petroleum gas, and condensate recovered from natural gas;".

SEC. 330. APPEALS RELATING TO PIPELINE CONSTRUCTION OR OFFSHORE MINERAL DEVELOPMENT PROJECTS.

(a) AGENCY OF RECORD, PIPELINE CONSTRUCTION PROJECTS.—Any Federal administrative agency proceeding that is an appeal or review under section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465), as amended by this Act, related to Federal authority for an interstate natural gas pipeline construction project, including construction of natural gas storage and liquefied natural gas facilities, shall use as its exclusive record for all purposes the record compiled by the Federal Energy Regulatory Commission pursuant to the Commission's proceeding under sections 3 and 7 of the Natural Gas Act (15 U.S.C. 717b, 717f).

(b) SENSE OF CONGRESS.—It is the sense of Congress that all Federal and State agencies with jurisdiction over interstate natural gas pipeline construction activities should coordinate their proceedings within the timeframes established by the Federal Energy Regulatory Commission when the Commission is acting under sections 3 and 7 of the Natural Gas Act (15 U.S.C. 717b, 717f) to determine whether a certificate of public convenience and necessity should be issued for a proposed interstate natural gas pipeline.

(c) AGENCY OF RECORD, OFFSHORE MINERAL DEVELOPMENT PROJECTS.—Any Federal administrative agency proceeding that is an appeal or review under section 319 of the Coastal Zone Management Act of 1972 (16 U.S.C. 1465), as amended by this Act, related to Federal authority for the permitting, approval, or other authorization of energy projects, including projects to explore, develop, or produce mineral resources in or underlying the outer Continental Shelf shall use as its exclusive record for all purposes (except for the filing of pleadings) the record compiled by the relevant Federal permitting agency.

SEC. 331. BILATERAL INTERNATIONAL OIL SUPPLY AGREEMENTS.

(a) IN GENERAL.—Notwithstanding any other provision of law, the President may export oil to, or secure oil for, any country pursuant to a bilateral international oil supply agreement entered into by the United States with the country before June 25, 1979, or to any country pursuant to the International Emergency Oil Sharing Plan of the International Energy Agency.

(b) MEMORANDUM OF AGREEMENT.—The following agreements are deemed to have entered into force by operation of law and are deemed to have no termination date:

(1) The agreement entitled "Agreement amending and extending the memorandum of agreement of June 22, 1979", entered into force November 13, 1994 (TIAS 12580).

(2) The agreement entitled "Agreement amending the contingency implementing arrangements of October 17, 1980", entered into force June 27, 1995 (TIAS 12670).

SEC. 332. NATURAL GAS MARKET REFORM.

(a) CLARIFICATION OF EXISTING CFTC AUTHORITY.—

(1) FALSE REPORTING.—Section 9(a)(2) of the Commodity Exchange Act (7 U.S.C. 13(a)(2)) is amended by striking "false or misleading or knowingly inaccurate reports" and inserting "knowingly false or knowingly misleading or knowingly inaccurate reports".

(2) COMMISSION ADMINISTRATIVE AND CIVIL AUTHORITY.—Section 9 of the Commodity Exchange Act (7 U.S.C. 13) is amended by redesignating subsection (f) as subsection (e), and adding:

"(f) COMMISSION ADMINISTRATIVE AND CIVIL AUTHORITY.—The Commission may bring administrative or civil actions as provided in this Act against any person for a violation of any provision of this section including, but not limited to, false reporting under subsection (a)(2).".

(3) EFFECT OF AMENDMENTS.—The amendments made by paragraphs (1) and (2) restate, without substantive change, existing burden of proof provisions and existing Commission civil enforcement authority, respectively. These clarifying changes do not alter any existing burden of proof or grant any new statutory authority. The provisions of this section, as restated herein, continue to apply to any action pending on or commenced after the date of enactment of this Act for any act, omission, or violation occurring before, on, or after, such date of enactment.

(b) FRAUD AUTHORITY.—Section 4b of the Commodity Exchange Act (7 U.S.C. 6b) is amended—

(1) by redesignating subsections (b) and (c) as subsections (c) and (d), respectively; and

(2) by striking subsection (a) and inserting the following:

"(a) It shall be unlawful—

"(1) for any person, in or in connection with any order to make, or the making of, any contract of sale of any commodity for future delivery or in interstate commerce, that is made, or to be made, on or subject to the rules of a designated contract market, for or on behalf of any other person; or

"(2) for any person, in or in connection with any order to make, or the making of, any contract of sale of any commodity for future delivery, or other agreement, contract, or transaction subject to section 5a(g) (1) and (2) of this Act, that is made, or to be made, for or on behalf of, or with, any other person, other than on or subject to the rules of a designated contract market—

"(A) to cheat or defraud or attempt to cheat or defraud such other person;

"(B) willfully to make or cause to be made to such other person any false report or statement or willfully to enter or cause to be entered for such other person any false record;

"(C) willfully to deceive or attempt to deceive such other person by any means whatsoever in regard to any order or contract or the disposition or execution of any order or contract, or in regard to any act of agency performed, with respect to any order or contract for or, in the case of subsection (a)(2), with such other person; or

"(D)(i) to bucket an order if such order is either represented by such person as an order to be executed, or required to be executed, on or subject to the rules of a designated contract market; or

"(ii) to fill an order by offset against the order or orders of any other person, or willfully and knowingly and without the prior consent of such other person to become the buyer in respect to any selling order of such other person, or become the seller in respect to any buying order of such other person, if such order is either represented by such person as an order to be executed, or required to be executed, on or subject to the rules of a designated contract market.

"(b) Subsection (a)(2) shall not obligate any person, in connection with a transaction in a contract of sale of a commodity for future delivery, or other agreement, contract or transaction subject to section 5a(g) (1) and (2) of this Act, with another person, to disclose to such other person nonpublic information that may be material to the market price of such commodity or transaction, except as necessary to make any statement made to such other person in connection with such transaction, not misleading in any material respect.".

(c) JURISDICTION OF THE CFTC.—The Natural Gas Act (15 U.S.C. 717 et seq.) is amended by adding at the end:

"SEC. 26. JURISDICTION.

"This Act shall not affect the exclusive jurisdiction of the Commodity Futures Trading Commission with respect to accounts, agreements, contracts, or transactions in commodities under the Commodity Exchange Act (7 U.S.C. 1 et seq.). Any request for information by the Commission to a designated contract market, registered derivatives transaction execution facility, board of trade, exchange, or market involving accounts, agreements, contracts, or transactions in commodities (including natural gas, electricity, and other energy commodities) within the exclusive jurisdiction of the Commodity Futures Trading Commission shall be directed to the Commodity Futures Trading Commission, which shall cooperate in responding to any information request by the Commission.".

(d) INCREASED PENALTIES.—Section 21 of the Natural Gas Act (15 U.S.C. 717t) is amended—

(1) in subsection (a)—

(A) by striking "$5,000" and inserting "$1,000,000"; and

(B) by striking "two years" and inserting "5 years"; and

(2) in subsection (b), by striking "$500" and inserting "$50,000".

SEC. 333. NATURAL GAS MARKET TRANSPARENCY.

The Natural Gas Act (15 U.S.C 717 et seq.) is amended—

(1) by redesignating section 24 as section 25; and

(2) by inserting after section 23 the following:

"SEC. 24. NATURAL GAS MARKET TRANSPARENCY.

"(a) AUTHORIZATION.—(1) Not later than 180 days after the date of enactment of the Energy Policy Act of 2003, the Federal Energy Regulatory Commission shall issue rules directing all entities subject to the Commission's jurisdiction as provided under this Act to timely report information about the availability and prices of natural gas sold at wholesale in interstate commerce to the Commission and price publishers.

"(2) The Commission shall evaluate the data for adequate price transparency and accuracy.

"(3) Rules issued under this subsection requiring the reporting of information to the Commission that may become publicly available shall be limited to aggregate data and transaction-specific data that are otherwise required by the Commission to be made public.

"(4) In exercising its authority under this section, the Commission shall not—

"(A) compete with, or displace from the market place, any price publisher; or

"(B) regulate price publishers or impose any requirements on the publication of information.

"(b) TIMELY ENFORCEMENT.—No person shall be subject to any penalty under this section with respect to a violation occurring more than 3 years before the date on which the Federal Energy Regulatory Commission seeks to assess a penalty.

"(c) LIMITATION ON COMMISSION AUTHORITY.—(1) The Commission shall not condition access to interstate pipeline transportation upon the reporting requirements authorized under this section.

"(2) Natural gas sales by a producer that are attributable to volumes of natural gas produced by such producer shall not be subject to the rules issued pursuant to this section.

"(3) The Commission shall not require natural gas producers, processors, or users who have a de minimis market presence to participate in the reporting requirements provided in this section.".

Subtitle C—Access to Federal Land

SEC. 341. OFFICE OF FEDERAL ENERGY PROJECT COORDINATION.

(a) ESTABLISHMENT.—The President shall establish the Office of Federal Energy Project Coordination (referred to in this section as the "Office") within the Executive Office of the President in the same manner and with the same mission as the White House Energy Projects Task Force established by Executive Order No. 13212 (42 U.S.C. 13201 note).

(b) STAFFING.—The Office shall be staffed by functional experts from relevant Federal agencies on a nonreimbursable basis to carry out the mission of the Office.

(c) REPORT.—The Office shall transmit an annual report to Congress that describes the activities put in place to coordinate and expedite Federal decisions on energy projects. The report shall list accomplishments in improving the Federal decisionmaking process and shall include any additional recommendations or systemic changes needed to establish a more effective and efficient Federal permitting process.

SEC. 342. FEDERAL ONSHORE OIL AND GAS LEASING AND PERMITTING PRACTICES.

(a) REVIEW OF ONSHORE OIL AND GAS LEASING PRACTICES.—

(1) IN GENERAL.—The Secretary of the Interior, in consultation with the Secretary of Agriculture with respect to National Forest System lands under the jurisdiction of the Department of Agriculture, shall perform an internal review of current Federal onshore oil and gas leasing and permitting practices.

(2) INCLUSIONS.—The review shall include the process for—

(A) accepting or rejecting offers to lease;

(B) administrative appeals of decisions or orders of officers or employees of the Bureau of Land Management with respect to a Federal oil or gas lease;

(C) considering surface use plans of operation, including the timeframes in which the plans are considered, and any recommendations for improving and expediting the process; and

(D) identifying stipulations to address site-specific concerns and conditions, including those stipulations relating to the environment and resource use conflicts.

(b) REPORT.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall transmit a report to Congress that describes—

(1) actions taken under section 3 of Executive Order No. 13212 (42 U.S.C. 13201 note); and

(2) actions taken or any plans to improve the Federal onshore oil and gas leasing program.

SEC. 343. MANAGEMENT OF FEDERAL OIL AND GAS LEASING PROGRAMS.

(a) Timely Action on Leases and Permits.—To ensure timely action on oil and gas leases and applications for permits to drill on land otherwise available for leasing, the Secretary of the Interior (in this section referred to as the "Secretary") shall—

(1) ensure expeditious compliance with section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C));

(2) improve consultation and coordination with the States and the public; and

(3) improve the collection, storage, and retrieval of information relating to the leasing activities.

(b) Best Management Practices.—

(1) In general.—Not later than 18 months after the date of enactment of this Act, the Secretary shall develop and implement best management practices to—

(A) improve the administration of the onshore oil and gas leasing program under the Mineral Leasing Act (30 U.S.C. 181 et seq.); and

(B) ensure timely action on oil and gas leases and applications for permits to drill on lands otherwise available for leasing.

(2) Considerations.—In developing the best management practices under paragraph (1), the Secretary shall consider any recommendations from the review under section 342.

(3) Regulations.—Not later than 180 days after the development of best management practices under paragraph (1), the Secretary shall publish, for public comment, proposed regulations that set forth specific timeframes for processing leases and applications in accordance with the practices, including deadlines for—

(A) approving or disapproving resource management plans and related documents, lease applications, and surface use plans; and

(B) related administrative appeals.

(c) Improved Enforcement.—The Secretary shall improve inspection and enforcement of oil and gas activities, including enforcement of terms and conditions in permits to drill.

(d) Authorization of Appropriations.—In addition to amounts authorized to be appropriated to carry out section 17 of the Mineral Leasing Act (30 U.S.C. 226), there are authorized to be appropriated to the Secretary for each of fiscal years 2004 through 2007—

(1) $40,000,000 to carry out subsections (a) and (b); and

(2) $20,000,000 to carry out subsection (c).

SEC. 344. CONSULTATION REGARDING OIL AND GAS LEASING ON PUBLIC LAND.

(a) In General.—Not later than 180 days after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall enter into a memorandum of understanding regarding oil and gas leasing on—

(1) public lands under the jurisdiction of the Secretary of the Interior; and

(2) National Forest System lands under the jurisdiction of the Secretary of Agriculture.

(b) Contents.—The memorandum of understanding shall include provisions that—

(1) establish administrative procedures and lines of authority that ensure timely processing of oil and gas lease applications, surface use plans of operation, and applications for permits to drill, including steps for processing surface use plans and applications for permits to drill consistent with the timelines established by the amendment made by section 348;

(2) eliminate duplication of effort by providing for coordination of planning and environmental compliance efforts; and

(3) ensure that lease stipulations are—

(A) applied consistently;

(B) coordinated between agencies; and

(C) only as restrictive as necessary to protect the resource for which the stipulations are applied.

(c) Data Retrieval System.—

(1) In general.—Not later than 1 year after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish a joint data retrieval system that is capable of—

(A) tracking applications and formal requests made in accordance with procedures of the Federal onshore oil and gas leasing program; and

(B) providing information regarding the status of the applications and requests within the Department of the Interior and the Department of Agriculture.

(2) Resource mapping.—Not later than 2 years after the date of enactment of this Act, the Secretary of the Interior and the Secretary of Agriculture shall establish a joint Geographic Information System mapping system for use in—

(A) tracking surface resource values to aid in resource management; and

(B) processing surface use plans of operation and applications for permits to drill.

SEC. 345. ESTIMATES OF OIL AND GAS RESOURCES UNDERLYING ONSHORE FEDERAL LAND.

(a) Assessment.—Section 604 of the Energy Act of 2000 (42 U.S.C. 6217) is amended—

(1) in subsection (a)—

(A) in paragraph (1)—

(i) by striking "reserve"; and

(ii) by striking "and" after the semicolon; and

(B) by striking paragraph (2) and inserting the following:

"(2) the extent and nature of any restrictions or impediments to the development of the resources, including—

"(A) impediments to the timely granting of leases;

"(B) post-lease restrictions, impediments, or delays on development for conditions of approval, applications for permits to drill, or processing of environmental permits; and

"(C) permits or restrictions associated with transporting the resources for entry into commerce; and

"(3) the quantity of resources not produced or introduced into commerce because of the restrictions.";

(2) in subsection (b)—

(A) by striking "reserve" and inserting "resource"; and

(B) by striking "publically" and inserting "publicly"; and

(3) by striking subsection (d) and inserting the following:

"(d) Assessments.—Using the inventory, the Secretary of Energy shall make periodic assessments of economically recoverable resources accounting for a range of parameters such as current costs, commodity prices, technology, and regulations.".

(b) Methodology.—The Secretary of the Interior shall use the same assessment methodology across all geological provinces, areas, and regions in preparing and issuing national geological assessments to ensure accurate comparisons of geological resources.

SEC. 346. COMPLIANCE WITH EXECUTIVE ORDER 13211; ACTIONS CONCERNING REGULATIONS THAT SIGNIFICANTLY AFFECT ENERGY SUPPLY, DISTRIBUTION, OR USE.

(a) Requirement.—The head of each Federal agency shall require that before the Federal agency takes any action that could have a significant adverse effect on the supply of domestic energy resources from Federal public land, the Federal agency taking the action shall comply with Executive Order No. 13211 (42 U.S.C. 13201 note).

(b) Guidance.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall publish guidance for purposes of this section describing what constitutes a significant adverse effect on the supply of domestic energy resources under Executive Order No. 13211 (42 U.S.C. 13201 note).

(c) Memorandum of Understanding.—The Secretary of the Interior and the Secretary of Agriculture shall include in the memorandum of understanding under section 344 provisions for implementing subsection (a) of this section.

SEC. 347. PILOT PROJECT TO IMPROVE FEDERAL PERMIT COORDINATION.

(a) Establishment.—The Secretary of the Interior (in this section referred to as the "Secretary") shall establish a Federal Permit Streamlining Pilot Project (in this section referred to as the "Pilot Project").

(b) Memorandum of Understanding.—

(1) In general.—Not later than 90 days after the date of enactment of this Act, the Secretary shall enter into a memorandum of understanding with the Secretary of Agriculture, the Administrator of the Environmental Protection Agency, and the Chief of Engineers of the Army Corps of Engineers for purposes of this section.

(2) State participation.—The Secretary may request that the Governors of Wyoming, Montana, Colorado, Utah, and New Mexico be signatories to the memorandum of understanding.

(c) Designation of Qualified Staff.—

(1) In general.—Not later than 30 days after the date of the signing of the memorandum of understanding under subsection (b), all Federal signatory parties shall assign to each of the field offices identified in subsection (d), on a nonreimbursable basis, an employee who has expertise in the regulatory issues relating to the office in which the employee is employed, including, as applicable, particular expertise in—

(A) the consultations and the preparation of biological opinions under section 7 of the Endangered Species Act of 1973 (16 U.S.C. 1536);

(B) permits under section 404 of Federal Water Pollution Control Act (33 U.S.C. 1344);

(C) regulatory matters under the Clean Air Act (42 U.S.C. 7401 et seq.);

(D) planning under the National Forest Management Act of 1976 (16 U.S.C. 472a et seq.); and

(E) the preparation of analyses under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) Duties.—Each employee assigned under paragraph (1) shall—

(A) not later than 90 days after the date of assignment, report to the Bureau of Land Management Field Managers in the office to which the employee is assigned;

(B) be responsible for all issues relating to the jurisdiction of the home office or agency of the employee; and

(C) participate as part of the team of personnel working on proposed energy projects, planning, and environmental analyses.

(d) Field Offices.—The following Bureau of Land Management Field Offices shall serve as the Pilot Project offices:

(1) Rawlins, Wyoming.

(2) Buffalo, Wyoming.

(3) Miles City, Montana

(4) Farmington, New Mexico.

(5) Carlsbad, New Mexico.

(6) Glenwood Springs, Colorado.

(7) Vernal, Utah.

(e) Reports.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report that—

(1) outlines the results of the Pilot Project to date; and

(2) makes a recommendation to the President regarding whether the Pilot Project should be implemented throughout the United States.

(f) Additional Personnel.—The Secretary shall assign to each field office identified in subsection (d) any additional personnel that are

necessary to ensure the effective implementation of—

(1) the Pilot Project; and

(2) other programs administered by the field offices, including inspection and enforcement relating to energy development on Federal land, in accordance with the multiple use mandate of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1701 et seq).

(g) Savings Provision.—Nothing in this section affects—

(1) the operation of any Federal or State law; or

(2) any delegation of authority made by the head of a Federal agency whose employees are participating in the Pilot Project.

SEC. 348. DEADLINE FOR CONSIDERATION OF APPLICATIONS FOR PERMITS.

Section 17 of the Mineral Leasing Act (30 U.S.C. 226) is amended by adding at the end the following:

"(p) Deadlines for Consideration of Applications for Permits.—

"(1) In general.—Not later than 10 days after the date on which the Secretary receives an application for any permit to drill, the Secretary shall—

"(A) notify the applicant that the application is complete; or

"(B) notify the applicant that information is missing and specify any information that is required to be submitted for the application to be complete.

"(2) Issuance or deferral.—Not later than 30 days after the applicant for a permit has submitted a complete application, the Secretary shall—

"(A) issue the permit; or

"(B)(i) defer decision on the permit; and

"(ii) provide to the applicant a notice that specifies any steps that the applicant could take for the permit to be issued.

"(3) Requirements for deferred applications.—

"(A) In general.—If the Secretary provides notice under paragraph (2)(B)(ii), the applicant shall have a period of 2 years from the date of receipt of the notice in which to complete all requirements specified by the Secretary, including providing information needed for compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

"(B) Issuance of decision on permit.—If the applicant completes the requirements within the period specified in subparagraph (A), the Secretary shall issue a decision on the permit not later than 10 days after the date of completion of the requirements described in subparagraph (A).

"(C) Denial of permit.—If the applicant does not complete the requirements within the period specified in subparagraph (A), the Secretary shall deny the permit.

"(q) Report.—On a quarterly basis, each field office of the Bureau of Land Management and the Forest Service shall transmit to the Secretary of the Interior or the Secretary of Agriculture, respectively, a report that—

"(1) specifies the number of applications for permits to drill received by the field office in the period covered by the report; and

"(2) describes how each of the applications was disposed of by the field office.".

SEC. 349. CLARIFICATION OF FAIR MARKET RENTAL VALUE DETERMINATIONS FOR PUBLIC LAND AND FOREST SERVICE RIGHTS-OF-WAY.

(a) Linear Rights-of-Way Under Federal Land Policy and Management Act of 1976.—Section 504 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764) is amended by adding at the end the following:

"(k) Determination of Fair Market Value of Linear Rights-of-Way.—

"(1) In general.—Effective beginning on the date of the issuance of the rules required by paragraph (2), for purposes of subsection (g), the Secretary concerned shall determine the fair market value for the use of land encumbered by a linear right-of-way granted, issued, or renewed under this title using the valuation method described in paragraphs (2), (3), and (4).

"(2) Revisions.—Not later than 1 year after the date of enactment of this subsection—

"(A) the Secretary of the Interior shall amend section 2803.1-2 of title 43, Code of Federal Regulations, as in effect on the date of enactment of this subsection, to revise the per acre rental fee zone value schedule by State, county, and type of linear right-of-way use to reflect current values of land in each zone; and

"(B) the Secretary of Agriculture shall make the same revision for linear rights-of-way granted, issued, or renewed under this title on National Forest System land.

"(3) Updates.—The Secretary concerned shall annually update the schedule revised under paragraph (2) by multiplying the current year's rental per acre by the annual change, second quarter to second quarter (June 30 to June 30) in the Gross National Product Implicit Price Deflator Index published in the Survey of Current Business of the Department of Commerce, Bureau of Economic Analysis.

"(4) Review.—If the cumulative change in the index referred to in paragraph (3) exceeds 30 percent, or the change in the 3-year average of the 1-year Treasury interest rate used to determine per acre rental fee zone values exceeds plus or minus 50 percent, the Secretary concerned shall conduct a review of the zones and rental per acre figures to determine whether the value of Federal land has differed sufficiently from the index referred to in paragraph (3) to warrant a revision in the base zones and rental per acre figures. If, as a result of the review, the Secretary concerned determines that such a revision is warranted, the Secretary concerned shall revise the base zones and rental per acre figures accordingly. Any revision of base zones and rental per acre figure shall only affect lease rental rates at inception or renewal.".

(b) Rights-of-Way Under Mineral Leasing Act.—Section 28(l) of the Mineral Leasing Act (30 U.S.C. 185(l)) is amended by inserting before the period at the end the following: "using the valuation method described in section 2803.1-2 of title 43, Code of Federal Regulations, as revised in accordance with section 504(k) of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1764(k))".

SEC. 350. ENERGY FACILITY RIGHTS-OF-WAY AND CORRIDORS ON FEDERAL LAND.

(a) Report to Congress.—

(1) In general.—Not later than 1 year after the date of enactment of this Act, the Secretary of Agriculture and the Secretary of the Interior, in consultation with the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Federal Energy Regulatory Commission, shall submit to Congress a joint report—

(A) that addresses—

(i) the location of existing rights-of-way and designated and de facto corridors for oil and gas pipelines and electric transmission and distribution facilities on Federal land; and

(ii) opportunities for additional oil and gas pipeline and electric transmission capacity within those rights-of-way and corridors; and

(B) that includes a plan for making available, on request, to the appropriate Federal, State, and local agencies, tribal governments, and other persons involved in the siting of oil and gas pipelines and electricity transmission facilities Geographic Information System-based information regarding the location of the existing rights-of-way and corridors and any planned rights-of-way and corridors.

(2) Consultations and considerations.—In preparing the report, the Secretary of the Interior and the Secretary of Agriculture shall consult with—

(A) other agencies of Federal, State, tribal, or local units of government, as appropriate;

(B) persons involved in the siting of oil and gas pipelines and electric transmission facilities; and

(C) other interested members of the public.

(3) Limitation.—The Secretary of the Interior and the Secretary of Agriculture shall limit the distribution of the report and Geographic Information System-based information referred to in paragraph (1) as necessary for national and infrastructure security reasons, if either Secretary determines that the information may be withheld from public disclosure under a national security or other exception under section 552(b) of title 5, United States Code.

(b) Corridor Designations.—

(1) 11 contiguous western states.—Not later than 2 years after the date of enactment of this Act, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall jointly—

(A) designate, under title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.) and other applicable Federal laws, corridors for oil and gas pipelines and electricity transmission and facilities on Federal land in the eleven contiguous Western States (as defined in section 103 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1702));

(B) perform any environmental reviews that may be required to complete the designations of corridors for the facilities on Federal land in the eleven contiguous Western States; and

(C) incorporate the designated corridors into—

(i) the relevant departmental and agency land use and resource management plans; or

(ii) equivalent plans.

(2) Other states.—Not later than 4 years after the date of enactment of this Act, the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall jointly—

(A) identify corridors for oil and gas pipelines and electricity transmission and distribution facilities on Federal land in the States other than those described in paragraph (1); and

(B) schedule prompt action to identify, designate, and incorporate the corridors into the land use plan.

(3) Ongoing responsibilities.—After completing the requirements under paragraphs (1) and (2), the Secretary of Agriculture, the Secretary of Commerce, the Secretary of Defense, the Secretary of Energy, and the Secretary of the Interior, with respect to lands under their respective jurisdictions, in consultation with the Federal Energy Regulatory Commission and the affected utility industries, shall establish procedures that—

(A) ensure that additional corridors for oil and gas pipelines and electricity transmission and distribution facilities on Federal land are promptly identified and designated; and

(B) expedite applications to construct or modify oil and gas pipelines and electricity transmission and distribution facilities within the corridors, taking into account prior analyses and environmental reviews undertaken during the designation of corridors.

(c) Considerations.—In carrying out this section, the Secretaries shall take into account the need for upgraded and new electricity transmission and distribution facilities to—

(1) improve reliability;

(2) relieve congestion; and

(3) enhance the capability of the national grid to deliver electricity.

(d) DEFINITION OF CORRIDOR.—

(1) IN GENERAL.—In this section and title V of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1761 et seq.), the term "corridor" means—

(A) a linear strip of land—

(i) with a width determined with consideration given to technological, environmental, and topographical factors; and

(ii) that contains, or may in the future contain, 1 or more utility, communication, or transportation facilities;

(B) a land use designation that is established—

(i) by law;

(ii) by Secretarial Order;

(iii) through the land use planning process; or

(iv) by other management decision; and

(C) a designation made for the purpose of establishing the preferred location of compatible linear facilities and land uses.

(2) SPECIFICATIONS OF CORRIDOR.—On designation of a corridor under this section, the centerline, width, and compatible uses of a corridor shall be specified.

SEC. 351. CONSULTATION REGARDING ENERGY RIGHTS-OF-WAY ON PUBLIC LAND.

(a) MEMORANDUM OF UNDERSTANDING.—

(1) IN GENERAL.—Not later than 6 months after the date of enactment of this Act, the Secretary of Energy, in consultation with the Secretary of the Interior, the Secretary of Agriculture, and the Secretary of Defense with respect to lands under their respective jurisdictions, shall enter into a memorandum of understanding to coordinate all applicable Federal authorizations and environmental reviews relating to a proposed or existing utility facility. To the maximum extent practicable under applicable law, the Secretary of Energy shall, to ensure timely review and permit decisions, coordinate such authorizations and reviews with any Indian tribes, multi-State entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the affected utility facility.

(2) CONTENTS.—The memorandum of understanding shall include provisions that—

(A) establish—

(i) a unified right-of-way application form; and

(ii) an administrative procedure for processing right-of-way applications, including lines of authority, steps in application processing, and timeframes for application processing;

(B) provide for coordination of planning relating to the granting of the rights-of-way;

(C) provide for an agreement among the affected Federal agencies to prepare a single environmental review document to be used as the basis for all Federal authorization decisions; and

(D) provide for coordination of use of right-of-way stipulations to achieve consistency.

(b) NATURAL GAS PIPELINES.—

(1) IN GENERAL.—With respect to permitting activities for interstate natural gas pipelines, the May 2002 document entitled "Interagency Agreement On Early Coordination Of Required Environmental And Historic Preservation Reviews Conducted In Conjunction With The Issuance Of Authorizations To Construct And Operate Interstate Natural Gas Pipelines Certificated By The Federal Energy Regulatory Commission" shall constitute compliance with subsection (a).

(2) REPORT.—

(A) IN GENERAL.—Not later than 1 year after the date of enactment of this Act, and every 2 years thereafter, agencies that are signatories to the document referred to in paragraph (1) shall transmit to Congress a report on how the agencies under the jurisdiction of the Secretaries are incorporating and implementing the provisions of the document referred to in paragraph (1).

(B) CONTENTS.—The report shall address—

(i) efforts to implement the provisions of the document referred to in paragraph (1);

(ii) whether the efforts have had a streamlining effect;

(iii) further improvements to the permitting process of the agency; and

(iv) recommendations for inclusion of State and tribal governments in a coordinated permitting process.

(c) DEFINITION OF UTILITY FACILITY.—In this section, the term "utility facility" means any privately, publicly, or cooperatively owned line, facility, or system—

(1) for the transportation of—

(A) oil, natural gas, synthetic liquid fuel, or gaseous fuel;

(B) any refined product produced from oil, natural gas, synthetic liquid fuel, or gaseous fuel; or

(C) products in support of the production of material referred to in subparagraph (A) or (B);

(2) for storage and terminal facilities in connection with the production of material referred to in paragraph (1); or

(3) for the generation, transmission, and distribution of electric energy.

SEC. 352. RENEWABLE ENERGY ON FEDERAL LAND.

(a) REPORT.—

(1) IN GENERAL.—Not later than 24 months after the date of enactment of this Act, the Secretary of the Interior, in cooperation with the Secretary of Agriculture, shall develop and transmit to Congress a report that includes recommendations on opportunities to develop renewable energy on—

(A) public lands under the jurisdiction of the Secretary of the Interior; and

(B) National Forest System lands under the jurisdiction of the Secretary of Agriculture.

(2) CONTENTS.—The report shall include—

(A) 5-year plans developed by the Secretary of the Interior and the Secretary of Agriculture, respectively, for encouraging the development of renewable energy consistent with applicable law and management plans;

(B) an analysis of—

(i) the use of rights-of-way, leases, or other methods to develop renewable energy on such lands;

(ii) the anticipated benefits of grants, loans, tax credits, or other provisions to promote renewable energy development on such lands; and

(iii) any issues that the Secretary of the Interior or the Secretary of Agriculture have encountered in managing renewable energy projects on such lands, believe are likely to arise in relation to the development of renewable energy on such lands;

(C) a list, developed in consultation with the Secretary of Energy and the Secretary of Defense, of lands under the jurisdiction of the Department of Energy or the Department of Defense that would be suitable for development for renewable energy, and any recommended statutory and regulatory mechanisms for such development; and

(D) any recommendations relating to the issues addressed in the report.

(b) NATIONAL ACADEMY OF SCIENCES STUDY.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Secretary of the Interior shall contract with the National Academy of Sciences to—

(A) study the potential for the development of wind, solar, and ocean energy (including tidal, wave, and thermal energy) on the outer Continental Shelf;

(B) assess existing Federal authorities for the development of such resources; and

(C) recommend statutory and regulatory mechanisms for such development.

(2) TRANSMITTAL.—The results of the study shall be transmitted to Congress not later than 2 years after the date of enactment of this Act.

(c) GENERATION CAPACITY OF ELECTRICITY FROM RENEWABLE ENERGY RESOURCES ON PUBLIC LAND.—The Secretary of the Interior shall, not later than 10 years after the date of enactment of this Act, seek to approve renewable energy projects located (or to be located) on public lands with a generation capacity of at least 10,000 megawatts of electricity.

SEC. 353. ELECTRICITY TRANSMISSION LINE RIGHT-OF-WAY, CLEVELAND NATIONAL FOREST AND ADJACENT PUBLIC LAND, CALIFORNIA.

(a) ISSUANCE.—

(1) IN GENERAL.—Not later than 60 days after the completion of the environmental reviews under subsection (c), the Secretary of the Interior and the Secretary of Agriculture shall issue all necessary grants, easements, permits, plan amendments, and other approvals to allow for the siting and construction of a high-voltage electricity transmission line right-of-way running approximately north to south through the Trabuco Ranger District of the Cleveland National Forest in the State of California and adjacent lands under the jurisdiction of the Bureau of Land Management and the Forest Service.

(2) INCLUSIONS.—The right-of-way approvals under paragraph (1) shall provide all necessary Federal authorization from the Secretary of the Interior and the Secretary of Agriculture for the routing, construction, operation, and maintenance of a 500-kilovolt transmission line capable of meeting the long-term electricity transmission needs of the region between the existing Valley-Serrano transmission line to the north and the Telega-Escondido transmission line to the south, and for connecting to future generating capacity that may be developed in the region.

(b) PROTECTION OF WILDERNESS AREAS.—The Secretary of the Interior and the Secretary of Agriculture shall not allow any portion of a transmission line right-of-way corridor identified in subsection (a) to enter any identified wilderness area in existence as of the date of enactment of this Act.

(c) ENVIRONMENTAL AND ADMINISTRATIVE REVIEWS.—

(1) DEPARTMENT OF INTERIOR OR LOCAL AGENCY.—The Secretary of the Interior, acting through the Director of the Bureau of Land Management, shall be the lead Federal agency with overall responsibility to ensure completion of required environmental and other reviews of the approvals to be issued under subsection (a).

(2) NATIONAL FOREST SYSTEM LAND.—For the portions of the corridor on National Forest System lands, the Secretary of Agriculture shall complete all required environmental reviews and administrative actions in coordination with the Secretary of the Interior.

(3) EXPEDITIOUS COMPLETION.—The reviews required for issuance of the approvals under subsection (a) shall be completed not later than 1 year after the date of the enactment of this Act.

(d) OTHER TERMS AND CONDITIONS.—The transmission line right-of-way shall be subject to such terms and conditions as the Secretary of the Interior and the Secretary of Agriculture consider necessary, based on the environmental reviews under subsection (c), to protect the value of historic, cultural, and natural resources under the jurisdiction of the Secretary of the Interior or the Secretary of Agriculture.

(e) PREFERENCE AMONG PROPOSALS.—The Secretary of the Interior and the Secretary of Agriculture shall give a preference to any application or preapplication proposal for a transmission line right-of-way referred to in subsection (a) that was submitted before December 31, 2002, over all other applications and proposals for the same or a similar right-of-way submitted on or after that date.

SEC. 354. SENSE OF CONGRESS REGARDING DEVELOPMENT OF MINERALS UNDER PADRE ISLAND NATIONAL SEASHORE.

(a) FINDINGS.—Congress finds the following:

(1) Pursuant to Public Law 87–712 (16 U.S.C. 459d et seq.; popularly known as the "Federal Enabling Act") and various deeds and actions under that Act, the United States is the owner of only the surface estate of certain lands constituting the Padre Island National Seashore.

(2) Ownership of the oil, gas, and other minerals in the subsurface estate of the lands constituting the Padre Island National Seashore was never acquired by the United States, and ownership of those interests is held by the State of Texas and private parties.

(3) Public Law 87–712 (16 U.S.C. 459d et seq.)—

(A) expressly contemplated that the United States would recognize the ownership and future development of the oil, gas, and other minerals in the subsurface estate of the lands constituting the Padre Island National Seashore by the owners and their mineral lessees; and

(B) recognized that approval of the State of Texas was required to create Padre Island National Seashore.

(4) Approval was given for the creation of Padre Island National Seashore by the State of Texas through Tex. Rev. Civ. Stat. Ann. Art. 6077(t) (Vernon 1970), which expressly recognized that development of the oil, gas, and other minerals in the subsurface of the lands constituting Padre Island National Seashore would be conducted with full rights of ingress and egress under the laws of the State of Texas.

(b) SENSE OF CONGRESS.—It is the sense of Congress that with regard to Federal law, any regulation of the development of oil, gas, or other minerals in the subsurface of the lands constituting Padre Island National Seashore should be made as if those lands retained the status that the lands had on September 27, 1962.

SEC. 355. ENCOURAGING PROHIBITION OF OFFSHORE DRILLING IN THE GREAT LAKES.

Congress encourages—

(1) the States of Illinois, Michigan, New York, Pennsylvania, and Wisconsin to continue to prohibit offshore drilling in the Great Lakes for oil and gas; and

(2) the States of Indiana, Minnesota, and Ohio to enact a prohibition of such drilling.

SEC. 356. FINGER LAKES NATIONAL FOREST WITHDRAWAL.

All Federal land within the boundary of Finger Lakes National Forest in the State of New York is withdrawn from—

(1) all forms of entry, appropriation, or disposal under the public land laws; and

(2) disposition under all laws relating to oil and gas leasing.

SEC. 357. STUDY ON LEASE EXCHANGES IN THE ROCKY MOUNTAIN FRONT.

(a) DEFINITIONS.—For the purposes of this section:

(1) BADGER-TWO MEDICINE AREA.—The term "Badger-Two Medicine Area" means the Forest Service land located in—

(A) T. 31 N., R. 12–13 W.;

(B) T. 30 N., R. 11–13 W.;

(C) T. 29 N., R. 10–16 W.; and

(D) T. 28 N., R. 10–14 W.

(2) BLACKLEAF AREA.—The term "Blackleaf Area" means the Federal land owned by the Forest Service and Bureau of Land Management that is located in—

(A) T. 27 N., R. 9 W.;

(B) T. 26 N., R. 9–10 W.;

(C) T. 25 N., R. 8–10 W.; and

(D) T. 24 N., R. 8–9 W.

(3) ELIGIBLE LESSEE.—The term "eligible lessee" means a lessee under a nonproducing lease.

(4) NONPRODUCING LEASE.—The term "nonproducing lease" means a Federal oil or gas lease—

(A) that is in existence and in good standing on the date of enactment of this Act; and

(B) that is located in the Badger-Two Medicine Area or the Blackleaf Area.

(5) SECRETARY.—The term "Secretary" means the Secretary of the Interior.

(6) STATE.—The term "State" means the State of Montana.

(b) EVALUATION.—

(1) IN GENERAL.—The Secretary, in consultation with the Governor of the State, and the eligible lessees, shall evaluate opportunities for domestic oil and gas production through the exchange of the nonproducing leases.

(2) REQUIREMENTS.—In carrying out the evaluation under subsection (a), the Secretary shall—

(A) consider opportunities for domestic production of oil and gas through—

(i) the exchange of the nonproducing leases for oil and gas lease tracts of comparable value in the State; and

(ii) the issuance of bidding, royalty, or rental credits for Federal oil and gas leases in the State in exchange for the cancellation of the nonproducing leases;

(B) consider any other appropriate means to exchange, or provide compensation for the cancellation of, nonproducing leases, subject to the consent of the eligible lessees;

(C) consider the views of any interested persons, including the State;

(D) determine the level of interest of the eligible lessees in exchanging the nonproducing leases;

(E) assess the economic impact on the lessees and the State of lease exchange, lease cancellation, and final judicial or administrative decisions related to the nonproducing leases; and

(F) provide recommendations on—

(i) whether to pursue an exchange of the nonproducing leases;

(ii) any changes in laws (including regulations) that are necessary for the Secretary to carry out the exchange; and

(iii) any other appropriate means to exchange or provide compensation for the cancellation of a nonproducing lease, subject to the consent of the eligible lessee.

(c) VALUATION OF NONPRODUCING LEASES.—For the purpose of the evaluation under subsection (a), the value of a nonproducing lease shall be an amount equal to the difference between—

(1) the sum of—

(A) the amount paid by the eligible lessee for the nonproducing lease;

(B) any direct expenditures made by the eligible lessee before the transmittal of the report in subsection (c) associated with the exploration and development of the nonproducing lease; and

(C) interest on any amounts under subparagraphs (A) and (B) during the period beginning on the date on which the amount was paid and ending on the date on which credits are issued under subsection (b)(2)(A)(ii); and

(2) the sum of the revenues from the nonproducing lease.

(d) REPORT TO CONGRESS.—Not later than 2 years after the date of the enactment of this Act, the Secretary shall initiate the evaluation in subsection (b) and transmit to Congress a report on the evaluation.

SEC. 358. FEDERAL COALBED METHANE REGULATION.

Any State currently on the list of Affected States established under section 1339(b) of the Energy Policy Act of 1992 (42 U.S.C. 13368(b)) shall be removed from the list if, not later than 3 years after the date of enactment of this Act, the State takes, or prior to the date of enactment has taken, any of the actions required for removal from the list under such section 1339(b).

SEC. 359. LIVINGSTON PARISH MINERAL RIGHTS TRANSFER.

(a) AMENDMENTS.—Section 102 of Public Law 102–562 (106 Stat. 4234) is amended—

(1) by striking "(a) IN GENERAL.—";

(2) by striking "and subject to the reservation in subsection (b),"; and

(3) by striking subsection (b).

(b) IMPLEMENTATION OF AMENDMENT.—The Secretary of the Interior shall execute the legal instruments necessary to effectuate the amendment made by subsection (a)(3).

Subtitle D—Alaska Natural Gas Pipeline

SEC. 371. SHORT TITLE.

This subtitle may be cited as the "Alaska Natural Gas Pipeline Act".

SEC. 372. DEFINITIONS.

In this subtitle:

(1) ALASKA NATURAL GAS.—The term "Alaska natural gas" means natural gas derived from the area of the State of Alaska lying north of 64 degrees north latitude.

(2) ALASKA NATURAL GAS TRANSPORTATION PROJECT.—The term "Alaska natural gas transportation project" means any natural gas pipeline system that carries Alaska natural gas to the border between Alaska and Canada (including related facilities subject to the jurisdiction of the Commission) that is authorized under—

(A) the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.); or

(B) section 373.

(3) ALASKA NATURAL GAS TRANSPORTATION SYSTEM.—The term "Alaska natural gas transportation system" means the Alaska natural gas transportation project authorized under the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.) and designated and described in section 2 of the President's decision.

(4) COMMISSION.—The term "Commission" means the Federal Energy Regulatory Commission.

(5) FEDERAL COORDINATOR.—The term "Federal Coordinator" means the head of the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects established by section 376(a).

(6) PRESIDENT'S DECISION.—The term "President's decision" means the decision and report to Congress on the Alaska natural gas transportation system—

(A) issued by the President on September 22, 1977, in accordance with section 7 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719e); and

(B) approved by Public Law 95–158 (15 U.S.C. 719f note; 91 Stat. 1268).

(7) SECRETARY.—The term "Secretary" means the Secretary of Energy.

(8) STATE.—The term "State" means the State of Alaska.

SEC. 373. ISSUANCE OF CERTIFICATE OF PUBLIC CONVENIENCE AND NECESSITY.

(a) AUTHORITY OF THE COMMISSION.—Notwithstanding the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.), the Commission may, in accordance with section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)), consider and act on an application for the issuance of a certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project other than the Alaska natural gas transportation system.

(b) ISSUANCE OF CERTIFICATE.—

(1) IN GENERAL.—The Commission shall issue a certificate of public convenience and necessity

authorizing the construction and operation of an Alaska natural gas transportation project under this section if the applicant has satisfied the requirements of section 7(e) of the Natural Gas Act (15 U.S.C. 717f(e)).

(2) Considerations.—In considering an application under this section, the Commission shall presume that—

(A) a public need exists to construct and operate the proposed Alaska natural gas transportation project; and

(B) sufficient downstream capacity will exist to transport the Alaska natural gas moving through the project to markets in the contiguous United States.

(c) Expedited Approval Process.—Not later than 60 days after the date of issuance of the final environmental impact statement under section 374 for an Alaska natural gas transportation project, the Commission shall issue a final order granting or denying any application for a certificate of public convenience and necessity for the project under section 7(c) of the Natural Gas Act (15 U.S.C. 717f(c)) and this section.

(d) Prohibition of Certain Pipeline Route.—No license, permit, lease, right-of-way, authorization, or other approval required under Federal law for the construction of any pipeline to transport natural gas from land within the Prudhoe Bay oil and gas lease area may be granted for any pipeline that follows a route that—

(1) traverses land beneath navigable waters (as defined in section 2 of the Submerged Lands Act (43 U.S.C. 1301)) beneath, or the adjacent shoreline of, the Beaufort Sea; and

(2) enters Canada at any point north of 68 degrees north latitude.

(e) Open Season.—

(1) In general.—Not later than 120 days after the date of enactment of this Act, the Commission shall issue regulations governing the conduct of open seasons for Alaska natural gas transportation projects (including procedures for the allocation of capacity).

(2) Regulations.—The regulations referred to in paragraph (1) shall—

(A) include the criteria for and timing of any open seasons;

(B) promote competition in the exploration, development, and production of Alaska natural gas; and

(C) for any open season for capacity exceeding the initial capacity, provide the opportunity for the transportation of natural gas other than from the Prudhoe Bay and Point Thomson units.

(3) Applicability.—Except in a case in which an expansion is ordered in accordance with section 375, initial or expansion capacity on any Alaska natural gas transportation project shall be allocated in accordance with procedures to be established by the Commission in regulations issued under paragraph (1).

(f) Projects in the Contiguous United States.—

(1) In general.—An application for additional or expanded pipeline facilities that may be required to transport Alaska natural gas from Canada to markets in the contiguous United States may be made in accordance with the Natural Gas Act (15 U.S.C. 717a et seq.).

(2) Expansion.—To the extent that a pipeline facility described in paragraph (1) includes the expansion of any facility constructed in accordance with the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719 et seq.), that Act shall continue to apply.

(g) Study of In-State Needs.—The holder of the certificate of public convenience and necessity issued, modified, or amended by the Commission for an Alaska natural gas transportation project shall demonstrate that the holder has conducted a study of Alaska in-State needs, including tie-in points along the Alaska natural gas transportation project for in-State access.

(h) Alaska Royalty Gas.—

(1) In general.—Except as provided in paragraph (2), the Commission, on a request by the State and after a hearing, may provide for reasonable access to the Alaska natural gas transportation project by the State (or State designee) for the transportation of royalty gas of the State for the purpose of meeting local consumption needs within the State.

(2) Exception.—The rates of shippers of subscribed capacity on an Alaska natural gas transportation project described in paragraph (1), as in effect as of the date on which access under that paragraph is granted, shall not be increased as a result of such access.

(i) Regulations.—The Commission may issue such regulations as are necessary to carry out this section.

SEC. 374. ENVIRONMENTAL REVIEWS.

(a) Compliance With NEPA.—The issuance of a certificate of public convenience and necessity authorizing the construction and operation of any Alaska natural gas transportation project under section 373 shall be treated as a major Federal action significantly affecting the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)).

(b) Designation of Lead Agency.—

(1) In general.—The Commission—

(A) shall be the lead agency for purposes of complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.); and

(B) shall be responsible for preparing the environmental impact statement required by section 102(2)(c) of that Act (42 U.S.C. 4332(2)(c)) with respect to an Alaska natural gas transportation project under section 373.

(2) Consolidation of statements.—In carrying out paragraph (1), the Commission shall prepare a single environmental impact statement, which shall consolidate the environmental reviews of all Federal agencies considering any aspect of the Alaska natural gas transportation project covered by the environmental impact statement.

(c) Other Agencies.—

(1) In general.—Each Federal agency considering an aspect of the construction and operation of an Alaska natural gas transportation project under section 373 shall—

(A) cooperate with the Commission; and

(B) comply with deadlines established by the Commission in the preparation of the environmental impact statement under this section.

(2) Satisfaction of NEPA requirements.—The environmental impact statement prepared under this section shall be adopted by each Federal agency described in paragraph (1) in satisfaction of the responsibilities of the Federal agency under section 102(2)(C) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)(C)) with respect to the Alaska natural gas transportation project covered by the environmental impact statement.

(d) Expedited Process.—The Commission shall—

(1) not later than 1 year after the Commission determines that the application under section 373 with respect to an Alaska natural gas transportation project is complete, issue a draft environmental impact statement under this section; and

(2) not later than 180 days after the date of issuance of the draft environmental impact statement, issue a final environmental impact statement, unless the Commission for good cause determines that additional time is needed.

SEC. 375. PIPELINE EXPANSION.

(a) Authority.—With respect to any Alaska natural gas transportation project, on a request by 1 or more persons and after giving notice and an opportunity for a hearing, the Commission may order the expansion of the Alaska natural gas project if the Commission determines that such an expansion is required by the present and future public convenience and necessity.

(b) Responsibilities of Commission.—Before ordering an expansion under subsection (a), the Commission shall—

(1) approve or establish rates for the expansion service that are designed to ensure the recovery, on an incremental or rolled-in basis, of the cost associated with the expansion (including a reasonable rate of return on investment);

(2) ensure that the rates do not require existing shippers on the Alaska natural gas transportation project to subsidize expansion shippers;

(3) find that a proposed shipper will comply with, and the proposed expansion and the expansion of service will be undertaken and implemented based on, terms and conditions consistent with the tariff of the Alaska natural gas transportation project in effect as of the date of the expansion;

(4) find that the proposed facilities will not adversely affect the financial or economic viability of the Alaska natural gas transportation project;

(5) find that the proposed facilities will not adversely affect the overall operations of the Alaska natural gas transportation project;

(6) find that the proposed facilities will not diminish the contract rights of existing shippers to previously subscribed certificated capacity;

(7) ensure that all necessary environmental reviews have been completed; and

(8) find that adequate downstream facilities exist or are expected to exist to deliver incremental Alaska natural gas to market.

(c) Requirement for a Firm Transportation Agreement.—Any order of the Commission issued in accordance with this section shall be void unless the person requesting the order executes a firm transportation agreement with the Alaska natural gas transportation project within such reasonable period of time as the order may specify.

(d) Limitation.—Nothing in this section expands or otherwise affects any authority of the Commission with respect to any natural gas pipeline located outside the State.

(e) Regulations.—The Commission may issue such regulations as are necessary to carry out this section.

SEC. 376. FEDERAL COORDINATOR.

(a) Establishment.—There is established, as an independent office in the executive branch, the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects.

(b) Federal Coordinator.—

(1) Appointment.—The Office shall be headed by a Federal Coordinator for Alaska Natural Gas Transportation Projects, who shall be appointed by the President, by and with the advice and consent of the Senate, to serve a term to last until 1 year following the completion of the project referred to in section 373.

(2) Compensation.—The Federal Coordinator shall be compensated at the rate prescribed for level III of the Executive Schedule (5 U.S.C. 5314).

(c) Duties.—The Federal Coordinator shall be responsible for—

(1) coordinating the expeditious discharge of all activities by Federal agencies with respect to an Alaska natural gas transportation project; and

(2) ensuring the compliance of Federal agencies with the provisions of this subtitle.

(d) Reviews and Actions of Other Federal Agencies.—

(1) Expedited reviews and actions.—All reviews conducted and actions taken by any Federal agency relating to an Alaska natural gas

transportation project authorized under this section shall be expedited, in a manner consistent with completion of the necessary reviews and approvals by the deadlines under this subtitle.

(2) PROHIBITION OF CERTAIN TERMS AND CONDITIONS.—No Federal agency may include in any certificate, right-of-way, permit, lease, or other authorization issued to an Alaska natural gas transportation project any term or condition that may be permitted, but is not required, by any applicable law if the Federal Coordinator determines that the term or condition would prevent or impair in any significant respect the expeditious construction and operation, or an expansion, of the Alaska natural gas transportation project.

(3) PROHIBITION OF CERTAIN ACTIONS.—Unless required by law, no Federal agency shall add to, amend, or abrogate any certificate, right-of-way, permit, lease, or other authorization issued to an Alaska natural gas transportation project if the Federal Coordinator determines that the action would prevent or impair in any significant respect the expeditious construction and operation, or an expansion, of the Alaska natural gas transportation project.

(4) LIMITATION.—The Federal Coordinator shall not have authority to—

(A) override—

(i) the implementation or enforcement of regulations issued by the Commission under section 373; or

(ii) an order by the Commission to expand the project under section 375; or

(B) impose any terms, conditions, or requirements in addition to those imposed by the Commission or any agency with respect to construction and operation, or an expansion of, the project.

(e) STATE COORDINATION.—

(1) IN GENERAL.—The Federal Coordinator and the State shall enter into a joint surveillance and monitoring agreement similar to the agreement in effect during construction of the Trans-Alaska Pipeline, to be approved by the President and the Governor of the State, for the purpose of monitoring the construction of the Alaska natural gas transportation project.

(2) PRIMARY RESPONSIBILITY.—With respect to an Alaska natural gas transportation project—

(A) the Federal Government shall have primary surveillance and monitoring responsibility in areas where the Alaska natural gas transportation project crosses Federal land or private land; and

(B) the State government shall have primary surveillance and monitoring responsibility in areas where the Alaska natural gas transportation project crosses State land.

(f) TRANSFER OF FEDERAL INSPECTOR FUNCTIONS AND AUTHORITY.—On appointment of the Federal Coordinator by the President, all of the functions and authority of the Office of Federal Inspector of Construction for the Alaska Natural Gas Transportation System vested in the Secretary under section 3012(b) of the Energy Policy Act of 1992 (15 U.S.C. 719e note; Public Law 102–486), including all functions and authority described and enumerated in the Reorganization Plan No. 1 of 1979 (44 Fed. Reg. 33663), Executive Order No. 12142 of June 21, 1979 (44 Fed. Reg. 36927), and section 5 of the President's decision, shall be transferred to the Federal Coordinator.

(g) TEMPORARY AUTHORITY.—The functions, authorities, duties, and responsibilities of the Federal Coordinator shall be vested in the Secretary until the later of the appointment of the Federal Coordinator by the President, or 18 months after the date of enactment of this Act.

SEC. 377. JUDICIAL REVIEW.

(a) EXCLUSIVE JURISDICTION.—Except for review by the Supreme Court on writ of certiorari, the United States Court of Appeals for the District of Columbia Circuit shall have original and exclusive jurisdiction to determine—

(1) the validity of any final order or action (including a failure to act) of any Federal agency or officer under this subtitle;

(2) the constitutionality of any provision of this subtitle, or any decision made or action taken under this subtitle; or

(3) the adequacy of any environmental impact statement prepared under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) with respect to any action under this subtitle.

(b) DEADLINE FOR FILING CLAIM.—A claim arising under this subtitle may be brought not later than 60 days after the date of the decision or action giving rise to the claim.

(c) EXPEDITED CONSIDERATION.—The United States Court of Appeals for the District of Columbia Circuit shall set any action brought under subsection (a) for expedited consideration, taking into account the national interest of enhancing national energy security by providing access to the significant gas reserves in Alaska needed to meet the anticipated demand for natural gas.

(d) AMENDMENT OF THE ALASKA NATURAL GAS TRANSPORTATION ACT OF 1976.—Section 10(c) of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719h) is amended—

(1) by striking "(c)(1) A claim" and inserting the following:

"(c) JURISDICTION.—

"(1) SPECIAL COURTS.—

"(A) IN GENERAL.—A claim";

(2) by striking "Such court shall have" and inserting the following:

"(B) EXCLUSIVE JURISDICTION.—The Special Court shall have";

(3) by inserting after paragraph (1) the following:

"(2) EXPEDITED CONSIDERATION.—The Special Court shall set any action brought under this section for expedited consideration, taking into account the national interest described in section 2."; and

(4) in paragraph (3), by striking "(3) The enactment" and inserting the following:

"(3) ENVIRONMENTAL IMPACT STATEMENTS.—The enactment".

SEC. 378. STATE JURISDICTION OVER IN-STATE DELIVERY OF NATURAL GAS.

(a) LOCAL DISTRIBUTION.—Any facility receiving natural gas from an Alaska natural gas transportation project for delivery to consumers within the State—

(1) shall be deemed to be a local distribution facility within the meaning of section 1(b) of the Natural Gas Act (15 U.S.C. 717(b)); and

(2) shall not be subject to the jurisdiction of the Commission.

(b) ADDITIONAL PIPELINES.—Except as provided in section 373(d), nothing in this subtitle shall preclude or otherwise affect a future natural gas pipeline that may be constructed to deliver natural gas to Fairbanks, Anchorage, Matanuska-Susitna Valley, or the Kenai peninsula or Valdez or any other site in the State for consumption within or distribution outside the State.

(c) RATE COORDINATION.—

(1) IN GENERAL.—In accordance with the Natural Gas Act (15 U.S.C. 717a et seq.), the Commission shall establish rates for the transportation of natural gas on any Alaska natural gas transportation project.

(2) CONSULTATION.—In carrying out paragraph (1), the Commission, in accordance with section 17(b) of the Natural Gas Act (15 U.S.C. 717p(b)), shall consult with the State regarding rates (including rate settlements) applicable to natural gas transported on and delivered from the Alaska natural gas transportation project for use within the State.

SEC. 379. STUDY OF ALTERNATIVE MEANS OF CONSTRUCTION.

(a) REQUIREMENT OF STUDY.—If no application for the issuance of a certificate or amended certificate of public convenience and necessity authorizing the construction and operation of an Alaska natural gas transportation project has been filed with the Commission by the date that is 18 months after the date of enactment of this Act, the Secretary shall conduct a study of alternative approaches to the construction and operation of such an Alaska natural gas transportation project.

(b) SCOPE OF STUDY.—The study under subsection (a) shall take into consideration the feasibility of—

(1) establishing a Federal Government corporation to construct an Alaska natural gas transportation project; and

(2) securing alternative means of providing Federal financing and ownership (including alternative combinations of Government and private corporate ownership) of the Alaska natural gas transportation project.

(c) CONSULTATION.—In conducting the study under subsection (a), the Secretary shall consult with the Secretary of the Treasury and the Secretary of the Army (acting through the Chief of Engineers).

(d) REPORT.—On completion of any study under subsection (a), the Secretary shall submit to Congress a report that describes—

(1) the results of the study; and

(2) any recommendations of the Secretary (including proposals for legislation to implement the recommendations).

SEC. 380. CLARIFICATION OF ANGTA STATUS AND AUTHORITIES.

(a) SAVINGS CLAUSE.—Nothing in this subtitle affects—

(1) any decision, certificate, permit, right-of-way, lease, or other authorization issued under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g); or

(2) any Presidential finding or waiver issued in accordance with that Act.

(b) CLARIFICATION OF AUTHORITY TO AMEND TERMS AND CONDITIONS TO MEET CURRENT PROJECT REQUIREMENTS.—Any Federal agency responsible for granting or issuing any certificate, permit, right-of-way, lease, or other authorization under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) may add to, amend, or rescind any term or condition included in the certificate, permit, right-of-way, lease, or other authorization to meet current project requirements (including the physical design, facilities, and tariff specifications), if the addition, amendment, or rescision—

(1) would not compel any change in the basic nature and general route of the Alaska natural gas transportation system as designated and described in section 2 of the President's decision; or

(2) would not otherwise prevent or impair in any significant respect the expeditious construction and initial operation of the Alaska natural gas transportation system.

(c) UPDATED ENVIRONMENTAL REVIEWS.—The Secretary shall require the sponsor of the Alaska natural gas transportation system to submit such updated environmental data, reports, permits, and impact analyses as the Secretary determines are necessary to develop detailed terms, conditions, and compliance plans required by section 5 of the President's decision.

SEC. 381. SENSE OF CONGRESS CONCERNING USE OF STEEL MANUFACTURED IN NORTH AMERICA NEGOTIATION OF A PROJECT LABOR AGREEMENT.

It is the sense of Congress that—

(1) an Alaska natural gas transportation project would provide significant economic benefits to the United States and Canada; and

(2) to maximize those benefits, the sponsors of the Alaska natural gas transportation project should make every effort to—

(A) use steel that is manufactured in North America; and

(B) negotiate a project labor agreement to expedite construction of the pipeline.

SEC. 382. SENSE OF CONGRESS AND STUDY CONCERNING PARTICIPATION BY SMALL BUSINESS CONCERNS.

(a) DEFINITION OF SMALL BUSINESS CONCERN.—In this section, the term "small business concern" has the meaning given the term in section 3(a) of the Small Business Act (15 U.S.C. 632(a)).

(b) SENSE OF CONGRESS.—It is the sense of Congress that—

(1) an Alaska natural gas transportation project would provide significant economic benefits to the United States and Canada; and

(2) to maximize those benefits, the sponsors of the Alaska natural gas transportation project should maximize the participation of small business concerns in contracts and subcontracts awarded in carrying out the project.

(c) STUDY.—

(1) IN GENERAL.—The Comptroller General of the United States shall conduct a study to determine the extent to which small business concerns participate in the construction of oil and gas pipelines in the United States.

(2) REPORT.—Not later that 1 year after the date of enactment of this Act, the Comptroller General shall submit to Congress a report that describes results of the study under paragraph (1).

(3) UPDATES.—The Comptroller General shall—

(A) update the study at least once every 5 years until construction of an Alaska natural gas transportation project is completed; and

(B) on completion of each update, submit to Congress a report containing the results of the update.

SEC. 383. ALASKA PIPELINE CONSTRUCTION TRAINING PROGRAM.

(a) PROGRAM.—

(1) ESTABLISHMENT.—The Secretary of Labor (in this section referred to as the "Secretary") shall make grants to the Alaska Workforce Investment Board—

(A) to recruit and train adult and dislocated workers in Alaska, including Alaska Natives, in the skills required to construct and operate an Alaska gas pipeline system; and

(B) for the design and construction of a training facility to be located in Fairbanks, Alaska, to support an Alaska gas pipeline training program.

(2) COORDINATION WITH EXISTING PROGRAMS.—The training program established with the grants authorized under paragraph (1) shall be consistent with the vision and goals set forth in the State of Alaska Unified Plan, as developed pursuant to the Workforce Investment Act of 1998 (29 U.S.C. 2801 et seq.).

(b) REQUIREMENTS FOR GRANTS.—The Secretary shall make a grant under subsection (a) only if—

(1) the Governor of the State of Alaska requests the grant funds and certifies in writing to the Secretary that there is a reasonable expectation that the construction of the Alaska natural gas pipeline system will commence by the date that is 2 years after the date of the certification; and

(2) the Secretary of Energy concurs in writing to the Secretary with the certification made under paragraph (1) after considering—

(A) the status of necessary Federal and State permits;

(B) the availability of financing for the Alaska natural gas pipeline project; and

(C) other relevant factors.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $20,000,000. Not more than 15 percent of the funds may be used for the facility described in subsection (a)(1)(B).

SEC. 384. SENSE OF CONGRESS CONCERNING NATURAL GAS DEMAND.

It is the sense of Congress that—

(1) North American demand for natural gas will increase dramatically over the course of the next several decades;

(2) both the Alaska Natural Gas Pipeline and the Mackenzie Delta Natural Gas project in Canada will be necessary to help meet the increased demand for natural gas in North America;

(3) Federal and State officials should work together with officials in Canada to ensure both projects can move forward in a mutually beneficial fashion;

(4) Federal and State officials should acknowledge that the smaller scope, fewer permitting requirements, and lower cost of the Mackenzie Delta project means it will most likely be completed before the Alaska Natural Gas Pipeline;

(5) natural gas production in the 48 contiguous States and Canada will not be able to meet all domestic demand in the coming decades; and

(6) as a result, natural gas delivered from Alaskan North Slope will not displace or reduce the commercial viability of Canadian natural gas produced from the Mackenzie Delta or production from the 48 contiguous States.

SEC. 385. SENSE OF CONGRESS CONCERNING ALASKAN OWNERSHIP.

It is the sense of Congress that—

(1) Alaska Native Regional Corporations, companies owned and operated by Alaskans, and individual Alaskans should have the opportunity to own shares of the Alaska natural gas pipeline in a way that promotes economic development for the State; and

(2) to facilitate economic development in the State, all project sponsors should negotiate in good faith with any willing Alaskan person that desires to be involved in the project.

SEC. 386. LOAN GUARANTEES.

(a) AUTHORITY.—(1) The Secretary may enter into agreements with 1 or more holders of a certificate of public convenience and necessity issued under section 373(b) of this Act or section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) to issue Federal guarantee instruments with respect to loans and other debt obligations for a qualified infrastructure project.

(2) Subject to the requirements of this section, the Secretary may also enter into agreements with 1 or more owners of the Canadian portion of a qualified infrastructure project to issue Federal guarantee instruments with respect to loans and other debt obligations for a qualified infrastructure project as though such owner were a holder described in paragraph (1).

(3) The authority of the Secretary to issue Federal guarantee instruments under this section for a qualified infrastructure project shall expire on the date that is 2 years after the date on which the final certificate of public convenience and necessity (including any Canadian certificates of public convenience and necessity) is issued for the project. A final certificate shall be considered to have been issued when all certificates of public convenience and necessity have been issued that are required for the initial transportation of commercially economic quantities of natural gas from Alaska to the continental United States.

(b) CONDITIONS.—(1) The Secretary may issue a Federal guarantee instrument for a qualified infrastructure project only after a certificate of public convenience and necessity under section 373(b) of this Act or an amended certificate under section 9 of the Alaska Natural Gas Transportation Act of 1976 (15 U.S.C. 719g) has been issued for the project.

(2) The Secretary may issue a Federal guarantee instrument under this section for a qualified infrastructure project only if the loan or other debt obligation guaranteed by the instrument has been issued by an eligible lender.

(3) The Secretary shall not require as a condition of issuing a Federal guarantee instrument under this section any contractual commitment or other form of credit support of the sponsors (other than equity contribution commitments and completion guarantees), or any throughput or other guarantee from prospective shippers greater than such guarantees as shall be required by the project owners.

(c) LIMITATIONS ON AMOUNTS.—(1) The amount of loans and other debt obligations guaranteed under this section for a qualified infrastructure project shall not exceed 80 percent of the total capital costs of the project, including interest during construction.

(2) The principal amount of loans and other debt obligations guaranteed under this section shall not exceed, in the aggregate, $18,000,000,000, which amount shall be indexed for United States dollar inflation from the date of enactment of this Act, as measured by the Consumer Price Index.

(d) LOAN TERMS AND FEES.—(1) The Secretary may issue Federal guarantee instruments under this section that take into account repayment profiles and grace periods justified by project cash flows and project-specific considerations. The term of any loan guaranteed under this section shall not exceed 30 years.

(2) An eligible lender may assess and collect from the borrower such other fees and costs associated with the application and origination of the loan or other debt obligation as are reasonable and customary for a project finance transaction in the oil and gas sector.

(e) REGULATIONS.—The Secretary may issue regulations to carry out this section.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated such sums as may be necessary to cover the cost of loan guarantees under this section, as defined by section 502(5) of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a(5)). Such sums shall remain available until expended.

(g) DEFINITIONS.—In this section, the following definitions apply:

(1) The term "Consumer Price Index" means the Consumer Price Index for all-urban consumers, United States city average, as published by the Bureau of Labor Statistics, or if such index shall cease to be published, any successor index or reasonable substitute thereof.

(2) The term "eligible lender" means any non-Federal qualified institutional buyer (as defined by section 230.144A(a) of title 17, Code of Federal Regulations (or any successor regulation), known as Rule 144A(a) of the Securities and Exchange Commission and issued under the Securities Act of 1933), including—

(A) a qualified retirement plan (as defined in section 4974(c) of the Internal Revenue Code of 1986 (26 U.S.C. 4974(c)) that is a qualified institutional buyer; and

(B) a governmental plan (as defined in section 414(d) of the Internal Revenue Code of 1986 (26 U.S.C. 414(d)) that is a qualified institutional buyer.

(3) The term "Federal guarantee instrument" means any guarantee or other pledge by the Secretary to pledge the full faith and credit of the United States to pay all of the principal and interest on any loan or other debt obligation entered into by a holder of a certificate of public convenience and necessity.

(4) The term "qualified infrastructure project" means an Alaskan natural gas transportation

project consisting of the design, engineering, finance, construction, and completion of pipelines and related transportation and production systems (including gas treatment plants), and appurtenances thereto, that are used to transport natural gas from the Alaska North Slope to the continental United States.

TITLE IV—COAL

Subtitle A—Clean Coal Power Initiative

SEC. 401. AUTHORIZATION OF APPROPRIATIONS.

(a) Clean Coal Power Initiative.—There are authorized to be appropriated to the Secretary of Energy (referred to in this title as the "Secretary") to carry out the activities authorized by this subtitle $200,000,000 for each of fiscal years 2004 through 2012, to remain available until expended.

(b) Report.—The Secretary shall submit to Congress the report required by this subsection not later than March 31, 2005. The report shall include, with respect to subsection (a), a 10-year plan containing—

(1) a detailed assessment of whether the aggregate funding levels provided under subsection (a) are the appropriate funding levels for that program;

(2) a detailed description of how proposals will be solicited and evaluated, including a list of all activities expected to be undertaken;

(3) a detailed list of technical milestones for each coal and related technology that will be pursued; and

(4) a detailed description of how the program will avoid problems enumerated in General Accounting Office reports on the Clean Coal Technology Program, including problems that have resulted in unspent funds and projects that failed either financially or scientifically.

SEC. 402. PROJECT CRITERIA.

(a) In General.—The Secretary shall not provide funding under this subtitle for any project that does not advance efficiency, environmental performance, and cost competitiveness well beyond the level of technologies that are in commercial service or have been demonstrated on a scale that the Secretary determines is sufficient to demonstrate that commercial service is viable as of the date of enactment of this Act.

(b) Technical Criteria for Clean Coal Power Initiative.—

(1) Gasification projects.—

(A) In general.—In allocating the funds made available under section 401(a), the Secretary shall ensure that at least 60 percent of the funds are used only for projects on coal-based gasification technologies, including gasification combined cycle, gasification fuel cells, gasification coproduction, and hybrid gasification/combustion.

(B) Technical milestones.—The Secretary shall periodically set technical milestones specifying the emission and thermal efficiency levels that coal gasification projects under this subtitle shall be designed, and reasonably expected, to achieve. The technical milestones shall become more restrictive during the life of the program. The Secretary shall set the periodic milestones so as to achieve by 2020 coal gasification projects able—

(i) to remove 99 percent of sulfur dioxide;

(ii) to emit not more than .05 lbs of NO_x per million Btu;

(iii) to achieve substantial reductions in mercury emissions; and

(iv) to achieve a thermal efficiency of—

(I) 60 percent for coal of more than 9,000 Btu;

(II) 59 percent for coal of 7,000 to 9,000 Btu; and

(III) 50 percent for coal of less than 7,000 Btu.

(2) Other projects.—The Secretary shall periodically set technical milestones and ensure that up to 40 percent of the funds appropriated pursuant to section 401(a) are used for projects not described in paragraph (1). The milestones shall specify the emission and thermal efficiency levels that projects funded under this paragraph shall be designed to and reasonably expected to achieve. The technical milestones shall become more restrictive during the life of the program. The Secretary shall set the periodic milestones so as to achieve by 2010 projects able—

(A) to remove 97 percent of sulfur dioxide;

(B) to emit no more than .08 lbs of NO_x per million Btu;

(C) to achieve substantial reductions in mercury emissions; and

(D) to achieve a thermal efficiency of—

(i) 45 percent for coal of more than 9,000 Btu;

(ii) 44 percent for coal of 7,000 to 9,000 Btu; and

(iii) 40 percent for coal of less than 7,000 Btu.

(3) Consultation.—Before setting the technical milestones under paragraphs (1)(B) and (2), the Secretary shall consult with the Administrator of the Environmental Protection Agency and interested entities, including coal producers, industries using coal, organizations to promote coal or advanced coal technologies, environmental organizations, and organizations representing workers.

(4) Existing units.—In the case of projects at units in existence on the date of enactment of this Act, in lieu of the thermal efficiency requirements set forth in paragraph (1)(B)(iv) and (2)(D), the milestones shall be designed to achieve an overall thermal design efficiency improvement, compared to the efficiency of the unit as operated, of not less than—

(A) 7 percent for coal of more than 9,000 Btu;

(B) 6 percent for coal of 7,000 to 9,000 Btu; or

(C) 4 percent for coal of less than 7,000 Btu.

(5) Permitted uses.—In carrying out this subtitle, the Secretary may fund projects that include, as part of the project, the separation and capture of carbon dioxide.

(c) Financial Criteria.—The Secretary shall not provide a funding award under this subtitle unless the recipient documents to the satisfaction of the Secretary that—

(1) the award recipient is financially viable without the receipt of additional Federal funding;

(2) the recipient will provide sufficient information to the Secretary to enable the Secretary to ensure that the award funds are spent efficiently and effectively; and

(3) a market exists for the technology being demonstrated or applied, as evidenced by statements of interest in writing from potential purchasers of the technology.

(d) Financial Assistance.—The Secretary shall provide financial assistance to projects that meet the requirements of subsections (a), (b), and (c) and are likely to—

(1) achieve overall cost reductions in the utilization of coal to generate useful forms of energy;

(2) improve the competitiveness of coal among various forms of energy in order to maintain a diversity of fuel choices in the United States to meet electricity generation requirements; and

(3) demonstrate methods and equipment that are applicable to 25 percent of the electricity generating facilities, using various types of coal, that use coal as the primary feedstock as of the date of enactment of this Act.

(e) Federal Share.—The Federal share of the cost of a coal or related technology project funded by the Secretary under this subtitle shall not exceed 50 percent.

(f) Applicability.—No technology, or level of emission reduction, shall be treated as adequately demonstrated for purposes of section 111 of the Clean Air Act (42 U.S.C. 7411), achievable for purposes of section 169 of that Act (42 U.S.C. 7479), or achievable in practice for purposes of section 171 of that Act (42 U.S.C. 7501) solely by reason of the use of such technology, or the achievement of such emission reduction, by 1 or more facilities receiving assistance under this subtitle.

SEC. 403. REPORT.

Not later than 1 year after the date of enactment of this Act, and once every 2 years thereafter through 2012, the Secretary, in consultation with other appropriate Federal agencies, shall submit to Congress a report describing—

(1) the technical milestones set forth in section 402 and how those milestones ensure progress toward meeting the requirements of subsections (b)(1)(B) and (b)(2) of section 402; and

(2) the status of projects funded under this subtitle.

SEC. 404. CLEAN COAL CENTERS OF EXCELLENCE.

As part of the program authorized in section 401, the Secretary shall award competitive, merit-based grants to universities for the establishment of Centers of Excellence for Energy Systems of the Future. The Secretary shall provide grants to universities that show the greatest potential for advancing new clean coal technologies.

Subtitle B—Clean Power Projects

SEC. 411. COAL TECHNOLOGY LOAN.

There are authorized to be appropriated to the Secretary $125,000,000 to provide a loan to the owner of the experimental plant constructed under United States Department of Energy cooperative agreement number DE–FC–22–91PC90544 on such terms and conditions as the Secretary determines, including interest rates and upfront payments.

SEC. 412. COAL GASIFICATION.

The Secretary is authorized to provide loan guarantees for a project to produce energy from a plant using integrated gasification combined cycle technology of at least 400 megawatts in capacity that produces power at competitive rates in deregulated energy generation markets and that does not receive any subsidy (direct or indirect) from ratepayers.

SEC. 413. INTEGRATED GASIFICATION COMBINED CYCLE TECHNOLOGY.

The Secretary is authorized to provide loan guarantees for a project to produce energy from a plant using integrated gasification combined cycle technology located in a taconite-producing region of the United States that is entitled under the law of the State in which the plant is located to enter into a long-term contract approved by a State Public Utility Commission to sell at least 450 megawatts of output to a utility.

SEC. 414. PETROLEUM COKE GASIFICATION.

The Secretary is authorized to provide loan guarantees for at least 1 petroleum coke gasification polygeneration project.

SEC. 415. INTEGRATED COAL/RENEWABLE ENERGY SYSTEM.

The Secretary is authorized, subject to the availability of appropriations, to provide loan guarantees for a project to produce energy from coal of less than 7000 btu/lb using appropriate advanced integrated gasification combined cycle technology, including repowering of existing facilities, that is combined with wind and other renewable sources, minimizes and offers the potential to sequester carbon dioxide emissions, and provides a ready source of hydrogen for near-site fuel cell demonstrations. The facility may be built in stages, combined output shall be at least 200 megawatts at successively more competitive rates, and the facility shall be located in the Upper Great Plains. Section 402(b) technical criteria apply, and the Federal cost share shall not exceed 50 percent. The loan guarantees provided under this section do not preclude the facility from receiving an allocation for investment tax credits under section 48A of the Internal Revenue Code of 1986. Utilizing this investment tax credit does not prohibit the use of other Clean Coal Program funding.

SEC. 416. ELECTRON SCRUBBING DEMONSTRATION.

The Secretary shall use $5,000,000 from amounts appropriated to initiate, through the Chicago Operations Office, a project to demonstrate the viability of high-energy electron scrubbing technology on commercial-scale electrical generation using high-sulfur coal.

Subtitle C—Federal Coal Leases

SEC. 421. REPEAL OF THE 160-ACRE LIMITATION FOR COAL LEASES.

Section 3 of the Mineral Leasing Act (30 U.S.C. 203) is amended—

(1) in the first sentence—

(A) by striking "Any person" and inserting "(a) Any person";

(B) by inserting a comma after "may"; and

(C) by striking "upon" and all that follows through the period and inserting the following: "upon a finding by the Secretary that the lease—

"(1) would be in the interest of the United States;

"(2) would not displace a competitive interest in the land; and

"(3) would not include land or deposits that can be developed as part of another potential or existing operation;

secure modifications of the original coal lease by including additional coal land or coal deposits contiguous or cornering to those embraced in the lease, but in no event shall the total area added by any modifications to an existing coal lease exceed 1280 acres, or add acreage larger than the acreage in the original lease.";

(2) in the second sentence, by striking "The Secretary" and inserting the following: "(b) The Secretary"; and

(3) in the third sentence, by striking "The minimum" and inserting the following: "(c) The minimum".

SEC. 422. MINING PLANS.

Section 2(d)(2) of the Mineral Leasing Act (30 U.S.C. 202a(2)) is amended—

(1) by inserting "(A)" after "(2)"; and

(2) by adding at the end the following:

"(B) The Secretary may establish a period of more than 40 years if the Secretary determines that the longer period—

"(i) will ensure the maximum economic recovery of a coal deposit; or

"(ii) the longer period is in the interest of the orderly, efficient, or economic development of a coal resource.".

SEC. 423. PAYMENT OF ADVANCE ROYALTIES UNDER COAL LEASES.

Section 7(b) of the Mineral Leasing Act (30 U.S.C. 207(b)) is amended to read as follows:

"(b)(1) Each lease shall be subjected to the condition of diligent development and continued operation of the mine or mines, except in a case in which operations under the lease are interrupted by strikes, the elements, or casualties not attributable to the lessee.

"(2)(A) The Secretary of the Interior may suspend the condition of continued operation upon the payment of advance royalties, if the Secretary determines that the public interest will be served by the suspension.

"(B) Advance royalties required under subparagraph (A) shall be computed based on—

"(i) the average price for coal sold in the spot market from the same region during the last month of each applicable continued operation year; or

"(ii) by using other methods established by the Secretary of the Interior to capture the commercial value of coal,

and based on commercial quantities, as defined by regulation by the Secretary of the Interior.

"(C) The aggregate number of years during the initial and any extended term of any lease for which advance royalties may be accepted in lieu of the condition of continued operation shall not exceed 20.

"(3) The amount of any production royalty paid for any year shall be reduced (but not below 0) by the amount of any advance royalties paid under the lease, to the extent that the advance royalties have not been used to reduce production royalties for a prior year.

"(4) The Secretary may, upon 6 months' notice to a lessee, cease to accept advance royalties in lieu of the requirement of continued operation.

"(5) Nothing in this subsection affects the requirement contained in the second sentence of subsection (a) relating to commencement of production at the end of 10 years.".

SEC. 424. ELIMINATION OF DEADLINE FOR SUBMISSION OF COAL LEASE OPERATION AND RECLAMATION PLAN.

Section 7(c) of the Mineral Leasing Act (30 U.S.C. 207(c)) is amended in the first sentence by striking "and not later than three years after a lease is issued,".

SEC. 425. AMENDMENT RELATING TO FINANCIAL ASSURANCES WITH RESPECT TO BONUS BIDS.

Section 2(a) of the Mineral Leasing Act (30 U.S.C. 201(a)) is amended by adding at the end the following:

"(4)(A) The Secretary shall not require a surety bond or any other financial assurance to guarantee payment of deferred bonus bid installments with respect to any coal lease issued on a cash bonus bid to a lessee or successor in interest having a history of a timely payment of noncontested coal royalties and advanced coal royalties in lieu of production (where applicable) and bonus bid installment payments.

"(B) The Secretary may waive any requirement that a lessee provide a surety bond or other financial assurance for a coal lease issued before the date of the enactment of the Energy Policy Act of 2003 only if the Secretary determines that the lessee has a history of making timely payments referred to in subparagraph (A).

"(5) Notwithstanding any other provision of law, if the lessee under a coal lease fails to pay any installment of a deferred cash bonus bid within 10 days after the Secretary provides written notice that payment of the installment is past due—

"(A) the lease shall automatically terminate; and

"(B) any bonus payments already made to the United States with respect to the lease shall not be returned to the lessee or credited in any future lease sale.".

SEC. 426. INVENTORY REQUIREMENT.

(a) Review of Assessments.—

(1) In general.—The Secretary of the Interior, in consultation with the Secretary of Agriculture and the Secretary, shall review coal assessments and other available data to identify—

(A) public lands, other than National Park lands, with coal resources;

(B) the extent and nature of any restrictions or impediments to the development of coal resources on public lands identified under subparagraph (A); and

(C) with respect to areas of such lands for which sufficient data exists, resources of compliant coal and supercompliant coal.

(2) Definitions.—In this subsection:

(A) Compliant coal.—The term "compliant coal" means coal that contains not less than 1.0 and not more than 1.2 pounds of sulfur dioxide per million Btu.

(B) Supercompliant coal.—The term "supercompliant coal" means coal that contains less than 1.0 pounds of sulfur dioxide per million Btu.

(b) Completion and Updating of the Inventory.—The Secretary of the Interior—

(1) shall complete the inventory under subsection (a)(1) by not later than 2 years after the date of the enactment of this Act; and

(2) shall update the inventory as the availability of data and developments in technology warrant.

(c) Report.—The Secretary of the Interior shall submit to Congress, and make publicly available—

(1) a report containing the inventory under this section by not later than 2 years after the effective date of this section; and

(2) each update of that inventory.

SEC. 427. APPLICATION OF AMENDMENTS.

The amendments made by this subtitle apply—

(1) with respect to any coal lease issued on or after the date of enactment of this Act; and

(2) with respect to any coal lease issued before the date of enactment of this Act, upon the earlier of—

(A) the date of readjustment of the lease as provided for by section 7(a) of the Mineral Leasing Act (30 U.S.C. 207(a)); or

(B) the date the lessee requests such application.

Subtitle D—Coal and Related Programs

SEC. 441. CLEAN AIR COAL PROGRAM.

(a) Amendment.—The Energy Policy Act of 1992 is amended by adding the following new title at the end thereof:

"TITLE XXXI—CLEAN AIR COAL PROGRAM

"SEC. 3101. FINDINGS; PURPOSES; DEFINITIONS.

"(a) Findings.—The Congress finds that—

"(1) new environmental regulations present additional challenges for coal-fired electrical generation in the private marketplace; and

"(2) the Department of Energy, in cooperation with industry, has already fully developed and commercialized several new clean-coal technologies that will allow the clean use of coal.

"(b) Purposes.—The purposes of this title are to—

"(1) promote national energy policy and energy security, diversity, and economic competitiveness benefits that result from the increased use of coal;

"(2) mitigate financial risks, reduce the cost, and increase the marketplace acceptance of the new clean coal technologies; and

"(3) advance the deployment of pollution control equipment to meet the current and future obligations of coal-fired generation units regulated under the Clean Air Act (42 U.S.C. 7402 and following).

"SEC. 3102. AUTHORIZATION OF PROGRAM.

"The Secretary shall carry out a program to facilitate production and generation of coal-based power and the installation of pollution control equipment.

"SEC. 3103. AUTHORIZATION OF APPROPRIATIONS.

"(a) Pollution Control Projects.—There are authorized to be appropriated to the Secretary $300,000,000 for fiscal year 2005, $100,000,000 for fiscal year 2006, $40,000,000 for fiscal year 2007, $30,000,000 for fiscal year 2008, and $30,000,000 for fiscal year 2009, to remain available until expended, for carrying out the program for pollution control projects, which may include—

"(1) pollution control equipment and processes for the control of mercury air emissions;

"(2) pollution control equipment and processes for the control of nitrogen dioxide air emissions or sulfur dioxide emissions;

"(3) pollution control equipment and processes for the mitigation or collection of more than one pollutant;

"(4) advanced combustion technology for the control of at least two pollutants, including mercury, particulate matter, nitrogen oxides, and sulfur dioxide, which may also be designed to improve the energy efficiency of the unit; and

"(5) advanced pollution control equipment and processes designed to allow use of the waste byproducts or other byproducts of the equipment or an electrical generation unit designed to allow the use of byproducts.

Funds appropriated under this subsection which are not awarded before fiscal year 2011 may be applied to projects under subsection (b), in addition to amounts authorized under subsection (b).

"(b) Generation Projects.—There are authorized to be appropriated to the Secretary $150,000,000 for fiscal year 2006, $250,000,000 for each of the fiscal years 2007 through 2011, and $100,000,000 for fiscal year 2012, to remain available until expended, for generation projects and air pollution control projects. Such projects may include—

"(1) coal-based electrical generation equipment and processes, including gasification combined cycle or other coal-based generation equipment and processes;

"(2) associated environmental control equipment, that will be cost-effective and that is designed to meet anticipated regulatory requirements;

"(3) coal-based electrical generation equipment and processes, including gasification fuel cells, gasification coproduction, and hybrid gasification/combustion projects; and

"(4) advanced coal-based electrical generation equipment and processes, including oxidation combustion techniques, ultra-supercritical boilers, and chemical looping, which the Secretary determines will be cost-effective and could substantially contribute to meeting anticipated environmental or energy needs.

"(c) Limitation.—Funds placed at risk during any fiscal year for Federal loans or loan guarantees pursuant to this title may not exceed 30 percent of the total funds obligated under this title.

"SEC. 3104. AIR POLLUTION CONTROL PROJECT CRITERIA.

"The Secretary shall pursuant to authorizations contained in section 3103 provide funding for air pollution control projects designed to facilitate compliance with Federal and State environmental regulations, including any regulation that may be established with respect to mercury.

"SEC. 3105. CRITERIA FOR GENERATION PROJECTS.

"(a) Criteria.—The Secretary shall establish criteria on which selection of individual projects described in section 3103(b) should be based. The Secretary may modify the criteria as appropriate to reflect improvements in equipment, except that the criteria shall not be modified to be less stringent. These selection criteria shall include—

"(1) prioritization of projects whose installation is likely to result in significant air quality improvements in nonattainment air quality areas;

"(2) prioritization of projects that result in the repowering or replacement of older, less efficient units;

"(3) documented broad interest in the procurement of the equipment and utilization of the processes used in the projects by electrical generator owners or operators;

"(4) equipment and processes beginning in 2005 through 2010 that are projected to achieve an thermal efficiency of—

"(A) 40 percent for coal of more than 9,000 Btu per pound based on higher heating values;

"(B) 38 percent for coal of 7,000 to 9,000 Btu per pound based on higher heating values; and

"(C) 36 percent for coal of less than 7,000 Btu per pound based on higher heating values,

except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph; and

"(5) equipment and processes beginning in 2011 and 2012 that are projected to achieve an thermal efficiency of—

"(A) 45 percent for coal of more than 9,000 Btu per pound based on higher heating values;

"(B) 44 percent for coal of 7,000 to 9,000 Btu per pound based on higher heating values; and

"(C) 40 percent for coal of less than 7,000 Btu per pound based on higher heating values,

except that energy used for coproduction or cogeneration shall not be counted in calculating the thermal efficiency under this paragraph.

"(b) Selection.—(1) In selecting the projects, up to 25 percent of the projects selected may be either coproduction or cogeneration or other gasification projects, but at least 25 percent of the projects shall be for the sole purpose of electrical generation, and priority should be given to equipment and projects less than 600 MW to foster and promote standard designs.

"(2) The Secretary shall give priority to projects that have been developed and demonstrated that are not yet cost competitive, and for coal energy generation projects that advance efficiency, environmental performance, or cost competitiveness significantly beyond the level of pollution control equipment that is in operation on a full scale.

"SEC. 3106. FINANCIAL CRITERIA.

"(a) In General.—The Secretary shall only provide financial assistance to projects that meet the requirements of sections 3103 and 3104 and are likely to—

"(1) achieve overall cost reductions in the utilization of coal to generate useful forms of energy; and

"(2) improve the competitiveness of coal in order to maintain a diversity of domestic fuel choices in the United States to meet electricity generation requirements.

"(b) Conditions.—The Secretary shall not provide a funding award under this title unless—

"(1) the award recipient is financially viable without the receipt of additional Federal funding; and

"(2) the recipient provides sufficient information to the Secretary for the Secretary to ensure that the award funds are spent efficiently and effectively.

"(c) Equal Access.—The Secretary shall, to the extent practical, utilize cooperative agreement, loan guarantee, and direct Federal loan mechanisms designed to ensure that all electrical generation owners have equal access to these technology deployment incentives. The Secretary shall develop and direct a competitive solicitation process for the selection of technologies and projects under this title.

"SEC. 3107. FEDERAL SHARE.

"The Federal share of the cost of a coal or related technology project funded by the Secretary under this title shall not exceed 50 percent. For purposes of this title, Federal funding includes only appropriated funds.

"SEC. 3108. APPLICABILITY.

"No technology, or level of emission reduction, shall be treated as adequately demonstrated for purposes of section 111 of the Clean Air Act (42 U.S.C. 7411), achievable for purposes of section 169 of the Clean Air Act (42 U.S.C. 7479), or achievable in practice for purposes of section 171 of the Clean Air Act (42 U.S.C. 7501) solely by reason of the use of such technology, or the achievement of such emission reduction, by one or more facilities receiving assistance under this title.".

(b) Table of Contents Amendment.—The table of contents of the Energy Policy Act of 1992 is amended by adding at the end the following:

"TITLE XXXI—CLEAN AIR COAL PROGRAM
"Sec. 3101. Findings; purposes; definitions.
"Sec. 3102. Authorization of program.
"Sec. 3103. Authorization of appropriations.
"Sec. 3104. Air pollution control project criteria.
"Sec. 3105. Criteria for generation projects.
"Sec. 3106. Financial criteria.
"Sec. 3107. Federal share.
"Sec. 3108. Applicability.".

TITLE V—INDIAN ENERGY

SEC. 501. SHORT TITLE.

This title may be cited as the "Indian Tribal Energy Development and Self-Determination Act of 2003".

SEC. 502. OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS.

(a) In General.—Title II of the Department of Energy Organization Act (42 U.S.C. 7131 et seq.) is amended by adding at the end the following:

"OFFICE OF INDIAN ENERGY POLICY AND PROGRAMS

"Sec. 217. (a) Establishment.—There is established within the Department an Office of Indian Energy Policy and Programs (referred to in this section as the 'Office'). The Office shall be headed by a Director, who shall be appointed by the Secretary and compensated at a rate equal to that of level IV of the Executive Schedule under section 5315 of title 5, United States Code.

"(b) Duties of Director.—The Director, in accordance with Federal policies promoting Indian self-determination and the purposes of this Act, shall provide, direct, foster, coordinate, and implement energy planning, education, management, conservation, and delivery programs of the Department that—

"(1) promote Indian tribal energy development, efficiency, and use;

"(2) reduce or stabilize energy costs;

"(3) enhance and strengthen Indian tribal energy and economic infrastructure relating to natural resource development and electrification; and

"(4) bring electrical power and service to Indian land and the homes of tribal members located on Indian lands or acquired, constructed, or improved (in whole or in part) with Federal funds.".

(b) Conforming Amendments.—

(1) The table of contents of the Department of Energy Organization Act (42 U.S.C. prec. 7101) is amended—

(A) in the item relating to section 209, by striking "Section" and inserting "Sec."; and

(B) by striking the items relating to sections 213 through 216 and inserting the following:

"Sec. 213. Establishment of policy for National Nuclear Security Administration.
"Sec. 214. Establishment of security, counterintelligence, and intelligence policies.
"Sec. 215. Office of Counterintelligence.
"Sec. 216. Office of Intelligence.
"Sec. 217. Office of Indian Energy Policy and Programs.".

(2) Section 5315 of title 5, United States Code, is amended by inserting "Director, Office of Indian Energy Policy and Programs, Department of Energy." after "Inspector General, Department of Energy.".

SEC. 503. INDIAN ENERGY.

(a) In General.—Title XXVI of the Energy Policy Act of 1992 (25 U.S.C. 3501 et seq.) is amended to read as follows:

"TITLE XXVI—INDIAN ENERGY

"SEC. 2601. DEFINITIONS.

"For purposes of this title:

"(1) The term 'Director' means the Director of the Office of Indian Energy Policy and Programs, Department of Energy.

"(2) The term 'Indian land' means—

"(A) any land located within the boundaries of an Indian reservation, pueblo, or rancheria;

“(B) any land not located within the boundaries of an Indian reservation, pueblo, or rancheria, the title to which is held—

“(i) in trust by the United States for the benefit of an Indian tribe or an individual Indian;

“(ii) by an Indian tribe or an individual Indian, subject to restriction against alienation under laws of the United States; or

“(iii) by a dependent Indian community; and

“(C) land that is owned by an Indian tribe and was conveyed by the United States to a Native Corporation pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. 1601 et seq.), or that was conveyed by the United States to a Native Corporation in exchange for such land.

“(3) The term ‘Indian reservation’ includes—

“(A) an Indian reservation in existence in any State or States as of the date of enactment of this paragraph;

“(B) a public domain Indian allotment; and

“(C) a dependent Indian community located within the borders of the United States, regardless of whether the community is located—

“(i) on original or acquired territory of the community; or

“(ii) within or outside the boundaries of any particular State.

“(4) The term ‘Indian tribe’ has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), except that the term ‘Indian tribe’, for the purpose of paragraph (11) and sections 2603(b)(3) and 2604, shall not include any Native Corporation.

“(5) The term ‘integration of energy resources’ means any project or activity that promotes the location and operation of a facility (including any pipeline, gathering system, transportation system or facility, or electric transmission or distribution facility) on or near Indian land to process, refine, generate electricity from, or otherwise develop energy resources on, Indian land.

“(6) The term ‘Native Corporation’ has the meaning given the term in section 3 of the Alaska Native Claims Settlement Act (43 U.S.C. 1602).

“(7) The term ‘organization’ means a partnership, joint venture, limited liability company, or other unincorporated association or entity that is established to develop Indian energy resources.

“(8) The term ‘Program’ means the Indian energy resource development program established under section 2602(a).

“(9) The term ‘Secretary’ means the Secretary of the Interior.

“(10) The term ‘tribal energy resource development organization’ means an organization of 2 or more entities, at least 1 of which is an Indian tribe, that has the written consent of the governing bodies of all Indian tribes participating in the organization to apply for a grant, loan, or other assistance authorized by section 2602.

“(11) The term ‘tribal land’ means any land or interests in land owned by any Indian tribe, title to which is held in trust by the United States or which is subject to a restriction against alienation under laws of the United States.

“SEC. 2602. INDIAN TRIBAL ENERGY RESOURCE DEVELOPMENT.

“(a) DEPARTMENT OF THE INTERIOR PROGRAM.—

“(1) To assist Indian tribes in the development of energy resources and further the goal of Indian self-determination, the Secretary shall establish and implement an Indian energy resource development program to assist consenting Indian tribes and tribal energy resource development organizations in achieving the purposes of this title.

“(2) In carrying out the Program, the Secretary shall—

“(A) provide development grants to Indian tribes and tribal energy resource development organizations for use in developing or obtaining the managerial and technical capacity needed to develop energy resources on Indian land, and to properly account for resulting energy production and revenues;

“(B) provide grants to Indian tribes and tribal energy resource development organizations for use in carrying out projects to promote the integration of energy resources, and to process, use, or develop those energy resources, on Indian land; and

“(C) provide low-interest loans to Indian tribes and tribal energy resource development organizations for use in the promotion of energy resource development on Indian land and integration of energy resources.

“(3) There are authorized to be appropriated to carry out this subsection such sums as are necessary for each of fiscal years 2004 through 2014.

“(b) DEPARTMENT OF ENERGY INDIAN ENERGY EDUCATION PLANNING AND MANAGEMENT ASSISTANCE PROGRAM.—

“(1) The Director shall establish programs to assist consenting Indian tribes in meeting energy education, research and development, planning, and management needs.

“(2) In carrying out this subsection, the Director may provide grants, on a competitive basis, to an Indian tribe or tribal energy resource development organization for use in carrying out—

“(A) energy, energy efficiency, and energy conservation programs;

“(B) studies and other activities supporting tribal acquisitions of energy supplies, services, and facilities;

“(C) planning, construction, development, operation, maintenance, and improvement of tribal electrical generation, transmission, and distribution facilities located on Indian land; and

“(D) development, construction, and interconnection of electric power transmission facilities located on Indian land with other electric transmission facilities.

“(3)(A) The Director may develop, in consultation with Indian tribes, a formula for providing grants under this subsection.

“(B) In providing a grant under this subsection, the Director shall give priority to an application received from an Indian tribe with inadequate electric service (as determined by the Director).

“(4) The Secretary of Energy may issue such regulations as necessary to carry out this subsection.

“(5) There are authorized to be appropriated to carry out this subsection $20,000,000 for each of fiscal years 2004 through 2014.

“(c) DEPARTMENT OF ENERGY LOAN GUARANTEE PROGRAM.—

“(1) Subject to paragraph (3), the Secretary of Energy may provide loan guarantees (as defined in section 502 of the Federal Credit Reform Act of 1990 (2 U.S.C. 661a)) for not more than 90 percent of the unpaid principal and interest due on any loan made to any Indian tribe for energy development.

“(2) A loan guarantee under this subsection shall be made by—

“(A) a financial institution subject to examination by the Secretary of Energy; or

“(B) an Indian tribe, from funds of the Indian tribe.

“(3) The aggregate outstanding amount guaranteed by the Secretary of Energy at any time under this subsection shall not exceed $2,000,000,000.

“(4) The Secretary of Energy may issue such regulations as the Secretary of Energy determines are necessary to carry out this subsection.

“(5) There are authorized to be appropriated such sums as are necessary to carry out this subsection, to remain available until expended.

“(6) Not later than 1 year from the date of enactment of this section, the Secretary of Energy shall report to Congress on the financing requirements of Indian tribes for energy development on Indian land.

“(d) FEDERAL AGENCIES-INDIAN ENERGY PREFERENCE.—

“(1) In purchasing electricity or any other energy product or byproduct, a Federal agency or department may give preference to an energy and resource production enterprise, partnership, consortium, corporation, or other type of business organization the majority of the interest in which is owned and controlled by 1 or more Indian tribes.

“(2) In carrying out this subsection, a Federal agency or department shall not—

“(A) pay more than the prevailing market price for an energy product or byproduct; or

“(B) obtain less than prevailing market terms and conditions.

“SEC. 2603. INDIAN TRIBAL ENERGY RESOURCE REGULATION.

“(a) GRANTS.—The Secretary may provide to Indian tribes, on an annual basis, grants for use in accordance with subsection (b).

“(b) USE OF FUNDS.—Funds from a grant provided under this section may be used—

“(1) by an Indian tribe for the development of a tribal energy resource inventory or tribal energy resource on Indian land;

“(2) by an Indian tribe for the development of a feasibility study or other report necessary to the development of energy resources on Indian land;

“(3) by an Indian tribe (other than an Indian Tribe in Alaska except the Metlakatla Indian Community) for the development and enforcement of tribal laws (including regulations) relating to tribal energy resource development and the development of technical infrastructure to protect the environment under applicable law; or

“(4) by a Native Corporation for the development and implementation of corporate policies and the development of technical infrastructure to protect the environment under applicable law; and

“(5) by an Indian tribe for the training of employees that—

“(A) are engaged in the development of energy resources on Indian land; or

“(B) are responsible for protecting the environment.

“(c) OTHER ASSISTANCE.—In carrying out the obligations of the United States under this title, the Secretary shall ensure, to the maximum extent practicable and to the extent of available resources, that upon the request of an Indian tribe, the Indian tribe shall have available scientific and technical information and expertise, for use in the Indian tribe's regulation, development, and management of energy resources on Indian land. The Secretary may fulfill this responsibility either directly, through the use of Federal officials, or indirectly, by providing financial assistance to the Indian tribe to secure independent assistance.

“SEC. 2604. LEASES, BUSINESS AGREEMENTS, AND RIGHTS-OF-WAY INVOLVING ENERGY DEVELOPMENT OR TRANSMISSION.

“(a) LEASES AND BUSINESS AGREEMENTS.—Subject to the provisions of this section—

“(1) an Indian tribe may, at its discretion, enter into a lease or business agreement for the purpose of energy resource development on tribal land, including a lease or business agreement for—

“(A) exploration for, extraction of, processing of, or other development of the Indian tribe's energy mineral resources located on tribal land; and

“(B) construction or operation of an electric generation, transmission, or distribution facility

located on tribal land or a facility to process or refine energy resources developed on tribal land; and

"(2) such lease or business agreement described in paragraph (1) shall not require the approval of the Secretary under section 2103 of the Revised Statutes (25 U.S.C. 81) or any other provision of law, if—

"(A) the lease or business agreement is executed pursuant to a tribal energy resource agreement approved by the Secretary under subsection (e);

"(B) the term of the lease or business agreement does not exceed—

"(i) 30 years; or

"(ii) in the case of a lease for the production of oil resources, gas resources, or both, 10 years and as long thereafter as oil or gas is produced in paying quantities; and

"(C) the Indian tribe has entered into a tribal energy resource agreement with the Secretary, as described in subsection (e), relating to the development of energy resources on tribal land (including the periodic review and evaluation of the activities of the Indian tribe under the agreement, to be conducted pursuant to the provisions required by subsection (e)(2)(D)(i)).

"(b) RIGHTS-OF-WAY FOR PIPELINES OR ELECTRIC TRANSMISSION OR DISTRIBUTION LINES.—An Indian tribe may grant a right-of-way over tribal land for a pipeline or an electric transmission or distribution line without approval by the Secretary if—

"(1) the right-of-way is executed in accordance with a tribal energy resource agreement approved by the Secretary under subsection (e);

"(2) the term of the right-of-way does not exceed 30 years;

"(3) the pipeline or electric transmission or distribution line serves—

"(A) an electric generation, transmission, or distribution facility located on tribal land; or

"(B) a facility located on tribal land that processes or refines energy resources developed on tribal land; and

"(4) the Indian tribe has entered into a tribal energy resource agreement with the Secretary, as described in subsection (e), relating to the development of energy resources on tribal land (including the periodic review and evaluation of the Indian tribe's activities under such agreement described in subparagraphs (D) and (E) of subsection (e)(2)).

"(c) RENEWALS.—A lease or business agreement entered into or a right-of-way granted by an Indian tribe under this section may be renewed at the discretion of the Indian tribe in accordance with this section.

"(d) VALIDITY.—No lease, business agreement, or right-of-way relating to the development of tribal energy resources pursuant to the provisions of this section shall be valid unless the lease, business agreement, or right-of-way is authorized by the provisions of a tribal energy resource agreement approved by the Secretary under subsection (e)(2).

"(e) TRIBAL ENERGY RESOURCE AGREEMENTS.—

"(1) On issuance of regulations under paragraph (8), an Indian tribe may submit to the Secretary for approval a tribal energy resource agreement governing leases, business agreements, and rights-of-way under this section.

"(2)(A) Not later than 180 days after the date on which the Secretary receives a tribal energy resource agreement submitted by an Indian tribe under paragraph (1), or not later than 60 days after the Secretary receives a revised tribal energy resource agreement submitted by an Indian tribe under paragraph (4)(C), (or such later date as may be agreed to by the Secretary and the Indian tribe), the Secretary shall approve or disapprove the tribal energy resource agreement.

"(B) The Secretary shall approve a tribal energy resource agreement submitted under paragraph (1) if—

"(i) the Secretary determines that the Indian tribe has demonstrated that the Indian tribe has sufficient capacity to regulate the development of energy resources of the Indian tribe;

"(ii) the tribal energy resource agreement includes provisions required under subparagraph (D); and

"(iii) the tribal energy resource agreement includes provisions that, with respect to a lease, business agreement, or right-of-way under this section—

"(I) ensure the acquisition of necessary information from the applicant for the lease, business agreement, or right-of-way;

"(II) address the term of the lease or business agreement or the term of conveyance of the right-of-way;

"(III) address amendments and renewals;

"(IV) address the economic return to the Indian tribe under leases, business agreements, and rights-of-way;

"(V) address technical or other relevant requirements;

"(VI) establish requirements for environmental review in accordance with subparagraph (C);

"(VII) ensure compliance with all applicable environmental laws;

"(VIII) identify final approval authority;

"(IX) provide for public notification of final approvals;

"(X) establish a process for consultation with any affected States concerning off-reservation impacts, if any, identified pursuant to the provisions required under subparagraph (C)(i);

"(XI) describe the remedies for breach of the lease, business agreement, or right-of-way;

"(XII) require each lease, business agreement, and right-of-way to include a statement that, in the event that any of its provisions violates an express term or requirement set forth in the tribal energy resource agreement pursuant to which it was executed—

"(aa) such provision shall be null and void; and

"(bb) if the Secretary determines such provision to be material, the Secretary shall have the authority to suspend or rescind the lease, business agreement, or right-of-way or take other appropriate action that the Secretary determines to be in the best interest of the Indian tribe;

"(XIII) require each lease, business agreement, and right-of-way to provide that it will become effective on the date on which a copy of the executed lease, business agreement, or right-of-way is delivered to the Secretary in accordance with regulations adopted pursuant to this subsection; and

"(XIV) include citations to tribal laws, regulations, or procedures, if any, that set out tribal remedies that must be exhausted before a petition may be submitted to the Secretary pursuant to paragraph (7)(B).

"(C) Tribal energy resource agreements submitted under paragraph (1) shall establish, and include provisions to ensure compliance with, an environmental review process that, with respect to a lease, business agreement, or right-of-way under this section, provides for—

"(i) the identification and evaluation of all significant environmental impacts (as compared with a no-action alternative), including effects on cultural resources;

"(ii) the identification of proposed mitigation;

"(iii) a process for ensuring that the public is informed of and has an opportunity to comment on the environmental impacts of the proposed action before tribal approval of the lease, business agreement, or right-of-way; and

"(iv) sufficient administrative support and technical capability to carry out the environmental review process.

"(D) A tribal energy resource agreement negotiated between the Secretary and an Indian tribe in accordance with this subsection shall include—

"(i) provisions requiring the Secretary to conduct a periodic review and evaluation to monitor the performance of the Indian tribe's activities associated with the development of energy resources under the tribal energy resource agreement; and

"(ii) when such review and evaluation result in a finding by the Secretary of imminent jeopardy to a physical trust asset arising from a violation of the tribal energy resource agreement or applicable Federal laws, provisions authorizing the Secretary to take appropriate actions determined by the Secretary to be necessary to protect such asset, which actions may include reassumption of responsibility for activities associated with the development of energy resources on tribal land until the violation and conditions that gave rise to such jeopardy have been corrected.

"(E) The periodic review and evaluation described in subparagraph (D) shall be conducted on an annual basis, except that, after the third such annual review and evaluation, the Secretary and the Indian tribe may mutually agree to amend the tribal energy resource agreement to authorize the review and evaluation required by subparagraph (D) to be conducted once every 2 years.

"(3) The Secretary shall provide notice and opportunity for public comment on tribal energy resource agreements submitted for approval under paragraph (1). The Secretary's review of a tribal energy resource agreement under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) shall be limited to the direct effects of that approval.

"(4) If the Secretary disapproves a tribal energy resource agreement submitted by an Indian tribe under paragraph (1), the Secretary shall, not later than 10 days after the date of disapproval—

"(A) notify the Indian tribe in writing of the basis for the disapproval;

"(B) identify what changes or other actions are required to address the concerns of the Secretary; and

"(C) provide the Indian tribe with an opportunity to revise and resubmit the tribal energy resource agreement.

"(5) If an Indian tribe executes a lease or business agreement or grants a right-of-way in accordance with a tribal energy resource agreement approved under this subsection, the Indian tribe shall, in accordance with the process and requirements set forth in the Secretary's regulations adopted pursuant to paragraph (8), provide to the Secretary—

"(A) a copy of the lease, business agreement, or right-of-way document (including all amendments to and renewals of the document); and

"(B) in the case of a tribal energy resource agreement or a lease, business agreement, or right-of-way that permits payments to be made directly to the Indian tribe, information and documentation of those payments sufficient to enable the Secretary to discharge the trust responsibility of the United States to enforce the terms of, and protect the Indian tribe's rights under, the lease, business agreement, or right-of-way.

"(6)(A) For purposes of the activities to be undertaken by the Secretary pursuant to this section, the Secretary shall—

"(i) carry out such activities in a manner consistent with the trust responsibility of the United States relating to mineral and other trust resources; and

"(ii) act in good faith and in the best interests of the Indian tribes.

"(B) Subject to the provisions of subsections (a)(2), (b), and (c) waiving the requirement of Secretarial approval of leases, business agreements, and rights-of-way executed pursuant to

tribal energy resource agreements approved under this section, and the provisions of subparagraph (D), nothing in this section shall absolve the United States from any responsibility to Indians or Indian tribes, including, but not limited to, those which derive from the trust relationship or from any treaties, statutes, and other laws of the United States, Executive Orders, or agreements between the United States and any Indian tribe.

“(C) The Secretary shall continue to have a trust obligation to ensure that the rights and interests of an Indian tribe are protected in the event that—

“(i) any other party to any such lease, business agreement, or right-of-way violates any applicable provision of Federal law or the terms of any lease, business agreement, or right-of-way under this section; or

“(ii) any provision in such lease, business agreement, or right-of-way violates any express provision or requirement set forth in the tribal energy resource agreement pursuant to which the lease, business agreement, or right-of-way was executed.

“(D) Notwithstanding subparagraph (B), the United States shall not be liable to any party (including any Indian tribe) for any of the negotiated terms of, or any losses resulting from the negotiated terms of, a lease, business agreement, or right-of-way executed pursuant to and in accordance with a tribal energy resource agreement approved by the Secretary under paragraph (2). For the purpose of this subparagraph, the term ‘negotiated terms’ means any terms or provisions that are negotiated by an Indian tribe and any other party or parties to a lease, business agreement, or right-of-way entered into pursuant to an approved tribal energy resource agreement.

“(7)(A) In this paragraph, the term ‘interested party’ means any person or entity the interests of which have sustained or will sustain a significant adverse environmental impact as a result of the failure of an Indian tribe to comply with a tribal energy resource agreement of the Indian tribe approved by the Secretary under paragraph (2).

“(B) After exhaustion of tribal remedies, and in accordance with the process and requirements set forth in regulations adopted by the Secretary pursuant to paragraph (8), an interested party may submit to the Secretary a petition to review compliance of an Indian tribe with a tribal energy resource agreement of the Indian tribe approved by the Secretary under paragraph (2).

“(C)(i) Not later than 120 days after the date on which the Secretary receives a petition under subparagraph (B), the Secretary shall determine whether the Indian tribe is not in compliance with the tribal energy resource agreement, as alleged in the petition.

“(ii) The Secretary may adopt procedures under paragraph (8) authorizing an extension of time, not to exceed 120 days, for making the determination under clause (i) in any case in which the Secretary determines that additional time is necessary to evaluate the allegations of the petition.

“(iii) Subject to subparagraph (D), if the Secretary determines that the Indian tribe is not in compliance with the tribal energy resource agreement as alleged in the petition, the Secretary shall take such action as is necessary to ensure compliance with the provisions of the tribal energy resource agreement; which action may include—

“(I) temporarily suspending some or all activities under a lease, business agreement, or right-of-way under this section until the Indian tribe or such activities are in compliance with the provisions of the approved tribal energy resource agreement; or

“(II) rescinding approval of all or part of the tribal energy resource agreement, and if all of such agreement is rescinded, reassuming the responsibility for approval of any future leases, business agreements, or rights-of-way described in subsections (a) and (b).

“(D) Prior to seeking to ensure compliance with the provisions of the tribal energy resource agreement of an Indian tribe under subparagraph (C)(iii), the Secretary shall—

“(i) make a written determination that describes the manner in which the tribal energy resource agreement has been violated;

“(ii) provide the Indian tribe with a written notice of the violations together with the written determination; and

“(iii) before taking any action described in subparagraph (C)(iii) or seeking any other remedy, provide the Indian tribe with a hearing and a reasonable opportunity to attain compliance with the tribal energy resource agreement.

“(E) An Indian tribe described in subparagraph (D) shall retain all rights to appeal as provided in regulations issued by the Secretary.

“(8) Not later than 1 year after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2003, the Secretary shall issue regulations that implement the provisions of this subsection, including—

“(A) criteria to be used in determining the capacity of an Indian tribe described in paragraph (2)(B)(i), including the experience of the Indian tribe in managing natural resources and financial and administrative resources available for use by the Indian tribe in implementing the approved tribal energy resource agreement of the Indian tribe;

“(B) a process and requirements in accordance with which an Indian tribe may—

“(i) voluntarily rescind a tribal energy resource agreement approved by the Secretary under this subsection; and

“(ii) return to the Secretary the responsibility to approve any future leases, business agreements, and rights-of-way described in this subsection;

“(C) provisions setting forth the scope of, and procedures for, the periodic review and evaluation described in subparagraphs (D) and (E) of paragraph (2), including provisions for review of transactions, reports, site inspections, and any other review activities the Secretary determines to be appropriate; and

“(D) provisions defining final agency actions after exhaustion of administrative appeals from determinations of the Secretary under paragraph (7).

“(f) No Effect on Other Law.—Nothing in this section affects the application of—

“(1) any Federal environment law;

“(2) the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1201 et seq.); or

“(3) except as otherwise provided in this title, the Indian Mineral Development Act of 1982 (25 U.S.C. 2101 et seq.) and the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

“(g) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary such sums as are necessary for each of fiscal years 2004 through 2014 to implement the provisions of this section and to make grants or provide other appropriate assistance to Indian tribes to assist the Indian tribes in developing and implementing tribal energy resource agreements in accordance with the provisions of this section.

“SEC. 2605. INDIAN MINERAL DEVELOPMENT REVIEW.

“(a) In General.—The Secretary shall conduct a review of all activities being conducted under the Indian Mineral Development Act of 1982 (25 U.S.C. 2101 et seq.) as of that date.

“(b) Report.—Not later than 1 year after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2003, the Secretary shall submit to Congress a report that includes—

“(1) the results of the review;

“(2) recommendations to ensure that Indian tribes have the opportunity to develop Indian energy resources; and

“(3) an analysis of the barriers to the development of energy resources on Indian land (including legal, fiscal, market, and other barriers), along with recommendations for the removal of those barriers.

“SEC. 2606. FEDERAL POWER MARKETING ADMINISTRATIONS.

“(a) Definitions.—In this section:

“(1) The term “Administrator” means the Administrator of the Bonneville Power Administration and the Administrator of the Western Area Power Administration.

“(2) The term “power marketing administration” means—

“(A) the Bonneville Power Administration;

“(B) the Western Area Power Administration; and

“(C) any other power administration the power allocation of which is used by or for the benefit of an Indian tribe located in the service area of the administration.

“(b) Encouragement of Indian Tribal Energy Development.—Each Administrator shall encourage Indian tribal energy development by taking such actions as are appropriate, including administration of programs of the Bonneville Power Administration and the Western Area Power Administration, in accordance with this section.

“(c) Action by the Administrator.—In carrying out this section, and in accordance with existing law—

“(1) each Administrator shall consider the unique relationship that exists between the United States and Indian tribes;

“(2) power allocations from the Western Area Power Administration to Indian tribes may be used to meet firming and reserve needs of Indian-owned energy projects on Indian land;

“(3) the Administrator of the Western Area Power Administration may purchase non-federally generated power from Indian tribes to meet the firming and reserve requirements of the Western Area Power Administration; and

“(4) each Administrator shall not pay more than the prevailing market price for an energy product nor obtain less than prevailing market terms and conditions.

“(d) Assistance for Transmission System Use.—(1) An Administrator may provide technical assistance to Indian tribes seeking to use the high-voltage transmission system for delivery of electric power.

“(2) The costs of technical assistance provided under paragraph (1) shall be funded by the Secretary of Energy using nonreimbursable funds appropriated for that purpose, or by the applicable Indian tribes.

“(e) Power Allocation Study.—Not later than 2 years after the date of enactment of the Indian Tribal Energy Development and Self-Determination Act of 2003, the Secretary of Energy shall submit to Congress a report that—

“(1) describes the use by Indian tribes of Federal power allocations of the Western Area Power Administration (or power sold by the Southwestern Power Administration) and the Bonneville Power Administration to or for the benefit of Indian tribes in service areas of those administrations; and

“(2) identifies—

“(A) the quantity of power allocated to, or used for the benefit of, Indian tribes by the Western Area Power Administration;

“(B) the quantity of power sold to Indian tribes by other power marketing administrations; and

"(C) barriers that impede tribal access to and use of Federal power, including an assessment of opportunities to remove those barriers and improve the ability of power marketing administrations to deliver Federal power.

"(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $750,000, which shall remain available until expended and shall not be reimbursable.

"SEC. 2607. WIND AND HYDROPOWER FEASIBILITY STUDY.

"(a) STUDY.—The Secretary of Energy, in coordination with the Secretary of the Army and the Secretary, shall conduct a study of the cost and feasibility of developing a demonstration project that would use wind energy generated by Indian tribes and hydropower generated by the Army Corps of Engineers on the Missouri River to supply firming power to the Western Area Power Administration.

"(b) SCOPE OF STUDY.—The study shall—

"(1) determine the feasibility of the blending of wind energy and hydropower generated from the Missouri River dams operated by the Army Corps of Engineers;

"(2) review historical and projected requirements for firming power and the patterns of availability and use of firming power;

"(3) assess the wind energy resource potential on tribal land and projected cost savings through a blend of wind and hydropower over a 30-year period;

"(4) determine seasonal capacity needs and associated transmission upgrades for integration of tribal wind generation; and

"(5) include an independent tribal engineer as a study team member.

"(c) REPORT.—Not later than 1 year after the date of enactment of the Energy Policy Act of 2003, the Secretary and Secretary of the Army shall submit to Congress a report that describes the results of the study, including—

"(1) an analysis of the potential energy cost or benefits to the customers of the Western Area Power Administration through the use of combined wind and hydropower;

"(2) an evaluation of whether a combined wind and hydropower system can reduce reservoir fluctuation, enhance efficient and reliable energy production, and provide Missouri River management flexibility;

"(3) recommendations for a demonstration project that could be carried out by the Western Area Power Administration in partnership with an Indian tribal government or tribal energy resource development organization to demonstrate the feasibility and potential of using wind energy produced on Indian land to supply firming energy to the Western Area Power Administration or any other Federal power marketing agency; and

"(4) an identification of—

"(A) the economic and environmental costs or benefits to be realized through such a Federal-tribal partnership; and

"(B) the manner in which such a partnership could contribute to the energy security of the United States.

"(d) FUNDING.—

"(1) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $500,000, to remain available until expended.

"(2) NONREIMBURSABILITY.—Costs incurred by the Secretary in carrying out this section shall be nonreimbursable.".

(b) CONFORMING AMENDMENTS.—The table of contents for the Energy Policy Act of 1992 is amended by striking the items relating to title XXVI and inserting the following:

"Sec. 2601. Definitions.
"Sec. 2602. Indian tribal energy resource development.
"Sec. 2603. Indian tribal energy resource regulation.
"Sec. 2604. Leases, business agreements, and rights-of-way involving energy development or transmission.
"Sec. 2605. Indian mineral development review.
"Sec. 2606. Federal Power Marketing Administrations.
"Sec. 2607. Wind and hydropower feasibility study.".

SEC. 504. FOUR CORNERS TRANSMISSION LINE PROJECT.

The Dine Power Authority, an enterprise of the Navajo Nation, shall be eligible to receive grants and other assistance as authorized by section 217 of the Department of Energy Organization Act, as added by section 502 of this title, and section 2602 of the Energy Policy Act of 1992, as amended by this title, for activities associated with the development of a transmission line from the Four Corners Area to southern Nevada, including related power generation opportunities.

SEC. 505. ENERGY EFFICIENCY IN FEDERALLY ASSISTED HOUSING.

(a) IN GENERAL.—The Secretary of Housing and Urban Development shall promote energy conservation in housing that is located on Indian land and assisted with Federal resources through—

(1) the use of energy-efficient technologies and innovations (including the procurement of energy-efficient refrigerators and other appliances);

(2) the promotion of shared savings contracts; and

(3) the use and implementation of such other similar technologies and innovations as the Secretary of Housing and Urban Development considers to be appropriate.

(b) AMENDMENT.—Section 202(2) of the Native American Housing and Self-Determination Act of 1996 (25 U.S.C. 4132(2)) is amended by inserting "improvement to achieve greater energy efficiency," after "planning,".

SEC. 506. CONSULTATION WITH INDIAN TRIBES.

In carrying out this title and the amendments made by this title, the Secretary of Energy and the Secretary shall, as appropriate and to the maximum extent practicable, involve and consult with Indian tribes in a manner that is consistent with the Federal trust and the government-to-government relationships between Indian tribes and the United States.

TITLE VI—NUCLEAR MATTERS

Subtitle A—Price-Anderson Act Amendments

SEC. 601. SHORT TITLE.

This subtitle may be cited as the "Price-Anderson Amendments Act of 2003".

SEC. 602. EXTENSION OF INDEMNIFICATION AUTHORITY.

(a) INDEMNIFICATION OF NUCLEAR REGULATORY COMMISSION LICENSEES.—Section 170 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(c)) is amended—

(1) in the subsection heading, by striking "LICENSES" and inserting "LICENSEES"; and

(2) by striking "December 31, 2003" each place it appears and inserting "December 31, 2023".

(b) INDEMNIFICATION OF DEPARTMENT OF ENERGY CONTRACTORS.—Section 170 d.(1)(A) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)(1)(A)) is amended by striking "December 31, 2004" and inserting "December 31, 2023".

(c) INDEMNIFICATION OF NONPROFIT EDUCATIONAL INSTITUTIONS.—Section 170 k. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(k)) is amended by striking "August 1, 2002" each place it appears and inserting "December 31, 2023".

SEC. 603. MAXIMUM ASSESSMENT.

Section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) is amended—

(1) in the second proviso of the third sentence of subsection b.(1)—

(A) by striking "$63,000,000" and inserting "$95,800,000"; and

(B) by striking "$10,000,000 in any 1 year" and inserting "$15,000,000 in any 1 year (subject to adjustment for inflation under subsection t.)"; and

(2) in subsection t.(1)—

(A) by inserting "total and annual" after "amount of the maximum";

(B) by striking "the date of the enactment of the Price-Anderson Amendments Act of 1988" and inserting "August 20, 2003"; and

(C) in subparagraph (A), by striking "such date of enactment" and inserting "August 20, 2003".

SEC. 604. DEPARTMENT OF ENERGY LIABILITY LIMIT.

(a) INDEMNIFICATION OF DEPARTMENT OF ENERGY CONTRACTORS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is amended by striking paragraph (2) and inserting the following:

"(2) In an agreement of indemnification entered into under paragraph (1), the Secretary—

"(A) may require the contractor to provide and maintain financial protection of such a type and in such amounts as the Secretary shall determine to be appropriate to cover public liability arising out of or in connection with the contractual activity; and

"(B) shall indemnify the persons indemnified against such liability above the amount of the financial protection required, in the amount of $10,000,000,000 (subject to adjustment for inflation under subsection t.), in the aggregate, for all persons indemnified in connection with the contract and for each nuclear incident, including such legal costs of the contractor as are approved by the Secretary.".

(b) CONTRACT AMENDMENTS.—Section 170 d. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)) is further amended by striking paragraph (3) and inserting the following—

"(3) All agreements of indemnification under which the Department of Energy (or its predecessor agencies) may be required to indemnify any person under this section shall be deemed to be amended, on the date of enactment of the Price-Anderson Amendments Act of 2003, to reflect the amount of indemnity for public liability and any applicable financial protection required of the contractor under this subsection.".

(c) LIABILITY LIMIT.—Section 170 e.(1)(B) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(1)(B)) is amended—

(1) by striking "the maximum amount of financial protection required under subsection b. or"; and

(2) by striking "paragraph (3) of subsection d., whichever amount is more" and inserting "paragraph (2) of subsection d.".

SEC. 605. INCIDENTS OUTSIDE THE UNITED STATES.

(a) AMOUNT OF INDEMNIFICATION.—Section 170 d.(5) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(d)(5)) is amended by striking "$100,000,000" and inserting "$500,000,000".

(b) LIABILITY LIMIT.—Section 170 e.(4) of the Atomic Energy Act of 1954 (42 U.S.C. 2210(e)(4)) is amended by striking "$100,000,000" and inserting "$500,000,000".

SEC. 606. REPORTS.

Section 170 p. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(p)) is amended by striking "August 1, 1998" and inserting "December 31, 2019".

SEC. 607. INFLATION ADJUSTMENT.

Section 170 t. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(t)) is amended—

(1) by redesignating paragraph (2) as paragraph (3); and

(2) by inserting after paragraph (1) the following:

"(2) The Secretary shall adjust the amount of indemnification provided under an agreement of indemnification under subsection d. not less than once during each 5-year period following July 1, 2003, in accordance with the aggregate percentage change in the Consumer Price Index since—

"(A) that date, in the case of the first adjustment under this paragraph; or

"(B) the previous adjustment under this paragraph.".

SEC. 608. TREATMENT OF MODULAR REACTORS.

Section 170 b. of the Atomic Energy Act of 1954 (42 U.S.C. 2210(b)) is amended by adding at the end the following:

"(5)(A) For purposes of this section only, the Commission shall consider a combination of facilities described in subparagraph (B) to be a single facility having a rated capacity of 100,000 electrical kilowatts or more.

"(B) A combination of facilities referred to in subparagraph (A) is 2 or more facilities located at a single site, each of which has a rated capacity of 100,000 electrical kilowatts or more but not more than 300,000 electrical kilowatts, with a combined rated capacity of not more than 1,300,000 electrical kilowatts.".

SEC. 609. APPLICABILITY.

The amendments made by sections 603, 604, and 605 do not apply to a nuclear incident that occurs before the date of the enactment of this Act.

SEC. 610. PROHIBITION ON ASSUMPTION BY UNITED STATES GOVERNMENT OF LIABILITY FOR CERTAIN FOREIGN INCIDENTS.

Section 170 of the Atomic Energy Act of 1954 (42 U.S.C. 2210) is amended by adding at the end the following new subsection:

"u. PROHIBITION ON ASSUMPTION OF LIABILITY FOR CERTAIN FOREIGN INCIDENTS.—Notwithstanding this section or any other provision of law, no officer of the United States or of any department, agency, or instrumentality of the United States Government may enter into any contract or other arrangement, or into any amendment or modification of a contract or other arrangement, the purpose or effect of which would be to directly or indirectly impose liability on the United States Government, or any department, agency, or instrumentality of the United States Government, or to otherwise directly or indirectly require an indemnity by the United States Government, for nuclear incidents occurring in connection with the design, construction, or operation of a production facility or utilization facility in any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which, as of September 11, 2001, had been determined by the Secretary of State under section 620A(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371(a)), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)) to have repeatedly provided support for acts of international terrorism). This subsection shall not apply to nuclear incidents occurring as a result of missions, carried out under the direction of the Secretary of Energy, the Secretary of Defense, or the Secretary of State, that are necessary to safely secure, store, transport, or remove nuclear materials for nuclear safety or nonproliferation purposes.".

SEC. 611. CIVIL PENALTIES.

(a) REPEAL OF AUTOMATIC REMISSION.—Section 234A b.(2) of the Atomic Energy Act of 1954 (42 U.S.C. 2282a(b)(2)) is amended by striking the last sentence.

(b) LIMITATION FOR NOT-FOR-PROFIT INSTITUTIONS.—Subsection d. of section 234A of the Atomic Energy Act of 1954 (42 U.S.C. 2282a(d)) is amended to read as follows:

"d.(1) Notwithstanding subsection a., in the case of any not-for-profit contractor, subcontractor, or supplier, the total amount of civil penalties paid under subsection a. may not exceed the total amount of fees paid within any 1-year period (as determined by the Secretary) under the contract under which the violation occurs.

"(2) For purposes of this section, the term "not-for-profit" means that no part of the net earnings of the contractor, subcontractor, or supplier inures to the benefit of any natural person or for-profit artificial person.".

(c) EFFECTIVE DATE.—The amendments made by this section shall not apply to any violation of the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.) occurring under a contract entered into before the date of enactment of this section.

Subtitle B—General Nuclear Matters

SEC. 621. LICENSES.

Section 103 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2133(c)) is amended by inserting "from the authorization to commence operations" after "forty years".

SEC. 622. NRC TRAINING PROGRAM.

(a) IN GENERAL.—In order to maintain the human resource investment and infrastructure of the United States in the nuclear sciences, health physics, and engineering fields, in accordance with the statutory authorities of the Nuclear Regulatory Commission relating to the civilian nuclear energy program, the Nuclear Regulatory Commission shall carry out a training and fellowship program to address shortages of individuals with critical nuclear safety regulatory skills.

(b) AUTHORIZATION OF APPROPRIATIONS.—

(1) IN GENERAL.—There are authorized to be appropriated to the Nuclear Regulatory Commission to carry out this section $1,000,000 for each of fiscal years 2004 through 2008.

(2) AVAILABILITY.—Funds made available under paragraph (1) shall remain available until expended.

SEC. 623. COST RECOVERY FROM GOVERNMENT AGENCIES.

Section 161 w. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(w)) is amended—

(1) by striking "for or is issued" and all that follows through "1702" and inserting "to the Commission for, or is issued by the Commission, a license or certificate";

(2) by striking "483a" and inserting "9701"; and

(3) by striking ", of applicants for, or holders of, such licenses or certificates".

SEC. 624. ELIMINATION OF PENSION OFFSET.

Section 161 of the Atomic Energy Act of 1954 (42 U.S.C. 2201) is amended by adding at the end the following:

"y. Exempt from the application of sections 8344 and 8468 of title 5, United States Code, an annuitant who was formerly an employee of the Commission who is hired by the Commission as a consultant, if the Commission finds that the annuitant has a skill that is critical to the performance of the duties of the Commission.".

SEC. 625. ANTITRUST REVIEW.

Section 105 c. of the Atomic Energy Act of 1954 (42 U.S.C. 2135(c)) is amended by adding at the end the following:

"(9) APPLICABILITY.—This subsection does not apply to an application for a license to construct or operate a utilization facility or production facility under section 103 or 104 b. that is filed on or after the date of enactment of this paragraph.".

SEC. 626. DECOMMISSIONING.

Section 161 i. of the Atomic Energy Act of 1954 (42 U.S.C. 2201(i)) is amended—

(1) by striking "and (3)" and inserting "(3)"; and

(2) by inserting before the semicolon at the end the following: ", and (4) to ensure that sufficient funds will be available for the decommissioning of any production or utilization facility licensed under section 103 or 104 b., including standards and restrictions governing the control, maintenance, use, and disbursement by any former licensee under this Act that has control over any fund for the decommissioning of the facility".

SEC. 627. LIMITATION ON LEGAL FEE REIMBURSEMENT.

The Department of Energy shall not, except as required under a contract entered into before the date of enactment of this Act, reimburse any contractor or subcontractor of the Department for any legal fees or expenses incurred with respect to a complaint subsequent to—

(1) an adverse determination on the merits with respect to such complaint against the contractor or subcontractor by the Director of the Department of Energy's Office of Hearings and Appeals pursuant to part 708 of title 10, Code of Federal Regulations, or by a Department of Labor Administrative Law Judge pursuant to section 211 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851); or

(2) an adverse final judgment by any State or Federal court with respect to such complaint against the contractor or subcontractor for wrongful termination or retaliation due to the making of disclosures protected under chapter 12 of title 5, United States Code, section 211 of the Energy Reorganization Act of 1974 (42 U.S.C. 5851), or any comparable State law,

unless the adverse determination or final judgment is reversed upon further administrative or judicial review.

SEC. 628. DECOMMISSIONING PILOT PROGRAM.

(a) PILOT PROGRAM.—The Secretary of Energy shall establish a decommissioning pilot program to decommission and decontaminate the sodium-cooled fast breeder experimental test-site reactor located in northwest Arkansas in accordance with the decommissioning activities contained in the August 31, 1998, Department of Energy report on the reactor.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy to carry out this section $16,000,000.

SEC. 629. REPORT ON FEASIBILITY OF DEVELOPING COMMERCIAL NUCLEAR ENERGY GENERATION FACILITIES AT EXISTING DEPARTMENT OF ENERGY SITES.

Not later than 1 year after the date of the enactment of this Act, the Secretary of Energy shall submit to Congress a report on the feasibility of developing commercial nuclear energy generation facilities at Department of Energy sites in existence on the date of enactment of this Act.

SEC. 630. URANIUM SALES.

(a) SALES, TRANSFERS, AND SERVICES.—Section 3112 of the USEC Privatization Act (42 U.S.C. 2297h–10) is amended by striking subsections (d), (e), and (f) and inserting the following:

"(3) The Secretary may transfer to the Corporation, notwithstanding subsections (b)(2) and (d), natural uranium in amounts sufficient to fulfill the Department of Energy's commitments under Article 4(B) of the Agreement between the Department and the Corporation dated June 17, 2002.

"(d) INVENTORY SALES.—(1) In addition to the transfers and sales authorized under subsections (b) and (c) and under paragraph (5) of this subsection, the United States Government may transfer or sell uranium in any form subject to paragraphs (2), (3), and (4).

"(2) Except as provided in subsections (b) and (c) and paragraph (5) of this subsection, no sale or transfer of uranium shall be made under this subsection by the United States Government unless—

"(A) the President determines that the material is not necessary for national security needs and the sale or transfer has no adverse impact on implementation of existing government-to-government agreements;

"(B) the price paid to the appropriate Federal agency, if the transaction is a sale, will not be less than the fair market value of the material; and

"(C) the sale or transfer to commercial nuclear power end users is made pursuant to a contract of at least 3 years' duration.

"(3) Except as provided in paragraph (5), the United States Government shall not make any transfer or sale of uranium in any form under this subsection that would cause the total amount of uranium transferred or sold pursuant to this subsection that is delivered for consumption by commercial nuclear power end users to exceed—

"(A) 3,000,000 pounds of U_3O_8 *equivalent in fiscal year 2004, 2005, 2006, 2007, 2008, or 2009;*

"(B) 5,000,000 pounds of U_3O_8 *equivalent in fiscal year 2010 or 2011;*

"(C) 7,000,000 pounds of U_3O_8 *equivalent in fiscal year 2012; and*

"(D) 10,000,000 pounds of U_3O_8 *equivalent in fiscal year 2013 or any fiscal year thereafter.*

"(4) Except for sales or transfers under paragraph (5), for the purposes of this subsection, the recovery of uranium from uranium bearing materials transferred or sold by the United States Government to the domestic uranium industry shall be the preferred method of making uranium available. The recovered uranium shall be counted against the annual maximum deliveries set forth in this section, when such uranium is sold to end users.

"(5) The United States Government may make the following sales and transfers:

"(A) Sales or transfers to a Federal agency if the material is transferred for the use of the receiving agency without any resale or transfer to another entity and the material does not meet commercial specifications.

"(B) Sales or transfers to any person for national security purposes, as determined by the Secretary.

"(C) Sales or transfers to any State or local agency or nonprofit, charitable, or educational institution for use other than the generation of electricity for commercial use.

"(D) Sales or transfers to the Department of Energy research reactor sales program.

"(E) Sales or transfers, at fair market value, for emergency purposes in the event of a disruption in supply to commercial nuclear power end users in the United States.

"(F) Sales or transfers, at fair market value, for use in a commercial reactor in the United States with nonstandard fuel requirements.

"(G) Sales or transfers provided for under law for use by the Tennessee Valley Authority in relation to the Department of Energy's highly enriched uranium or tritium programs.

"(6) For purposes of this subsection, the term "United States Government" does not include the Tennessee Valley Authority.

"(e) SAVINGS PROVISION.—Nothing in this subchapter modifies the terms of the Russian HEU Agreement.——

"(f) SERVICES.—Notwithstanding any other provision of this section, if the Secretary determines that the Corporation has failed, or may fail, to perform any obligation under the Agreement between the Department of Energy and the Corporation dated June 17, 2002, and as amended thereafter, which failure could result in termination of the Agreement, the Secretary shall notify Congress, in such a manner that affords Congress an opportunity to comment, prior to a determination by the Secretary whether termination, waiver, or modification of the Agreement is required. The Secretary is authorized to take such action as he determines necessary under the Agreement to terminate, waive, or modify provisions of the Agreement to achieve its purposes.".

(b) REPORT.—Not later than 3 years after the date of enactment of this Act, the Secretary of Energy shall report to Congress on the implementation of this section. The report shall include a discussion of available excess uranium inventories; all sales or transfers made by the United States Government; the impact of such sales or transfers on the domestic uranium industry, the spot market uranium price, and the national security interests of the United States; and any steps taken to remediate any adverse impacts of such sales or transfers.

SEC. 631. COOPERATIVE RESEARCH AND DEVELOPMENT AND SPECIAL DEMONSTRATION PROJECTS FOR THE URANIUM MINING INDUSTRY.

(a) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy $10,000,000 for each of fiscal years 2004, 2005, and 2006 for—

(1) cooperative, cost-shared agreements between the Department of Energy and domestic uranium producers to identify, test, and develop improved in situ leaching mining technologies, including low-cost environmental restoration technologies that may be applied to sites after completion of in situ leaching operations; and

(2) funding for competitively selected demonstration projects with domestic uranium producers relating to—

(A) enhanced production with minimal environmental impacts;

(B) restoration of well fields; and

(C) decommissioning and decontamination activities.

(b) DOMESTIC URANIUM PRODUCER.—For purposes of this section, the term "domestic uranium producer" has the meaning given that term in section 1018(4) of the Energy Policy Act of 1992 (42 U.S.C. 2296b–7(4)), except that the term shall not include any producer that has not produced uranium from domestic reserves on or after July 30, 1998.

(c) LIMITATION.—No activities funded under this section may be carried out in the State of New Mexico.

SEC. 632. WHISTLEBLOWER PROTECTION.

(a) DEFINITION OF EMPLOYER.—Section 211(a)(2) of the Energy Reorganization Act of 1974 (42 U.S.C. 5851(a)(2)) is amended—

(1) in subparagraph (C), by striking "and" at the end;

(2) in subparagraph (D), by striking the period at the end and inserting "; and" and

(3) by adding at the end the following:

"(E) a contractor or subcontractor of the Commission.".–

(b) DE NOVO REVIEW.—Subsection (b) of such section 211 is amended by adding at the end the following new paragraph:

"(4) If the Secretary has not issued a final decision within 540 days after the filing of a complaint under paragraph (1), and there is no showing that such delay is due to the bad faith of the person seeking relief under this paragraph, such person may bring an action at law or equity for de novo review in the appropriate district court of the United States, which shall have jurisdiction over such an action without regard to the amount in controversy.".

SEC. 633. MEDICAL ISOTOPE PRODUCTION.

Section 134 of the Atomic Energy Act of 1954 (42 U.S.C. 2160d) is amended—

(1) in subsection a., by striking "a. The Commission" and inserting "a. IN GENERAL.—Except as provided in subsection b., the Commission";

(2) by redesignating subsection b. as subsection c.; and

(3) by inserting after subsection a. the following:

"b. MEDICAL ISOTOPE PRODUCTION.—

"(1) DEFINITIONS.—In this subsection:

"(A) HIGHLY ENRICHED URANIUM.—The term 'highly enriched uranium' means uranium enriched to include concentration of U–235 above 20 percent.

"(B) MEDICAL ISOTOPE.—The term 'medical isotope' includes Molybdenum 99, Iodine 131, Xenon 133, and other radioactive materials used to produce a radiopharmaceutical for diagnostic, therapeutic procedures or for research and development.

"(C) RADIOPHARMACEUTICAL.—The term 'radiopharmaceutical' means a radioactive isotope that—

"(i) contains byproduct material combined with chemical or biological material; and

"(ii) is designed to accumulate temporarily in a part of the body for therapeutic purposes or for enabling the production of a useful image for use in a diagnosis of a medical condition.

"(D) RECIPIENT COUNTRY.—The term 'recipient country' means Canada, Belgium, France, Germany, and the Netherlands.

"(2) LICENSES.—The Commission may issue a license authorizing the export (including shipment to and use at intermediate and ultimate consignees specified in the license) to a recipient country of highly enriched uranium for medical isotope production if, in addition to any other requirements of this Act (except subsection a.), the Commission determines that—

"(A) a recipient country that supplies an assurance letter to the United States Government in connection with the consideration by the Commission of the export license application has informed the United States Government that any intermediate consignees and the ultimate consignee specified in the application are required to use the highly enriched uranium solely to produce medical isotopes; and

"(B) the highly enriched uranium for medical isotope production will be irradiated only in a reactor in a recipient country that—

"(i) uses an alternative nuclear reactor fuel; or

"(ii) is the subject of an agreement with the United States Government to convert to an alternative nuclear reactor fuel when alternative nuclear reactor fuel can be used in the reactor.

"(3) REVIEW OF PHYSICAL PROTECTION REQUIREMENTS.—

"(A) IN GENERAL.—The Commission shall review the adequacy of physical protection requirements that, as of the date of an application under paragraph (2), are applicable to the transportation and storage of highly enriched uranium for medical isotope production or control of residual material after irradiation and extraction of medical isotopes.

"(B) IMPOSITION OF ADDITIONAL REQUIREMENTS.—If the Commission determines that additional physical protection requirements are necessary (including a limit on the quantity of highly enriched uranium that may be contained in a single shipment), the Commission shall impose such requirements as license conditions or through other appropriate means.

"(4) FIRST REPORT TO CONGRESS.—

"(A) NAS STUDY.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study to determine—

"(i) the feasibility of procuring supplies of medical isotopes from commercial sources that do not use highly enriched uranium;

"(ii) the current and projected demand and availability of medical isotopes in regular current domestic use;

"(iii) the progress that is being made by the Department of Energy and others to eliminate all use of highly enriched uranium in reactor fuel, reactor targets, and medical isotope production facilities; and

"(iv) the potential cost differential in medical isotope production in the reactors and target processing facilities if the products were derived from production systems that do not involve fuels and targets with highly enriched uranium.

"(B) Feasibility.—For the purpose of this subsection, the use of low enriched uranium to produce medical isotopes shall be determined to be feasible if—

"(i) low enriched uranium targets have been developed and demonstrated for use in the reactors and target processing facilities that produce significant quantities of medical isotopes to serve United States needs for such isotopes;

"(ii) sufficient quantities of medical isotopes are available from low enriched uranium targets and fuel to meet United States domestic needs; and

"(iii) the average anticipated total cost increase from production of medical isotopes in such facilities without use of highly enriched uranium is less than 10 percent.

"(C) Report by the Secretary.—Not later than 5 years after the date of enactment of the Energy Policy Act of 2003, the Secretary shall submit to Congress a report that—

"(i) contains the findings of the National Academy of Sciences made in the study under subparagraph (A); and

"(ii) discloses the existence of any commitments from commercial producers to provide domestic requirements for medical isotopes without use of highly enriched uranium consistent with the feasibility criteria described in subparagraph (B) not later than the date that is 4 years after the date of submission of the report.

"(5) Second report to Congress.—If the study of the National Academy of Sciences determines under paragraph (4)(A)(i) that the procurement of supplies of medical isotopes from commercial sources that do not use highly enriched uranium is feasible, but the Secretary is unable to report the existence of commitments under paragraph (4)(C)(ii), not later than the date that is 6 years after the date of enactment of the Energy Policy Act of 2003, the Secretary shall submit to Congress a report that describes options for developing domestic supplies of medical isotopes in quantities that are adequate to meet domestic demand without the use of highly enriched uranium consistent with the cost increase described in paragraph (4)(B)(iii).

"(6) Certification.—At such time as commercial facilities that do not use highly enriched uranium are capable of meeting domestic requirements for medical isotopes, within the cost increase described in paragraph (4)(B)(iii) and without impairing the reliable supply of medical isotopes for domestic utilization, the Secretary shall submit to Congress a certification to that effect.

"(7) Sunset provision.—After the Secretary submits a certification under paragraph (6), the Commission shall, by rule, terminate its review of export license applications under this subsection.".

SEC. 634. FERNALD BYPRODUCT MATERIAL.

Notwithstanding any other law, the material in the concrete silos at the Fernald uranium processing facility managed on the date of enactment of this Act by the Department of Energy shall be considered byproduct material (as defined by section 11 e.(2) of the Atomic Energy Act of 1954 (42 U.S.C. 2014(e)(2))). The Department of Energy may dispose of the material in a facility regulated by the Nuclear Regulatory Commission or by an Agreement State. If the Department of Energy disposes of the material in such a facility, the Nuclear Regulatory Commission or the Agreement State shall regulate the material as byproduct material under that Act. This material shall remain subject to the jurisdiction of the Department of Energy until it is received at a commercial, Nuclear Regulatory Commission-licensed, or Agreement State-licensed facility, at which time the material shall be subject to the health and safety requirements of the Nuclear Regulatory Commission or the Agreement State with jurisdiction over the disposal site.

SEC. 635. SAFE DISPOSAL OF GREATER-THAN-CLASS C RADIOACTIVE WASTE.

(a) Designation of Responsibility.—The Secretary of Energy shall designate an Office within the Department of Energy to have the responsibility for activities needed to develop a new, or use an existing, facility for safely disposing of all low-level radioactive waste with concentrations of radionuclides that exceed the limits established by the Nuclear Regulatory Commission for Class C radioactive waste (referred to in this section as "GTCC waste").

(b) Comprehensive Plan.—The Secretary of Energy shall develop a comprehensive plan for permanent disposal of GTCC waste which includes plans for a disposal facility. This plan shall be transmitted to Congress in a series of reports, including the following:

(1) Report on short-term plan.—Not later than 180 days after the date of enactment of this Act, the Secretary of Energy shall submit to Congress a plan describing the Secretary's operational strategy for continued recovery and storage of GTCC waste until a permanent disposal facility is available.

(2) Update of 1987 report.—

(A) In general.—Not later than 1 year after the date of enactment of this Act, the Secretary of Energy shall submit to Congress an update of the Secretary's February 1987 report submitted to Congress that made comprehensive recommendations for the disposal of GTCC waste.

(B) Contents.—The update under this paragraph shall contain—

(i) a detailed description and identification of the GTCC waste that is to be disposed;

(ii) a description of current domestic and international programs, both Federal and commercial, for management and disposition of GTCC waste;

(iii) an identification of the Federal and private options and costs for the safe disposal of GTCC waste;

(iv) an identification of the options for ensuring that, wherever possible, generators and users of GTCC waste bear all reasonable costs of waste disposal;

(v) an identification of any new statutory authority required for disposal of GTCC waste; and

(vi) in coordination with the Environmental Protection Agency and the Nuclear Regulatory Commission, an identification of any new regulatory guidance needed for the disposal of GTCC waste.

(3) Report on cost and schedule for completion of environmental impact statement and record of decision.—Not later than 180 days after the date of submission of the update required under paragraph (2), the Secretary of Energy shall submit to Congress a report containing an estimate of the cost and schedule to complete a draft and final environmental impact statement and to issue a record of decision for a permanent disposal facility, utilizing either a new or existing facility, for GTCC waste.

SEC. 636. PROHIBITION ON NUCLEAR EXPORTS TO COUNTRIES THAT SPONSOR TERRORISM.

(a) In General.—Section 129 of the Atomic Energy Act of 1954 (42 U.S.C. 2158) is amended—

(1) by inserting "a." before "No nuclear materials and equipment"; and

(2) by adding at the end the following new subsection:

"b.(1) Notwithstanding any other provision of law, including specifically section 121 of this Act, and except as provided in paragraphs (2) and (3), no nuclear materials and equipment or sensitive nuclear technology, including items and assistance authorized by section 57 b. of this Act and regulated under part 810 of title 10, Code of Federal Regulations, and nuclear-related items on the Commerce Control List maintained under part 774 of title 15 of the Code of Federal Regulations, shall be exported or reexported, or transferred or retransferred whether directly or indirectly, and no Federal agency shall issue any license, approval, or authorization for the export or reexport, or transfer, or retransfer, whether directly or indirectly, of these items or assistance (as defined in this paragraph) to any country whose government has been identified by the Secretary of State as engaged in state sponsorship of terrorist activities (specifically including any country the government of which has been determined by the Secretary of State under section 620A(a) of the Foreign Assistance Act of 1961 (22 U.S.C. 2371(a)), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)) to have repeatedly provided support for acts of international terrorism).

"(2) This subsection shall not apply to exports, reexports, transfers, or retransfers of radiation monitoring technologies, surveillance equipment, seals, cameras, tamper-indication devices, nuclear detectors, monitoring systems, or equipment necessary to safely store, transport, or remove hazardous materials, whether such items, services, or information are regulated by the Department of Energy, the Department of Commerce, or the Nuclear Regulatory Commission, except to the extent that such technologies, equipment, seals, cameras, devices, detectors, or systems are available for use in the design or construction of nuclear reactors or nuclear weapons.

"(3) The President may waive the application of paragraph (1) to a country if the President determines and certifies to Congress that the waiver will not result in any increased risk that the country receiving the waiver will acquire nuclear weapons, nuclear reactors, or any materials or components of nuclear weapons and—

"(A) the government of such country has not within the preceding 12-month period willfully aided or abetted the international proliferation of nuclear explosive devices to individuals or groups or willfully aided and abetted an individual or groups in acquiring unsafeguarded nuclear materials;

"(B) in the judgment of the President, the government of such country has provided adequate, verifiable assurances that it will cease its support for acts of international terrorism;

"(C) the waiver of that paragraph is in the vital national security interest of the United States; or

"(D) such a waiver is essential to prevent or respond to a serious radiological hazard in the country receiving the waiver that may or does threaten public health and safety.".

(b) Applicability To Exports Approved for Transfer but Not Transferred.—Subsection b. of section 129 of Atomic Energy Act of 1954, as added by subsection (a) of this section, shall apply with respect to exports that have been approved for transfer as of the date of the enactment of this Act but have not yet been transferred as of that date.

SEC. 637. URANIUM ENRICHMENT FACILITIES.

(a) Nuclear Regulatory Commission Review of Applications.—

(1) In general.—In order to facilitate a timely review and approval of an application in a proceeding for a license for the construction and operation of a uranium enrichment facility under sections 53 and 63 of the Atomic Energy Act of 1954 (42 U.S.C. 2073, 2093) (referred to in this subsection as a "covered proceeding"), the

Nuclear Regulatory Commission shall, not later than 30 days after the receipt of the application, establish, by order, the schedule for the conduct of any hearing that may be requested by any person whose interest may be affected by the covered proceeding.

(2) Final Agency Decision.—The schedule shall provide that a final decision by the Commission on the application shall be made not later than the date that is 2 years after the date of submission of the application by the applicant.

(3) Compliance With Schedule.—

(A) In General.—The Commission shall establish a process to assess compliance with the schedule established under paragraph (1) on an ongoing basis during the course of the review of the application, including ensuring compliance with schedules and milestones that are established for the conduct of any covered proceeding by the Atomic Safety and Licensing Board.

(B) Report.—The Commission shall submit to Congress on a bimonthly basis a report describing the status of compliance with the schedule established under paragraph (1), including a description of the status of actions required to be completed pursuant to the schedule by officers and employees of—

(i) the Commission in undertaking the safety and environmental review of applications; and

(ii) the Atomic Safety and Licensing Board in the conduct of any covered proceeding.

(4) Environmental Review.—

(A) In General.—In evaluating an application under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) for licensing of a facility in a covered proceeding, the Commission shall limit the consideration of need to whether the licensing of the facility would advance the national interest of encouraging in the United States—

(i) additional secure, reliable uranium enrichment capacity;

(ii) diverse supplies and suppliers of uranium enrichment capacity; and

(iii) the deployment of advanced centrifuge enrichment technology.

(B) Comment.—In carrying out subparagraph (A), the Commission shall consider and solicit the views of other affected Federal agencies.

(C) Atomic Safety and Licensing Board.—

(i) In General.—Except as provided in clause (ii), in any covered proceeding, the Commission shall allow the litigation and resolution by the Atomic Safety and Licensing Board of issues arising under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), on the basis of information submitted by the applicant in its environmental report, prior to publication of any required environmental impact statement.

(ii) Exceptions.—On the publication of any required environmental impact statement, issues may be proffered for resolution by the Atomic Safety and Licensing Board only if information or conclusions in the environmental impact statement differ significantly from the information or conclusions in the environmental report submitted by the applicant.

(D) Environmental Justice.—In a covered proceeding, the Commission shall apply the criteria in Appendix C of the final report entitled "Environmental Review Guidance for Licensing Actions Associated with NMSS Programs" (NUREG-1748), published in August 2003, in any required review of environmental justice.

(5) Low-Level Waste.—In any covered proceeding, the Commission shall—

(A) deem the obligation of the Secretary of Energy pursuant to section 3113 of the USEC Privitization Act (42 U.S.C. 2297 h-11) to constitute a plausible strategy with regard to the disposition of depleted uranium generated by such facility; and

(B) treat any residual material that remains following the extraction of any usable resource value from depleted uranium as low-level radioactive waste under part 61 of title 10, Code of Federal Regulations.

(6) Adjudicatory Hearing on Licensing of Uranium Enrichment Facilities.—Section 193(b) of the Atomic Energy Act of 1954 (42 U.S.C. 2243(b)) is amended by striking paragraph (2) and inserting the following:

"(2) Timing.—On the issuance of a final decision on the application by the Atomic Safety and Licensing Board, the Commission shall issue and make immediately effective any license for the construction and operation of a uranium enrichment facility under sections 53 and 63, on a determination by the Commission that the issuance of the license would not cause irreparable injury to the public health and safety or the common defense and security, notwithstanding the pendency before the Commission of any appeal or petition for review of any decision of the Atomic Safety and Licensing Board.".

(b) Department of Energy Responsibilities.—

(1) In General.—Not later than 180 days after a request is made to the Secretary of Energy by an applicant for or recipient of a license for a uranium enrichment facility under section 53, 63, or 193 of the Atomic Energy Act of 1954 ((42 U.S.C. 2073, 2093, 2243), the Secretary shall enter into a memorandum of agreement with the applicant or licensee that provides a schedule for the transfer to the Secretary, not later than 5 years after the generation of any depleted uranium hexafluoride, of title and possession of the depleted uranium hexafluoride to be generated by the applicant or licensee.

(2) Cost.—

(A) In General.—Subject to subparagraphs (B) and (C), the memorandum of agreement shall specify the cost to be assessed by the Secretary for the transfer to the Secretary of the depleted uranium hexafluoride.

(B) Nondiscriminatory Basis.—The cost shall be determined by the Secretary on a nondiscriminatory basis.

(C) Cost.—Taking into account the physical and chemical characteristics of such depleted uranium hexafluoride, the cost shall not exceed the cost assessed by the Secretary for the acceptance of depleted uranium hexafluoride under—

(i) the memorandum of agreement between the United States Department of Energy and the United States Enrichment Corporation Relating to Depleted Uranium, dated June 30, 1998; and

(ii) the Agreement Between the U.S. Department of Energy and USEC Inc., dated June 17, 2002.

SEC. 638. NATIONAL URANIUM STOCKPILE.

(a) Stockpile Creation.—The Secretary of Energy may create a national low-enriched uranium stockpile with the goals to—

(1) enhance national energy security; and

(2) reduce global proliferation threats.

(b) Source of Material.—The Secretary shall obtain material for the stockpile from—

(1) material derived from blend-down of Russian highly enriched uranium derived from weapons materials; and

(2) domestically mined and enriched uranium.

(c) Limitation on Sales or Transfers.—Sales or transfer of materials in the stockpile shall occur pursuant to section 3112 of the USEC Privitization Act (42 U.S.C. 2297h–10), as amended by section 630 of this Act.

Subtitle C—Advanced Reactor Hydrogen Cogeneration Project

SEC. 651. PROJECT ESTABLISHMENT.

The Secretary of Energy (in this subtitle referred to as the "Secretary") is directed to establish an Advanced Reactor Hydrogen Cogeneration Project.

SEC. 652. PROJECT DEFINITION.

The project shall consist of the research, development, design, construction, and operation of a hydrogen production cogeneration research facility that, relative to the current commercial reactors, enhances safety features, reduces waste production, enhances thermal efficiencies, increases proliferation resistance, and has the potential for improved economics and physical security in reactor siting. This facility shall be constructed so as to enable research and development on advanced reactors of the type selected and on alternative approaches for reactor-based production of hydrogen.

SEC. 653. PROJECT MANAGEMENT.

(a) Management.—The project shall be managed within the Department by the Office of Nuclear Energy, Science, and Technology.

(b) Lead Laboratory.—The lead laboratory for the project, providing the site for the reactor construction, shall be the Idaho National Engineering and Environmental Laboratory (in this subtitle referred to as "INEEL").

(c) Steering Committee.—The Secretary shall establish a national steering committee with membership from the national laboratories, universities, and industry to provide advice to the Secretary and the Director of the Office of Nuclear Energy, Science, and Technology on technical and program management aspects of the project.

(d) Collaboration.—Project activities shall be conducted at INEEL, other national laboratories, universities, domestic industry, and international partners.

SEC. 654. PROJECT REQUIREMENTS.

(a) Research and Development.—

(1) In General.—The project shall include planning, research and development, design, and construction of an advanced, next-generation, nuclear energy system suitable for enabling further research and development on advanced reactor technologies and alternative approaches for reactor-based generation of hydrogen.

(2) Reactor Test Capabilities at INEEL.—The project shall utilize, where appropriate, extensive reactor test capabilities resident at INEEL.

(3) Alternatives.—The project shall be designed to explore technical, environmental, and economic feasibility of alternative approaches for reactor-based hydrogen production.

(4) Industrial Lead.—The industrial lead for the project shall be a company incorporated in the United States.

(b) International Collaboration.—

(1) In General.—The Secretary shall seek international cooperation, participation, and financial contribution in this project.

(2) Assistance From International Partners.—The Secretary may contract for assistance from specialists or facilities from member countries of the Generation IV International Forum, the Russian Federation, or other international partners where such specialists or facilities provide access to cost-effective and relevant skills or test capabilities.

(3) Generation IV International Forum.—International activities shall be coordinated with the Generation IV International Forum.

(4) Generation IV Nuclear Energy Systems Program.—The Secretary may combine this project with the Generation IV Nuclear Energy Systems Program.

(c) Demonstration.—The overall project, which may involve demonstration of selected project objectives in a partner nation, must demonstrate both electricity and hydrogen production and may provide flexibility, where technically and economically feasible in the design and construction, to enable tests of alternative reactor core and cooling configurations.

(d) PARTNERSHIPS.—The Secretary shall establish cost-shared partnerships with domestic industry or international participants for the research, development, design, construction, and operation of the research facility, and preference in determining the final project structure shall be given to an overall project which retains United States leadership while maximizing cost sharing opportunities and minimizing Federal funding responsibilities.

(e) TARGET DATE.—The Secretary shall select technologies and develop the project to provide initial testing of either hydrogen production or electricity generation by 2010, or provide a report to Congress explaining why this date is not feasible.

(f) WAIVER OF CONSTRUCTION TIMELINES.—The Secretary is authorized to conduct the Advanced Reactor Hydrogen Cogeneration Project without the constraints of DOE Order 413.3, relating to program and project management for the acquisition of capital assets, as necessary to meet the specified operational date.

(g) COMPETITION.—The Secretary may fund up to 2 teams for up to 1 year to develop detailed proposals for competitive evaluation and selection of a single proposal and concept for further progress. The Secretary shall define the format of the competitive evaluation of proposals.

(h) USE OF FACILITIES.—Research facilities in industry, national laboratories, or universities either within the United States or with cooperating international partners may be used to develop the enabling technologies for the research facility. Utilization of domestic university-based facilities shall be encouraged to provide educational opportunities for student development.

(i) ROLE OF NUCLEAR REGULATORY COMMISSION.—

(1) IN GENERAL.—The Nuclear Regulatory Commission shall have licensing and regulatory authority for any reactor authorized under this subtitle, pursuant to section 202 of the Energy Reorganization Act of 1974 (42 U.S.C. 5842).

(2) RISK-BASED CRITERIA.—The Secretary shall seek active participation of the Nuclear Regulatory Commission throughout the project to develop risk-based criteria for any future commercial development of a similar reactor architecture.

(j) REPORT—The Secretary shall develop and transmit to Congress a comprehensive project plan not later than April 30, 2004. The project plan shall be updated annually with each annual budget submission.

SEC. 655. AUTHORIZATION OF APPROPRIATIONS.

(a) RESEARCH, DEVELOPMENT, AND DESIGN PROGRAMS.—The following sums are authorized to be appropriated to the Secretary for all activities under this subtitle except for construction activities described in subsection (b):

(1) For fiscal year 2004, $35,000,000.

(2) For each of fiscal years 2005 through 2008, $150,000,000.

(3) For fiscal years beyond 2008, such sums as are necessary.

(b) CONSTRUCTION.—There are authorized to be appropriated to the Secretary for all project-related construction activities, to be available until expended, $500,000,000.

Subtitle D—Nuclear Security

SEC. 661. NUCLEAR FACILITY THREATS.

(a) STUDY.—The President, in consultation with the Nuclear Regulatory Commission (referred to in this subtitle as the "Commission") and other appropriate Federal, State, and local agencies and private entities, shall conduct a study to identify the types of threats that pose an appreciable risk to the security of the various classes of facilities licensed by the Commission under the Atomic Energy Act of 1954 (42 U.S.C. 2011 et seq.). Such study shall take into account, but not be limited to—

(1) the events of September 11, 2001;

(2) an assessment of physical, cyber, biochemical, and other terrorist threats;

(3) the potential for attack on facilities by multiple coordinated teams of a large number of individuals;

(4) the potential for assistance in an attack from several persons employed at the facility;

(5) the potential for suicide attacks;

(6) the potential for water-based and air-based threats;

(7) the potential use of explosive devices of considerable size and other modern weaponry;

(8) the potential for attacks by persons with a sophisticated knowledge of facility operations;

(9) the potential for fires, especially fires of long duration;

(10) the potential for attacks on spent fuel shipments by multiple coordinated teams of a large number of individuals;

(11) the adequacy of planning to protect the public health and safety at and around nuclear facilities, as appropriate, in the event of a terrorist attack against a nuclear facility; and

(12) the potential for theft and diversion of nuclear materials from such facilities.

(b) SUMMARY AND CLASSIFICATION REPORT.—Not later than 180 days after the date of the enactment of this Act, the President shall transmit to Congress and the Commission a report—

(1) summarizing the types of threats identified under subsection (a); and

(2) classifying each type of threat identified under subsection (a), in accordance with existing laws and regulations, as either—

(A) involving attacks and destructive acts, including sabotage, directed against the facility by an enemy of the United States, whether a foreign government or other person, or otherwise falling under the responsibilities of the Federal Government; or

(B) involving the type of risks that Commission licensees should be responsible for guarding against.

(c) FEDERAL ACTION REPORT.—Not later than 90 days after the date on which a report is transmitted under subsection (b), the President shall transmit to Congress a report on actions taken, or to be taken, to address the types of threats identified under subsection (b)(2)(A), including identification of the Federal, State, and local agencies responsible for carrying out the obligations and authorities of the United States. Such report may include a classified annex, as appropriate.

(d) REGULATIONS.—Not later than 180 days after the date on which a report is transmitted under subsection (b), the Commission may revise, by rule, the design basis threats issued before the date of enactment of this section as the Commission considers appropriate based on the summary and classification report.

(e) PHYSICAL SECURITY PROGRAM.—The Commission shall establish an operational safeguards response evaluation program that ensures that the physical protection capability and operational safeguards response for sensitive nuclear facilities, as determined by the Commission consistent with the protection of public health and the common defense and security, shall be tested periodically through Commission approved or designed, observed, and evaluated force-on-force exercises to determine whether the ability to defeat the design basis threat is being maintained. For purposes of this subsection, the term "sensitive nuclear facilities" includes at a minimum commercial nuclear power plants and category I fuel cycle facilities.

(f) CONTROL OF INFORMATION.—Notwithstanding any other provision of law, the Commission may undertake any rulemaking under this subtitle in a manner that will fully protect safeguards and classified national security information.

(g) FEDERAL SECURITY COORDINATORS.—

(1) REGIONAL OFFICES.—Not later than 18 months after the date of enactment of this Act, the Commission shall assign a Federal security coordinator, under the employment of the Commission, to each region of the Commission.

(2) RESPONSIBILITIES.—The Federal security coordinator shall be responsible for—

(A) communicating with the Commission and other Federal, State, and local authorities concerning threats, including threats against such classes of facilities as the Commission determines to be appropriate;

(B) ensuring that such classes of facilities as the Commission determines to be appropriate maintain security consistent with the security plan in accordance with the appropriate threat level; and

(C) assisting in the coordination of security measures among the private security forces at such classes of facilities as the Commission determines to be appropriate and Federal, State, and local authorities, as appropriate.

(h) TRAINING PROGRAM.—The President shall establish a program to provide technical assistance and training to Federal agencies, the National Guard, and State and local law enforcement and emergency response agencies in responding to threats against a designated nuclear facility.

SEC. 662. FINGERPRINTING FOR CRIMINAL HISTORY RECORD CHECKS.

(a) IN GENERAL.—Subsection a. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(a)) is amended—

(1) by striking "a. The Nuclear" and all that follows through "section 147." and inserting the following:

"a. IN GENERAL.—

"(1) REQUIREMENTS.—

"(A) IN GENERAL.— The Commission shall require each individual or entity—

"(i) that is licensed or certified to engage in an activity subject to regulation by the Commission;

"(ii) that has filed an application for a license or certificate to engage in an activity subject to regulation by the Commission; or

"(iii) that has notified the Commission, in writing, of an intent to file an application for licensing, certification, permitting, or approval of a product or activity subject to regulation by the Commission,

to fingerprint each individual described in subparagraph (B) before the individual is permitted unescorted access or access, whichever is applicable, as described in subparagraph (B).

"(B) INDIVIDUALS REQUIRED TO BE FINGERPRINTED.—The Commission shall require to be fingerprinted each individual who—

"(i) is permitted unescorted access to—

"(I) a utilization facility; or

"(II) radioactive material or other property subject to regulation by the Commission that the Commission determines to be of such significance to the public health and safety or the common defense and security as to warrant fingerprinting and background checks; or

"(ii) is permitted access to safeguards information under section 147.";

(2) by striking "All fingerprints obtained by a licensee or applicant as required in the preceding sentence" and inserting the following:

"(2) SUBMISSION TO THE ATTORNEY GENERAL.—All fingerprints obtained by an individual or entity as required in paragraph (1)";

(3) by striking "The costs of any identification and records check conducted pursuant to the preceding sentence shall be paid by the licensee or applicant." and inserting the following:

"(3) COSTS.—The costs of any identification and records check conducted pursuant to paragraph (1) shall be paid by the individual or entity required to conduct the fingerprinting under paragraph (1)(A)."; and

(4) by striking "Notwithstanding any other provision of law, the Attorney General may provide all the results of the search to the Commission, and, in accordance with regulations prescribed under this section, the Commission may provide such results to licensee or applicant submitting such fingerprints." and inserting the following:

"(4) PROVISION TO INDIVIDUAL OR ENTITY REQUIRED TO CONDUCT FINGERPRINTING.—Notwithstanding any other provision of law, the Attorney General may provide all the results of the search to the Commission, and, in accordance with regulations prescribed under this section, the Commission may provide such results to the individual or entity required to conduct the fingerprinting under paragraph (1)(A).".

(b) ADMINISTRATION—Subsection c. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(c)) is amended—

(1) by striking ", subject to public notice and comment, regulations—" and inserting "requirements—"; and

(2) by striking, in paragraph (2)(B), "unescorted access to the facility of a licensee or applicant" and inserting "unescorted access to a utilization facility, radioactive material, or other property described in subsection a.(1)(B)".

(c) BIOMETRIC METHODS.—Subsection d. of section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169(d)) is redesignated as subsection e., and the following is inserted after subsection c.:

"d. USE OF OTHER BIOMETRIC METHODS.—The Commission may satisfy any requirement for a person to conduct fingerprinting under this section using any other biometric method for identification approved for use by the Attorney General, after the Commission has approved the alternative method by rule.".

SEC. 663. USE OF FIREARMS BY SECURITY PERSONNEL OF LICENSEES AND CERTIFICATE HOLDERS OF THE COMMISSION.

Section 161 of the Atomic Energy Act of 1954 (42 U.S.C. 2201) is amended by adding at the end the following subsection:

"(z)(1) notwithstanding section 922(o), (v), and (w) of title 18, United States Code, or any similar provision of any State law or any similar rule or regulation of a State or any political subdivision of a State prohibiting the transfer or possession of a handgun, a rifle or shotgun, a short-barreled shotgun, a short-barreled rifle, a machinegun, a semiautomatic assault weapon, ammunition for the foregoing, or a large capacity ammunition feeding device, authorize security personnel of licensees and certificate holders of the Commission (including employees of contractors of licensees and certificate holders) to receive, possess, transport, import, and use 1 or more of those weapons, ammunition, or devices, if the Commission determines that—

"(A) such authorization is necessary to the discharge of the security personnel's official duties; and

"(B) the security personnel—

"(i) are not otherwise prohibited from possessing or receiving a firearm under Federal or State laws pertaining to possession of firearms by certain categories of persons;

"(ii) have successfully completed requirements established through guidelines implementing this subsection for training in use of firearms and tactical maneuvers;

"(iii) are engaged in the protection of—

"(I) facilities owned or operated by a Commission licensee or certificate holder that are designated by the Commission; or

"(II) radioactive material or other property owned or possessed by a person that is a licensee or certificate holder of the Commission, or that is being transported to or from a facility owned or operated by such a licensee or certificate holder, and that has been determined by the Commission to be of significance to the common defense and security or public health and safety; and

"(iv) are discharging their official duties.

"(2) Such receipt, possession, transportation, importation, or use shall be subject to—

"(A) chapter 44 of title 18, United States Code, except for section 922(a)(4), (o), (v), and (w);

"(B) chapter 53 of title 26, United States Code, except for section 5844; and

"(C) a background check by the Attorney General, based on fingerprints and including a check of the system established under section 103(b) of the Brady Handgun Violence Prevention Act (18 U.S.C. 922 note) to determine whether the person applying for the authority is prohibited from possessing or receiving a firearm under Federal or State law.

"(3) This subsection shall become effective upon the issuance of guidelines by the Commission, with the approval of the Attorney General, to govern the implementation of this subsection.

"(4) In this subsection, the terms "handgun", "rifle", "shotgun", "firearm", "ammunition", "machinegun", "semiautomatic assault weapon", "large capacity ammunition feeding device", "short-barreled shotgun", and "short-barreled rifle" shall have the meanings given those terms in section 921(a) of title 18, United States Code.".

SEC. 664. UNAUTHORIZED INTRODUCTION OF DANGEROUS WEAPONS.

Section 229 a. of the Atomic Energy Act of 1954 (42 U.S.C. 2278a(a)) is amended in the first sentence by inserting "or subject to the licensing authority of the Commission or to certification by the Commission under this Act or any other Act" before the period at the end.

SEC. 665. SABOTAGE OF NUCLEAR FACILITIES OR FUEL.

(a) IN GENERAL.—Section 236 a. of the Atomic Energy Act of 1954 (42 U.S.C. 2284(a)) is amended—

(1) in paragraph (2), by striking "storage facility" and inserting "storage, treatment, or disposal facility";

(2) in paragraph (3)—

(A) by striking "such a utilization facility" and inserting "a utilization facility licensed under this Act"; and

(B) by striking "or" at the end;

(3) in paragraph (4)—

(A) by striking "facility licensed" and inserting ", uranium conversion, or nuclear fuel fabrication facility licensed or certified"; and

(B) by striking the comma at the end and inserting a semicolon; and

(4) by inserting after paragraph (4) the following:

"(5) any production, utilization, waste storage, waste treatment, waste disposal, uranium enrichment, uranium conversion, or nuclear fuel fabrication facility subject to licensing or certification under this Act during construction of the facility, if the destruction or damage caused or attempted to be caused could adversely affect public health and safety during the operation of the facility;

"(6) any primary facility or backup facility from which a radiological emergency preparedness alert and warning system is activated; or

"(7) any radioactive material or other property subject to regulation by the Nuclear Regulatory Commission that, before the date of the offense, the Nuclear Regulatory Commission determines, by order or regulation published in the Federal Register, is of significance to the public health and safety or to common defense and security,".

(b) PENALTIES.—Section 236 of the Atomic Energy Act of 1954 (42 U.S.C. 2284) is amended by striking "$10,000 or imprisoned for not more than 20 years, or both, and, if death results to any person, shall be imprisoned for any term of years or for life" both places it appears and inserting "$1,000,000 or imprisoned for up to life without parole".

SEC. 666. SECURE TRANSFER OF NUCLEAR MATERIALS.

(a) AMENDMENT.—Chapter 14 of the Atomic Energy Act of 1954 (42 U.S.C. 2201–2210b) is amended by adding at the end the following new section:

"SEC. 170C. SECURE TRANSFER OF NUCLEAR MATERIALS.

"a. The Nuclear Regulatory Commission shall establish a system to ensure that materials described in subsection b., when transferred or received in the United States by any party pursuant to an import or export license issued pursuant to this Act, are accompanied by a manifest describing the type and amount of materials being transferred or received. Each individual receiving or accompanying the transfer of such materials shall be subject to a security background check conducted by appropriate Federal entities.

"b. Except as otherwise provided by the Commission by regulation, the materials referred to in subsection a. are byproduct materials, source materials, special nuclear materials, high-level radioactive waste, spent nuclear fuel, transuranic waste, and low-level radioactive waste (as defined in section 2(16) of the Nuclear Waste Policy Act of 1982 (42 U.S.C. 10101(16))).".

(b) REGULATIONS.—Not later than 1 year after the date of the enactment of this Act, and from time to time thereafter as it considers necessary, the Nuclear Regulatory Commission shall issue regulations identifying radioactive materials or classes of individuals that, consistent with the protection of public health and safety and the common defense and security, are appropriate exceptions to the requirements of section 170C of the Atomic Energy Act of 1954, as added by subsection (a) of this section.

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall take effect upon the issuance of regulations under subsection (b), except that the background check requirement shall become effective on a date established by the Commission.

(d) EFFECT ON OTHER LAW.—Nothing in this section or the amendment made by this section shall waive, modify, or affect the application of chapter 51 of title 49, United States Code, part A of subtitle V of title 49, United States Code, part B of subtitle VI of title 49, United States Code, and title 23, United States Code.

(e) TABLE OF SECTIONS AMENDMENT.—The table of sections for chapter 14 of the Atomic Energy Act of 1954 is amended by adding at the end the following new item:

"Sec. 170C. Secure transfer of nuclear materials.".

SEC. 667. DEPARTMENT OF HOMELAND SECURITY CONSULTATION.

Before issuing a license for a utilization facility, the Nuclear Regulatory Commission shall consult with the Department of Homeland Security concerning the potential vulnerabilities of the location of the proposed facility to terrorist attack.

SEC. 668. AUTHORIZATION OF APPROPRIATIONS.

(a) IN GENERAL.—There are authorized to be appropriated such sums as are necessary to carry out this subtitle and the amendments made by this subtitle.

(b) AGGREGATE AMOUNT OF CHARGES.—Section 6101(c)(2)(A) of the Omnibus Budget Reconciliation Act of 1990 (42 U.S.C. 2214(c)(2)(A)) is amended—

(1) in clause (i), by striking "and" at the end;

(2) in clause (ii), by striking the period at the end and inserting "; and" and

(3) by adding at the end the following:

"(iii) amounts appropriated to the Commission for homeland security activities of the Commission for the fiscal year, except for the costs of

fingerprinting and background checks required by section 149 of the Atomic Energy Act of 1954 (42 U.S.C. 2169) and the costs of conducting security inspections.".

TITLE VII—VEHICLES AND FUELS

Subtitle A—Existing Programs

SEC. 701. USE OF ALTERNATIVE FUELS BY DUAL-FUELED VEHICLES.

Section 400AA(a)(3)(E) of the Energy Policy and Conservation Act (42 U.S.C. 6374(a)(3)(E)) is amended to read as follows:

"(E)(i) Dual fueled vehicles acquired pursuant to this section shall be operated on alternative fuels unless the Secretary determines that an agency qualifies for a waiver of such requirement for vehicles operated by the agency in a particular geographic area in which—

"(I) the alternative fuel otherwise required to be used in the vehicle is not reasonably available to retail purchasers of the fuel, as certified to the Secretary by the head of the agency; or

"(II) the cost of the alternative fuel otherwise required to be used in the vehicle is unreasonably more expensive compared to gasoline, as certified to the Secretary by the head of the agency.

"(ii) The Secretary shall monitor compliance with this subparagraph by all such fleets and shall report annually to Congress on the extent to which the requirements of this subparagraph are being achieved. The report shall include information on annual reductions achieved from the use of petroleum-based fuels and the problems, if any, encountered in acquiring alternative fuels.".

SEC. 702. NEIGHBORHOOD ELECTRIC VEHICLES.

(a) AMENDMENTS.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) is amended—

(1) in paragraph (3), by striking "or a dual fueled vehicle" and inserting ", a dual fueled vehicle, or a neighborhood electric vehicle";

(2) in paragraph (13), by striking "and" at the end;

(3) in paragraph (14), by striking the period at the end and inserting "; and"; and

(4) by adding at the end the following:

"(15) the term 'neighborhood electric vehicle' means a motor vehicle that—

"(A) meets the definition of a low-speed vehicle (as defined in part 571 of title 49, Code of Federal Regulations);

"(B) meets the definition of a zero-emission vehicle (as defined in section 86.1702–99 of title 40, Code of Federal Regulations);

"(C) meets the requirements of Federal Motor Vehicle Safety Standard No. 500; and

"(D) has a maximum speed of not greater than 25 miles per hour.".

(b) CREDITS.—Notwithstanding section 508 of the Energy Policy Act of 1992 (42 U.S.C. 13258) or any other provision of law, a neighborhood electric vehicle shall not be allocated credit as more than 1 vehicle for purposes of determining compliance with any requirement under title III or title V of such Act.

SEC. 703. CREDITS FOR MEDIUM AND HEAVY DUTY DEDICATED VEHICLES.

Section 508 of the Energy Policy Act of 1992 (42 U.S.C. 13258) is amended by adding at the end the following:

"(e) CREDIT FOR PURCHASE OF MEDIUM AND HEAVY DUTY DEDICATED VEHICLES.—

"(1) DEFINITIONS.—In this subsection:

"(A) HEAVY DUTY DEDICATED VEHICLE.—The term 'heavy duty dedicated vehicle' means a dedicated vehicle that has a gross vehicle weight rating of more than 14,000 pounds.

"(B) MEDIUM DUTY DEDICATED VEHICLE.—The term 'medium duty dedicated vehicle' means a dedicated vehicle that has a gross vehicle weight rating of more than 8,500 pounds but not more than 14,000 pounds.

"(2) CREDITS FOR MEDIUM DUTY VEHICLES.—The Secretary shall issue 2 full credits to a fleet or covered person under this title, if the fleet or covered person acquires a medium duty dedicated vehicle.

"(3) CREDITS FOR HEAVY DUTY VEHICLES.—The Secretary shall issue 3 full credits to a fleet or covered person under this title, if the fleet or covered person acquires a heavy duty dedicated vehicle.

"(4) USE OF CREDITS.—At the request of a fleet or covered person allocated a credit under this subsection, the Secretary shall, for the year in which the acquisition of the dedicated vehicle is made, treat that credit as the acquisition of 1 alternative fueled vehicle that the fleet or covered person is required to acquire under this title.".

SEC. 704. INCREMENTAL COST ALLOCATION.

Section 303(c) of the Energy Policy Act of 1992 (42 U.S.C. 13212(c)) is amended by striking "may" and inserting "shall".

SEC. 705. ALTERNATIVE COMPLIANCE AND FLEXIBILITY.

(a) ALTERNATIVE COMPLIANCE.—

(1) IN GENERAL.—Title V of the Energy Policy Act of 1992 (42 U.S.C. 13251 et seq.) is amended—

(A) by redesignating section 514 as section 515; and

(B) by inserting after section 513 the following:

"SEC. 514. ALTERNATIVE COMPLIANCE.

"(a) APPLICATION FOR WAIVER.—Any covered person subject to section 501 and any State subject to section 507(o) may petition the Secretary for a waiver of the applicable requirements of section 501 or 507(o).

"(b) GRANT OF WAIVER.—The Secretary may grant a waiver of the requirements of section 501 or 507(o) upon a showing that the fleet owned, operated, leased, or otherwise controlled by the State or covered person—

"(1) will achieve a reduction in its annual consumption of petroleum fuels equal to the reduction in consumption of petroleum that would result from 100 percent compliance with fuel use requirements in section 501, or, for entities covered under section 507(o), a reduction equal to the covered State entity's consumption of alternative fuels if all its alternative fuel vehicles given credit under section 508 were to use alternative fuel 100 percent of the time; and

"(2) is in compliance with all applicable vehicle emission standards established by the Administrator under the Clean Air Act (42 U.S.C. 7401 et seq.).

"(c) REVOCATION OF WAIVER.—The Secretary shall revoke any waiver granted under this section if the State or covered person fails to comply with subsection (b).".

(2) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy Act of 1992 (42 U.S.C. prec. 13201) is amended by striking the item relating to section 514 and inserting the following:

"Sec. 514. Alternative compliance.
"Sec. 515. Authorization of appropriations.".

(b) CREDITS.—Section 508 of the Energy Policy Act of 1992 (42 U.S.C. 13258) (as amended by section 703) is amended—

(1) by redesignating subsections (b) through (e) as subsections (c) through (f), respectively;

(2) by striking subsection (a) and inserting the following:

"(a) IN GENERAL.—The Secretary shall allocate a credit to a fleet or covered person that is required to acquire an alternative fueled vehicle under this title, if that fleet or person acquires an alternative fueled vehicle—

"(1) in excess of the number that fleet or person is required to acquire under this title;

"(2) before the date on which that fleet or person is required to acquire an alternative fueled vehicle under this title; or

"(3) that is eligible to receive credit under subsection (b).

"(b) MAXIMUM AVAILABLE POWER.—The Secretary shall allocate credit to a fleet under subsection (a)(3) for the acquisition by the fleet of a hybrid vehicle as follows:

"(1) For a hybrid vehicle with at least 4 percent but less than 10 percent maximum available power, the Secretary shall allocate 25 percent of 1 credit.

"(2) For a hybrid vehicle with at least 10 percent but less than 20 percent maximum available power, the Secretary shall allocate 50 percent of 1 credit.

"(3) For a hybrid vehicle with at least 20 percent but less than 30 percent maximum available power, the Secretary shall allocate 75 percent of 1 credit.

"(4) For a hybrid vehicle with 30 percent or more maximum available power, the Secretary shall allocate 1 credit."; and

(3) by adding at the end the following:

"(g) CREDIT FOR INVESTMENT IN ALTERNATIVE FUEL INFRASTRUCTURE.—

"(1) DEFINITION OF QUALIFYING INFRASTRUCTURE.—In this subsection, the term 'qualifying infrastructure' means—

"(A) equipment required to refuel or recharge alternative fueled vehicles;

"(B) facilities or equipment required to maintain, repair, or operate alternative fueled vehicles; and

"(C) such other activities as the Secretary considers to constitute an appropriate expenditure in support of the operation, maintenance, or further widespread adoption of or utilization of alternative fueled vehicles.

"(2) ISSUANCE OF CREDITS.—The Secretary shall issue a credit to a fleet or covered person under this title for investment in qualifying infrastructure if the qualifying infrastructure is open to the general public during regular business hours.

"(3) AMOUNT.—For the purpose of credits under this subsection—

"(A) 1 credit shall be equal to a minimum investment of $25,000 in cash or equivalent expenditure, as determined by the Secretary; and

"(B) except in the case of a Federal or State fleet, no part of the investment may be provided by Federal or State funds.

"(4) USE OF CREDITS.—At the request of a fleet or covered person allocated a credit under this subsection, the Secretary shall, for the year in which the investment is made, treat that credit as the acquisition of 1 alternative fueled vehicle that the fleet or covered person is required to acquire under this title.

"(h) DEFINITION OF MAXIMUM AVAILABLE POWER.—In this section, the term 'maximum available power' means the quotient obtained by dividing—

"(1) the maximum power available from the energy storage device of a hybrid vehicle, during a standard 10-second pulse power or equivalent test; by

"(2) the sum of—

"(A) the maximum power described in subparagraph (A); and

"(B) the net power of the internal combustion or heat engine, as determined in accordance with standards established by the Society of Automobile Engineers.".

(c) LEASE CONDENSATE FUELS.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) (as amended by section 702) is amended—

(1) in paragraph (2), by inserting "mixtures containing 50 percent or more by volume of lease condensate or fuels extracted from lease condensate;" after "liquefied petroleum gas;";

(2) in paragraph (14)—

(A) by inserting "mixtures containing 50 percent or more by volume of lease condensate or fuels extracted from lease condensate," after "liquefied petroleum gas,"; and

(B) by striking "and" at the end;

(3) in paragraph (15), by striking the period at the end and inserting "; and"; and

(4) by adding at the end the following:

"(16) the term 'lease condensate' means a mixture, primarily of pentanes and heavier hydrocarbons, that is recovered as a liquid from natural gas in lease separation facilities.".

(d) LEASE CONDENSATE USE CREDITS.—

(1) IN GENERAL.—Title III of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.) is amended by adding at the end the following:

"SEC. 313. LEASE CONDENSATE USE CREDITS.

"(a) IN GENERAL.—Subject to subsection (d), the Secretary shall allocate 1 credit under this section to a fleet or covered person for each qualifying volume of the lease condensate component of fuel containing at least 50 percent lease condensate, or fuels extracted from lease condensate, after the date of enactment of this section for use by the fleet or covered person in vehicles owned or operated by the fleet or covered person that weigh more than 8,500 pounds gross vehicle weight rating.

"(b) REQUIREMENTS.—A credit allocated under this section—

"(1) shall be subject to the same exceptions, authority, documentation, and use of credits that are specified for qualifying volumes of biodiesel in section 312; and

"(2) shall not be considered a credit under section 508.

"(c) REGULATION.—

"(1) IN GENERAL.—Subject to subsection (d), not later than January 1, 2004, after the collection of appropriate information and data that consider usage options, uses in other industries, products, or processes, potential volume capacities, costs, air emissions, and fuel efficiencies, the Secretary shall issue a regulation establishing requirements and procedures for the implementation of this section.

"(2) QUALIFYING VOLUME.—The regulation shall include a determination of an appropriate qualifying volume for lease condensate, except that in no case shall the Secretary determine that the qualifying volume for lease condensate is less than 1,125 gallons.

"(d) APPLICABILITY.—This section applies unless the Secretary finds that the use of lease condensate as an alternative fuel would adversely affect public health or safety or ambient air quality or the environment.".

(2) TABLE OF CONTENTS AMENDMENT.—The table of contents of the Energy Policy Act of 1992 (42 U.S.C. prec. 13201) is amended by adding at the end of the items relating to title III the following:

"Sec. 313. Lease condensate use credits.".

(e) EMERGENCY EXEMPTION.—Section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211) (as amended by section 702 and this section) is amended in paragraph (9)(E) by inserting before the semicolon at the end ", including vehicles directly used in the emergency repair of transmission lines and in the restoration of electricity service following power outages, as determined by the Secretary".

SEC. 706. REVIEW OF ENERGY POLICY ACT OF 1992 PROGRAMS.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Secretary of Energy shall complete a study to determine the effect that titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.) have had on—

(1) the development of alternative fueled vehicle technology;

(2) the availability of that technology in the market; and

(3) the cost of alternative fueled vehicles.

(b) TOPICS.—As part of the study under subsection (a), the Secretary shall specifically identify—

(1) the number of alternative fueled vehicles acquired by fleets or covered persons required to acquire alternative fueled vehicles;

(2) the quantity, by type, of alternative fuel actually used in alternative fueled vehicles acquired by fleets or covered persons;

(3) the quantity of petroleum displaced by the use of alternative fuels in alternative fueled vehicles acquired by fleets or covered persons;

(4) the direct and indirect costs of compliance with requirements under titles III, IV, and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.), including—

(A) vehicle acquisition requirements imposed on fleets or covered persons;

(B) administrative and recordkeeping expenses;

(C) fuel and fuel infrastructure costs;

(D) associated training and employee expenses; and

(E) any other factors or expenses the Secretary determines to be necessary to compile reliable estimates of the overall costs and benefits of complying with programs under those titles for fleets, covered persons, and the national economy;

(5) the existence of obstacles preventing compliance with vehicle acquisition requirements and increased use of alternative fuel in alternative fueled vehicles acquired by fleets or covered persons; and

(6) the projected impact of amendments to the Energy Policy Act of 1992 made by this title.

(c) REPORT.—Upon completion of the study under this section, the Secretary shall submit to Congress a report that describes the results of the study and includes any recommendations of the Secretary for legislative or administrative changes concerning the alternative fueled vehicle requirements under titles III, IV and V of the Energy Policy Act of 1992 (42 U.S.C. 13211 et seq.).

SEC. 707. REPORT CONCERNING COMPLIANCE WITH ALTERNATIVE FUELED VEHICLE PURCHASING REQUIREMENTS.

Section 310(b)(1) of the Energy Policy Act of 1992 (42 U.S.C. 13218(b)(1)) is amended by striking "1 year after the date of enactment of this subsection" and inserting "February 15, 2004".

Subtitle B—Hybrid Vehicles, Advanced Vehicles, and Fuel Cell Buses

PART 1—HYBRID VEHICLES

SEC. 711. HYBRID VEHICLES.

The Secretary of Energy shall accelerate efforts directed toward the improvement of batteries and other rechargeable energy storage systems, power electronics, hybrid systems integration, and other technologies for use in hybrid vehicles.

PART 2—ADVANCED VEHICLES

SEC. 721. DEFINITIONS.

In this part:

(1) ALTERNATIVE FUELED VEHICLE.—

(A) IN GENERAL.—The term "alternative fueled vehicle" means a vehicle propelled solely on an alternative fuel (as defined in section 301 of the Energy Policy Act of 1992 (42 U.S.C. 13211)).

(B) EXCLUSION.—The term "alternative fueled vehicle" does not include a vehicle that the Secretary determines, by regulation, does not yield substantial environmental benefits over a vehicle operating solely on gasoline or diesel derived from fossil fuels.

(2) FUEL CELL VEHICLE.—The term "fuel cell vehicle" means a vehicle propelled by an electric motor powered by a fuel cell system that converts chemical energy into electricity by combining oxygen (from air) with hydrogen fuel that is stored on the vehicle or is produced onboard by reformation of a hydrocarbon fuel. Such fuel cell system may or may not include the use of auxiliary energy storage systems to enhance vehicle performance.

(3) HYBRID VEHICLE.—The term "hybrid vehicle" means a medium or heavy duty vehicle propelled by an internal combustion engine or heat engine using any combustible fuel and an onboard rechargeable energy storage device.

(4) NEIGHBORHOOD ELECTRIC VEHICLE.—The term "neighborhood electric vehicle" means a motor vehicle that—

(A) meets the definition of a low-speed vehicle (as defined in part 571 of title 49, Code of Federal Regulations);

(B) meets the definition of a zero-emission vehicle (as defined in section 86.1702-99 of title 40, Code of Federal Regulations);

(C) meets the requirements of Federal Motor Vehicle Safety Standard No. 500; and

(D) has a maximum speed of not greater than 25 miles per hour.

(5) PILOT PROGRAM.—The term "pilot program" means the competitive grant program established under section 722.

(6) SECRETARY.—The term "Secretary" means the Secretary of Energy.

(7) ULTRA-LOW SULFUR DIESEL VEHICLE.—The term "ultra-low sulfur diesel vehicle" means a vehicle manufactured in any of model years 2003 through 2006 powered by a heavy-duty diesel engine that—

(A) is fueled by diesel fuel that contains sulfur at not more than 15 parts per million; and

(B) emits not more than the lesser of—

(i) for vehicles manufactured in—

(I) model year 2003, 3.0 grams per brake horsepower-hour of oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(II) model years 2004 through 2006, 2.5 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; or

(ii) the quantity of emissions of nonmethane hydrocarbons, oxides of nitrogen, and particulate matter of the best-performing technology of ultra-low sulfur diesel vehicles of the same class and application that are commercially available.

SEC. 722. PILOT PROGRAM.

(a) ESTABLISHMENT.—The Secretary, in consultation with the Secretary of Transportation, shall establish a competitive grant pilot program, to be administered through the Clean Cities Program of the Department of Energy, to provide not more than 15 geographically dispersed project grants to State governments, local governments, or metropolitan transportation authorities to carry out a project or projects for the purposes described in subsection (b).

(b) GRANT PURPOSES.—A grant under this section may be used for the following purposes:

(1) The acquisition of alternative fueled vehicles or fuel cell vehicles, including—

(A) passenger vehicles (including neighborhood electric vehicles); and

(B) motorized 2-wheel bicycles, scooters, or other vehicles for use by law enforcement personnel or other State or local government or metropolitan transportation authority employees.

(2) The acquisition of alternative fueled vehicles, hybrid vehicles, or fuel cell vehicles, including—

(A) buses used for public transportation or transportation to and from schools;

(B) delivery vehicles for goods or services; and

(C) ground support vehicles at public airports (including vehicles to carry baggage or push or pull airplanes toward or away from terminal gates).

(3) The acquisition of ultra-low sulfur diesel vehicles.

(4) Installation or acquisition of infrastructure necessary to directly support an alternative fueled vehicle, fuel cell vehicle, or hybrid vehicle project funded by the grant, including fueling and other support equipment.

(5) Operation and maintenance of vehicles, infrastructure, and equipment acquired as part of a project funded by the grant.

(c) APPLICATIONS.—

(1) REQUIREMENTS.—

(A) IN GENERAL.—The Secretary shall issue requirements for applying for grants under the pilot program.

(B) MINIMUM REQUIREMENTS.—At a minimum, the Secretary shall require that an application for a grant—

(i) be submitted by the head of a State or local government or a metropolitan transportation authority, or any combination thereof, and a registered participant in the Clean Cities Program of the Department of Energy; and

(ii) include—

(I) a description of the project proposed in the application, including how the project meets the requirements of this part;

(II) an estimate of the ridership or degree of use of the project;

(III) an estimate of the air pollution emissions reduced and fossil fuel displaced as a result of the project, and a plan to collect and disseminate environmental data, related to the project to be funded under the grant, over the life of the project;

(IV) a description of how the project will be sustainable without Federal assistance after the completion of the term of the grant;

(V) a complete description of the costs of the project, including acquisition, construction, operation, and maintenance costs over the expected life of the project;

(VI) a description of which costs of the project will be supported by Federal assistance under this part; and

(VII) documentation to the satisfaction of the Secretary that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the project, and a commitment by the applicant to use such fuel in carrying out the project.

(2) PARTNERS.—An applicant under paragraph (1) may carry out a project under the pilot program in partnership with public and private entities.

(d) SELECTION CRITERIA.—In evaluating applications under the pilot program, the Secretary shall—

(1) consider each applicant's previous experience with similar projects; and

(2) give priority consideration to applications that—

(A) are most likely to maximize protection of the environment;

(B) demonstrate the greatest commitment on the part of the applicant to ensure funding for the proposed project and the greatest likelihood that the project will be maintained or expanded after Federal assistance under this part is completed; and

(C) exceed the minimum requirements of subsection (c)(1)(B)(ii).

(e) PILOT PROJECT REQUIREMENTS.—

(1) MAXIMUM AMOUNT.—The Secretary shall not provide more than $20,000,000 in Federal assistance under the pilot program to any applicant.

(2) COST SHARING.—The Secretary shall not provide more than 50 percent of the cost, incurred during the period of the grant, of any project under the pilot program.

(3) MAXIMUM PERIOD OF GRANTS.—The Secretary shall not fund any applicant under the pilot program for more than 5 years.

(4) DEPLOYMENT AND DISTRIBUTION.—The Secretary shall seek to the maximum extent practicable to ensure a broad geographic distribution of project sites.

(5) TRANSFER OF INFORMATION AND KNOWLEDGE.—The Secretary shall establish mechanisms to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(f) SCHEDULE.—

(1) PUBLICATION.—Not later than 90 days after the date of enactment of this Act, the Secretary shall publish in the Federal Register, Commerce Business Daily, and elsewhere as appropriate, a request for applications to undertake projects under the pilot program. Applications shall be due not later than 180 days after the date of publication of the notice.

(2) SELECTION.—Not later than 180 days after the date by which applications for grants are due, the Secretary shall select by competitive, peer reviewed proposal, all applications for projects to be awarded a grant under the pilot program.

(g) LIMIT ON FUNDING.—The Secretary shall provide not less than 20 nor more than 25 percent of the grant funding made available under this section for the acquisition of ultra-low sulfur diesel vehicles.

SEC. 723. REPORTS TO CONGRESS.

(a) INITIAL REPORT.—Not later than 60 days after the date on which grants are awarded under this part, the Secretary shall submit to Congress a report containing—

(1) an identification of the grant recipients and a description of the projects to be funded;

(2) an identification of other applicants that submitted applications for the pilot program; and

(3) a description of the mechanisms used by the Secretary to ensure that the information and knowledge gained by participants in the pilot program are transferred among the pilot program participants and to other interested parties, including other applicants that submitted applications.

(b) EVALUATION.—Not later than 3 years after the date of enactment of this Act, and annually thereafter until the pilot program ends, the Secretary shall submit to Congress a report containing an evaluation of the effectiveness of the pilot program, including—

(1) an assessment of the benefits to the environment derived from the projects included in the pilot program; and

(2) an estimate of the potential benefits to the environment to be derived from widespread application of alternative fueled vehicles and ultra-low sulfur diesel vehicles.

SEC. 724. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this part $200,000,000, to remain available until expended.

PART 3—FUEL CELL BUSES

SEC. 731. FUEL CELL TRANSIT BUS DEMONSTRATION.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretary of Transportation, shall establish a transit bus demonstration program to make competitive, merit-based awards for 5-year projects to demonstrate not more than 25 fuel cell transit buses (and necessary infrastructure) in 5 geographically dispersed localities.

(b) PREFERENCE.—In selecting projects under this section, the Secretary of Energy shall give preference to projects that are most likely to mitigate congestion and improve air quality.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy to carry out this section $10,000,000 for each of fiscal years 2004 through 2008.

Subtitle C—Clean School Buses

SEC. 741. DEFINITIONS.

In this subtitle:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) ALTERNATIVE FUEL.—The term "alternative fuel" means liquefied natural gas, compressed natural gas, liquefied petroleum gas, hydrogen, propane, or methanol or ethanol at no less than 85 percent by volume.

(3) ALTERNATIVE FUEL SCHOOL BUS.—The term "alternative fuel school bus" means a school bus that meets all of the requirements of this subtitle and is operated solely on an alternative fuel.

(4) EMISSIONS CONTROL RETROFIT TECHNOLOGY.—The term "emissions control retrofit technology" means a particulate filter or other emissions control equipment that is verified or certified by the Administrator or the California Air Resources Board as an effective emission reduction technology when installed on an existing school bus.

(5) IDLING.—The term "idling" means operating an engine while remaining stationary for more than approximately 15 minutes, except that the term does not apply to routine stoppages associated with traffic movement or congestion.

(6) SECRETARY.—The term "Secretary" means the Secretary of Energy.

(7) ULTRA-LOW SULFUR DIESEL FUEL.—The term "ultra-low sulfur diesel fuel" means diesel fuel that contains sulfur at not more than 15 parts per million.

(8) ULTRA-LOW SULFUR DIESEL FUEL SCHOOL BUS.—The term "ultra-low sulfur diesel fuel school bus" means a school bus that meets all of the requirements of this subtitle and is operated solely on ultra-low sulfur diesel fuel.

SEC. 742. PROGRAM FOR REPLACEMENT OF CERTAIN SCHOOL BUSES WITH CLEAN SCHOOL BUSES.

(a) ESTABLISHMENT.—The Administrator, in consultation with the Secretary and other appropriate Federal departments and agencies, shall establish a program for awarding grants on a competitive basis to eligible entities for the replacement of existing school buses manufactured before model year 1991 with alternative fuel school buses and ultra-low sulfur diesel fuel school buses.

(b) REQUIREMENTS.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator shall establish and publish in the Federal Register grant requirements on eligibility for assistance, and on implementation of the program established under subsection (a), including instructions for the submission of grant applications and certification requirements to ensure compliance with this subtitle.

(2) APPLICATION DEADLINES.—The requirements established under paragraph (1) shall require submission of grant applications not later than—

(A) in the case of the first year of program implementation, the date that is 180 days after the publication of the requirements in the Federal Register; and

(B) in the case of each subsequent year, June 1 of the year.

(c) ELIGIBLE RECIPIENTS.—A grant shall be awarded under this section only—

(1) to 1 or more local or State governmental entities responsible for providing school bus service to 1 or more public school systems or responsible for the purchase of school buses;

(2) to 1 or more contracting entities that provide school bus service to 1 or more public school systems, if the grant application is submitted jointly with the 1 or more school systems to be served by the buses, except that the application may provide that buses purchased using funds awarded shall be owned, operated, and maintained exclusively by the 1 or more contracting entities; or

(3) to a nonprofit school transportation association representing private contracting entities,

if the association has notified and received approval from the 1 or more school systems to be served by the buses.

(d) AWARD DEADLINES.—

(1) IN GENERAL.—Subject to paragraph (2), the Administrator shall award a grant made to a qualified applicant for a fiscal year—

(A) in the case of the first fiscal year of program implementation, not later than the date that is 90 days after the application deadline established under subsection (b)(2); and

(B) in the case of each subsequent fiscal year, not later than August 1 of the fiscal year.

(2) INSUFFICIENT NUMBER OF QUALIFIED GRANT APPLICATIONS.—If the Administrator does not receive a sufficient number of qualified grant applications to meet the requirements of subsection (i)(1) for a fiscal year, the Administrator shall award a grant made to a qualified applicant under subsection (i)(2) not later than September 30 of the fiscal year.

(e) TYPES OF GRANTS.—

(1) IN GENERAL.—A grant under this section shall be used for the replacement of school buses manufactured before model year 1991 with alternative fuel school buses and ultra-low sulfur diesel fuel school buses.

(2) NO ECONOMIC BENEFIT.—Other than the receipt of the grant, a recipient of a grant under this section may not receive any economic benefit in connection with the receipt of the grant.

(3) PRIORITY OF GRANT APPLICATIONS.—The Administrator shall give priority to applicants that propose to replace school buses manufactured before model year 1977.

(f) CONDITIONS OF GRANT.—A grant provided under this section shall include the following conditions:

(1) SCHOOL BUS FLEET.—All buses acquired with funds provided under the grant shall be operated as part of the school bus fleet for which the grant was made for a minimum of 5 years.

(2) USE OF FUNDS.—Funds provided under the grant may only be used—

(A) to pay the cost, except as provided in paragraph (3), of new alternative fuel school buses or ultra-low sulfur diesel fuel school buses, including State taxes and contract fees associated with the acquisition of such buses; and

(B) to provide—

(i) up to 20 percent of the price of the alternative fuel school buses acquired, for necessary alternative fuel infrastructure if the infrastructure will only be available to the grant recipient; and

(ii) up to 25 percent of the price of the alternative fuel school buses acquired, for necessary alternative fuel infrastructure if the infrastructure will be available to the grant recipient and to other bus fleets.

(3) GRANT RECIPIENT FUNDS.—The grant recipient shall be required to provide at least—

(A) in the case of a grant recipient described in paragraph (1) or (3) of subsection (c), the lesser of—

(i) an amount equal to 15 percent of the total cost of each bus received; or

(ii) $15,000 per bus; and

(B) in the case of a grant recipient described in subsection (c)(2), the lesser of—

(i) an amount equal to 20 percent of the total cost of each bus received; or

(ii) $20,000 per bus.

(4) ULTRA-LOW SULFUR DIESEL FUEL.—In the case of a grant recipient receiving a grant for ultra-low sulfur diesel fuel school buses, the grant recipient shall be required to provide documentation to the satisfaction of the Administrator that diesel fuel containing sulfur at not more than 15 parts per million is available for carrying out the purposes of the grant, and a commitment by the applicant to use such fuel in carrying out the purposes of the grant.

(5) TIMING.—All alternative fuel school buses, ultra-low sulfur diesel fuel school buses, or alternative fuel infrastructure acquired under a grant awarded under this section shall be purchased and placed in service as soon as practicable.

(g) BUSES.—

(1) IN GENERAL.—Except as provided in paragraph (2), funding under a grant made under this section for the acquisition of new alternative fuel school buses or ultra-low sulfur diesel fuel school buses shall only be used to acquire school buses—

(A) with a gross vehicle weight of greater than 14,000 pounds;

(B) that are powered by a heavy duty engine;

(C) in the case of alternative fuel school buses manufactured in model years 2004 through 2006, that emit not more than 1.8 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter; and

(D) in the case of ultra-low sulfur diesel fuel school buses manufactured in model years 2004 through 2006, that emit not more than 2.5 grams per brake horsepower-hour of nonmethane hydrocarbons and oxides of nitrogen and .01 grams per brake horsepower-hour of particulate matter.

(2) LIMITATIONS.—A bus shall not be acquired under this section that emits nonmethane hydrocarbons, oxides of nitrogen, or particulate matter at a rate greater than the best performing technology of the same class of ultra-low sulfur diesel fuel school buses commercially available at the time the grant is made.

(h) DEPLOYMENT AND DISTRIBUTION.—The Administrator shall—

(1) seek, to the maximum extent practicable, to achieve nationwide deployment of alternative fuel school buses and ultra-low sulfur diesel fuel school buses through the program under this section; and

(2) ensure a broad geographic distribution of grant awards, with a goal of no State receiving more than 10 percent of the grant funding made available under this section for a fiscal year.

(i) ALLOCATION OF FUNDS.—

(1) IN GENERAL.—Subject to paragraph (2), of the amount of grant funding made available to carry out this section for any fiscal year, the Administrator shall use—

(A) 70 percent for the acquisition of alternative fuel school buses or supporting infrastructure; and

(B) 30 percent for the acquisition of ultra-low sulfur diesel fuel school buses.

(2) INSUFFICIENT NUMBER OF QUALIFIED GRANT APPLICATIONS.—After the first fiscal year in which this program is in effect, if the Administrator does not receive a sufficient number of qualified grant applications to meet the requirements of subparagraph (A) or (B) of paragraph (1) for a fiscal year, effective beginning on August 1 of the fiscal year, the Administrator shall make the remaining funds available to other qualified grant applicants under this section.

(j) REDUCTION OF SCHOOL BUS IDLING.—Each local educational agency (as defined in section 9101 of the Elementary and Secondary Education Act of 1965 (20 U.S.C. 7801)) that receives Federal funds under the Elementary and Secondary Education Act of 1965 (20 U.S.C. 6301 et seq.) is encouraged to develop a policy, consistent with the health, safety, and welfare of students and the proper operation and maintenance of school buses, to reduce the incidence of unnecessary school bus idling at schools when picking up and unloading students.

(k) ANNUAL REPORT.—

(1) IN GENERAL.—Not later than January 31 of each year, the Administrator shall transmit to Congress a report evaluating implementation of the programs under this section and section 743.

(2) COMPONENTS.—The reports shall include a description of—

(A) the total number of grant applications received;

(B) the number and types of alternative fuel school buses, ultra-low sulfur diesel fuel school buses, and retrofitted buses requested in grant applications;

(C) grants awarded and the criteria used to select the grant recipients;

(D) certified engine emission levels of all buses purchased or retrofitted under the programs under this section and section 743;

(E) an evaluation of the in-use emission level of buses purchased or retrofitted under the programs under this section and section 743; and

(F) any other information the Administrator considers appropriate.

(l) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) $45,000,000 for fiscal year 2005;

(2) $65,000,000 for fiscal year 2006;

(3) $90,000,000 for fiscal year 2007; and

(4) such sums as are necessary for each of fiscal years 2008 and 2009.

SEC. 743. DIESEL RETROFIT PROGRAM.

(a) ESTABLISHMENT.—The Administrator, in consultation with the Secretary, shall establish a program for awarding grants on a competitive basis to entities for the installation of retrofit technologies for diesel school buses.

(b) ELIGIBLE RECIPIENTS.—A grant shall be awarded under this section only—

(1) to a local or State governmental entity responsible for providing school bus service to 1 or more public school systems;

(2) to 1 or more contracting entities that provide school bus service to 1 or more public school systems, if the grant application is submitted jointly with the 1 or more school systems that the buses will serve, except that the application may provide that buses purchased using funds awarded shall be owned, operated, and maintained exclusively by the 1 or more contracting entities; or

(3) to a nonprofit school transportation association representing private contracting entities, if the association has notified and received approval from the 1 or more school systems to be served by the buses.

(c) AWARDS.—

(1) IN GENERAL.—The Administrator shall seek, to the maximum extent practicable, to ensure a broad geographic distribution of grants under this section.

(2) PREFERENCES.—In making awards of grants under this section, the Administrator shall give preference to proposals that—

(A) will achieve the greatest reductions in emissions of nonmethane hydrocarbons, oxides of nitrogen, or particulate matter per proposal or per bus; or

(B) involve the use of emissions control retrofit technology on diesel school buses that operate solely on ultra-low sulfur diesel fuel.

(d) CONDITIONS OF GRANT.—A grant shall be provided under this section on the conditions that—

(1) buses on which retrofit emissions-control technology are to be demonstrated—

(A) will operate on ultra-low sulfur diesel fuel where such fuel is reasonably available or required for sale by State or local law or regulation;

(B) were manufactured in model year 1991 or later; and

(C) will be used for the transportation of school children to and from school for a minimum of 5 years;

(2) grant funds will be used for the purchase of emission control retrofit technology, including State taxes and contract fees; and

(3) grant recipients will provide at least 15 percent of the total cost of the retrofit, including the purchase of emission control retrofit technology and all necessary labor for installation of the retrofit.

(e) VERIFICATION.—Not later than 90 days after the date of enactment of this Act, the Administrator shall publish in the Federal Register procedures to verify—

(1) the retrofit emissions-control technology to be demonstrated;

(2) that buses powered by ultra-low sulfur diesel fuel on which retrofit emissions-control technology are to be demonstrated will operate on diesel fuel containing not more than 15 parts per million of sulfur; and

(3) that grants are administered in accordance with this section.

(f) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out this section, to remain available until expended—

(1) $20,000,000 for fiscal year 2005;

(2) $35,000,000 for fiscal year 2006;

(3) $45,000,000 for fiscal year 2007; and

(4) such sums as are necessary for each of fiscal years 2008 and 2009.

SEC. 744. FUEL CELL SCHOOL BUSES.

(a) ESTABLISHMENT.—The Secretary shall establish a program for entering into cooperative agreements—

(1) with private sector fuel cell bus developers for the development of fuel cell-powered school buses; and

(2) subsequently, with not less than 2 units of local government using natural gas-powered school buses and such private sector fuel cell bus developers to demonstrate the use of fuel cell-powered school buses.

(b) COST SHARING.—The non-Federal contribution for activities funded under this section shall be not less than—

(1) 20 percent for fuel infrastructure development activities; and

(2) 50 percent for demonstration activities and for development activities not described in paragraph (1).

(c) REPORTS TO CONGRESS.—Not later than 3 years after the date of enactment of this Act, the Secretary shall transmit to Congress a report that—

(1) evaluates the process of converting natural gas infrastructure to accommodate fuel cell-powered school buses; and

(2) assesses the results of the development and demonstration program under this section.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $25,000,000 for the period of fiscal years 2004 through 2006.

Subtitle D—Miscellaneous

SEC. 751. RAILROAD EFFICIENCY.

(a) ESTABLISHMENT.—The Secretary of Energy shall, in cooperation with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, establish a cost-shared, public-private research partnership involving the Federal Government, railroad carriers, locomotive manufacturers and equipment suppliers, and the Association of American Railroads, to develop and demonstrate railroad locomotive technologies that increase fuel economy, reduce emissions, and lower costs of operation.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy to carry out this section—

(1) $25,000,000 for fiscal year 2005;

(2) $35,000,000 for fiscal year 2006; and

(3) $50,000,000 for fiscal year 2007.

SEC. 752. MOBILE EMISSION REDUCTIONS TRADING AND CREDITING.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Environmental Protection Agency shall submit to Congress a report on the experience of the Administrator with the trading of mobile source emission reduction credits for use by owners and operators of stationary source emission sources to meet emission offset requirements within a nonattainment area.

(b) CONTENTS.—The report shall describe—

(1) projects approved by the Administrator that include the trading of mobile source emission reduction credits for use by stationary sources in complying with offset requirements, including a description of—

(A) project and stationary sources location;

(B) volumes of emissions offset and traded;

(C) the sources of mobile emission reduction credits; and

(D) if available, the cost of the credits;

(2) the significant issues identified by the Administrator in consideration and approval of trading in the projects;

(3) the requirements for monitoring and assessing the air quality benefits of any approved project;

(4) the statutory authority on which the Administrator has based approval of the projects;

(5) an evaluation of how the resolution of issues in approved projects could be used in other projects; and

(6) any other issues that the Administrator considers relevant to the trading and generation of mobile source emission reduction credits for use by stationary sources or for other purposes.

SEC. 753. AVIATION FUEL CONSERVATION AND EMISSIONS.

(a) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly initiate a study to identify—

(1) the impact of aircraft emissions on air quality in nonattainment areas; and

(2) ways to promote fuel conservation measures for aviation to—

(A) enhance fuel efficiency; and

(B) reduce emissions.

(b) FOCUS.—The study under subsection (a) shall focus on how air traffic management inefficiencies, such as aircraft idling at airports, result in unnecessary fuel burn and air emissions.

(c) REPORT.—Not later than 1 year after the date of the initiation of the study under subsection (a), the Administrator of the Federal Aviation Administration and the Administrator of the Environmental Protection Agency shall jointly submit to the Committee on Energy and Commerce and the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works and the Committee on Commerce, Science, and Transportation of the Senate a report that—

(1) describes the results of the study; and

(2) includes any recommendations on ways in which unnecessary fuel use and emissions affecting air quality may be reduced—

(A) without adversely affecting safety and security and increasing individual aircraft noise; and

(B) while taking into account all aircraft emissions and the impact of the emissions on human health.

SEC. 754. DIESEL FUELED VEHICLES.

(a) DEFINITION OF TIER 2 EMISSION STANDARDS.—In this section, the term "tier 2 emission standards" means the motor vehicle emission standards that apply to passenger cars, light trucks, and larger passenger vehicles manufactured after the 2003 model year, as issued on February 10, 2000, by the Administrator of the Environmental Protection Agency under sections 202 and 211 of the Clean Air Act (42 U.S.C. 7521, 7545).

(b) DIESEL COMBUSTION AND AFTER-TREATMENT TECHNOLOGIES.—The Secretary of Energy shall accelerate efforts to improve diesel combustion and after-treatment technologies for use in diesel fueled motor vehicles.

(c) GOALS.—The Secretary shall carry out subsection (b) with a view toward achieving the following goals:

(1) Developing and demonstrating diesel technologies that, not later than 2010, meet the following standards:

(A) Tier 2 emission standards.

(B) The heavy-duty emissions standards of 2007 that are applicable to heavy-duty vehicles under regulations issued by the Administrator of the Environmental Protection Agency as of the date of enactment of this Act.

(2) Developing the next generation of low-emission, high efficiency diesel engine technologies, including homogeneous charge compression ignition technology.

SEC. 755. CONSERVE BY BICYCLING PROGRAM.

(a) DEFINITIONS.—In this section:

(1) PROGRAM.—The term "program" means the Conserve by Bicycling Program established by subsection (b).

(2) SECRETARY.—The term "Secretary" means the Secretary of Transportation.

(b) ESTABLISHMENT.—There is established within the Department of Transportation a program to be known as the "Conserve by Bicycling Program".

(c) PROJECTS.—

(1) IN GENERAL.—In carrying out the program, the Secretary shall establish not more than 10 pilot projects that are—

(A) dispersed geographically throughout the United States; and

(B) designed to conserve energy resources by encouraging the use of bicycles in place of motor vehicles.

(2) REQUIREMENTS.—A pilot project described in paragraph (1) shall—

(A) use education and marketing to convert motor vehicle trips to bicycle trips;

(B) document project results and energy savings (in estimated units of energy conserved);

(C) facilitate partnerships among interested parties in at least 2 of the fields of—

(i) transportation;

(ii) law enforcement;

(iii) education;

(iv) public health;

(v) environment; and

(vi) energy;

(D) maximize bicycle facility investments;

(E) demonstrate methods that may be used in other regions of the United States; and

(F) facilitate the continuation of ongoing programs that are sustained by local resources.

(3) COST SHARING.—At least 20 percent of the cost of each pilot project described in paragraph (1) shall be provided from State or local sources.

(d) ENERGY AND BICYCLING RESEARCH STUDY.—

(1) IN GENERAL.—Not later than 2 years after the date of enactment of this Act, the Secretary shall enter into a contract with the National Academy of Sciences for, and the National Academy of Sciences shall conduct and submit to Congress a report on, a study on the feasibility of converting motor vehicle trips to bicycle trips.

(2) COMPONENTS.—The study shall—

(A) document the results or progress of the pilot projects under subsection (c);

(B) determine the type and duration of motor vehicle trips that people in the United States may feasibly make by bicycle, taking into consideration factors such as—

(i) weather;

(ii) land use and traffic patterns;

(iii) the carrying capacity of bicycles; and

(iv) bicycle infrastructure;

(C) determine any energy savings that would result from the conversion of motor vehicle trips to bicycle trips;

(D) include a cost-benefit analysis of bicycle infrastructure investments; and

(E) include a description of any factors that would encourage more motor vehicle trips to be replaced with bicycle trips.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary to carry out this section $6,200,000, to remain available until expended, of which—

(1) $5,150,000 shall be used to carry out pilot projects described in subsection (c);

(2) $300,000 shall be used by the Secretary to coordinate, publicize, and disseminate the results of the program; and

(3) $750,000 shall be used to carry out subsection (d).

SEC. 756. REDUCTION OF ENGINE IDLING OF HEAVY-DUTY VEHICLES.

(a) DEFINITIONS.—In this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) ADVANCED TRUCK STOP ELECTRIFICATION SYSTEM.—The term "advanced truck stop electrification system" means a stationary system that delivers heat, air conditioning, electricity, and communications, and is capable of providing verifiable and auditable evidence of use of those services, to a heavy-duty vehicle and any occupants of the heavy-duty vehicle without relying on components mounted onboard the heavy-duty vehicle for delivery of those services.

(3) AUXILIARY POWER UNIT.—The term "auxiliary power unit" means an integrated system that—

(A) provides heat, air conditioning, engine warming, and electricity to the factory-installed components on a heavy-duty vehicle as if the main drive engine of the heavy-duty vehicle were running; and

(B) is certified by the Administrator under part 89 of title 40, Code of Federal Regulations (or any successor regulation), as meeting applicable emission standards.

(4) HEAVY-DUTY VEHICLE.—The term "heavy-duty vehicle" means a vehicle that—

(A) has a gross vehicle weight rating greater than 12,500 pounds; and

(B) is powered by a diesel engine.

(5) IDLE REDUCTION TECHNOLOGY.—The term "idle reduction technology" means an advanced truck stop electrification system, auxiliary power unit, or other device or system of devices that—

(A) is used to reduce long-duration idling of a heavy-duty vehicle; and

(B) allows for the main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle to be shut down.

(6) LONG-DURATION IDLING.—

(A) IN GENERAL.—The term "long-duration idling" means the operation of a main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle, for a period greater than 15 consecutive minutes, at a time at which the main drive engine is not engaged in gear.

(B) EXCLUSIONS.—The term "long-duration idling" does not include the operation of a main drive engine or auxiliary refrigeration engine of a heavy-duty vehicle during a routine stoppage associated with traffic movement or congestion.

(b) IDLE REDUCTION TECHNOLOGY BENEFITS, PROGRAMS, AND STUDIES.—

(1) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator shall—

(A)(i) commence a review of the mobile source air emission models of the Environmental Protection Agency used under the Clean Air Act (42 U.S.C. 7401 et seq.) to determine whether the models accurately reflect the emissions resulting from long-duration idling of heavy-duty vehicles and other vehicles and engines; and

(ii) update those models as the Administrator determines to be appropriate; and

(B)(i) commence a review of the emission reductions achieved by the use of idle reduction technology; and

(ii) complete such revisions of the regulations and guidance of the Environmental Protection Agency as the Administrator determines to be appropriate.

(2) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(A) complete the reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1); and

(B) prepare and make publicly available 1 or more reports on the results of the reviews.

(3) DISCRETIONARY INCLUSIONS.—The reviews under subparagraphs (A)(i) and (B)(i) of paragraph (1) and the reports under paragraph (2)(B) may address the potential fuel savings resulting from use of idle reduction technology.

(4) IDLE REDUCTION DEPLOYMENT PROGRAM.—

(A) ESTABLISHMENT.—

(i) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation, shall establish a program to support deployment of idle reduction technology.

(ii) PRIORITY.—The Administrator shall give priority to the deployment of idle reduction technology based on beneficial effects on air quality and ability to lessen the emission of criteria air pollutants.

(B) FUNDING.—

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Administrator to carry out subparagraph (A) $19,500,000 for fiscal year 2004, $30,000,000 for fiscal year 2005, and $45,000,000 for fiscal year 2006.

(ii) COST SHARING.—Subject to clause (iii), the Administrator shall require at least 50 percent of the costs directly and specifically related to any project under this section to be provided from non-Federal sources.

(iii) NECESSARY AND APPROPRIATE REDUCTIONS.—The Administrator may reduce the non-Federal requirement under clause (ii) if the Administrator determines that the reduction is necessary and appropriate to meet the objectives of this section.

(5) IDLING LOCATION STUDY.—

(A) IN GENERAL.—Not later than 90 days after the date of enactment of this Act, the Administrator, in consultation with the Secretary of Transportation, shall commence a study to analyze all locations at which heavy-duty vehicles stop for long-duration idling, including—

(i) truck stops;

(ii) rest areas;

(iii) border crossings;

(iv) ports;

(v) transfer facilities; and

(vi) private terminals.

(B) DEADLINE FOR COMPLETION.—Not later than 180 days after the date of enactment of this Act, the Administrator shall—

(i) complete the study under subparagraph (A); and

(ii) prepare and make publicly available 1 or more reports of the results of the study.

(c) VEHICLE WEIGHT EXEMPTION.—Section 127(a) of title 23, United States Code, is amended—

(1) by designating the first through eleventh sentences as paragraphs (1) through (11), respectively; and

(2) by adding at the end the following:

"(12) HEAVY DUTY VEHICLES.—

"(A) IN GENERAL.—Subject to subparagraphs (B) and (C), in order to promote reduction of fuel use and emissions because of engine idling, the maximum gross vehicle weight limit and the axle weight limit for any heavy-duty vehicle equipped with an idle reduction technology shall be increased by a quantity necessary to compensate for the additional weight of the idle reduction system.

"(B) MAXIMUM WEIGHT INCREASE.—The weight increase under subparagraph (A) shall be not greater than 250 pounds.

"(C) PROOF.—On request by a regulatory agency or law enforcement agency, the vehicle operator shall provide proof (through demonstration or certification) that—

"(i) the idle reduction technology is fully functional at all times; and

"(ii) the 250-pound gross weight increase is not used for any purpose other than the use of idle reduction technology described in subparagraph (A).".

SEC. 757. BIODIESEL ENGINE TESTING PROGRAM.

(a) IN GENERAL.—Not later that 180 days after the date of enactment of this Act, the Secretary shall initiate a partnership with diesel engine, diesel fuel injection system, and diesel vehicle manufacturers and diesel and biodiesel fuel providers, to include biodiesel testing in advanced diesel engine and fuel system technology.

(b) SCOPE.—The program shall provide for testing to determine the impact of biodiesel from different sources on current and future emission control technologies, with emphasis on—

(1) the impact of biodiesel on emissions warranty, in-use liability, and antitampering provisions;

(2) the impact of long-term use of biodiesel on engine operations;

(3) the options for optimizing these technologies for both emissions and performance when switching between biodiesel and diesel fuel; and

(4) the impact of using biodiesel in these fueling systems and engines when used as a blend with 2006 Environmental Protection Agency-mandated diesel fuel containing a maximum of 15-parts-per-million sulfur content.

(c) REPORT.—Not later than 2 years after the date of enactment of this Act, the Secretary shall provide an interim report to Congress on the findings of the program, including a comprehensive analysis of impacts from biodiesel on engine operation for both existing and expected future diesel technologies, and recommendations for ensuring optimal emissions reductions and engine performance with biodiesel.

(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated $5,000,000 for each of fiscal years 2004 through 2008 to carry out this section.

(e) DEFINITION.—For purposes of this section, the term "biodiesel" means a diesel fuel substitute produced from nonpetroleum renewable resources that meets the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545) and that meets the American Society for Testing and Materials D6751-02a Standard Specification for Biodiesel Fuel (B100) Blend Stock for Distillate Fuels.

SEC. 758. HIGH OCCUPANCY VEHICLE EXCEPTION.

Notwithstanding section 102(a) of title 23, United States Code, a State may permit a vehicle with fewer than 2 occupants to operate in high occupancy vehicle lanes if the vehicle—

(1) is a dedicated vehicle (as defined in section 301 of the Energy Policy Act of 1992 (42 U.S. 13211)); or

(2) is a hybrid vehicle (as defined by the State for the purpose of this section).

Subtitle E—Automobile Efficiency

SEC. 771. AUTHORIZATION OF APPROPRIATIONS FOR IMPLEMENTATION AND ENFORCEMENT OF FUEL ECONOMY STANDARDS.

In addition to any other funds authorized by law, there are authorized to be appropriated to the National Highway Traffic Safety Administration to carry out its obligations with respect to average fuel economy standards $2,000,000 for each of fiscal years 2004 through 2008.

SEC. 772. REVISED CONSIDERATIONS FOR DECISIONS ON MAXIMUM FEASIBLE AVERAGE FUEL ECONOMY.

Section 32902(f) of title 49, United States Code, is amended to read as follows:

"(f) Considerations For Decisions on Maximum Feasible Average Fuel Economy.—When deciding maximum feasible average fuel economy under this section, the Secretary of Transportation shall consider the following matters:

"(1) Technological feasibility.

"(2) Economic practicability.

"(3) The effect of other motor vehicle standards of the Government on fuel economy.

"(4) The need of the United States to conserve energy.

"(5) The effects of fuel economy standards on passenger automobiles, nonpassenger automobiles, and occupant safety.

"(6) The effects of compliance with average fuel economy standards on levels of automobile industry employment in the United States.".

SEC. 773. EXTENSION OF MAXIMUM FUEL ECONOMY INCREASE FOR ALTERNATIVE FUELED VEHICLES.

(a) Manufacturing Incentives.—Section 32905 of title 49, United States Code, is amended—

(1) in each of subsections (b) and (d), by striking "1993–2004" and inserting "1993–2008";

(2) in subsection (f), by striking "2001" and inserting "2005"; and

(3) in subsection (f)(1), by striking "2004" and inserting "2008".

(b) Maximum Fuel Economy Increase.—Subsection (a)(1) of section 32906 of title 49, United States Code, is amended—

(1) in subparagraph (A), by striking "the model years 1993–2004" and inserting "model years 1993–2008"; and

(2) in subparagraph (B), by striking "the model years 2005–2008" and inserting "model years 2009–2012".

SEC. 774. STUDY OF FEASIBILITY AND EFFECTS OF REDUCING USE OF FUEL FOR AUTOMOBILES.

(a) In General.—Not later than 30 days after the date of the enactment of this Act, the Administrator of the National Highway Traffic Safety Administration shall initiate a study of the feasibility and effects of reducing by model year 2012, by a significant percentage, the amount of fuel consumed by automobiles.

(b) Subjects of Study.—The study under this section shall include—

(1) examination of, and recommendation of alternatives to, the policy under current Federal law of establishing average fuel economy standards for automobiles and requiring each automobile manufacturer to comply with average fuel economy standards that apply to the automobiles it manufactures;

(2) examination of how automobile manufacturers could contribute toward achieving the reduction referred to in subsection (a);

(3) examination of the potential of fuel cell technology in motor vehicles in order to determine the extent to which such technology may contribute to achieving the reduction referred to in subsection (a); and

(4) examination of the effects of the reduction referred to in subsection (a) on—

(A) gasoline supplies;

(B) the automobile industry, including sales of automobiles manufactured in the United States;

(C) motor vehicle safety; and

(D) air quality.

(c) Report.—The Administrator shall submit to Congress a report on the findings, conclusion, and recommendations of the study under this section by not later than 1 year after the date of the enactment of this Act.

TITLE VIII—HYDROGEN

SEC. 801. DEFINITIONS.

In this title:

(1) Advisory committee.—The term "Advisory Committee" means the Hydrogen Technical and Fuel Cell Advisory Committee established under section 805.

(2) Department.—The term "Department" means the Department of Energy.

(3) Fuel cell.—The term "fuel cell" means a device that directly converts the chemical energy of a fuel and an oxidant into electricity by an electrochemical process taking place at separate electrodes in the device.

(4) Infrastructure.—The term "infrastructure" means the equipment, systems, or facilities used to produce, distribute, deliver, or store hydrogen.

(5) Light duty vehicle.—The term "light duty vehicle" means a car or truck classified by the Department of Transportation as a Class I or IIA vehicle.

(6) Secretary.—The term "Secretary" means the Secretary of Energy.

SEC. 802. PLAN.

Not later than 6 months after the date of enactment of this Act, the Secretary shall transmit to Congress a coordinated plan for the programs described in this title and any other programs of the Department that are directly related to fuel cells or hydrogen. The plan shall describe, at a minimum—

(1) the agenda for the next 5 years for the programs authorized under this title, including the agenda for each activity enumerated in section 803(a);

(2) the types of entities that will carry out the activities under this title and what role each entity is expected to play;

(3) the milestones that will be used to evaluate the programs for the next 5 years;-

(4) the most significant technical and nontechnical hurdles that stand in the way of achieving the goals described in section 803(b), and how the programs will address those hurdles; and-

(5) the policy assumptions that are implicit in the plan, including any assumptions that would affect the sources of hydrogen or the marketability of hydrogen-related products.

SEC. 803. PROGRAMS.

(a) Activities.—The Secretary, in partnership with the private sector, shall conduct programs to address—

(1) production of hydrogen from diverse energy sources, including—

(A) fossil fuels, which may include carbon capture and sequestration;

(B) hydrogen-carrier fuels (including ethanol and methanol);

(C) renewable energy resources, including biomass; and

(D) nuclear energy;

(2) use of hydrogen for commercial, industrial, and residential electric power generation;

(3) safe delivery of hydrogen or hydrogen-carrier fuels, including—

(A) transmission by pipeline and other distribution methods; and

(B) convenient and economic refueling of vehicles either at central refueling stations or through distributed on-site generation;

(4) advanced vehicle technologies, including—

(A) engine and emission control systems;

(B) energy storage, electric propulsion, and hybrid systems;

(C) automotive materials; and

(D) other advanced vehicle technologies;

(5) storage of hydrogen or hydrogen-carrier fuels, including development of materials for safe and economic storage in gaseous, liquid, or solid form at refueling facilities and onboard vehicles;

(6) development of safe, durable, affordable, and efficient fuel cells, including fuel-flexible fuel cell power systems, improved manufacturing processes, high-temperature membranes, cost-effective fuel processing for natural gas, fuel cell stack and system reliability, low temperature operation, and cold start capability;

(7) development, after consultation with the private sector, of necessary codes and standards (including international codes and standards and voluntary consensus standards adopted in accordance with OMB Circular A–119) and safety practices for the production, distribution, storage, and use of hydrogen, hydrogen-carrier fuels, and related products; and

(8) a public education program to develop improved knowledge and acceptability of hydrogen-based systems.

(b) Program Goals.—

(1) Vehicles.—For vehicles, the goals of the program are—

(A) to enable a commitment by automakers no later than year 2015 to offer safe, affordable, and technically viable hydrogen fuel cell vehicles in the mass consumer market; and

(B) to enable production, delivery, and acceptance by consumers of model year 2020 hydrogen fuel cell and other hydrogen-powered vehicles that will have—

(i) a range of at least 300 miles;

(ii) improved performance and ease of driving;

(iii) safety and performance comparable to vehicle technologies in the market; and

(iv) when compared to light duty vehicles in model year 2003—

(I) fuel economy that is substantially higher;

(II) substantially lower emissions of air pollutants; and

(III) equivalent or improved vehicle fuel system crash integrity and occupant protection.

(2) Hydrogen energy and energy infrastructure.—For hydrogen energy and energy infrastructure, the goals of the program are to enable a commitment not later than 2015 that will lead to infrastructure by 2020 that will provide—

(A) safe and convenient refueling;

(B) improved overall efficiency;

(C) widespread availability of hydrogen from domestic energy sources through—

(i) production, with consideration of emissions levels;

(ii) delivery, including transmission by pipeline and other distribution methods for hydrogen; and

(iii) storage, including storage in surface transportation vehicles;

(D) hydrogen for fuel cells, internal combustion engines, and other energy conversion devices for portable, stationary, and transportation applications; and

(E) other technologies consistent with the Department's plan.

(3) Fuel cells.—The goals for fuel cells and their portable, stationary, and transportation applications are to enable—

(A) safe, economical, and environmentally sound hydrogen fuel cells;

(B) fuel cells for light duty and other vehicles; and

(C) other technologies consistent with the Department's plan.

(c) Demonstration.—In carrying out the programs under this section, the Secretary shall

fund a limited number of demonstration projects, consistent with a determination of the maturity, cost-effectiveness, and environmental impacts of technologies supporting each project. In selecting projects under this subsection, the Secretary shall, to the extent practicable and in the public interest, select projects that—

(1) involve using hydrogen and related products at existing facilities or installations, such as existing office buildings, military bases, vehicle fleet centers, transit bus authorities, or units of the National Park System;

(2) depend on reliable power from hydrogen to carry out essential activities;-

(3) lead to the replication of hydrogen technologies and draw such technologies into the marketplace;

(4) include vehicle, portable, and stationary demonstrations of fuel cell and hydrogen-based energy technologies;

(5) address the interdependency of demand for hydrogen fuel cell applications and hydrogen fuel infrastructure;

(6) raise awareness of hydrogen technology among the public;

(7) facilitate identification of an optimum technology among competing alternatives;

(8) address distributed generation using renewable sources; and

(9) address applications specific to rural or remote locations, including isolated villages and islands, the National Park System, and tribal entities.

The Secretary shall give preference to projects which address multiple elements contained in paragraphs (1) through (9).

(d) DEPLOYMENT.—In carrying out the programs under this section, the Secretary shall, in partnership with the private sector, conduct activities to facilitate the deployment of hydrogen energy and energy infrastructure, fuel cells, and advanced vehicle technologies.

(e) FUNDING.—

(1) IN GENERAL.—The Secretary shall carry out the programs under this section using a competitive, merit-based review process and consistent with the generally applicable Federal laws and regulations governing awards of financial assistance, contracts, or other agreements.

(2) RESEARCH CENTERS.—Activities under this section may be carried out by funding nationally recognized university-based or Federal laboratory research centers.

(f) COST SHARING.—

(1) RESEARCH AND DEVELOPMENT.—Except as otherwise provided in this title, for research and development programs carried out under this title the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this paragraph if the Secretary determines that the research and development is of a basic or fundamental nature or involves technical analyses or educational activities.

(2) DEMONSTRATION AND COMMERCIAL APPLICATION.—Except as otherwise provided in this title, the Secretary shall require at least 50 percent of the costs directly and specifically related to any demonstration or commercial application project under this title to be provided from non-Federal sources. The Secretary may reduce the non-Federal requirement under this paragraph if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this title.

(3) CALCULATION OF AMOUNT.—In calculating the amount of the non-Federal commitment under paragraph (1) or (2), the Secretary may include personnel, services, equipment, and other resources.

(4) SIZE OF NON-FEDERAL SHARE.—The Secretary may consider the size of the non-Federal share in selecting projects.

(g) DISCLOSURE.—Section 623 of the Energy Policy Act of 1992 (42 U.S.C. 13293) relating to the protection of information shall apply to projects carried out through grants, cooperative agreements, or contracts under this title.

SEC. 804. INTERAGENCY TASK FORCE.

(a) ESTABLISHMENT.—Not later than 120 days after the date of enactment of this Act, the President shall establish an interagency task force chaired by the Secretary with representatives from each of the following:

(1) The Office of Science and Technology Policy within the Executive Office of the President.

(2) The Department of Transportation.

(3) The Department of Defense.

(4) The Department of Commerce (including the National Institute of Standards and Technology).

(5) The Department of State.

(6) The Environmental Protection Agency.

(7) The National Aeronautics and Space Administration.

(8) Other Federal agencies as the Secretary determines appropriate.

(b) DUTIES.—

(1) PLANNING.—The interagency task force shall work toward—

(A) a safe, economical, and environmentally sound fuel infrastructure for hydrogen and hydrogen-carrier fuels, including an infrastructure that supports buses and other fleet transportation;

(B) fuel cells in government and other applications, including portable, stationary, and transportation applications;

(C) distributed power generation, including the generation of combined heat, power, and clean fuels including hydrogen;

(D) uniform hydrogen codes, standards, and safety protocols; and

(E) vehicle hydrogen fuel system integrity safety performance.

(2) ACTIVITIES.—The interagency task force may organize workshops and conferences, may issue publications, and may create databases to carry out its duties. The interagency task force shall—

(A) foster the exchange of generic, nonproprietary information and technology among industry, academia, and government;

(B) develop and maintain an inventory and assessment of hydrogen, fuel cells, and other advanced technologies, including the commercial capability of each technology for the economic and environmentally safe production, distribution, delivery, storage, and use of hydrogen;

(C) integrate technical and other information made available as a result of the programs and activities under this title;

(D) promote the marketplace introduction of infrastructure for hydrogen fuel vehicles; and

(E) conduct an education program to provide hydrogen and fuel cell information to potential end-users.

(c) AGENCY COOPERATION.—The heads of all agencies, including those whose agencies are not represented on the interagency task force, shall cooperate with and furnish information to the interagency task force, the Advisory Committee, and the Department.

SEC. 805. ADVISORY COMMITTEE.

(a) ESTABLISHMENT.—The Hydrogen Technical and Fuel Cell Advisory Committee is established to advise the Secretary on the programs and activities under this title.

(b) MEMBERSHIP.—

(1) MEMBERS.—The Advisory Committee shall be comprised of not fewer than 12 nor more than 25 members. The members shall be appointed by the Secretary to represent domestic industry, academia, professional societies, government agencies, Federal laboratories, previous advisory panels, and financial, environmental, and other appropriate organizations based on the Department's assessment of the technical and other qualifications of committee members and the needs of the Advisory Committee.

(2) TERMS.—The term of a member of the Advisory Committee shall not be more than 3 years. The Secretary may appoint members of the Advisory Committee in a manner that allows the terms of the members serving at any time to expire at spaced intervals so as to ensure continuity in the functioning of the Advisory Committee. A member of the Advisory Committee whose term is expiring may be reappointed.

(3) CHAIRPERSON.—The Advisory Committee shall have a chairperson, who is elected by the members from among their number.

(c) REVIEW.—The Advisory Committee shall review and make recommendations to the Secretary on—

(1) the implementation of programs and activities under this title;

(2) the safety, economical, and environmental consequences of technologies for the production, distribution, delivery, storage, or use of hydrogen energy and fuel cells; and

(3) the plan under section 802.

(d) RESPONSE.—

(1) CONSIDERATION OF RECOMMENDATIONS.—The Secretary shall consider, but need not adopt, any recommendations of the Advisory Committee under subsection (c).

(2) BIENNIAL REPORT.—The Secretary shall transmit a biennial report to Congress describing any recommendations made by the Advisory Committee since the previous report. The report shall include a description of how the Secretary has implemented or plans to implement the recommendations, or an explanation of the reasons that a recommendation will not be implemented. The report shall be transmitted along with the President's budget proposal.

(e) SUPPORT.—The Secretary shall provide resources necessary in the judgment of the Secretary for the Advisory Committee to carry out its responsibilities under this title.

SEC. 806. EXTERNAL REVIEW.

(a) PLAN.—The Secretary shall enter into an arrangement with the National Academy of Sciences to review the plan prepared under section 802, which shall be completed not later than 6 months after the Academy receives the plan. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review's recommendations or an explanation of the reasons that a recommendation will not be implemented.

(b) ADDITIONAL REVIEW.—The Secretary shall enter into an arrangement with the National Academy of Sciences under which the Academy will review the programs under section 803 during the fourth year following the date of enactment of this Act. The Academy's review shall include the research priorities and technical milestones, and evaluate the progress toward achieving them. The review shall be completed not later than 5 years after the date of enactment of this Act. Not later than 45 days after receiving the review, the Secretary shall transmit the review to Congress along with a plan to implement the review's recommendations or an explanation for the reasons that a recommendation will not be implemented.

SEC. 807. MISCELLANEOUS PROVISIONS.

(a) REPRESENTATION.—The Secretary may represent the United States interests with respect to activities and programs under this title, in coordination with the Department of Transportation, the National Institute of Standards and Technology, and other relevant Federal agencies, before governments and nongovernmental organizations including—

(1) other Federal, State, regional, and local governments and their representatives;

(2) industry and its representatives, including members of the energy and transportation industries; and

(3) in consultation with the Department of State, foreign governments and their representatives including international organizations.

(b) Regulatory Authority.—Nothing in this title shall be construed to alter the regulatory authority of the Department.

SEC. 808. SAVINGS CLAUSE.

Nothing in this title shall be construed to affect the authority of the Secretary of Transportation that may exist prior to the date of enactment of this Act with respect to—

(1) research into, and regulation of, hydrogen-powered vehicles fuel systems integrity, standards, and safety under subtitle VI of title 49, United States Code;

(2) regulation of hazardous materials transportation under chapter 51 of title 49, United States Code;

(3) regulation of pipeline safety under chapter 601 of title 49, United States Code;

(4) encouragement and promotion of research, development, and deployment activities relating to advanced vehicle technologies under section 5506 of title 49, United States Code;

(5) regulation of motor vehicle safety under chapter 301 of title 49, United States Code;

(6) automobile fuel economy under chapter 329 of title 49, United States Code; or

(7) representation of the interests of the United States with respect to the activities and programs under the authority of title 49, United States Code.

SEC. 809. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated to the Secretary to carry out this title, in addition to any amounts made available for these purposes under other Acts—

(1) $273,500,000 for fiscal year 2004;

(2) $375,000,000 for fiscal year 2005;

(3) $450,000,000 for fiscal year 2006;

(4) $500,000,000 for fiscal year 2007; and

(5) $550,000,000 for fiscal year 2008.

TITLE IX—RESEARCH AND DEVELOPMENT

SEC. 901. GOALS.

(a) In General.—The Secretary shall conduct a balanced set of programs of energy research, development, demonstration, and commercial application to support Federal energy policy and programs by the Department. Such programs shall be focused on—

(1) increasing the efficiency of all energy intensive sectors through conservation and improved technologies;

(2) promoting diversity of energy supply;

(3) decreasing the Nation's dependence on foreign energy supplies;

(4) improving United States energy security; and

(5) decreasing the environmental impact of energy-related activities.

(b) Goals.—The Secretary shall publish measurable 5-year cost and performance-based goals with each annual budget submission in at least the following areas:

(1) Energy efficiency for buildings, energy-consuming industries, and vehicles.

(2) Electric energy generation (including distributed generation), transmission, and storage.

(3) Renewable energy technologies including wind power, photovoltaics, solar thermal systems, geothermal energy, hydrogen-fueled systems, biomass-based systems, biofuels, and hydropower.

(4) Fossil energy including power generation, onshore and offshore oil and gas resource recovery, and transportation.

(5) Nuclear energy including programs for existing and advanced reactors and education of future specialists.

(c) Public Comment.—The Secretary shall provide mechanisms for input on the annually published goals from industry, university, and other public sources.

(d) Effect of Goals.—

(1) No new authority or requirement.—Nothing in subsection (a) or the annually published goals shall—

(A) create any new—

(i) authority for any Federal agency; or

(ii) requirement for any other person;

(B) be used by a Federal agency to support the establishment of regulatory standards or regulatory requirements; or

(C) alter the authority of the Secretary to make grants or other awards.

(2) No limitation.—Nothing in this subsection shall be construed to limit the authority of the Secretary to impose conditions on grants or other awards based on the goals in subsection (a) or any subsequent modification thereto.

SEC. 902. DEFINITIONS.

For purposes of this title:

(1) Department.—The term "Department" means the Department of Energy.

(2) Departmental mission.—The term "departmental mission" means any of the functions vested in the Secretary of Energy by the Department of Energy Organization Act (42 U.S.C. 7101 et seq.) or other law.

(3) Institution of higher education.—The term "institution of higher education" has the meaning given that term in section 101(a) of the Higher Education Act of 1965 (20 U.S.C. 1001(a)).

(4) National laboratory.—The term "National Laboratory" means any of the following laboratories owned by the Department:

(A) Ames Laboratory.

(B) Argonne National Laboratory.

(C) Brookhaven National Laboratory.

(D) Fermi National Accelerator Laboratory.

(E) Idaho National Engineering and Environmental Laboratory.

(F) Lawrence Berkeley National Laboratory.

(G) Lawrence Livermore National Laboratory.

(H) Los Alamos National Laboratory.

(I) National Energy Technology Laboratory.

(J) National Renewable Energy Laboratory.

(K) Oak Ridge National Laboratory.

(L) Pacific Northwest National Laboratory.

(M) Princeton Plasma Physics Laboratory.

(N) Sandia National Laboratories.

(O) Stanford Linear Accelerator Center.

(P) Thomas Jefferson National Accelerator Facility.

(5) Nonmilitary energy laboratory.—The term "nonmilitary energy laboratory" means the laboratories listed in paragraph (4), except for those listed in subparagraphs (G), (H), and (N).

(6) Secretary.—The term "Secretary" means the Secretary of Energy.

(7) Single-purpose research facility.—The term "single-purpose research facility" means any of the primarily single-purpose entities owned by the Department or any other organization of the Department designated by the Secretary.

Subtitle A—Energy Efficiency

SEC. 904. ENERGY EFFICIENCY.

(a) In General.—The following sums are authorized to be appropriated to the Secretary for energy efficiency and conservation research, development, demonstration, and commercial application activities, including activities authorized under this subtitle:

(1) For fiscal year 2004, $616,000,000.

(2) For fiscal year 2005, $695,000,000.

(3) For fiscal year 2006, $772,000,000.

(4) For fiscal year 2007, $865,000,000.

(5) For fiscal year 2008, $920,000,000.

(b) Allocations.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 905—

(A) for fiscal year 2004, $20,000,000;

(B) for fiscal year 2005, $30,000,000;

(C) for fiscal year 2006, $50,000,000;

(D) for fiscal year 2007, $50,000,000; and

(E) for fiscal year 2008, $50,000,000.

(2) For activities under section 907—

(A) for fiscal year 2004, $4,000,000; and

(B) for each of fiscal years 2005 through 2008, $7,000,000.

(3) For activities under section 908—

(A) for fiscal year 2004, $20,000,000;

(B) for fiscal year 2005, $25,000,000;

(C) for fiscal year 2006, $30,000,000;

(D) for fiscal year 2007, $35,000,000; and

(E) for fiscal year 2008, $40,000,000.

(4) For activities under section 909, $2,000,000 for each of fiscal years 2005 through 2008.

(c) Extended Authorization.—There are authorized to be appropriated to the Secretary for activities under section 905, $50,000,000 for each of fiscal years 2009 through 2013.

(d) Limitation on Use of Funds.—None of the funds authorized to be appropriated under this section may be used for—

(1) the issuance and implementation of energy efficiency regulations;

(2) the Weatherization Assistance Program under part A of title IV of the Energy Conservation and Production Act (42 U.S.C. 6861 et seq.);

(3) the State Energy Program under part D of title III of the Energy Policy and Conservation Act (42 U.S.C. 6321 et seq.); or

(4) the Federal Energy Management Program under part 3 of title V of the National Energy Conservation Policy Act (42 U.S.C. 8251 et seq.).

SEC. 905. NEXT GENERATION LIGHTING INITIATIVE.

(a) In General.—The Secretary shall carry out a Next Generation Lighting Initiative in accordance with this section to support research, development, demonstration, and commercial application activities related to advanced solid-state lighting technologies based on white light emitting diodes.

(b) Objectives.—The objectives of the initiative shall be to develop advanced solid-state organic and inorganic lighting technologies based on white light emitting diodes that, compared to incandescent and fluorescent lighting technologies, are longer lasting; more energy-efficient; and cost-competitive, and have less environmental impact.

(c) Industry Alliance.—The Secretary shall, not later than 3 months after the date of enactment of this section, competitively select an Industry Alliance to represent participants that are private, for-profit firms which, as a group, are broadly representative of United States solid state lighting research, development, infrastructure, and manufacturing expertise as a whole.

(d) Research.—

(1) In general.—The Secretary shall carry out the research activities of the Next Generation Lighting Initiative through competitively awarded grants to researchers, including Industry Alliance participants, National Laboratories, and institutions of higher education.

(2) Assistance from the industry alliance.—The Secretary shall annually solicit from the Industry Alliance—

(A) comments to identify solid-state lighting technology needs;

(B) assessment of the progress of the Initiative's research activities; and

(C) assistance in annually updating solid-state lighting technology roadmaps.

(3) Availability of information and roadmaps.—The information and roadmaps under paragraph (2) shall be available to the public and public response shall be solicited by the Secretary.

(e) Development, Demonstration, and Commercial Application.—The Secretary shall carry out a development, demonstration, and commercial application program for the Next Generation Lighting Initiative through competitively selected awards. The Secretary may give

preference to participants of the Industry Alliance selected pursuant to subsection (c).

(f) INTELLECTUAL PROPERTY.—The Secretary may require, in accordance with the authorities provided in section 202(a)(ii) of title 35, United States Code, section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182), and section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908), that—

(1) for any new invention resulting from activities under subsection (d)—

(A) the Industry Alliance members that are active participants in research, development, and demonstration activities related to the advanced solid-state lighting technologies that are the subject of this section shall be granted first option to negotiate with the invention owner nonexclusive licenses and royalties for uses of the invention related to solid-state lighting on terms that are reasonable under the circumstances; and

(B)(i) for 1 year after a United States patent is issued for the invention, the patent holder shall not negotiate any license or royalty with any entity that is not a participant in the Industry Alliance described in subparagraph (A); and

(ii) during the year described in clause (i), the invention owner shall negotiate nonexclusive licenses and royalties in good faith with any interested participant in the Industry Alliance described in subparagraph (A); and

(2) such other terms as the Secretary determines are required to promote accelerated commercialization of inventions made under the Initiative.

(g) NATIONAL ACADEMY REVIEW.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct periodic reviews of the Next Generation Lighting Initiative. The Academy shall review the research priorities, technical milestones, and plans for technology transfer and progress towards achieving them. The Secretary shall consider the results of such reviews in evaluating the information obtained under subsection (d)(2).

(h) DEFINITIONS.—As used in this section:

(1) ADVANCED SOLID-STATE LIGHTING.—The term “advanced solid-state lighting” means a semiconducting device package and delivery system that produces white light using externally applied voltage.

(2) RESEARCH.—The term “research” includes research on the technologies, materials, and manufacturing processes required for white light emitting diodes.

(3) INDUSTRY ALLIANCE.—The term “Industry Alliance” means an entity selected by the Secretary under subsection (c).

(4) WHITE LIGHT EMITTING DIODE.—The term “white light emitting diode” means a semiconducting package, utilizing either organic or inorganic materials, that produces white light using externally applied voltage.

SEC. 906. NATIONAL BUILDING PERFORMANCE INITIATIVE.

(a) INTERAGENCY GROUP.—Not later than 90 days after the date of enactment of this Act, the Director of the Office of Science and Technology Policy shall establish an interagency group to develop, in coordination with the advisory committee established under subsection (e), a National Building Performance Initiative (in this section referred to as the “Initiative”). The interagency group shall be co-chaired by appropriate officials of the Department and the Department of Commerce, who shall jointly arrange for the provision of necessary administrative support to the group.

(b) INTEGRATION OF EFFORTS.—The Initiative, working with the National Institute of Building Sciences, shall integrate Federal, State, and voluntary private sector efforts to reduce the costs of construction, operation, maintenance, and renovation of commercial, industrial, institutional, and residential buildings.

(c) PLAN.—Not later than 1 year after the date of enactment of this Act, the interagency group shall submit to Congress a plan for carrying out the appropriate Federal role in the Initiative. The plan shall include—

(1) research, development, demonstration, and commercial application of systems and materials for new construction and retrofit relating to the building envelope and building system components; and

(2) the collection, analysis, and dissemination of research results and other pertinent information on enhancing building performance to industry, government entities, and the public.

(d) DEPARTMENT OF ENERGY ROLE.—Within the Federal portion of the Initiative, the Department shall be the lead agency for all aspects of building performance related to use and conservation of energy.

(e) ADVISORY COMMITTEE.—

(1) ESTABLISHMENT.—The Secretary, in consultation with the Secretary of Commerce and the Director of the Office of Science and Technology Policy, shall establish an advisory committee to—

(A) analyze and provide recommendations on potential private sector roles and participation in the Initiative; and

(B) review and provide recommendations on the plan described in subsection (c).

(2) MEMBERSHIP.—Membership of the advisory committee shall include representatives with a broad range of appropriate expertise, including expertise in—

(A) building research and technology;

(B) architecture, engineering, and building materials and systems; and

(C) the residential, commercial, and industrial sectors of the construction industry.

(f) CONSTRUCTION.—Nothing in this section provides any Federal agency with new authority to regulate building performance.

SEC. 907. SECONDARY ELECTRIC VEHICLE BATTERY USE PROGRAM.

(a) DEFINITIONS.—For purposes of this section:

(1) ASSOCIATED EQUIPMENT.—The term “associated equipment” means equipment located where the batteries will be used that is necessary to enable the use of the energy stored in the batteries.

(2) BATTERY.—The term ‘battery” means an energy storage device that previously has been used to provide motive power in a vehicle powered in whole or in part by electricity.

(b) PROGRAM.—The Secretary shall establish and conduct a research, development, demonstration, and commercial application program for the secondary use of batteries if the Secretary finds that there are sufficient numbers of such batteries to support the program. The program shall be—

(1) designed to demonstrate the use of batteries in secondary applications, including utility and commercial power storage and power quality;

(2) structured to evaluate the performance, including useful service life and costs, of such batteries in field operations, and the necessary supporting infrastructure, including reuse and disposal of batteries; and

(3) coordinated with ongoing secondary battery use programs at the National Laboratories and in industry.

(c) SOLICITATION.—Not later than 180 days after the date of enactment of this Act, if the Secretary finds under subsection (b) that there are sufficient numbers of batteries to support the program, the Secretary shall solicit proposals to demonstrate the secondary use of batteries and associated equipment and supporting infrastructure in geographic locations throughout the United States. The Secretary may make additional solicitations for proposals if the Secretary determines that such solicitations are necessary to carry out this section.

(d) SELECTION OF PROPOSALS.—

(1) IN GENERAL.—The Secretary shall, not later than 90 days after the closing date established by the Secretary for receipt of proposals under subsection (c), select up to 5 proposals which may receive financial assistance under this section, subject to the availability of appropriations.

(2) DIVERSITY; ENVIRONMENTAL EFFECT.—In selecting proposals, the Secretary shall consider diversity of battery type, geographic and climatic diversity, and life-cycle environmental effects of the approaches.

(3) LIMITATION.—No 1 project selected under this section shall receive more than 25 percent of the funds authorized for the program under this section.

(4) OPTIMIZATION OF FEDERAL RESOURCES.—The Secretary shall consider the extent of involvement of State or local government and other persons in each demonstration project to optimize use of Federal resources.

(5) OTHER CRITERIA.—The Secretary may consider such other criteria as the Secretary considers appropriate.

(e) CONDITIONS.—The Secretary shall require that—

(1) relevant information be provided to the Department, the users of the batteries, the proposers, and the battery manufacturers;

(2) the proposer provide at least 50 percent of the costs associated with the proposal; and

(3) the proposer provide to the Secretary such information regarding the disposal of the batteries as the Secretary may require to ensure that the proposer disposes of the batteries in accordance with applicable law.

SEC. 908. ENERGY EFFICIENCY SCIENCE INITIATIVE.

(a) ESTABLISHMENT.—The Secretary shall establish an Energy Efficiency Science Initiative to be managed by the Assistant Secretary in the Department with responsibility for energy conservation under section 203(a)(9) of the Department of Energy Organization Act (42 U.S.C. 7133(a)(9)), in consultation with the Director of the Office of Science, for grants to be competitively awarded and subject to peer review for research relating to energy efficiency.

(b) REPORT.—The Secretary shall submit to Congress, along with the President's annual budget request under section 1105(a) of title 31, United States Code, a report on the activities of the Energy Efficiency Science Initiative, including a description of the process used to award the funds and an explanation of how the research relates to energy efficiency.

SEC. 909. ELECTRIC MOTOR CONTROL TECHNOLOGY.

The Secretary shall conduct a research, development, demonstration, and commercial application program on advanced control devices to improve the energy efficiency of electric motors used in heating, ventilation, air conditioning, and comparable systems.

SEC. 910. ADVANCED ENERGY TECHNOLOGY TRANSFER CENTERS.

(a) GRANTS.—Not later than 18 months after the date of enactment of this Act, the Secretary shall make grants to nonprofit institutions, State and local governments, or universities (or consortia thereof), to establish a geographically dispersed network of Advanced Energy Technology Transfer Centers, to be located in areas the Secretary determines have the greatest need of the services of such Centers.

(b) ACTIVITIES.—

(1) IN GENERAL.—Each Center shall operate a program to encourage demonstration and commercial application of advanced energy methods

and technologies through education and outreach to building and industrial professionals, and to other individuals and organizations with an interest in efficient energy use.

(2) ADVISORY PANEL.—Each Center shall establish an advisory panel to advise the Center on how best to accomplish the activities under paragraph (1).

(c) APPLICATION.—A person seeking a grant under this section shall submit to the Secretary an application in such form and containing such information as the Secretary may require. The Secretary may award a grant under this section to an entity already in existence if the entity is otherwise eligible under this section.

(d) SELECTION CRITERIA.—The Secretary shall award grants under this section on the basis of the following criteria, at a minimum:

(1) The ability of the applicant to carry out the activities in subsection (b).

(2) The extent to which the applicant will coordinate the activities of the Center with other entities, such as State and local governments, utilities, and educational and research institutions.

(e) MATCHING FUNDS.—The Secretary shall require a non-Federal matching requirement of at least 50 percent of the costs of establishing and operating each Center.

(f) ADVISORY COMMITTEE.—The Secretary shall establish an advisory committee to advise the Secretary on the establishment of Centers under this section. The advisory committee shall be composed of individuals with expertise in the area of advanced energy methods and technologies, including at least 1 representative from—

(1) State or local energy offices;

(2) energy professionals;

(3) trade or professional associations;

(4) architects, engineers, or construction professionals;

(5) manufacturers;

(6) the research community; and

(7) nonprofit energy or environmental organizations.

(g) DEFINITIONS.—For purposes of this section:

(1) ADVANCED ENERGY METHODS AND TECHNOLOGIES.—The term "advanced energy methods and technologies" means all methods and technologies that promote energy efficiency and conservation, including distributed generation technologies, and life-cycle analysis of energy use.

(2) CENTER.—The term "Center" means an Advanced Energy Technology Transfer Center established pursuant to this section.

(3) DISTRIBUTED GENERATION.—The term "distributed generation" means an electric power generation facility that is designed to serve retail electric consumers at or near the facility site.

Subtitle B—Distributed Energy and Electric Energy Systems

SEC. 911. DISTRIBUTED ENERGY AND ELECTRIC ENERGY SYSTEMS.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for distributed energy and electric energy systems activities, including activities authorized under this subtitle:

(1) For fiscal year 2004, $190,000,000.

(2) For fiscal year 2005, $200,000,000.

(3) For fiscal year 2006, $220,000,000.

(4) For fiscal year 2007, $240,000,000.

(5) For fiscal year 2008, $260,000,000.

(b) MICRO-COGENERATION ENERGY TECHNOLOGY.—From amounts authorized under subsection (a), $20,000,000 for each of fiscal years 2004 and 2005 is authorized for activities under section 914.

SEC. 912. HYBRID DISTRIBUTED POWER SYSTEMS.

(a) REQUIREMENT.—Not later than 1 year after the date of enactment of this Act, the Secretary shall develop and transmit to Congress a strategy for a comprehensive research, development, demonstration, and commercial application program to develop hybrid distributed power systems that combine—

(1) 1 or more renewable electric power generation technologies of 10 megawatts or less located near the site of electric energy use; and

(2) nonintermittent electric power generation technologies suitable for use in a distributed power system.

(b) CONTENTS.—The strategy shall—

(1) identify the needs best met with such hybrid distributed power systems and the technological barriers to the use of such systems;

(2) provide for the development of methods to design, test, integrate into systems, and operate such hybrid distributed power systems;

(3) include, as appropriate, research, development, demonstration, and commercial application on related technologies needed for the adoption of such hybrid distributed power systems, including energy storage devices and environmental control technologies;

(4) include research, development, demonstration, and commercial application of interconnection technologies for communications and controls of distributed generation architectures, particularly technologies promoting real-time response to power market information and physical conditions on the electrical grid; and

(5) describe how activities under the strategy will be integrated with other research, development, demonstration, and commercial application activities supported by the Department related to electric power technologies.

SEC. 913. HIGH POWER DENSITY INDUSTRY PROGRAM.

The Secretary shall establish a comprehensive research, development, demonstration, and commercial application program to improve energy efficiency of high power density facilities, including data centers, server farms, and telecommunications facilities. Such program shall consider technologies that provide significant improvement in thermal controls, metering, load management, peak load reduction, or the efficient cooling of electronics.

SEC. 914. MICRO-COGENERATION ENERGY TECHNOLOGY.

The Secretary shall make competitive, merit-based grants to consortia for the development of micro-cogeneration energy technology. The consortia shall explore—

(1) the use of small-scale combined heat and power in residential heating appliances; and

(2) the use of excess power to operate other appliances within the residence and supply excess generated power to the power grid.

SEC. 915. DISTRIBUTED ENERGY TECHNOLOGY DEMONSTRATION PROGRAM.

The Secretary, within the sums authorized under section 911(a), may provide financial assistance to coordinating consortia of interdisciplinary participants for demonstrations designed to accelerate the utilization of distributed energy technologies, such as fuel cells, microturbines, reciprocating engines, thermally activated technologies, and combined heat and power systems, in highly energy intensive commercial applications.

SEC. 916. RECIPROCATING POWER.

The Secretary shall conduct a research, development, and demonstration program regarding fuel system optimization and emissions reduction after-treatment technologies for industrial reciprocating engines. Such after-treatment technologies shall use processes that reduce emissions by recirculating exhaust gases and shall be designed to be retrofitted to any new or existing diesel or natural gas engine used for power generation, peaking power generation, combined heat and power, or compression.

Subtitle C—Renewable Energy

SEC. 918. RENEWABLE ENERGY.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for renewable energy research, development, demonstration, and commercial application activities, including activities authorized under this subtitle:

(1) For fiscal year 2004, $480,000,000.

(2) For fiscal year 2005, $550,000,000.

(3) For fiscal year 2006, $610,000,000.

(4) For fiscal year 2007, $659,000,000.

(5) For fiscal year 2008, $710,000,000.

(b) BIOENERGY.—From the amounts authorized under subsection (a), the following sums are authorized to be appropriated to carry out section 919:

(1) For fiscal year 2004, $135,425,000.

(2) For fiscal year 2005, $155,600,000.

(3) For fiscal year 2006, $167,650,000.

(4) For fiscal year 2007, $180,000,000.

(5) For fiscal year 2008, $192,000,000.

(c) CONCENTRATING SOLAR POWER.—From amounts authorized under subsection (a), the following sums are authorized to be appropriated to carry out section 920:

(1) For fiscal year 2004, $20,000,000.

(2) For fiscal year 2005, $40,000,000.

(3) For each of fiscal years 2006, 2007 and 2008, $50,000,000.

(d) PUBLIC BUILDINGS.—From the amounts authorized under subsection (a), $30,000,000 for each of the fiscal years 2004 through 2008 are authorized to be appropriated to carry out section 922.

(e) LIMITS ON USE OF FUNDS.—

(1) NO FUNDS FOR RENEWABLE SUPPORT AND IMPLEMENTATION.—None of the funds authorized to be appropriated under this section may be used for Renewable Support and Implementation.

(2) GRANTS.—Of the funds authorized under subsection (b), not less than $5,000,000 for each fiscal year shall be made available for grants to Historically Black Colleges and Universities, Tribal Colleges, and Hispanic-Serving Institutions.

(3) REGIONAL FIELD VERIFICATION PROGRAM.—Of the funds authorized under subsection (a), not less than $4,000,000 for each fiscal year shall be made available for the Regional Field Verification Program of the Department.

(4) OFF-STREAM PUMPED STORAGE HYDROPOWER.—Of the funds authorized under subsection (a), such sums as may be necessary shall be made available for demonstration projects of off-stream pumped storage hydropower.

(f) CONSULTATION.—In carrying out this subtitle, the Secretary, in consultation with the Secretary of Agriculture, shall demonstrate the use of advanced wind power technology, including combined use with coal gasification; biomass; geothermal energy systems; and other renewable energy technologies to assist in delivering electricity to rural and remote locations.

SEC. 919. BIOENERGY PROGRAMS.

(a) DEFINITIONS.—For the purposes of this section:

(1) The term "agricultural byproducts", includes waste products, including poultry fat and poultry waste.

(2) The term "cellulosic biomass" means any portion of a crop containing lignocellulose or hemicellulose, including barley grain, grapeseed, forest thinnings, rice bran, rice hulls, rice straw, soybean matter, and sugarcane bagasse, or any crop grown specifically for the purpose of producing cellulosic feedstocks.

(b) PROGRAM.—The Secretary shall conduct a program of research, development, demonstration, and commercial application for bioenergy, including—

(1) biopower energy systems;

(2) biofuels;

(3) bio-based products;

(4) integrated biorefineries that may produce biopower, biofuels, and bio-based products;

(5) cross-cutting research and development in feedstocks and enzymes; and

(6) economic analysis.

(c) BIOFUELS AND BIO-BASED PRODUCTS.—The goals of the biofuels and bio-based products programs shall be to develop, in partnership with industry—

(1) advanced biochemical and thermochemical conversion technologies capable of making biofuels that are price-competitive with gasoline or diesel in either internal combustion engines or fuel cell-powered vehicles, and bio-based products from a variety of feedstocks, including grains, cellulosic biomass, and other agricultural byproducts; and

(2) advanced biotechnology processes capable of making biofuels and bio-based products with emphasis on development of biorefinery technologies using enzyme-based processing systems.

SEC. 920. CONCENTRATING SOLAR POWER RESEARCH AND DEVELOPMENT PROGRAM.

(a) IN GENERAL.—The Secretary shall conduct a program of research and development to evaluate the potential of concentrating solar power for hydrogen production, including cogeneration approaches for both hydrogen and electricity. Such program shall take advantage of existing facilities to the extent possible and shall include—

(1) development of optimized technologies that are common to both electricity and hydrogen production;

(2) evaluation of thermochemical cycles for hydrogen production at the temperatures attainable with concentrating solar power;

(3) evaluation of materials issues for the thermochemical cycles described in paragraph (2);

(4) system architectures and economics studies; and

(5) coordination with activities in the Advanced Reactor Hydrogen Cogeneration Project on high temperature materials, thermochemical cycles, and economic issues.

(b) ASSESSMENT.—In carrying out the program under this section, the Secretary shall—

(1) assess conflicting guidance on the economic potential of concentrating solar power for electricity production received from the National Research Council report entitled "Renewable Power Pathways: A Review of the U.S. Department of Energy's Renewable Energy Programs" in 2000 and subsequent Department-funded reviews of that report; and

(2) provide an assessment of the potential impact of the technology before, or concurrent with, submission of the fiscal year 2006 budget.

(c) REPORT.—Not later than 5 years after the date of enactment of this Act, the Secretary shall provide a report to Congress on the economic and technical potential for electricity or hydrogen production, with or without cogeneration, with concentrating solar power, including the economic and technical feasibility of potential construction of a pilot demonstration facility suitable for commercial production of electricity or hydrogen from concentrating solar power.

SEC. 921. MISCELLANEOUS PROJECTS.

The Secretary may conduct research, development, demonstration, and commercial application programs for—

(1) ocean energy, including wave energy; and

(2) the combined use of renewable energy technologies with one another and with other energy technologies, including the combined use of wind power and coal gasification technologies.

SEC. 922. RENEWABLE ENERGY IN PUBLIC BUILDINGS.

(a) DEMONSTRATION AND TECHNOLOGY TRANSFER PROGRAM.—The Secretary shall establish a program for the demonstration of innovative technologies for solar and other renewable energy sources in buildings owned or operated by a State or local government, and for the dissemination of information resulting from such demonstration to interested parties.

(b) LIMIT ON FEDERAL FUNDING.—The Secretary shall provide under this section no more than 40 percent of the incremental costs of the solar or other renewable energy source project funded.

(c) REQUIREMENT.—As part of the application for awards under this section, the Secretary shall require all applicants—

(1) to demonstrate a continuing commitment to the use of solar and other renewable energy sources in buildings they own or operate; and

(2) to state how they expect any award to further their transition to the significant use of renewable energy.

SEC. 923. STUDY OF MARINE RENEWABLE ENERGY OPTIONS.

(a) IN GENERAL.—The Secretary shall enter into an arrangement with the National Academy of Sciences to conduct a study on—

(1) the feasibility of various methods of renewable generation of energy from the ocean, including energy from waves, tides, currents, and thermal gradients; and

(2) the research, development, demonstration, and commercial application activities required to make marine renewable energy generation competitive with other forms of electricity generation.

(b) TRANSMITTAL.—Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit the study to Congress along with the Secretary's recommendations for implementing the results of the study.

Subtitle D—Nuclear Energy

SEC. 924. NUCLEAR ENERGY.

(a) CORE PROGRAMS.—The following sums are authorized to be appropriated to the Secretary for nuclear energy research, development, demonstration, and commercial application activities, including activities authorized under this subtitle, other than those described in subsection (b):

(1) For fiscal year 2004, $273,000,000.
(2) For fiscal year 2005, $355,000,000.
(3) For fiscal year 2006, $430,000,000.
(4) For fiscal year 2007, $455,000,000.
(5) For fiscal year 2008, $545,000,000.

(b) NUCLEAR INFRASTRUCTURE SUPPORT.—The following sums are authorized to be appropriated to the Secretary for activities under section 925(e):

(1) For fiscal year 2004, $125,000,000.
(2) For fiscal year 2005, $130,000,000.
(3) For fiscal year 2006, $135,000,000.
(4) For fiscal year 2007, $140,000,000.
(5) For fiscal year 2008, $145,000,000.

(c) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 926—
(A) for fiscal year 2004, $140,000,000;
(B) for fiscal year 2005, $145,000,000;
(C) for fiscal year 2006, $150,000,000;
(D) for fiscal year 2007, $155,000,000; and
(E) for fiscal year 2008, $275,000,000.
(2) For activities under section 927—
(A) for fiscal year 2004, $35,200,000;
(B) for fiscal year 2005, $44,350,000;
(C) for fiscal year 2006, $49,200,000;
(D) for fiscal year 2007, $54,950,000; and
(E) for fiscal year 2008, $60,000,000.

(3) For activities under section 929, for each of fiscal years 2004 through 2008, $6,000,000.

(d) LIMITATION ON USE OF FUNDS.—None of the funds authorized under this section may be used for decommissioning the Fast Flux Test Facility.

SEC. 925. NUCLEAR ENERGY RESEARCH AND DEVELOPMENT PROGRAMS.

(a) NUCLEAR ENERGY RESEARCH INITIATIVE.—The Secretary shall carry out a Nuclear Energy Research Initiative for research and development related to nuclear energy.

(b) NUCLEAR ENERGY PLANT OPTIMIZATION PROGRAM.—The Secretary shall carry out a Nuclear Energy Plant Optimization Program to support research and development activities addressing reliability, availability, productivity, component aging, safety, and security of existing nuclear power plants.

(c) NUCLEAR POWER 2010 PROGRAM.—The Secretary shall carry out a Nuclear Power 2010 Program, consistent with recommendations in the October 2001 report entitled "A Roadmap to Deploy New Nuclear Power Plants in the United States by 2010" issued by the Nuclear Energy Research Advisory Committee of the Department. Whatever type of reactor is chosen for the hydrogen cogeneration project under subtitle C of title VI, that type shall not be addressed in the Program under this section. The Program shall include—

(1) support for first-of-a-kind engineering design and certification expenses of advanced nuclear power plant designs, which offer improved safety and economics over current conventional plants and the promise of near-term to medium-term commercial deployment;

(2) action by the Secretary to encourage domestic power companies to install new nuclear plant capacity as soon as possible;

(3) utilization of the expertise and capabilities of industry, universities, and National Laboratories in evaluation of advanced nuclear fuel cycles and fuels testing;

(4) consideration of proliferation-resistant passively-safe, small reactors suitable for long-term electricity production without refueling and suitable for use in remote installations;

(5) participation of international collaborators in research, development, design, and deployment efforts as appropriate and consistent with United States interests in nonproliferation of nuclear weapons;

(6) encouragement for university and industry participation; and

(7) selection of projects such as to strengthen the competitive position of the domestic nuclear power industrial infrastructure.

(d) GENERATION IV NUCLEAR ENERGY SYSTEMS INITIATIVE.—The Secretary shall carry out a Generation IV Nuclear Energy Systems Initiative to develop an overall technology plan and to support research and development necessary to make an informed technical decision about the most promising candidates for eventual commercial application. The Initiative shall examine advanced proliferation-resistant and passively safe reactor designs, including designs that—

(1) are economically competitive with other electric power generation plants;

(2) have higher efficiency, lower cost, and improved safety compared to reactors in operation on the date of enactment of this Act;

(3) use fuels that are proliferation-resistant and have substantially reduced production of high-level waste per unit of output; and

(4) use improved instrumentation.

(e) NUCLEAR INFRASTRUCTURE SUPPORT.—The Secretary shall develop and implement a strategy for the facilities of the Office of Nuclear Energy, Science, and Technology and shall transmit a report containing the strategy along with the President's budget request to Congress for fiscal year 2006.

SEC. 926. ADVANCED FUEL CYCLE INITIATIVE.

(a) IN GENERAL.—The Secretary, through the Director of the Office of Nuclear Energy, Science, and Technology, shall conduct an advanced fuel recycling technology research and development program to evaluate proliferation-resistant fuel recycling and transmutation technologies that minimize environmental or public health and safety impacts as an alternative to aqueous reprocessing technologies deployed as *of the date of enactment of this Act in support of evaluation of alternative national strategies for spent nuclear fuel and the Generation IV advanced reactor concepts, subject to annual review by the Secretary's Nuclear Energy Research Advisory Committee or other independent entity, as appropriate. Opportunities to enhance progress of the program through international cooperation should be sought.*

(b) REPORTS.—The Secretary shall report on the activities of the advanced fuel recycling technology research and development program as part of the Department's annual budget submission.

SEC. 927. UNIVERSITY NUCLEAR SCIENCE AND ENGINEERING SUPPORT.

(a) ESTABLISHMENT.—The Secretary shall support a program to invest in human resources and infrastructure in the nuclear sciences and engineering and related fields (including health physics and nuclear and radiochemistry), consistent with departmental missions related to civilian nuclear research and development.

(b) DUTIES.—In carrying out the program under this section, the Secretary shall establish fellowship and faculty assistance programs, as well as provide support for fundamental research and encourage collaborative research among industry, National Laboratories, and universities through the Nuclear Energy Research Initiative. The Secretary is encouraged to support activities addressing the entire fuel cycle through involvement of both the Office of Nuclear Energy, Science, and Technology and the Office of Civilian Radioactive Waste Management. The Secretary shall support communication and outreach related to nuclear science, engineering, and nuclear waste management, consistent with interests of the United States in nonproliferation of nuclear weapons capabilities.

(c) STRENGTHENING UNIVERSITY RESEARCH AND TRAINING REACTORS AND ASSOCIATED INFRASTRUCTURE.—Activities under this section may include—

(1) converting research and training reactors currently using high-enrichment fuels to low-enrichment fuels, upgrading operational instrumentation, and sharing of reactors among institutions of higher education;

(2) providing technical assistance, in collaboration with the United States nuclear industry, in relicensing and upgrading research and training reactors as part of a student training program; and

(3) providing funding, through the Innovations in Nuclear Infrastructure and Education Program, for reactor improvements as part of a focused effort that emphasizes research, training, and education.

(d) UNIVERSITY NATIONAL LABORATORY INTERACTIONS.—The Secretary shall develop sabbatical fellowship and visiting scientist programs to encourage sharing of personnel between National Laboratories and universities.

(e) OPERATING AND MAINTENANCE COSTS.—Funding for a research project provided under this section may be used to offset a portion of the operating and maintenance costs of a research and training reactor at an institution of higher education used in the research project.

SEC. 928. SECURITY OF REACTOR DESIGNS.

The Secretary, through the Director of the Office of Nuclear Energy, Science, and Technology, shall conduct a research and development program on cost-effective technologies for increasing the safety of reactor designs from natural phenomena and the security of reactor designs from deliberate attacks.

SEC. 929. ALTERNATIVES TO INDUSTRIAL RADIOACTIVE SOURCES.

(a) STUDY.—The Secretary shall conduct a study and provide a report to Congress not later than August 1, 2004. The study shall—

(1) survey industrial applications of large radioactive sources, including well-logging sources;

(2) review current domestic and international Department, Department of Defense, Department of State, and commercial programs to manage and dispose of radioactive sources;

(3) discuss disposal options and practices for currently deployed or future sources and, if deficiencies are noted in existing disposal options or practices for either deployed or future sources, recommend options to remedy deficiencies; and

(4) develop a program plan for research and development to develop alternatives to large industrial sources that reduce safety, environmental, or proliferation risks to either workers using the sources or the public.

(b) PROGRAM.—The Secretary shall establish a research and development program to implement the program plan developed under subsection (a)(4). The program shall include miniaturized particle accelerators for well-logging or other industrial applications and portable accelerators for production of short-lived radioactive materials at an industrial site.

SEC. 930. GEOLOGICAL ISOLATION OF SPENT FUEL.

The Secretary shall conduct a study to determine the feasibility of deep borehole disposal of spent nuclear fuel and high-level radioactive waste. The study shall emphasize geological, chemical, and hydrological characterization of, and design of engineered structures for, deep borehole environments. Not later than 1 year after the date of enactment of this Act, the Secretary shall transmit the study to Congress.

Subtitle E—Fossil Energy

PART I—RESEARCH PROGRAMS

SEC. 931. FOSSIL ENERGY.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for fossil energy research, development, demonstration, and commercial application activities, including activities authorized under this part:

(1) For fiscal year 2004, $530,000,000.

(2) For fiscal year 2005, $556,000,000.

(3) For fiscal year 2006, $583,000,000.

(4) For fiscal year 2007, $611,000,000.

(5) For fiscal year 2008, $626,000,000.

(b) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities under section 932(b)(2), $28,000,000 for each of the fiscal years 2004 through 2008.

(2) For activities under section 934—

(A) for fiscal year 2004, $12,000,000;

(B) for fiscal year 2005, $15,000,000; and

(C) for each of fiscal years 2006 through 2008, $20,000,000.

(3) For activities under section 935—

(A) for fiscal year 2004, $259,000,000;

(B) for fiscal year 2005, $272,000,000;

(C) for fiscal year 2006, $285,000,000;

(D) for fiscal year 2007, $298,000,000; and

(E) for fiscal year 2008, $308,000,000.

(4) For the Office of Arctic Energy under section 3197 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (42 U.S.C. 7144d), $25,000,000 for each of fiscal years 2004 through 2008.

(5) For activities under section 933, $4,000,000 for fiscal year 2004 and $2,000,000 for each of fiscal years 2005 through 2008.

(c) EXTENDED AUTHORIZATION.—There are authorized to be appropriated to the Secretary for the Office of Arctic Energy under section 3197 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (42 U.S.C. 7144d), $25,000,000 for each of fiscal years 2009 through 2012.

(d) LIMITS ON USE OF FUNDS.—

(1) NO FUNDS FOR CERTAIN PROGRAMS.—None of the funds authorized under this section may be used for Fossil Energy Environmental Restoration or Import/Export Authorization.

(2) INSTITUTIONS OF HIGHER EDUCATION.—Of the funds authorized under subsection (b)(2), not less than 20 percent of the funds appropriated for each fiscal year shall be dedicated to research and development carried out at institutions of higher education.

SEC. 932. OIL AND GAS RESEARCH PROGRAMS.

(a) OIL AND GAS RESEARCH.—The Secretary shall conduct a program of research, development, demonstration, and commercial application on oil and gas, including—

(1) exploration and production;

(2) gas hydrates;

(3) reservoir life and extension;

(4) transportation and distribution infrastructure;

(5) ultraclean fuels;

(6) heavy oil and oil shale;

(7) related environmental research; and

(8) compressed natural gas marine transport.

(b) FUEL CELLS.—

(1) IN GENERAL.—The Secretary shall conduct a program of research, development, demonstration, and commercial application on fuel cells for low-cost, high-efficiency, fuel-flexible, modular power systems.

(2) IMPROVED MANUFACTURING PRODUCTION AND PROCESSES.—The demonstrations under paragraph (1) shall include fuel cell technology for commercial, residential, and transportation applications, and distributed generation systems, utilizing improved manufacturing production and processes.

(c) NATURAL GAS AND OIL DEPOSITS REPORT.—Not later than 2 years after the date of enactment of this Act, and every 2 years thereafter, the Secretary of the Interior, in consultation with other appropriate Federal agencies, shall transmit a report to Congress of the latest estimates of natural gas and oil reserves, reserves growth, and undiscovered resources in Federal and State waters off the coast of Louisiana and Texas.

(d) INTEGRATED CLEAN POWER AND ENERGY RESEARCH.—

(1) NATIONAL CENTER OR CONSORTIUM OF EXCELLENCE.—The Secretary shall establish a national center or consortium of excellence in clean energy and power generation, utilizing the resources of the existing Clean Power and Energy Research Consortium, to address the Nation's critical dependence on energy and the need to reduce emissions.

(2) PROGRAM.—The center or consortium shall conduct a program of research, development, demonstration, and commercial application on integrating the following focus areas:

(A) Efficiency and reliability of gas turbines for power generation.

(B) Reduction in emissions from power generation.

(C) Promotion of energy conservation issues.

(D) Effectively utilizing alternative fuels and renewable energy.

(E) Development of advanced materials technology for oil and gas exploration and utilization in harsh environments.

(F) Education on energy and power generation issues.

SEC. 933. TECHNOLOGY TRANSFER.

The Secretary shall establish a competitive program to award a contract to a nonprofit entity for the purpose of transferring technologies developed with public funds. The entity selected under this section shall have experience in offshore oil and gas technology research management, in the transfer of technologies developed with public funds to the offshore and maritime industry, and in management of an offshore and maritime industry consortium. The program *consortium selected under section 942 shall not be eligible for selection under this section. When appropriate, the Secretary shall consider utilizing the entity selected under this section when implementing the activities authorized by section 975.*

SEC. 934. RESEARCH AND DEVELOPMENT FOR COAL MINING TECHNOLOGIES.

(a) Establishment.—The Secretary shall carry out a program of research and development on coal mining technologies. The Secretary shall cooperate with appropriate Federal agencies, coal producers, trade associations, equipment manufacturers, institutions of higher education with mining engineering departments, and other relevant entities.

(b) Program.—The research and development activities carried out under this section shall—

(1) be guided by the mining research and development priorities identified by the Mining Industry of the Future Program and in the recommendations from relevant reports of the National Academy of Sciences on mining technologies;

(2) include activities exploring minimization of contaminants in mined coal that contribute to environmental concerns including development and demonstration of electromagnetic wave imaging ahead of mining operations;

(3) develop and demonstrate electromagnetic wave imaging and radar techniques for horizontal drilling in coal beds in order to increase methane recovery efficiency, prevent spoilage of domestic coal reserves, and minimize water disposal associated with methane extraction; and

(4) expand mining research capabilities at institutions of higher education.

SEC. 935. COAL AND RELATED TECHNOLOGIES PROGRAM.

(a) In General.—In addition to the programs authorized under title IV, the Secretary shall conduct a program of technology research, development, demonstration, and commercial application for coal and power systems, including programs to facilitate production and generation of coal-based power through—

(1) innovations for existing plants;

(2) integrated gasification combined cycle;

(3) advanced combustion systems;

(4) turbines for synthesis gas derived from coal;

(5) carbon capture and sequestration research and development;

(6) coal-derived transportation fuels and chemicals;

(7) solid fuels and feedstocks;

(8) advanced coal-related research;

(9) advanced separation technologies; and

(10) a joint project for permeability enhancement in coals for natural gas production and carbon dioxide sequestration.

(b) Cost and Performance Goals.—In carrying out programs authorized by this section, the Secretary shall identify cost and performance goals for coal-based technologies that would permit the continued cost-competitive use of coal for electricity generation, as chemical feedstocks, and as transportation fuel in 2007, 2015, and the years after 2020. In establishing such cost and performance goals, the Secretary shall—

(1) consider activities and studies undertaken to date by industry in cooperation with the Department in support of such assessment;

(2) consult with interested entities, including coal producers, industries using coal, organizations to promote coal and advanced coal technologies, environmental organizations, and organizations representing workers;

(3) not later than 120 days after the date of enactment of this Act, publish in the Federal Register proposed draft cost and performance goals for public comments; and

(4) not later than 180 days after the date of enactment of this Act and every 4 years thereafter, submit to Congress a report describing final cost and performance goals for such technologies that includes a list of technical milestones as well as an explanation of how programs authorized in this section will not duplicate the activities authorized under the Clean Coal Power Initiative authorized under subtitle A of title IV.

SEC. 936. COMPLEX WELL TECHNOLOGY TESTING FACILITY.

The Secretary, in coordination with industry leaders in extended research drilling technology, shall establish a Complex Well Technology Testing Facility at the Rocky Mountain Oilfield Testing Center to increase the range of extended drilling technologies.

SEC. 937. FISCHER-TROPSCH DIESEL FUEL LOAN GUARANTEE PROGRAM.

(a) Definition of Fischer-Tropsch Diesel Fuel.—In this section, the term "Fischer-Tropsch diesel fuel" means diesel fuel that—

(1) contains less than 10 parts per million sulfur; and

(2) is produced through the Fischer-Tropsch liquification process from coal or waste from coal that was mined in the United States.

(b) Loan Guarantees.—

(1) Establishment of program.—The Secretary of Energy shall establish a program to provide guarantees of loans by private lending institutions for the construction of facilities for the production of Fischer-Tropsch diesel fuel and commercial byproducts of that production.

(2) Requirements.—The Secretary may provide a loan guarantee under paragraph (1) if—

(A) without a loan guarantee, credit is not available to the applicant under reasonable terms or conditions sufficient to finance the construction of a facility described in paragraph (1);

(B) the prospective earning power of the applicant and the character and value of the security pledged provide a reasonable assurance of repayment of the loan to be guaranteed in accordance with the terms of the loan; and

(C) the loan bears interest at a rate determined by the Secretary to be reasonable, taking into account the current average yield on outstanding obligations of the United States with remaining periods of maturity comparable to the maturity of the loan.

(3) Criteria.—In selecting recipients of loan guarantees from among applicants, the Secretary shall give preference to proposals that—

(A) meet all Federal and State permitting requirements;

(B) are most likely to be successful; and

(C) are located in local markets that have the greatest need for the facility because of—

(i) the availability of domestic coal or coal waste for conversion; or

(ii) a projected high level of demand for Fischer-Tropsch diesel fuel or other commercial byproducts of the facility.

(4) Maturity.—A loan guaranteed under paragraph (1) shall have a maturity of not more than 25 years.

(5) Terms and conditions.—The loan agreement for a loan guaranteed under paragraph (1) shall provide that no provision of the loan may be amended or waived without the consent of the Secretary.

(6) Guarantee fee.—A recipient of a loan guarantee under paragraph (1) shall pay the Secretary an amount to be determined by the Secretary to be sufficient to cover the administrative costs of the Secretary relating to the loan guarantee.

(7) Full faith and credit.—

(A) In general.—The full faith and credit of the United States is pledged to payment of loan guarantees made under this section.

(B) Conclusive evidence.—Any loan guarantee made by the Secretary under this section shall be conclusive evidence of the eligibility of the loan for the guarantee with respect to principal and interest.

(C) Validity.—The validity of a loan guarantee shall be incontestable in the hands of a holder of the guaranteed loan.

(8) Reports.—Until each guaranteed loan under this section is repaid in full, the Secretary shall annually submit to Congress a report on the activities of the Secretary under this section.

(9) Authorization of appropriations.—There are authorized to be appropriated such sums as are necessary to carry out this section.

(10) Termination of authority.—The authority of the Secretary to issue a new loan guarantee under paragraph (1) terminates on the date that is 5 years after the date of enactment of this Act.

PART II—ULTRA-DEEPWATER AND UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES

SEC. 941. PROGRAM AUTHORITY.

(a) In General.—The Secretary shall carry out a program under this part of research, development, demonstration, and commercial application of technologies for ultra-deepwater and unconventional natural gas and other petroleum resource exploration and production, including addressing the technology challenges for small producers, safe operations, and environmental mitigation (including reduction of greenhouse gas emissions and sequestration of carbon).

(b) Program Elements.—The program under this part shall address the following areas, including improving safety and minimizing environmental impacts of activities within each area:

(1) Ultra-deepwater technology, including drilling to formations in the Outer Continental Shelf to depths greater than 15,000 feet.

(2) Ultra-deepwater architecture.

(3) Unconventional natural gas and other petroleum resource exploration and production technology, including the technology challenges of small producers.

(c) Limitation on Location of Field Activities.—Field activities under the program under this part shall be carried out only—

(1) in—

(A) areas in the territorial waters of the United States not under any Outer Continental Shelf moratorium as of September 30, 2002;

(B) areas onshore in the United States on public land administered by the Secretary of the Interior available for oil and gas leasing, where consistent with applicable law and land use plans; and

(C) areas onshore in the United States on State or private land, subject to applicable law; and

(2) with the approval of the appropriate Federal or State land management agency or private land owner.

(d) Research at National Energy Technology Laboratory.—The Secretary, through the National Energy Technology Laboratory, shall carry out research complementary to research under subsection (b).

(e) Consultation with Secretary of the Interior.—In carrying out this part, the Secretary shall consult regularly with the Secretary of the Interior.

SEC. 942. ULTRA-DEEPWATER PROGRAM.

(a) In general.—The Secretary shall carry out the activities under section 941(a), to maximize the use of the ultra-deepwater natural gas and other petroleum resources of the United States by increasing the supply of such resources, through reducing the cost and increasing the efficiency of exploration for and production of such resources, while improving safety and minimizing environmental impacts.

(b) ROLE OF THE SECRETARY.—The Secretary shall have ultimate responsibility for, and oversight of, all aspects of the program under this section.

(c) ROLE OF THE PROGRAM CONSORTIUM.—

(1) IN GENERAL.—The Secretary may contract with a consortium to—

(A) manage awards pursuant to subsection (f)(4);

(B) make recommendations to the Secretary for project solicitations;

(C) disburse funds awarded under subsection (f) as directed by the Secretary in accordance with the annual plan under subsection (e); and

(D) carry out other activities assigned to the program consortium by this section.

(2) LIMITATION.—The Secretary may not assign any activities to the program consortium except as specifically authorized under this section.

(3) CONFLICT OF INTEREST.—

(A) PROCEDURES.—The Secretary shall establish procedures—

(i) to ensure that each board member, officer, or employee of the program consortium who is in a decision-making capacity under subsection (f)(3) or (4) shall disclose to the Secretary any financial interests in, or financial relationships with, applicants for or recipients of awards under this section, including those of his or her spouse or minor child, unless such relationships or interests would be considered to be remote or inconsequential; and

(ii) to require any board member, officer, or employee with a financial relationship or interest disclosed under clause (i) to recuse himself or herself from any review under subsection (f)(3) or oversight under subsection (f)(4) with respect to such applicant or recipient.

(B) FAILURE TO COMPLY.—The Secretary may disqualify an application or revoke an award under this section if a board member, officer, or employee has failed to comply with procedures required under subparagraph (A)(ii).

(d) SELECTION OF THE PROGRAM CONSORTIUM.—

(1) IN GENERAL.—The Secretary shall select the program consortium through an open, competitive process.

(2) MEMBERS.—The program consortium may include corporations, trade associations, institutions of higher education, National Laboratories, or other research institutions. After submitting a proposal under paragraph (4), the program consortium may not add members without the consent of the Secretary.

(3) TAX STATUS.—The program consortium shall be an entity that is exempt from tax under section 501(c)(3) of the Internal Revenue Code of 1986.

(4) SCHEDULE.—Not later than 180 days after the date of enactment of this Act, the Secretary shall solicit proposals from eligible consortia to perform the duties in subsection (c)(1), which shall be submitted not later than 360 days after the date of enactment of this Act. The Secretary shall select the program consortium not later than 18 months after such date of enactment.

(5) APPLICATION.—Applicants shall submit a proposal including such information as the Secretary may require. At a minimum, each proposal shall—

(A) list all members of the consortium;

(B) fully describe the structure of the consortium, including any provisions relating to intellectual property; and

(C) describe how the applicant would carry out the activities of the program consortium under this section.

(6) ELIGIBILITY.—To be eligible to be selected as the program consortium, an applicant must be an entity whose members collectively have demonstrated capabilities in planning and managing research, development, demonstration, and commercial application programs in natural gas or other petroleum exploration or production.

(7) CRITERION.—The Secretary shall consider the amount of the fee an applicant proposes to receive under subsection (g) in selecting a consortium under this section.

(e) ANNUAL PLAN.—

(1) IN GENERAL.—The program under this section shall be carried out pursuant to an annual plan prepared by the Secretary in accordance with paragraph (2).

(2) DEVELOPMENT.—

(A) SOLICITATION OF RECOMMENDATIONS.—Before drafting an annual plan under this subsection, the Secretary shall solicit specific written recommendations from the program consortium for each element to be addressed in the plan, including those described in paragraph (4). The Secretary may request that the program consortium submit its recommendations in the form of a draft annual plan.

(B) SUBMISSION OF RECOMMENDATIONS; OTHER COMMENT.—The Secretary shall submit the recommendations of the program consortium under subparagraph (A) to the Ultra-Deepwater Advisory Committee established under section 945(a) for review, and such Advisory Committee shall provide to the Secretary written comments by a date determined by the Secretary. The Secretary may also solicit comments from any other experts.

(C) CONSULTATION.—The Secretary shall consult regularly with the program consortium throughout the preparation of the annual plan.

(3) PUBLICATION.—The Secretary shall transmit to Congress and publish in the Federal Register the annual plan, along with any written comments received under paragraph (2)(A) and (B).

(4) CONTENTS.—The annual plan shall describe the ongoing and prospective activities of the program under this section and shall include—

(A) a list of any solicitations for awards that the Secretary plans to issue to carry out research, development, demonstration, or commercial application activities, including the topics for such work, who would be eligible to apply, selection criteria, and the duration of awards; and

(B) a description of the activities expected of the program consortium to carry out subsection (f)(4).

(5) ESTIMATES OF INCREASED ROYALTY RECEIPTS.—The Secretary, in consultation with the Secretary of the Interior, shall provide an annual report to Congress with the President's budget on the estimated cumulative increase in Federal royalty receipts (if any) resulting from the implementation of this part. The initial report under this paragraph shall be submitted in the first President's budget following the completion of the first annual plan required under this subsection.

(f) AWARDS.—

(1) IN GENERAL.—The Secretary shall make awards to carry out research, development, demonstration, and commercial application activities under the program under this section. The program consortium shall not be eligible to receive such awards, but members of the program consortium may receive such awards.

(2) PROPOSALS.—The Secretary shall solicit proposals for awards under this subsection in such manner and at such time as the Secretary may prescribe, in consultation with the program consortium.

(3) REVIEW.—The Secretary shall make awards under this subsection through a competitive process, which shall include a review by individuals selected by the Secretary. Such individuals shall include, for each application, Federal officials, the program consortium, and non-Federal experts who are not board members, officers, or employees of the program consortium or of a member of the program consortium.

(4) OVERSIGHT.—

(A) IN GENERAL.—The program consortium shall oversee the implementation of awards under this subsection, consistent with the annual plan under subsection (e), including disbursing funds and monitoring activities carried out under such awards for compliance with the terms and conditions of the awards.

(B) EFFECT.—Nothing in subparagraph (A) shall limit the authority or responsibility of the Secretary to oversee awards, or limit the authority of the Secretary to review or revoke awards.

(C) PROVISION OF INFORMATION.—The Secretary shall provide to the program consortium the information necessary for the program consortium to carry out its responsibilities under this paragraph.

(g) ADMINISTRATIVE COSTS.—

(1) IN GENERAL.—To compensate the program consortium for carrying out its activities under this section, the Secretary shall provide to the program consortium funds sufficient to administer the program. This compensation may include a management fee consistent with Department of Energy contracting practices and procedures.

(2) ADVANCE.—The Secretary shall advance funds to the program consortium upon selection of the consortium, which shall be deducted from amounts to be provided under paragraph (1).

(h) AUDIT.—The Secretary shall retain an independent, commercial auditor to determine the extent to which funds provided to the program consortium, and funds provided under awards made under subsection (f), have been expended in a manner consistent with the purposes and requirements of this part. The auditor shall transmit a report annually to the Secretary, who shall transmit the report to Congress, along with a plan to remedy any deficiencies cited in the report.

SEC. 943. UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCES PROGRAM.

(a) IN GENERAL.—The Secretary shall carry out activities under subsection 941(b)(3), to maximize the use of the onshore unconventional natural gas and other petroleum resources of the United States, by increasing the supply of such resources, through reducing the cost and increasing the efficiency of exploration for and production of such resources, while improving safety and minimizing environmental impacts.

(b) AWARDS.—

(1) IN GENERAL.—The Secretary shall carry out this section through awards to research consortia made through an open, competitive process. As a condition of award of funds, qualified research consortia shall—

(A) demonstrate capability and experience in unconventional onshore natural gas or other petroleum research and development;

(B) provide a research plan that demonstrates how additional natural gas or oil production will be achieved; and

(C) at the request of the Secretary, provide technical advice to the Secretary for the purposes of developing the annual plan required under subsection (e).

(2) PRODUCTION POTENTIAL.—The Secretary shall seek to ensure that the number and types of awards made under this subsection have reasonable potential to lead to additional oil and natural gas production on Federal lands.

(3) SCHEDULE.—To carry out this subsection, not later than 180 days after the date of enactment of this Act, the Secretary shall solicit proposals from research consortia, which shall be submitted not later than 360 days after the date of enactment of this Act. The Secretary shall select the first group of research consortia to receive awards under this subsection not later than 18 months after such date of enactment.

(c) Audit.—The Secretary shall retain an independent, commercial auditor to determine the extent to which funds provided under awards made under this section have been expended in a manner consistent with the purposes and requirements of this part. The auditor shall transmit a report annually to the Secretary, who shall transmit the report to Congress, along with a plan to remedy any deficiencies cited in the report.

(d) Focus Areas for Awards.—

(1) Unconventional resources.—Awards from allocations under section 949(d)(2) shall focus on areas including advanced coalbed methane, deep drilling, natural gas production from tight sands, natural gas production from gas shales, stranded gas, innovative exploration and production techniques, enhanced recovery techniques, and environmental mitigation of unconventional natural gas and other petroleum resources exploration and production.

(2) Small producers.—Awards from allocations under section 949(d)(3) shall be made to consortia consisting of small producers or organized primarily for the benefit of small producers, and shall focus on areas including complex geology involving rapid changes in the type and quality of the oil and gas reservoirs across the reservoir; low reservoir pressure; unconventional natural gas reservoirs in coalbeds, deep reservoirs, tight sands, or shales; and unconventional oil reservoirs in tar sands and oil shales.

(e) Annual Plan.—

(1) In general.—The program under this section shall be carried out pursuant to an annual plan prepared by the Secretary in accordance with paragraph (2).

(2) Development.—

(A) Written recommendations.—Before drafting an annual plan under this subsection, the Secretary shall solicit specific written recommendations from the research consortia receiving awards under subsection (b) and the Unconventional Resources Technology Advisory Committee for each element to be addressed in the plan, including those described in subparagraph (D).

(B) Consultation.—The Secretary shall consult regularly with the research consortia throughout the preparation of the annual plan.

(C) Publication.—The Secretary shall transmit to Congress and publish in the Federal Register the annual plan, along with any written comments received under subparagraph (A).

(D) Contents.—The annual plan shall describe the ongoing and prospective activities under this section and shall include a list of any solicitations for awards that the Secretary plans to issue to carry out research, development, demonstration, or commercial application activities, including the topics for such work, who would be eligible to apply, selection criteria, and the duration of awards.

(3) Estimates of increased royalty receipts.—The Secretary, in consultation with the Secretary of the Interior, shall provide an annual report to Congress with the President's budget on the estimated cumulative increase in Federal royalty receipts (if any) resulting from the implementation of this part. The initial report under this paragraph shall be submitted in the first President's budget following the completion of the first annual plan required under this subsection.

(f) Activities by the United States Geological Survey.—The Secretary of the Interior, through the United States Geological Survey, shall, where appropriate, carry out programs of long-term research to complement the programs under this section.

SEC. 944. ADDITIONAL REQUIREMENTS FOR AWARDS.

(a) Demonstration Projects.—An application for an award under this part for a demonstration project shall describe with specificity the intended commercial use of the technology to be demonstrated.

(b) Flexibility in Locating Demonstration Projects.—Subject to the limitation in section 941(c), a demonstration project under this part relating to an ultra-deepwater technology or an ultra-deepwater architecture may be conducted in deepwater depths.

(c) Intellectual Property Agreements.—If an award under this part is made to a consortium (other than the program consortium), the consortium shall provide to the Secretary a signed contract agreed to by all members of the consortium describing the rights of each member to intellectual property used or developed under the award.

(d) Technology Transfer.—2.5 percent of the amount of each award made under this part shall be designated for technology transfer and outreach activities under this title.

(e) Cost Sharing Reduction for Independent Producers.—In applying the cost sharing requirements under section 972 to an award under this part the Secretary may reduce or eliminate the non-Federal requirement if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project.

SEC. 945. ADVISORY COMMITTEES.

(a) Ultra-Deepwater Advisory Committee.—

(1) Establishment.—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Ultra-Deepwater Advisory Committee.

(2) Membership.—The advisory committee under this subsection shall be composed of members appointed by the Secretary including—

(A) individuals with extensive research experience or operational knowledge of offshore natural gas and other petroleum exploration and production;

(B) individuals broadly representative of the affected interests in ultra-deepwater natural gas and other petroleum production, including interests in environmental protection and safe operations;

(C) no individuals who are Federal employees; and

(D) no individuals who are board members, officers, or employees of the program consortium.

(3) Duties.—The advisory committee under this subsection shall—

(A) advise the Secretary on the development and implementation of programs under this part related to ultra-deepwater natural gas and other petroleum resources; and

(B) carry out section 942(e)(2)(B).

(4) Compensation.—A member of the advisory committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(b) Unconventional Resources Technology Advisory Committee.—

(1) Establishment.—Not later than 270 days after the date of enactment of this Act, the Secretary shall establish an advisory committee to be known as the Unconventional Resources Technology Advisory Committee.

(2) Membership.—The advisory committee under this subsection shall be composed of members appointed by the Secretary including—

(A) a majority of members who are employees or representatives of independent producers of natural gas and other petroleum, including small producers;

(B) individuals with extensive research experience or operational knowledge of unconventional natural gas and other petroleum resource exploration and production;

(C) individuals broadly representative of the affected interests in unconventional natural gas and other petroleum resource exploration and production, including interests in environmental protection and safe operations; and

(D) no individuals who are Federal employees.

(3) Duties.—The advisory committee under this subsection shall advise the Secretary on the development and implementation of activities under this part related to unconventional natural gas and other petroleum resources.

(4) Compensation.—A member of the advisory committee under this subsection shall serve without compensation but shall receive travel expenses in accordance with applicable provisions under subchapter I of chapter 57 of title 5, United States Code.

(c) Prohibition.—No advisory committee established under this section shall make recommendations on funding awards to particular consortia or other entities, or for specific projects.

SEC. 946. LIMITS ON PARTICIPATION.

An entity shall be eligible to receive an award under this part only if the Secretary finds—

(1) that the entity's participation in the program under this part would be in the economic interest of the United States; and

(2) that either—

(A) the entity is a United States-owned entity organized under the laws of the United States; or

(B) the entity is organized under the laws of the United States and has a parent entity organized under the laws of a country that affords—

(i) to United States-owned entities opportunities, comparable to those afforded to any other entity, to participate in any cooperative research venture similar to those authorized under this part;

(ii) to United States-owned entities local investment opportunities comparable to those afforded to any other entity; and

(iii) adequate and effective protection for the intellectual property rights of United States-owned entities.

SEC. 947. SUNSET.

The authority provided by this part shall terminate on September 30, 2011.

SEC. 948. DEFINITIONS.

In this part:

(1) Deepwater.—The term "deepwater" means a water depth that is greater than 200 but less than 1,500 meters.

(2) Independent producer of oil or gas.—

(A) In general.—The term "independent producer of oil or gas" means any person that produces oil or gas other than a person to whom subsection (c) of section 613A of the Internal Revenue Code of 1986 does not apply by reason of paragraph (2) (relating to certain retailers) or paragraph (4) (relating to certain refiners) of section 613A(d) of such Code.

(B) Rules for applying paragraphs (2) and (4) of section 613A(d).—For purposes of subparagraph (A), paragraphs (2) and (4) of section 613A(d) of the Internal Revenue Code of 1986 shall be applied by substituting "calendar year" for "taxable year" each place it appears in such paragraphs.

(3) Program consortium.—The term "program consortium" means the consortium selected under section 942(d).

(4) Remote or inconsequential.—The term "remote or inconsequential" has the meaning given that term in regulations issued by the Office of Government Ethics under section 208(b)(2) of title 18, United States Code.

(5) Small producer.—The term "small producer" means an entity organized under the laws of the United States with production levels of less than 1,000 barrels per day of oil equivalent.

(6) Ultra-deepwater.—The term "ultra-deepwater" means a water depth that is equal to or greater than 1,500 meters.

(7) ULTRA-DEEPWATER ARCHITECTURE.—The term "ultra-deepwater architecture" means the integration of technologies for the exploration for, or production of, natural gas or other petroleum resources located at ultra-deepwater depths.

(8) ULTRA-DEEPWATER TECHNOLOGY.—The term "ultra-deepwater technology" means a discrete technology that is specially suited to address 1 or more challenges associated with the exploration for, or production of, natural gas or other petroleum resources located at ultra-deepwater depths.

(9) UNCONVENTIONAL NATURAL GAS AND OTHER PETROLEUM RESOURCE.—The term "unconventional natural gas and other petroleum resource" means natural gas and other petroleum resource located onshore in an economically inaccessible geological formation, including resources of small producers.

SEC. 949. FUNDING.

(a) IN GENERAL.—

(1) OIL AND GAS LEASE INCOME.—For each of fiscal years 2004 through 2013, from any Federal royalties, rents, and bonuses derived from Federal onshore and offshore oil and gas leases issued under the Outer Continental Shelf Lands Act and the Mineral Leasing Act which are deposited in the Treasury, and after distribution of any such funds as described in subsection (c), $150,000,000 shall be deposited into the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund (in this section referred to as the Fund). For purposes of this section, the term "royalties" excludes proceeds from the sale of royalty production taken in kind and royalty production that is transferred under section 27(a)(3) of the Outer Continental Shelf Lands Act (43 U.S.C. 1353(a)(3)).

(2) AUTHORIZATION OF APPROPRIATIONS.—In addition to amounts described in paragraph (1), there are authorized to be appropriated to the Secretary, to be deposited in the Fund, $50,000,000 for each of the fiscal years 2004 through 2013, to remain available until expended.

(b) OBLIGATIONAL AUTHORITY.—Monies in the Fund shall be available to the Secretary for obligation under this part without fiscal year limitation, to remain available until expended.

(c) PRIOR DISTRIBUTIONS.—The distributions described in subsection (a) are those required by law—

(A) to States and to the Reclamation Fund under the Mineral Leasing Act (30 U.S.C. 191(a)); and

(B) to other funds receiving monies from Federal oil and gas leasing programs, including—

(i) any recipients pursuant to section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g));

(ii) the Land and Water Conservation Fund, pursuant to section 2(c) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601–5(c));

(iii) the Historic Preservation Fund, pursuant to section 108 of the National Historic Preservation Act (16 U.S.C. 470h); and

(iv) the Secure Energy Reinvestment Fund.

(d) ALLOCATION.—Amounts obligated from the Fund under this section in each fiscal year shall be allocated as follows:

(1) 50 percent shall be for activities under section 942.

(2) 35 percent shall be for activities under section 943(d)(1).

(3) 10 percent shall be for activities under section 943(d)(2).

(4) 5 percent shall be for research under section 941(d).

(e) FUND.—There is hereby established in the Treasury of the United States a separate fund to be known as the "Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund".

Subtitle F—Science

SEC. 951. SCIENCE.

(a) IN GENERAL.—The following sums are authorized to be appropriated to the Secretary for research, development, demonstration, and commercial application activities of the Office of Science, including activities authorized under this subtitle, including the amounts authorized under the amendment made by section 958(c)(2)(C), and including basic energy sciences, advanced scientific computing research, biological and environmental research, fusion energy sciences, high energy physics, nuclear physics, and research analysis and infrastructure support:

(1) For fiscal year 2004, $3,785,000,000.

(2) For fiscal year 2005, $4,153,000,000.

(3) For fiscal year 2006, $4,618,000,000.

(4) For fiscal year 2007, $5,310,000,000.

(5) For fiscal year 2008, $5,800,000,000.

(b) ALLOCATIONS.—From amounts authorized under subsection (a), the following sums are authorized:

(1) For activities of the Fusion Energy Sciences Program, including activities under sections 952 and 953—

(A) for fiscal year 2004, $335,000,000;

(B) for fiscal year 2005, $349,000,000;

(C) for fiscal year 2006, $362,000,000;

(D) for fiscal year 2007, $377,000,000; and

(E) for fiscal year 2008, $393,000,000.

(2) For the Spallation Neutron Source—

(A) for construction in fiscal year 2004, $124,600,000;

(B) for construction in fiscal year 2005, $79,800,000;

(C) for completion of construction in fiscal year 2006, $41,100,000; and

(D) for other project costs (including research and development necessary to complete the project, preoperations costs, and capital equipment related to construction), $103,279,000 for the period encompassing fiscal years 2003 through 2006, to remain available until expended through September 30, 2006.

(3) For Catalysis Research activities under section 956—

(A) for fiscal year 2004, $33,000,000;

(B) for fiscal year 2005, $35,000,000;

(C) for fiscal year 2006, $36,500,000;

(D) for fiscal year 2007, $38,200,000; and

(E) for fiscal year 2008, $40,100,000.

(4) For Nanoscale Science and Engineering Research activities under section 957—

(A) for fiscal year 2004, $270,000,000;

(B) for fiscal year 2005, $292,000,000;

(C) for fiscal year 2006, $322,000,000;

(D) for fiscal year 2007, $355,000,000; and

(E) for fiscal year 2008, $390,000,000.

(5) For activities under section 957(c), from the amounts authorized under paragraph (4) of this subsection—

(A) for fiscal year 2004, $135,000,000;

(B) for fiscal year 2005, $150,000,000;

(C) for fiscal year 2006, $120,000,000;

(D) for fiscal year 2007, $100,000,000; and

(E) for fiscal year 2008, $125,000,000.

(6) For activities in the Genomes to Life Program under section 959—

(A) for fiscal year 2004, $100,000,000; and

(B) for fiscal years 2005 through 2008, such sums as may be necessary.

(7) For activities in the Energy-Water Supply Program under section 961, $30,000,000 for each of fiscal years 2004 through 2008.

(c) ITER CONSTRUCTION.—In addition to the funds authorized under subsection (b)(1), such sums as may be necessary for costs associated with ITER construction, consistent with limitations under section 952.

SEC. 952. UNITED STATES PARTICIPATION IN ITER.

(a) IN GENERAL.—The United States may participate in ITER in accordance with the provisions of this section.

(b) AGREEMENT.—

(1) IN GENERAL.—The Secretary is authorized to negotiate an agreement for United States participation in ITER.

(2) CONTENTS.—Any agreement for United States participation in ITER shall, at a minimum—

(A) clearly define the United States financial contribution to construction and operating costs;

(B) ensure that the share of ITER's high-technology components manufactured in the United States is at least proportionate to the United States financial contribution to ITER;

(C) ensure that the United States will not be financially responsible for cost overruns in components manufactured in other ITER participating countries;

(D) guarantee the United States full access to all data generated by ITER;

(E) enable United States researchers to propose and carry out an equitable share of the experiments at ITER;

(F) provide the United States with a role in all collective decisionmaking related to ITER; and

(G) describe the process for discontinuing or decommissioning ITER and any United States role in those processes.

(c) PLAN.—The Secretary, in consultation with the Fusion Energy Sciences Advisory Committee, shall develop a plan for the participation of United States scientists in ITER that shall include the United States research agenda for ITER, methods to evaluate whether ITER is promoting progress toward making fusion a reliable and affordable source of power, and a description of how work at ITER will relate to other elements of the United States fusion program. The Secretary shall request a review of the plan by the National Academy of Sciences.

(d) LIMITATION.—No funds shall be expended for the construction of ITER until the Secretary has transmitted to Congress—

(1) the agreement negotiated pursuant to subsection (b) and 120 days have elapsed since that transmission;

(2) a report describing the management structure of ITER and providing a fixed dollar estimate of the cost of United States participation in the construction of ITER, and 120 days have elapsed since that transmission;

(3) a report describing how United States participation in ITER will be funded without reducing funding for other programs in the Office of Science, including other fusion programs, and 60 days have elapsed since that transmission; and

(4) the plan required by subsection (c) (but not the National Academy of Sciences review of that plan), and 60 days have elapsed since that transmission.

(e) ALTERNATIVE TO ITER.—If at any time during the negotiations on ITER, the Secretary determines that construction and operation of ITER is unlikely or infeasible, the Secretary shall send to Congress, as part of the budget request for the following year, a plan for implementing the domestic burning plasma experiment known as FIRE, including costs and schedules for such a plan. The Secretary shall refine such plan in full consultation with the Fusion Energy Sciences Advisory Committee and shall also transmit such plan to the National Academy of Sciences for review.

(f) DEFINITIONS.—In this section and sections 951(b)(1) and (c):

(1) CONSTRUCTION.—The term "construction" means the physical construction of the ITER facility, and the physical construction, purchase, or manufacture of equipment or components that are specifically designed for the ITER facility, but does not mean the design of the facility, equipment, or components.

(2) FIRE.—The term "FIRE" means the Fusion Ignition Research Experiment, the fusion

research experiment for which design work has been supported by the Department as a possible alternative burning plasma experiment in the event that ITER fails to move forward.

(3) ITER.—The term "ITER" means the international burning plasma fusion research project in which the President announced United States participation on January 30, 2003.

SEC. 953. PLAN FOR FUSION ENERGY SCIENCES PROGRAM.

(a) DECLARATION OF POLICY.—It shall be the policy of the United States to conduct research, development, demonstration, and commercial application to provide for the scientific, engineering, and commercial infrastructure necessary to ensure that the United States is competitive with other nations in providing fusion energy for its own needs and the needs of other nations, including by demonstrating electric power or hydrogen production for the United States energy grid utilizing fusion energy at the earliest date possible.

(b) PLANNING.—

(1) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary shall present to Congress a plan, with proposed cost estimates, budgets, and potential international partners, for the implementation of the policy described in subsection (a). The plan shall ensure that—

(A) existing fusion research facilities are more fully utilized;

(B) fusion science, technology, theory, advanced computation, modeling, and simulation are strengthened;

(C) new magnetic and inertial fusion research facilities are selected based on scientific innovation, cost effectiveness, and their potential to advance the goal of practical fusion energy at the earliest date possible, and those that are selected are funded at a cost-effective rate;

(D) communication of scientific results and methods between the fusion energy science community and the broader scientific and technology communities is improved;

(E) inertial confinement fusion facilities are utilized to the extent practicable for the purpose of inertial fusion energy research and development; and

(F) attractive alternative inertial and magnetic fusion energy approaches are more fully explored.

(2) COSTS AND SCHEDULES.—Such plan shall also address the status of and, to the degree possible, costs and schedules for—

(A) in coordination with the program under section 960, the design and implementation of international or national facilities for the testing of fusion materials; and

(B) the design and implementation of international or national facilities for the testing and development of key fusion technologies.

SEC. 954. SPALLATION NEUTRON SOURCE.

(a) DEFINITION.—For the purposes of this section, the term "Spallation Neutron Source" means Department Project 99–E–334, Oak Ridge National Laboratory, Oak Ridge, Tennessee.

(b) REPORT.—The Secretary shall report on the Spallation Neutron Source as part of the Department's annual budget submission, including a description of the achievement of milestones, a comparison of actual costs to estimated costs, and any changes in estimated project costs or schedule.

(c) LIMITATIONS.—The total amount obligated by the Department, including prior year appropriations, for the Spallation Neutron Source shall not exceed—

(1) $1,192,700,000 for costs of construction;

(2) $219,000,000 for other project costs; and

(3) $1,411,700,000 for total project cost.

SEC. 955. SUPPORT FOR SCIENCE AND ENERGY FACILITIES AND INFRASTRUCTURE.

(a) FACILITY AND INFRASTRUCTURE POLICY.—The Secretary shall develop and implement a strategy for facilities and infrastructure supported primarily from the Office of Science, the Office of Energy Efficiency and Renewable Energy, the Office of Fossil Energy, or the Office of Nuclear Energy, Science, and Technology Programs at all National Laboratories and single-purpose research facilities. Such strategy shall provide cost-effective means for—

(1) maintaining existing facilities and infrastructure, as needed;

(2) closing unneeded facilities;

(3) making facility modifications; and

(4) building new facilities.

(b) REPORT.—

(1) IN GENERAL.—The Secretary shall prepare and transmit, along with the President's budget request to Congress for fiscal year 2006, a report containing the strategy developed under subsection (a).

(2) CONTENTS.—For each National Laboratory and single-purpose research facility, for the facilities primarily used for science and energy research, such report shall contain—

(A) the current priority list of proposed facilities and infrastructure projects, including cost and schedule requirements;

(B) a current 10-year plan that demonstrates the reconfiguration of its facilities and infrastructure to meet its missions and to address its long-term operational costs and return on investment;

(C) the total current budget for all facilities and infrastructure funding; and

(D) the current status of each facility and infrastructure project compared to the original baseline cost, schedule, and scope.

SEC. 956. CATALYSIS RESEARCH AND DEVELOPMENT PROGRAM.

(a) ESTABLISHMENT.—The Secretary, through the Office of Science, shall support a program of research and development in catalysis science consistent with the Department's statutory authorities related to research and development. The program shall include efforts to—

(1) enable catalyst design using combinations of experimental and mechanistic methodologies coupled with computational modeling of catalytic reactions at the molecular level;

(2) develop techniques for high throughput synthesis, assay, and characterization at nanometer and subnanometer scales in situ under actual operating conditions;

(3) synthesize catalysts with specific site architectures;

(4) conduct research on the use of precious metals for catalysis; and

(5) translate molecular understanding to the design of catalytic compounds.

(b) DUTIES OF THE OFFICE OF SCIENCE.—In carrying out the program under this section, the Director of the Office of Science shall—

(1) support both individual investigators and multidisciplinary teams of investigators to pioneer new approaches in catalytic design;

(2) develop, plan, construct, acquire, share, or operate special equipment or facilities for the use of investigators in collaboration with national user facilities such as nanoscience and engineering centers;

(3) support technology transfer activities to benefit industry and other users of catalysis science and engineering; and

(4) coordinate research and development activities with industry and other Federal agencies.

(c) TRIENNIAL ASSESSMENT.—The National Academy of Sciences shall review the catalysis program every 3 years to report on gains made in the fundamental science of catalysis and its progress towards developing new fuels for energy production and material fabrication processes.

SEC. 957. NANOSCALE SCIENCE AND ENGINEERING RESEARCH, DEVELOPMENT, DEMONSTRATION, AND COMMERCIAL APPLICATION.

(a) ESTABLISHMENT.—The Secretary, acting through the Office of Science, shall support a program of research, development, demonstration, and commercial application in nanoscience and nanoengineering. The program shall include efforts to further the understanding of the chemistry, physics, materials science, and engineering of phenomena on the scale of nanometers and to apply that knowledge to the Department's mission areas.

(b) DUTIES OF THE OFFICE OF SCIENCE.—In carrying out the program under this section, the Office of Science shall—

(1) support both individual investigators and teams of investigators, including multidisciplinary teams;

(2) carry out activities under subsection (c);

(3) support technology transfer activities to benefit industry and other users of nanoscience and nanoengineering;

(4) coordinate research and development activities with other Department programs, industry, and other Federal agencies;

(5) ensure that societal and ethical concerns will be addressed as the technology is developed by—

(A) establishing a research program to identify societal and ethical concerns related to nanotechnology, and ensuring that the results of such research are widely disseminated; and

(B) integrating, insofar as possible, research on societal and ethical concerns with nanotechnology research and development; and

(6) ensure that the potential of nanotechnology to produce or facilitate the production of clean, inexpensive energy is realized by supporting nanotechnology energy applications research and development.

(c) NANOSCIENCE AND NANOENGINEERING RESEARCH CENTERS AND MAJOR INSTRUMENTATION.—

(1) IN GENERAL.—The Secretary shall carry out projects to develop, plan, construct, acquire, operate, or support special equipment, instrumentation, or facilities for investigators conducting research and development in nanoscience and nanoengineering.

(2) ACTIVITIES.—Projects under paragraph (1) may include the measurement of properties at the scale of nanometers, manipulation at such scales, and the integration of technologies based on nanoscience or nanoengineering into bulk materials or other technologies.

(3) FACILITIES.—Facilities under paragraph (1) may include electron microcharacterization facilities, microlithography facilities, scanning probe facilities, and related instrumentation.

(4) COLLABORATIONS.—The Secretary shall encourage collaborations among Department programs, institutions of higher education, laboratories, and industry at facilities under this subsection.

SEC. 958. ADVANCED SCIENTIFIC COMPUTING FOR ENERGY MISSIONS.

(a) IN GENERAL.—The Secretary, acting through the Office of Science, shall support a program to advance the Nation's computing capability across a diverse set of grand challenge, computationally based, science problems related to departmental missions.

(b) DUTIES OF THE OFFICE OF SCIENCE.—In carrying out the program under this section, the Office of Science shall—

(1) advance basic science through computation by developing software to solve grand challenge science problems on new generations of computing platforms in collaboration with other Department program offices;

(2) enhance the foundations for scientific computing by developing the basic mathematical and computing systems software needed to take

full advantage of the computing capabilities of computers with peak speeds of 100 teraflops or more, some of which may be unique to the scientific problem of interest;

(3) enhance national collaboratory and networking capabilities by developing software to integrate geographically separated researchers into effective research teams and to facilitate access to and movement and analysis of large (petabyte) data sets;

(4) develop and maintain a robust scientific computing hardware infrastructure to ensure that the computing resources needed to address departmental missions are available; and

(5) explore new computing approaches and technologies that promise to advance scientific computing, including developments in quantum computing.

(c) HIGH-PERFORMANCE COMPUTING ACT OF 1991 AMENDMENTS.—The High-Performance Computing Act of 1991 is amended—

(1) in section 4 (15 U.S.C. 5503)—

(A) in paragraph (3) by striking "means" and inserting "and networking and information technology mean", and by striking "(including vector supercomputers and large scale parallel systems)"; and

(B) in paragraph (4), by striking "packet switched"; and

(2) in section 203 (15 U.S.C. 5523)—

(A) in subsection (a), by striking all after "As part of the" and inserting "Networking and Information Technology Research and Development Program, the Secretary of Energy shall conduct basic and applied research in networking and information technology, with emphasis on supporting fundamental research in the physical sciences and engineering, and energy applications; providing supercomputer access and advanced communication capabilities and facilities to scientific researchers; and developing tools for distributed scientific collaboration.";

(B) in subsection (b), by striking "Program" and inserting "Networking and Information Technology Research and Development Program"; and

(C) by amending subsection (e) to read as follows:

"(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary of Energy to carry out the Networking and Information Technology Research and Development Program such sums as may be necessary for fiscal years 2004 through 2008.".

(d) COORDINATION.—The Secretary shall ensure that the program under this section is integrated and consistent with—

(1) the Advanced Simulation and Computing Program, formerly known as the Accelerated Strategic Computing Initiative, of the National Nuclear Security Administration; and

(2) other national efforts related to advanced scientific computing for science and engineering.

(e) REPORT.—

(1) IN GENERAL.—Before undertaking any new initiative to develop any new advanced architecture for high-speed computing, the Secretary, through the Director of the Office of Science, shall transmit a report to Congress describing—

(A) the expected duration and cost of the initiative;

(B) the technical milestones the initiative is designed to achieve;

(C) how institutions of higher education and private firms will participate in the initiative; and

(D) why the goals of the initiative could not be achieved through existing programs.

(2) LIMITATION.—No funds may be expended on any initiative described in paragraph (1) until 30 days after the report required by that paragraph is transmitted to Congress.

SEC. 959. GENOMES TO LIFE PROGRAM.

(a) PROGRAM.—

(1) ESTABLISHMENT.—The Secretary shall establish a research, development, and demonstration program in genetics, protein science, and computational biology to support the energy, national security, and environmental mission of the Department.

(2) GRANTS.—The program shall support individual investigators and multidisciplinary teams of investigators through competitive, merit-reviewed grants.

(3) CONSULTATION.—In carrying out the program, the Secretary shall consult with other Federal agencies that conduct genetic and protein research.

(b) GOALS.—The program shall have the goal of developing technologies and methods based on the biological functions of genomes, microbes, and plants that—

(1) can facilitate the production of fuels, including hydrogen

(2) convert carbon dioxide to organic carbon;

(3) improve national security and combat terrorism;

(4) detoxify soils and water at Department facilities contaminated with heavy metals and radiological materials; and

(5) address other Department missions as identified by the Secretary.

(c) PLAN.—

(1) DEVELOPMENT OF PLAN.—Not later than 1 year after the date of enactment of this Act, the Secretary shall prepare and transmit to Congress a research plan describing how the program authorized pursuant to this section will be undertaken to accomplish the program goals established in subsection (b).

(2) REVIEW OF PLAN.—The Secretary shall contract with the National Academy of Sciences to review the research plan developed under this subsection. The Secretary shall transmit the review to Congress not later than 18 months after transmittal of the research plan under paragraph (1), along with the Secretary's response to the recommendations contained in the review.

(d) GENOMES TO LIFE USER FACILITIES AND ANCILLARY EQUIPMENT.—

(1) IN GENERAL.—Within the funds authorized to be appropriated pursuant to this Act, the amounts specified under section 951(b)(6) shall, subject to appropriations, be available for projects to develop, plan, construct, acquire, or operate special equipment, instrumentation, or facilities for investigators conducting research, development, demonstration, and commercial application in systems biology and proteomics and associated biological disciplines.

(2) FACILITIES.—Facilities under paragraph (1) may include facilities, equipment, or instrumentation for—

(A) the production and characterization of proteins;

(B) whole proteome analysis;

(C) characterization and imaging of molecular machines; and

(D) analysis and modeling of cellular systems.

(3) COLLABORATIONS.—The Secretary shall encourage collaborations among universities, laboratories, and industry at facilities under this subsection. All facilities under this subsection shall have a specific mission of technology transfer to other institutions.

(e) PROHIBITION ON BIOMEDICAL AND HUMAN CELL AND HUMAN SUBJECT RESEARCH.—

(1) NO BIOMEDICAL RESEARCH.—In carrying out the program under this section, the Secretary shall not conduct biomedical research.

(2) LIMITATIONS.—Nothing in this section shall authorize the Secretary to conduct any research or demonstrations—

(A) on human cells or human subjects; or

(B) designed to have direct application with respect to human cells or human subjects.

SEC. 960. FISSION AND FUSION ENERGY MATERIALS RESEARCH PROGRAM.

In the President's fiscal year 2006 budget request, the Secretary shall establish a research and development program on material science issues presented by advanced fission reactors and the Department's fusion energy program. The program shall develop a catalog of material properties required for these applications, develop theoretical models for materials possessing the required properties, benchmark models against existing data, and develop a roadmap to guide further research and development in this area.

SEC. 961. ENERGY-WATER SUPPLY PROGRAM.

(a) ESTABLISHMENT.—There is established within the Department the Energy-Water Supply Program, to study energy-related and certain other issues associated with the supply of drinking water and operation of community water systems and to study water supply issues related to energy.

(b) DEFINITIONS.—For the purposes of this section:

(1) ADMINISTRATOR.—The term "Administrator" means the Administrator of the Environmental Protection Agency.

(2) AGENCY.—The term "Agency" means the Environmental Protection Agency.

(3) FOUNDATION.—The term "Foundation" means the American Water Works Association Research Foundation.

(4) INDIAN TRIBE.—The term "Indian tribe" has the meaning given the term in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b).

(5) PROGRAM.—The term "Program" means the Energy-Water Supply Program established by this section.

(c) PROGRAM AREAS.—The Program shall develop methods, means, procedures, equipment, and improved technologies relating to—

(1) the arsenic removal program under subsection (d);

(2) the desalination program under subsection (e); and

(3) the water and energy sustainability program under subsection (f).

(d) ARSENIC REMOVAL PROGRAM.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the Secretary, in coordination with the Administrator and in partnership with the Foundation, shall utilize the facilities, institutions, and relationships established in the Consolidated Appropriations Resolution, 2003 as described in Senate Report 107–220 to carry out a research program to provide innovative methods and means for removal of arsenic.

(2) REQUIRED EVALUATIONS.—The program shall, to the maximum extent practicable, evaluate the means of—

(A) reducing energy costs incurred in using arsenic removal technologies;

(B) minimizing materials, operating, and maintenance costs; and

(C) minimizing any quantities of waste (especially hazardous waste) that result from use of arsenic removal technologies.

(3) PEER REVIEW.—Where applicable and reasonably available, projects undertaken under this subsection shall be peer-reviewed.

(4) COMMUNITY WATER SYSTEMS.—In carrying out the program under this subsection, the Secretary, in coordination with the Administrator, shall—

(A) select projects involving a geographically and hydrologically diverse group of community water systems (as defined in section 1003 of the Public Health Service Act (42 U.S.C. 300)) and water chemistries, that have experienced technical or economic difficulties in providing drinking water with levels of arsenic at 10 parts-per-billion or lower, which projects shall be designed to develop innovative methods and means to deliver drinking water that contains less than 10 parts per billion of arsenic; and

(B) provide not less than 40 percent of all funds spent pursuant to this subsection to address the needs of, and in collaboration with, rural communities or Indian tribes.

(5) Cost effectiveness.—The Foundation shall create methods for determining cost effectiveness of arsenic removal technologies used in the program.

(6) Education, training, and technology.—The Foundation shall include education, training, and technology transfer as part of the program.

(7) Coordination.—The Secretary shall consult with the Administrator to ensure that all activities conducted under the program are coordinated with the Agency and do not duplicate other programs in the Agency and other Federal agencies, State programs, and academia.

(8) Reports.—Not later than 1 year after the date of commencement of the program under this subsection, and once every year thereafter, the Secretary shall submit to the Committee on Energy and Commerce of the House of Representatives and the Committee on Environment and Public Works and the Committee on Energy and Natural Resources of the Senate a report on the results of the program under this subsection.

(e) Desalination Program.—

(1) In general.—The Secretary, in cooperation with the Commissioner of Reclamation of the Department of the Interior, shall carry out a program to conduct research and develop methods and means for desalination in accordance with the desalination technology progress plan developed under title II of the Energy and Water Development Appropriations Act, 2002 (115 Stat. 498), and described in Senate Report 107–39 under the heading "WATER AND RELATED RESOURCES" in the "Bureau of Reclamation" section.

(2) Requirements.—The desalination program shall—

(A) use the resources of the Department and the Department of the Interior that were involved in the development of the 2003 National Desalination and Water Purification Technology Roadmap for next-generation desalination technology;

(B) focus on technologies that are appropriate for use in desalinating brackish groundwater, drinking water, wastewater and other saline water supplies, or disposal of residual brine or salt; and

(C) consider the use of renewable energy sources.

(3) Construction projects.—Funds made available to carry out this subsection may be used for construction projects, including completion of the National Desalination Research Center for brackish groundwater and ongoing operational costs of this facility.

(4) Steering committee.—The Secretary and the Commissioner of Reclamation of the Department of the Interior shall jointly establish a steering committee for activities conducted under this subsection. The steering committee shall be jointly chaired by 1 representative from the program and 1 representative from the Bureau of Reclamation.

(f) Water and Energy Sustainability Program.—

(1) In general.—The Secretary shall develop a program to identify methods, means, procedures, equipment, and improved technologies necessary to ensure that sufficient quantities of water are available to meet energy needs and sufficient energy is available to meet water needs.

(2) Assessments.—In order to acquire information and avoid duplication, the Secretary shall work in collaboration with the Secretary of the Interior, the Army Corps of Engineers, the Administrator, the Secretary of Commerce, the Secretary of Defense, relevant State agencies, nongovernmental organizations, and academia, to assess—

(A) future water resources needed to support energy development and production within the United States including water used for hydropower, and production of, or electricity generation by, hydrogen, biomass, fossil fuels, and nuclear fuel;

(B) future energy resources needed to support water purification and wastewater treatment, including desalination and water conveyance;

(C) use of impaired and nontraditional water supplies for energy production other than oil and gas extraction;

(D) technology and programs for improving water use efficiency; and

(E) technologies to reduce water use in energy development and production.

(3) Roadmap; tools.—The Secretary shall—

(A) develop a program plan and technology development roadmap for the Water and Energy Sustainability Program to identify scientific and technical requirements and activities that are required to support planning for energy sustainability under current and potential future conditions of water availability, use of impaired water for energy production and other uses, and reduction of water use in energy development and production;

(B) develop tools for national and local energy and water sustainability planning, including numerical models, decision analysis tools, economic analysis tools, databases, and planning methodologies and strategies;

(C) implement at least 3 planning projects involving energy development or production that use the tools described in subparagraph (B) and assess the viability of those tools at the scale of river basins with at least 1 demonstration involving an international border; and

(D) transfer those tools to other Federal agencies, State agencies, nonprofit organizations, industry, and academia.

(4) Report.—Not later than 1 year after the date of enactment of this Act, the Secretary shall submit to Congress a report on the Water and Energy Sustainability Program that—

(A) includes the results of the assessment under paragraph (2) and the program plan and technology development roadmap; and

(B) identifies policy, legal, and institutional issues related to water and energy sustainability.

SEC. 962. NITROGEN FIXATION.

The Secretary, acting through the Office of Science, shall support a program of research, development, demonstration, and commercial application on biological nitrogen fixation, including plant genomics research relevant to the development of commercial crop varieties with enhanced nitrogen fixation efficiency and ability.

Subtitle G—Energy and Environment

SEC. 964. UNITED STATES-MEXICO ENERGY TECHNOLOGY COOPERATION.

(a) Program.—The Secretary shall establish a research, development, demonstration, and commercial application program to be carried out in collaboration with entities in Mexico and the United States to promote energy efficient, environmentally sound economic development along the United States-Mexico border that minimizes public health risks from industrial activities in the border region.

(b) Program Management.—The program under subsection (a) shall be managed by the Department of Energy Carlsbad Environmental Management Field Office.

(c) Technology Transfer.—In carrying out projects and activities under this section, the Secretary shall assess the applicability of technology developed under the Environmental Management Science Program of the Department.

(d) Intellectual Property.—In carrying out this section, the Secretary shall comply with the requirements of any agreement entered into between the United States and Mexico regarding intellectual property protection.

(e) Authorization of Appropriations.—The following sums are authorized to be appropriated to the Secretary to carry out activities under this section:

(1) For each of fiscal years 2004 and 2005, $5,000,000.

(2) For each of fiscal years 2006, 2007, and 2008, $6,000,000.

SEC. 965. WESTERN HEMISPHERE ENERGY COOPERATION.

(a) Program.—The Secretary shall carry out a program to promote cooperation on energy issues with Western Hemisphere countries.

(b) Activities.—Under the program, the Secretary shall fund activities to work with Western Hemisphere countries to—

(1) assist the countries in formulating and adopting changes in economic policies and other policies to—

(A) increase the production of energy supplies; and

(B) improve energy efficiency; and

(2) assist in the development and transfer of energy supply and efficiency technologies that would have a beneficial impact on world energy markets.

(c) University Participation.—To the extent practicable, the Secretary shall carry out the program under this section with the participation of universities so as to take advantage of the acceptance of universities by Western Hemisphere countries as sources of unbiased technical and policy expertise when assisting the Secretary in—

(1) evaluating new technologies;

(2) resolving technical issues;

(3) working with those countries in the development of new policies; and

(4) training policymakers, particularly in the case of universities that involve the participation of minority students, such as Hispanic-serving institutions and Historically Black Colleges and Universities.

(d) Authorization of Appropriations.—There are authorized to be appropriated to carry out this section—

(1) $8,000,000 for fiscal year 2004;

(2) $10,000,000 for fiscal year 2005;

(3) $13,000,000 for fiscal year 2006;

(4) $16,000,000 for fiscal year 2007; and

(5) $19,000,000 for fiscal year 2008.

SEC. 966. WASTE REDUCTION AND USE OF ALTERNATIVES.

(a) Grant Authority.—The Secretary may make a single grant to a qualified institution to examine and develop the feasibility of burning post-consumer carpet in cement kilns as an alternative energy source. The purposes of the grant shall include determining—

(1) how post-consumer carpet can be burned without disrupting kiln operations;

(2) the extent to which overall kiln emissions may be reduced;

(3) the emissions of air pollutants and other relevant environmental impacts; and

(4) how this process provides benefits to both cement kiln operations and carpet suppliers.

(b) Qualified Institution.—For the purposes of subsection (a), a qualified institution is a research-intensive institution of higher education with demonstrated expertise in the fields of fiber recycling and logistical modeling of carpet waste collection and preparation.

(c) Authorization of Appropriations.—There are authorized to be appropriated to the Secretary for carrying out this section $500,000.

SEC. 967. REPORT ON FUEL CELL TEST CENTER.

(a) Report.—Not later than 1 year after the date of enactment of this Act, the Secretary

shall transmit to Congress a report on the results of a study of the establishment of a test center for next-generation fuel cells at an institution of higher education that has available a continuous source of hydrogen and access to the electric transmission grid. Such report shall include a conceptual design for such test center and a projection of the costs of establishing the test center.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for carrying out this section $500,000.

SEC. 968. ARCTIC ENGINEERING RESEARCH CENTER.

(a) IN GENERAL.—The Secretary of Energy (referred to in this section as the "Secretary") in consultation with the Secretary of Transportation and the United States Arctic Research Commission shall provide annual grants to a university located adjacent to the Arctic Energy Office of the Department of Energy, to establish and operate a university research center to be headquartered in Fairbanks and to be known as the "Arctic Engineering Research Center" (referred to in this section as the "Center").

(b) PURPOSE.—The purpose of the Center shall be to conduct research on, and develop improved methods of, construction and use of materials to improve the overall performance of roads, bridges, residential, commercial, and industrial structures, and other infrastructure in the Arctic region, with an emphasis on developing—

(1) new construction techniques for roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure that are capable of withstanding the Arctic environment and using limited energy resources as efficiently as possible;

(2) technologies and procedures for increasing road, bridge, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure safety, reliability, and integrity in the Arctic region;

(3) new materials and improving the performance and energy efficiency of existing materials for the construction of roads, bridges, rail, and related transportation infrastructure and residential, commercial, and industrial infrastructure in the Arctic region; and

(4) recommendations for new local, regional, and State permitting and building codes to ensure transportation and building safety and efficient energy use when constructing, using, and occupying such infrastructure in the Arctic region.

(c) OBJECTIVES.—The Center shall carry out—

(1) basic and applied research in the subjects described in subsection (b), the products of which shall be judged by peers or other experts in the field to advance the body of knowledge in road, bridge, rail, and infrastructure engineering in the Arctic region; and

(2) an ongoing program of technology transfer that makes research results available to potential users in a form that can be implemented.

(d) AMOUNT OF GRANT.—For each of fiscal years 2004 through 2009, the Secretary shall provide a grant in the amount of $3,000,000 to the institution specified in subsection (a) to carry out this section.

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $3,000,000 for each of fiscal years 2004 through 2009.

SEC. 969. BARROW GEOPHYSICAL RESEARCH FACILITY.

(a) ESTABLISHMENT.—The Secretary of Commerce, in consultation with the Secretaries of Energy and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency, shall establish a joint research facility in Barrow, Alaska, to be known as the "Barrow Geophysical Research Facility", to support scientific research activities in the Arctic.

(b) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretaries of Commerce, Energy, and the Interior, the Director of the National Science Foundation, and the Administrator of the Environmental Protection Agency for the planning, design, construction, and support of the Barrow Geophysical Research Facility $61,000,000.

SEC. 970. WESTERN MICHIGAN DEMONSTRATION PROJECT.

The Administrator of the Environmental Protection Agency, in consultation with the State of Michigan and affected local officials, shall conduct a demonstration project to address the effect of transported ozone and ozone precursors in Southwestern Michigan. The demonstration program shall address projected nonattainment areas in Southwestern Michigan that include counties with design values for ozone of less than .095 based on years 2000 to 2002 or the most current 3-year period of air quality data. The Administrator shall assess any difficulties such areas may experience in meeting the 8 hour national ambient air quality standard for ozone due to the effect of transported ozone or ozone precursors into the areas. The Administrator shall work with State and local officials to determine the extent of ozone and ozone precursor transport, to assess alternatives to achieve compliance with the 8 hour standard apart from local controls, and to determine the timeframe in which such compliance could take place. The Administrator shall complete this demonstration project no later than 2 years after the date of enactment of this section and shall not impose any requirement or sanction that might otherwise apply during the pendency of the demonstration project.

Subtitle H—Management

SEC. 971. AVAILABILITY OF FUNDS.

Funds authorized to be appropriated to the Department under this title shall remain available until expended.

SEC. 972. COST SHARING.

(a) RESEARCH AND DEVELOPMENT.—Except as otherwise provided in this title, for research and development programs carried out under this title the Secretary shall require a commitment from non-Federal sources of at least 20 percent of the cost of the project. The Secretary may reduce or eliminate the non-Federal requirement under this subsection if the Secretary determines that the research and development is of a basic or fundamental nature or involves technical analyses or educational activities.

(b) DEMONSTRATION AND COMMERCIAL APPLICATION.—Except as otherwise provided in this title, the Secretary shall require at least 50 percent of the costs directly and specifically related to any demonstration or commercial application project under this title to be provided from non-Federal sources. The Secretary may reduce the non-Federal requirement under this subsection if the Secretary determines that the reduction is necessary and appropriate considering the technological risks involved in the project and is necessary to meet the objectives of this title.

(c) CALCULATION OF AMOUNT.—In calculating the amount of the non-Federal commitment under subsection (a) or (b), the Secretary may include personnel, services, equipment, and other resources.

(d) SIZE OF NON-FEDERAL SHARE.—The Secretary may consider the size of the non-Federal share in selecting projects.

SEC. 973. MERIT REVIEW OF PROPOSALS.

Awards of funds authorized under this title shall be made only after an impartial review of the scientific and technical merit of the proposals for such awards has been carried out by or for the Department.

SEC. 974. EXTERNAL TECHNICAL REVIEW OF DEPARTMENTAL PROGRAMS.

(a) NATIONAL ENERGY RESEARCH AND DEVELOPMENT ADVISORY BOARDS.—

(1) IN GENERAL.—The Secretary shall establish 1 or more advisory boards to review Department research, development, demonstration, and commercial application programs in energy efficiency, renewable energy, nuclear energy, and fossil energy.

(2) EXISTING ADVISORY BOARDS.—The Secretary may designate an existing advisory board within the Department to fulfill the responsibilities of an advisory board under this subsection, and may enter into appropriate arrangements with the National Academy of Sciences to establish such an advisory board.

(b) OFFICE OF SCIENCE ADVISORY COMMITTEES.—

(1) UTILIZATION OF EXISTING COMMITTEES.—The Secretary shall continue to use the scientific program advisory committees chartered under the Federal Advisory Committee Act (5 U.S.C. App.) by the Office of Science to oversee research and development programs under that Office.

(2) SCIENCE ADVISORY COMMITTEE.—

(A) ESTABLISHMENT.—There shall be in the Office of Science a Science Advisory Committee that includes the chairs of each of the advisory committees described in paragraph (1).

(B) RESPONSIBILITIES.—The Science Advisory Committee shall—

(i) serve as the science advisor to the Director of the Office of Science;

(ii) advise the Director with respect to the well-being and management of the National Laboratories and single-purpose research facilities;

(iii) advise the Director with respect to education and workforce training activities required for effective short-term and long-term basic and applied research activities of the Office of Science; and

(iv) advise the Director with respect to the well being of the university research programs supported by the Office of Science.

(c) MEMBERSHIP.—Each advisory board under this section shall consist of persons with appropriate expertise representing a diverse range of interests.

(d) MEETINGS AND PURPOSES.—Each advisory board under this section shall meet at least semiannually to review and advise on the progress made by the respective research, development, demonstration, and commercial application program or programs. The advisory board shall also review the measurable cost and performance-based goals for such programs as established under section 901(b), and the progress on meeting such goals.

(e) PERIODIC REVIEWS AND ASSESSMENTS.—The Secretary shall enter into appropriate arrangements with the National Academy of Sciences to conduct periodic reviews and assessments of the programs authorized by this title, the measurable cost and performance-based goals for such programs as established under section 901(b), if any, and the progress on meeting such goals. Such reviews and assessments shall be conducted every 5 years, or more often as the Secretary considers necessary, and the Secretary shall transmit to Congress reports containing the results of all such reviews and assessments.

SEC. 975. IMPROVED COORDINATION OF TECHNOLOGY TRANSFER ACTIVITIES.

(a) TECHNOLOGY TRANSFER COORDINATOR.—The Secretary shall designate a Technology Transfer Coordinator to perform oversight of and policy development for technology transfer activities at the Department. The Technology Transfer Coordinator shall—

(1) coordinate the activities of the Technology Transfer Working Group;

(2) oversee the expenditure of funds allocated to the Technology Transfer Working Group; and

(3) coordinate with each technology partnership ombudsman appointed under section 11 of the Technology Transfer Commercialization Act of 2000 (42 U.S.C. 7261c).

(b) TECHNOLOGY TRANSFER WORKING GROUP.—The Secretary shall establish a Technology Transfer Working Group, which shall consist of representatives of the National Laboratories and single-purpose research facilities, to—

(1) coordinate technology transfer activities occurring at National Laboratories and single-purpose research facilities;

(2) exchange information about technology transfer practices, including alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters; and

(3) develop and disseminate to the public and prospective technology partners information about opportunities and procedures for technology transfer with the Department, including those related to alternative approaches to resolution of disputes involving intellectual property rights and other technology transfer matters.

(c) TECHNOLOGY TRANSFER RESPONSIBILITY.—Nothing in this section shall affect the technology transfer responsibilities of Federal employees under the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.).

SEC. 976. FEDERAL LABORATORY EDUCATIONAL PARTNERS.

(a) DISTRIBUTION OF ROYALTIES RECEIVED BY FEDERAL AGENCIES.—Section 14(a)(1)(B)(v) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710c(a)(1)(B)(v)), is amended to read as follows:

"(v) for scientific research and development and for educational assistance and other purposes consistent with the missions and objectives of the agency and the laboratory.".

(b) COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS.—Section 12(b)(5)(C) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a(b)(5)(C)) is amended to read as follows:

"(C) for scientific research and development and for educational assistance consistent with the missions and objectives of the agency and the laboratory.".

SEC. 977. INTERAGENCY COOPERATION.

The Secretary shall enter into discussions with the Administrator of the National Aeronautics and Space Administration with the goal of reaching an interagency working agreement between the 2 agencies that would make the National Aeronautics and Space Administration's expertise in energy, gained from its existing and planned programs, more readily available to the relevant research, development, demonstration, and commercial applications programs of the Department. Technologies to be discussed should include the National Aeronautics and Space Administration's modeling, research, development, testing, and evaluation of new energy technologies, including solar, wind, fuel cells, and hydrogen storage and distribution.

SEC. 978. TECHNOLOGY INFRASTRUCTURE PROGRAM.

(a) ESTABLISHMENT.—The Secretary shall establish a Technology Infrastructure Program in accordance with this section.

(b) PURPOSE.—The purpose of the Technology Infrastructure Program shall be to improve the ability of National Laboratories and single-purpose research facilities to support departmental missions by—

(1) stimulating the development of technology clusters that can support departmental missions at the National Laboratories or single-purpose research facilities;

(2) improving the ability of National Laboratories and single-purpose research facilities to leverage and benefit from commercial research, technology, products, processes, and services; and

(3) encouraging the exchange of scientific and technological expertise between National Laboratories or single-purpose research facilities and entities that can support departmental missions at the National Laboratories or single-purpose research facilities, such as institutions of higher education; technology-related business concerns; nonprofit institutions; and agencies of State, tribal, or local governments.

(c) PROJECTS.—The Secretary shall authorize the Director of each National Laboratory or single-purpose research facility to implement the Technology Infrastructure Program at such National Laboratory or facility through projects that meet the requirements of subsections (d) and (e).

(d) PROGRAM REQUIREMENTS.—Each project funded under this section shall meet the following requirements:

(1) Each project shall include at least 1 of each of the following entities: a business; an institution of higher education; a nonprofit institution; and an agency of a State, local, or tribal government.

(2) Not less than 50 percent of the costs of each project funded under this section shall be provided from non-Federal sources. The calculation of costs paid by the non-Federal sources to a project shall include cash, personnel, services, equipment, and other resources expended on the project after start of the project. Independent research and development expenses of Government contractors that qualify for reimbursement under section 31.205–18(e) of the Federal Acquisition Regulation issued pursuant to section 25(c)(1) of the Office of Federal Procurement Policy Act (41 U.S.C. 421(c)(1)) may be credited toward costs paid by non-Federal sources to a project, if the expenses meet the other requirements of this section.

(3) All projects under this section shall be competitively selected using procedures determined by the Secretary.

(4) Any participant that receives funds under this section may use generally accepted accounting principles for maintaining accounts, books, and records relating to the project.

(5) No Federal funds shall be made available under this section for construction or any project for more than 5 years.

(e) SELECTION CRITERIA.—

(1) IN GENERAL.—The Secretary shall allocate funds under this section only if the Director of the National Laboratory or single-purpose research facility managing the project determines that the project is likely to improve the ability of the National Laboratory or single-purpose research facility to achieve technical success in meeting departmental missions.

(2) CRITERIA.—The Secretary shall consider the following criteria in selecting a project to receive Federal funds:

(A) The potential of the project to promote the development of a commercially sustainable technology cluster following the period of Department investment, which will derive most of the demand for its products or services from the private sector, and which will support departmental missions at the participating National Laboratory or single-purpose research facility.

(B) The potential of the project to promote the use of commercial research, technology, products, processes, and services by the participating National Laboratory or single-purpose research facility to achieve its mission or the commercial development of technological innovations made at the participating National Laboratory or single-purpose research facility.

(C) The extent to which the project involves a wide variety and number of institutions of higher education, nonprofit institutions, and technology-related business concerns that can support the missions of the participating National Laboratory or single-purpose research facility and that will make substantive contributions to achieving the goals of the project.

(D) The extent to which the project focuses on promoting the development of technology-related business concerns that are small businesses or involves such small businesses substantively in the project.

(E) Such other criteria as the Secretary determines to be appropriate.

(f) ALLOCATION.—In allocating funds for projects approved under this section, the Secretary shall provide—

(1) the Federal share of the project costs; and

(2) additional funds to the National Laboratory or single-purpose research facility managing the project to permit the National Laboratory or single-purpose research facility to carry out activities relating to the project, and to coordinate such activities with the project.

(g) REPORT TO CONGRESS.—Not later than July 1, 2006, the Secretary shall report to Congress on whether the Technology Infrastructure Program should be continued and, if so, how the program should be managed.

(h) DEFINITIONS.—In this section:

(1) TECHNOLOGY CLUSTER.—The term "technology cluster" means a concentration of technology-related business concerns, institutions of higher education, or nonprofit institutions that reinforce each other's performance in the areas of technology development through formal or informal relationships.

(2) TECHNOLOGY-RELATED BUSINESS CONCERN.—The term "technology-related business concern" means a for-profit corporation, company, association, firm, partnership, or small business concern that conducts scientific or engineering research; develops new technologies; manufactures products based on new technologies; or performs technological services.

(i) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for activities under this section $10,000,000 for each of fiscal years 2004, 2005, and 2006.

SEC. 979. REPROGRAMMING.

(a) DISTRIBUTION REPORT.—Not later than 60 days after the date of the enactment of an Act appropriating amounts authorized under this title, the Secretary shall transmit to the appropriate authorizing committees of Congress a report explaining how such amounts will be distributed among the authorizations contained in this title.

(b) PROHIBITION.—

(1) IN GENERAL.—No amount identified under subsection (a) shall be reprogrammed if such reprogramming would result in an obligation which changes an individual distribution required to be reported under subsection (a) by more than 5 percent unless the Secretary has transmitted to the appropriate authorizing committees of Congress a report described in subsection (c) and a period of 30 days has elapsed after such committees receive the report.

(2) COMPUTATION.—In the computation of the 30-day period described in paragraph (1), there shall be excluded any day on which either House of Congress is not in session because of an adjournment of more than 3 days to a day certain.

(c) REPROGRAMMING REPORT.—A report referred to in subsection (b)(1) shall contain a full and complete statement of the action proposed to be taken and the facts and circumstances relied on in support of the proposed action.

SEC. 980. CONSTRUCTION WITH OTHER LAWS.

Except as otherwise provided in this title, the Secretary shall carry out the research, development, demonstration, and commercial application programs, projects, and activities authorized by this title in accordance with the applicable provisions of the Atomic Energy Act of 1954

(42 U.S.C. 2011 et seq.), the Federal Nonnuclear Research and Development Act of 1974 (42 U.S.C. 5901 et seq.), the Energy Policy Act of 1992 (42 U.S.C. 13201 et seq.), the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3701 et seq.), chapter 18 of title 35, United States Code (commonly referred to as the Bayh-Dole Act), and any other Act under which the Secretary is authorized to carry out such activities.

SEC. 981. REPORT ON RESEARCH AND DEVELOPMENT PROGRAM EVALUATION METHODOLOGIES.

Not later than 180 days after the date of enactment of this Act, the Secretary shall enter into appropriate arrangements with the National Academy of Sciences to investigate and report on the scientific and technical merits of any evaluation methodology currently in use or proposed for use in relation to the scientific and technical programs of the Department by the Secretary or other Federal official. Not later than 6 months after receiving the report of the National Academy, the Secretary shall submit such report to Congress, along with any other views or plans of the Secretary with respect to the future use of such evaluation methodology.

SEC. 982. DEPARTMENT OF ENERGY SCIENCE AND TECHNOLOGY SCHOLARSHIP PROGRAM.

(a) ESTABLISHMENT OF PROGRAM.—

(1) IN GENERAL.—The Secretary is authorized to establish a Department of Energy Science and Technology Scholarship Program to award scholarships to individuals that is designed to recruit and prepare students for careers in the Department.

(2) COMPETITIVE PROCESS.—Individuals shall be selected to receive scholarships under this section through a competitive process primarily on the basis of academic merit, with consideration given to financial need and the goal of promoting the participation of individuals identified in section 33 or 34 of the Science and Engineering Equal Opportunities Act (42 U.S.C. 1885a or 1885b).

(3) SERVICE AGREEMENTS.—To carry out the Program the Secretary shall enter into contractual agreements with individuals selected under paragraph (2) under which the individuals agree to serve as full-time employees of the Department, for the period described in subsection (f)(1), in positions needed by the Department and for which the individuals are qualified, in exchange for receiving a scholarship.

(b) SCHOLARSHIP ELIGIBILITY.—In order to be eligible to participate in the Program, an individual must—

(1) be enrolled or accepted for enrollment as a full-time student at an institution of higher education in an academic program or field of study described in the list made available under subsection (d);

(2) be a United States citizen; and

(3) at the time of the initial scholarship award, not be a Federal employee as defined in section 2105 of title 5 of the United States Code.

(c) APPLICATION REQUIRED.—An individual seeking a scholarship under this section shall submit an application to the Secretary at such time, in such manner, and containing such information, agreements, or assurances as the Secretary may require.

(d) ELIGIBLE ACADEMIC PROGRAMS.—The Secretary shall make publicly available a list of academic programs and fields of study for which scholarships under the Program may be utilized, and shall update the list as necessary.

(e) SCHOLARSHIP REQUIREMENT.—

(1) IN GENERAL.—The Secretary may provide a scholarship under the Program for an academic year if the individual applying for the scholarship has submitted to the Secretary, as part of the application required under subsection (c), a proposed academic program leading to a degree in a program or field of study on the list made available under subsection (d).

(2) DURATION OF ELIGIBILITY.—An individual may not receive a scholarship under this section for more than 4 academic years, unless the Secretary grants a waiver.

(3) SCHOLARSHIP AMOUNT.—The dollar amount of a scholarship under this section for an academic year shall be determined under regulations issued by the Secretary, but shall in no case exceed the cost of attendance.

(4) AUTHORIZED USES.—A scholarship provided under this section may be expended for tuition, fees, and other authorized expenses as established by the Secretary by regulation.

(5) CONTRACTS REGARDING DIRECT PAYMENTS TO INSTITUTIONS.—The Secretary may enter into a contractual agreement with an institution of higher education under which the amounts provided for a scholarship under this section for tuition, fees, and other authorized expenses are paid directly to the institution with respect to which the scholarship is provided.

(f) PERIOD OF OBLIGATED SERVICE.—

(1) DURATION OF SERVICE.—The period of service for which an individual shall be obligated to serve as an employee of the Department is, except as provided in subsection (h)(2), 24 months for each academic year for which a scholarship under this section is provided.

(2) SCHEDULE FOR SERVICE.—

(A) IN GENERAL.—Except as provided in subparagraph (B), obligated service under paragraph (1) shall begin not later than 60 days after the individual obtains the educational degree for which the scholarship was provided.

(B) DEFERRAL.—The Secretary may defer the obligation of an individual to provide a period of service under paragraph (1) if the Secretary determines that such a deferral is appropriate. The Secretary shall prescribe the terms and conditions under which a service obligation may be deferred through regulation.

(g) PENALTIES FOR BREACH OF SCHOLARSHIP AGREEMENT.—

(1) FAILURE TO COMPLETE ACADEMIC TRAINING.—Scholarship recipients who fail to maintain a high level of academic standing, as defined by the Secretary by regulation, who are dismissed from their educational institutions for disciplinary reasons, or who voluntarily terminate academic training before graduation from the educational program for which the scholarship was awarded, shall be in breach of their contractual agreement and, in lieu of any service obligation arising under such agreement, shall be liable to the United States for repayment not later than 1 year after the date of default of all scholarship funds paid to them and to the institution of higher education on their behalf under the agreement, except as provided in subsection (h)(2). The repayment period may be extended by the Secretary when determined to be necessary, as established by regulation.

(2) FAILURE TO BEGIN OR COMPLETE THE SERVICE OBLIGATION OR MEET THE TERMS AND CONDITIONS OF DEFERMENT.—A scholarship recipient who, for any reason, fails to begin or complete a service obligation under this section after completion of academic training, or fails to comply with the terms and conditions of deferment established by the Secretary pursuant to subsection (f)(2)(B), shall be in breach of the contractual agreement. When a recipient breaches an agreement for the reasons stated in the preceding sentence, the recipient shall be liable to the United States for an amount equal to—

(A) the total amount of scholarships received by such individual under this section; plus

(B) the interest on the amounts of such awards which would be payable if at the time the awards were received they were loans bearing interest at the maximum legal prevailing rate, as determined by the Treasurer of the United States,

multiplied by 3.

(h) WAIVER OR SUSPENSION OF OBLIGATION.—

(1) DEATH OF INDIVIDUAL.—Any obligation of an individual incurred under the Program (or a contractual agreement thereunder) for service or payment shall be canceled upon the death of the individual.

(2) IMPOSSIBILITY OR EXTREME HARDSHIP.—The Secretary shall by regulation provide for the partial or total waiver or suspension of any obligation of service or payment incurred by an individual under the Program (or a contractual agreement thereunder) whenever compliance by the individual is impossible or would involve extreme hardship to the individual, or if enforcement of such obligation with respect to the individual would be contrary to the best interests of the Government.

(i) DEFINITIONS.—In this section the following definitions apply:

(1) COST OF ATTENDANCE.—The term "cost of attendance" has the meaning given that term in section 472 of the Higher Education Act of 1965 (20 U.S.C. 1087ll).

(2) PROGRAM.—The term "Program" means the Department of Energy Science and Technology Scholarship Program established under this section.

(j) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for activities under this section—

(1) for fiscal year 2004, $800,000;

(2) for fiscal year 2005, $1,600,000;

(3) for fiscal year 2006, $2,000,000;

(4) for fiscal year 2007, $2,000,000; and

(5) for fiscal year 2008, $2,000,000.

SEC. 983. REPORT ON EQUAL EMPLOYMENT OPPORTUNITY PRACTICES.

Not later than 12 months after the date of enactment of this Act, and biennially thereafter, the Secretary shall transmit to Congress a report on the equal employment opportunity practices at National Laboratories. Such report shall include—

(1) a thorough review of each laboratory contractor's equal employment opportunity policies, including promotion to management and professional positions and pay raises;

(2) a statistical report on complaints and their disposition in the laboratories;

(3) a description of how equal employment opportunity practices at the laboratories are treated in the contract and in calculating award fees for each contractor;

(4) a summary of disciplinary actions and their disposition by either the Department or the relevant contractors for each laboratory;

(5) a summary of outreach efforts to attract women and minorities to the laboratories;

(6) a summary of efforts to retain women and minorities in the laboratories; and

(7) a summary of collaboration efforts with the Office of Federal Contract Compliance Programs to improve equal employment opportunity practices at the laboratories.

SEC. 984. SMALL BUSINESS ADVOCACY AND ASSISTANCE.

(a) SMALL BUSINESS ADVOCATE.—The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to designate a small business advocate to—

(1) increase the participation of small business concerns, including socially and economically disadvantaged small business concerns, in procurement, collaborative research, technology licensing, and technology transfer activities conducted by the National Laboratory or single-purpose research facility;

(2) report to the Director of the National Laboratory or single-purpose research facility on

the actual participation of small business concerns, including socially and economically disadvantaged small business concerns, in procurement, collaborative research, technology licensing, and technology transfer activities along with recommendations, if appropriate, on how to improve participation;

(3) make available to small businesses training, mentoring, and information on how to participate in procurement and collaborative research activities;

(4) increase the awareness inside the National Laboratory or single-purpose research facility of the capabilities and opportunities presented by small business concerns; and

(5) establish guidelines for the program under subsection (b) and report on the effectiveness of such program to the Director of the National Laboratory or single-purpose research facility.

(b) ESTABLISHMENT OF SMALL BUSINESS ASSISTANCE PROGRAM.—The Secretary shall require the Director of each National Laboratory, and may require the Director of a single-purpose research facility, to establish a program to provide small business concerns—

(1) assistance directed at making them more effective and efficient subcontractors or suppliers to the National Laboratory or single-purpose research facility; or

(2) general technical assistance, the cost of which shall not exceed $10,000 per instance of assistance, to improve the small business concerns' products or services.

(c) USE OF FUNDS.—None of the funds expended under subsection (b) may be used for direct grants to the small business concerns.

(d) DEFINITIONS.—In this section:

(1) SMALL BUSINESS CONCERN.—The term ''small business concern'' has the meaning given such term in section 3 of the Small Business Act (15 U.S.C. 632).

(2) SOCIALLY AND ECONOMICALLY DISADVANTAGED SMALL BUSINESS CONCERNS.—The term ''socially and economically disadvantaged small business concerns'' has the meaning given such term in section 8(a)(4) of the Small Business Act (15 U.S.C. 637(a)(4)).

(e) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to the Secretary for activities under this section $5,000,000 for each of fiscal years 2004 through 2008.

SEC. 985. REPORT ON MOBILITY OF SCIENTIFIC AND TECHNICAL PERSONNEL.

Not later than 2 years after the date of enactment of this Act, the Secretary shall transmit a report to Congress identifying any policies or procedures of a contractor operating a National Laboratory or single-purpose research facility that create disincentives to the temporary transfer of scientific and technical personnel among the contractor-operated National Laboratories or contractor-operated single-purpose research facilities and provide suggestions for improving interlaboratory exchange of scientific and technical personnel.

SEC. 986. NATIONAL ACADEMY OF SCIENCES REPORT.

Not later than 90 days after the date of enactment of this Act, the Secretary shall enter into an arrangement with the National Academy of Sciences for the Academy to—

(1) conduct a study on—

(A) the obstacles to accelerating the commercial application of energy technology; and

(B) the adequacy of Department policies and procedures for, and oversight of, technology transfer-related disputes between contractors of the Department and the private sector; and

(2) transmit a report to Congress on recommendations developed as a result of the study.

SEC. 987. OUTREACH.

The Secretary shall ensure that each program authorized by this title includes an outreach component to provide information, as appropriate, to manufacturers, consumers, engineers, architects, builders, energy service companies, institutions of higher education, small businesses, facility planners and managers, State and local governments, and other entities.

SEC. 988. COMPETITIVE AWARD OF MANAGEMENT CONTRACTS.

None of the funds authorized to be appropriated to the Secretary by this title may be used to award a management and operating contract for a nonmilitary energy laboratory of the Department unless such contract is competitively awarded or the Secretary grants, on a case-by-case basis, a waiver to allow for such a deviation. The Secretary may not delegate the authority to grant such a waiver and shall submit to Congress a report notifying Congress of the waiver and setting forth the reasons for the waiver at least 60 days prior to the date of the award of such a contract.

SEC. 989. EDUCATIONAL PROGRAMS IN SCIENCE AND MATHEMATICS.

(a) ACTIVITIES.—Section 3165(a) of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381b(a)) is amended by adding at the end the following:

''(14) Support competitive events for students, under supervision of teachers, designed to encourage student interest and knowledge in science and mathematics.''.

(b) AUTHORIZATION OF APPROPRIATIONS.—Section 3169 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381e), as so redesignated by section 1102(b), is amended by inserting before the period ''; and $40,000,000 for each of fiscal years 2004 through 2008''.

TITLE X—DEPARTMENT OF ENERGY MANAGEMENT

SEC. 1001. ADDITIONAL ASSISTANT SECRETARY POSITION.

(a) ADDITIONAL ASSISTANT SECRETARY POSITION TO ENABLE IMPROVED MANAGEMENT OF NUCLEAR ENERGY ISSUES.—

(1) IN GENERAL.—Section 203(a) of the Department of Energy Organization Act (42 U.S.C. 7133(a)) is amended by striking ''six Assistant Secretaries'' and inserting ''7 Assistant Secretaries''.

(2) SENSE OF CONGRESS.—It is the sense of Congress that the leadership for departmental missions in nuclear energy should be at the Assistant Secretary level.

(b) TECHNICAL AND CONFORMING AMENDMENTS.—

(1) TITLE 5.—Section 5315 of title 5, United States Code, is amended by striking ''Assistant Secretaries of Energy (6)'' and inserting ''Assistant Secretaries of Energy (7)''.

(2) DEPARTMENT OF ENERGY ORGANIZATION ACT.—The table of contents for the Department of Energy Organization Act (42 U.S.C. 7101 note) is amended—

(A) by striking ''Section 209'' and inserting ''Sec. 209'';

(B) by striking ''213.'' and inserting ''Sec. 213.'';

(C) by striking ''214.'' and inserting ''Sec. 214.'';

(D) by striking ''215.'' and inserting ''Sec. 215.''; and

(E) by striking ''216.'' and inserting ''Sec. 216.''.

SEC. 1002. OTHER TRANSACTIONS AUTHORITY.

Section 646 of the Department of Energy Organization Act (42 U.S.C. 7256) is amended by adding at the end the following:

''(g)(1) In addition to other authorities granted to the Secretary under law, the Secretary may enter into other transactions on such terms as the Secretary may deem appropriate in furtherance of research, development, or demonstration functions vested in the Secretary. Such other transactions shall not be subject to the provisions of section 9 of the Federal Nonnuclear Energy Research and Development Act of 1974 (42 U.S.C. 5908) or section 152 of the Atomic Energy Act of 1954 (42 U.S.C. 2182).

''(2)(A) The Secretary shall ensure that—

''(i) to the maximum extent the Secretary determines practicable, no transaction entered into under paragraph (1) provides for research, development, or demonstration that duplicates research, development, or demonstration being conducted under existing projects carried out by the Department;

''(ii) to the extent the Secretary determines practicable, the funds provided by the Government under a transaction authorized by paragraph (1) do not exceed the total amount provided by other parties to the transaction; and

''(iii) to the extent the Secretary determines practicable, competitive, merit-based selection procedures shall be used when entering into transactions under paragraph (1).

''(B) A transaction authorized by paragraph (1) may be used for a research, development, or demonstration project only if the Secretary makes a written determination that the use of a standard contract, grant, or cooperative agreement for the project is not feasible or appropriate.

''(3)(A) The Secretary shall protect from disclosure, including disclosure under section 552 of title 5, United States Code, for up to 5 years after the date the information is received by the Secretary—

''(i) a proposal, proposal abstract, and supporting documents submitted to the Department in a competitive or noncompetitive process having the potential for resulting in an award under paragraph (1) to the party submitting the information; and

''(ii) a business plan and technical information relating to a transaction authorized by paragraph (1) submitted to the Department as confidential business information.

''(B) The Secretary may protect from disclosure, for up to 5 years after the information was developed, any information developed pursuant to a transaction under paragraph (1) which developed information is of a character that it would be protected from disclosure under section 552(b)(4) of title 5, United States Code, if obtained from a person other than a Federal agency.

''(4) Not later than 90 days after the date of enactment of this subsection, the Secretary shall prescribe guidelines for using other transactions authorized by paragraph (1). Such guidelines shall be published in the Federal Register for public comment under rulemaking procedures of the Department.

''(5) The authority of the Secretary under this subsection may be delegated only to an officer of the Department who is appointed by the President by and with the advice and consent of the Senate and may not be delegated to any other person.

''(6)(A) Not later than September 31, 2005, the Comptroller General of the United States shall report to Congress on the Department's use of the authorities granted under this section, including the ability to attract nontraditional government contractors and whether additional safeguards are needed with respect to the use of such authorities.

''(B) In this section, the term 'nontraditional Government contractor' has the same meaning as the term 'nontraditional defense contractor' as defined in section 845(e) of the National Defense Authorization Act for Fiscal Year 1994 (Public Law 103-160; 10 U.S.C. 2371 note).''.

TITLE XI—PERSONNEL AND TRAINING

SEC. 1101. TRAINING GUIDELINES FOR ELECTRIC ENERGY INDUSTRY PERSONNEL.

The Secretary of Energy, in consultation with the Secretary of Labor and jointly with the electric industry and recognized employee representatives, shall develop model personnel training guidelines to support electric system reliability and safety. The training guidelines shall, at a minimum—

(1) include training requirements for workers engaged in the construction, operation, inspection, and maintenance of electric generation, transmission, and distribution, including competency and certification requirements, and assessment requirements that include initial and ongoing evaluation of workers, recertification assessment procedures, and methods for examining or testing the qualification of individuals performing covered tasks; and

(2) consolidate existing training guidelines on the construction, operation, maintenance, and inspection of electric generation, transmission, and distribution facilities, such as those established by the National Electric Safety Code and other industry consensus standards.

SEC. 1102. IMPROVED ACCESS TO ENERGY-RELATED SCIENTIFIC AND TECHNICAL CAREERS.

(a) DEPARTMENT OF ENERGY SCIENCE EDUCATION PROGRAMS.—Section 3164 of the Department of Energy Science Education Enhancement Act (42 U.S.C. 7381a) is amended by adding at the end the following:

"(c) PROGRAMS FOR STUDENTS FROM UNDERREPRESENTED GROUPS.—In carrying out a program under subsection (a), the Secretary shall give priority to activities that are designed to encourage students from underrepresented groups to pursue scientific and technical careers.".

(b) PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVICING INSTITUTIONS, AND TRIBAL COLLEGES.—The Department of Energy Science Education Enhancement Act (42 U.S.C. 7381 et seq.) is amended—

(1) by redesignating sections 3167 and 3168 as sections 3168 and 3169, respectively; and

(2) by inserting after section 3166 the following:

"SEC. 3167. PARTNERSHIPS WITH HISTORICALLY BLACK COLLEGES AND UNIVERSITIES, HISPANIC-SERVING INSTITUTIONS, AND TRIBAL COLLEGES.

"(a) DEFINITIONS.—In this section:

"(1) HISPANIC-SERVING INSTITUTION.—The term 'Hispanic-serving institution' has the meaning given that term in section 502(a) of the Higher Education Act of 1965 (20 U.S.C. 1101a(a)).

"(2) HISTORICALLY BLACK COLLEGE OR UNIVERSITY.—The term 'historically Black college or university' has the meaning given the term 'part B institution' in section 322 of the Higher Education Act of 1965 (20 U.S.C. 1061).

"(3) NATIONAL LABORATORY.—The term 'National Laboratory' has the meaning given that term in section 902 of the Energy Policy Act of 2003.

"(4) SCIENCE FACILITY.—The term 'science facility' has the meaning given the term 'single-purpose research facility' in section 902 of the Energy Policy Act of 2003.

"(5) TRIBAL COLLEGE.—The term 'tribal college' has the meaning given the term 'Tribal College or University' in section 316(b)(3) of the Higher Education Act of 1965 (20 U.S.C. 1059c(b)(3)).

"(b) EDUCATION PARTNERSHIP.—The Secretary shall direct the Director of each National Laboratory and, to the extent practicable, the head of any science facility to increase the participation of historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges in activities that increase the capacity of the historically Black colleges or universities, Hispanic-serving institutions, or tribal colleges to train personnel in science or engineering.

"(c) ACTIVITIES.—An activity under subsection (b) may include—

"(1) collaborative research;

"(2) equipment transfer;

"(3) training activities conducted at a National Laboratory or science facility; and

"(4) mentoring activities conducted at a National Laboratory or science facility.

"(d) REPORT.—Not later than 2 years after the date of enactment of the Energy Policy Act of 2003, the Secretary shall submit to Congress a report on the activities carried out under this section.".

SEC. 1103. NATIONAL POWER PLANT OPERATIONS TECHNOLOGY AND EDUCATION CENTER.

(a) ESTABLISHMENT.—The Secretary shall support the establishment of a National Power Plant Operations Technology and Education Center (in this section referred to as the "Center"), to address the need for training and educating certified operators for nonnuclear electric power generation plants.

(b) ROLE.—The Center shall provide both training and continuing education relating to nonnuclear electric power generation plant technologies and operations. The Center shall conduct training and education activities on site and through Internet-based information technologies that allow for learning at remote sites.

(c) CRITERIA FOR COMPETITIVE SELECTION.—The Secretary shall support the establishment of the Center at an institution of higher education with expertise in power plant technology and operation and with the ability to provide onsite as well as Internet-based training.

SEC. 1104. INTERNATIONAL ENERGY TRAINING.

(a) IN GENERAL.—The Secretary of Energy, in consultation with the Secretaries of Commerce, Interior, and State and the Federal Energy Regulatory Commission, shall coordinate training and outreach efforts for international commercial energy markets in countries with developing and restructuring economies.

(b) COMPONENTS.—The efforts may address—

(1) production-related fiscal regimes;

(2) grid and network issues;

(3) energy user and demand side response;

(4) international trade of energy; and

(5) international transportation of energy.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated to carry out this section $1,500,000 for each of fiscal years 2004 through 2007.

TITLE XII—ELECTRICITY

SEC. 1201. SHORT TITLE.

This title may be cited as the "Electric Reliability Act of 2003".

Subtitle A—Reliability Standards

SEC. 1211. ELECTRIC RELIABILITY STANDARDS.

(a) IN GENERAL.—Part II of the Federal Power Act (16 U.S.C 824 et seq.) is amended by adding at the end the following:

"SEC. 215. ELECTRIC RELIABILITY.

"(a) DEFINITIONS.—For purposes of this section:

"(1) The term 'bulk-power system' means—

"(A) facilities and control systems necessary for operating an interconnected electric energy transmission network (or any portion thereof); and

"(B) electric energy from generation facilities needed to maintain transmission system reliability.

The term does not include facilities used in the local distribution of electric energy.

"(2) The terms 'Electric Reliability Organization' and 'ERO' mean the organization certified by the Commission under subsection (c) the purpose of which is to establish and enforce reliability standards for the bulk-power system, subject to Commission review.

"(3) The term 'reliability standard' means a requirement, approved by the Commission under this section, to provide for reliable operation of the bulk-power system. The term includes requirements for the operation of existing bulk-power system facilities and the design of planned additions or modifications to such facilities to the extent necessary to provide for reliable operation of the bulk-power system, but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity.

"(4) The term 'reliable operation' means operating the elements of the bulk-power system within equipment and electric system thermal, voltage, and stability limits so that instability, uncontrolled separation, or cascading failures of such system will not occur as a result of a sudden disturbance or unanticipated failure of system elements.

"(5) The term 'Interconnection' means a geographic area in which the operation of bulk-power system components is synchronized such that the failure of 1 or more of such components may adversely affect the ability of the operators of other components within the system to maintain reliable operation of the facilities within their control.

"(6) The term 'transmission organization' means a Regional Transmission Organization, Independent System Operator, independent transmission provider, or other transmission organization finally approved by the Commission for the operation of transmission facilities.

"(7) The term 'regional entity' means an entity having enforcement authority pursuant to subsection (e)(4).

"(b) JURISDICTION AND APPLICABILITY.—(1) The Commission shall have jurisdiction, within the United States, over the ERO certified by the Commission under subsection (c), any regional entities, and all users, owners and operators of the bulk-power system, including but not limited to the entities described in section 201(f), for purposes of approving reliability standards established under this section and enforcing compliance with this section. All users, owners and operators of the bulk-power system shall comply with reliability standards that take effect under this section.

"(2) The Commission shall issue a final rule to implement the requirements of this section not later than 180 days after the date of enactment of this section.

"(c) CERTIFICATION.—Following the issuance of a Commission rule under subsection (b)(2), any person may submit an application to the Commission for certification as the Electric Reliability Organization. The Commission may certify 1 such ERO if the Commission determines that such ERO—

"(1) has the ability to develop and enforce, subject to subsection (e)(2), reliability standards that provide for an adequate level of reliability of the bulk-power system; and

"(2) has established rules that—

"(A) assure its independence of the users and owners and operators of the bulk-power system, while assuring fair stakeholder representation in the selection of its directors and balanced decisionmaking in any ERO committee or subordinate organizational structure;

"(B) allocate equitably reasonable dues, fees, and other charges among end users for all activities under this section;

"(C) provide fair and impartial procedures for enforcement of reliability standards through the imposition of penalties in accordance with subsection (e) (including limitations on activities, functions, or operations, or other appropriate sanctions);

"(D) provide for reasonable notice and opportunity for public comment, due process, openness, and balance of interests in developing reliability standards and otherwise exercising its duties; and

"(E) provide for taking, after certification, appropriate steps to gain recognition in Canada and Mexico.

"(d) RELIABILITY STANDARDS.—(1) The Electric Reliability Organization shall file each reliability standard or modification to a reliability standard that it proposes to be made effective under this section with the Commission.

"(2) The Commission may approve, by rule or order, a proposed reliability standard or modification to a reliability standard if it determines that the standard is just, reasonable, not unduly discriminatory or preferential, and in the public interest. The Commission shall give due weight to the technical expertise of the Electric Reliability Organization with respect to the content of a proposed standard or modification to a reliability standard and to the technical expertise of a regional entity organized on an Interconnection-wide basis with respect to a reliability standard to be applicable within that Interconnection, but shall not defer with respect to the effect of a standard on competition. A proposed standard or modification shall take effect upon approval by the Commission.

"(3) The Electric Reliability Organization shall rebuttably presume that a proposal from a regional entity organized on an Interconnection-wide basis for a reliability standard or modification to a reliability standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest.

"(4) The Commission shall remand to the Electric Reliability Organization for further consideration a proposed reliability standard or a modification to a reliability standard that the Commission disapproves in whole or in part.

"(5) The Commission, upon its own motion or upon complaint, may order the Electric Reliability Organization to submit to the Commission a proposed reliability standard or a modification to a reliability standard that addresses a specific matter if the Commission considers such a new or modified reliability standard appropriate to carry out this section.

"(6) The final rule adopted under subsection (b)(2) shall include fair processes for the identification and timely resolution of any conflict between a reliability standard and any function, rule, order, tariff, rate schedule, or agreement accepted, approved, or ordered by the Commission applicable to a transmission organization. Such transmission organization shall continue to comply with such function, rule, order, tariff, rate schedule or agreement accepted approved, or ordered by the Commission until—

"(A) the Commission finds a conflict exists between a reliability standard and any such provision;

"(B) the Commission orders a change to such provision pursuant to section 206 of this part; and

"(C) the ordered change becomes effective under this part.

If the Commission determines that a reliability standard needs to be changed as a result of such a conflict, it shall order the ERO to develop and file with the Commission a modified reliability standard under paragraph (4) or (5) of this subsection.

"(e) ENFORCEMENT.—(1) The ERO may impose, subject to paragraph (2), a penalty on a user or owner or operator of the bulk-power system for a violation of a reliability standard approved by the Commission under subsection (d) if the ERO, after notice and an opportunity for a hearing—

"(A) finds that the user or owner or operator has violated a reliability standard approved by the Commission under subsection (d); and

"(B) files notice and the record of the proceeding with the Commission.

"(2) A penalty imposed under paragraph (1) may take effect not earlier than the 31st day after the ERO files with the Commission notice of the penalty and the record of proceedings. Such penalty shall be subject to review by the Commission, on its own motion or upon application by the user, owner or operator that is the subject of the penalty filed within 30 days after the date such notice is filed with the Commission. Application to the Commission for review, or the initiation of review by the Commission on its own motion, shall not operate as a stay of such penalty unless the Commission otherwise orders upon its own motion or upon application by the user, owner or operator that is the subject of such penalty. In any proceeding to review a penalty imposed under paragraph (1), the Commission, after notice and opportunity for hearing (which hearing may consist solely of the record before the ERO and opportunity for the presentation of supporting reasons to affirm, modify, or set aside the penalty), shall by order affirm, set aside, reinstate, or modify the penalty, and, if appropriate, remand to the ERO for further proceedings. The Commission shall implement expedited procedures for such hearings.

"(3) On its own motion or upon complaint, the Commission may order compliance with a reliability standard and may impose a penalty against a user or owner or operator of the bulk-power system if the Commission finds, after notice and opportunity for a hearing, that the user or owner or operator of the bulk-power system has engaged or is about to engage in any acts or practices that constitute or will constitute a violation of a reliability standard.

"(4) The Commission shall issue regulations authorizing the ERO to enter into an agreement to delegate authority to a regional entity for the purpose of proposing reliability standards to the ERO and enforcing reliability standards under paragraph (1) if—

"(A) the regional entity is governed by—

"(i) an independent board;

"(ii) a balanced stakeholder board; or

"(iii) a combination independent and balanced stakeholder board.

"(B) the regional entity otherwise satisfies the provisions of subsection (c)(1) and (2); and

"(C) the agreement promotes effective and efficient administration of bulk-power system reliability.

The Commission may modify such delegation. The ERO and the Commission shall rebuttably presume that a proposal for delegation to a regional entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk-power system reliability and should be approved. Such regulation may provide that the Commission may assign the ERO's authority to enforce reliability standards under paragraph (1) directly to a regional entity consistent with the requirements of this paragraph.

"(5) The Commission may take such action as is necessary or appropriate against the ERO or a regional entity to ensure compliance with a reliability standard or any Commission order affecting the ERO or a regional entity.

"(6) Any penalty imposed under this section shall bear a reasonable relation to the seriousness of the violation and shall take into consideration the efforts of such user, owner, or operator to remedy the violation in a timely manner.

"(f) CHANGES IN ELECTRIC RELIABILITY ORGANIZATION RULES.—The Electric Reliability Organization shall file with the Commission for approval any proposed rule or proposed rule change, accompanied by an explanation of its basis and purpose. The Commission, upon its own motion or complaint, may propose a change to the rules of the ERO. A proposed rule or proposed rule change shall take effect upon a finding by the Commission, after notice and opportunity for comment, that the change is just, reasonable, not unduly discriminatory or preferential, is in the public interest, and satisfies the requirements of subsection (c).

"(g) RELIABILITY REPORTS.—The ERO shall conduct periodic assessments of the reliability and adequacy of the bulk-power system in North America.

"(h) COORDINATION WITH CANADA AND MEXICO.—The President is urged to negotiate international agreements with the governments of Canada and Mexico to provide for effective compliance with reliability standards and the effectiveness of the ERO in the United States and Canada or Mexico.

"(i) SAVINGS PROVISIONS.—(1) The ERO shall have authority to develop and enforce compliance with reliability standards for only the bulk-power system.

"(2) This section does not authorize the ERO or the Commission to order the construction of additional generation or transmission capacity or to set and enforce compliance with standards for adequacy or safety of electric facilities or services.

"(3) Nothing in this section shall be construed to preempt any authority of any State to take action to ensure the safety, adequacy, and reliability of electric service within that State, as long as such action is not inconsistent with any reliability standard.

"(4) Within 90 days of the application of the Electric Reliability Organization or other affected party, and after notice and opportunity for comment, the Commission shall issue a final order determining whether a State action is inconsistent with a reliability standard, taking into consideration any recommendation of the ERO.

"(5) The Commission, after consultation with the ERO and the State taking action, may stay the effectiveness of any State action, pending the Commission's issuance of a final order.

"(j) REGIONAL ADVISORY BODIES.—The Commission shall establish a regional advisory body on the petition of at least ⅔ of the States within a region that have more than ½ of their electric load served within the region. A regional advisory body shall be composed of 1 member from each participating State in the region, appointed by the Governor of each State, and may include representatives of agencies, States, and provinces outside the United States. A regional advisory body may provide advice to the Electric Reliability Organization, a regional entity, or the Commission regarding the governance of an existing or proposed regional entity within the same region, whether a standard proposed to apply within the region is just, reasonable, not unduly discriminatory or preferential, and in the public interest, whether fees proposed to be assessed within the region are just, reasonable, not unduly discriminatory or preferential, and in the public interest and any other responsibilities requested by the Commission. The Commission may give deference to the advice of any such regional advisory body if that body is organized on an Interconnection-wide basis.

"(k) ALASKA AND HAWAII.—The provisions of this section do not apply to Alaska or Hawaii.".

(b) STATUS OF ERO.—The Electric Reliability Organization certified by the Federal Energy Regulatory Commission under section 215(c) of the Federal Power Act and any regional entity delegated enforcement authority pursuant to section 215(e)(4) of that Act are not departments, agencies, or instrumentalities of the United States Government.

Subtitle B—Transmission Infrastructure Modernization

SEC. 1221. SITING OF INTERSTATE ELECTRIC TRANSMISSION FACILITIES.

(a) Amendment of Federal Power Act.—Part II of the Federal Power Act is amended by adding at the end the following:

“SEC. 216. SITING OF INTERSTATE ELECTRIC TRANSMISSION FACILITIES.

“(a) Designation of National Interest Electric Transmission Corridors.—

“(1) Transmission congestion study.—Within 1 year after the enactment of this section, and every 3 years thereafter, the Secretary of Energy, in consultation with affected States, shall conduct a study of electric transmission congestion. After considering alternatives and recommendations from interested parties, including an opportunity for comment from affected States, the Secretary shall issue a report, based on such study, which may designate any geographic area experiencing electric energy transmission capacity constraints or congestion that adversely affects consumers as a national interest electric transmission corridor. The Secretary shall conduct the study and issue the report in consultation with any appropriate regional entity referenced in section 215 of this Act.

“(2) Considerations.—In determining whether to designate a national interest electric transmission corridor referred to in paragraph (1) under this section, the Secretary may consider whether—

“(A) the economic vitality and development of the corridor, or the end markets served by the corridor, may be constrained by lack of adequate or reasonably priced electricity;

“(B)(i) economic growth in the corridor, or the end markets served by the corridor, may be jeopardized by reliance on limited sources of energy; and

“(ii) a diversification of supply is warranted;

“(C) the energy independence of the United States would be served by the designation;

“(D) the designation would be in the interest of national energy policy; and

“(E) the designation would enhance national defense and homeland security.

“(b) Construction Permit.—Except as provided in subsection (i), the Commission is authorized, after notice and an opportunity for hearing, to issue a permit or permits for the construction or modification of electric transmission facilities in a national interest electric transmission corridor designated by the Secretary under subsection (a) if the Commission finds that—

“(1)(A) a State in which the transmission facilities are to be constructed or modified is without authority to—

“(i) approve the siting of the facilities; or

“(ii) consider the interstate benefits expected to be achieved by the proposed construction or modification of transmission facilities in the State;

“(B) the applicant for a permit is a transmitting utility under this Act but does not qualify to apply for a permit or siting approval for the proposed project in a State because the applicant does not serve end-use customers in the State; or

“(C) a State commission or other entity that has authority to approve the siting of the facilities has—

“(i) withheld approval for more than 1 year after the filing of an application pursuant to applicable law seeking approval or 1 year after the designation of the relevant national interest electric transmission corridor, whichever is later; or

“(ii) conditioned its approval in such a manner that the proposed construction or modification will not significantly reduce transmission congestion in interstate commerce or is not economically feasible;

“(2) the facilities to be authorized by the permit will be used for the transmission of electric energy in interstate commerce;

“(3) the proposed construction or modification is consistent with the public interest;

“(4) the proposed construction or modification will significantly reduce transmission congestion in interstate commerce and protects or benefits consumers; and

“(5) the proposed construction or modification is consistent with sound national energy policy and will enhance energy independence.

“(c) Permit Applications.—Permit applications under subsection (b) shall be made in writing to the Commission. The Commission shall issue rules setting forth the form of the application, the information to be contained in the application, and the manner of service of notice of the permit application upon interested persons.

“(d) Comments.—In any proceeding before the Commission under subsection (b), the Commission shall afford each State in which a transmission facility covered by the permit is or will be located, each affected Federal agency and Indian tribe, private property owners, and other interested persons, a reasonable opportunity to present their views and recommendations with respect to the need for and impact of a facility covered by the permit.

“(e) Rights-of-Way.—In the case of a permit under subsection (b) for electric transmission facilities to be located on property other than property owned by the United States or a State, if the permit holder cannot acquire by contract, or is unable to agree with the owner of the property to the compensation to be paid for, the necessary right-of-way to construct or modify such transmission facilities, the permit holder may acquire the right-of-way by the exercise of the right of eminent domain in the district court of the United States for the district in which the property concerned is located, or in the appropriate court of the State in which the property is located. The practice and procedure in any action or proceeding for that purpose in the district court of the United States shall conform as nearly as may be with the practice and procedure in similar action or proceeding in the courts of the State where the property is situated.

“(f) State Law.—Nothing in this section shall preclude any person from constructing or modifying any transmission facility pursuant to State law.

“(g) Compensation.—Any exercise of eminent domain authority pursuant to this section shall be considered a taking of private property for which just compensation is due. Just compensation shall be an amount equal to the full fair market value of the property taken on the date of the exercise of eminent domain authority, except that the compensation shall exceed fair market value if necessary to make the landowner whole for decreases in the value of any portion of the land not subject to eminent domain. Any parcel of land acquired by eminent domain under this subsection shall be transferred back to the owner from whom it was acquired (or his heirs or assigns) if the land is not used for the construction or modification of electric transmission facilities within a reasonable period of time after the acquisition. Other than construction, modification, operation, or maintenance of electric transmission facilities and related facilities, property acquired under subsection (e) may not be used for any purpose (including use for any heritage area, recreational trail, or park) without the consent of the owner of the parcel from whom the property was acquired (or the owner's heirs or assigns).

“(h) Coordination of Federal Authorizations for Transmission and Distribution Facilities.—

“(1) Lead agency.—If an applicant, or prospective applicant, for a Federal authorization related to an electric transmission or distribution facility so requests, the Department of Energy (DOE) shall act as the lead agency for purposes of coordinating all applicable Federal authorizations and related environmental reviews of the facility. For purposes of this subsection, the term ‘Federal authorization’ means any authorization required under Federal law in order to site a transmission or distribution facility, including but not limited to such permits, special use authorizations, certifications, opinions, or other approvals as may be required, whether issued by a Federal or a State agency. To the maximum extent practicable under applicable Federal law, the Secretary of Energy shall coordinate this Federal authorization and review process with any Indian tribes, multi-State entities, and State agencies that are responsible for conducting any separate permitting and environmental reviews of the facility, to ensure timely and efficient review and permit decisions.

“(2) Authority to set deadlines.—As lead agency, the Department of Energy, in consultation with agencies responsible for Federal authorizations and, as appropriate, with Indian tribes, multi-State entities, and State agencies that are willing to coordinate their own separate permitting and environmental reviews with the Federal authorization and environmental reviews, shall establish prompt and binding intermediate milestones and ultimate deadlines for the review of, and Federal authorization decisions relating to, the proposed facility. The Secretary of Energy shall ensure that once an application has been submitted with such data as the Secretary considers necessary, all permit decisions and related environmental reviews under all applicable Federal laws shall be completed within 1 year or, if a requirement of another provision of Federal law makes this impossible, as soon thereafter as is practicable. The Secretary of Energy also shall provide an expeditious pre-application mechanism for prospective applicants to confer with the agencies involved to have each such agency determine and communicate to the prospective applicant within 60 days of when the prospective applicant submits a request for such information concerning—

“(A) the likelihood of approval for a potential facility; and

“(B) key issues of concern to the agencies and public.

“(3) Consolidated environmental review and record of decision.—As lead agency head, the Secretary of Energy, in consultation with the affected agencies, shall prepare a single environmental review document, which shall be used as the basis for all decisions on the proposed project under Federal law. The document may be an environmental assessment or environmental impact statement under the National Environmental Policy Act of 1969 if warranted, or such other form of analysis as may be warranted. The Secretary of Energy and the heads of other agencies shall streamline the review and permitting of transmission and distribution facilities within corridors designated under section 503 of the Federal Land Policy and Management Act (43 U.S.C. 1763) by fully taking into account prior analyses and decisions relating to the corridors. Such document shall include consideration by the relevant agencies of any applicable criteria or other matters as required under applicable laws.

“(4) Appeals.—In the event that any agency has denied a Federal authorization required for a transmission or distribution facility, or has failed to act by the deadline established by the Secretary pursuant to this section for deciding whether to issue the authorization, the applicant or any State in which the facility would be located may file an appeal with the Secretary,

who shall, in consultation with the affected agency, review the denial or take action on the pending application. Based on the overall record and in consultation with the affected agency, the Secretary may then either issue the necessary authorization with any appropriate conditions, or deny the application. The Secretary shall issue a decision within 90 days of the filing of the appeal. In making a decision under this paragraph, the Secretary shall comply with applicable requirements of Federal law, including any requirements of the Endangered Species Act, the Clean Water Act, the National Forest Management Act, the National Environmental Policy Act of 1969, and the Federal Land Policy and Management Act.

"(5) CONFORMING REGULATIONS AND MEMORANDA OF UNDERSTANDING.—Not later than 18 months after the date of enactment of this section, the Secretary of Energy shall issue any regulations necessary to implement this subsection. Not later than 1 year after the date of enactment of this section, the Secretary and the heads of all Federal agencies with authority to issue Federal authorizations shall enter into Memoranda of Understanding to ensure the timely and coordinated review and permitting of electricity transmission and distribution facilities. The head of each Federal agency with authority to issue a Federal authorization shall designate a senior official responsible for, and dedicate sufficient other staff and resources to ensure, full implementation of the DOE regulations and any Memoranda. Interested Indian tribes, multi-State entities, and State agencies may enter such Memoranda of Understanding.

"(6) DURATION AND RENEWAL.—Each Federal land use authorization for an electricity transmission or distribution facility shall be issued—

"(A) for a duration, as determined by the Secretary of Energy, commensurate with the anticipated use of the facility, and

"(B) with appropriate authority to manage the right-of-way for reliability and environmental protection.

Upon the expiration of any such authorization (including an authorization issued prior to enactment of this section), the authorization shall be reviewed for renewal taking fully into account reliance on such electricity infrastructure, recognizing its importance for public health, safety and economic welfare and as a legitimate use of Federal lands.

"(7) MAINTAINING AND ENHANCING THE TRANSMISSION INFRASTRUCTURE.—In exercising the responsibilities under this section, the Secretary of Energy shall consult regularly with the Federal Energy Regulatory Commission (FERC), FERC-approved electric reliability organizations (including related regional entities), and FERC-approved Regional Transmission Organizations and Independent System Operators.

"(i) INTERSTATE COMPACTS.—The consent of Congress is hereby given for 3 or more contiguous States to enter into an interstate compact, subject to approval by Congress, establishing regional transmission siting agencies to facilitate siting of future electric energy transmission facilities within such States and to carry out the electric energy transmission siting responsibilities of such States. The Secretary of Energy may provide technical assistance to regional transmission siting agencies established under this subsection. Such regional transmission siting agencies shall have the authority to review, certify, and permit siting of transmission facilities, including facilities in national interest electric transmission corridors (other than facilities on property owned by the United States). The Commission shall have no authority to issue a permit for the construction or modification of electric transmission facilities within a State that is a party to a compact, unless the members of a compact are in disagreement and the Secretary makes, after notice and an opportunity for a hearing, the finding described in section (b)(1)(C).

"(j) SAVINGS CLAUSE.—Nothing in this section shall be construed to affect any requirement of the environmental laws of the United States, including, but not limited to, the National Environmental Policy Act of 1969. Subsection (h)(4) of this section shall not apply to any Congressionally-designated components of the National Wilderness Preservation System, the National Wild and Scenic Rivers System, or the National Park system (including National Monuments therein).

"(k) ERCOT.—This section shall not apply within the area referred to in section 212(k)(2)(A).".

(b) REPORTS TO CONGRESS ON CORRIDORS AND RIGHTS OF WAY ON FEDERAL LANDS.—The Secretary of the Interior, the Secretary of Energy, the Secretary of Agriculture, and the Chairman of the Council on Environmental Quality shall, within 90 days of the date of enactment of this subsection, submit a joint report to Congress identifying each of the following:

(1) All existing designated transmission and distribution corridors on Federal land and the status of work related to proposed transmission and distribution corridor designations under Title V of the Federal Land Policy and Management Act (43 U.S.C. 1761 et. Seq.), the schedule for completing such work, any impediments to completing the work, and steps that Congress could take to expedite the process.

(2) The number of pending applications to locate transmission and distribution facilities on Federal lands, key information relating to each such facility, how long each application has been pending, the schedule for issuing a timely decision as to each facility, and progress in incorporating existing and new such rights-of-way into relevant land use and resource management plans or their equivalent.

(3) The number of existing transmission and distribution rights-of-way on Federal lands that will come up for renewal within the following 5, 10, and 15 year periods, and a description of how the Secretaries plan to manage such renewals.

SEC. 1222. THIRD-PARTY FINANCE.

(a) EXISTING FACILITIES.—The Secretary of Energy (hereinafter in this section referred to as the "Secretary"), acting through the Administrator of the Western Area Power Administration (hereinafter in this section referred to as "WAPA"), or through the Administrator of the Southwestern Power Administration (hereinafter in this section referred to as "SWPA"), or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, an electric power transmission facility and related facilities ("Project") needed to upgrade existing transmission facilities owned by SWPA or WAPA if the Secretary of Energy, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in a national interest electric transmission corridor designated under section 216(a) of the Federal Power Act and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Regional Transmission Organization or Independent System Operator (as defined in the Federal Power Act), if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid; and

(3) would be operated in conformance with prudent utility practice.

(b) NEW FACILITIES.—The Secretary, acting through WAPA or SWPA, or both, may design, develop, construct, operate, maintain, or own, or participate with other entities in designing, developing, constructing, operating, maintaining, or owning, a new electric power transmission facility and related facilities ("Project") located within any State in which WAPA or SWPA operates if the Secretary, in consultation with the applicable Administrator, determines that the proposed Project—

(1)(A) is located in an area designated under section 216(a) of the Federal Power Act and will reduce congestion of electric transmission in interstate commerce; or

(B) is necessary to accommodate an actual or projected increase in demand for electric transmission capacity;

(2) is consistent with—

(A) transmission needs identified, in a transmission expansion plan or otherwise, by the appropriate Regional Transmission Organization or Independent System Operator, if any, or approved regional reliability organization; and

(B) efficient and reliable operation of the transmission grid;

(3) will be operated in conformance with prudent utility practice;

(4) will be operated by, or in conformance with the rules of, the appropriate (A) Regional Transmission Organization or Independent System Operator, if any, or (B) if such an organization does not exist, regional reliability organization; and

(5) will not duplicate the functions of existing transmission facilities or proposed facilities which are the subject of ongoing or approved siting and related permitting proceedings.

(c) OTHER FUNDS.—

(1) IN GENERAL.—In carrying out a Project under subsection (a) or (b), the Secretary may accept and use funds contributed by another entity for the purpose of carrying out the Project.

(2) AVAILABILITY.—The contributed funds shall be available for expenditure for the purpose of carrying out the Project—

(A) without fiscal year limitation; and

(B) as if the funds had been appropriated specifically for that Project.

(3) ALLOCATION OF COSTS.—In carrying out a Project under subsection (a) or (b), any costs of the Project not paid for by contributions from another entity shall be collected through rates charged to customers using the new transmission capability provided by the Project and allocated equitably among these project beneficiaries using the new transmission capability.

(d) RELATIONSHIP TO OTHER LAWS.—Nothing in this section affects any requirement of—

(1) any Federal environmental law, including the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.);

(2) any Federal or State law relating to the siting of energy facilities; or

(3) any existing authorizing statutes.

(e) SAVINGS CLAUSE.—Nothing in this section shall constrain or restrict an Administrator in the utilization of other authority delegated to the Administrator of WAPA or SWPA.

(f) SECRETARIAL DETERMINATIONS.—Any determination made pursuant to subsections (a) or (b) shall be based on findings by the Secretary using the best available data.

(g) MAXIMUM FUNDING AMOUNT.—The Secretary shall not accept and use more than $100,000,000 under subsection (c)(1) for the period encompassing fiscal years 2004 through 2013.

SEC. 1223. TRANSMISSION SYSTEM MONITORING.

Within 6 months after the date of enactment of this Act, the Secretary of Energy and the Federal Energy Regulatory Commission shall *study and report to Congress on the steps which must be taken to establish a system to make available to all transmission system owners and Regional Transmission Organizations (as defined in the Federal Power Act) within the Eastern and Western Interconnections real-time information on the functional status of all transmission lines within such Interconnections. In such study, the Commission shall assess technical means for implementing such transmission information system and identify the steps the Commission or Congress must take to require the implementation of such system.*

SEC. 1224. ADVANCED TRANSMISSION TECHNOLOGIES.

(a) AUTHORITY.—The Federal Energy Regulatory Commission, in the exercise of its authorities under the Federal Power Act and the Public Utility Regulatory Policies Act of 1978, shall encourage the deployment of advanced transmission technologies.

(b) DEFINITION.—For the purposes of this section, the term "advanced transmission technologies" means technologies that increase the capacity, efficiency, or reliability of existing or new transmission facilities, including, but not limited to—

(1) high-temperature lines (including superconducting cables);

(2) underground cables;

(3) advanced conductor technology (including advanced composite conductors, high-temperature low-sag conductors, and fiber optic temperature sensing conductors);

(4) high-capacity ceramic electric wire, connectors, and insulators;

(5) optimized transmission line configurations (including multiple phased transmission lines);

(6) modular equipment;

(7) wireless power transmission;

(8) ultra-high voltage lines;

(9) high-voltage DC technology;

(10) flexible AC transmission systems;

(11) energy storage devices (including pumped hydro, compressed air, superconducting magnetic energy storage, flywheels, and batteries);

(12) controllable load;

(13) distributed generation (including PV, fuel cells, microturbines);

(14) enhanced power device monitoring;

(15) direct system state sensors;

(16) fiber optic technologies;

(17) power electronics and related software (including real time monitoring and analytical software); and

(18) any other technologies the Commission considers appropriate.

(c) OBSOLETE OR IMPRACTICABLE TECHNOLOGIES.—The Commission is authorized to cease encouraging the deployment of any technology described in this section on a finding that such technology has been rendered obsolete or otherwise impracticable to deploy.

SEC. 1225. ELECTRIC TRANSMISSION AND DISTRIBUTION PROGRAMS.

(a) ELECTRIC TRANSMISSION AND DISTRIBUTION PROGRAM.—The Secretary of Energy (hereinafter in this section referred to as the "Secretary") acting through the Director of the Office of Electric Transmission and Distribution shall establish a comprehensive research, development, demonstration and commercial application program to promote improved reliability and efficiency of electrical transmission and distribution systems. This program shall include—

(1) advanced energy delivery and storage technologies, materials, and systems, including new transmission technologies, such as flexible alternating current transmission systems, composite conductor materials and other technologies that enhance reliability, operational flexibility, or power-carrying capability;

(2) advanced grid reliability and efficiency technology development;

(3) technologies contributing to significant load reductions;

(4) advanced metering, load management, and control technologies;

(5) technologies to enhance existing grid components;

(6) the development and use of high-temperature superconductors to—

(A) enhance the reliability, operational flexibility, or power-carrying capability of electric transmission or distribution systems; or

(B) increase the efficiency of electric energy generation, transmission, distribution, or storage systems;

(7) integration of power systems, including systems to deliver high-quality electric power, electric power reliability, and combined heat and power;

(8) supply of electricity to the power grid by small scale, distributed and residential-based power generators;

(9) the development and use of advanced grid design, operation and planning tools;

(10) any other infrastructure technologies, as appropriate; and

(11) technology transfer and education.

(b) PROGRAM PLAN.—Not later than 1 year after the date of the enactment of this legislation, the Secretary, in consultation with other appropriate Federal agencies, shall prepare and transmit to Congress a 5-year program plan to guide activities under this section. In preparing the program plan, the Secretary may consult with utilities, energy services providers, manufacturers, institutions of higher education, other appropriate State and local agencies, environmental organizations, professional and technical societies, and any other persons the Secretary considers appropriate.

(c) IMPLEMENTATION.—The Secretary shall consider implementing this program using a consortium of industry, university and national laboratory participants.

(d) REPORT.—Not later than 2 years after the transmittal of the plan under subsection (b), the Secretary shall transmit a report to Congress describing the progress made under this section and identifying any additional resources needed to continue the development and commercial application of transmission and distribution infrastructure technologies.

(e) POWER DELIVERY RESEARCH INITIATIVE.—

(1) IN GENERAL.—The Secretary shall establish a research, development, demonstration, and commercial application initiative specifically focused on power delivery utilizing components incorporating high temperature superconductivity.

(2) GOALS.—The goals of this initiative shall be to—

(A) establish facilities to develop high temperature superconductivity power applications in partnership with manufacturers and utilities;

(B) provide technical leadership for establishing reliability for high temperature superconductivity power applications including suitable modeling and analysis;

(C) facilitate commercial transition toward direct current power transmission, storage, and use for high power systems utilizing high temperature superconductivity; and

(D) facilitate the integration of very low impedance high temperature superconducting wires and cables in existing electric networks to improve system performance, power flow control and reliability.

(3) REQUIREMENTS.—The initiative shall include—

(A) feasibility analysis, planning, research, and design to construct demonstrations of superconducting links in high power, direct current and controllable alternating current transmission systems;

(B) public-private partnerships to demonstrate deployment of high temperature superconducting cable into testbeds simulating a realistic transmission grid and under varying transmission conditions, including actual grid insertions; and

(C) testbeds developed in cooperation with national laboratories, industries, and universities to demonstrate these technologies, prepare the technologies for commercial introduction, and address cost or performance roadblocks to successful commercial use.

(4) AUTHORIZATION OF APPROPRIATIONS.—For purposes of carrying out this subsection, there are authorized to be appropriated—

(A) for fiscal year 2004, $15,000,000;

(B) for fiscal year 2005, $20,000,000;

(C) for fiscal year 2006, $30,000,000;

(D) for fiscal year 2007, $35,000,000; and

(E) for fiscal year 2008, $40,000,000.

SEC. 1226. ADVANCED POWER SYSTEM TECHNOLOGY INCENTIVE PROGRAM.

(a) PROGRAM.—The Secretary of Energy is authorized to establish an Advanced Power System Technology Incentive Program to support the deployment of certain advanced power system technologies and to improve and protect certain critical governmental, industrial, and commercial processes. Funds provided under this section shall be used by the Secretary to make incentive payments to eligible owners or operators of advanced power system technologies to increase power generation through enhanced operational, economic, and environmental performance. Payments under this section may only be made upon receipt by the Secretary of an incentive payment application establishing an applicant as either—

(1) a qualifying advanced power system technology facility; or

(2) a qualifying security and assured power facility.

(b) INCENTIVES.—Subject to availability of funds, a payment of 1.8 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying advanced power system technology facility under this section for electricity generated at such facility. An additional 0.7 cents per kilowatt-hour shall be paid to the owner or operator of a qualifying security and assured power facility for electricity generated at such facility. Any facility qualifying under this section shall be eligible for an incentive payment for up to, but not more than, the first 10,000,000 kilowatt-hours produced in any fiscal year.

(c) ELIGIBILITY.—For purposes of this section:

(1) QUALIFYING ADVANCED POWER SYSTEM TECHNOLOGY FACILITY.—The term "qualifying advanced power system technology facility" means a facility using an advanced fuel cell, turbine, or hybrid power system or power storage system to generate or store electric energy.

(2) QUALIFYING SECURITY AND ASSURED POWER FACILITY.—The term "qualifying security and assured power facility" means a qualifying advanced power system technology facility determined by the Secretary of Energy, in consultation with the Secretary of Homeland Security, to be in critical need of secure, reliable, rapidly available, high-quality power for critical governmental, industrial, or commercial applications.

(d) AUTHORIZATION.—There are authorized to be appropriated to the Secretary of Energy for the purposes of this section, $10,000,000 for each of the fiscal years 2004 through 2010.

SEC. 1227. OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.

(a) CREATION OF AN OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.—Title II of the Department of Energy Organization Act (42 U.S.C. 7131 et seq.) (as amended by section 502(a) of this Act) is amended by inserting the following after section 217, as added by title V of this Act:

"SEC. 218. OFFICE OF ELECTRIC TRANSMISSION AND DISTRIBUTION.

"(a) ESTABLISHMENT.—There is established within the Department an Office of Electric Transmission and Distribution. This Office shall be headed by a Director, subject to the authority of the Secretary. The Director shall be appointed by the Secretary. The Director shall be compensated at the annual rate prescribed for level IV of the Executive Schedule under section 5315 of title 5, United States Code.

"(b) DIRECTOR.—The Director shall—

"(1) coordinate and develop a comprehensive, multi-year strategy to improve the Nation's electricity transmission and distribution;

"(2) implement or, where appropriate, coordinate the implementation of, the recommendations made in the Secretary's May 2002 National Transmission Grid Study;

"(3) oversee research, development, and demonstration to support Federal energy policy related to electricity transmission and distribution;

"(4) grant authorizations for electricity import and export pursuant to section 202(c), (d), (e), and (f) of the Federal Power Act (16 U.S.C. 824a);

"(5) perform other functions, assigned by the Secretary, related to electricity transmission and distribution; and

"(6) develop programs for workforce training in power and transmission engineering.".

(b) CONFORMING AMENDMENTS.—(1) The table of contents of the Department of Energy Organization Act (42 U.S.C. 7101 note) is amended by inserting after the item relating to section 217 the following new item:

"Sec. 218. Office of Electric Transmission and Distribution.".

(2) Section 5315 of title 5, United States Code, is amended by inserting after the item relating to "Inspector General, Department of Energy." the following:

"Director, Office of Electric Transmission and Distribution, Department of Energy.".

Subtitle C—Transmission Operation Improvements

SEC. 1231. OPEN NONDISCRIMINATORY ACCESS.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by inserting after section 211 the following new section:

"SEC. 211A. OPEN ACCESS BY UNREGULATED TRANSMITTING UTILITIES.

"(a) TRANSMISSION SERVICES.—Subject to section 212(h), the Commission may, by rule or order, require an unregulated transmitting utility to provide transmission services—

"(1) at rates that are comparable to those that the unregulated transmitting utility charges itself; and

"(2) on terms and conditions (not relating to rates) that are comparable to those under which such unregulated transmitting utility provides transmission services to itself and that are not unduly discriminatory or preferential.

"(b) EXEMPTION.—The Commission shall exempt from any rule or order under this section any unregulated transmitting utility that—

"(1) sells no more than 4,000,000 megawatt hours of electricity per year; or

"(2) does not own or operate any transmission facilities that are necessary for operating an interconnected transmission system (or any portion thereof); or

"(3) meets other criteria the Commission determines to be in the public interest.

"(c) LOCAL DISTRIBUTION FACILITIES.—The requirements of subsection (a) shall not apply to facilities used in local distribution.

"(d) EXEMPTION TERMINATION.—Whenever the Commission, after an evidentiary hearing held upon a complaint and after giving consideration to reliability standards established under section 215, finds on the basis of a preponderance of the evidence that any exemption granted pursuant to subsection (b) unreasonably impairs the continued reliability of an interconnected transmission system, it shall revoke the exemption granted to that transmitting utility.

"(e) APPLICATION TO UNREGULATED TRANSMITTING UTILITIES.—The rate changing procedures applicable to public utilities under subsections (c) and (d) of section 205 are applicable to unregulated transmitting utilities for purposes of this section.

"(f) REMAND.—In exercising its authority under paragraph (1) of subsection (a), the Commission may remand transmission rates to an unregulated transmitting utility for review and revision where necessary to meet the requirements of subsection (a).

"(g) OTHER REQUESTS.—The provision of transmission services under subsection (a) does not preclude a request for transmission services under section 211.

"(h) LIMITATION.—The Commission may not require a State or municipality to take action under this section that would violate a private activity bond rule for purposes of section 141 of the Internal Revenue Code of 1986 (26 U.S.C. 141).

"(i) TRANSFER OF CONTROL OF TRANSMITTING FACILITIES.—Nothing in this section authorizes the Commission to require an unregulated transmitting utility to transfer control or operational control of its transmitting facilities to an RTO or any other Commission-approved independent transmission organization designated to provide nondiscriminatory transmission access.

"(j) DEFINITION.—For purposes of this section, the term 'unregulated transmitting utility' means an entity that—

"(1) owns or operates facilities used for the transmission of electric energy in interstate commerce; and

"(2) is an entity described in section 201(f).".

SEC. 1232. SENSE OF CONGRESS ON REGIONAL TRANSMISSION ORGANIZATIONS.

It is the sense of Congress that, in order to promote fair, open access to electric transmission service, benefit retail consumers, facilitate wholesale competition, improve efficiencies in transmission grid management, promote grid reliability, remove opportunities for unduly discriminatory or preferential transmission practices, and provide for the efficient development of transmission infrastructure needed to meet the growing demands of competitive wholesale power markets, all transmitting utilities in interstate commerce should voluntarily become members of Regional Transmission Organizations as defined in section 3 of the Federal Power Act.

SEC. 1233. REGIONAL TRANSMISSION ORGANIZATION APPLICATIONS PROGRESS REPORT.

Not later than 120 days after the date of enactment of this section, the Federal Energy Regulatory Commission shall submit to Congress a report containing each of the following:

(1) A list of all regional transmission organization applications filed at the Commission pursuant to subpart F of part 35 of title 18, Code of Federal Regulations (in this section referred to as "Order No. 2000"), including an identification of each public utility and other entity included within the proposed membership of the regional transmission organization.

(2) A brief description of the status of each pending regional transmission organization application, including a precise explanation of how each fails to comply with the minimal requirements of Order No. 2000 and what steps need to be taken to bring each application into such compliance.

(3) For any application that has not been finally approved by the Commission, a detailed description of every aspect of the application that the Commission has determined does not conform to the requirements of Order No. 2000.

(4) For any application that has not been finally approved by the Commission, an explanation by the Commission of why the items described pursuant to paragraph (3) constitute material noncompliance with the requirements of the Commission's Order No. 2000 sufficient to justify denial of approval by the Commission.

(5) For all regional transmission organization applications filed pursuant to the Commission's Order No. 2000, whether finally approved or not—

(A) a discussion of that regional transmission organization's efforts to minimize rate seams between itself and—

(i) other regional transmission organizations; and

(ii) entities not participating in a regional transmission organization;

(B) a discussion of the impact of such seams on consumers and wholesale competition; and

(C) a discussion of minimizing cost-shifting on consumers.

SEC. 1234. FEDERAL UTILITY PARTICIPATION IN REGIONAL TRANSMISSION ORGANIZATIONS.

(a) DEFINITIONS.—For purposes of this section—

(1) APPROPRIATE FEDERAL REGULATORY AUTHORITY.—The term "appropriate Federal regulatory authority" means—

(A) with respect to a Federal power marketing agency (as defined in the Federal Power Act), the Secretary of Energy, except that the Secretary may designate the Administrator of a Federal power marketing agency to act as the appropriate Federal regulatory authority with respect to the transmission system of that Federal power marketing agency; and

(B) with respect to the Tennessee Valley Authority, the Board of Directors of the Tennessee Valley Authority.

(2) FEDERAL UTILITY.—The term "Federal utility" means a Federal power marketing agency or the Tennessee Valley Authority.

(3) TRANSMISSION SYSTEM.—The term "transmission system" means electric transmission facilities owned, leased, or contracted for by the United States and operated by a Federal utility.

(b) TRANSFER.—The appropriate Federal regulatory authority is authorized to enter into a contract, agreement or other arrangement transferring control and use of all or part of the Federal utility's transmission system to an RTO or ISO (as defined in the Federal Power Act), approved by the Federal Energy Regulatory Commission. Such contract, agreement or arrangement shall include—

(1) performance standards for operation and use of the transmission system that the head of the Federal utility determines necessary or appropriate, including standards that assure recovery of all the Federal utility's costs and expenses related to the transmission facilities that are the subject of the contract, agreement or other arrangement; consistency with existing contracts and third-party financing arrangements; and consistency with said Federal utility's statutory authorities, obligations, and limitations;

(2) provisions for monitoring and oversight by the Federal utility of the RTO's or ISO's fulfillment of the terms and conditions of the contract, agreement or other arrangement, including a provision for the resolution of disputes through arbitration or other means with the regional transmission organization or with other participants, notwithstanding the obligations and limitations of any other law regarding arbitration; and

(3) a provision that allows the Federal utility to withdraw from the RTO or ISO and terminate the contract, agreement or other arrangement in accordance with its terms.

Neither this section, actions taken pursuant to it, nor any other transaction of a Federal utility using an RTO or ISO shall confer upon the Federal Energy Regulatory Commission jurisdiction or authority over the Federal utility's electric generation assets, electric capacity or energy that the Federal utility is authorized by law to market, or the Federal utility's power sales activities.

(c) Existing Statutory and Other Obligations.—

(1) System operation requirements.—No statutory provision requiring or authorizing a Federal utility to transmit electric power or to construct, operate or maintain its transmission system shall be construed to prohibit a transfer of control and use of its transmission system pursuant to, and subject to all requirements of subsection (b).

(2) Other obligations.—This subsection shall not be construed to—

(A) suspend, or exempt any Federal utility from, any provision of existing Federal law, including but not limited to any requirement or direction relating to the use of the Federal utility's transmission system, environmental protection, fish and wildlife protection, flood control, navigation, water delivery, or recreation; or

(B) authorize abrogation of any contract or treaty obligation.

(3) Repeal.—Section 311 of title III of Appendix B of the Act of October 27, 2000 (P.L. 106–377, section 1(a)(2); 114 Stat. 1441, 1441A–80; 16 U.S.C. 824n) is repealed.

SEC. 1235. STANDARD MARKET DESIGN.

(a) Remand.—The Commission's proposed rulemaking entitled "Remedying Undue Discrimination through Open Access Transmission Service and Standard Electricity Market Design" (Docket No. RM01–12–000) ("SMD NOPR") is remanded to the Commission for reconsideration. No final rule mandating a standard electricity market design pursuant to the proposed rulemaking, including any rule or order of general applicability within the scope of the proposed rulemaking, may be issued before October 31, 2006, or take effect before December 31, 2006. Any final rule issued by the Commission pursuant to the proposed rulemaking shall be preceded by a second notice of proposed rulemaking issued after the date of enactment of this Act and an opportunity for public comment.

(b) Savings Clause.—This section shall not be construed to modify or diminish any authority or obligation the Commission has under this Act, the Federal Power Act, or other applicable law, including, but not limited to, any authority to—

(1) issue any rule or order (of general or particular applicability) pursuant to any such authority or obligation; or

(2) act on a filing or filings by 1 or more transmitting utilities for the voluntary formation of a Regional Transmission Organization or Independent System Operator (as defined in the Federal Power Act) (and related market structures or rules) or voluntary modification of an existing Regional Transmission Organization or Independent System Operator (and related market structures or rules).

SEC. 1236. NATIVE LOAD SERVICE OBLIGATION.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 217. NATIVE LOAD SERVICE OBLIGATION.

"(a) Meeting Service Obligations.—(1) Any load-serving entity that, as of the date of enactment of this section—

"(A) owns generation facilities, markets the output of Federal generation facilities, or holds rights under 1 or more wholesale contracts to purchase electric energy, for the purpose of meeting a service obligation, and

"(B) by reason of ownership of transmission facilities, or 1 or more contracts or service agreements for firm transmission service, holds firm transmission rights for delivery of the output of such generation facilities or such purchased energy to meet such service obligation,

is entitled to use such firm transmission rights, or, equivalent tradable or financial transmission rights, in order to deliver such output or purchased energy, or the output of other generating facilities or purchased energy to the extent deliverable using such rights, to the extent required to meet its service obligation.

"(2) To the extent that all or a portion of the service obligation covered by such firm transmission rights or equivalent tradable or financial transmission rights is transferred to another load-serving entity, the successor load-serving entity shall be entitled to use the firm transmission rights or equivalent tradable or financial transmission rights associated with the transferred service obligation. Subsequent transfers to another load-serving entity, or back to the original load-serving entity, shall be entitled to the same rights.

"(3) The Commission shall exercise its authority under this Act in a manner that facilitates the planning and expansion of transmission facilities to meet the reasonable needs of load-serving entities to satisfy their service obligations.

"(b) Allocation of Transmission Rights.—Nothing in this section shall affect any methodology approved by the Commission prior to September 15, 2003, for the allocation of transmission rights by an RTO or ISO that has been authorized by the Commission to allocate transmission rights.

"(c) Certain Transmission Rights.—The Commission may exercise authority under this Act to make transmission rights not used to meet an obligation covered by subsection (a) available to other entities in a manner determined by the Commission to be just, reasonable, and not unduly discriminatory or preferential.

"(d) Obligation To Build.—Nothing in this Act shall relieve a load-serving entity from any obligation under State or local law to build transmission or distribution facilities adequate to meet its service obligations.

"(e) Contracts.—Nothing in this section shall provide a basis for abrogating any contract or service agreement for firm transmission service or rights in effect as of the date of the enactment of this subsection.

"(f) Water Pumping Facilities.—The Commission shall ensure that any entity described in section 201(f) that owns transmission facilities used predominately to support its own water pumping facilities shall have, with respect to such facilities, protections for transmission service comparable to those provided to load-serving entities pursuant to this section.

"(g) ERCOT.—This section shall not apply within the area referred to in section 212(k)(2)(A).

"(h) Jurisdiction.—This section does not authorize the Commission to take any action not otherwise within its jurisdiction.

"(i) Effect of Exercising Rights.—An entity that lawfully exercises rights granted under subsection (a) shall not be considered by such action as engaging in undue discrimination or preference under this Act.

"(j) TVA Area.—For purposes of subsection (a)(1)(B), a load-serving entity that is located within the service area of the Tennessee Valley Authority and that has a firm wholesale power supply contract with the Tennessee Valley Authority shall be deemed to hold firm transmission rights for the transmission of such power.

"(k) Definitions.—For purposes of this section:

"(1) The term 'distribution utility' means an electric utility that has a service obligation to end-users or to a State utility or electric cooperative that, directly or indirectly, through 1 or more additional State utilities or electric cooperatives, provides electric service to end-users.

"(2) The term 'load-serving entity' means a distribution utility or an electric utility that has a service obligation.

"(3) The term 'service obligation' means a requirement applicable to, or the exercise of authority granted to, an electric utility under Federal, State or local law or under long-term contracts to provide electric service to end-users or to a distribution utility.

"(4) The term 'State utility' means a State or any political subdivision of a State, or any agency, authority, or instrumentality of any 1 or more of the foregoing, or a corporation which is wholly owned, directly or indirectly, by any 1 or more of the foregoing, competent to carry on the business of developing, transmitting, utilizing or distributing power.".

SEC. 1237. STUDY ON THE BENEFITS OF ECONOMIC DISPATCH.

(a) Study.—The Secretary of Energy, in coordination and consultation with the States, shall conduct a study on—

(1) the procedures currently used by electric utilities to perform economic dispatch;

(2) identifying possible revisions to those procedures to improve the ability of nonutility generation resources to offer their output for sale for the purpose of inclusion in economic dispatch; and

(3) the potential benefits to residential, commercial, and industrial electricity consumers nationally and in each state if economic dispatch procedures were revised to improve the ability of nonutility generation resources to offer their output for inclusion in economic dispatch.

(b) Definition.—The term "economic dispatch" when used in this section means the operation of generation facilities to produce energy at the lowest cost to reliably serve consumers, recognizing any operational limits of generation and transmission facilities.

(c) Report to Congress and the States.—Not later than 90 days after the date of enactment of this Act, and on a yearly basis following, the Secretary of Energy shall submit a report to Congress and the States on the results of the study conducted under subsection (a), including recommendations to Congress and the States for any suggested legislative or regulatory changes.

Subtitle D—Transmission Rate Reform

SEC. 1241. TRANSMISSION INFRASTRUCTURE INVESTMENT.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 218. TRANSMISSION INFRASTRUCTURE INVESTMENT.

"(a) Rulemaking Requirement.—Within 1 year after the enactment of this section, the Commission shall establish, by rule, incentive-based (including, but not limited to performance-based) rate treatments for the transmission of electric energy in interstate commerce by public utilities for the purpose of benefiting consumers by ensuring reliability and reducing the cost of delivered power by reducing transmission congestion. Such rule shall—

"(1) promote reliable and economically efficient transmission and generation of electricity by promoting capital investment in the enlargement, improvement, maintenance and operation of facilities for the transmission of electric energy in interstate commerce;

"(2) provide a return on equity that attracts new investment in transmission facilities (including related transmission technologies);

"(3) encourage deployment of transmission technologies and other measures to increase the

capacity and efficiency of existing transmission facilities and improve the operation of such facilities; and

"(4) allow recovery of all prudently incurred costs necessary to comply with mandatory reliability standards issued pursuant to section 215 of this Act.

The Commission may, from time to time, revise such rule.

"(b) ADDITIONAL INCENTIVES FOR RTO PARTICIPATION.—In the rule issued under this section, the Commission shall, to the extent within its jurisdiction, provide for incentives to each transmitting utility or electric utility that joins a Regional Transmission Organization or Independent System Operator. Incentives provided by the Commission pursuant to such rule shall include—

"(1) recovery of all prudently incurred costs to develop and participate in any proposed or approved RTO, ISO, or independent transmission company;

"(2) recovery of all costs previously approved by a State commission which exercised jurisdiction over the transmission facilities prior to the utility's participation in the RTO or ISO, including costs necessary to honor preexisting transmission service contracts, in a manner which does not reduce the revenues the utility receives for transmission services for a reasonable transition period after the utility joins the RTO or ISO;

"(3) recovery as an expense in rates of the costs prudently incurred to conduct transmission planning and reliability activities, including the costs of participating in RTO, ISO and other regional planning activities and design, study and other precertification costs involved in seeking permits and approvals for proposed transmission facilities;

"(4) a current return in rates for construction work in progress for transmission facilities and full recovery of prudently incurred costs for constructing transmission facilities;

"(5) formula transmission rates; and

"(6) a maximum 15 year accelerated depreciation on new transmission facilities for rate treatment purposes.

The Commission shall ensure that any costs recoverable pursuant to this subsection may be recovered by such utility through the transmission rates charged by such utility or through the transmission rates charged by the RTO or ISO that provides transmission service to such utility.

"(c) JUST AND REASONABLE RATES.—All rates approved under the rules adopted pursuant to this section, including any revisions to such rules, are subject to the requirement of sections 205 and 206 that all rates, charges, terms, and conditions be just and reasonable and not unduly discriminatory or preferential.".

SEC. 1242. VOLUNTARY TRANSMISSION PRICING PLANS.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 219. VOLUNTARY TRANSMISSION PRICING PLANS.

"(a) IN GENERAL.—Any transmission provider, including an RTO or ISO, may submit to the Commission a plan or plans under section 205 containing the criteria for determining the person or persons that will be required to pay for any construction of new transmission facilities or expansion, modification or upgrade of transmission facilities (in this section referred to as 'transmission service related expansion') or new generator interconnection.

"(b) VOLUNTARY TRANSMISSION PRICING PLANS.—(1) Any plan or plans submitted under subsection (a) shall specify the method or methods by which costs may be allocated or assigned. Such methods may include, but are not limited to:

"(A) directly assigned;

"(B) participant funded; or

"(C) rolled into regional or sub-regional rates.–

"(2) FERC shall approve a plan or plans submitted under subparagraph (B) of paragraph (1) if such plan or plans—

"(A) result in rates that are just and reasonable and not unduly discriminatory or preferential consistent with section 205; and

"(B) ensure that the costs of any transmission service related expansion or new generator interconnection not required to meet applicable reliability standards established under section 215 are assigned in a fair manner, meaning that those who benefit from the transmission service related expansion or new generator interconnection pay an appropriate share of the associated costs, provided that—

"(i) costs may not be assigned or allocated to an electric utility if the native load customers of that utility would not have required such transmission service related expansion or new generator interconnection absent the request for transmission service related expansion or new generator interconnection that necessitated the investment;

"(ii) the party requesting such transmission service related expansion or new generator interconnection shall not be required to pay for both—

"(I) the assigned cost of the upgrade; and

"(II) the difference between—

"(aa) the embedded cost paid for transmission services (including the cost of the requested upgrade); and

"(bb) the embedded cost that would have been paid absent the upgrade; and

"(iii) the party or parties who pay for facilities necessary for the transmission service related expansion or new generator interconnection receives full compensation for its costs for the participant funded facilities in the form of—

"(I) monetary credit equal to the cost of the participant funded facilities (accounting for the time value of money at the Gross Domestic Product deflator), which credit shall be pro-rated in equal installments over a period of not more than 30 years and shall not exceed in total the amount of the initial investment, against the transmission charges that the funding entity or its assignee is otherwise assessed by the transmission provider;

"(II) appropriate financial or physical rights; or

"(III) any other method of cost recovery or compensation approved by the Commission.

"(3) A plan submitted under this section shall apply only to—

"(A) a contract or interconnection agreement executed or filed with the Commission after the date of enactment of this section; or

"(B) an interconnection agreement pending rehearing as of November 1, 2003.

"(4) Nothing in this section diminishes or alters the rights of individual members of an RTO or ISO under this Act.

"(5) Nothing in this section shall affect the allocation of costs or the cost methodology employed by an RTO or ISO authorized by the Commission to allocate costs (including costs for transmission service related expansion or new generator interconnection) prior to the date of enactment of this section.

"(6) This section shall not apply within the area referred to in section 212(k)(2)(A).

"(7) The term 'transmission provider' means a public utility that owns or operates facilities that provide interconnection or transmission service in interstate commerce.".

Subtitle E—Amendments to PURPA

SEC. 1251. NET METERING AND ADDITIONAL STANDARDS.

(a) ADOPTION OF STANDARDS.—Section 111(d) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

"(11) NET METERING.—Each electric utility shall make available upon request net metering service to any electric consumer that the electric utility serves. For purposes of this paragraph, the term 'net metering service' means service to an electric consumer under which electric energy generated by that electric consumer from an eligible on-site generating facility and delivered to the local distribution facilities may be used to offset electric energy provided by the electric utility to the electric consumer during the applicable billing period.

"(12) FUEL SOURCES.—Each electric utility shall develop a plan to minimize dependence on 1 fuel source and to ensure that the electric energy it sells to consumers is generated using a diverse range of fuels and technologies, including renewable technologies.

"(13) FOSSIL FUEL GENERATION EFFICIENCY.—Each electric utility shall develop and implement a 10-year plan to increase the efficiency of its fossil fuel generation.".

(b) COMPLIANCE.—

(1) TIME LIMITATIONS.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

"(3)(A) Not later than 2 years after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to each standard established by paragraphs (11) through (13) of section 111(d).

"(B) Not later than 3 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to each standard established by paragraphs (11) through (13) of section 111(d).".

(2) FAILURE TO COMPLY.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following:

"In the case of each standard established by paragraphs (11) through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraphs (11) through (13).".

(3) PRIOR STATE ACTIONS.—

(A) IN GENERAL.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

"(d) PRIOR STATE ACTIONS.—Subsections (b) and (c) of this section shall not apply to the standards established by paragraphs (11) through (13) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

"(1) the State has implemented for such utility the standard concerned (or a comparable standard);

"(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

"(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.".

(B) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: "In the case of each standard established by paragraphs (11) *through (13) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraphs (11) through (13).".*

SEC. 1252. SMART METERING.

(a) In General.—Section 111(d) of the Public Utilities Regulatory Policies Act of 1978 (16 U.S.C. 2621(d)) is amended by adding at the end the following:

"(14) Time-based metering and communications.—

"(A) Not later than 18 months after the date of enactment of this paragraph, each electric utility shall offer each of its customer classes, and provide individual customers upon customer request, a time-based rate schedule under which the rate charged by the electric utility varies during different time periods and reflects the variance, if any, in the utility's costs of generating and purchasing electricity at the wholesale level. The time-based rate schedule shall enable the electric consumer to manage energy use and cost through advanced metering and communications technology.

"(B) The types of time-based rate schedules that may be offered under the schedule referred to in subparagraph (A) include, among others—

"(i) time-of-use pricing whereby electricity prices are set for a specific time period on an advance or forward basis, typically not changing more often than twice a year, based on the utility's cost of generating and/or purchasing such electricity at the wholesale level for the benefit of the consumer. Prices paid for energy consumed during these periods shall be pre-established and known to consumers in advance of such consumption, allowing them to vary their demand and usage in response to such prices and manage their energy costs by shifting usage to a lower cost period or reducing their consumption overall;

"(ii) critical peak pricing whereby time-of-use prices are in effect except for certain peak days, when prices may reflect the costs of generating and/or purchasing electricity at the wholesale level and when consumers may receive additional discounts for reducing peak period energy consumption; and

"(iii) real-time pricing whereby electricity prices are set for a specific time period on an advanced or forward basis, reflecting the utility's cost of generating and/or purchasing electricity at the wholesale level, and may change as often as hourly.

"(C) Each electric utility subject to subparagraph (A) shall provide each customer requesting a time-based rate with a time-based meter capable of enabling the utility and customer to offer and receive such rate, respectively.

"(D) For purposes of implementing this paragraph, any reference contained in this section to the date of enactment of the Public Utility Regulatory Policies Act of 1978 shall be deemed to be a reference to the date of enactment of this paragraph.

"(E) In a State that permits third-party marketers to sell electric energy to retail electric consumers, such consumers shall be entitled to receive the same time-based metering and communications device and service as a retail electric consumer of the electric utility.

"(F) Notwithstanding subsections (b) and (c) of section 112, each State regulatory authority shall, not later than 18 months after the date of enactment of this paragraph conduct an investigation in accordance with section 115(i) and issue a decision whether it is appropriate to implement the standards set out in subparagraphs (A) and (C).".

(b) State Investigation of Demand Response and Time-Based Metering.—Section 115 of the Public Utilities Regulatory Policies Act of 1978 (16 U.S.C. 2625) is amended as follows:

(1) By inserting in subsection (b) after the phrase "the standard for time-of-day rates established by section 111(d)(3)" the following: "and the standard for time-based metering and communications established by section 111(d)(14)".

(2) By inserting in subsection (b) after the phrase "are likely to exceed the metering" the following: "and communications".

(3) By adding the at the end the following:

"(i) Time-based metering and communications.—In making a determination with respect to the standard established by section 111(d)(14), the investigation requirement of section 111(d)(14)(F) shall be as follows: Each State regulatory authority shall conduct an investigation and issue a decision whether or not it is appropriate for electric utilities to provide and install time-based meters and communications devices for each of their customers which enable such customers to participate in time-based pricing rate schedules and other demand response programs.".

(c) Federal Assistance on Demand Response.—Section 132(a) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642(a)) is amended by striking "and" at the end of paragraph (3), striking the period at the end of paragraph (4) and inserting "; and", and by adding the following at the end thereof:

"(5) technologies, techniques, and rate-making methods related to advanced metering and communications and the use of these technologies, techniques and methods in demand response programs.".

(d) Federal Guidance.—Section 132 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2642) is amended by adding the following at the end thereof:

"(d) Demand response.—The Secretary shall be responsible for—

"(1) educating consumers on the availability, advantages, and benefits of advanced metering and communications technologies, including the funding of demonstration or pilot projects;

"(2) working with States, utilities, other energy providers and advanced metering and communications experts to identify and address barriers to the adoption of demand response programs; and

"(3) not later than 180 days after the date of enactment of the Energy Policy Act of 2003, providing Congress with a report that identifies and quantifies the national benefits of demand response and makes a recommendation on achieving specific levels of such benefits by January 1, 2005.".

(e) Demand Response and Regional Coordination.—

(1) In general.—It is the policy of the United States to encourage States to coordinate, on a regional basis, State energy policies to provide reliable and affordable demand response services to the public.

(2) Technical assistance.—The Secretary of Energy shall provide technical assistance to States and regional organizations formed by 2 or more States to assist them in—

(A) identifying the areas with the greatest demand response potential;

(B) identifying and resolving problems in transmission and distribution networks, including through the use of demand response;

(C) developing plans and programs to use demand response to respond to peak demand or emergency needs; and

(D) identifying specific measures consumers can take to participate in these demand response programs.

(3) Report.—Not later than 1 year after the date of enactment of the Energy Policy Act of 2003, the Commission shall prepare and publish an annual report, by appropriate region, that assesses demand response resources, including those available from all consumer classes, and which identifies and reviews—

(A) saturation and penetration rate of advanced meters and communications technologies, devices and systems;

(B) existing demand response programs and time-based rate programs;

(C) the annual resource contribution of demand resources;

(D) the potential for demand response as a quantifiable, reliable resource for regional planning purposes; and

(E) steps taken to ensure that, in regional transmission planning and operations, demand resources are provided equitable treatment as a quantifiable, reliable resource relative to the resource obligations of any load-serving entity, transmission provider, or transmitting party.

(f) Federal Encouragement of Demand Response Devices.—It is the policy of the United States that time-based pricing and other forms of demand response, whereby electricity customers are provided with electricity price signals and the ability to benefit by responding to them, shall be encouraged, and the deployment of such technology and devices that enable electricity customers to participate in such pricing and demand response systems shall be facilitated. It is further the policy of the United States that the benefits of such demand response that accrue to those not deploying such technology and devices, but who are part of the same regional electricity entity, shall be recognized.

(g) Time Limitations.—Section 112(b) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(b)) is amended by adding at the end the following:

"(4)(A) Not later than 1 year after the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 111, or set a hearing date for such consideration, with respect to the standard established by paragraph (14) of section 111(d).

"(B) Not later than 2 years after the date of the enactment of this paragraph, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 111 with respect to the standard established by paragraph (14) of section 111(d).".

(h) Failure To Comply.—Section 112(c) of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622(c)) is amended by adding at the end the following:

"In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).".

(i) Prior State Actions Regarding Smart Metering Standards.—

(1) In general.—Section 112 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2622) is amended by adding at the end the following:

"(e) Prior State Actions.—Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (14) of section 111(d) in the case of any electric utility in a State if, before the enactment of this subsection—

"(1) the State has implemented for such utility the standard concerned (or a comparable standard);

"(2) the State regulatory authority for such State or relevant nonregulated electric utility

has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility within the previous 3 years; or

"(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility within the previous 3 years.".

(2) CROSS REFERENCE.—Section 124 of such Act (16 U.S.C. 2634) is amended by adding the following at the end thereof: "In the case of the standard established by paragraph (14) of section 111(d), the reference contained in this subsection to the date of enactment of this Act shall be deemed to be a reference to the date of enactment of such paragraph (14).".

SEC. 1253. COGENERATION AND SMALL POWER PRODUCTION PURCHASE AND SALE REQUIREMENTS.

(a) TERMINATION OF MANDATORY PURCHASE AND SALE REQUIREMENTS.—Section 210 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 824a–3) is amended by adding at the end the following:

"(m) TERMINATION OF MANDATORY PURCHASE AND SALE REQUIREMENTS.—

"(1) OBLIGATION TO PURCHASE.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to purchase electric energy from a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that the qualifying cogeneration facility or qualifying small power production facility has nondiscriminatory access to—

"(A)(i) independently administered, auction-based day ahead and real time wholesale markets for the sale of electric energy; and (ii) wholesale markets for long-term sales of capacity and electric energy; or

"(B)(i) transmission and interconnection services that are provided by a Commission-approved regional transmission entity and administered pursuant to an open access transmission tariff that affords nondiscriminatory treatment to all customers; and (ii) competitive wholesale markets that provide a meaningful opportunity to sell capacity, including long-term and short-term sales, and electric energy, including long-term, short-term and real-time sales, to buyers other than the utility to which the qualifying facility is interconnected. In determining whether a meaningful opportunity to sell exists, the Commission shall consider, among other factors, evidence of transactions within the relevant market; or

"(C) wholesale markets for the sale of capacity and electric energy that are, at a minimum, of comparable competitive quality as markets described in subparagraphs (A) and (B).

"(2) REVISED PURCHASE AND SALE OBLIGATION FOR NEW FACILITIES.—(A) After the date of enactment of this subsection, no electric utility shall be required pursuant to this section to enter into a new contract or obligation to purchase from or sell electric energy to a facility that is not an existing qualifying cogeneration facility unless the facility meets the criteria for qualifying cogeneration facilities established by the Commission pursuant to the rulemaking required by subsection (n).

"(B) For the purposes of this paragraph, the term 'existing qualifying cogeneration facility' means a facility that—

"(i) was a qualifying cogeneration facility on the date of enactment of subsection (m); or

"(ii) had filed with the Commission a notice of self-certification, self recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by subsection (n).

"(3) COMMISSION REVIEW.—Any electric utility may file an application with the Commission for relief from the mandatory purchase obligation pursuant to this subsection on a service territory-wide basis. Such application shall set forth the factual basis upon which relief is requested and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection have been met. After notice, including sufficient notice to potentially affected qualifying cogeneration facilities and qualifying small power production facilities, and an opportunity for comment, the Commission shall make a final determination within 90 days of such application regarding whether the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) have been met.

"(4) REINSTATEMENT OF OBLIGATION TO PURCHASE.—At any time after the Commission makes a finding under paragraph (3) relieving an electric utility of its obligation to purchase electric energy, a qualifying cogeneration facility, a qualifying small power production facility, a State agency, or any other affected person may apply to the Commission for an order reinstating the electric utility's obligation to purchase electric energy under this section. Such application shall set forth the factual basis upon which the application is based and describe why the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) of this subsection are no longer met. After notice, including sufficient notice to potentially affected utilities, and opportunity for comment, the Commission shall issue an order within 90 days of such application reinstating the electric utility's obligation to purchase electric energy under this section if the Commission finds that the conditions set forth in subparagraphs (A), (B) or (C) of paragraph (1) which relieved the obligation to purchase, are no longer met.

"(5) OBLIGATION TO SELL.—After the date of enactment of this subsection, no electric utility shall be required to enter into a new contract or obligation to sell electric energy to a qualifying cogeneration facility or a qualifying small power production facility under this section if the Commission finds that—

"(A) competing retail electric suppliers are willing and able to sell and deliver electric energy to the qualifying cogeneration facility or qualifying small power production facility; and

"(B) the electric utility is not required by State law to sell electric energy in its service territory.

"(6) NO EFFECT ON EXISTING RIGHTS AND REMEDIES.—Nothing in this subsection affects the rights or remedies of any party under any contract or obligation, in effect or pending approval before the appropriate State regulatory authority or non-regulated electric utility on the date of enactment of this subsection, to purchase electric energy or capacity from or to sell electric energy or capacity to a qualifying cogeneration facility or qualifying small power production facility under this Act (including the right to recover costs of purchasing electric energy or capacity).

"(7) RECOVERY OF COSTS.—(A) The Commission shall issue and enforce such regulations as are necessary to ensure that an electric utility that purchases electric energy or capacity from a qualifying cogeneration facility or qualifying small power production facility in accordance with any legally enforceable obligation entered into or imposed under this section recovers all prudently incurred costs associated with the purchase.

"(B) A regulation under subparagraph (A) shall be enforceable in accordance with the provisions of law applicable to enforcement of regulations under the Federal Power Act (16 U.S.C. 791a et seq.).

"(n) RULEMAKING FOR NEW QUALIFYING FACILITIES.—(1)(A) Not later than 180 days after the date of enactment of this section, the Commission shall issue a rule revising the criteria in 18 C.F.R. 292.205 for new qualifying cogeneration facilities seeking to sell electric energy pursuant to section 210 of this Act to ensure—

"(i) that the thermal energy output of a new qualifying cogeneration facility is used in a productive and beneficial manner;

"(ii) the electrical, thermal, and chemical output of the cogeneration facility is used fundamentally for industrial, commercial, or institutional purposes and is not intended fundamentally for sale to an electric utility, taking into account technological, efficiency, economic, and variable thermal energy requirements, as well as State laws applicable to sales of electric energy from a qualifying facility to its host facility; and

"(iii) continuing progress in the development of efficient electric energy generating technology.

"(B) The rule issued pursuant to section (n)(1)(A) shall be applicable only to facilities that seek to sell electric energy pursuant to section 210 of this Act. For all other purposes, except as specifically provided in section (m)(2)(A), qualifying facility status shall be determined in accordance with the rules and regulations of this Act.

"(2) Notwithstanding rule revisions under paragraph (1), the Commission's criteria for qualifying cogeneration facilities in effect prior to the date on which the Commission issues the final rule required by paragraph (1) shall continue to apply to any cogeneration facility that—

"(A) was a qualifying cogeneration facility on the date of enactment of subsection (m), or

"(B) had filed with the Commission a notice of self-certification, self-recertification or an application for Commission certification under 18 C.F.R. 292.207 prior to the date on which the Commission issues the final rule required by paragraph (1).".

(b) ELIMINATION OF OWNERSHIP LIMITATIONS.—

(1) QUALIFYING SMALL POWER PRODUCTION FACILITY.—Section 3(17)(C) of the Federal Power Act (16 U.S.C. 796(17)(C)) is amended to read as follows:

"(C) 'qualifying small power production facility' means a small power production facility that the Commission determines, by rule, meets such requirements (including requirements respecting fuel use, fuel efficiency, and reliability) as the Commission may, by rule, prescribe;".

(2) QUALIFYING COGENERATION FACILITY.—Section 3(18)(B) of the Federal Power Act (16 U.S.C. 796(18)(B)) is amended to read as follows:

"(B) 'qualifying cogeneration facility' means a cogeneration facility that the Commission determines, by rule, meets such requirements (including requirements respecting minimum size, fuel use, and fuel efficiency) as the Commission may, by rule, prescribe;".

Subtitle F—Repeal of PUHCA

SEC. 1261. SHORT TITLE.

This subtitle may be cited as the "Public Utility Holding Company Act of 2003".

SEC. 1262. DEFINITIONS.

For purposes of this subtitle:

(1) AFFILIATE.—The term "affiliate" of a company means any company, 5 percent or more of the outstanding voting securities of which are owned, controlled, or held with power to vote, directly or indirectly, by such company.

(2) ASSOCIATE COMPANY.—The term "associate company" of a company means any company in the same holding company system with such company.

(3) COMMISSION.—The term "Commission" means the Federal Energy Regulatory Commission.

(4) COMPANY.—The term "company" means a corporation, partnership, association, joint

stock company, business trust, or any organized group of persons, whether incorporated or not, or a receiver, trustee, or other liquidating agent of any of the foregoing.

(5) ELECTRIC UTILITY COMPANY.—The term "electric utility company" means any company that owns or operates facilities used for the generation, transmission, or distribution of electric energy for sale.

(6) EXEMPT WHOLESALE GENERATOR AND FOREIGN UTILITY COMPANY.—The terms "exempt wholesale generator" and "foreign utility company" have the same meanings as in sections 32 and 33, respectively, of the Public Utility Holding Company Act of 1935 (15 U.S.C. 79z–5a, 79z–5b), as those sections existed on the day before the effective date of this subtitle.

(7) GAS UTILITY COMPANY.—The term "gas utility company" means any company that owns or operates facilities used for distribution at retail (other than the distribution only in enclosed portable containers or distribution to tenants or employees of the company operating such facilities for their own use and not for resale) of natural or manufactured gas for heat, light, or power.

(8) HOLDING COMPANY.—The term "holding company" means—

(A) any company that directly or indirectly owns, controls, or holds, with power to vote, 10 percent or more of the outstanding voting securities of a public-utility company or of a holding company of any public-utility company; and

(B) any person, determined by the Commission, after notice and opportunity for hearing, to exercise directly or indirectly (either alone or pursuant to an arrangement or understanding with 1 or more persons) such a controlling influence over the management or policies of any public-utility company or holding company as to make it necessary or appropriate for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon holding companies.

(9) HOLDING COMPANY SYSTEM.—The term "holding company system" means a holding company, together with its subsidiary companies.

(10) JURISDICTIONAL RATES.—The term "jurisdictional rates" means rates accepted or established by the Commission for the transmission of electric energy in interstate commerce, the sale of electric energy at wholesale in interstate commerce, the transportation of natural gas in interstate commerce, and the sale in interstate commerce of natural gas for resale for ultimate public consumption for domestic, commercial, industrial, or any other use.

(11) NATURAL GAS COMPANY.—The term "natural gas company" means a person engaged in the transportation of natural gas in interstate commerce or the sale of such gas in interstate commerce for resale.

(12) PERSON.—The term "person" means an individual or company.

(13) PUBLIC UTILITY.—The term "public utility" means any person who owns or operates facilities used for transmission of electric energy in interstate commerce or sales of electric energy at wholesale in interstate commerce.

(14) PUBLIC-UTILITY COMPANY.—The term "public-utility company" means an electric utility company or a gas utility company.

(15) STATE COMMISSION.—The term "State commission" means any commission, board, agency, or officer, by whatever name designated, of a State, municipality, or other political subdivision of a State that, under the laws of such State, has jurisdiction to regulate public utility companies.

(16) SUBSIDIARY COMPANY.—The term "subsidiary company" of a holding company means—

(A) any company, 10 percent or more of the outstanding voting securities of which are directly or indirectly owned, controlled, or held with power to vote, by such holding company; and

(B) any person, the management or policies of which the Commission, after notice and opportunity for hearing, determines to be subject to a controlling influence, directly or indirectly, by such holding company (either alone or pursuant to an arrangement or understanding with 1 or more other persons) so as to make it necessary for the rate protection of utility customers with respect to rates that such person be subject to the obligations, duties, and liabilities imposed by this subtitle upon subsidiary companies of holding companies.

(17) VOTING SECURITY.—The term "voting security" means any security presently entitling the owner or holder thereof to vote in the direction or management of the affairs of a company.

SEC. 1263. REPEAL OF THE PUBLIC UTILITY HOLDING COMPANY ACT OF 1935.

The Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.) is repealed.

SEC. 1264. FEDERAL ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Each holding company and each associate company thereof shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(b) AFFILIATE COMPANIES.—Each affiliate of a holding company or of any subsidiary company of a holding company shall maintain, and shall make available to the Commission, such books, accounts, memoranda, and other records with respect to any transaction with another affiliate, as the Commission determines are relevant to costs incurred by a public utility or natural gas company that is an associate company of such holding company and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(c) HOLDING COMPANY SYSTEMS.—The Commission may examine the books, accounts, memoranda, and other records of any company in a holding company system, or any affiliate thereof, as the Commission determines are relevant to costs incurred by a public utility or natural gas company within such holding company system and necessary or appropriate for the protection of utility customers with respect to jurisdictional rates.

(d) CONFIDENTIALITY.—No member, officer, or employee of the Commission shall divulge any fact or information that may come to his or her knowledge during the course of examination of books, accounts, memoranda, or other records as provided in this section, except as may be directed by the Commission or by a court of competent jurisdiction.

SEC. 1265. STATE ACCESS TO BOOKS AND RECORDS.

(a) IN GENERAL.—Upon the written request of a State commission having jurisdiction to regulate a public-utility company in a holding company system, the holding company or any associate company or affiliate thereof, other than such public-utility company, wherever located, shall produce for inspection books, accounts, memoranda, and other records that—

(1) have been identified in reasonable detail in a proceeding before the State commission;

(2) the State commission determines are relevant to costs incurred by such public-utility company; and

(3) are necessary for the effective discharge of the responsibilities of the State commission with respect to such proceeding.

(b) LIMITATION.—Subsection (a) does not apply to any person that is a holding company solely by reason of ownership of 1 or more qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.).

(c) CONFIDENTIALITY OF INFORMATION.—The production of books, accounts, memoranda, and other records under subsection (a) shall be subject to such terms and conditions as may be necessary and appropriate to safeguard against unwarranted disclosure to the public of any trade secrets or sensitive commercial information.

(d) EFFECT ON STATE LAW.—Nothing in this section shall preempt applicable State law concerning the provision of books, accounts, memoranda, and other records, or in any way limit the rights of any State to obtain books, accounts, memoranda, and other records under any other Federal law, contract, or otherwise.

(e) COURT JURISDICTION.—Any United States district court located in the State in which the State commission referred to in subsection (a) is located shall have jurisdiction to enforce compliance with this section.

SEC. 1266. EXEMPTION AUTHORITY.

(a) RULEMAKING.—Not later than 90 days after the effective date of this subtitle, the Commission shall issue a final rule to exempt from the requirements of section 1264 (relating to Federal access to books and records) any person that is a holding company, solely with respect to 1 or more—

(1) qualifying facilities under the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2601 et seq.);

(2) exempt wholesale generators; or

(3) foreign utility companies.

(b) OTHER AUTHORITY.—The Commission shall exempt a person or transaction from the requirements of section 1264 (relating to Federal access to books and records) if, upon application or upon the motion of the Commission—

(1) the Commission finds that the books, accounts, memoranda, and other records of any person are not relevant to the jurisdictional rates of a public utility or natural gas company; or

(2) the Commission finds that any class of transactions is not relevant to the jurisdictional rates of a public utility or natural gas company.

SEC. 1267. AFFILIATE TRANSACTIONS.

(a) COMMISSION AUTHORITY UNAFFECTED.—Nothing in this subtitle shall limit the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) to require that jurisdictional rates are just and reasonable, including the ability to deny or approve the pass through of costs, the prevention of cross-subsidization, and the issuance of such rules and regulations as are necessary or appropriate for the protection of utility consumers.

(b) RECOVERY OF COSTS.—Nothing in this subtitle shall preclude the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to determine whether a public-utility company, public utility, or natural gas company may recover in rates any costs of an activity performed by an associate company, or any costs of goods or services acquired by such public-utility company from an associate company.

SEC. 1268. APPLICABILITY.

Except as otherwise specifically provided in this subtitle, no provision of this subtitle shall apply to, or be deemed to include—

(1) the United States;

(2) a State or any political subdivision of a State;

(3) any foreign governmental authority not operating in the United States;

(4) any agency, authority, or instrumentality of any entity referred to in paragraph (1), (2), or (3); or

(5) any officer, agent, or employee of any entity referred to in paragraph (1), (2), (3), or (4) acting as such in the course of his or her official duty.

SEC. 1269. EFFECT ON OTHER REGULATIONS.

Nothing in this subtitle precludes the Commission or a State commission from exercising its jurisdiction under otherwise applicable law to protect utility customers.

SEC. 1270. ENFORCEMENT.

The Commission shall have the same powers as set forth in sections 306 through 317 of the Federal Power Act (16 U.S.C. 825e–825p) to enforce the provisions of this subtitle.

SEC. 1271. SAVINGS PROVISIONS.

(a) IN GENERAL.—Nothing in this subtitle, or otherwise in the Public Utility Holding Company Act of 1935, or rules, regulations, or orders thereunder, prohibits a person from engaging in or continuing to engage in activities or transactions in which it is legally engaged or authorized to engage on the date of enactment of this Act, if that person continues to comply with the terms (other than an expiration date or termination date) of any such authorization, whether by rule or by order.

(b) EFFECT ON OTHER COMMISSION AUTHORITY.—Nothing in this subtitle limits the authority of the Commission under the Federal Power Act (16 U.S.C. 791a et seq.) or the Natural Gas Act (15 U.S.C. 717 et seq.).

SEC. 1272. IMPLEMENTATION.

Not later than 12 months after the date of enactment of this subtitle, the Commission shall—

(1) issue such regulations as may be necessary or appropriate to implement this subtitle (other than section 1265, relating to State access to books and records); and

(2) submit to Congress detailed recommendations on technical and conforming amendments to Federal law necessary to carry out this subtitle and the amendments made by this subtitle.

SEC. 1273. TRANSFER OF RESOURCES.

All books and records that relate primarily to the functions transferred to the Commission under this subtitle shall be transferred from the Securities and Exchange Commission to the Commission.

SEC. 1274. EFFECTIVE DATE.

(a) IN GENERAL.—Except for section 1272 (relating to implementation), this subtitle shall take effect 12 months after the date of enactment of this subtitle.

(b) COMPLIANCE WITH CERTAIN RULES.—If the Commission approves and makes effective any final rulemaking modifying the standards of conduct governing entities that own, operate, or control facilities for transmission of electricity in interstate commerce or transportation of natural gas in interstate commerce prior to the effective date of this subtitle, any action taken by a public-utility company or utility holding company to comply with the requirements of such rulemaking shall not subject such public-utility company or utility holding company to any regulatory requirement applicable to a holding company under the Public Utility Holding Company Act of 1935 (15 U.S.C. 79 et seq.).

SEC. 1275. SERVICE ALLOCATION.

(a) FERC REVIEW.—In the case of non-power goods or administrative or management services provided by an associate company organized specifically for the purpose of providing such goods or services to any public utility in the same holding company system, at the election of the system or a State commission having jurisdiction over the public utility, the Commission, after the effective date of this subtitle, shall review and authorize the allocation of the costs for such goods or services to the extent relevant to that associate company in order to assure that each allocation is appropriate for the protection of investors and consumers of such public utility.

(b) COST ALLOCATION.—Nothing in this section shall preclude the Commission or a State commission from exercising its jurisdiction under other applicable law with respect to the review or authorization of any costs allocated to a public utility in a holding company system located in the affected State as a result of the acquisition of non-power goods or administrative and management services by such public utility from an associate company organized specifically for that purpose.

(c) RULES.—Not later than 6 months after the date of enactment of this Act, the Commission shall issue rules (which rules shall be effective no earlier than the effective date of this subtitle) to exempt from the requirements of this section any company in a holding company system whose public utility operations are confined substantially to a single State and any other class of transactions that the Commission finds is not relevant to the jurisdictional rates of a public utility.

(d) PUBLIC UTILITY.—As used in this section, the term "public utility" has the meaning given that term in section 201(e) of the Federal Power Act.

SEC. 1276. AUTHORIZATION OF APPROPRIATIONS.

There are authorized to be appropriated such funds as may be necessary to carry out this subtitle.

SEC. 1277. CONFORMING AMENDMENTS TO THE FEDERAL POWER ACT.

(a) CONFLICT OF JURISDICTION.—Section 318 of the Federal Power Act (16 U.S.C. 825q) is repealed.

(b) DEFINITIONS.—(1) Section 201(g)(5) of the Federal Power Act (16 U.S.C. 824(g)(5)) is amended by striking "1935" and inserting "2003".

(2) Section 214 of the Federal Power Act (16 U.S.C. 824m) is amended by striking "1935" and inserting "2003".

Subtitle G—Market Transparency, Enforcement, and Consumer Protection

SEC. 1281. MARKET TRANSPARENCY RULES.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 220. MARKET TRANSPARENCY RULES.

"(a) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Commission shall issue rules establishing an electronic information system to provide the Commission and the public with access to such information as is necessary or appropriate to facilitate price transparency and participation in markets subject to the Commission's jurisdiction under this Act. Such systems shall provide information about the availability and market price of wholesale electric energy and transmission services to the Commission, State commissions, buyers and sellers of wholesale electric energy, users of transmission services, and the public on a timely basis. The Commission shall have authority to obtain such information from any electric utility or transmitting utility, including any entity described in section 201(f).

"(b) EXEMPTIONS.—The Commission shall exempt from disclosure information it determines would, if disclosed, be detrimental to the operation of an effective market or jeopardize system security. This section shall not apply to transactions for the purchase or sale of wholesale electric energy or transmission services within the area described in section 212(k)(2)(A). In determining the information to be made available under this section and time to make such information available, the Commission shall seek to ensure that consumers and competitive markets are protected from the adverse effects of potential collusion or other anti-competitive behaviors that can be facilitated by untimely public disclosure of transaction-specific information.

"(c) COMMODITY FUTURES TRADING COMMISSION.—This section shall not affect the exclusive jurisdiction of the Commodity Futures Trading Commission with respect to accounts, agreements, contracts, or transactions in commodities under the Commodity Exchange Act (7 U.S.C. 1 et seq.). Any request for information to a designated contract market, registered derivatives transaction execution facility, board of trade, exchange, or market involving accounts, agreements, contracts, or transactions in commodities (including natural gas, electricity and other energy commodities) within the exclusive jurisdiction of the Commodity Futures Trading Commission shall be directed to the Commodity Futures Trading Commission.

"(d) SAVINGS PROVISION.—In exercising its authority under this section, the Commission shall not—

"(1) compete with, or displace from the market place, any price publisher; or

"(2) regulate price publishers or impose any requirements on the publication of information.".

SEC. 1282. MARKET MANIPULATION.

Part II of the Federal Power Act (16 U.S.C. 824 et seq.) is amended by adding at the end the following:

"SEC. 221. PROHIBITION ON FILING FALSE INFORMATION.

"No person or other entity (including an entity described in section 201(f)) shall willfully and knowingly report any information relating to the price of electricity sold at wholesale or availability of transmission capacity, which information the person or any other entity knew to be false at the time of the reporting, to a Federal agency with intent to fraudulently affect the data being compiled by such Federal agency.

"SEC. 222. PROHIBITION ON ROUND TRIP TRADING.

"(a) PROHIBITION.—No person or other entity (including an entity described in section 201(f)) shall willfully and knowingly enter into any contract or other arrangement to execute a 'round trip trade' for the purchase or sale of electric energy at wholesale.

"(b) DEFINITION.—For the purposes of this section, the term 'round trip trade' means a transaction, or combination of transactions, in which a person or any other entity—

"(1) enters into a contract or other arrangement to purchase from, or sell to, any other person or other entity electric energy at wholesale;

"(2) simultaneously with entering into the contract or arrangement described in paragraph (1), arranges a financially offsetting trade with such other person or entity for the same such electric energy, at the same location, price, quantity and terms so that, collectively, the purchase and sale transactions in themselves result in no financial gain or loss; and

"(3) enters into the contract or arrangement with a specific intent to fraudulently affect reported revenues, trading volumes, or prices.".

SEC. 1283. ENFORCEMENT.

(a) COMPLAINTS.—Section 306 of the Federal Power Act (16 U.S.C. 825e) is amended as follows:

(1) By inserting "electric utility," after "Any person,".

(2) By inserting ", transmitting utility," after "licensee" each place it appears.

(b) REVIEW OF COMMISSION ORDERS.—Section 313(a) of the Federal Power Act (16 U.S.C. 8251) is amended by inserting 'electric utility,' after 'person,' in the first 2 places it appears and by striking 'any person unless such person' and inserting 'any entity unless such entity'.

(c) INVESTIGATIONS.—Section 307(a) of the Federal Power Act (16 U.S.C. 825f(a)) is amended as follows:

(1) By inserting ', electric utility, transmitting utility, or other entity' after 'person' each time it appears.

(2) By striking the period at the end of the first sentence and inserting the following: "or in obtaining information about the sale of electric energy at wholesale in interstate commerce and the transmission of electric energy in interstate commerce.".

(d) Criminal Penalties.—Section 316 of the Federal Power Act (16 U.S.C. 825o) is amended—

(1) in subsection (a), by striking "$5,000" and inserting "$1,000,000", and by striking "two years" and inserting "5 years";

(2) in subsection (b), by striking "$500" and inserting "$25,000"; and

(3) by striking subsection (c).

(e) Civil Penalties.—Section 316A of the Federal Power Act (16 U.S.C. 825o–1) is amended as follows:

(1) In subsections (a) and (b), by striking "section 211, 212, 213, or 214" each place it appears and inserting "Part II".

(2) In subsection (b), by striking "$10,000" and inserting "$1,000,000".

SEC. 1284. REFUND EFFECTIVE DATE.

Section 206(b) of the Federal Power Act (16 U.S.C. 824e(b)) is amended as follows:

(1) By striking "the date 60 days after the filing of such complaint nor later than 5 months after the expiration of such 60-day period" in the second sentence and inserting "the date of the filing of such complaint nor later than 5 months after the filing of such complaint".

(2) By striking "60 days after" in the third sentence and inserting "of".

(3) By striking "expiration of such 60-day period" in the third sentence and inserting "publication date".

(4) By striking the fifth sentence and inserting the following: "If no final decision is rendered by the conclusion of the 180-day period commencing upon initiation of a proceeding pursuant to this section, the Commission shall state the reasons why it has failed to do so and shall state its best estimate as to when it reasonably expects to make such decision.".

SEC. 1285. REFUND AUTHORITY.

Section 206 of the Federal Power Act (16 U.S.C. 824e) is amended by adding the following new subsection at the end thereof:

"(e)(1) Except as provided in paragraph (2), if an entity described in section 201(f) voluntarily makes a short-term sale of electric energy and the sale violates Commission rules in effect at the time of the sale, such entity shall be subject to the Commission's refund authority under this section with respect to such violation.

"(2) This section shall not apply to—

"(A) any entity that sells less than 8,000,000 megawatt hours of electricity per year; or

"(B) any electric cooperative.

"(3) For purposes of this subsection, the term 'short-term sale' means an agreement for the sale of electric energy at wholesale in interstate commerce that is for a period of 31 days or less (excluding monthly contracts subject to automatic renewal).

"(4) The Commission shall have refund authority under subsection (e)(1) with respect to a voluntary short-term sale of electric energy by the Bonneville Power Administration (in this section 'Bonneville') only if the sale is at an unjust and unreasonable rate and, in that event, may order a refund only for short-term sales made by Bonneville at rates that are higher than the highest just and reasonable rate charged by any other entity for a short-term sale of electric energy in the same geographic market for the same, or most nearly comparable, period as the sale by Bonneville.

"(5) With respect to any Federal power marketing agency or the Tennessee Valley Authority, the Commission shall not assert or exercise any regulatory authority or powers under subsection (e)(1) other than the ordering of refunds to achieve a just and reasonable rate.".

SEC. 1286. SANCTITY OF CONTRACT.

(a) In General.—The Federal Energy Regulatory Commission (in this section, "the Commission") shall have no authority to abrogate or modify any provision of an executed contract or executed contract amendment described in subsection (b) that has been entered into or taken effect, except upon a finding that failure to take such action would be contrary to the public interest.

(b) Limitation.—Except as provided in subsection (c), this section shall apply only to a contract or contract amendment—

(1) executed on or after the date of enactment of this Act; and

(2) entered into—

(A) for the purchase or sale of electric energy under section 205 of the Federal Power Act (16 U.S.C. 824d) where the seller has been authorized by the Commission to charge market-based rates; or

(B) under section 4 of the Natural Gas Act (15 U.S.C. 717c) where the natural gas company has been authorized by the Commission to charge market-based rates for the service described in the contract.

(c) Exclusion.—This section shall not apply to an executed contract or executed contract amendment that expressly provides for a standard of review other than the public interest standard.

(d) Savings Provision.—With respect to contracts to which this section does not apply, nothing in this section alters existing law regarding the applicable standard of review for a contract subject to the jurisdiction of the Commission.

SEC. 1287. CONSUMER PRIVACY AND UNFAIR TRADE PRACTICES.

(a) Privacy.—The Federal Trade Commission may issue rules protecting the privacy of electric consumers from the disclosure of consumer information obtained in connection with the sale or delivery of electric energy to electric consumers.

(b) Slamming.—The Federal Trade Commission may issue rules prohibiting the change of selection of an electric utility except with the informed consent of the electric consumer or if approved by the appropriate State regulatory authority.

(c) Cramming.—The Federal Trade Commission may issue rules prohibiting the sale of goods and services to an electric consumer unless expressly authorized by law or the electric consumer.

(d) Rulemaking.—The Federal Trade Commission shall proceed in accordance with section 553 of title 5, United States Code, when prescribing a rule under this section.

(e) State Authority.—If the Federal Trade Commission determines that a State's regulations provide equivalent or greater protection than the provisions of this section, such State regulations shall apply in that State in lieu of the regulations issued by the Commission under this section.

(f) Definitions.—For purposes of this section:

(1) State regulatory authority.—The term "State regulatory authority" has the meaning given that term in section 3(21) of the Federal Power Act (16 U.S.C. 796(21)).

(2) Electric consumer and electric utility.—The terms "electric consumer" and "electric utility" have the meanings given those terms in section 3 of the Public Utility Regulatory Policies Act of 1978 (16 U.S.C. 2602).

Subtitle H—Merger Reform

SEC. 1291. MERGER REVIEW REFORM AND ACCOUNTABILITY.

(a) Merger Review Reform.—Within 180 days after the date of enactment of this Act, the Secretary of Energy, in consultation with the Federal Energy Regulatory Commission and the Attorney General of the United States, shall prepare, and transmit to Congress each of the following:

(1) A study of the extent to which the authorities vested in the Federal Energy Regulatory Commission under section 203 of the Federal Power Act are duplicative of authorities vested in—

(A) other agencies of Federal and State Government; and

(B) the Federal Energy Regulatory Commission, including under sections 205 and 206 of the Federal Power Act.

(2) Recommendations on reforms to the Federal Power Act that would eliminate any unnecessary duplication in the exercise of regulatory authority or unnecessary delays in the approval (or disapproval) of applications for the sale, lease, or other disposition of public utility facilities.

(b) Merger Review Accountability.—Not later than 1 year after the date of enactment of this Act and annually thereafter, with respect to all orders issued within the preceding year that impose a condition on a sale, lease, or other disposition of public utility facilities under section 203(b) of the Federal Power Act, the Federal Energy Regulatory Commission shall transmit a report to Congress explaining each of the following:

(1) The condition imposed.

(2) Whether the Commission could have imposed such condition by exercising its authority under any provision of the Federal Power Act other than under section 203(b).

(3) If the Commission could not have imposed such condition other than under section 203(b), why the Commission determined that such condition was consistent with the public interest.

SEC. 1292. ELECTRIC UTILITY MERGERS.

(a) Amendment.—Section 203(a) of the Federal Power Act (16 U.S.C. 824b(a)) is amended to read as follows:

"(a)(1) No public utility shall, without first having secured an order of the Commission authorizing it to do so—

"(A) sell, lease, or otherwise dispose of the whole of its facilities subject to the jurisdiction of the Commission, or any part thereof of a value in excess of $10,000,000;

"(B) merge or consolidate, directly or indirectly, such facilities or any part thereof with those of any other person, by any means whatsoever; or

"(C) purchase, acquire, or take any security with a value in excess of $10,000,000 of any other public utility.

"(2) No holding company in a holding company system that includes a public utility shall purchase, acquire, or take any security with a value in excess of $10,000,000 of, or, by any means whatsoever, directly or indirectly, merge or consolidate with, a public utility or a holding company in a holding company system that includes a public utility with a value in excess of $10,000,000 without first having secured an order of the Commission authorizing it to do so.

"(3) Upon receipt of an application for such approval the Commission shall give reasonable notice in writing to the Governor and State commission of each of the States in which the physical property affected, or any part thereof, is situated, and to such other persons as it may deem advisable.

"(4) After notice and opportunity for hearing, the Commission shall approve the proposed disposition, consolidation, acquisition, or change in control, if it finds that the proposed transaction will be consistent with the public interest. In evaluating whether a transaction will be consistent with the public interest, the Commission shall consider whether the proposed transaction—

"(A) will adequately protect consumer interests;

"(B) will be consistent with competitive wholesale markets;

"(C) will impair the financial integrity of any public utility that is a party to the transaction or an associate company of any party to the transaction; and

"(D) satisfies such other criteria as the Commission considers consistent with the public interest.

"(5) The Commission shall, by rule, adopt procedures for the expeditious consideration of applications for the approval of dispositions, consolidations, or acquisitions under this section. Such rules shall identify classes of transactions, or specify criteria for transactions, that normally meet the standards established in paragraph (4). The Commission shall provide expedited review for such transactions. The Commission shall grant or deny any other application for approval of a transaction not later than 180 days after the application is filed. If the Commission does not act within 180 days, such application shall be deemed granted unless the Commission finds, based on good cause, that further consideration is required to determine whether the proposed transaction meets the standards of paragraph (4) and issues an order tolling the time for acting on the application for not more than 180 days, at the end of which additional period the Commission shall grant or deny the application.

"(6) For purposes of this subsection, the terms 'associate company', 'holding company', and 'holding company system' have the meaning given those terms in the Public Utility Holding Company Act of 2003.".

(b) EFFECTIVE DATE.—The amendments made by this section shall take effect 12 months after the date of enactment of this section.

Subtitle I—Definitions

SEC. 1295. DEFINITIONS.

(a) ELECTRIC UTILITY.—Section 3(22) of the Federal Power Act (16 U.S.C. 796(22)) is amended to read as follows:

"(22) ELECTRIC UTILITY.—The term 'electric utility' means any person or Federal or State agency (including any entity described in section 201(f)) that sells electric energy; such term includes the Tennessee Valley Authority and each Federal power marketing administration.".

(b) TRANSMITTING UTILITY.—Section 3(23) of the Federal Power Act (16 U.S.C. 796(23)) is amended to read as follows:

"(23) TRANSMITTING UTILITY.—The term 'transmitting utility' means an entity, including any entity described in section 201(f), that owns, operates, or controls facilities used for the transmission of electric energy—

"(A) in interstate commerce; or

"(B) for the sale of electric energy at wholesale.".

(c) ADDITIONAL DEFINITIONS.—Section 3 of the Federal Power Act (16 U.S.C. 796) is amended by adding at the end the following:

"(26) ELECTRIC COOPERATIVE.—The term 'electric cooperative' means a cooperatively owned electric utility.

"(27) RTO.—The term 'Regional Transmission Organization' or 'RTO' means an entity of sufficient regional scope approved by the Commission to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce and to ensure nondiscriminatory access to such facilities.

"(28) ISO.—The term 'Independent System Operator' or 'ISO' means an entity approved by the Commission to exercise operational or functional control of facilities used for the transmission of electric energy in interstate commerce and to ensure nondiscriminatory access to such facilities.".

(d) COMMISSION.—For the purposes of this title, the term "Commission" means the Federal Energy Regulatory Commission.

(e) APPLICABILITY.—Section 201(f) of the Federal Power Act (16 U.S.C. 824(f)) is amended by adding after "political subdivision of a state," the following: "an electric cooperative that has financing under the Rural Electrification Act of 1936 (7 U.S.C. 901 et seq.) or that sells less than 4,000,000 megawatt hours of electricity per year,".

Subtitle J—Technical and Conforming Amendments

SEC. 1297. CONFORMING AMENDMENTS.

The Federal Power Act is amended as follows:

(1) Section 201(b)(2) of such Act (16 U.S.C. 824(b)(2)) is amended as follows:

(A) In the first sentence by striking "210, 211, and 212" and inserting "203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222".

(B) In the second sentence by striking "210 or 211" and inserting "203(a)(2), 206(e), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222".

(C) Section 201(b)(2) of such Act is amended by striking "The" in the first place it appears and inserting "Notwithstanding section 201(f), the" and in the second sentence after "any order" by inserting "or rule".

(2) Section 201(e) of such Act is amended by striking "210, 211, or 212" and inserting "206(e), 206(f), 210, 211, 211A, 212, 215, 216, 217, 218, 219, 220, 221, and 222".

(3) Section 206 of such Act (16 U.S.C. 824e) is amended as follows:

(A) In subsection (b), in the seventh sentence, by striking "the public utility to make".

(B) In the first sentence of subsection (a), by striking 'hearing had' and inserting "hearing held".

(4) Section 211(c) of such Act (16 U.S.C. 824j(c)) is amended by—

(A) striking "(2)";

(B) striking "(A)" and inserting "(1)"

(C) striking "(B)" and inserting "(2)"; and

(D) striking "termination of modification" and inserting "termination or modification".

(5) Section 211(d)(1) of such Act (16 U.S.C. 824j(d)(1)) is amended by striking "electric utility" the second time it appears and inserting "transmitting utility".

(6) Section 315 (c) of such Act (16 U.S.C. 825n(c)) is amended by striking "subsection" and inserting "section".

TITLE XIII—ENERGY TAX INCENTIVES

SEC. 1300. SHORT TITLE; AMENDMENT OF 1986 CODE.

(a) SHORT TITLE.—This title may be cited as the "Energy Tax Policy Act of 2003".

(b) AMENDMENT OF 1986 CODE.—Except as otherwise expressly provided, whenever in this title an amendment or repeal is expressed in terms of an amendment to, or repeal of, a section or other provision, the reference shall be considered to be made to a section or other provision of the Internal Revenue Code of 1986.

Subtitle A—Conservation

PART I—RESIDENTIAL AND BUSINESS PROPERTY

SEC. 1301. CREDIT FOR RESIDENTIAL ENERGY EFFICIENT PROPERTY.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 (relating to nonrefundable personal credits) is amended by inserting after section 25B the following new section:

"SEC. 25C. RESIDENTIAL ENERGY EFFICIENT PROPERTY.

"(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

"(1) 15 percent of the qualified solar water heating property expenditures made by the taxpayer during such year,

"(2) 15 percent of the qualified photovoltaic property expenditures made by the taxpayer during such year,

"(3) 15 percent of the qualified wind energy property expenditures made by the taxpayer during such year, and

"(4) 20 percent of the qualified fuel cell property expenditures made by the taxpayer during such year.

"(b) LIMITATIONS.—

"(1) MAXIMUM CREDIT.—

"(A) IN GENERAL.—The credit allowed under subsection (a) shall not exceed—

"(i) $2,000 for property described in paragraph (1), (2), or (3) of subsection (c), and

"(ii) $500 for each 0.5 kilowatt of capacity of property described in subsection (c)(4).

"(B) PRIOR EXPENDITURES BY TAXPAYER ON SAME RESIDENCE TAKEN INTO ACCOUNT.—In determining the amount of the credit allowed to a taxpayer with respect to any dwelling unit under this section, the dollar amount under subparagraph (A)(i) with respect to each type of property described in such subparagraph shall be reduced by the credit allowed to the taxpayer under this section with respect to such property for all preceding taxable years with respect to such dwelling unit.

"(2) PROPERTY STANDARDS.—No credit shall be allowed under this section for an item of property unless—

"(A) the original use of such property commences with the taxpayer,

"(B) such property reasonably can be expected to remain in use for at least 5 years,

"(C) such property is installed on or in connection with a dwelling unit located in the United States and used as a residence by the taxpayer,

"(D) in the case of solar water heating property, such property is certified for performance by the non-profit Solar Rating and Certification Corporation or a comparable entity endorsed by the government of the State in which such property is installed,

"(E) in the case of fuel cell property, such property meets the performance and quality standards (if any) which have been prescribed by the Secretary by regulations (after consultation with the Secretary of Energy), and

"(F) in the case of any photovoltaic property, fuel cell property, or wind energy property, such property meets appropriate fire and electric code requirements.

"(c) DEFINITIONS.—For purposes of this section—

"(1) QUALIFIED SOLAR WATER HEATING PROPERTY EXPENDITURE.—The term 'qualified solar water heating property expenditure' means an expenditure for property which uses solar energy to heat water for use in a dwelling unit.

"(2) QUALIFIED PHOTOVOLTAIC PROPERTY EXPENDITURE.—The term 'qualified photovoltaic property expenditure' means an expenditure for property which uses solar energy to generate electricity for use in a dwelling unit and which is not described in paragraph (1).

"(3) QUALIFIED WIND ENERGY PROPERTY EXPENDITURE.—The term 'qualified wind energy property expenditure' means an expenditure for property which uses wind energy to generate electricity for use in a dwelling unit.

"(4) QUALIFIED FUEL CELL PROPERTY EXPENDITURE.—The term 'qualified fuel cell property expenditure' means an expenditure for any qualified fuel cell property (as defined in section 48(c)(1)).

"(d) SPECIAL RULES.—For purposes of this section—

"(1) SOLAR PANELS.—No expenditure relating to a solar panel or other property installed as a roof (or portion thereof) shall fail to be treated as property described in paragraph (1) or (2) of subsection (c) solely because it constitutes a *structural component of the structure on which it is installed.*

"(2) SWIMMING POOLS, ETC., USED AS STORAGE MEDIUM.—Expenditures which are properly allocable to a swimming pool, hot tub, or any other energy storage medium which has a function other than the function of such storage shall not be taken into account for purposes of this section.

"(3) DOLLAR AMOUNTS IN CASE OF JOINT OCCUPANCY.—In the case of any dwelling unit which is jointly occupied and used during any calendar year as a residence by 2 or more individuals, the following rules shall apply:

"(A) The amount of the credit allowable under subsection (a) by reason of expenditures made during such calendar year by any of such individuals with respect to such dwelling unit shall be determined by treating all of such individuals as 1 taxpayer whose taxable year is such calendar year.

"(B) There shall be allowable, with respect to such expenditures to each of such individuals, a credit under subsection (a) for the taxable year in which such calendar year ends in an amount which bears the same ratio to the amount determined under subparagraph (A) as the amount of such expenditures made by such individual during such calendar year bears to the aggregate of such expenditures made by all of such individuals during such calendar year.

"(C) Subparagraphs (A) and (B) shall be applied separately with respect to expenditures described in paragraphs (1), (2), (3), and (4) of subsection (c).

"(4) TENANT-STOCKHOLDER IN COOPERATIVE HOUSING CORPORATION.—In the case of an individual who is a tenant-stockholder (as defined in section 216) in a cooperative housing corporation (as defined in such section), such individual shall be treated as having made the individual's tenant-stockholder's proportionate share (as defined in section 216(b)(3)) of any expenditures of such corporation.

"(5) CONDOMINIUMS.—

"(A) IN GENERAL.—In the case of an individual who is a member of a condominium management association with respect to a condominium which the individual owns, such individual shall be treated as having made the individual's proportionate share of any expenditures of such association.

"(B) CONDOMINIUM MANAGEMENT ASSOCIATION.—For purposes of this paragraph, the term 'condominium management association' means an organization which meets the requirements of paragraph (1) of section 528(c) (other than subparagraph (E) thereof) with respect to a condominium project substantially all of the units of which are used as residences.

"(6) ALLOCATION IN CERTAIN CASES.—Except in the case of qualified wind energy property expenditures, if less than 80 percent of the use of an item is for nonbusiness purposes, only that portion of the expenditures for such item which is properly allocable to use for nonbusiness purposes shall be taken into account.

"(7) WHEN EXPENDITURE MADE; AMOUNT OF EXPENDITURE.—

"(A) IN GENERAL.—Except as provided in subparagraph (B), an expenditure with respect to an item shall be treated as made when the original installation of the item is completed.

"(B) EXPENDITURES PART OF BUILDING CONSTRUCTION.—In the case of an expenditure in connection with the construction or reconstruction of a structure, such expenditure shall be treated as made when the original use of the constructed or reconstructed structure by the taxpayer begins.

"(C) AMOUNT.—The amount of any expenditure shall be the cost thereof.

"(8) PROPERTY FINANCED BY SUBSIDIZED ENERGY FINANCING.—For purposes of determining the amount of expenditures made by any individual with respect to any dwelling unit, there shall not be taken into account expenditures which are made from subsidized energy financing (as defined in section 48(a)(4)(C)).

"(9) DENIAL OF DEPRECIATION ON WIND ENERGY PROPERTY FOR WHICH CREDIT ALLOWED.—No deduction shall be allowed under section 167 for property which uses wind energy to generate electricity if the taxpayer is allowed a credit under this section with respect to such property.

"(e) BASIS ADJUSTMENTS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(f) TERMINATION.—The credit allowed under this section shall not apply to taxable years beginning after December 31, 2006 (December 31, 2008, with respect to qualified photovoltaic property expenditures).".

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a) is amended by striking "and" at the end of paragraph (27), by striking the period at the end of paragraph (28) and inserting ", and", and by adding at the end the following new paragraph:

"(29) to the extent provided in section 25C(e), in the case of amounts with respect to which a credit has been allowed under section 25C.".

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 25B the following new item:

"Sec. 25C. Residential energy efficient property.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after December 31, 2003.

SEC. 1302. EXTENSION AND EXPANSION OF CREDIT FOR ELECTRICITY PRODUCED FROM CERTAIN RENEWABLE RESOURCES.

(a) EXPANSION OF QUALIFIED ENERGY RESOURCES.—Subsection (c) of section 45 (relating to electricity produced from certain renewable resources) is amended to read as follows:

"(c) QUALIFIED ENERGY RESOURCES.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified energy resources' means—

"(A) wind,

"(B) closed-loop biomass,

"(C) open-loop biomass,

"(D) geothermal energy,

"(E) solar energy,

"(F) small irrigation power, and

"(G) municipal solid waste.

"(2) CLOSED-LOOP BIOMASS.—The term 'closed-loop biomass' means any organic material from a plant which is planted exclusively for purposes of being used at a qualified facility to produce electricity.

"(3) OPEN-LOOP BIOMASS.—

"(A) IN GENERAL.—The term 'open-loop biomass' means—

"(i) any agricultural livestock waste nutrients, or

"(ii) any solid, nonhazardous, cellulosic waste material which is segregated from other waste materials and which is derived from—

"(I) any of the following forest-related resources: mill and harvesting residues, precommercial thinnings, slash, and brush,

"(II) solid wood waste materials, including waste pallets, crates, dunnage, manufacturing and construction wood wastes (other than pressure-treated, chemically-treated, or painted wood wastes), and landscape or right-of-way tree trimmings, but not including municipal solid waste, gas derived from the biodegradation of solid waste, or paper which is commonly recycled, or

"(III) agriculture sources, including orchard tree crops, vineyard, grain, legumes, sugar, and other crop by-products or residues.

Such term shall not include closed-loop biomass.

"(B) AGRICULTURAL LIVESTOCK WASTE NUTRIENTS.—

"(i) IN GENERAL.—The term 'agricultural livestock waste nutrients' means agricultural livestock manure and litter, including wood shavings, straw, rice hulls, and other bedding material for the disposition of manure.

"(ii) AGRICULTURAL LIVESTOCK.—The term 'agricultural livestock' includes bovine, swine, poultry, and sheep.

"(4) GEOTHERMAL ENERGY.—The term 'geothermal energy' means energy derived from a geothermal deposit (within the meaning of section 613(e)(2)).

"(5) SMALL IRRIGATION POWER.—The term 'small irrigation power' means power—

"(A) generated without any dam or impoundment of water through an irrigation system canal or ditch, and

"(B) the nameplate capacity rating of which is not less than 150 kilowatts but is less than 5 megawatts.

"(6) MUNICIPAL SOLID WASTE.—The term 'municipal solid waste' has the meaning given the term 'solid waste' under section 2(27) of the Solid Waste Disposal Act (42 U.S.C. 6903).".

(b) EXTENSION AND EXPANSION OF QUALIFIED FACILITIES.—

(1) IN GENERAL.—Section 45 is amended by redesignating subsection (d) as subsection (e) and by inserting after subsection (c) the following new subsection:

"(d) QUALIFIED FACILITIES.—For purposes of this section—

"(1) WIND FACILITY.—In the case of a facility using wind to produce electricity, the term 'qualified facility' means any facility owned by the taxpayer which is originally placed in service after December 31, 1993, and before January 1, 2007.

"(2) CLOSED-LOOP BIOMASS FACILITY.—

"(A) IN GENERAL.—In the case of a facility using closed-loop biomass to produce electricity, the term 'qualified facility' means any facility—

"(i) owned by the taxpayer which is originally placed in service after December 31, 1992, and before January 1, 2007, or

"(ii) owned by the taxpayer which before January 1, 2007, is originally placed in service and modified to use closed-loop biomass to co-fire with coal, with other biomass, or with both, but only if the modification is approved under the Biomass Power for Rural Development Programs or is part of a pilot project of the Commodity Credit Corporation as described in 65 Fed. Reg. 63052.

"(B) SPECIAL RULES.—In the case of a qualified facility described in subparagraph (A)(ii)—

"(i) the 10-year period referred to in subsection (a) shall be treated as beginning no earlier than the date of the enactment of the Energy Tax Policy Act of 2003,

"(ii) the amount of the credit determined under subsection (a) with respect to the facility shall be an amount equal to the amount determined without regard to this clause multiplied by the ratio of the thermal content of the closed-loop biomass used in such facility to the thermal content of all fuels used in such facility, and

"(iii) if the owner of such facility is not the producer of the electricity, the person eligible for the credit allowable under subsection (a) shall be the lessee or the operator of such facility.

"(3) OPEN-LOOP BIOMASS FACILITIES.—

"(A) IN GENERAL.—In the case of a facility using open-loop biomass to produce electricity, the term 'qualified facility' means any facility owned by the taxpayer which—

"(i) in the case of a facility using agricultural livestock waste nutrients—

"(I) is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2003 and before January 1, 2007, and

"(II) the nameplate capacity rating of which is not less than 150 kilowatts, and

"(ii) in the case of any other facility, is originally placed in service before January 1, 2007.

"(B) CREDIT ELIGIBILITY.—In the case of any facility described in subparagraph (A), if the owner of such facility is not the producer of the electricity, the person eligible for the credit allowable under subsection (a) shall be the lessee or the operator of such facility.

"(4) GEOTHERMAL OR SOLAR ENERGY FACILITY.—In the case of a facility using geothermal or solar energy to produce electricity, the term 'qualified facility' means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2003 and before January 1, 2007. Such term shall not include any property described in section 48(a)(3) the basis of which is taken into account by the taxpayer for purposes of determining the energy credit under section 48.

"(5) SMALL IRRIGATION POWER FACILITY.—In the case of a facility using small irrigation power to produce electricity, the term 'qualified facility' means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2003 and before January 1, 2007.

"(6) LANDFILL GAS FACILITIES.—In the case of a facility producing electricity from gas derived from the biodegradation of municipal solid waste, the term 'qualified facility' means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2003 and before January 1, 2007.

"(7) TRASH COMBUSTION FACILITIES.—In the case of a facility which burns municipal solid waste to produce electricity, the term 'qualified facility' means any facility owned by the taxpayer which is originally placed in service after the date of the enactment of the Energy Tax Policy Act of 2003 and before January 1, 2007.".

(2) CONFORMING AMENDMENT.—Section 45(e), as so redesignated, is amended by striking "subsection (c)(3)(A)" in paragraph (7)(A)(i) and inserting "subsection (d)(1)".

(c) SPECIAL CREDIT RATE AND PERIOD FOR ELECTRICITY PRODUCED AND SOLD AFTER ENACTMENT DATE.—Section 45(b) is amended by adding at the end the following new paragraph:

"(4) CREDIT RATE AND PERIOD FOR ELECTRICITY PRODUCED AND SOLD FROM CERTAIN FACILITIES.—

"(A) CREDIT RATE.—In the case of electricity produced and sold in any calendar year after 2003 at any qualified facility described in paragraph (3), (5), (6), or (7) of subsection (d), the amount in effect under subsection (a)(1) for such calendar year (determined before the application of the last sentence of paragraph (2) of this subsection) shall be reduced by one-third.

"(B) CREDIT PERIOD.—

"(i) IN GENERAL.—Except as provided in clause (ii), in the case of any facility described in paragraph (3), (4), (5), (6), or (7) of subsection (d), the 5-year period beginning on the date the facility was originally placed in service shall be substituted for the 10-year period in subsection (a)(2)(A)(ii).

"(ii) CERTAIN OPEN-LOOP BIOMASS FACILITIES.—In the case of any facility described in subsection (d)(3)(A)(ii) placed in service before the date of the enactment of this paragraph, the 5-year period beginning on January 1, 2004, shall be substituted for the 10-year period in subsection (a)(2)(A)(ii).".

(d) COORDINATION WITH OTHER CREDITS.—Section 45(e), as so redesignated, is amended by adding at the end the following new paragraph:

"(8) COORDINATION WITH OTHER CREDITS.—The term 'qualified facility' shall not include—

"(A) any property with respect to which a credit is allowed under section 25C, and

"(B) any facility the production from which is allowed as a credit under section 45K,

for the taxable year or any prior taxable year.".

(e) COORDINATION WITH SECTION 48.—Section 48(a)(3) (defining energy property) is amended by adding at the end the following new sentence: "Such term shall not include any property which is part of a facility the production from which is allowed as a credit under section 45 for the taxable year or any prior taxable year.".

(f) ELIMINATION OF CERTAIN CREDIT REDUCTIONS.—Section 45(b)(3) (relating to credit reduced for grants, tax-exempt bonds, subsidized energy financing, and other credits) is amended—

(1) by inserting "the lesser of ½ or" before "a fraction" in the matter preceding subparagraph (A), and

(2) by adding at the end the following new sentence: "This paragraph shall not apply with respect to any facility described in subsection (d)(2)(A)(ii).".

(g) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as otherwise provided in this subsection, the amendments made by this section shall apply to electricity produced and sold after the date of the enactment of this Act, in taxable years ending after such date.

(2) CERTAIN BIOMASS FACILITIES.—With respect to any facility described in section 45(d)(3)(A)(ii) of the Internal Revenue Code of 1986, as added by subsection (b)(1), which is placed in service before the date of the enactment of this Act, the amendments made by this section shall apply to electricity produced and sold after December 31, 2003, in taxable years ending after such date.

(3) CREDIT RATE AND PERIOD FOR NEW FACILITIES.—The amendments made by subsection (c) shall apply to electricity produced and sold after December 31, 2003, in taxable years ending after such date.

(4) NONAPPLICATION OF AMENDMENTS TO PREEFFECTIVE DATE POULTRY WASTE FACILITIES.—The amendments made by this section shall not apply with respect to any poultry waste facility (within the meaning of section 45(c)(3)(C), as in effect on the day before the date of the enactment of this Act) placed in service before January 1, 2004.

(h) GAO STUDY.—The Comptroller General of the United States shall conduct a study on the market viability of producing electricity from resources with respect to which credit is allowed under section 45 of the Internal Revenue Code of 1986 but without such credit. In the case of open-loop biomass and municipal solid waste resources, the study should take into account savings associated with not having to dispose of such resources. In conducting such study, the Comptroller shall estimate the dollar value of the environmental impact of producing electricity from such resources relative to producing electricity from fossil fuels using the latest generation of technology. Not later than June 30, 2006, the Comptroller shall report on such study to the Committee on Ways and Means of the House of Representatives and the Committee on Finance of the Senate.

SEC. 1303. CREDIT FOR BUSINESS INSTALLATION OF QUALIFIED FUEL CELLS.

(a) IN GENERAL.—Section 48(a)(3)(A) (defining energy property) is amended by striking "or" at the end of clause (i), by adding "or" at the end of clause (ii), and by inserting after clause (ii) the following new clause:

"(iii) qualified fuel cell property,".

(b) QUALIFIED FUEL CELL PROPERTY.—Section 48 (relating to energy credit; reforestation credit) is amended by adding at the end the following new subsection:

"(c) QUALIFIED FUEL CELL PROPERTY.—For purposes of subsection (a)(3)(A)(iii)—

"(1) IN GENERAL.—The term 'qualified fuel cell property' means a fuel cell power plant which generates at least 0.5 kilowatt of electricity using an electrochemical process.

"(2) LIMITATION.—The energy credit with respect to any qualified fuel cell property shall not exceed an amount equal to $500 for each 0.5 kilowatt of capacity of such property.

"(3) FUEL CELL POWER PLANT.—The term 'fuel cell power plant' means an integrated system, comprised of a fuel cell stack assembly and associated balance of plant components, which converts a fuel into electricity using electrochemical means.

"(4) TERMINATION.—The term 'qualified fuel cell property' shall not include any property placed in service after December 31, 2006.".

(c) ENERGY PERCENTAGE.—Subparagraph (A) of section 48(a)(2) (relating to energy percentage) is amended to read as follows:

"(A) IN GENERAL.—The energy percentage is—

"(i) in the case of qualified fuel cell property, 20 percent, and

"(ii) in the case of any other energy property, 10 percent.".

(d) CONFORMING AMENDMENT.—Section 48(a)(1) is amended by inserting "except as provided in subsection (c)(2)," before "the energy".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after December 31, 2003, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1304. CREDIT FOR ENERGY EFFICIENCY IMPROVEMENTS TO EXISTING HOMES.

(a) IN GENERAL.—Subpart A of part IV of subchapter A of chapter 1 (relating to nonrefundable personal credits), as amended by this Act, is amended by inserting after section 25C the following new section:

"SEC. 25D. ENERGY EFFICIENCY IMPROVEMENTS TO EXISTING HOMES.

"(a) ALLOWANCE OF CREDIT.—In the case of an individual, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to 20 percent of the amount paid or incurred by the taxpayer for qualified energy efficiency improvements installed during such taxable year.

"(b) LIMITATIONS.—

"(1) MAXIMUM CREDIT.—The credit allowed by this section with respect to a dwelling unit shall not exceed $2,000.

"(2) PRIOR CREDIT AMOUNTS FOR TAXPAYER ON SAME DWELLING TAKEN INTO ACCOUNT.—If a credit was allowed to the taxpayer under subsection (a) with respect to a dwelling unit in 1 or more prior taxable years, the amount of the credit otherwise allowable for the taxable year with respect to that dwelling unit shall be reduced by the sum of the credits allowed under subsection (a) to the taxpayer with respect to the dwelling unit for all prior taxable years.

"(c) QUALIFIED ENERGY EFFICIENCY IMPROVEMENTS.—For purposes of this section, the term 'qualified energy efficiency improvements' means any energy efficient building envelope component which meets the prescriptive criteria for such component established by the 2000 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of this section (or, in the case of a metal roof with appropriate pigmented coatings which meet the Energy Star program requirements), if—

"(1) such component is installed in or on a dwelling unit—

"(A) located in the United States,

"(B) owned and used by the taxpayer as the taxpayer's principal residence (within the meaning of section 121), and

"(C) which has not been treated as a qualified new energy efficient home for purposes of any credit allowed under section 45G,

"(2) the original use of such component commences with the taxpayer, and

"(3) such component reasonably can be expected to remain in use for at least 5 years.

If the aggregate cost of such components with respect to any dwelling unit exceeds $1,000, such components shall be treated as qualified energy efficiency improvements only if such components are also certified in accordance with subsection (d) as meeting such prescriptive criteria.

"(d) CERTIFICATION.—The certification described in subsection (c) shall be—

"(1) determined on the basis of the technical specifications or applicable ratings (including product labeling requirements) for the measurement of energy efficiency (based upon energy use or building envelope component performance) for the energy efficient building envelope component,

"(2) provided by a local building regulatory authority, a utility, a manufactured home production inspection primary inspection agency (IPIA), or an accredited home energy rating system provider who is accredited by or otherwise authorized to use approved energy performance measurement methods by the Residential Energy Services Network (RESNET), and

"(3) made in writing in a manner which specifies in readily verifiable fashion the energy efficient building envelope components installed and their respective energy efficiency levels.

"(e) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) BUILDING ENVELOPE COMPONENT.—The term 'building envelope component' means—

"(A) any insulation material or system which is specifically and primarily designed to reduce the heat loss or gain of a dwelling unit when installed in or on such dwelling unit,

"(B) exterior windows (including skylights),

"(C) exterior doors, and

"(D) any metal roof installed on a dwelling unit, but only if such roof has appropriate pigmented coatings which are specifically and primarily designed to reduce the heat gain of such dwelling unit.

"(2) MANUFACTURED HOMES INCLUDED.—The term 'dwelling unit' includes a manufactured home which conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations).

"(3) APPLICATION OF RULES.—Rules similar to the rules under paragraphs (3), (4), and (5) of section 25C(d) shall apply.

"(f) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so allowed.

"(g) APPLICATION OF SECTION.—This section shall apply to qualified energy efficiency improvements installed after December 31, 2003, and before January 1, 2007.".

(b) CONFORMING AMENDMENTS.—

(1) Subsection (a) of section 1016, as amended by this Act, is amended by striking "and" at the end of paragraph (28), by striking the period at the end of paragraph (29) and inserting ", and", and by adding at the end the following new paragraph:

"(30) to the extent provided in section 25D(f), in the case of amounts with respect to which a credit has been allowed under section 25D.".

(2) The table of sections for subpart A of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 25C the following new item:

"Sec. 25D. Energy efficiency improvements to existing homes.".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after December 31, 2003.

SEC. 1305. CREDIT FOR CONSTRUCTION OF NEW ENERGY EFFICIENT HOMES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits) is amended by adding at the end the following new section:

"SEC. 45G. NEW ENERGY EFFICIENT HOME CREDIT.

"(a) IN GENERAL.—For purposes of section 38, in the case of an eligible contractor with respect to a qualified new energy efficient home, the credit determined under this section for the taxable year with respect to such home is an amount equal to the aggregate adjusted bases of all energy efficient property installed in such home during construction of such home.

"(b) LIMITATIONS.—

"(1) MAXIMUM CREDIT.—

"(A) IN GENERAL.—The credit allowed by this section with respect to a dwelling unit shall not exceed—

"(i) in the case of a dwelling unit described in clause (i) or (iii) of subsection (c)(3)(D), $1,000, and

"(ii) in the case of a dwelling unit described in subsection (c)(3)(D)(ii), $2,000.

"(B) PRIOR CREDIT AMOUNTS ON SAME DWELLING UNIT TAKEN INTO ACCOUNT.—If a credit was allowed under subsection (a) with respect to a dwelling unit in 1 or more prior taxable years, the amount of the credit otherwise allowable for the taxable year with respect to such dwelling unit shall be reduced by the sum of the credits allowed under subsection (a) with respect to the dwelling unit for all prior taxable years.

"(2) COORDINATION WITH CERTAIN CREDITS.—For purposes of this section—

"(A) the basis of any property referred to in subsection (a) shall be reduced by that portion of the basis of any property which is attributable to qualified rehabilitation expenditures (as defined in section 47(c)(2)) or to the energy percentage of energy property (as determined under section 48(a)), and

"(B) expenditures taken into account under section 47 or 48(a) shall not be taken into account under this section.

"(c) DEFINITIONS.—For purposes of this section—

"(1) ELIGIBLE CONTRACTOR.—The term 'eligible contractor' means—

"(A) the person who constructed the qualified new energy efficient home, or

"(B) in the case of a qualified new energy efficient home which is a manufactured home, the manufactured home producer of such home.

If more than 1 person is described in subparagraph (A) or (B) with respect to any qualified new energy efficient home, such term means the person designated as such by the owner of such home.

"(2) ENERGY EFFICIENT PROPERTY.—The term 'energy efficient property' means any energy efficient building envelope component, and any energy efficient heating or cooling equipment or system, which can, individually or in combination with other components, result in a dwelling unit meeting the requirements of this section.

"(3) QUALIFIED NEW ENERGY EFFICIENT HOME.—The term 'qualified new energy efficient home' means a dwelling unit—

"(A) located in the United States,

"(B) the construction of which is substantially completed after December 31, 2003,

"(C) the original use of which, after such construction, is reasonably expected to be as a residence by the person who acquires such dwelling unit from the eligible contractor,

"(D) which is—

"(i) certified to have a level of annual heating and cooling energy consumption which is at least 30 percent below the annual level of heating and cooling energy consumption of a comparable dwelling unit constructed in accordance with the standards of chapter 4 of the 2000 International Energy Conservation Code, as such Code (including supplements) is in effect on the date of the enactment of this section, and to have building envelope component improvements account for at least $\frac{1}{3}$ of such 30 percent,

"(ii) certified to have a level of annual heating and cooling energy consumption which is at least 50 percent below such annual level and to have building envelope component improvements account for at least $\frac{1}{5}$ of such 50 percent, or

"(iii) a manufactured home which—

"(I) conforms to Federal Manufactured Home Construction and Safety Standards (section 3280 of title 24, Code of Federal Regulations), and

"(II) meets the applicable standards required by the Administrator of the Environmental Protection Agency under the Energy Star Labeled Homes program.

"(4) CONSTRUCTION.—The term 'construction' includes substantial reconstruction and rehabilitation.

"(5) ACQUIRE.—The term 'acquire' includes purchase and, in the case of reconstruction and rehabilitation, such term includes a binding written contract for such reconstruction or rehabilitation.

"(6) BUILDING ENVELOPE COMPONENT.—The term 'building envelope component' means—

"(A) any insulation material or system which is specifically and primarily designed to reduce the heat loss or gain of a dwelling unit when installed in or on such dwelling unit,

"(B) exterior windows (including skylights),

"(C) exterior doors, and

"(D) any metal roof installed on a dwelling unit, but only if such roof has appropriate pigmented coatings which—

"(i) are specifically and primarily designed to reduce the heat gain of such dwelling unit, and

"(ii) meet the Energy Star program requirements.

"(d) CERTIFICATION.—

"(1) METHOD OF CERTIFICATION.—A certification described in subsection (c)(3)(D) shall be determined in accordance with guidance prescribed by the Secretary. Such guidance shall specify procedures and methods for calculating energy and cost savings.

"(2) FORM.—A certification described in subsection (c)(3)(D) shall be made in writing—

"(A) in a manner which specifies in readily verifiable fashion the energy efficient building envelope components and energy efficient heating or cooling equipment installed and their respective rated energy efficiency performance, and

"(B) in the case of a qualified new energy efficient home which is a manufactured home, accompanied by such documentation as required by the Administrator of the Environmental Protection Agency under the Energy Star Labeled Homes program.

"(e) BASIS ADJUSTMENT.—For purposes of this subtitle, if a credit is determined under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so determined.

"(f) APPLICATION OF SECTION.—Subsection (a) shall apply to qualified new energy efficient homes acquired during the period beginning on January 1, 2004, and ending on December 31, 2006.".

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Section 38(b) (relating to current year

business credit) is amended by striking "plus" at the end of paragraph (14), by striking the period at the end of paragraph (15) and inserting ", plus", and by adding at the end the following new paragraph:

"(16) the new energy efficient home credit determined under section 45G(a).".

(c) Basis Adjustment.—Subsection (a) of section 1016, as amended by this Act, is amended by striking "and" at the end of paragraph (29), by striking the period at the end of paragraph (30) and inserting ", and", and by adding at the end the following new paragraph:

"(31) to the extent provided in section 45G(e), in the case of amounts with respect to which a credit has been allowed under section 45G.".

(d) Limitation on Carryback.—

(1) In general.—Subsection (d) of section 39 is amended to read as follows:

"(d) Transitional Rule.—No portion of the unused business credit for any taxable year which is attributable to a credit specified in section 38(b) or any portion thereof may be carried back to any taxable year before the first taxable year for which such specified credit or such portion is allowable (without regard to subsection (a)).".

(2) Effective date.—The amendment made by paragraph (1) shall apply with respect to taxable years ending after December 31, 2002.

(e) Deduction for Certain Unused Business Credits.—Section 196(c) (defining qualified business credits) is amended by striking "and" at the end of paragraph (10), by striking the period at the end of paragraph (11) and inserting ", and", and by adding after paragraph (11) the following new paragraph:

"(12) the new energy efficient home credit determined under section 45G(a).".

(f) Clerical Amendment.—The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by adding at the end the following new item:

"Sec. 45G. New energy efficient home credit.".

(g) Effective Date.—The amendments made by this section shall apply to taxable years ending after December 31, 2003.

SEC. 1306. ENERGY CREDIT FOR COMBINED HEAT AND POWER SYSTEM PROPERTY.

(a) In General.—Section 48(a)(3)(A) (defining energy property), as amended by this Act, is amended by striking "or" at the end of clause (ii), by adding "or" at the end of clause (iii), and by inserting after clause (iii) the following new clause:

"(iv) combined heat and power system property,".

(b) Combined Heat and Power System Property.—Section 48 (relating to energy credit; reforestation credit), as amended by this Act, is amended by adding at the end the following new subsection:

"(d) Combined Heat and Power System Property.—For purposes of subsection (a)(3)(A)(iv)—

"(1) Combined heat and power system property.—The term 'combined heat and power system property' means property comprising a system—

"(A) which uses the same energy source for the simultaneous or sequential generation of electrical power, mechanical shaft power, or both, in combination with the generation of steam or other forms of useful thermal energy (including heating and cooling applications),

"(B) which has an electrical capacity of not more than 15 megawatts or a mechanical energy capacity of not more than 2,000 horsepower or an equivalent combination of electrical and mechanical energy capacities,

"(C) which produces—

"(i) at least 20 percent of its total useful energy in the form of thermal energy which is not used to produce electrical or mechanical power (or combination thereof), and

"(ii) at least 20 percent of its total useful energy in the form of electrical or mechanical power (or combination thereof),

"(D) the energy efficiency percentage of which exceeds 60 percent, and

"(E) which is placed in service before January 1, 2007.

"(2) Special rules.—

"(A) Energy efficiency percentage.—For purposes of this subsection, the energy efficiency percentage of a system is the fraction—

"(i) the numerator of which is the total useful electrical, thermal, and mechanical power produced by the system at normal operating rates, and expected to be consumed in its normal application, and

"(ii) the denominator of which is the lower heating value of the fuel sources for the system.

"(B) Determinations made on btu basis.—The energy efficiency percentage and the percentages under paragraph (1)(C) shall be determined on a Btu basis.

"(C) Input and output property not included.—The term 'combined heat and power system property' does not include property used to transport the energy source to the facility or to distribute energy produced by the facility.

"(D) Public utility property.—

"(i) Accounting rule for public utility property.—If the combined heat and power system property is public utility property (as defined in section 168(i)(10)), the taxpayer may only claim the credit under subsection (a) if, with respect to such property, the taxpayer uses a normalization method of accounting.

"(ii) Certain exception not to apply.—The matter in subsection (a)(3) which follows subparagraph (D) thereof shall not apply to combined heat and power system property.

"(3) Systems using bagasse.—If a system is designed to use bagasse for at least 90 percent of the energy source—

"(A) paragraph (1)(D) shall not apply, but

"(B) the amount of credit determined under subsection (a) with respect to such system shall not exceed the amount which bears the same ratio to such amount of credit (determined without regard to this paragraph) as the energy efficiency percentage of such system bears to 60 percent.".

(c) Effective Date.—The amendments made by this subsection shall apply to periods after December 31, 2003, in taxable years ending after such date, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1307. CREDIT FOR ENERGY EFFICIENT APPLIANCES.

(a) In General.—Subpart D of part IV of subchapter A of chapter 1 (relating to business-related credits), as amended by this Act, is amended by adding at the end the following new section:

"SEC. 45H. ENERGY EFFICIENT APPLIANCE CREDIT.

"(a) Allowance of Credit.—For purposes of section 38, the energy efficient appliance credit determined under this section for the taxable year is an amount equal to the sum of—

"(1) the tier I appliance amount, and

"(2) the tier II appliance amount,

with respect to qualified energy efficient appliances produced by the taxpayer during the calendar year ending with or within the taxable year.

"(b) Appliance Amounts.—For purposes of subsection (a)—

"(1) Tier I appliance amount.—The tier I appliance amount is equal to—

"(A) $100, multiplied by

"(B) an amount (rounded to the nearest whole number) equal to the applicable percentage of the eligible production.

"(2) Tier II appliance amount.—The tier II appliance amount is equal to $150, multiplied by an amount equal to the eligible production reduced by the amount determined under paragraph (1)(B).

"(3) Applicable percentage.—The applicable percentage is the percentage determined by dividing the tier I appliances produced by the taxpayer during the calendar year by the sum of the tier I and tier II appliances so produced.

"(4) Eligible production.—The eligible production of qualified energy efficient appliances by the taxpayer for any calendar year is the excess of—

"(A) the number of such appliances which are produced by the taxpayer during such calendar year, over

"(B) 110 percent of the average annual number of such appliances which were produced by the taxpayer (or any predecessor) during the preceding 3-calendar year period.

"(c) Qualified Energy Efficient Appliance.—For purposes of this section—

"(1) In general.—The term 'qualified energy efficient appliance' means any tier I appliance or tier II appliance which is produced in the United States.

"(2) Tier I appliance.—The term 'tier I appliance' means—

"(A) a clothes washer which is produced with at least a 1.50 MEF, and

"(B) a refrigerator which consumes at least 15 percent (20 percent in the case of a refrigerator produced after 2006) less kilowatt hours per year than the energy conservation standards for refrigerators promulgated by the Department of Energy and effective on July 1, 2001.

"(3) Tier II appliance.—The term 'tier II appliance' means a refrigerator produced before 2007 which consumes at least 20 percent less kilowatt hours per year than the energy conservation standards described in paragraph (2)(B).

"(4) Clothes washer.—The term 'clothes washer' means a residential clothes washer, including a residential style coin operated washer.

"(5) Refrigerator.—The term 'refrigerator' means an automatic defrost refrigerator-freezer which has an internal volume of at least 16.5 cubic feet.

"(6) MEF.—The term 'MEF' means Modified Energy Factor (as determined by the Secretary of Energy).

"(7) Produced.—The term 'produced' includes manufactured.

"(d) Limitation on Maximum Credit.—

"(1) In general.—The amount of credit allowed under subsection (a) with respect to a taxpayer for any taxable year shall not exceed $60,000,000, reduced by the amount of the credit allowed under subsection (a) to the taxpayer (or any predecessor) for any prior taxable year.

"(2) Limitation based on gross receipts.—The credit allowed under subsection (a) with respect to a taxpayer for the taxable year shall not exceed an amount equal to 2 percent of the average annual gross receipts of the taxpayer for the 3 taxable years preceding the taxable year for which the credit is determined.

"(3) Gross receipts.—For purposes of this subsection, the rules of paragraphs (2) and (3) of section 448(c) shall apply.

"(e) Special Rules.—For purposes of this section—

"(1) In general.—Rules similar to the rules of subsections (c), (d), and (e) of section 52 shall apply.

"(2) Controlled groups.—

"(A) In general.—All persons treated as a single employer under subsection (a) or (b) of section 52 or subsection (m) or (o) of section 414 shall be treated as a single manufacturer.

"(B) INCLUSION OF FOREIGN CORPORATIONS.—For purposes of subparagraph (A), in applying subsections (a) and (b) of section 52 to this section, section 1563 shall be applied without regard to subsection (b)(2)(C) thereof.

"(f) VERIFICATION.—The taxpayer shall submit such information or certification as the Secretary, after consultation with the Secretary of Energy, determines necessary to claim the credit amount under subsection (a).

"(g) TERMINATION.—This section shall not apply with respect to appliances produced after December 31, 2007.".

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Section 38(b) (relating to current year business credit), as amended by this Act, is amended by striking "plus" at the end of paragraph (15), by striking the period at the end of paragraph (16) and inserting ", plus", and by adding at the end the following new paragraph:

"(17) the energy efficient appliance credit determined under section 45H(a).".

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new item:

"Sec. 45H. Energy efficient appliance credit.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to appliances produced after December 31, 2003, in taxable years ending after such date.

SEC. 1308. ENERGY EFFICIENT COMMERCIAL BUILDINGS DEDUCTION.

(a) IN GENERAL.—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations) is amended by inserting after section 179A the following new section:

"SEC. 179B. ENERGY EFFICIENT COMMERCIAL BUILDINGS DEDUCTION.

"(a) IN GENERAL.—There shall be allowed as a deduction an amount equal to the cost of energy efficient commercial building property placed in service during the taxable year.

"(b) MAXIMUM AMOUNT OF DEDUCTION.—The deduction under subsection (a) with respect to any building for the taxable year and all prior taxable years shall not exceed an amount equal to the product of—

"(1) $1.50, and

"(2) the square footage of the building.

"(c) DEFINITIONS.—For purposes of this section—

"(1) ENERGY EFFICIENT COMMERCIAL BUILDING PROPERTY.—The term 'energy efficient commercial building property' means property—

"(A) which is installed on or in a building—

"(i) which is located in the United States, and

"(ii) which is the type of structure to which the Standard 90.1–2001 is applicable,

"(B) which is installed as part of—

"(i) the lighting systems,

"(ii) the heating, cooling, ventilation, and hot water systems, or

"(iii) the building envelope, and

"(C) which is certified in accordance with subsection (d)(4) as being installed as part of a plan designed to reduce the total annual energy and power costs with respect to the lighting systems, heating, cooling, ventilation, and hot water systems of the building by 50 percent or more in comparison to a reference building which meets the minimum requirements of Standard 90.1–2001 using methods of calculation under subsection (d)(2).

"(2) STANDARD 90.1–2001.—The term 'Standard 90.1–2001' means Standard 90.1–2001 of the American Society of Heating, Refrigerating, and Air Conditioning Engineers and the Illuminating Engineering Society of North America (as in effect on April 2, 2003).

"(d) SPECIAL RULES.—

"(1) PARTIAL ALLOWANCE.—

"(A) IN GENERAL.—Except as provided in subsection (f), in the case of a building placed in service on or before the date of the enactment of this section, if—

"(i) the requirement of subsection (c)(1)(C) is not met, but

"(ii) there is a certification in accordance with subsection (d)(4) that any system referred to in subsection (c)(1)(B) satisfies the energy-savings targets established by the Secretary under subparagraph (B) with respect to such system,

then the requirement of subsection (c)(1)(C) shall be treated as met with respect to such system, and the deduction under subsection (a) shall be allowed with respect to energy efficient commercial building property installed as part of such system and as part of a plan to meet such targets, except that subsection (b) shall be applied to such property by substituting '$.50' for '$1.50'.

"(B) REGULATIONS.—The Secretary, after consultation with the Secretary of Energy, shall establish a target for each system described in subsection (c)(1)(B) which, if such targets were met for all such systems, the building would meet the requirements of subsection (c)(1)(C).

"(2) METHODS OF CALCULATION.—The Secretary, after consultation with the Secretary of Energy, shall promulgate regulations which describe in detail methods for calculating and verifying energy and power cost for purposes of this section.

"(3) NOTICE TO OWNER.—Each certification required under this section shall include an explanation to the building owner regarding the energy efficiency features of the building and its projected annual energy costs.

"(4) CERTIFICATION.—

"(A) IN GENERAL.—The Secretary shall prescribe the manner and method for the making of certifications under this section.

"(B) PROCEDURES.—The Secretary shall include as part of the certification process procedures for inspection and testing by qualified individuals described in subparagraph (C) to ensure compliance of buildings with energy-savings plans and targets. Such procedures shall be—

"(i) comparable, given the difference between commercial and residential buildings, to the requirements in the Mortgage Industry National Accreditation Procedures for Home Energy Rating Systems, and

"(ii) fuel neutral such that the same energy efficiency measures allow a building to be eligible for the deduction under this section regardless of whether such building uses a gas or oil furnace or boiler, an electric heat pump, or other fuel source.

"(C) QUALIFIED INDIVIDUALS.—Individuals qualified to determine compliance shall be only those individuals who are recognized by an organization certified by the Secretary for such purposes.

"(e) BASIS REDUCTION.—For purposes of this subtitle, if a deduction is allowed under this section with respect to any energy efficient commercial building property, the basis of such property shall be reduced by the amount of the deduction so allowed.

"(f) INTERIM RULES FOR LIGHTING SYSTEMS.—Until such time as the Secretary issues final regulations under subsection (d)(1)(B) with respect to property which is part of a lighting system—

"(1) IN GENERAL.—The lighting system target under subsection (d)(1)(A)(ii) shall be a reduction in lighting power density of 25 percent (50 percent in the case of a warehouse) of the minimum requirements in Table 9.3.1.1 or Table 9.3.1.2 (not including additional interior lighting power allowances) of Standard 90.1–2001.

"(2) REDUCTION IN DEDUCTION IF REDUCTION LESS THAN 40 PERCENT.—

"(A) IN GENERAL.—If, with respect to the lighting system of any building other than a warehouse, the reduction in lighting power density of the lighting system is not at least 40 percent, only the applicable percentage of the amount of deduction otherwise allowable under this section with respect to such property shall be allowed.

"(B) APPLICABLE PERCENTAGE.—For purposes of subparagraph (A), the applicable percentage is the number of percentage points (not greater than 100) equal to the sum of—

"(i) 50, and

"(ii) the amount which bears the same ratio to 50 as the excess of the reduction of lighting power density of the lighting system over 25 percentage points bears to 15.

"(C) EXCEPTIONS.—This subsection shall not apply to any system—

"(i) the controls and circuiting of which do not comply fully with the mandatory and prescriptive requirements of Standard 90.1–2001 and which do not include provision for bilevel switching in all occupancies except hotel and motel guest rooms, store rooms, restrooms, and public lobbies, or

"(ii) which does not meet the minimum requirements for calculated lighting levels as set forth in the Illuminating Engineering Society of North America Lighting Handbook, Performance and Application, Ninth Edition, 2000.

"(g) REGULATIONS.—The Secretary shall promulgate such regulations as necessary—

"(1) to take into account new technologies regarding energy efficiency and renewable energy for purposes of determining energy efficiency and savings under this section, and

"(2) to provide for a recapture of the deduction allowed under this section if the plan described in subsection (c)(1)(C) or (d)(1)(A) is not fully implemented.

"(h) TERMINATION.—This section shall not apply with respect to property placed in service after December 31, 2007.".

(b) CONFORMING AMENDMENTS.—

(1) Section 1016(a), as amended by this section, is amended by striking "and" at the end of paragraph (30), by striking the period at the end of paragraph (31) and inserting ", and", and by adding at the end the following new paragraph:

"(32) to the extent provided in section 179B(e).".

(2) Section 1245(a) is amended by inserting "179B," after "179A," both places it appears in paragraphs (2)(C) and (3)(C).

(3) Section 1250(b)(3) is amended by inserting before the period at the end of the first sentence "or by section 179B".

(4) Section 263(a)(1) is amended by striking "or" at the end of subparagraph (G), by striking the period at the end of subparagraph (H) and inserting ", or", and by inserting after subparagraph (H) the following new subparagraph:

"(I) expenditures for which a deduction is allowed under section 179B.".

(5) Section 312(k)(3)(B) is amended by striking "or 179A" each place it appears in the heading and text and inserting ", 179A, or 179B".

(c) CLERICAL AMENDMENT.—The table of sections for part VI of subchapter B of chapter 1 is amended by inserting after section 179A the following new item:

"Sec. 179B. Energy efficient commercial buildings deduction.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act in taxable years ending after such date.

SEC. 1309. THREE-YEAR APPLICABLE RECOVERY PERIOD FOR DEPRECIATION OF QUALIFIED ENERGY MANAGEMENT DEVICES.

(a) IN GENERAL.—Section 168(e)(3)(A) (defining 3-year property) is amended by striking

"and" at the end of clause (ii), by striking the period at the end of clause (iii) and inserting ", and", and by adding at the end the following new clause:

"(iv) any qualified energy management device.".

(b) DEFINITION OF QUALIFIED ENERGY MANAGEMENT DEVICE.—Section 168(i) (relating to definitions and special rules) is amended by inserting at the end the following new paragraph:

"(15) QUALIFIED ENERGY MANAGEMENT DEVICE.—

"(A) IN GENERAL.—The term 'qualified energy management device' means any energy management device which is placed in service before January 1, 2008, by a taxpayer who is a supplier of electric energy or a provider of electric energy services.

"(B) ENERGY MANAGEMENT DEVICE.—For purposes of subparagraph (A), the term 'energy management device' means any meter or metering device which is used by the taxpayer—

"(i) to measure and record electricity usage data on a time-differentiated basis in at least 4 separate time segments per day, and

"(ii) to provide such data on at least a monthly basis to both consumers and the taxpayer.".

(c) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (A)(iii) the following:

"(A)(iv) .... 20".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1310. CREDIT FOR PRODUCTION FROM ADVANCED NUCLEAR POWER FACILITIES.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits), as amended by this Act, is amended by adding after section 45K the following new section:

"SEC. 45L. CREDIT FOR PRODUCTION FROM ADVANCED NUCLEAR POWER FACILITIES.

"(a) GENERAL RULE.—For purposes of section 38, the advanced nuclear power facility production credit of any taxpayer for any taxable year is equal to the product of—

"(1) 1.8 cents, multiplied by

"(2) the kilowatt hours of electricity—

"(A) produced by the taxpayer at an advanced nuclear power facility during the 8-year period beginning on the date the facility was originally placed in service, and

"(B) sold by the taxpayer to an unrelated person during the taxable year.

"(b) NATIONAL LIMITATION.—

"(1) IN GENERAL.—The amount of credit which would (but for this subsection and subsection (c)) be allowed with respect to any facility for any taxable year shall not exceed the amount which bears the same ratio to such amount of credit as—

"(A) the national megawatt capacity limitation allocated to the facility, bears to

"(B) the total megawatt nameplate capacity of such facility.

"(2) AMOUNT OF NATIONAL LIMITATION.—The national megawatt capacity limitation shall be 6,000 megawatts.

"(3) ALLOCATION OF LIMITATION.—The Secretary shall allocate the national megawatt capacity limitation in such manner as the Secretary may prescribe.

"(4) REGULATIONS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this subsection. Such regulations shall provide a certification process under which the Secretary, after consultation with the Secretary of Energy, shall approve and allocate the national megawatt capacity limitation.

"(c) OTHER LIMITATIONS.—

"(1) ANNUAL LIMITATION.—The amount of the credit allowable under subsection (a) (after the application of subsection (b)) for any taxable year with respect to any facility shall not exceed an amount which bears the same ratio to $125,000,000 as—

"(A) the national megawatt capacity limitation allocated under subsection (b) to the facility, bears to

"(B) 1,000.

"(2) OTHER LIMITATIONS.—Rules similar to the rules of section 45(b) shall apply for purposes of this section, except that paragraph (2) thereof shall not apply to the 1.8 cents under subsection (a)(1).

"(d) ADVANCED NUCLEAR POWER FACILITY.—For purposes of this section—

"(1) IN GENERAL.—The term 'advanced nuclear power facility' means any advanced nuclear facility—

"(A) which is owned by the taxpayer and which uses nuclear energy to produce electricity, and

"(B) which is placed in service after the date of the enactment of this paragraph and before January 1, 2021.

"(2) ADVANCED NUCLEAR FACILITY.—For purposes of paragraph (1), the term 'advanced nuclear facility' means any nuclear facility the reactor design for which is approved after the date of the enactment of this paragraph by the Nuclear Regulatory Commission (and such design or a substantially similar design of comparable capacity was not approved on or before such date).

"(e) OTHER RULES TO APPLY.—Rules similar to the rules of paragraphs (1), (2), (3), (4), and (5) of section 45(e) shall apply for purposes of this section."

(b) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b), as amended by this Act, is amended by striking "plus" at the end of paragraph (20), by striking the period at the end of paragraph (21) and inserting ", plus", and by adding at the end the following:

"(22) the advanced nuclear power facility production credit determined under section 45L(a).".

(c) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following:

"Sec. 45L. Credit for production from advanced nuclear power facilities.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to production in taxable years beginning after December 31, 2003.

PART II—FUELS AND ALTERNATIVE MOTOR VEHICLES

SEC. 1311. REPEAL OF 4.3-CENT MOTOR FUEL EXCISE TAXES ON RAILROADS AND INLAND WATERWAY TRANSPORTATION WHICH REMAIN IN GENERAL FUND.

(a) TAXES ON TRAINS.—

(1) IN GENERAL.—Subparagraph (A) of section 4041(a)(1) is amended by striking "or a diesel-powered train" each place it appears and by striking "or train".

(2) CONFORMING AMENDMENTS.—

(A) Subparagraph (C) of section 4041(a)(1) is amended by striking clause (ii) and by redesignating clause (iii) as clause (ii).

(B) Subparagraph (C) of section 4041(b)(1) is amended by striking all that follows "section 6421(e)(2)" and inserting a period.

(C) Subsection (d) of section 4041 is amended by redesignating paragraph (3) as paragraph (4) and by inserting after paragraph (2) the following new paragraph:

"(3) DIESEL FUEL USED IN TRAINS.—There is hereby imposed a tax of 0.1 cent per gallon on any liquid other than gasoline (as defined in section 4083)—

"(A) sold by any person to an owner, lessee, or other operator of a diesel-powered train for use as a fuel in such train, or

"(B) used by any person as a fuel in a diesel-powered train unless there was a taxable sale of such fuel under subparagraph (A).

No tax shall be imposed by this paragraph on the sale or use of any liquid if tax was imposed on such liquid under section 4081.".

(D) Subsection (f) of section 4082 is amended by striking "section 4041(a)(1)" and inserting "subsections (d)(3) and (a)(1) of section 4041, respectively".

(E) Paragraph (3) of section 4083(a) is amended by striking "or a diesel-powered train".

(F) Paragraph (3) of section 6421(f) is amended to read as follows:

"(3) GASOLINE USED IN TRAINS.—In the case of gasoline used as a fuel in a train, this section shall not apply with respect to the Leaking Underground Storage Tank Trust Fund financing rate under section 4081.".

(G) Paragraph (3) of section 6427(l) is amended to read as follows:

"(3) REFUND OF CERTAIN TAXES ON FUEL USED IN DIESEL-POWERED TRAINS.—For purposes of this subsection, the term 'nontaxable use' includes fuel used in a diesel-powered train. The preceding sentence shall not apply to the tax imposed by section 4041(d) and the Leaking Underground Storage Tank Trust Fund financing rate under section 4081 except with respect to fuel sold for exclusive use by a State or any political subdivision thereof.".

(b) FUEL USED ON INLAND WATERWAYS.—

(1) IN GENERAL.—Paragraph (1) of section 4042(b) is amended by adding "and" at the end of subparagraph (A), by striking ", and" at the end of subparagraph (B) and inserting a period, and by striking subparagraph (C).

(2) CONFORMING AMENDMENT.—Paragraph (2) of section 4042(b) is amended by striking subparagraph (C).

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2004.

SEC. 1312. REDUCED MOTOR FUEL EXCISE TAX ON CERTAIN MIXTURES OF DIESEL FUEL.

(a) IN GENERAL.—Paragraph (2) of section 4081(a) is amended by adding at the end the following:

"(C) DIESEL-WATER FUEL EMULSION.—In the case of diesel-water fuel emulsion at least 14 percent of which is water and with respect to which the emulsion additive is registered by a United States manufacturer with the Environmental Protection Agency pursuant to section 211 of the Clean Air Act (as in effect on March 31, 2003), subparagraph (A)(iii) shall be applied by substituting '19.7 cents' for '24.3 cents'.".

(b) SPECIAL RULES FOR DIESEL-WATER FUEL EMULSIONS.—

(1) REFUNDS FOR TAX-PAID PURCHASES.—Section 6427 is amended by redesignating subsections (m) through (p) as subsections (n) through (q), respectively, and by inserting after subsection (l) the following new subsection:

"(m) DIESEL FUEL USED TO PRODUCE EMULSION.—

"(1) IN GENERAL.—Except as provided in subsection (k), if any diesel fuel on which tax was imposed by section 4081 at the regular tax rate is used by any person in producing an emulsion described in section 4081(a)(2)(C) which is sold or used in such person's trade or business, the Secretary shall pay (without interest) to such person an amount equal to the excess of the regular tax rate over the incentive tax rate with respect to such fuel.

"(2) DEFINITIONS.—For purposes of paragraph (1)—

"(A) REGULAR TAX RATE.—The term 'regular tax rate' means the aggregate rate of tax imposed by section 4081 determined without regard to section 4081(a)(2)(C).

"(B) INCENTIVE TAX RATE.—The term 'incentive tax rate' means the aggregate rate of tax imposed by section 4081 determined with regard to section 4081(a)(2)(C).".

(2) LATER SEPARATION OF FUEL.—

(A) IN GENERAL.—Section 4081 (relating to imposition of tax) is amended by redesignating subsections (d) and (e) as subsections (e) and (f), respectively, and by inserting after subsection (c) the following new subsection:

"(d) LATER SEPARATION OF FUEL FROM DIESEL-WATER FUEL EMULSION.—If any person separates the taxable fuel from a diesel-water fuel emulsion on which tax was imposed under subsection (a) at a rate determined under subsection (a)(2)(C) (or with respect to which a credit or payment was allowed or made by reason of section 6427), such person shall be treated as the refiner of such taxable fuel. The amount of tax imposed on any removal of such fuel by such person shall be reduced by the amount of tax imposed (and not credited or refunded) on any prior removal or entry of such fuel.".

(B) CONFORMING AMENDMENT.—Subsection (d) of section 6416 is amended by striking "section 4081(e)" and inserting "section 4081(f)".

(c) EFFECTIVE DATE.—The amendments made by this section shall take effect on January 1, 2004.

SEC. 1313. SMALL ETHANOL PRODUCER CREDIT.

(a) ALLOCATION OF ALCOHOL FUELS CREDIT TO PATRONS OF A COOPERATIVE.—Section 40(g) (relating to definitions and special rules for eligible small ethanol producer credit) is amended by adding at the end the following new paragraph:

"(6) ALLOCATION OF SMALL ETHANOL PRODUCER CREDIT TO PATRONS OF COOPERATIVE.—

"(A) ELECTION TO ALLOCATE.—

"(i) IN GENERAL.—In the case of a cooperative organization described in section 1381(a), any portion of the credit determined under subsection (a)(3) for the taxable year may, at the election of the organization, be apportioned pro rata among patrons of the organization on the basis of the quantity or value of business done with or for such patrons for the taxable year.

"(ii) FORM AND EFFECT OF ELECTION.—An election under clause (i) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year.

"(B) TREATMENT OF ORGANIZATIONS AND PATRONS.—The amount of the credit apportioned to patrons under subparagraph (A)—

"(i) shall not be included in the amount determined under subsection (a) with respect to the organization for the taxable year, and

"(ii) shall be included in the amount determined under subsection (a) for the taxable year of each patron for which the patronage dividends for the taxable year described in subparagraph (A) are included in gross income.

"(C) SPECIAL RULE.—If the amount of a credit which has been apportioned to any patron under this paragraph is decreased for any reason—

"(i) such amount shall not increase the tax imposed on such patron, and

"(ii) the tax imposed by this chapter on such organization shall be increased by such amount.

The increase under clause (ii) shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.".

(b) DEFINITION OF SMALL ETHANOL PRODUCER.—Section 40(g) (relating to definitions and special rules for eligible small ethanol producer credit) is amended by striking "30,000,000" each place it appears and inserting "60,000,000".

(c) CONFORMING AMENDMENT.—Section 1388 (relating to definitions and special rules for cooperative organizations) is amended by adding at the end the following new subsection:

"(k) CROSS REFERENCE.—

"For provisions relating to the apportionment of the alcohol fuels credit between cooperative organizations and their patrons, see section 40(g)(6).".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2003.

SEC. 1314. INCENTIVES FOR BIODIESEL.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business related credits) is amended by inserting after section 40 the following new section:

"SEC. 40A. BIODIESEL USED AS FUEL.

"(a) GENERAL RULE.—For purposes of section 38, the biodiesel fuels credit determined under this section for the taxable year is an amount equal to the sum of—

"(1) the biodiesel mixture credit, plus

"(2) the biodiesel credit.

"(b) DEFINITION OF BIODIESEL MIXTURE CREDIT AND BIODIESEL CREDIT.—For purposes of this section—

"(1) BIODIESEL MIXTURE CREDIT.—

"(A) IN GENERAL.—The biodiesel mixture credit of any taxpayer for any taxable year is 50 cents for each gallon of biodiesel used by the taxpayer in the production of a qualified biodiesel mixture.

"(B) QUALIFIED BIODIESEL MIXTURE.—The term 'qualified biodiesel mixture' means a mixture of biodiesel and a taxable fuel (within the meaning of section 4083(a)(1)) which—

"(i) is sold by the taxpayer producing such mixture to any person for use as a fuel, or

"(ii) is used as a fuel by the taxpayer producing such mixture.

"(C) SALE OR USE MUST BE IN TRADE OR BUSINESS, ETC.—Biodiesel used in the production of a qualified biodiesel mixture shall be taken into account—

"(i) only if the sale or use described in subparagraph (B) is in a trade or business of the taxpayer, and

"(ii) for the taxable year in which such sale or use occurs.

"(D) CASUAL OFF-FARM PRODUCTION NOT ELIGIBLE.—No credit shall be allowed under this section with respect to any casual off-farm production of a qualified biodiesel mixture.

"(2) BIODIESEL CREDIT.—

"(A) IN GENERAL.—The biodiesel credit of any taxpayer for any taxable year is 50 cents for each gallon of biodiesel which is not in a mixture and which during the taxable year—

"(i) is used by the taxpayer as a fuel in a trade or business, or

"(ii) is sold by the taxpayer at retail to a person and placed in the fuel tank of such person's vehicle.

"(B) USER CREDIT NOT TO APPLY TO BIODIESEL SOLD AT RETAIL.—No credit shall be allowed under subparagraph (A)(i) with respect to any biodiesel which was sold in a retail sale described in subparagraph (A)(ii).

"(3) CREDIT FOR AGRI-BIODIESEL.—In the case of any biodiesel which is agri-biodiesel, paragraphs (1)(A) and (2)(A) shall be applied by substituting '$1.00' for '50 cents'.

"(4) CERTIFICATION FOR BIODIESEL.—No credit shall be allowed under this section unless the taxpayer obtains a certification (in such form and manner as prescribed by the Secretary) from the producer of the biodiesel which identifies the product produced and the percentage of biodiesel and agri-biodiesel in the product.

"(c) COORDINATION WITH CREDIT AGAINST EXCISE TAX.—The amount of the credit determined under this section with respect to any biodiesel shall be properly reduced to take into account any benefit provided with respect to such biodiesel solely by reason of the application of section 6426.

"(d) DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

"(1) BIODIESEL.—The term 'biodiesel' means the monoalkyl esters of long chain fatty acids derived from plant or animal matter which meet—

"(A) the registration requirements for fuels and fuel additives established by the Environmental Protection Agency under section 211 of the Clean Air Act (42 U.S.C. 7545), and

"(B) the requirements of the American Society of Testing and Materials D6751.

"(2) AGRI-BIODIESEL.—The term 'agri-biodiesel' means biodiesel derived solely from virgin oils, including esters derived from virgin vegetable oils from corn, soybeans, sunflower seeds, cottonseeds, canola, crambe, rapeseeds, safflowers, flaxseeds, rice bran, and mustard seeds, and from animal fats.

"(3) MIXTURE OR BIODIESEL NOT USED AS A FUEL, ETC.—

"(A) MIXTURES.—If—

"(i) any credit was determined under this section with respect to biodiesel used in the production of any qualified biodiesel mixture, and

"(ii) any person—

"(I) separates the biodiesel from the mixture, or

"(II) without separation, uses the mixture other than as a fuel,

then there is hereby imposed on such person a tax equal to the product of the rate applicable under subsection (b)(1)(A) and the number of gallons of such biodiesel in such mixture.

"(B) BIODIESEL.—If—

"(i) any credit was determined under this section with respect to the retail sale of any biodiesel, and

"(ii) any person mixes such biodiesel or uses such biodiesel other than as a fuel,

then there is hereby imposed on such person a tax equal to the product of the rate applicable under subsection (b)(2)(A) and the number of gallons of such biodiesel.

"(C) APPLICABLE LAWS.—All provisions of law, including penalties, shall, insofar as applicable and not inconsistent with this section, apply in respect of any tax imposed under subparagraph (A) or (B) as if such tax were imposed by section 4081 and not by this chapter.

"(4) PASS-THRU IN THE CASE OF ESTATES AND TRUSTS.—Under regulations prescribed by the Secretary, rules similar to the rules of subsection (d) of section 52 shall apply.

"(e) TERMINATION.—This section shall not apply to any sale or use after December 31, 2005.".

(b) CREDIT TREATED AS PART OF GENERAL BUSINESS CREDIT.—Section 38(b) (relating to current year business credit) is amended by striking "plus" at the end of paragraph (16), by striking the period at the end of paragraph (17) and inserting ", plus", and by adding at the end the following new paragraph:

"(18) the biodiesel fuels credit determined under section 40A(a).".

(c) CONFORMING AMENDMENTS.—

(1)(A) Section 87 is amended to read as follows:

"SEC. 87. ALCOHOL AND BIODIESEL FUELS CREDITS.

"Gross income includes—

"(1) the amount of the alcohol fuels credit determined with respect to the taxpayer for the taxable year under section 40(a), and

"(2) the biodiesel fuels credit determined with respect to the taxpayer for the taxable year under section 40A(a).".

(B) The item relating to section 87 in the table of sections for part II of subchapter B of chapter

1 is amended by striking "fuel credit" and inserting "and biodiesel fuels credits".

(2) Section 196(c), as amended by this Act, is amended by striking "and" at the end of paragraph (11), by striking the period at the end of paragraph (12) and inserting ", and", and by adding at the end the following new paragraph:

"(13) the biodiesel fuels credit determined under section 40A(a).".

(3) The table of sections for subpart D of part IV of subchapter A of chapter 1 is amended by adding after the item relating to section 40 the following new item:

"Sec. 40A. Biodiesel used as fuel.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to fuel produced, and sold or used, after December 31, 2003, in taxable years ending after such date.

SEC. 1315. ALCOHOL FUEL AND BIODIESEL MIXTURES EXCISE TAX CREDIT.

(a) IN GENERAL.—Subchapter B of chapter 65 (relating to rules of special application) is amended by inserting after section 6425 the following new section:

"SEC. 6426. CREDIT FOR ALCOHOL FUEL AND BIODIESEL MIXTURES.

"(a) ALLOWANCE OF CREDITS.—There shall be allowed as a credit against the tax imposed by section 4081 an amount equal to the sum of—

"(1) the alcohol fuel mixture credit, plus

"(2) the biodiesel mixture credit.

"(b) ALCOHOL FUEL MIXTURE CREDIT.—

"(1) IN GENERAL.—For purposes of this section, the alcohol fuel mixture credit is the product of the applicable amount and the number of gallons of alcohol used by the taxpayer in producing any alcohol fuel mixture for sale or use in a trade or business of the taxpayer.

"(2) APPLICABLE AMOUNT.—For purposes of this subsection—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the applicable amount is 52 cents (51 cents in the case of any sale or use after 2004).

"(B) MIXTURES NOT CONTAINING ETHANOL.—In the case of an alcohol fuel mixture in which none of the alcohol consists of ethanol, the applicable amount is 60 cents.

"(3) ALCOHOL FUEL MIXTURE.—For purposes of this subsection, the term 'alcohol fuel mixture' means a mixture of alcohol and a taxable fuel which—

"(A) is sold by the taxpayer producing such mixture to any person for use as a fuel,

"(B) is used as a fuel by the taxpayer producing such mixture, or

"(C) is removed from the refinery by a person producing such mixture.

"(4) OTHER DEFINITIONS.—For purposes of this subsection—

"(A) ALCOHOL.—The term 'alcohol' includes methanol and ethanol but does not include—

"(i) alcohol produced from petroleum, natural gas, or coal (including peat), or

"(ii) alcohol with a proof of less than 190 (determined without regard to any added denaturants).

Such term also includes an alcohol gallon equivalent of ethyl tertiary butyl ether or other ethers produced from such alcohol.

"(B) TAXABLE FUEL.—The term 'taxable fuel' has the meaning given such term by section 4083(a)(1).

"(5) TERMINATION.—This subsection shall not apply to any sale, use, or removal for any period after December 31, 2010.

"(c) BIODIESEL MIXTURE CREDIT.—

"(1) IN GENERAL.—For purposes of this section, the biodiesel mixture credit is the product of the applicable amount and the number of gallons of biodiesel used by the taxpayer in producing any biodiesel mixture for sale or use in a trade or business of the taxpayer.

"(2) APPLICABLE AMOUNT.—For purposes of this subsection—

"(A) IN GENERAL.—Except as provided in subparagraph (B), the applicable amount is 50 cents.

"(B) AMOUNT FOR AGRI-BIODIESEL.—In the case of any biodiesel which is agri-biodiesel, the applicable amount is $1.00.

"(3) BIODIESEL MIXTURE.—For purposes of this section, the term 'biodiesel mixture' means a mixture of biodiesel and a taxable fuel which—

"(A) is sold by the taxpayer producing such mixture to any person for use as a fuel,

"(B) is used as a fuel by the taxpayer producing such mixture, or

"(C) is removed from the refinery by a person producing such mixture.

"(4) CERTIFICATION FOR BIODIESEL.—No credit shall be allowed under this section unless the taxpayer obtains a certification (in such form and manner as prescribed by the Secretary) from the producer of the biodiesel which identifies the product produced and the percentage of biodiesel and agri-biodiesel in the product.

"(5) OTHER DEFINITIONS.—Any term used in this subsection which is also used in section 40A shall have the meaning given such term by section 40A.

"(6) TERMINATION.—This subsection shall not apply to any sale, use, or removal for any period after December 31, 2005.

"(d) MIXTURE NOT USED AS A FUEL, ETC.—

"(1) IMPOSITION OF TAX.—If—

"(A) any credit was determined under this section with respect to alcohol or biodiesel used in the production of any alcohol fuel mixture or biodiesel mixture, respectively, and

"(B) any person—

"(i) separates the alcohol or biodiesel from the mixture, or

"(ii) without separation, uses the mixture other than as a fuel,

then there is hereby imposed on such person a tax equal to the product of the applicable amount and the number of gallons of such alcohol or biodiesel.

"(2) APPLICABLE LAWS.—All provisions of law, including penalties, shall, insofar as applicable and not inconsistent with this section, apply in respect of any tax imposed under paragraph (1) as if such tax were imposed by section 4081 and not by this section.

"(e) COORDINATION WITH EXEMPTION FROM EXCISE TAX.—Rules similar to the rules under section 40(c) shall apply for purposes of this section.".

(b) REGISTRATION REQUIREMENT.—Section 4101(a) (relating to registration) is amended by inserting "and every person producing biodiesel (as defined in section 40A(d)(1)) or alcohol (as defined in section 6426(b)(4)(A))" after "4091".

(c) ADDITIONAL AMENDMENTS.—

(1) Section 40(c) is amended by striking "or section 4091(c)" and inserting "section 4091(c), or section 6426".

(2) Section 40(e)(1) is amended—

(A) by striking "2007" in subparagraph (A) and inserting "2010", and

(B) by striking "2008" in subparagraph (B) and inserting "2011".

(3) Section 40(h) is amended—

(A) by striking "2007" in paragraph (1) and inserting "2010", and

(B) by striking ", 2006, or 2007" in the table contained in paragraph (2) and inserting "through 2010".

(4)(A) Subpart C of part III of subchapter A of chapter 32 is amended by adding at the end the following new section:

"SEC. 4104. INFORMATION REPORTING FOR PERSONS CLAIMING CERTAIN TAX BENEFITS.

"(a) IN GENERAL.—The Secretary shall require any person claiming tax benefits under the provisions of section 34, 40, 40A, 4041(b)(2), 4041(k), 4081(c), 6426, or 6427(f) to file a quarterly return (in such manner as the Secretary may prescribe) providing such information relating to such benefits and the coordination of such benefits as the Secretary may require to ensure the proper administration and use of such benefits.

"(b) ENFORCEMENT.—With respect to any person described in subsection (a) and subject to registration requirements under this title, rules similar to rules of section 4222(c) shall apply with respect to any requirement under this section.".

(B) The table of sections for subpart C of part III of subchapter A of chapter 32 is amended by adding at the end the following new item:

"Sec. 4104. Information reporting for persons claiming certain tax benefits.".

(5) Section 6427(i)(3) is amended—

(A) by adding at the end of subparagraph (A) the following new flush sentence:

"In the case of an electronic claim, this subparagraph shall be applied without regard to clause (i).", and

(B) by striking "20 days of the date of the filing of such claim" in subparagraph (B) and inserting "45 days of the date of the filing of such claim (20 days in the case of an electronic claim)".

(6) Section 9503(b)(1) is amended by adding at the end the following new flush sentence:

"For purposes of this paragraph, taxes received under sections 4041 and 4081 shall be determined without reduction for credits under section 6426.".

(d) CLERICAL AMENDMENT.—The table of sections for subchapter B of chapter 65 is amended by inserting after the item relating to section 6425 the following new item:

"Sec. 6426. Credit for alcohol fuel and biodiesel mixtures.".

(e) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraphs (2) and (3), the amendments made by this section shall apply to fuel sold, used, or removed after December 31, 2003.

(2) SUBSECTION (c)(4).—The amendments made by subsection (c)(4) shall take effect on January 1, 2004.

(3) SUBSECTION (c)(5).—The amendments made by subsection (c)(5) shall apply to claims filed after December 31, 2004.

(f) FORMAT FOR FILING.—The Secretary of the Treasury shall prescribe the electronic format for filing claims described in section 6427(i)(3)(B) of the Internal Revenue Code of 1986 (as amended by subsection (c)(5)(A)) not later than December 31, 2004.

SEC. 1316. NONAPPLICATION OF EXPORT EXEMPTION TO DELIVERY OF FUEL TO MOTOR VEHICLES REMOVED FROM UNITED STATES.

(a) IN GENERAL.—Section 4221(d)(2) (defining export) is amended by adding at the end the following new sentence: "Such term does not include the delivery of a taxable fuel (as defined in section 4083(a)(1)) into a fuel tank of a motor vehicle which is shipped or driven out of the United States.".

(b) CONFORMING AMENDMENTS.—

(1) Section 4041(g) (relating to other exemptions) is amended by adding at the end the following new sentence: "Paragraph (3) shall not apply to the sale for delivery of a liquid into a fuel tank of a motor vehicle which is shipped or driven out of the United States.".

(2) Clause (iv) of section 4081(a)(1)(A) (relating to tax on removal, entry, or sale) is amended by inserting "or at a duty-free sales enterprise (as defined in section 555(b)(8) of the Tariff Act of 1930)" after "section 4101".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to sales or deliveries made after the date of the enactment of this Act.

SEC. 1317. REPEAL OF PHASEOUTS FOR QUALIFIED ELECTRIC VEHICLE CREDIT AND DEDUCTION FOR CLEAN FUEL-VEHICLES.

(a) CREDIT FOR QUALIFIED ELECTRIC VEHICLES.—Subsection (b) of section 30 (relating to limitations) is amended by striking paragraph (2) and redesignating paragraph (3) as paragraph (2).

(b) DEDUCTION FOR CLEAN-FUEL VEHICLES AND CERTAIN REFUELING PROPERTY.—Paragraph (1) of section 179A(b) (relating to qualified clean-fuel vehicle property) is amended to read as follows:

"(1) QUALIFIED CLEAN-FUEL VEHICLE PROPERTY.— The cost which may be taken into account under subsection (a)(1)(A) with respect to any motor vehicle shall not exceed—

"(A) in the case of a motor vehicle not described in subparagraph (B) or (C), $2,000,

"(B) in the case of any truck or van with a gross vehicle weight rating greater than 10,000 pounds but not greater than 26,000 pounds, $5,000, or

"(C) $50,000 in the case of—

"(i) a truck or van with a gross vehicle weight rating greater than 26,000 pounds, or

"(ii) any bus which has a seating capacity of at least 20 adults (not including the driver).".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act.

SEC. 1318. ALTERNATIVE MOTOR VEHICLE CREDIT.

(a) IN GENERAL.—Subpart B of part IV of subchapter A of chapter 1 (relating to foreign tax credit, etc.) is amended by adding at the end the following:

"SEC. 30B. ALTERNATIVE MOTOR VEHICLE CREDIT.

"(a) ALLOWANCE OF CREDIT.—There shall be allowed as a credit against the tax imposed by this chapter for the taxable year an amount equal to the sum of—

"(1) the new qualified fuel cell motor vehicle credit determined under subsection (b),

"(2) the new advanced lean burn technology motor vehicle credit determined under subsection (c),

"(3) the new qualified hybrid motor vehicle credit determined under subsection (d), and

"(4) the new qualified alternative fuel motor vehicle credit determined under subsection (e).

"(b) NEW QUALIFIED FUEL CELL MOTOR VEHICLE CREDIT.—

"(1) IN GENERAL.—For purposes of subsection (a), the new qualified fuel cell motor vehicle credit determined under this subsection with respect to a new qualified fuel cell motor vehicle placed in service by the taxpayer during the taxable year shall be determined in accordance with the following table:

"In the case of a vehicle which has a gross vehicle weight rating of—	The new qualified fuel cell motor vehicle credit is—
Not more than 8,500 lbs	$4,000
More than 8,500 lbs but not more than 14,000 lbs.	$10,000
More than 14,000 lbs but not more than 26,000 lbs.	$20,000
More than 26,000 lbs	$40,000.

"(2) INCREASE FOR FUEL EFFICIENCY.—

"(A) IN GENERAL.—The amount determined under paragraph (1) with respect to a new qualified fuel cell motor vehicle which is a passenger automobile or light truck shall be increased by the additional credit amount.

"(B) ADDITIONAL CREDIT AMOUNT.—For purposes of subparagraph (A), the additional credit amount shall be determined in accordance with the following table:

"In the case of a vehicle which achieves a fuel economy (expressed as a percentage of the 2002 model year city fuel economy) of—	The additional credit amount is—
At least 150 percent but less than 175 percent.	$1,000
At least 175 percent but less than 200 percent.	$1,500
At least 200 percent but less than 225 percent.	$2,000
At least 225 percent but less than 250 percent.	$2,500
At least 250 percent but less than 275 percent.	$3,000
At least 275 percent but less than 300 percent.	$3,500
At least 300 percent	$4,000.

"(3) NEW QUALIFIED FUEL CELL MOTOR VEHICLE.—For purposes of this subsection, the term 'new qualified fuel cell motor vehicle' means a motor vehicle—

"(A) which is propelled by power derived from one or more cells which convert chemical energy directly into electricity by combining oxygen with hydrogen fuel which is stored on board the vehicle in any form and may or may not require reformation prior to use,

"(B) which, in the case of a passenger automobile or light truck, has received—

"(i) a certificate of conformity under the Clean Air Act and meets or exceeds the equivalent qualifying California low emission vehicle standard under section 243(e)(2) of the Clean Air Act for that make and model year, and

"(ii) a certificate that such vehicle meets or exceeds the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle,

"(C) the original use of which commences with the taxpayer,

"(D) which is acquired for use or lease by the taxpayer and not for resale, and

"(E) which is made by a manufacturer.

"(c) NEW ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE CREDIT.—

"(1) IN GENERAL.—For purposes of subsection (a), the new advanced lean burn technology motor vehicle credit determined under this subsection with respect to a new advanced lean burn technology motor vehicle placed in service by the taxpayer during the taxable year is the credit amount determined under paragraph (2).

"(2) CREDIT AMOUNT.—

"(A) FUEL ECONOMY.—The credit amount determined under this paragraph shall be determined in accordance with the following table:

"In the case of a vehicle which achieves a fuel economy (expressed as a percentage of the 2002 model year city fuel economy) of—	**The credit amount is—**
At least 125 percent but less than 150 percent.	$400
At least 150 percent but less than 175 percent.	$800
At least 175 percent but less than 200 percent.	$1,200
At least 200 percent but less than 225 percent.	$1,600
At least 225 percent but less than 250 percent.	$2,000
At least 250 percent	$2,400.

"(B) CONSERVATION CREDIT.—The amount determined under subparagraph (A) with respect to a new advanced lean burn technology motor vehicle shall be increased by the conservation credit amount determined in accordance with the following table:

"In the case of a vehicle which achieves a lifetime fuel savings (expressed in gallons of gasoline) of—	**The conservation credit amount is—**
At least 1,200 but less than 1,800	$250
At least 1,800 but less than 2,400	$500
At least 2,400 but less than 3,000	$750
At least 3,000	$1,000.

"(3) NEW ADVANCED LEAN BURN TECHNOLOGY MOTOR VEHICLE.—For purposes of this subsection, the term 'new advanced lean burn technology motor vehicle' means a passenger automobile or a light truck—

"(A) with an internal combustion engine which--

"(i) is designed to operate primarily using more air than is necessary for complete combustion of the fuel,

"(ii) incorporates direct injection,

"(iii) achieves at least 125 percent of the 2002 model year city fuel economy,

"(iv) for 2004 and later model vehicles.,has received a certificate that such vehicle meets or exceeds—

"(I) in the case of a vehicle having a gross vehicle weight rating of 6,000 pounds or less, the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle, and

"(II) in the case of a vehicle having a gross vehicle weight rating of more than 6,000 pounds but not more than 8,500 pounds, the Bin 8 Tier II emission standard which is so established.

"(B) the original use of which commences with the taxpayer,

"(C) which is acquired for use or lease by the taxpayer and not for resale, and

"(D) which is made by a manufacturer.

"(4) LIFETIME FUEL SAVINGS.—For purposes of this subsection, the term 'lifetime fuel savings' means, in the case of any new advanced lean burn technology motor vehicle, an amount equal to the excess (if any) of—

"(A) 120,000 divided by the 2002 model year city fuel economy for the vehicle inertia weight class, over

"(B) 120,000 divided by the city fuel economy for such vehicle.

"(d) NEW QUALIFIED HYBRID MOTOR VEHICLE CREDIT.—

"(1) IN GENERAL.—For purposes of subsection (a), the new qualified hybrid motor vehicle credit determined under this subsection with respect to a new qualified hybrid motor vehicle placed in service by the taxpayer during the taxable year is the credit amount determined under paragraph (2).

"(2) CREDIT AMOUNT.—

"(A) CREDIT AMOUNT FOR PASSENGER AUTOMOBILES AND LIGHT TRUCKS.—In the case of a new qualified hybrid motor vehicle which is a passenger automobile or light truck and which has a gross vehicle weight rating of not more than 8,500 pounds, the amount determined under this paragraph is the sum of the amounts determined under clauses (i) and (ii).

"(i) FUEL ECONOMY.—The amount determined under this clause is the amount which would be determined under subsection (c)(2)(A) if such vehicle were a vehicle referred to in such subsection.

"(ii) CONSERVATION CREDIT.—The amount determined under this clause is the amount which would be determined under subsection (c)(2)(B) if such vehicle were a vehicle referred to in such subsection.

"(B) CREDIT AMOUNT FOR OTHER MOTOR VEHICLES.—

"(i) IN GENERAL.—In the case of any new qualified hybrid motor vehicle to which subparagraph (A) does not apply, the amount determined under this paragraph is the amount equal to the applicable percentage of the qualified incremental hybrid cost of the vehicle as certified under clause (v).

"(ii) APPLICABLE PERCENTAGE.—For purposes of clause (i), the applicable percentage is—

"(I) 20 percent if the vehicle achieves an increase in city fuel economy relative to a comparable vehicle of at least 30 percent but less than 40 percent,

"(II) 30 percent if the vehicle achieves such an increase of at least 40 percent but less than 50 percent, and

"(III) 40 percent if the vehicle achieves such an increase of at least 50 percent.

"(iii) QUALIFIED INCREMENTAL HYBRID COST.—For purposes of this subparagraph, the qualified incremental hybrid cost of any vehicle is equal to the amount of the excess of the manufacturer's suggested retail price for such vehicle over such price for a comparable vehicle, to the extent such amount does not exceed—

"(I) $7,500, if such vehicle has a gross vehicle weight rating of not more than 14,000 pounds,

"(II) $15,000, if such vehicle has a gross vehicle weight rating of more than 14,000 pounds but not more than 26,000 pounds, and

"(III) $30,000, if such vehicle has a gross vehicle weight rating of more than 26,000 pounds.

"(iv) COMPARABLE VEHICLE.—For purposes of this subparagraph, the term 'comparable vehicle' means, with respect to any new qualified hybrid motor vehicle, any vehicle which is powered solely by a gasoline or diesel internal combustion engine and which is comparable in weight, size, and use to such vehicle.

"(v) CERTIFICATION.—A certification described in clause (i) shall be made by the manufacturer and shall be determined in accordance with guidance prescribed by the Secretary. Such guidance shall specify procedures and methods for calculating fuel economy savings and incremental hybrid costs.

"(3) NEW QUALIFIED HYBRID MOTOR VEHICLE.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'new qualified hybrid motor vehicle' means a motor vehicle—

"(i) which draws propulsion energy from onboard sources of stored energy which are both—

"(I) an internal combustion or heat engine using consumable fuel, and

"(II) a rechargeable energy storage system,

"(ii) which, in the case of a vehicle to which paragraph (2)(A) applies, has received a certificate of conformity under the Clean Air Act and meets or exceeds the equivalent qualifying California low emission vehicle standard under section 243(e)(2) of the Clean Air Act for that make and model year, and

"(I) in the case of a vehicle having a gross vehicle weight rating of 6,000 pounds or less, the Bin 5 Tier II emission standard established in regulations prescribed by the Administrator of the Environmental Protection Agency under section 202(i) of the Clean Air Act for that make and model year vehicle, and

"(II) in the case of a vehicle having a gross vehicle weight rating of more than 6,000 pounds but not more than 8,500 pounds, the Bin 8 Tier II emission standard which is so established,

"(iii) which has a maximum available power of at least—

"(I) 4 percent in the case of a vehicle to which paragraph (2)(A) applies,

"(II) 10 percent in the case of a vehicle which has a gross vehicle weight rating or more than 8,500 pounds and not than 14,000 pounds, and

"(III) 15 percent in the case of a vehicle in excess of 14,000 pounds,

"(iv) which, in the case of a vehicle to which paragraph (2)(B) applies, has an internal combustion or heat engine which has received a certificate of conformity under the Clean Air Act as meeting the emission standards set in the regulations prescribed by the Administrator of the Environmental Protection Agency for 2004 through 2007 model year diesel heavy duty engines or ottocycle heavy duty engines, as applicable,

"(v) the original use of which commences with the taxpayer,

"(vi) which is acquired for use or lease by the taxpayer and not for resale, and

"(vii) which is made by a manufacturer.

Such term shall not include any vehicle which is not a passenger automobile or light truck if such vehicle has a gross vehicle weight rating of less than 8,500 pounds.

"(B) CONSUMABLE FUEL.—For purposes of subparagraph (A)(i)(I), the term 'consumable fuel' means any solid, liquid, or gaseous matter which releases energy when consumed by an auxiliary power unit.

"(C) MAXIMUM AVAILABLE POWER.—

"(i) CERTAIN PASSENGER AUTOMOBILES AND LIGHT TRUCKS.—In the case of a vehicle to which paragraph (2)(A) applies, the term 'maximum available power' means the maximum power available from the rechargeable energy storage system, during a standard 10 second pulse power or equivalent test, divided by such maximum power and the SAE net power of the heat engine.

"(ii) OTHER MOTOR VEHICLES.—In the case of a vehicle to which paragraph (2)(B) applies, the term 'maximum available power' means the maximum power available from the rechargeable energy storage system, during a standard 10 second pulse power or equivalent test, divided by the vehicle's total traction power. For purposes of the preceding sentence, the term 'total traction power' means the sum of the peak power from the rechargeable energy storage system and the heat engine peak power of the vehicle, except that if such storage system is the sole means by which the vehicle can be driven, the total traction power is the peak power of such storage system.

"(e) NEW QUALIFIED ALTERNATIVE FUEL MOTOR VEHICLE CREDIT.—

"(1) ALLOWANCE OF CREDIT.—Except as provided in paragraph (5), the new qualified alternative fuel motor vehicle credit determined under this subsection is an amount equal to the applicable percentage of the incremental cost of any new qualified alternative fuel motor vehicle placed in service by the taxpayer during the taxable year.

"(2) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage with respect to any new qualified alternative fuel motor vehicle is—

"(A) 40 percent, plus

"(B) 30 percent, if such vehicle—

"(i) has received a certificate of conformity under the Clean Air Act and meets or exceeds the most stringent standard available for certification under the Clean Air Act for that make and model year vehicle (other than a zero emission standard), or

"(ii) has received an order certifying the vehicle as meeting the same requirements as vehicles which may be sold or leased in California and meets or exceeds the most stringent standard available for certification under the State laws of California (enacted in accordance with a waiver granted under section 209(b) of the Clean Air Act) for that make and model year vehicle (other than a zero emission standard).

For purposes of the preceding sentence, in the case of any new qualified alternative fuel motor vehicle which has a gross vehicle weight rating of more than 14,000 pounds, the most stringent standard available shall be such standard available for certification on the date of the enactment of the Energy Tax Policy Act of 2003.

"(3) INCREMENTAL COST.—For purposes of this subsection, the incremental cost of any new qualified alternative fuel motor vehicle is equal to the amount of the excess of the manufacturer's suggested retail price for such vehicle over such price for a gasoline or diesel fuel motor vehicle of the same model, to the extent such amount does not exceed—

"(A) $5,000, if such vehicle has a gross vehicle weight rating of not more than 8,500 pounds,

"(B) $10,000, if such vehicle has a gross vehicle weight rating of more than 8,500 pounds but not more than 14,000 pounds,

"(C) $25,000, if such vehicle has a gross vehicle weight rating of more than 14,000 pounds but not more than 26,000 pounds, and

"(D) $40,000, if such vehicle has a gross vehicle weight rating of more than 26,000 pounds.

"(4) NEW QUALIFIED ALTERNATIVE FUEL MOTOR VEHICLE.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'new qualified alternative fuel motor vehicle' means any motor vehicle—

"(i) which is only capable of operating on an alternative fuel,

"(ii) the original use of which commences with the taxpayer,

"(iii) which is acquired by the taxpayer for use or lease, but not for resale, and

"(iv) which is made by a manufacturer.

"(B) ALTERNATIVE FUEL.—The term 'alternative fuel' means compressed natural gas, liquefied natural gas, liquefied petroleum gas, hydrogen, and any liquid at least 85 percent of the volume of which consists of methanol.

"(5) CREDIT FOR MIXED-FUEL VEHICLES.—

"(A) IN GENERAL.—In the case of a mixed-fuel vehicle placed in service by the taxpayer during the taxable year, the credit determined under this subsection is an amount equal to—

"(i) in the case of a 75/25 mixed-fuel vehicle, 70 percent of the credit which would have been allowed under this subsection if such vehicle was a qualified alternative fuel motor vehicle, and

"(ii) in the case of a 90/10 mixed-fuel vehicle, 90 percent of the credit which would have been allowed under this subsection if such vehicle was a qualified alternative fuel motor vehicle.

"(B) MIXED-FUEL VEHICLE.—For purposes of this subsection, the term 'mixed-fuel vehicle' means any motor vehicle described in subparagraph (C) or (D) of paragraph (3), which—

"(i) is certified by the manufacturer as being able to perform efficiently in normal operation on a combination of an alternative fuel and a petroleum-based fuel,

"(ii) either—

"(I) has received a certificate of conformity under the Clean Air Act, or

"(II) has received an order certifying the vehicle as meeting the same requirements as vehicles which may be sold or leased in California and meets or exceeds the low emission vehicle standard under section 88.105–94 of title 40, Code of Federal Regulations, for that make and model year vehicle,

"(iii) the original use of which commences with the taxpayer,

"(iv) which is acquired by the taxpayer for use or lease, but not for resale, and

"(v) which is made by a manufacturer.

"(C) 75/25 MIXED-FUEL VEHICLE.—For purposes of this subsection, the term '75/25 mixed-fuel vehicle' means a mixed-fuel vehicle which operates using at least 75 percent alternative fuel and not more than 25 percent petroleum-based fuel.

"(D) 90/10 MIXED-FUEL VEHICLE.—For purposes of this subsection, the term '90/10 mixed-fuel vehicle' means a mixed-fuel vehicle which operates using at least 90 percent alternative fuel and not more than 10 percent petroleum-based fuel.

''(f) LIMITATION ON NUMBER OF NEW QUALIFIED HYBRID AND ADVANCED LEAN-BURN TECHNOLOGY VEHICLES ELIGIBLE FOR CREDIT.—

''(1) IN GENERAL.—In the case of a qualified vehicle sold during the phaseout period, only the applicable percentage of the credit otherwise allowable under subsection (c) or (d) shall be allowed.

''(2) PHASEOUT PERIOD.—For purposes of this subsection, the phaseout period is the period beginning with the second calendar quarter following the calendar quarter which includes the first date on which the number of qualified vehicles manufactured by the manufacturer of the vehicle referred to in paragraph (1) sold for use in the United States after the date of the enactment of this section is at least 80,000.

''(3) APPLICABLE PERCENTAGE.—For purposes of paragraph (1), the applicable percentage is—

''(A) 50 percent for the first 2 calendar quarters of the phaseout period,

''(B) 25 percent for the 3d and 4th calendar quarters of the phaseout period, and

''(C) 0 percent for each calendar quarter thereafter.

''(4) CONTROLLED GROUPS.—

''(A) IN GENERAL.—For purposes of this subsection, all persons treated as a single employer under subsection (a) or (b) of section 52 or subsection (m) or (o) of section 414 shall be treated as a single manufacturer.

''(B) INCLUSION OF FOREIGN CORPORATIONS.—For purposes of subparagraph (A), in applying subsections (a) and (b) of section 52 to this section, section 1563 shall be applied without regard to subsection (b)(2)(C) thereof.

''(5) QUALIFIED VEHICLE.—For purposes of this subsection, the term 'qualified vehicle' means any new qualified hybrid motor vehicle and any new advanced lean burn technology motor vehicle.

''(g) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

''(1) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

''(2) the sum of the credits allowable under subpart A and sections 27 and 30 for the taxable year.

''(h) OTHER DEFINITIONS AND SPECIAL RULES.—For purposes of this section—

''(1) MOTOR VEHICLE.—The term 'motor vehicle' has the meaning given such term by section 30(c)(2).

''(2) OTHER TERMS.—The terms 'automobile', 'passenger automobile', 'light truck', and 'manufacturer' have the meanings given such terms in regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

''(3) 2002 MODEL YEAR CITY FUEL ECONOMY.—

''(A) IN GENERAL.—The 2002 model year city fuel economy with respect to a vehicle shall be determined in accordance with the following tables:

''(i) In the case of a passenger automobile:

“If vehicle inertia weight class is:	**The 2002 model year city fuel economy is:**
1,500 or 1,750 lbs	45.2 mpg
2,000 lbs	39.6 mpg
2,250 lbs	35.2 mpg
2,500 lbs	31.7 mpg
2,750 lbs	28.8 mpg
3,000 lbs	26.4 mpg
3,500 lbs	22.6 mpg
4,000 lbs	19.8 mpg
4,500 lbs	17.6 mpg
5,000 lbs	15.9 mpg
5,500 lbs	14.4 mpg
6,000 lbs	13.2 mpg
6,500 lbs	12.2 mpg
7,000 to 8,500 lbs	11.3 mpg.

''(ii) In the case of a light truck:

“If vehicle inertia weight class is:	**The 2002 model year city fuel economy is:**
1,500 or 1,750 lbs	39.4 mpg
2,000 lbs	35.2 mpg
2,250 lbs	31.8 mpg
2,500 lbs	29.0 mpg
2,750 lbs	26.8 mpg
3,000 lbs	24.9 mpg
3,500 lbs	21.8 mpg
4,000 lbs	19.4 mpg
4,500 lbs	17.6 mpg
5,000 lbs	16.1 mpg
5,500 lbs	14.8 mpg
6,000 lbs	13.7 mpg
6,500 lbs	12.8 mpg
7,000 to 8,500 lbs	12.1 mpg.

''(B) VEHICLE INERTIA WEIGHT CLASS.—For purposes of subparagraph (A), the term 'vehicle inertia weight class' has the same meaning as when defined in regulations prescribed by the Administrator of the Environmental Protection Agency for purposes of the administration of title II of the Clean Air Act (42 U.S.C. 7521 et seq.).

''(4) FUEL ECONOMY.—Fuel economy with respect to any vehicle shall be measured under rules similar to the rules under section 4064(c).

''(5) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is allowed under this section for any expenditure with respect to any property, the increase in the basis of such property which would (but for this paragraph) result from such expenditure shall be reduced by the amount of the credit so allowed.

''(6) NO DOUBLE BENEFIT.—The amount of any deduction or credit allowable under this chapter (other than the credits allowable under this section and section 30) shall be reduced by the amount of credit allowed under subsection (a) for such vehicle for the taxable year.

''(7) RECAPTURE.—The Secretary shall, by regulations, provide for recapturing the benefit of any credit allowable under subsection (a) with respect to any property which ceases to be property eligible for such credit (including recapture in the case of a lease period of less than the economic life of a vehicle).

''(8) PROPERTY USED OUTSIDE UNITED STATES, ETC., NOT QUALIFIED.—No credit shall be allowed under subsection (a) with respect to any property referred to in section 50(b) or with respect to the portion of the cost of any property taken into account under section 179.

''(9) ELECTION NOT TO TAKE CREDIT.—No credit shall be allowed under subsection (a) for any vehicle if the taxpayer elects to not have this section apply to such vehicle.

''(10) BUSINESS CARRYOVERS ALLOWED.—If the credit allowable under subsection (a) for a taxable year exceeds the limitation under subsection (g) for such taxable year, such excess (to the extent of the credit allowable with respect to property subject to the allowance for depreciation) shall be allowed as a credit carryback and carryforward under rules similar to the rules of section 39.

''(11) INTERACTION WITH MOTOR VEHICLE SAFETY STANDARDS.—Unless otherwise provided in this section, a motor vehicle shall not be considered eligible for a credit under this section unless such vehicle is in compliance with the motor vehicle safety provisions of sections 30101 through 30169 of title 49, United States Code.

''(i) REGULATIONS.—

''(1) IN GENERAL.—The Secretary shall promulgate such regulations as necessary to carry out the provisions of this section.

''(2) DETERMINATION OF MOTOR VEHICLE ELIGIBILITY.—The Secretary, after coordination with the Secretary of Transportation and the Administrator of the Environmental Protection Agency, shall prescribe such regulations as necessary to determine whether a motor vehicle meets the requirements to be eligible for a credit under this section.

''(j) TERMINATION.—This section shall not apply to any property placed in service after—

''(1) in the case of a new qualified alternative fuel motor vehicle, December 31, 2006,

''(2) in the case of a new advanced lean burn technology motor vehicle or a new qualified hybrid motor vehicle, December 31, 2008, and

''(3) in the case of a new qualified fuel cell motor vehicle, December 31, 2012.''.

(b) CONFORMING AMENDMENTS.—

(1) Section 30(d) (relating to special rules) is amended by adding at the end the following new paragraphs:

''(5) NO DOUBLE BENEFIT.—No credit shall be allowed under this section for any motor vehicle for which a credit is also allowed under section 30B.''.

(2) Section 1016(a), as amended by this Act, is amended by striking ''and'' at the end of paragraph (31), by striking the period at the end of paragraph (32) and inserting '', and'', and by adding at the end the following:

''(33) to the extent provided in section 30B(h)(5).''.

(3) Section 6501(m) is amended by inserting ''30B(h)(9),'' after ''30(d)(4),''.

(4) The table of sections for subpart B of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 30A the following:

''Sec. 30B. Alternative motor vehicle credit.''.

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

(d) STICKER INFORMATION REQUIRED AT RETAIL SALE.—

(1) IN GENERAL.—The Secretary of the Treasury shall issue regulations under which each qualified vehicle sold at retail shall display a notice—

(A) that such vehicle is a qualified vehicle, and

(B) that the buyer may not benefit from the credit allowed under section 30B of the Internal Revenue Code of 1986 if such buyer has insufficient tax liability.

(2) QUALIFIED VEHICLE.—For purposes of paragraph (1), the term ''qualified vehicle'' means a vehicle with respect to which a credit is allowed under section 30B of the Internal Revenue Code of 1986.

SEC. 1319. MODIFICATIONS OF DEDUCTION FOR CERTAIN REFUELING PROPERTY.

(a) IN GENERAL.—Subsection (f) of section 179A is amended to read as follows:

''(f) TERMINATION.—This section shall not apply to any property placed in service—

''(1) in the case of property relating to hydrogen, after December 31, 2011, and

''(2) in the case of any other property, after December 31, 2008.''.

(b) INCENTIVE FOR PRODUCTION OF HYDROGEN AT QUALIFIED CLEAN-FUEL VEHICLE REFUELING PROPERTY.—Section 179A(d) (defining qualified clean-fuel vehicle refueling property) is amended by adding at the end the following new flush sentence:

''In the case of clean-burning fuel which is hydrogen produced from another clean-burning fuel, paragraph (3)(A) shall be applied by substituting 'production, storage, or dispensing' for 'storage or dispensing' both places it appears.''.

(c) INCREASE IN LOCATION EXPENDITURES.—Section 179A(b)(2)(A)(i) is amended by striking ''$100,000'' and inserting ''$150,000''.

(d) NONBUSINESS USE OF QUALIFIED CLEAN-FUEL VEHICLE REFUELING PROPERTY.—Section 179A(d) is amended by striking paragraph (1) *and by redesignating paragraphs (2) and (3) as paragraphs (1) and (2), respectively.*

(e) Effective Date.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

Subtitle B—Reliability

SEC. 1321. NATURAL GAS GATHERING LINES TREATED AS 7-YEAR PROPERTY.

(a) In General.—Subparagraph (C) of section 168(e)(3) (relating to classification of certain property) is amended by striking "and" at the end of clause (i), by redesignating clause (ii) as clause (iii), and by inserting after clause (i) the following new clause:

"(ii) any natural gas gathering line, and".

(b) Natural Gas Gathering Line.—Subsection (i) of section 168, as amended by this Act, is amended by adding after paragraph (15) the following new paragraph:

"(16) Natural gas gathering line.—The term 'natural gas gathering line' means—

"(A) the pipe, equipment, and appurtenances determined to be a gathering line by the Federal Energy Regulatory Commission, or

"(B) the pipe, equipment, and appurtenances used to deliver natural gas from the wellhead or a commonpoint to the point at which such gas first reaches—

"(i) a gas processing plant,

"(ii) an interconnection with a transmission pipeline for which a certificate as an interstate transmission pipeline has been issued by the Federal Energy Regulatory Commission,

"(iii) an interconnection with an intrastate transmission pipeline, or

"(iv) a direct interconnection with a local distribution company, a gas storage facility, or an industrial consumer.".

(c) Alternative System.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (C)(i) the following:

"(C)(ii) .... 14".

(d) Alternative Minimum Tax Exception.—Subparagraph (B) of section 56(a)(1) is amended by inserting before the period the following: ", or in section 168(e)(3)(C)(ii)".

(e) Effective Date.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1322. NATURAL GAS DISTRIBUTION LINES TREATED AS 15-YEAR PROPERTY.

(a) In General.—Subparagraph (E) of section 168(e)(3) (relating to classification of certain property) is amended by striking "and" at the end of clause (ii), by striking the period at the end of clause (iii) and by inserting ", and", and by adding at the end the following new clause:

"(iv) any natural gas distribution line.".

(b) Alternative System.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (E)(iii) the following:

"(E)(iv) .... 35".

(c) Effective Date.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1323. ELECTRIC TRANSMISSION PROPERTY TREATED AS 15-YEAR PROPERTY.

(a) In General.—Subparagraph (E) of section 168(e)(3) (relating to classification of certain property), as amended by this Act, is amended by striking "and" at the end of clause (iii), by striking the period at the end of clause (iv) and by inserting ", and", and by adding at the end the following new clause:

"(v) any section 1245 property (as defined in section 1245(a)(3)) used in the transmission at 69 or more kilovolts of electricity for sale the original use of which commences with the taxpayer after the date of the enactment of this clause.".

(b) Alternative System.—The table contained in section 168(g)(3)(B) is amended by inserting after the item relating to subparagraph (E)(iv) the following:

"(E)(v) .... 30".

(c) Effective Date.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1324. EXPENSING OF CAPITAL COSTS INCURRED IN COMPLYING WITH ENVIRONMENTAL PROTECTION AGENCY SULFUR REGULATIONS.

(a) In General.—Part VI of subchapter B of chapter 1 (relating to itemized deductions for individuals and corporations), as amended by this Act, is amended by inserting after section 179B the following new section:

"SEC. 179C. DEDUCTION FOR CAPITAL COSTS INCURRED IN COMPLYING WITH ENVIRONMENTAL PROTECTION AGENCY SULFUR REGULATIONS.

"(a) Treatment as Expenses.—A small business refiner (as defined in section 45I(c)(1)) may elect to treat 75 percent of qualified capital costs (as defined in section 45I(c)(2)) which are paid or incurred by the taxpayer during the taxable year as expenses which are not chargeable to capital account. Any cost so treated shall be allowed as a deduction for the taxable year in which paid or incurred.

"(b) Reduced Percentage.—In the case of a small business refiner with average daily domestic refinery runs for the 1-year period ending on December 31, 2002, in excess of 155,000 barrels, the number of percentage points described in subsection (a) shall be reduced (not below zero) by the product of such number (before the application of this subsection) and the ratio of such excess to 50,000 barrels.

"(c) Basis Reduction.—

"(1) In general.—For purposes of this title, the basis of any property shall be reduced by the portion of the cost of such property taken into account under subsection (a).

"(2) Ordinary income recapture.—For purposes of section 1245, the amount of the deduction allowable under subsection (a) with respect to any property which is of a character subject to the allowance for depreciation shall be treated as a deduction allowed for depreciation under section 167.".

"(d) Coordination With Other Provisions.—Section 280B shall not apply to amounts which are treated as expenses under this section.".

(b) Conforming Amendments.—

(1) Section 263(a)(1), as amended by this Act, is amended by striking "or" at the end of subparagraph (H), by striking the period at the end of subparagraph (I) and inserting "; or", and by adding at the end the following new subparagraph:

"(J) expenditures for which a deduction is allowed under section 179C.".

(2) Section 263A(c)(3) is amended by inserting "179C," after "section".

(3) Section 312(k)(3)(B), as amended by this Act, is amended by striking "or 179B" each place it appears in the heading and text and inserting "179B, or 179C".

(4) Section 1016(a), as amended by this Act, is amended by striking "and" at the end of paragraph (32), by striking the period at the end of paragraph (33) and inserting ", and", and by adding at the end the following new paragraph:

"(34) to the extent provided in section 179C(c)."

(5) Paragraphs (2)(C) and (3)(C) of section 1245(a), as amended by this Act, are each amended by inserting "179C," after "179B,".

(6) The table of sections for part VI of subchapter B of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 179B the following new item:

"Sec. 179C. Deduction for capital costs incurred in complying with Environmental Protection Agency sulfur regulations.".

(c) Effective Date.—The amendment made by this section shall apply to expenses paid or incurred after December 31, 2002, in taxable years ending after such date.

SEC. 1325. CREDIT FOR PRODUCTION OF LOW SULFUR DIESEL FUEL.

(a) In General.—Subpart D of part IV of subchapter A of chapter 1 (relating to business-related credits), as amended by this Act, is amended by adding at the end the following new section:

"SEC. 45I. CREDIT FOR PRODUCTION OF LOW SULFUR DIESEL FUEL.

"(a) In General.—For purposes of section 38, the amount of the low sulfur diesel fuel production credit determined under this section with respect to any facility of a small business refiner is an amount equal to 5 cents for each gallon of low sulfur diesel fuel produced during the taxable year by such small business refiner at such facility.

"(b) Maximum Credit.—

"(1) In general.—The aggregate credit determined under subsection (a) for any taxable year with respect to any facility shall not exceed—

"(A) 25 percent of the qualified capital costs incurred by the small business refiner with respect to such facility, reduced by

"(B) the aggregate credits determined under this section for all prior taxable years with respect to such facility.

"(2) Reduced percentage.—In the case of a small business refiner with average daily domestic refinery runs for the 1-year period ending on December 31, 2002, in excess of 155,000 barrels, the number of percentage points described in paragraph (1) shall be reduced (not below zero) by the product of such number (before the application of this paragraph) and the ratio of such excess to 50,000 barrels.

"(c) Definitions and Special Rule.—For purposes of this section—

"(1) Small business refiner.—The term 'small business refiner' means, with respect to any taxable year, a refiner of crude oil—

"(A) with respect to which not more than 1,500 individuals are engaged in the refinery operations of the business on any day during such taxable year, and

"(B) the average daily domestic refinery run or average retained production of which for all facilities of the taxpayer for the 1-year period ending on December 31, 2002, did not exceed 205,000 barrels.

"(2) Qualified capital costs.—The term 'qualified capital costs' means, with respect to any facility, those costs paid or incurred during the applicable period for compliance with the applicable EPA regulations with respect to such facility, including expenditures for the construction of new process operation units or the dismantling and reconstruction of existing process units to be used in the production of low sulfur diesel fuel, associated adjacent or offsite equipment (including tankage, catalyst, and power supply), engineering, construction period interest, and sitework.

"(3) Applicable EPA regulations.—The term 'applicable EPA regulations' means the Highway Diesel Fuel Sulfur Control Requirements of the Environmental Protection Agency.

"(4) Applicable period.—The term 'applicable period' means, with respect to any facility, the period beginning on January 1, 2003, and ending on the earlier of the date which is 1 year after the date on which the taxpayer must comply with the applicable EPA regulations with respect to such facility or December 31, 2009.

"(5) LOW SULFUR DIESEL FUEL.—The term 'low sulfur diesel fuel' means diesel fuel with a sulfur content of 15 parts per million or less.

"(d) REDUCTION IN BASIS.—For purposes of this subtitle, if a credit is determined under this section for any expenditure with respect to any property, the increase in basis of such property which would (but for this subsection) result from such expenditure shall be reduced by the amount of the credit so determined.

"(e) SPECIAL RULE FOR DETERMINATION OF REFINERY RUNS.—For purposes this section and section 179C(b), in the calculation of average daily domestic refinery run or retained production, only refineries which on April 1, 2003, were refineries of the refiner or a related person (within the meaning of section 613A(d)(3)), shall be taken into account.

"(f) CERTIFICATION.—

"(1) REQUIRED.—No credit shall be allowed unless, not later than the date which is 30 months after the first day of the first taxable year in which the low sulfur diesel fuel production credit is allowed with respect to a facility, the small business refiner obtains certification from the Secretary, after consultation with the Administrator of the Environmental Protection Agency, that the taxpayer's qualified capital costs with respect to such facility will result in compliance with the applicable EPA regulations.

"(2) CONTENTS OF APPLICATION.—An application for certification shall include relevant information regarding unit capacities and operating characteristics sufficient for the Secretary, after consultation with the Administrator of the Environmental Protection Agency, to determine that such qualified capital costs are necessary for compliance with the applicable EPA regulations.

"(3) REVIEW PERIOD.—Any application shall be reviewed and notice of certification, if applicable, shall be made within 60 days of receipt of such application. In the event the Secretary does not notify the taxpayer of the results of such certification within such period, the taxpayer may presume the certification to be issued until so notified.

"(4) STATUTE OF LIMITATIONS.—With respect to the credit allowed under this section—

"(A) the statutory period for the assessment of any deficiency attributable to such credit shall not expire before the end of the 3-year period ending on the date that the review period described in paragraph (3) ends with respect to the taxpayer, and

"(B) such deficiency may be assessed before the expiration of such 3-year period notwithstanding the provisions of any other law or rule of law which would otherwise prevent such assessment.

"(g) COOPERATIVE ORGANIZATIONS.—

"(1) APPORTIONMENT OF CREDIT.—

"(A) IN GENERAL.—In the case of a cooperative organization described in section 1381(a), any portion of the credit determined under subsection (a) for the taxable year may, at the election of the organization, be apportioned among patrons eligible to share in patronage dividends on the basis of the quantity or value of business done with or for such patrons for the taxable year.

"(B) FORM AND EFFECT OF ELECTION.—An election under subparagraph (A) for any taxable year shall be made on a timely filed return for such year. Such election, once made, shall be irrevocable for such taxable year.

"(2) TREATMENT OF ORGANIZATIONS AND PATRONS.—

"(A) ORGANIZATIONS.—The amount of the credit not apportioned to patrons pursuant to paragraph (1) shall be included in the amount determined under subsection (a) for the taxable year of the organization.

"(B) PATRONS.—The amount of the credit apportioned to patrons pursuant to paragraph (1) shall be included in the amount determined under subsection (a) for the first taxable year of each patron ending on or after the last day of the payment period (as defined in section 1382(d)) for the taxable year of the organization or, if earlier, for the taxable year of each patron ending on or after the date on which the patron receives notice from the cooperative of the apportionment.

"(3) SPECIAL RULE.—If the amount of a credit which has been apportioned to any patron under this subsection is decreased for any reason—

"(A) such amount shall not increase the tax imposed on such patron, and

"(B) the tax imposed by this chapter on such organization shall be increased by such amount. The increase under subparagraph (B) shall not be treated as tax imposed by this chapter for purposes of determining the amount of any credit under this chapter or for purposes of section 55.".

(b) CREDIT MADE PART OF GENERAL BUSINESS CREDIT.—Subsection (b) of section 38 (relating to general business credit), as amended by this Act, is amended by striking "plus" at the end of paragraph (17), by striking the period at the end of paragraph (18) and inserting ", plus", and by adding at the end the following new paragraph:

"(19) in the case of a small business refiner, the low sulfur diesel fuel production credit determined under section 45I(a).".

(c) DENIAL OF DOUBLE BENEFIT.—Section 280C (relating to certain expenses for which credits are allowable) is amended by adding at the end the following new subsection:

"(d) LOW SULFUR DIESEL FUEL PRODUCTION CREDIT.—No deduction shall be allowed for that portion of the expenses otherwise allowable as a deduction for the taxable year which is equal to the amount of the credit determined for the taxable year under section 45I(a).".

(d) BASIS ADJUSTMENT.—Section 1016(a) (relating to adjustments to basis), as amended by this Act, is amended by striking "and" at the end of paragraph (33), by striking the period at the end of paragraph (34) and inserting ", and", and by adding at the end the following new paragraph:

"(35) in the case of a facility with respect to which a credit was allowed under section 45I, to the extent provided in section 45I(d).".

(e) DEDUCTION FOR CERTAIN UNUSED BUSINESS CREDITS.—Section 196(c) (defining qualified business credits), as amended by this Act, is amended by striking "and" at the end of paragraph (12), by striking the period at the end of paragraph (13) and inserting ", and", and by adding after paragraph (13) the following new paragraph:

"(14) the low sulfur diesel fuel production credit determined under section 45I(a).".

(e) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following new item:

"Sec. 45I. Credit for production of low sulfur diesel fuel.".

(f) EFFECTIVE DATE.—The amendments made by this section shall apply to expenses paid or incurred after December 31, 2002, in taxable years ending after such date.

SEC. 1326. DETERMINATION OF SMALL REFINER EXCEPTION TO OIL DEPLETION DEDUCTION.

(a) IN GENERAL.—Paragraph (4) of section 613A(d) (relating to limitations on application of subsection (c)) is amended to read as follows:

"(4) CERTAIN REFINERS EXCLUDED.—If the taxpayer or 1 or more related persons engages in the refining of crude oil, subsection (c) shall not apply to the taxpayer for a taxable year if the average daily refinery runs of the taxpayer and such persons for the taxable year exceed 67,500 barrels. For purposes of this paragraph, the average daily refinery runs for any taxable year shall be determined by dividing the aggregate refinery runs for the taxable year by the number of days in the taxable year.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 1327. SALES OR DISPOSITIONS TO IMPLEMENT FEDERAL ENERGY REGULATORY COMMISSION OR STATE ELECTRIC RESTRUCTURING POLICY.

(a) IN GENERAL.—Section 451 (relating to general rule for taxable year of inclusion) is amended by adding at the end the following new subsection:

"(i) SPECIAL RULE FOR SALES OR DISPOSITIONS TO IMPLEMENT FEDERAL ENERGY REGULATORY COMMISSION OR STATE ELECTRIC RESTRUCTURING POLICY.—

"(1) IN GENERAL.—In the case of any qualifying electric transmission transaction for which the taxpayer elects the application of this section, qualified gain from such transaction shall be recognized—

"(A) in the taxable year which includes the date of such transaction to the extent the amount realized from such transaction exceeds—

"(i) the cost of exempt utility property which is purchased by the taxpayer during the 4-year period beginning on such date, reduced (but not below zero) by

"(ii) any portion of such cost previously taken into account under this subsection, and

"(B) ratably over the 8-taxable year period beginning with the taxable year which includes the date of such transaction, in the case of any such gain not recognized under subparagraph (A).

"(2) QUALIFIED GAIN.—For purposes of this subsection, the term 'qualified gain' means, with respect to any qualifying electric transmission transaction in any taxable year—

"(A) any ordinary income derived from such transaction which would be required to be recognized under section 1245 or 1250 for such taxable year (determined without regard to this subsection), and

"(B) any income derived from such transaction in excess of the amount described in subparagraph (A) which is required to be included in gross income for such taxable year (determined without regard to this subsection).

"(3) QUALIFYING ELECTRIC TRANSMISSION TRANSACTION.—For purposes of this subsection, the term 'qualifying electric transmission transaction' means any sale or other disposition before January 1, 2007, of—

"(A) property used in the trade or business of providing electric transmission services, or

"(B) any stock or partnership interest in a corporation or partnership, as the case may be, whose principal trade or business consists of providing electric transmission services,

but only if such sale or disposition is to an independent transmission company.

"(4) INDEPENDENT TRANSMISSION COMPANY.—For purposes of this subsection, the term 'independent transmission company' means— .

"(A) an independent transmission provider approved by the Federal Energy Regulatory Commission,

"(B) a person—

"(i) who the Federal Energy Regulatory Commission determines in its authorization of the transaction under section 203 of the Federal Power Act (16 U.S.C. 824b) or by declaratory order is not a market participant within the meaning of such Commission's rules applicable to independent transmission providers, and

"(ii) whose transmission facilities to which the election under this subsection applies are

under the operational control of a Federal Energy Regulatory Commission-approved independent transmission provider before the close of the period specified in such authorization, but not later than the close of the period applicable under subsection (a)(2)(B) as extended under paragraph (2), or

"(C) in the case of facilities subject to the jurisdiction of the Public Utility Commission of Texas—

"(i) a person which is approved by that Commission as consistent with Texas State law regarding an independent transmission provider, or

"(ii) a political subdivision or affiliate thereof whose transmission facilities are under the operational control of a person described in clause (i).

"(5) EXEMPT UTILITY PROPERTY.—For purposes of this subsection—

"(A) IN GENERAL.—The term 'exempt utility property' means property used in the trade or business of—

"(i) generating, transmitting, distributing, or selling electricity, or

"(ii) producing, transmitting, distributing, or selling natural gas.

"(B) NONRECOGNITION OF GAIN BY REASON OF ACQUISITION OF STOCK.—Acquisition of control of a corporation shall be taken into account under this subsection with respect to a qualifying electric transmission transaction only if the principal trade or business of such corporation is a trade or business referred to in subparagraph (A).

"(6) SPECIAL RULE FOR CONSOLIDATED GROUPS.—In the case of a corporation which is a member of an affiliated group filing a consolidated return, any exempt utility property purchased by another member of such group shall be treated as purchased by such corporation for purposes of applying paragraph (1)(A).

"(7) TIME FOR ASSESSMENT OF DEFICIENCIES.—If the taxpayer has made the election under paragraph (1) and any gain is recognized by such taxpayer as provided in paragraph (1)(B), then—

"(A) the statutory period for the assessment of any deficiency, for any taxable year in which any part of the gain on the transaction is realized, attributable to such gain shall not expire prior to the expiration of 3 years from the date the Secretary is notified by the taxpayer (in such manner as the Secretary may by regulations prescribe) of the purchase of exempt utility property or of an intention not to purchase such property, and

"(B) such deficiency may be assessed before the expiration of such 3-year period notwithstanding any law or rule of law which would otherwise prevent such assessment.

"(8) PURCHASE.—For purposes of this subsection, the taxpayer shall be considered to have purchased any property if the unadjusted basis of such property is its cost within the meaning of section 1012.

"(9) ELECTION.—An election under paragraph (1) shall be made at such time and in such manner as the Secretary may require and, once made, shall be irrevocable.

"(10) NONAPPLICATION OF INSTALLMENT SALES TREATMENT.—Section 453 shall not apply to any qualifying electric transmission transaction with respect to which an election to apply this subsection is made.".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to transactions occurring after the date of the enactment of this Act, in taxable years ending after such date.

SEC. 1328. MODIFICATIONS TO SPECIAL RULES FOR NUCLEAR DECOMMISSIONING COSTS.

(a) REPEAL OF LIMITATION ON DEPOSITS INTO FUND BASED ON COST OF SERVICE; CONTRIBUTIONS AFTER FUNDING PERIOD.—Subsection (b) of section 468A (relating to special rules for nuclear decommissioning costs) is amended to read as follows:

"(b) LIMITATION ON AMOUNTS PAID INTO FUND.—

"(1) IN GENERAL.—The amount which a taxpayer may pay into the Fund for any taxable year shall not exceed the ruling amount applicable to such taxable year.

"(2) CONTRIBUTIONS AFTER FUNDING PERIOD.—Notwithstanding any other provision of this section, a taxpayer may pay into the Fund in any taxable year after the last taxable year to which the ruling amount applies. Payments may not be made under the preceding sentence to the extent such payments would cause the assets of the Fund to exceed the nuclear decommissioning costs allocable to the taxpayer's current or former interest in the nuclear power plant to which the Fund relates. The limitation under the preceding sentence shall be determined by taking into account a reasonable rate of inflation for the nuclear decommissioning costs and a reasonable after-tax rate of return on the assets of the Fund until such assets are anticipated to be expended.".

(b) CLARIFICATION OF TREATMENT OF FUND TRANSFERS.—Section 468A(e) (relating to Nuclear Decommissioning Reserve Fund) is amended by adding at the end the following new paragraph:

"(8) TREATMENT OF FUND TRANSFERS.—

"(A) IN GENERAL.—If, in connection with the transfer of the taxpayer's interest in a nuclear power plant, the taxpayer transfers the Fund with respect to such power plant to the transferee of such interest and the transferee elects to continue the application of this section to such Fund—

"(i) the transfer of such Fund shall not cause such Fund to be disqualified from the application of this section, and

"(ii) no amount shall be treated as distributed from such Fund, or be includable in gross income, by reason of such transfer.

"(B) SPECIAL RULES IF TRANSFEROR IS TAX-EXEMPT ENTITY.—

"(i) IN GENERAL.—If—

"(I) a person exempt from taxation under this title transfers an interest in a nuclear power plant,

"(II) such person has set aside amounts for nuclear decommissioning which are transferred to the transferee of the interest, and

"(III) the transferee elects the application of this subparagraph no later than the due date (including extensions) of its return of tax for the taxable year in which the transfer occurs,

the amounts so set aside shall be treated as if contributed by such person to a Fund immediately before the transfer and then transferred in the Fund to the transferee.

"(ii) LIMITATION.—The amount treated as transferred to a Fund under clause (i) shall not exceed the amount which bears the same ratio to the present value of the nuclear decommissioning costs of the transferor with respect to the nuclear power plant as the number of years the nuclear power plant has been in service bears to the estimated useful life of such power plant.

"(iii) BASIS.—The transferee's basis in any asset treated as transferred in the Fund shall be the same as the adjusted basis of such asset in the hands of the transferor.

"(iv) RULING AMOUNT REQUIRED.—This subparagraph shall not apply to any transfer unless the transferee requests from the Secretary a schedule of ruling amounts.

"(v) ELECTION DISREGARDED.—An election under this subparagraph shall be disregarded in determining the Federal income tax of the transferor."

(c) TREATMENT OF CERTAIN DECOMMISSIONING COSTS.—

(1) IN GENERAL.—Section 468A is amended by redesignating subsections (f) and (g) as subsections (g) and (h), respectively, and by inserting after subsection (e) the following new subsection:

"(f) TRANSFERS INTO QUALIFIED FUNDS.—

"(1) IN GENERAL.—Notwithstanding subsection (b), any taxpayer maintaining a Fund to which this section applies with respect to a nuclear power plant may transfer into such Fund not more than an amount equal to the present value of the portion of the total nuclear decommissioning costs with respect to such nuclear power plant previously excluded for such nuclear power plant under subsection (d)(2)(A) as in effect immediately before the date of the enactment of the Energy Tax Policy Act of 2003.

"(2) DEDUCTION FOR AMOUNTS TRANSFERRED.—

"(A) IN GENERAL.—Except as provided in subparagraph (C), the deduction allowed by subsection (a) for any transfer permitted by this subsection shall be allowed ratably over the remaining estimated useful life (within the meaning of subsection (d)(2)(A)) of the nuclear power plant beginning with the taxable year during which the transfer is made.

"(B) DENIAL OF DEDUCTION FOR PREVIOUSLY DEDUCTED AMOUNTS.—No deduction shall be allowed for any transfer under this subsection of an amount for which a deduction was previously allowed to the taxpayer (or a predecessor) or a corresponding amount was not included in gross income of the taxpayer (or a predecessor). For purposes of the preceding sentence, a ratable portion of each transfer shall be treated as being from previously deducted or excluded amounts to the extent thereof.

"(C) TRANSFERS OF QUALIFIED FUNDS.—If—

"(i) any transfer permitted by this subsection is made to any Fund to which this section applies, and

"(ii) such Fund is transferred thereafter,

any deduction under this subsection for taxable years ending after the date that such Fund is transferred shall be allowed to the transferor for the taxable year which includes such date.

"(D) SPECIAL RULES.—

"(i) GAIN OR LOSS NOT RECOGNIZED.—No gain or loss shall be recognized on any transfer permitted by this subsection.

"(ii) TRANSFERS OF APPRECIATED PROPERTY.—If appreciated property is transferred in a transfer permitted by this subsection, the amount of the deduction shall not exceed the adjusted basis of such property.

"(3) NEW RULING AMOUNT REQUIRED.—Paragraph (1) shall not apply to any transfer unless the taxpayer requests from the Secretary a new schedule of ruling amounts in connection with such transfer.

"(4) NO BASIS IN QUALIFIED FUNDS.—Notwithstanding any other provision of law, the taxpayer's basis in any Fund to which this section applies shall not be increased by reason of any transfer permitted by this subsection.".

(2) NEW RULING AMOUNT TO TAKE INTO ACCOUNT TOTAL COSTS.—Subparagraph (A) of section 468A(d)(2) (defining ruling amount) is amended to read as follows:

"(A) fund the total nuclear decommissioning costs with respect to such power plant over the estimated useful life of such power plant, and".

(d) TECHNICAL AMENDMENTS.—Section 468A(e)(2) (relating to taxation of Fund) is amended—

(1) by striking "rate set forth in subparagraph (B)" in subparagraph (A) and inserting "rate of 20 percent",

(2) by striking subparagraph (B), and

(3) by redesignating subparagraphs (C) and (D) as subparagraphs (B) and (C), respectively.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2003.

SEC. 1329. TREATMENT OF CERTAIN INCOME OF COOPERATIVES.

(a) INCOME FROM OPEN ACCESS AND NUCLEAR DECOMMISSIONING TRANSACTIONS.—

(1) IN GENERAL.—Subparagraph (C) of section 501(c)(12) is amended by striking "or" at the end of clause (i), by striking clause (ii), and by adding at the end the following new clauses:

"(ii) from any provision or sale of electric energy transmission services or ancillary services if such services are provided on a nondiscriminatory open access basis under an open access transmission tariff approved or accepted by FERC or under an independent transmission provider agreement approved or accepted by FERC (other than income received or accrued directly or indirectly from a member),

"(iii) from the provision or sale of electric energy distribution services or ancillary services if such services are provided on a nondiscriminatory open access basis to distribute electric energy not owned by the mutual or electric cooperative company—

"(I) to end-users who are served by distribution facilities not owned by such company or any of its members (other than income received or accrued directly or indirectly from a member), or

"(II) generated by a generation facility not owned or leased by such company or any of its members and which is directly connected to distribution facilities owned by such company or any of its members (other than income received or accrued directly or indirectly from a member),

"(iv) from any nuclear decommissioning transaction, or

"(v) from any asset exchange or conversion transaction.".

(2) DEFINITIONS AND SPECIAL RULES.—Paragraph (12) of section 501(c) is amended by adding at the end the following new subparagraphs:

"(E) For purposes of subparagraph (C)(ii), the term 'FERC' means the Federal Energy Regulatory Commission and references to such term shall be treated as including the Public Utility Commission of Texas with respect to any ERCOT utility (as defined in section 212(k)(2)(B) of the Federal Power Act (16 U.S.C. 824k(k)(2)(B))).

"(F) For purposes of subparagraph (C)(iii), the term 'nuclear decommissioning transaction' means—

"(i) any transfer into a trust, fund, or instrument established to pay any nuclear decommissioning costs if the transfer is in connection with the transfer of the mutual or cooperative electric company's interest in a nuclear power plant or nuclear power plant unit,

"(ii) any distribution from any trust, fund, or instrument established to pay any nuclear decommissioning costs, or

"(iii) any earnings from any trust, fund, or instrument established to pay any nuclear decommissioning costs.

"(G) For purposes of subparagraph (C)(iv), the term 'asset exchange or conversion transaction' means any voluntary exchange or involuntary conversion of any property related to generating, transmitting, distributing, or selling electric energy by a mutual or cooperative electric company, the gain from which qualifies for deferred recognition under section 1031 or 1033, but only if the replacement property acquired by such company pursuant to such section constitutes property which is used, or to be used, for—

"(i) generating, transmitting, distributing, or selling electric energy, or

"(ii) producing, transmitting, distributing, or selling natural gas.".

(b) TREATMENT OF INCOME FROM LOAD LOSS TRANSACTIONS, ETC.—Paragraph (12) of section 501(c), as amended by subsection (a)(2), is amended by adding after subparagraph (G) the following new subparagraph:

"(H)(i) In the case of a mutual or cooperative electric company described in this paragraph or an organization described in section 1381(a)(2)(C), income received or accrued from a load loss transaction shall be treated as an amount collected from members for the sole purpose of meeting losses and expenses.

"(ii) For purposes of clause (i), the term 'load loss transaction' means any wholesale or retail sale of electric energy (other than to members) to the extent that the aggregate sales during the recovery period do not exceed the load loss mitigation sales limit for such period.

"(iii) For purposes of clause (ii), the load loss mitigation sales limit for the recovery period is the sum of the annual load losses for each year of such period.

"(iv) For purposes of clause (iii), a mutual or cooperative electric company's annual load loss for each year of the recovery period is the amount (if any) by which—

"(I) the megawatt hours of electric energy sold during such year to members of such electric company are less than

"(II) the megawatt hours of electric energy sold during the base year to such members.

"(v) For purposes of clause (iv)(II), the term 'base year' means—

"(I) the calendar year preceding the start-up year, or

"(II) at the election of the mutual or cooperative electric company, the second or third calendar years preceding the start-up year.

"(vi) For purposes of this subparagraph, the recovery period is the 7-year period beginning with the start-up year.

"(vii) For purposes of this subparagraph, the start-up year is the first year that the mutual or cooperative electric company offers nondiscriminatory open access or the calendar year which includes the date of the enactment of this subparagraph, if later, at the election of such company.

"(viii) A company shall not fail to be treated as a mutual or cooperative electric company for purposes of this paragraph or as a corporation operating on a cooperative basis for purposes of section 1381(a)(2)(C) by reason of the treatment under clause (i).

"(ix) For purposes of subparagraph (A), in the case of a mutual or cooperative electric company, income received, or accrued, indirectly from a member shall be treated as an amount collected from members for the sole purpose of meeting losses and expenses.".

(c) EXCEPTION FROM UNRELATED BUSINESS TAXABLE INCOME.—Subsection (b) of section 512 (relating to modifications) is amended by adding at the end the following new paragraph:

"(18) TREATMENT OF MUTUAL OR COOPERATIVE ELECTRIC COMPANIES.—In the case of a mutual or cooperative electric company described in section 501(c)(12), there shall be excluded income which is treated as member income under subparagraph (H) thereof.".

(d) CROSS REFERENCE.—Section 1381 is amended by adding at the end the following new subsection:

"(c) CROSS REFERENCE.—

"For treatment of income from load loss transactions of organizations described in subsection (a)(2)(C), see section 501(c)(12)(H).".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. 1330. ARBITRAGE RULES NOT TO APPLY TO PREPAYMENTS FOR NATURAL GAS.

(a) IN GENERAL.—Subsection (b) of section 148 (relating to higher yielding investments) is amended by adding at the end the following new paragraph:

"(4) SAFE HARBOR FOR PREPAID NATURAL GAS.—

"(A) IN GENERAL.—The term 'investment-type property' does not include a prepayment under a qualified natural gas supply contract.

"(B) QUALIFIED NATURAL GAS SUPPLY CONTRACT.—For purposes of this paragraph, the term 'qualified natural gas supply contract' means any contract to acquire natural gas for resale by a utility owned by a governmental unit if the amount of gas permitted to be acquired under the contract by the utility during any year does not exceed the sum of—

"(i) the annual average amount during the testing period of natural gas purchased (other than for resale) by customers of such utility who are located within the service area of such utility, and

"(ii) the amount of natural gas to be used to transport the prepaid natural gas to the utility during such year.

"(C) NATURAL GAS USED TO GENERATE ELECTRICITY.—Natural gas used to generate electricity shall be taken into account in determining the average under subparagraph (B)(i)—

"(i) only if the electricity is generated by a utility owned by a governmental unit, and

"(ii) only to the extent that the electricity is sold (other than for resale) to customers of such utility who are located within the service area of such utility.

"(D) ADJUSTMENTS FOR CHANGES IN CUSTOMER BASE.—

"(i) NEW BUSINESS CUSTOMERS.—If—

"(I) after the close of the testing period and before the date of issuance of the issue, the utility owned by a governmental unit enters into a contract to supply natural gas (other than for resale) for a business use at a property within the service area of such utility, and

"(II) the utility did not supply natural gas to such property during the testing period or the ratable amount of natural gas to be supplied under the contract is significantly greater than the ratable amount of gas supplied to such property during the testing period,

then a contract shall not fail to be treated as a qualified natural gas supply contract by reason of supplying the additional natural gas under the contract referred to in subclause (I).

"(ii) LOST CUSTOMERS.—The average under subparagraph (B)(i) shall not exceed the annual amount of natural gas reasonably expected to be purchased (other than for resale) by persons who are located within the service area of such utility and who, as of the date of issuance of the issue, are customers of such utility.

"(E) RULING REQUESTS.—The Secretary may increase the average under subparagraph (B)(i) for any period if the utility owned by the governmental unit establishes to the satisfaction of the Secretary that, based on objective evidence of growth in natural gas consumption or population, such average would otherwise be insufficient for such period.

"(F) ADJUSTMENT FOR NATURAL GAS OTHERWISE ON HAND.—

"(i) IN GENERAL.—The amount otherwise permitted to be acquired under the contract for any period shall be reduced by—

"(I) the applicable share of natural gas held by the utility on the date of issuance of the issue, and

"(II) the natural gas (not taken into account under subclause (I)) which the utility has a right to acquire during such period (determined as of the date of issuance of the issue).

"(ii) APPLICABLE SHARE.—For purposes of the clause (i), the term 'applicable share' means,

with respect to any period, the natural gas allocable to such period if the gas were allocated ratably over the period to which the prepayment relates.

"(G) INTENTIONAL ACTS.—Subparagraph (A) shall cease to apply to any issue if the utility owned by the governmental unit engages in any intentional act to render the volume of natural gas acquired by such prepayment to be in excess of the sum of—

"(i) the amount of natural gas needed (other than for resale) by customers of such utility who are located within the service area of such utility, and

"(ii) the amount of natural gas used to transport such natural gas to the utility.

"(H) TESTING PERIOD.—For purposes of this paragraph, the term 'testing period' means, with respect to an issue, the most recent 5 calendar years ending before the date of issuance of the issue.

"(I) SERVICE AREA.—For purposes of this paragraph, the service area of a utility owned by a governmental unit shall be comprised of—

"(i) any area throughout which such utility provided at all times during the testing period—

"(I) in the case of a natural gas utility, natural gas transmission or distribution services, and

"(II) in the case of an electric utility, electricity distribution services,

"(ii) any area within a county contiguous to the area described in clause (i) in which retail customers of such utility are located if such area is not also served by another utility providing natural gas or electricity services, as the case may be, and

"(iii) any area recognized as the service area of such utility under State or Federal law.".

(b) PRIVATE LOAN FINANCING TEST NOT TO APPLY TO PREPAYMENTS FOR NATURAL GAS.—Paragraph (2) of section 141(c) (providing exceptions to the private loan financing test) is amended by striking "or" at the end of subparagraph (A), by striking the period at the end of subparagraph (B) and inserting ", or", and by adding at the end the following new subparagraph:

"(C) is a qualified natural gas supply contract (as defined in section 148(b)(4)).".

(c) EXCEPTION FOR QUALIFIED ELECTRIC AND NATURAL GAS SUPPLY CONTRACTS.—Section 141(d) is amended by adding at the end the following new paragraph:

"(7) EXCEPTION FOR QUALIFIED ELECTRIC AND NATURAL GAS SUPPLY CONTRACTS.—The term 'nongovernmental output property' shall not include any contract for the prepayment of electricity or natural gas which is not investment property under section 148(b)(2).".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to obligations issued after the date of the enactment of this Act.

Subtitle C—Production

PART I—OIL AND GAS PROVISIONS

SEC. 1341. OIL AND GAS FROM MARGINAL WELLS.

(a) IN GENERAL.—Subpart D of part IV of subchapter A of chapter 1 (relating to business credits), as amended by this Act, is amended by adding at the end the following:

"SEC. 45J. CREDIT FOR PRODUCING OIL AND GAS FROM MARGINAL WELLS.

"(a) GENERAL RULE.—For purposes of section 38, the marginal well production credit for any taxable year is an amount equal to the product of—

"(1) the credit amount, and

"(2) the qualified credit oil production and the qualified natural gas production which is attributable to the taxpayer.

"(b) CREDIT AMOUNT.—For purposes of this section—

"(1) IN GENERAL.—The credit amount is—

"(A) $3 per barrel of qualified crude oil production, and

"(B) 50 cents per 1,000 cubic feet of qualified natural gas production.

"(2) REDUCTION AS OIL AND GAS PRICES INCREASE.—

"(A) IN GENERAL.—The $3 and 50 cents amounts under paragraph (1) shall each be reduced (but not below zero) by an amount which bears the same ratio to such amount (determined without regard to this paragraph) as—

"(i) the excess (if any) of the applicable reference price over $15 ($1.67 for qualified natural gas production), bears to

"(ii) $3 ($0.33 for qualified natural gas production).

The applicable reference price for a taxable year is the reference price of the calendar year preceding the calendar year in which the taxable year begins.

"(B) INFLATION ADJUSTMENT.—In the case of any taxable year beginning in a calendar year after 2003, each of the dollar amounts contained in subparagraph (A) shall be increased to an amount equal to such dollar amount multiplied by the inflation adjustment factor for such calendar year (determined under section 43(b)(3)(B) by substituting '2002' for '1990').

"(C) REFERENCE PRICE.—For purposes of this paragraph, the term 'reference price' means, with respect to any calendar year—

"(i) in the case of qualified crude oil production, the reference price determined under section 45K(d)(2)(C), and

"(ii) in the case of qualified natural gas production, the Secretary's estimate of the annual average wellhead price per 1,000 cubic feet for all domestic natural gas.

"(c) QUALIFIED CRUDE OIL AND NATURAL GAS PRODUCTION.—For purposes of this section—

"(1) IN GENERAL.—The terms 'qualified crude oil production' and 'qualified natural gas production' mean domestic crude oil or natural gas which is produced from a qualified marginal well.

"(2) LIMITATION ON AMOUNT OF PRODUCTION WHICH MAY QUALIFY.—

"(A) IN GENERAL.—Crude oil or natural gas produced during any taxable year from any well shall not be treated as qualified crude oil production or qualified natural gas production to the extent production from the well during the taxable year exceeds 1,095 barrels or barrel-of-oil equivalents (as defined in section 45K(d)(5)).

"(B) PROPORTIONATE REDUCTIONS.—

"(i) SHORT TAXABLE YEARS.—In the case of a short taxable year, the limitations under this paragraph shall be proportionately reduced to reflect the ratio which the number of days in such taxable year bears to 365.

"(ii) WELLS NOT IN PRODUCTION ENTIRE YEAR.—In the case of a well which is not capable of production during each day of a taxable year, the limitations under this paragraph applicable to the well shall be proportionately reduced to reflect the ratio which the number of days of production bears to the total number of days in the taxable year.

"(3) DEFINITIONS.—

"(A) QUALIFIED MARGINAL WELL.—The term 'qualified marginal well' means a domestic well—

"(i) the production from which during the taxable year is treated as marginal production under section 613A(c)(6), or

"(ii) which, during the taxable year—

"(I) has average daily production of not more than 25 barrel-of-oil equivalents (as so defined), and

"(II) produces water at a rate not less than 95 percent of total well effluent.

"(B) CRUDE OIL, ETC.—The terms 'crude oil', 'natural gas', 'domestic', and 'barrel' have the meanings given such terms by section 613A(e).

"(d) OTHER RULES.—

"(1) PRODUCTION ATTRIBUTABLE TO THE TAXPAYER.—In the case of a qualified marginal well in which there is more than one owner of operating interests in the well and the crude oil or natural gas production exceeds the limitation under subsection (c)(2), qualifying crude oil production or qualifying natural gas production attributable to the taxpayer shall be determined on the basis of the ratio which taxpayer's revenue interest in the production bears to the aggregate of the revenue interests of all operating interest owners in the production.

"(2) OPERATING INTEREST REQUIRED.—Any credit under this section may be claimed only on production which is attributable to the holder of an operating interest.

"(3) PRODUCTION FROM NONCONVENTIONAL SOURCES EXCLUDED.—In the case of production from a qualified marginal well which is eligible for the credit allowed under section 45K for the taxable year, no credit shall be allowable under this section unless the taxpayer elects not to claim the credit under section 45K with respect to the well.".

(b) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b), as amended by this Act, is amended by striking "plus" at the end of paragraph (18), by striking the period at the end of paragraph (19) and inserting ", plus", and by adding at the end the following:

"(20) the marginal oil and gas well production credit determined under section 45J(a).".

(c) CARRYBACK.—Subsection (a) of section 39 (relating to carryback and carryforward of unused credits generally) is amended by adding at the end the following:

"(3) 5-YEAR CARRYBACK FOR MARGINAL OIL AND GAS WELL PRODUCTION CREDIT.—Notwithstanding subsection (d), in the case of the marginal oil and gas well production credit—

"(A) this section shall be applied separately from the business credit (other than the marginal oil and gas well production credit),

"(B) paragraph (1) shall be applied by substituting '5 taxable years' for '1 taxable years' in subparagraph (A) thereof, and

"(C) paragraph (2) shall be applied—

"(i) by substituting '25 taxable years' for '21 taxable years' in subparagraph (A) thereof, and

"(ii) by substituting '24 taxable years' for '20 taxable years' in subparagraph (B) thereof.".

(d) CLERICAL AMENDMENT.—The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by adding at the end the following:

"Sec. 45J. Credit for producing oil and gas from marginal wells.".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to production in taxable years beginning after December 31, 2003.

SEC. 1342. TEMPORARY SUSPENSION OF LIMITATION BASED ON 65 PERCENT OF TAXABLE INCOME AND EXTENSION OF SUSPENSION OF TAXABLE INCOME LIMIT WITH RESPECT TO MARGINAL PRODUCTION.

(a) LIMITATION BASED ON 65 PERCENT OF TAXABLE INCOME.—Subsection (d) of section 613A (relating to limitation on percentage depletion in case of oil and gas wells) is amended by adding at the end the following new paragraph:

"(6) TEMPORARY SUSPENSION OF TAXABLE INCOME LIMIT.—Paragraph (1) shall not apply to taxable years beginning after December 31, 2003, and before January 1, 2005, including with respect to amounts carried under the second sentence of paragraph (1) to such taxable years.".

(b) EXTENSION OF SUSPENSION OF TAXABLE INCOME LIMIT WITH RESPECT TO MARGINAL PRODUCTION.—Subparagraph (H) of section 613A(c)(6) (relating to temporary suspension of taxable income limit with respect to marginal *production) is amended by striking "2004" and inserting "2005".*

(c) EFFECTIVE DATE.—The amendment made by subsection (a) shall apply to taxable years beginning after December 31, 2003.

SEC. 1343. AMORTIZATION OF DELAY RENTAL PAYMENTS.

(a) IN GENERAL.—Section 167 (relating to depreciation) is amended by redesignating subsection (h) as subsection (i) and by inserting after subsection (g) the following new subsection:

"(h) AMORTIZATION OF DELAY RENTAL PAYMENTS FOR DOMESTIC OIL AND GAS WELLS.—

"(1) IN GENERAL.—Any delay rental payment paid or incurred in connection with the development of oil or gas wells within the United States (as defined in section 638) shall be allowed as a deduction ratably over the 24-month period beginning on the date that such payment was paid or incurred.

"(2) HALF-YEAR CONVENTION.—For purposes of paragraph (1), any payment paid or incurred during the taxable year shall be treated as paid or incurred on the mid-point of such taxable year.

"(3) EXCLUSIVE METHOD.—Except as provided in this subsection, no depreciation or amortization deduction shall be allowed with respect to such payments.

"(4) TREATMENT UPON ABANDONMENT.—If any property to which a delay rental payment relates is retired or abandoned during the 24-month period described in paragraph (1), no deduction shall be allowed on account of such retirement or abandonment and the amortization deduction under this subsection shall continue with respect to such payment.

"(5) DELAY RENTAL PAYMENTS.—For purposes of this subsection, the term 'delay rental payment' means an amount paid for the privilege of deferring development of an oil or gas well under an oil or gas lease.".

(b) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

SEC. 1344. AMORTIZATION OF GEOLOGICAL AND GEOPHYSICAL EXPENDITURES.

(a) IN GENERAL.—Section 167 (relating to depreciation), as amended by this Act, is amended by redesignating subsection (i) as subsection (j) and by inserting after subsection (h) the following new subsection:

"(i) AMORTIZATION OF GEOLOGICAL AND GEOPHYSICAL EXPENDITURES.—

"(1) IN GENERAL.—Any geological and geophysical expenses paid or incurred in connection with the exploration for, or development of, oil or gas within the United States (as defined in section 638) shall be allowed as a deduction ratably over the 24-month period beginning on the date that such expense was paid or incurred.

"(2) SPECIAL RULES.—For purposes of this subsection, rules similar to the rules of paragraphs (2), (3), and (4) of subsection (h) shall apply.".

(b) CONFORMING AMENDMENT.—Section 263A(c)(3) is amended by inserting "167(h), 167(i)," after "under section".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to amounts paid or incurred in taxable years beginning after the date of the enactment of this Act.

SEC. 1345. EXTENSION AND MODIFICATION OF CREDIT FOR PRODUCING FUEL FROM A NONCONVENTIONAL SOURCE.

(a) IN GENERAL.—Section 29 (relating to credit for producing fuel from a nonconventional source) is amended by adding at the end the following new subsection:

"(h) EXTENSION FOR OTHER FACILITIES.—Notwithstanding subsection (f)—

"(1) NEW OIL AND GAS WELLS AND FACILITIES.—In the case of a well or facility for producing qualified fuels described in subparagraph (A) or (B) of subsection (c)(1) which was drilled or placed in service after the date of the enactment of this subsection and before January 1, 2007, this section shall apply with respect to such fuels produced at such well or facility and sold during the period—

"(A) beginning on the later of January 1, 2004, or the date that such well is drilled or such facility is placed in service, and

"(B) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

"(2) OLD OIL AND GAS WELLS AND FACILITIES.—In the case of a well or facility producing qualified fuels described in subparagraph (A) or (B)(i) of subsection (c)(1) or a facility producing natural gas and byproducts by coal gasification from lignite, subsection (f)(2) shall be applied by substituting '2008' for '2003' with respect to wells and facilities described in subsection (f)(1) with respect to such fuels.

"(3) EXTENSION FOR FACILITIES PRODUCING QUALIFIED FUEL FROM LANDFILL GAS.—

"(A) IN GENERAL.—In the case of a facility for producing qualified fuel from landfill gas which was placed in service after June 30, 1998, and before January 1, 2007, this section shall apply to fuel produced at such facility and sold during the period—

"(i) beginning on the later of January 1, 2004, or the date that such facility is placed in service, and

"(ii) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

"(B) REDUCTION OF CREDIT FOR CERTAIN LANDFILL FACILITIES.—In the case of a facility to which subparagraph (A) applies and which is located at a landfill which is required pursuant to section 60.751(b)(2) or section 60.33c of title 40, Code of Federal Regulations (as in effect on April 3, 2003) to install and operate a collection and control system which captures gas generated within the landfill, subsection (a)(1) shall be applied to gas so captured by substituting '$2' for '$3' for the taxable year during which such system is required to be installed and operated.

"(4) FACILITIES PRODUCING FUELS FROM AGRICULTURAL AND ANIMAL WASTE.—

"(A) IN GENERAL.—In the case of any facility for producing liquid, gaseous, or solid fuels from qualified agricultural and animal wastes, including such fuels when used as feedstocks, which is placed in service after the date of the enactment of this subsection and before January 1, 2007, this section shall apply with respect to fuel produced at such facility and sold during the period—

"(i) beginning on the later of January 1, 2004, or the date that such facility is placed in service, and

"(ii) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

"(B) QUALIFIED AGRICULTURAL AND ANIMAL WASTE.—For purposes of this paragraph, the term 'qualified agricultural and animal waste' means agriculture and animal waste, including by-products, packaging, and any materials associated with the processing, feeding, selling, transporting, or disposal of agricultural or animal products or wastes.

"(5) FACILITIES PRODUCING REFINED COAL.—

"(A) IN GENERAL.—In the case of a facility described in subparagraph (C) for producing refined coal which is placed in service after the date of the enactment of this subsection and before January 1, 2008, this section shall apply with respect to fuel produced at such facility and sold before the close of the 5-year period beginning on the date such facility is placed in service.

"(B) REFINED COAL.—For purposes of this paragraph, the term 'refined coal' means a fuel which is a liquid, gaseous, or solid synthetic fuel produced from coal (including lignite) or high carbon fly ash, including such fuel used as a feedstock.

"(C) COVERED FACILITIES.—

"(i) IN GENERAL.—A facility is described in this subparagraph if such facility produces refined coal using a technology which the taxpayer certifies (in such manner as the Secretary may prescribe) results in—

"(I) a qualified emission reduction, and

"(II) a qualified enhanced value.

"(ii) QUALIFIED EMISSION REDUCTION.—For purposes of this subparagraph, the term 'qualified emission reduction' means a reduction of at least 20 percent of the emissions of nitrogen oxide and either sulfur dioxide or mercury released when burning the refined coal (excluding any dilution caused by materials combined or added during the production process), as compared to the emissions released when burning the feedstock coal or comparable coal predominantly available in the marketplace as of January 1, 2003.

"(iii) QUALIFIED ENHANCED VALUE.—For purposes of this subparagraph, the term 'qualified enhanced value' means an increase of at least 50 percent in the market value of the refined coal (excluding any increase caused by materials combined or added during the production process), as compared to the value of the feedstock coal.

"(iv) ADVANCED CLEAN COAL TECHNOLOGY UNITS EXCLUDED.—A facility described in this subparagraph shall not include any advanced clean coal technology unit (as defined in section 48A(e)).

"(6) COALMINE GAS.—

"(A) IN GENERAL.—This section shall apply to coalmine gas—

"(i) captured or extracted by the taxpayer during the period beginning on the day after the date of the enactment of this subsection and ending on December 31, 2006, and

"(ii) utilized as a fuel source or sold by or on behalf of the taxpayer to an unrelated person during such period.

"(B) COALMINE GAS.—For purposes of this paragraph, the term 'coalmine gas' means any methane gas which is—

"(i) liberated during or as a result of coal mining operations, or

"(ii) extracted up to 10 years in advance of coal mining operations as part of a specific plan to mine a coal deposit.

"(C) SPECIAL RULE FOR ADVANCED EXTRACTION.—In the case of coalmine gas which is captured in advance of coal mining operations, the credit under subsection (a) shall be allowed only after the date the coal extraction occurs in the immediate area where the coalmine gas was removed.

"(D) NONCOMPLIANCE WITH POLLUTION LAWS.—This paragraph shall not apply to the capture or extraction of coalmine gas from coal mining operations with respect to any period in which such coal mining operations are not in compliance with applicable Federal pollution prevention, control, and permit requirements.

"(7) COKE AND COKE GAS.—In the case of a facility for producing coke or coke gas which was placed in service before January 1, 1993, or after June 30, 1998, and before January 1, 2007, this section shall apply with respect to coke and coke gas produced in such facility and sold during the during the period—

"(A) beginning on the later of January 1, 2004, or the date that such facility is placed in service, and

"(B) ending on the earlier of the date which is 4 years after the date such period began or December 31, 2009.

"(8) SPECIAL RULES.—In determining the amount of credit allowable under this section solely by reason of this subsection—

"(A) FUELS TREATED AS QUALIFIED FUELS.—Any fuel described in paragraph (3), (4), (5), or (6) shall be treated as a qualified fuel for purposes of this section.

"(B) DAILY LIMIT.—The amount of qualified fuels sold during any taxable year which may be taken into account by reason of this subsection with respect to any property or facility shall not exceed an average barrel-of-oil equivalent of 200,000 cubic feet of natural gas per day. Days before the date the property or facility is placed in service shall not be taken into account in determining such average.

"(C) EXTENSION PERIOD TO COMMENCE WITH UNADJUSTED CREDIT AMOUNT AND NEW PHASEOUT ADJUSTMENT.—For purposes of applying subsection (b)(2), in the case of fuels sold after 2003—

"(i) paragraphs (1)(A) and (2) of subsection (b) shall be applied by substituting '$35.00' for '$23.50', and

"(ii) subparagraph (B) of subsection (d)(2) shall be applied by substituting '2002' for '1979'.

"(D) DENIAL OF DOUBLE BENEFIT.—This subsection shall not apply to any facility producing qualified fuels for which a credit was allowed under this section for the taxable year or any preceding taxable year by reason of subsection (g).".

(b) TREATMENT AS BUSINESS CREDIT.—

(1) CREDIT MOVED TO SUBPART RELATING TO BUSINESS RELATED CREDITS.—The Internal Revenue Code of 1986 is amended by redesignating section 29, as amended by this Act, as section 45K and by moving section 45K (as so redesignated) from subpart B of part IV of subchapter A of chapter 1 to the end of subpart D of part IV of subchapter A of chapter 1.

(2) CREDIT TREATED AS BUSINESS CREDIT.—Section 38(b) is amended by striking "plus" at the end of paragraph (19), by striking the period at the end of paragraph (20) and inserting ", plus", and by adding at the end the following:

"(21) the nonconventional source production credit determined under section 45K(a).".

(3) CONFORMING AMENDMENTS.—

(A) Section 30(b)(2)(A), as redesignated by section 1317(a), is amended by striking "sections 27 and 29" and inserting "section 27".

(B) Sections 43(b)(2) and 613A(c)(6)(C) are each amended by striking "section 29(d)(2)(C)" and inserting "section 45K(d)(2)(C)".

(C) Section 45K(a), as redesignated by paragraph (1), is amended by striking "At the election of the taxpayer, there shall be allowed as a credit against the tax imposed by this chapter for the taxable year" and inserting "For purposes of section 38, if the taxpayer elects to have this section apply, the nonconventional source production credit determined under this section for the taxable year is".

(D) Section 45K(b), as so redesignated, is amended by striking paragraph (6).

(E) Section 53(d)(1)(B)(iii) is amended by striking "under section 29" and all that follows through "or not allowed".

(F) Section 55(c)(2) is amended by striking "29(b)(6),".

(G) Subsection (a) of section 772 is amended by inserting "and" at the end of paragraph (9), by striking paragraph (10), and by redesignating paragraph (11) as paragraph (10).

(H) Paragraph (5) of section 772(d) is amended by striking "the foreign tax credit, and the credit allowable under section 29" and inserting "and the foreign tax credit".

(I) The table of sections for subpart B of part IV of subchapter A of chapter 1 is amended by striking the item relating to section 29.

(J) The table of sections for subpart D of part IV of subchapter A of chapter 1, as amended by this Act, is amended by inserting after the item relating to section 45J the following new item:

"Sec. 45K. Credit for producing fuel from a nonconventional source.".

(c) DETERMINATIONS UNDER NATURAL GAS POLICY ACT OF 1978.—Subparagraph (A) of section 45K(c)(2), as redesignated by subsection (b)(1), is amended—

(1) by inserting "by the Secretary, after consultation with the Federal Energy Regulatory Commission," after "shall be made", and

(2) by inserting "(as in effect before the repeal of such section)" after "1978".

(d) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in paragraph (2), the amendments made by this section shall apply to fuel produced and sold after December 31, 2003, in taxable years ending after such date.

(2) DETERMINATIONS UNDER NATURAL GAS POLICY ACT OF 1978.—The amendments made by subsection (c) shall apply as if included in the provisions repealing section 503 of the Natural Gas Policy Act of 1978.

PART II—ALTERNATIVE MINIMUM TAX PROVISIONS

SEC. 1346. NEW NONREFUNDABLE PERSONAL CREDITS ALLOWED AGAINST REGULAR AND MINIMUM TAXES.

(a) IN GENERAL.—

(1) SECTION 25C.—Section 25C(b), as added by section 1301 of this Act, is amended by adding at the end the following new paragraph:

"(3) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

"(A) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

"(B) the sum of the credits allowable under this subpart (other than this section and section 25D) and section 27 for the taxable year.".

(2) SECTION 25D.—Section 25D(b), as added by section 1304 of this Act, is amended by adding at the end the following new paragraph:

"(3) LIMITATION BASED ON AMOUNT OF TAX.—The credit allowed under subsection (a) for the taxable year shall not exceed the excess of—

"(A) the sum of the regular tax liability (as defined in section 26(b)) plus the tax imposed by section 55, over

"(B) the sum of the credits allowable under this subpart (other than this section) and section 27 for the taxable year.".

(b) CONFORMING AMENDMENTS.—

(1) Section 23(b)(4)(B) is amended by inserting "and sections 25C and 25D" after "this section".

(2) Section 24(b)(3)(B) is amended by striking "and 25B" and inserting ", 25B, 25C, and 25D".

(3) Section 25(e)(1)(C) is amended by inserting "25C, and 25D" after "25B,".

(4) Section 25B(g)(2) is amended by striking "section 23" and inserting "sections 23, 25C, and 25D".

(5) Section 26(a)(1) is amended by striking "and 25B" and inserting "25B, 25C, and 25D".

(6) Section 904(h) is amended by striking "and 25B" and inserting "25B, 25C, and 25D".

(7) Section 1400C(d) is amended by striking "and 25B" and inserting "25B, 25C, and 25D".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after December 31, 2003.

SEC. 1347. BUSINESS RELATED ENERGY CREDITS ALLOWED AGAINST REGULAR AND MINIMUM TAX.

(a) IN GENERAL.—Subsection (c) of section 38 (relating to limitation based on amount of tax) is amended by redesignating paragraph (4) as paragraph (5) and by inserting after paragraph (3) the following new paragraph:

"(4) SPECIAL RULES FOR SPECIFIED ENERGY CREDITS.—

"(A) IN GENERAL.—In the case of specified energy credits—

"(i) this section and section 39 shall be applied separately with respect to such credits, and

"(ii) in applying paragraph (1) to such credits—

"(I) the tentative minimum tax shall be treated as being zero, and

"(II) the limitation under paragraph (1) (as modified by subclause (I)) shall be reduced by the credit allowed under subsection (a) for the taxable year (other than the specified energy credits).

"(B) SPECIFIED ENERGY CREDITS.—For purposes of this subsection, the term 'specified energy credits' means the credits determined under sections 45G, 45H, 45I, and 45J. For taxable years beginning after December 31, 2003, such term includes the credit determined under section 40. For taxable years beginning after December 31, 2003, and before January 1, 2006, such term includes the credit determined under section 43.

"(C) SPECIAL RULE FOR ELECTRICITY PRODUCED FROM QUALIFIED FACILITIES.—For purposes of this subsection, the term 'specified energy credits' shall include the credit determined under section 45 to the extent that such credit is attributable to electricity produced—

"(i) at a facility which is originally placed in service after the date of the enactment of this paragraph, and

"(ii) during the 4-year period beginning on the date that such facility was originally placed in service.".

(b) CONFORMING AMENDMENTS.—

(1) Paragraph (2)(A)(ii)(II) of section 38(c) is amended by striking "or" and inserting a comma and by inserting ", and the specified energy credits" after "employee credit".

(2) Paragraph (3)(A)(ii)(II) of section 38(c) is amended by inserting "and the specified energy credits" after "employee credit".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years ending after the date of the enactment of this Act.

SEC. 1348. TEMPORARY REPEAL OF ALTERNATIVE MINIMUM TAX PREFERENCE FOR INTANGIBLE DRILLING COSTS.

(a) IN GENERAL.—Clause (ii) of section 57(a)(2)(E) is amended by adding at the end the following new sentence: "The preceding sentence shall not apply to taxable years beginning after December 31, 2003, and before January 1, 2006.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to taxable years beginning after December 31, 2003.

PART III—CLEAN COAL INCENTIVES

SEC. 1351. CREDIT FOR CLEAN COAL TECHNOLOGY UNITS.

(a) IN GENERAL.—Subpart E of part IV of subchapter A of chapter 1 (relating to rules for computing investment credit) is amended by inserting after section 48 the following new section:

"SEC. 48A. CLEAN COAL TECHNOLOGY CREDIT.

"(a) IN GENERAL.—For purposes of section 46, the clean coal technology credit for any taxable year is an amount equal to the applicable percentage of the basis of qualified clean coal property placed in service during such year.

"(b) APPLICABLE PERCENTAGE.—For purposes of this section, the applicable percentage is—

"(1) 15 percent in the case of property placed in service in connection with any basic clean coal technology unit, and

"(2) 17.5 percent in the case of property placed in service in connection with any advanced clean coal technology unit.

"(c) QUALIFIED CLEAN COAL PROPERTY.—For purposes of this section—

"(1) IN GENERAL.—The term 'qualified clean coal property' means section 1245 property—

“(A) which is installed in connection with—

“(i) an existing coal-based unit as part of the conversion of such unit to any basic or advanced clean coal technology unit, or

“(ii) any new advanced clean coal technology unit,

“(B) which is placed in service after December 31, 2003, and before—

“(i) in the case of property to which subsection (b)(1) applies, January 1, 2014, and

“(ii) in the case of property to which subsection (b)(2) applies, January 1, 2017 (January 1, 2013, in the case of property installed in connection with an eligible advanced pulverized coal or atmospheric fluidized bed combustion technology unit),

“(C) the original use of which commences with the taxpayer, and

“(D) which has a useful life of not less than 4 years.

“(2) Existing coal-based unit.—The term ‘existing coal-based unit’ means a coal-based electricity generating steam generator-turbine unit—

“(A) which is not a basic or advanced clean coal technology unit, and

“(B) which is in operation on or before January 1, 2004.

In the case of a unit being converted to a basic clean coal technology unit, such term shall not include a unit having a nameplate capacity rating of more than 300 megawatts.

“(3) New advanced clean coal technology unit.—The term ‘new advanced clean coal technology unit’ means any advanced clean coal technology unit which is placed in service after December 31, 2003, and the original use of which commences with the taxpayer.

“(d) Basic Clean Coal Technology Unit.—For purposes of this section—

“(1) In general.—The term ‘basic clean coal technology unit’ means a unit which—

“(A) uses clean coal technology (including advanced pulverized coal or atmospheric fluidized bed combustion, pressurized fluidized bed combustion, and integrated gasification combined cycle) for the production of electricity,

“(B) uses an input of at least 75 percent coal to produce at least 50 percent of its thermal output as electricity,

“(C) has a design net heat rate of at least 500 less than that of the existing coal-based unit prior to its conversion,

“(D) has a maximum design net heat rate of not more than 9,500, and

“(E) meets the pollution control requirements of paragraph (2).

Such term shall not include an advanced clean coal technology unit.

“(2) Pollution control requirements.—

“(A) In general.—A unit meets the requirements of this paragraph if—

“(i) its emissions of sulfur dioxide, nitrogen oxide, or particulates meet the lower of the emission levels for each such emission specified in—

“(I) subparagraph (B), or

“(II) the new source performance standards of the Clean Air Act (42 U.S.C. 7411) which are in effect for the category of source at the time of the conversion of the unit, and

“(ii) its emissions do not exceed any relevant emission level specified by regulation pursuant to the hazardous air pollutant requirements of the Clean Air Act (42 U.S.C. 7412) in effect at the time of the conversion of the unit.

“(B) Specific levels.—The levels specified in this subparagraph are—

“(i) in the case of sulfur dioxide emissions, 50 percent of the sulfur dioxide emission levels specified in the new source performance standards of the Clean Air Act (42 U.S.C. 7411) in effect on the date of the enactment of this section for the category of source,

“(ii) in the case of nitrogen oxide emissions—

“(I) 0.1 pound per million Btu of heat input if the unit is not a cyclone-fired boiler, and

“(II) if the unit is a cyclone-fired boiler, 15 percent of the uncontrolled nitrogen oxide emissions from such boilers, and

“(iii) in the case of particulate emissions, 0.02 pound per million Btu of heat input.

“(3) Design net heat rate.—The design net heat rate with respect to any unit, measured in Btu per kilowatt hour (HHV)—

“(A) shall be based on the design annual heat input to and the design annual net electrical power, fuels, and chemicals output from such unit (determined without regard to such unit's co-generation of steam),

“(B) shall be adjusted for the heat content of the design coal to be used by the unit if it is less than 12,000 Btu per pound according to the following formula:

Design net heat rate = Unit net heat rate [1−{((12,000-design coal heat content, Btu per pound)/1,000) 0.013}].

“(C) shall be corrected for the site reference conditions of—

“(i) elevation above sea level of 500 feet,

“(ii) air pressure of 14.4 pounds per square inch absolute (psia),

“(iii) temperature, dry bulb of 63° F,

“(iv) temperature, wet bulb of 54° F, and

“(v) relative humidity of 55 percent, and

“(D) if carbon capture controls have been installed with respect to any existing coal-based unit and such controls remove at least 50 percent of the unit's carbon dioxide emissions, shall be adjusted up to the design heat rate level which would have resulted without the installation of such controls.

“(4) HHV.—The term ‘HHV’ means higher heating value.

“(e) Advanced Clean Coal Technology Unit.—For purposes of this section—

“(1) In general.—The term ‘advanced clean coal technology unit’ means any electricity generating unit of the taxpayer—

“(A) which is—

“(i) an eligible advanced pulverized coal or atmospheric fluidized bed combustion technology unit,

“(ii) an eligible pressurized fluidized bed combustion technology unit,

“(iii) an eligible integrated gasification combined cycle technology unit, or

“(iv) an eligible other technology unit,

“(B) which uses an input of at least 75 percent coal to produce at least 50 percent of its thermal output as electricity, and

“(C) which meets the carbon emission rate requirements of paragraph (6).

“(2) Eligible advanced pulverized coal or atmospheric fluidized bed combustion technology unit.—The term ‘eligible advanced pulverized coal or atmospheric fluidized bed combustion technology unit’ means a clean coal technology unit using advanced pulverized coal or atmospheric fluidized bed combustion technology which has a design net heat rate of not more than 8,500 (8,900 in the case of units placed in service before 2009).

“(3) Eligible pressurized fluidized bed combustion technology unit.—The term ‘eligible pressurized fluidized bed combustion technology unit’ means a clean coal technology unit using pressurized fluidized bed combustion technology which has a design net heat rate of not more than 7,720 (8,900 in the case of units placed in service before 2009, and 8,500 in the case of units placed in service after 2008 and before 2013).

“(4) Eligible integrated gasification combined cycle technology unit.—The term ‘eligible integrated gasification combined cycle technology unit’ means a clean coal technology unit using integrated gasification combined cycle technology, with or without fuel or chemical co-production—

“(A) which has a design net heat rate of not more than 7,720 (8,900 in the case of units placed in service before 2009, and 8,500 in the case of units placed in service after 2008 and before 2013), and

“(B) has a net thermal efficiency (HHV) using coal with fuel or chemical co-production of not less than 44.2 percent (38.4 percent in the case of units placed in service before 2009, and 40.2 percent in the case of units placed in service after 2008 and before 2013).

“(5) Eligible other technology unit.—The term ‘eligible other technology unit’ means a clean coal technology unit—

“(A) which uses any other technology for the production of electricity, and

“(B) which has a design net heat rate which meets the requirement of paragraph (2).

“(6) Carbon emission rate requirements.—

“(A) In general.—Except as provided in subparagraph (B), a unit meets the requirements of this paragraph if—

“(i) in the case of a unit using design coal with a heat content of not more than 9,000 Btu per pound, the carbon emission rate is less than 0.60 pound of carbon per kilowatt hour, and

“(ii) in the case of a unit using design coal with a heat content of more than 9,000 Btu per pound, the carbon emission rate is less than 0.54 pound of carbon per kilowatt hour.

“(B) Eligible other technology unit.—In the case of an eligible other technology unit, subparagraph (A) shall be applied by substituting ‘0.51’ and ‘0.459’ for ‘0.60’ and ‘0.54’, respectively.

“(f) National Limitations on Credit.—For purposes of this section—

“(1) In general.—The amount of credit which would (but for this subsection) be allowed with respect to any property shall not exceed the amount which bears the same ratio to such amount of credit as—

“(A) the national megawatt capacity limitation allocated to the taxpayer with respect to the basic or advanced clean coal technology unit to which such property relates, bears to

“(B) the total megawatt capacity of such unit. The capacity described in subparagraph (B) shall be the reasonably expected capacity after the installation of the property.

“(2) Amount of national limitation.—

“(A) Advanced units.—The national megawatt capacity limitation for advanced clean coal technology units shall be 6,000 megawatts. Of such amount, the national megawatt capacity limitation is—

“(i) for advanced clean coal technology units using advanced pulverized coal or atmospheric fluidized bed combustion technology, not more than 1,500 megawatts (not more than 750 megawatts in the case of units placed in service before 2009),

“(ii) for such units using pressurized fluidized bed combustion technology, not more than 750 megawatts (not more than 375 megawatts in the case of units placed in service before 2009),

“(iii) for such units using integrated gasification combined cycle technology, with or without fuel or chemical co-production, not more than 3,000 megawatts (not more than 1,250 megawatts in the case of units placed in service before 2009), and

“(iv) for such units using other technology for the production of electricity, not more than 750 megawatts (not more than 375 megawatts in the case of units placed in service before 2009).

“(B) Basic units.—The national megawatt capacity limitation for basic clean coal technology units shall be 4,000 megawatts.

“(3) Allocation of limitation.—The Secretary shall allocate the national megawatt capacity limitations in such manner as the Secretary may prescribe, except that the Secretary may not allocate more than 300 megawatts to any basic clean coal technology unit.

"(4) REGULATIONS.—Not later than 6 months after the date of the enactment of this section, the Secretary shall prescribe such regulations as may be necessary or appropriate to carry out the purposes of this subsection. Such regulations shall provide a certification process under which the Secretary, after consultation with the Secretary of Energy, shall approve and allocate the national megawatt capacity limitations—

"(A) to encourage that units with the highest thermal efficiencies, when adjusted for the heat content of the design coal and site reference conditions, and environmental performance, be placed in service as soon as possible, and

"(B) to allocate capacity to taxpayers which have a definite and credible plan for placing into commercial operation a basic or advanced clean coal technology unit, including—

"(i) a site,

"(ii) contractual commitments for procurement and construction or, in the case of regulated utilities, the agreement of the State utility commission,

"(iii) filings for all necessary preconstruction approvals,

"(iv) a demonstrated record of having successfully completed comparable projects on a timely basis, and

"(v) such other factors which the Secretary determines are appropriate.

"(g) SPECIAL RULES.—For purposes of this section—

"(1) CERTAIN PROGRESS EXPENDITURE RULES MADE APPLICABLE.—Rules similar to the rules of subsections (c)(4) and (d) of section 46 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990) shall apply for purposes of this section.

"(2) PROPERTY FINANCED BY SUBSIDIZED FINANCING OR INDUSTRIAL DEVELOPMENT BONDS.—Rules similar to the rules of section 45(b)(3) shall apply for purposes of this section.

"(3) NONCOMPLIANCE WITH POLLUTION LAWS.—The terms 'basic clean coal technology unit' and 'advanced clean coal technology unit' shall not include any unit which is not in compliance with the applicable Federal pollution prevention, control, and permit requirements at any time during the period applicable under subsection (c)(1)(B).

"(4) DENIAL OF CREDIT FOR UNITS RECEIVING CERTAIN OTHER FEDERAL ASSISTANCE.—The terms 'basic clean coal technology unit' and 'advanced clean coal technology unit' shall not include any unit if, at any time during the period applicable under subsection (c)(1)(B), any funding is provided to such unit under the Clean Coal Technology Program, the Power Plant Improvement Initiative, or the Clean Coal Power Initiative administered by the Secretary of Energy.

"(5) COORDINATION WITH OTHER CREDITS.—This section shall not apply to any property with respect to which the rehabilitation credit under section 47, the energy credit under section 48, or any credit under section 45 or 45K is allowable unless the taxpayer elects to waive the application of such credit to such property.".

(b) SPECIAL RECAPTURE RULES.—

(1) Subsection (a) of section 50 is amended by redesignating paragraph (3), (4), and (5) as paragraphs (4), (5), and (6), respectively, and by inserting after paragraph (2) the following new paragraph:

"(3) SPECIAL RULES FOR CLEAN COAL TECHNOLOGY CREDITS.—

"(A) EARLY DISPOSITION, ETC.—If, during any taxable year, qualified clean coal property is disposed of, or otherwise ceases to be part of a basic or advanced clean coal technology unit with respect to the taxpayer, before the close of the recovery period under section 168 for such unit, then the tax under this chapter for such taxable year shall be increased by—

"(i) the aggregate decrease in the credits allowed under section 38 for all prior taxable years which would have resulted solely from reducing to zero any credit determined under section 48A with respect to such property, multiplied by

"(ii) a fraction—

"(I) the numerator of which is the number of years in the period beginning with the year of such disposition or cessation and ending with the last year of such recovery period, and

"(II) the denominator of which is the total number of years in such recovery period.

"(B) PROPERTY CEASES TO QUALIFY FOR PROGRESS EXPENDITURES.—Rules similar to the rules of this paragraph shall apply in cases where qualified progress expenditures were taken into account under the rules referred to in section 48A(g)(1).

"(C) INCREASED RECAPTURE IN CERTAIN CASES.—The fraction in subparagraph (A)(ii) shall be 1 in any case in which the property ceases to be a basic or advanced clean coal technology unit by reason of paragraph (3), (4), or (5) of section 48A(g).

"(D) COORDINATION WITH OTHER RECAPTURE RULES.—Paragraphs (1) and (2) shall not apply to qualified clean coal property.

"(E) DEFINITIONS.—Terms used in this section which are also used in section 48A shall have the meanings given to such terms in section 48A.".

(2) Paragraph (4) of section 50(a), as redesignated by paragraph (1), is amended by striking "or (2)" and inserting ", (2), or (3)".

(3) Paragraph (5) of section 50(a), as so redesignated, is amended by striking "and (2)" and inserting ", (2), and (3)".

(4) Section 1371(d)(1) is amended by striking "section 50(a)(4)" and inserting "section 50(a)(5)".

(c) TECHNICAL AMENDMENTS.—

(1) Section 46 (relating to amount of credit) is amended by striking "and" at the end of paragraph (2), by striking the period at the end of paragraph (3) and inserting ", and", and by adding at the end the following new paragraph:

"(4) the clean coal technology credit.".

(2) Section 49(a)(1)(C) is amended by striking "and" at the end of clause (ii), by striking the period at the end of clause (iii) and inserting ", and", and by adding at the end the following new clause:

"(iv) the portion of the basis of any qualified clean coal property (as defined by section 48A(c)).".

(3) The table of sections for subpart E of part IV of subchapter A of chapter 1 is amended by inserting after the item relating to section 48 the following new item:

"Sec. 48A. Clean coal technology credit.".

(d) EFFECTIVE DATE.—The amendments made by this section shall apply to periods after December 31, 2003, under rules similar to the rules of section 48(m) of the Internal Revenue Code of 1986 (as in effect on the day before the date of the enactment of the Revenue Reconciliation Act of 1990).

SEC. 1352. EXPANSION OF AMORTIZATION FOR CERTAIN POLLUTION CONTROL FACILITIES.

(a) ELIGIBILITY OF POST-1975 POLLUTION CONTROL FACILITIES.—

(1) IN GENERAL.—Paragraph (1) of section 169(d) is amended by striking "before January 1, 1976," and by striking "a new identifiable" and inserting "an identifiable".

(2) IDENTIFIABLE TREATMENT FACILITY.—Paragraph (4) of section 169(d) is amended to read as follows:

"(4) IDENTIFIABLE TREATMENT FACILITY.—For purposes of paragraph (1), the term 'identifiable treatment facility' includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in section 167, which is identifiable as a treatment facility, and which is property—

"(A) the construction, reconstruction, or erection of which is completed by the taxpayer, or

"(B) the original use of the property commences with the taxpayer."

(3) TECHNICAL AMENDMENT.—Section 169(d)(3) is amended by striking "Health, Education, and Welfare" and inserting "Health and Human Services".

(b) COORDINATION WITH SECTION 48A INVESTMENT CREDIT.—Section 169 is amended by redesignating subsections (e) though (j) as subsection (f) through (k), respectively, and by inserting after subsection (d) the following new subsection:

"(e) COORDINATION WITH SECTION 48A INVESTMENT CREDIT.—

"(1) IN GENERAL.—In the case of any treatment facility used in connection with a plant or other property to which an amount is allocated under section 48A(f), this section shall apply only if such plant or other property was in operation before January 1, 1976.

"(2) 36-MONTH AMORTIZATION WITH RESPECT TO PRE-1976 PLANTS NOT ALLOCATED CREDIT.—References in this section to 60 months shall be treated as references to 36 months in the case of treatment facilities used in connection with a plant or other property in operation before January 1, 1976, if no allocation is made under section 48A(f) with respect to such plant or property."

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to facilities placed in service after the date of the enactment of this Act.

SEC. 1353. 5-YEAR RECOVERY PERIOD FOR ELIGIBLE INTEGRATED GASIFICATION COMBINED CYCLE TECHNOLOGY UNIT ELIGIBLE FOR CREDIT.

(a) IN GENERAL.—Subparagraph (B) of section 168(e)(3) (defining 5-year property) is amended by striking "and" at the end of clause (v), by striking the period at the end of clause (vi) and inserting ", and", and by inserting after clause (vi) the following new clause:

"(vii) any section 1245 property which is part of an eligible integrated gasification combined cycle technology unit (as defined in section 48A(e)(4)) for which an allocation is made under section 48A(f)."

(b) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) (relating to special rule for certain property assigned to classes) is amended by inserting after the item relating to subparagraph (B)(iii) the following new item:

"(B)(vii) .... 20".

(c) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service after the date of the enactment of this Act in taxable years ending after such date.

PART IV—HIGH VOLUME NATURAL GAS PROVISIONS

SEC. 1355. HIGH VOLUME NATURAL GAS PIPE TREATED AS 7-YEAR PROPERTY.

(a) IN GENERAL.—Section 168(e)(3)(C) (defining 7-year property), as amended by this Act, is amended by striking "and" at the end of clause (ii), by redesignating clause (iii) as clause (iv), and by inserting after clause (ii) the following new clause:

"(iii) any high volume natural gas pipe the original use of which commences with the taxpayer after the date of the enactment of this clause, and".

(b) HIGH VOLUME NATURAL GAS PIPE.—Section 168(i) (relating to definitions and special rules), as amended by this Act, is amended by adding at the end the following new paragraph:

"(17) HIGH VOLUME NATURAL GAS PIPE.—The term 'high volume natural gas pipe' means—

"(A) pipe which has an interior diameter of at least 42 inches and which is part of a natural gas pipeline system, and

"(B) any related equipment and appurtenances used in connection with such pipe.".

(c) ALTERNATIVE SYSTEM.—The table contained in section 168(g)(3)(B) (relating to special rule for certain property assigned to classes), as amended by this Act, is amended by inserting after the item relating to subparagraph (C)(ii) the following new item:

"(C)(iii) .... 22".

(d) ALTERNATIVE MINIMUM TAX EXCEPTION.—Subparagraph (B) of section 56(a)(1), as amended by this Act, is amended by inserting before the period the following: ", or in section 168(e)(3)(C)(iii)".

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to property placed in service on or after the date of the enactment of this Act.

SEC. 1356. EXTENSION OF ENHANCED OIL RECOVERY CREDIT TO HIGH VOLUME NATURAL GAS FACILITIES.

(a) IN GENERAL.—Section 43(c)(1) (defining qualified enhanced oil recovery costs) is amended by adding at the end the following new subparagraph:

"(D) Any amount which is paid or incurred during the taxable year in connection with the construction of a gas treatment plant which—

"(i) prepares natural gas for transportation through a pipeline with a capacity of at least 1,000,000,000,000 Btu of natural gas per day, and

"(ii) produces carbon dioxide which is injected into hydrocarbon-bearing geological formations.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to costs paid or incurred in taxable years beginning after December 31, 2003.

Subtitle D—Additional Provisions

SEC. 1361. EXTENSION OF ACCELERATED DEPRECIATION BENEFIT FOR ENERGY-RELATED BUSINESSES ON INDIAN RESERVATIONS.

Paragraph (8) of section 168(j) (relating to termination) is amended by adding at the end the following new sentence: "The preceding sentence shall be applied by substituting 'December 31, 2005' for 'December 31, 2004' in the case of property placed in service as part of a facility for—

"(A) the generation or transmission of electricity (including from any qualified energy resource, as defined in section 45(c)),

"(B) an oil or gas well,

"(C) the transmission or refining of oil or gas, or

"(D) the production of any qualified fuel (as defined in section 45K(c)).".

SEC. 1362. PAYMENT OF DIVIDENDS ON STOCK OF COOPERATIVES WITHOUT REDUCING PATRONAGE DIVIDENDS.

(a) IN GENERAL.—Subsection (a) of section 1388 (relating to patronage dividend defined) is amended by adding at the end the following: "For purposes of paragraph (3), net earnings shall not be reduced by amounts paid during the year as dividends on capital stock or other proprietary capital interests of the organization to the extent that the articles of incorporation or bylaws of such organization or other contract with patrons provide that such dividends are in addition to amounts otherwise payable to patrons which are derived from business done with or for patrons during the taxable year.".

(b) EFFECTIVE DATE.—The amendment made by this section shall apply to distributions in taxable years ending after the date of the enactment of this Act.

SEC. 1363. DISTRIBUTIONS FROM PUBLICLY TRADED PARTNERSHIPS TREATED AS QUALIFYING INCOME OF REGULATED INVESTMENT COMPANIES.

(a) IN GENERAL.—Paragraph (2) of section 851(b) (defining regulated investment company) is amended to read as follows:

"(2) at least 90 percent of its gross income is derived from—

"(A) dividends, interest, payments with respect to securities loans (as defined in section 512(a)(5)), and gains from the sale or other disposition of stock or securities (as defined in section 2(a)(36) of the Investment Company Act of 1940, as amended) or foreign currencies, or other income (including but not limited to gains from options, futures or forward contracts) derived with respect to its business of investing in such stock, securities, or currencies, and

"(B) distributions or other income derived from an interest in a qualified publicly traded partnership (as defined in subsection (h)); and"

(b) SOURCE FLOW-THROUGH RULE NOT TO APPLY.—The last sentence of section 851(b) is amended by inserting "(other than a qualified publicly traded partnership as defined in subsection (h))" after "derived from a partnership".

(c) LIMITATION ON OWNERSHIP.—Subsection (c) of section 851 is amended by redesignating paragraph (5) as paragraph (6) and inserting after paragraph (4) the following new paragraph:

"(5) The term 'outstanding voting securities of such issuer' shall include the equity securities of a qualified publicly traded partnership (as defined in subsection (h)).".

(d) DEFINITION OF QUALIFIED PUBLICLY TRADED PARTNERSHIP.—Section 851 is amended by adding at the end the following new subsection:

"(h) QUALIFIED PUBLICLY TRADED PARTNERSHIP.—For purposes of this section, the term 'qualified publicly traded partnership' means a publicly traded partnership described in section 7704(b) other than a partnership which would satisfy the gross income requirements of section 7704(c)(2) if qualifying income included only income described in subsection (b)(2)(A).".

(e) DEFINITION OF QUALIFYING INCOME.—Section 7704(d)(4) is amended by striking "section 851(b)(2)" and inserting "section 851(b)(2)(A)".

(f) LIMITATION ON COMPOSITION OF ASSETS.—Subparagraph (B) of section 851(b)(3) is amended to read as follows:

"(B) not more than 25 percent of the value of its total assets is invested in—

"(i) the securities (other than Government securities or the securities of other regulated investment companies) of any one issuer,

"(ii) the securities (other than the securities of other regulated investment companies) of two or more issuers which the taxpayer controls and which are determined, under regulations prescribed by the Secretary, to be engaged in the same or similar trades or businesses or related trades or businesses, or

"(iii) the securities of one or more qualified publicly traded partnerships (as defined in subsection (h)).".

(g) APPLICATION OF SPECIAL PASSIVE ACTIVITY RULE TO REGULATED INVESTMENT COMPANIES.—Subsection (k) of section 469 (relating to separate application of section in case of publicly traded partnerships) is amended by adding at the end the following new paragraph:

"(4) APPLICATION TO REGULATED INVESTMENT COMPANIES.—For purposes of this section, a regulated investment company (as defined in section 851) holding an interest in a qualified publicly traded partnership (as defined in section 851(h)) shall be treated as a taxpayer described in subsection (a)(2) with respect to items attributable to such interest.".

(h) EFFECTIVE DATE.—The amendments made by this section shall apply to taxable years beginning after the date of the enactment of this Act.

SEC. 1364. CEILING FANS.

(a) IN GENERAL.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

9902.84.14	Ceiling fans for permanent installation (provided for in subheading 8414.51.00).	Free	No change	No change	On or before 12/31/2005	."

(b) EFFECTIVE DATE.—The amendment made by this section applies to goods entered, or withdrawn from warehouse, for consumption on or after the 15th day after the date of enactment of this Act.

SEC. 1365. CERTAIN STEAM GENERATORS, AND CERTAIN REACTOR VESSEL HEADS, USED IN NUCLEAR FACILITIES.

(a) CERTAIN STEAM GENERATORS.—Heading 9902.84.02 of the Harmonized Tariff Schedule of the United States is amended by striking "12/31/2006" and inserting "12/31/2008".

(b) CERTAIN REACTOR VESSEL HEADS.—Subchapter II of chapter 99 of the Harmonized Tariff Schedule of the United States is amended by inserting in numerical sequence the following new heading:

9902.84.03	Reactor vessel heads for nuclear reactors (provided for in subheading 8401.40.00).	Free	No change	No change	On or before 12/31/2007	."

(c) EFFECTIVE DATE.—

(1) SUBSECTION (a).—The amendment made by subsection (a) shall take effect on the date of the enactment of this Act.

(2) SUBSECTION (b).—The amendment made by subsection (b) shall apply to goods entered, or withdrawn from warehouse, for consumption on or after the 15th day after the date of the enactment of this Act.

SEC. 1366. BROWNFIELDS DEMONSTRATION PROGRAM FOR QUALIFIED GREEN BUILDING AND SUSTAINABLE DESIGN PROJECTS.

(a) TREATMENT AS EXEMPT FACILITY BOND.—Subsection (a) of section 142 (relating to the definition of exempt facility bond) is amended by striking "or" at the end of paragraph (12), by striking the period at the end of paragraph (13) and inserting ", or", and by inserting at the end the following new paragraph:

"(14) qualified green building and sustainable design projects.".

(b) QUALIFIED GREEN BUILDING AND SUSTAINABLE DESIGN PROJECTS.—Section 142 (relating to exempt facility bonds) is amended by adding at the end thereof the following new subsection:

"(l) QUALIFIED GREEN BUILDING AND SUSTAINABLE DESIGN PROJECTS.—

"(1) IN GENERAL.—For purposes of subsection (a)(14), the term 'qualified green building and sustainable design project' means any project which is designated by the Secretary, after consultation with the Administrator of the Environmental Protection Agency, as a qualified green building and sustainable design project and which meets the requirements of clauses (i), (ii), (iii), and (iv) of paragraph (4)(A).

"(2) DESIGNATIONS.—

"(A) IN GENERAL.—Within 60 days after the end of the application period described in paragraph (3)(A), the Secretary, after consultation with the Administrator of the Environmental Protection Agency, shall designate qualified green building and sustainable design projects. At least one of the projects designated shall be located in, or within a 10-mile radius of, an empowerment zone as designated pursuant to section 1391, and at least one of the projects designated shall be located in a rural State. No more than one project shall be designated in a State. A project shall not be designated if such project includes a stadium or arena for professional sports exhibitions or games.

"(B) MINIMUM CONSERVATION AND TECHNOLOGY INNOVATION OBJECTIVES.—The Secretary, after consultation with the Administrator of the Environmental Protection Agency, shall ensure that, in the aggregate, the projects designated shall—

"(i) reduce electric consumption by more than 150 megawatts annually as compared to conventional construction,

"(ii) reduce daily sulfur dioxide emissions by at least 10 tons compared to coal generation power,

"(iii) expand by 75 percent the domestic solar photovoltaic market in the United States (measured in megawatts) as compared to the expansion of that market from 2001 to 2002, and

"(iv) use at least 25 megawatts of fuel cell energy generation.

"(3) LIMITED DESIGNATIONS.—A project may not be designated under this subsection unless—

"(A) the project is nominated by a State or local government within 180 days of the enactment of this subsection, and

"(B) such State or local government provides written assurances that the project will satisfy the eligibility criteria described in paragraph (4).

"(4) APPLICATION.—

"(A) IN GENERAL.—A project may not be designated under this subsection unless the application for such designation includes a project proposal which describes the energy efficiency, renewable energy, and sustainable design features of the project and demonstrates that the project satisfies the following eligibility criteria:

"(i) GREEN BUILDING AND SUSTAINABLE DESIGN.—At least 75 percent of the square footage of commercial buildings which are part of the project is registered for United States Green Building Council's LEED certification and is reasonably expected (at the time of the designation) to receive such certification.

"(ii) BROWNFIELD REDEVELOPMENT.—The project includes a brownfield site as defined by section 101(39) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601), including a site described in subparagraph (D)(ii)(II)(aa) thereof.

"(iii) STATE AND LOCAL SUPPORT.—The project receives specific State or local government resources which will support the project in an amount equal to at least $5,000,000. For purposes of the preceding sentence, the term 'resources' includes tax abatement benefits and contributions in kind.

"(iv) SIZE.—The project includes at least one of the following:

"(I) At least 1,000,000 square feet of building.

"(II) At least 20 acres.

"(v) USE OF TAX BENEFIT.—The project proposal includes a description of the net benefit of the tax-exempt financing provided under this subsection which will be allocated for financing of one or more of the following:

"(I) The purchase, construction, integration, or other use of energy efficiency, renewable energy, and sustainable design features of the project.

"(II) Compliance with LEED certification standards.

"(III) The purchase, remediation, and foundation construction and preparation of the brownfields site.

"(vi) EMPLOYMENT.—The project is projected to provide permanent employment of at least 1,500 full time equivalents (150 full time equivalents in rural States) when completed and construction employment of at least 1,000 full time equivalents (100 full time equivalents in rural States).

The application shall include an independent analysis which describes the project's economic impact, including the amount of projected employment.

"(B) PROJECT DESCRIPTION.—Each application described in subparagraph (A) shall contain for each project a description of—

"(i) the amount of electric consumption reduced as compared to conventional construction,

"(ii) the amount of sulfur dioxide daily emissions reduced compared to coal generation,

"(iii) the amount of the gross installed capacity of the project's solar photovoltaic capacity measured in megawatts, and

"(iv) the amount, in megawatts, of the project's fuel cell energy generation.

"(5) CERTIFICATION OF USE OF TAX BENEFIT.—No later than 30 days after the completion of the project, each project must certify to the Secretary that the net benefit of the tax-exempt financing was used for the purposes described in paragraph (4).

"(6) DEFINITIONS.—For purposes of this subsection—

"(A) RURAL STATE.—The term 'rural State' means any State which has—

"(i) a population of less than 4,500,000 according to the 2000 census,

"(ii) a population density of less than 150 people per square mile according to the 2000 census, and

"(iii) increased in population by less than half the rate of the national increase between the 1990 and 2000 censuses.

"(B) LOCAL GOVERNMENT.—The term 'local government' has the meaning given such term by section 1393(a)(5).

"(C) NET BENEFIT OF TAX-EXEMPT FINANCING.—The term 'net benefit of tax-exempt financing' means the present value of the interest savings (determined by a calculation established by the Secretary) which result from the tax-exempt status of the bonds.

"(7) AGGREGATE FACE AMOUNT OF TAX-EXEMPT FINANCING.—

"(A) IN GENERAL.—An issue shall not be treated as an issue described in subsection (a)(14) if the aggregate face amount of bonds issued by the State or local government pursuant thereto for a project (when added to the aggregate face amount of bonds previously so issued for such project) exceeds an amount designated by the Secretary as part of the designation.

"(B) LIMITATION ON AMOUNT OF BONDS.—The Secretary may not allocate authority to issue qualified green building and sustainable design project bonds in an aggregate face amount exceeding $2,000,000,000.

"(8) TERMINATION.—Subsection (a)(14) shall not apply with respect to any bond issued after September 30, 2009.

"(9) TREATMENT OF CURRENT REFUNDING BONDS.—Paragraphs (7)(B) and (8) shall not apply to any bond (or series of bonds) issued to refund a bond issued under subsection (a)(14) before October 1, 2009, if—

"(A) the average maturity date of the issue of which the refunding bond is a part is not later than the average maturity date of the bonds to be refunded by such issue,

"(B) the amount of the refunding bond does not exceed the outstanding amount of the refunded bond, and

"(C) the net proceeds of the refunding bond are used to redeem the refunded bond not later than 90 days after the date of the issuance of the refunding bond.

For purposes of subparagraph (A), average maturity shall be determined in accordance with section 147(b)(2)(A).".

(c) EXEMPTION FROM GENERAL STATE VOLUME CAPS.—Paragraph (3) of section 146(g) (relating to exception for certain bonds) is amended—

(1) by striking "or (13)" and inserting "(13), or (14)", and

(2) by striking "and qualified public educational facilities" and inserting "qualified public educational facilities, and qualified green building and sustainable design projects".

(d) SPECIAL RULE FOR ASSETS FINANCED UNDER THIS SECTION AND ACCOUNTABILITY.—

(1) DENIAL OF DOUBLE BENEFIT.—Any asset financed with bonds issued pursuant to this section shall be ineligible for any credit or deduction established under the Energy Tax Policy Act of 2003.

(2) ACCOUNTABILITY.—Each issuer shall maintain, on behalf of each project, an interest bearing reserve account equal to 1 percent of the net proceeds of any bond issued under this section for such project. Not later than 5 years after the date of issuance, the Secretary of the Treasury, after consultation with the Administrator of the Environmental Protection Agency, shall determine whether the project financed with such bonds has substantially complied with the terms and conditions described in section 142(l)(4) of the Internal Revenue Code of 1986 (as added by this section). If the Secretary, after such consultation, certifies that the project has substantially complied with such terms and conditions and meets the commitments set forth in the application for such project described in section 142(l)(4) of such Code, amounts in the reserve account, including all interest, shall be released to the project. If the Secretary determines that the project has not substantially complied with such terms and conditions, amounts in the reserve account, including all interest, shall be paid to the United States Treasury.

(e) EFFECTIVE DATE.—The amendments made by this section shall apply to bonds issued after the date of the enactment of this Act.

TITLE XIV—MISCELLANEOUS

Subtitle A—Rural and Remote Electricity Construction

SEC. 1401. DENALI COMMISSION PROGRAMS.

(a) POWER COST EQUALIZATION PROGRAM.—There are authorized to be appropriated to the Denali Commission established by the Denali Commission Act of 1998 (42 U.S.C. 3121 note) not more than $5,000,000 for each of fiscal years 2005 through 2011 for the purposes of funding the power cost equalization program established under section 42.45.100 of the Alaska Statutes.

(b) AVAILABILITY OF FUNDS.—

(1) PURPOSE.—Amounts described in paragraph (2) shall be available to the Denali Commission to permit energy generation and development (including fuel cells, hydroelectric, solar, wind, wave, and tidal energy, and alternative energy sources), energy transmission (including interties), fuel tank replacement and clean-up, fuel transportation networks and related facilities, power cost equalization programs, and other energy programs, notwithstanding any other provision of law.

(2) AMOUNTS.—(A) Except as provided in subparagraph (B), the amounts referred to in paragraph (1) shall be any Federal royalties, rents, and bonuses derived from the Federal share of Federal oil and gas leases in the National Petroleum Reserve in Alaska, up to a maximum of $50,000,000, for each of the fiscal years 2004 through 2013.

(B) If amounts available under subparagraph (A) for one of the fiscal years 2004 through 2013 are less than $50,000,000, the Secretary of Energy shall make available an amount sufficient to ensure that the amount available under this subsection for that fiscal year equals $50,000,000, from amounts remaining after deposits are made under section 949(a)(1), from the same source from which those deposits are made.

SEC. 1402. RURAL AND REMOTE COMMUNITY ASSISTANCE.

(a) PROGRAM.—Section 19 of the Rural Electrification Act of 1936 (7 U.S.C 918a) is amended by striking all that precedes subsection (b) and inserting the following:

"SEC. 19. ELECTRIC GENERATION, TRANSMISSION, AND DISTRIBUTION FACILITIES EFFICIENCY GRANTS AND LOANS TO RURAL AND REMOTE COMMUNITIES WITH EXTREMELY HIGH ELECTRICITY COSTS.

"(a) IN GENERAL.—The Secretary, acting through the Rural Utilities Service, may—

"(1) in coordination with State rural development initiatives, make grants and loans to persons, States, political subdivisions of States, and other entities organized under the laws of States, to acquire, construct, extend, upgrade, and otherwise improve electric generation, transmission, and distribution facilities serving communities in which the average revenue per kilowatt hour of electricity for all consumers is greater than 150 percent of the average revenue per kilowatt hour of electricity for all consumers in the United States (as determined by the Energy Information Administration using the most recent data available);

"(2) make grants and loans to the Denali Commission established by the Denali Commission Act of 1998 (42 U.S.C. 3121 note; Public 105-277) to be used for the purpose of providing funds to acquire, construct, extend, upgrade, finance, and otherwise improve electric generation, transmission, and distribution facilities serving communities described in paragraph (1); and

"(3) make grants to State entities to establish and support a revolving fund to provide a more cost-effective means of purchasing fuel in areas where the fuel cannot be shipped by means of surface transportation.".

(b) DEFINITION OF PERSON.—Section 13 of the Rural Electrification Act of 1936 (7 U.S.C. 913) is amended by striking "or association" and inserting "association, or Indian tribe (as defined in section 4 of the Indian Self-Determination and Education Assistance Act)".

Subtitle B—Coastal Programs

SEC. 1411. ROYALTY PAYMENTS UNDER LEASES UNDER THE OUTER CONTINENTAL SHELF LANDS ACT.

(a) ROYALTY RELIEF.—

(1) IN GENERAL.—For purposes of providing compensation for lessees and a State for which amounts are authorized by section 6004(c) of the Oil Pollution Act of 1990 (Public Law 101-380), a lessee may withhold from payment any royalty due and owing to the United States under any leases under the Outer Continental Shelf Lands Act (43 U.S.C. 1301 et seq.) for offshore oil or gas production from a covered lease tract if, on or before the date that the payment is due and payable to the United States, the lessee makes a payment to the Secretary of the Interior of 44 cents for every $1 of royalty withheld.

(2) USE OF AMOUNTS PAID TO SECRETARY.—Within 30 days after the Secretary of the Interior receives payments under paragraph (1), the Secretary of the Interior shall—

(A) make 47.5 percent of such payments available to the State referred to in section 6004(c) of the Oil Pollution Act of 1990; and

(B) make 52.5 percent of such payments available equally, only for the programs and purposes identified as number 282 at page 1389 of House Report number 108-10 and for a program described at page 1159 of that Report in the State referred to in such section 6004(c).

(3) TREATMENT OF AMOUNTS.—Any royalty withheld by a lessee in accordance with this section (including any portion thereof that is paid to the Secretary of the Interior under paragraph (1)) shall be treated as paid for purposes of satisfaction of the royalty obligations of the lessee to the United States.

(4) CERTIFICATION OF WITHHELD AMOUNTS.—The Secretary of the Treasury shall—

(A) determine the amount of royalty withheld by a lessee under this section; and

(B) promptly publish a certification when the total amount of royalty withheld by the lessee under this section is equal to—

(i) the dollar amount stated at page 47 of Senate Report number 101-534, which is designated therein as the total drainage claim for the West Delta field; plus

(ii) interest as described at page 47 of that Report.

(b) PERIOD OF ROYALTY RELIEF.—Subsection (a) shall apply to royalty amounts that are due and payable in the period beginning on January 1, 2004, and ending on the date on which the Secretary of the Treasury publishes a certification under subsection (a)(4)(B).

(c) DEFINITIONS.—As used in this section:

(1) COVERED LEASE TRACT.—The term "covered lease tract" means a leased tract (or portion of a leased tract)—

(A) lying seaward of the zone defined and governed by section 8(g) of the Outer Continental Shelf Lands Act (43 U.S.C. 1337(g)); or

(B) lying within such zone but to which such section does not apply.

(2) LESSEE.—The term "lessee"—

(A) means a person or entity that, on the date of the enactment of the Oil Pollution Act of 1990, was a lessee referred to in section 6004(c) of that Act (as in effect on that date of the enactment), but did not hold lease rights in Federal offshore lease OCS-G-5669; and

(B) includes successors and affiliates of a person or entity described in subparagraph (A).

SEC. 1412. DOMESTIC OFFSHORE ENERGY REINVESTMENT.

(a) DOMESTIC OFFSHORE ENERGY REINVESTMENT PROGRAM.—The Outer Continental Shelf Lands Act (43 U.S.C. 1331 et seq.) is amended by adding at the end the following:

"SEC. 32. DOMESTIC OFFSHORE ENERGY REINVESTMENT PROGRAM.

"(a) DEFINITIONS.—In this section:

"(1) APPROVED PLAN.—The term 'approved plan' means a Secure Energy Reinvestment Plan approved by the Secretary under this section.

"(2) COASTAL ENERGY STATE.—The term 'Coastal Energy State' means a Coastal State off the coastline of which, within the seaward lateral boundary as determined by the map referenced in subsection (c)(2)(A), outer Continental Shelf bonus bids or royalties are generated, other than bonus bids or royalties from a leased tract within any area of the outer Continental Shelf for which a moratorium on new leasing was in effect as of January 1, 2002, unless the lease was issued before the establishment of the moratorium and was in production on such date.

"(3) COASTAL POLITICAL SUBDIVISION.—The term 'coastal political subdivision' means a county, parish, or other equivalent subdivision of a Coastal Energy State, all or part of which lies within the boundaries of the coastal zone of the State, as identified in the State's approved coastal zone management program under the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.) on the date of the enactment of this section.

"(4) COASTAL POPULATION.—The term 'coastal population' means the population of a coastal political subdivision, as determined by the most recent official data of the Census Bureau.

"(5) COASTLINE.—The term 'coastline' has the same meaning as the term 'coast line' in subsection 2(c) of the Submerged Lands Act (43 U.S.C. 1301(c)).

"(6) FUND.—The term 'Fund' means the Secure Energy Reinvestment Fund established by this section.

"(7) LEASED TRACT.—The term 'leased tract' means a tract maintained under section 6 or leased under section 8 for the purpose of drilling for, developing, and producing oil and natural gas resources.

"(8) QUALIFIED OUTER CONTINENTAL SHELF REVENUES.—(A) Except as provided in subparagraph (B), the term 'qualified outer Continental Shelf revenues' means all amounts received by the United States on or after October 1, 2003, from each leased tract or portion of a leased tract lying seaward of the zone defined and governed by section 8(g), or lying within such zone but to which section 8(g) does not apply, including bonus bids, rents, royalties (including payments for royalties taken in kind and sold), net profit share payments, and related interest.

"(B) Such term does not include any revenues from a leased tract or portion of a leased tract that is included within any area of the outer Continental Shelf for which a moratorium on new leasing was in effect as of January 1, 2002, unless the lease was issued before the establishment of the moratorium and was in production on such date.

"(9) SECRETARY.—The term 'Secretary' means the Secretary of the Interior.

"(b) SECURE ENERGY REINVESTMENT FUND.—

"(1) ESTABLISHMENT.—There is established in the Treasury of the United States a separate account which shall be known as the 'Secure Energy Reinvestment Fund'. The Fund shall consist of amounts deposited under paragraph (2), and such other amounts as may be appropriated to the Fund.

"(2) DEPOSITS.—For each fiscal year after fiscal year 2003, the Secretary of the Treasury shall deposit into the Fund the following:

"(A) Notwithstanding section 9, all qualified outer Continental Shelf revenues attributable to royalties received by the United States in the fiscal year that are in excess of the following amount:

"(i) $3,455,000,000 in the case of royalties received in fiscal year 2004.

"(ii) $3,726,000,000 in the case of royalties received in fiscal year 2005.

"(iii) $4,613,000,000 in the case of royalties received in fiscal year 2006.

"(iv) $5,226,000,000 in the case of royalties received in fiscal year 2007.

"(v) $5,841,000,000 in the case of royalties received in fiscal year 2008.

"(vi) $5,763,000,000 in the case of royalties received in fiscal year 2009.

"(vii) $6,276,000,000 in the case of royalties received in fiscal year 2010.

"(viii) $6,351,000,000 in the case of royalties received in fiscal year 2011.

"(ix) $6,551,000,000 in the case of royalties received in fiscal year 2012.

"(x) $5,120,000,000 in the case of royalties received in fiscal year 2013.

"(B) Notwithstanding section 9, all qualified outer Continental shelf revenues attributable to bonus bids received by the United States in each of the fiscal years 2004 through 2013 that are in excess of $1,000,000,000.

"(C) Notwithstanding section 9, in addition to amounts deposited under subparagraphs (A) and (B), $35,000,000 of amounts received by the United States each fiscal year as royalties for oil or gas production on the outer Continental Shelf, except that no amounts shall be deposited under this subparagraph before fiscal year 2004 or after fiscal year 2013.

"(D) All interest earned under paragraph (4).

"(E) All repayments under subsection (f).

"(3) REDUCTION IN DEPOSIT.—(A) For each fiscal year after fiscal year 2013 in which amounts received by the United States as royalties for oil or gas production on the outer Continental Shelf are less than the sum of the amounts described in subparagraph (B) (before the application of this subparagraph), the Secretary of the Treasury shall reduce each of the amounts described in subparagraph (B) proportionately.

"(B) The amounts referred to in subparagraph (A) are the following:

"(i) The amount required to be covered into the Historic Preservation Fund under section 108 of the National Historic Preservation Act (16 U.S.C. 470h) on the date of the enactment of this paragraph.

"(ii) The amount required to be credited to the Land and Water Conservation Fund under section 2(c)(2) of the Land and Water Conservation Fund Act of 1965 (16 U.S.C. 4601–5(c)(2)) on the date of the enactment of this paragraph.

"(iii) The amount required to be deposited under subparagraph (C) of paragraph (2) of this subsection.

"(4) INVESTMENT.—The Secretary of the Treasury shall invest moneys in the Fund (including interest) in public debt securities with maturities suitable to the needs of the Fund, as determined by the Secretary of the Treasury, and bearing interest at rates determined by the Secretary of the Treasury, taking into consideration current market yields on outstanding marketable obligations of the United States of comparable maturity. Such invested moneys shall remain invested until needed to meet requirements for disbursement under this section.

"(5) REVIEW AND REVISION OF BASELINE AMOUNTS.—Not later than December 31, 2008, the Secretary of the Interior, in consultation with the Secretary of the Treasury, shall—

"(A) determine the amount and composition of outer Continental Shelf revenues that were received by the United States in each of the fiscal years 2004 through 2008;

"(B) project the amount and composition of outer Continental Shelf revenues that will be received in the United States in each of the fiscal years 2009 through 2013; and

"(C) submit to the Congress a report regarding whether any of the dollar amounts set forth in clauses (v) though (x) of paragraph (2)(A) or paragraph (2)(B) should be modified to reflect those projections.

"(6) AUTHORIZATION OF APPROPRIATION OF ADDITIONAL AMOUNTS.—In addition to the amounts deposited into the Fund under paragraph (2) there are authorized to be appropriated to the Fund—

"(A) for each of fiscal years 2004 through 2013 up to $500,000,000; and

"(B) for each fiscal year after fiscal year 2013 up to 25 percent of qualified outer Continental Shelf revenues received by the United States in the preceding fiscal year.

"(c) USE OF SECURE ENERGY REINVESTMENT FUND.—

"(1) IN GENERAL.—(A) The Secretary shall use amounts in the Fund remaining after the application of subsections (h) and (i) to pay to each Coastal Energy State that has a Secure Energy Reinvestment Plan approved by the Secretary under this section, and to coastal political subdivisions of such State, the amount allocated to the State or coastal political subdivision, respectively, under this subsection.

"(B) The Secretary shall make payments under this paragraph in December of 2004, and of each year thereafter, from revenues received by the United States in the immediately preceding fiscal year.

"(2) ALLOCATION.—The Secretary shall allocate amounts deposited into the Fund in a fiscal year, and other amounts determined by the Secretary to be available, among Coastal Energy States that have an approved plan, and to coastal political subdivisions of such States, as follows:

"(A)(i) Of the amounts made available for each of the first 10 fiscal years for which amounts are available for allocation under this paragraph, the allocation for each Coastal Energy State shall be calculated based on the ratio of qualified outer Continental Shelf revenues generated off the coastline of the Coastal Energy State to the qualified outer Continental Shelf revenues generated off the coastlines of all Coastal Energy States for the period beginning January 1, 1992, and ending December 31, 2001.

"(ii) Of the amounts available for a fiscal year in a subsequent 10-fiscal-year period, the allocation for each Coastal Energy State shall be calculated based on such ratio determined by the Secretary with respect to qualified outer Continental Shelf revenues generated in each subsequent corresponding 10-year period.

"(iii) For purposes of this subparagraph, qualified outer Continental Shelf revenues shall be considered to be generated off the coastline of a Coastal Energy State if the geographic center of the lease tract from which the revenues are generated is located within the area formed by the extension of the State's seaward lateral boundaries, calculated using the strict and scientifically derived conventions established to delimit international lateral boundaries under the Law of the Sea, as indicated on the map entitled 'Calculated Seaward Lateral Boundaries' and dated October 2003, on file in the Office of the Director, Minerals Management Service.

"(B) 35 percent of each Coastal Energy State's allocable share as determined under subparagraph (A) shall be allocated among and paid directly to the coastal political subdivisions of the State by the Secretary based on the following formula:

"(i) 25 percent shall be allocated based on the ratio of each coastal political subdivision's coastal population to the coastal population of all coastal political subdivisions of the Coastal Energy State.

"(ii) 25 percent shall be allocated based on the ratio of each coastal political subdivision's coastline miles to the coastline miles of all coastal political subdivisions of the State. In the case of a coastal political subdivision without a coastline, the coastline of the political subdivision for purposes of this clause shall be one-third the average length of the coastline of the other coastal political subdivisions of the State.

"(iii) 50 percent shall be allocated based on a formula that allocates 75 percent of the funds based on such coastal political subdivision's relative distance from any leased tract used to calculate that State's allocation and 25 percent of the funds based on the relative level of outer Continental Shelf oil and gas activities in a coastal political subdivision to the level of outer Continental Shelf oil and gas activities in all coastal political subdivisions in such State, as determined by the Secretary, except that in the case of a coastal political subdivision in the State of California that has a coastal shoreline, that is not within 200 miles of the geographic center of a leased tract or portion of a leased tract, and in which there is located one or more oil refineries the allocation under this clause shall be determined as if that coastal political subdivision were located within a distance of 50 miles from the geographic center of the closest leased tract with qualified outer Continental Shelf revenues.

"(3) REALLOCATION.—Any amount allocated to a Coastal Energy State or coastal political subdivision of such a State but not disbursed because of a failure of a Coastal Energy State to have an approved plan shall be reallocated by the Secretary among all other Coastal Energy States in a manner consistent with this subsection, except that the Secretary—

"(A) shall hold the amount in escrow within the Fund until the earlier of the end of the next fiscal year in which the allocation is made or the final resolution of any appeal regarding the disapproval of a plan submitted by the State under this section; and

"(B) shall continue to hold such amount in escrow until the end of the subsequent fiscal year thereafter, if the Secretary determines that such State is making a good faith effort to develop and submit, or update, a Secure Energy Reinvestment Plan under subsection (d).

"(4) MINIMUM SHARE.—Notwithstanding any other provision of this subsection, the amount allocated under this subsection to each Coastal Energy State each fiscal year shall be not less than 5 percent of the total amount available for that fiscal year for allocation under this subsection to Coastal Energy States, except that for any Coastal Energy State determined by the Secretary to have an area formed by the extension of the State's seaward lateral boundary, as designated by the map referenced in paragraph (2)(A)(iii), of less than 490 square statute miles, the amount allocated to such State shall not be less than 10 percent of the total amount available for that fiscal year for allocation under this subsection.

"(5) RECOMPUTATION.—If the allocation to one or more Coastal Energy States under paragraph (4) with respect to a fiscal year is greater than the amount that would be allocated to such States under this subsection if paragraph (4) did not apply, then the allocations under this subsection to all other Coastal Energy States shall be paid from the amount remaining after deduction of the amounts allocated under paragraph (4), but shall be reduced on a pro rata basis by the sum of the allocations under paragraph (4) so that not more than 100 percent of the funds available in the Fund for allocation with respect to that fiscal year is allocated.

"(d) SECURE ENERGY REINVESTMENT PLAN.—

"(1) DEVELOPMENT AND SUBMISSION OF STATE PLANS.—The Governor of each State seeking to receive funds under this section shall prepare, and submit to the Secretary, a Secure Energy Reinvestment Plan describing planned expenditures of funds received under this section. The Governor shall include in the State plan submitted to the Secretary plans prepared by the coastal political subdivisions of the State. The Governor and the coastal political subdivision shall solicit local input and provide for public participation in the development of the State plan. In describing the planned expenditures, the State and coastal political subdivisions shall include only items that are uses authorized under subsection (e).

"(2) APPROVAL OR DISAPPROVAL.—

"(A) IN GENERAL.—The Secretary may not disburse funds to a State or coastal political subdivision of a State under this section before the date the State has an approved plan. The Secretary shall approve a Secure Energy Reinvestment Plan submitted by a State under paragraph (1) if the Secretary determines that the expenditures provided for in the plan are uses authorized under subsection (e), and that the plan contains each of the following:

"(i) The name of the State agency that will have the authority to represent and act for the State in dealing with the Secretary for purposes of this section.

"(ii) A program for the implementation of the plan, that (I) has as a goal improving the environment, (II) has as a goal addressing the impacts of oil and gas production from the outer Continental Shelf, and (III) includes a description of how the State and coastal political subdivisions of the State will evaluate the effectiveness of the plan.

"(iii) Certification by the Governor that ample opportunity has been accorded for public participation in the development and revision of the plan.

"(iv) Measures for taking into account other relevant Federal resources and programs. The plan shall be correlated so far as practicable with other State, regional, and local plans.

"(v) For any State for which the ratio determined under subsection (c)(2)(A)(i) or (c)(2)(A)(ii), as appropriate, expressed as a percentage, exceeds 25 percent, a plan to spend not less than 30 percent of the total funds provided under this section each fiscal year to that State and appropriate coastal political subdivisions, to address the socioeconomic or environmental impacts identified in the plan that remain significant or progressive after implementation of mitigation measures identified in the most current environmental impact statement (as of the date of the enactment of this clause) required under the National Environmental Protection Act of 1969 for lease sales under this Act.

"(vi) A plan to utilize at least one-half of the funds provided pursuant to subsection (c)(2)(B), and a portion of other funds provided to such State under this section, on programs or projects that are coordinated and conducted in partnership between the State and coastal political subdivision.

"(B) PROCEDURE AND TIMING.—The Secretary shall approve or disapprove each plan submitted in accordance with this subsection within 90 days after its submission.

"(3) AMENDMENT OR REVISION.—Any amendment to or revision of an approved plan shall be prepared and submitted in accordance with the requirements under this paragraph for the submittal of plans, and shall be approved or disapproved by the Secretary in accordance with paragraph (2)(B).

"(e) AUTHORIZED USES.—A Coastal Energy State, and a coastal political subdivision of such a State, shall use amounts paid under this section (including any such amounts deposited into a trust fund administered by the State or coastal political subdivision dedicated to uses consistent with this subsection), in compliance with Federal and State law and the approved plan of the State, only for one or more of the following purposes:

"(1) Projects and activities, including educational activities, for the conservation, protection, or restoration of coastal areas including wetlands.

"(2) Mitigating damage to, or the protection of, fish, wildlife, or natural resources.

"(3) To the extent of such sums as are considered reasonable by the Secretary, planning assistance and administrative costs of complying with this section.

"(4) Implementation of federally approved plans or programs for marine, coastal, subsidence, or conservation management or for protection of resources from natural disasters.

"(5) Mitigating impacts of outer Continental Shelf activities through funding onshore infrastructure and public service needs.

"(f) COMPLIANCE WITH AUTHORIZED USES.—If the Secretary determines that an expenditure of an amount made by a Coastal Energy State or coastal political subdivision is not in accordance with the approved plan of the State (including the plans of coastal political subdivisions included in such plan), the Secretary shall not disburse any further amounts under this section to that Coastal Energy State or coastal political subdivision until—

"(1) the amount is repaid to the Secretary; or

"(2) the Secretary approves an amendment to the plan that authorizes the expenditure.

"(g) ARBITRATION OF STATE AND LOCAL DISPUTES.—The Secretary may require, as a condition of any payment under this section, that a State or coastal political subdivision in a State must submit to arbitration—

"(1) any dispute between the State or coastal political subdivision (or both) and the Secretary regarding implementation of this section; and

"(2) any dispute between the State and political subdivision regarding implementation of this section, including any failure to include, in the plan submitted by the State for purposes of subsection (d), any spending plan of the coastal political subdivision.

"(h) ADMINISTRATIVE EXPENSES.—Of amounts in the Fund each fiscal year, the Secretary may use up to one-half of one percent for the administrative costs of implementing this section.

"(i) FUNDING FOR CONSORTIUM.—

"(1) IN GENERAL.—Of amounts deposited into the Fund in each fiscal year 2004 through 2013, 2 percent shall be available to the Secretary of the Interior to provide funding for the Coastal Restoration and Enhancement through Science and Technology program.

"(2) TREATMENT.—Any amount available under this subsection for a fiscal year shall, for purposes of determining the amount appropriated under any other provision of law that authorizes appropriations to carry out the program referred to in paragraph (1), be treated as appropriated under that other provision.

"(j) DISPOSITION OF FUNDS.—A Coastal Energy State or coastal political subdivision may use funds provided to such entity under this section, subject to subsection (e), for any payment that is eligible to be made with funds provided to States under section 35 of the Mineral Leasing Act (30 U.S.C. 191).

"(k) REPORTS.—Each fiscal year following a fiscal year in which a Coastal Energy State or coastal political subdivision of a Coastal Energy State receives funds under this section, the Governor of the Coastal Energy State, in coordination with such State's coastal political subdivisions, shall account for all funds so received for the previous fiscal year in a written report to the Secretary. The report shall include, in accordance with regulations prescribed by the Secretary, a description of all projects and activities that received such funds. In order to avoid duplication, such report may incorporate, by reference, any other reports required to be submitted under other provisions of law.

"(l) SIGNS.—The Secretary shall require, as a condition of any allocation of funds provided with amounts made available by this section, that each State and coastal political subdivision shall include on any sign otherwise installed at any site at or near an entrance or public use focal point area for which such funds are used, a statement that the existence or development of the site (or both), as appropriate, is a product of such funds.".

(b) ADDITIONAL AMENDMENTS.—Section 31 of the Outer Continental Shelf Lands Act (43 U.S.C. 1356a) is amended—

(1) by striking subsection (a);

(2) in subsection (c) by striking "For fiscal year 2001, $150,000,000 is" and inserting "Such sums as may be necessary to carry out this section are";

(3) in subsection (d)(1)(B) by striking ", except" and all that follows through the end of the sentence and inserting a period;

(4) by redesignating subsections (b) though (g) in order as subsection (a) through (f); and

(5) by striking "subsection (f)" each place it appears and inserting "subsection (e)".

(c) UTILIZATION OF COASTAL RESTORATION AND ENHANCEMENT THROUGH SCIENCE AND TECHNOLOGY PROGRAM.—

(1) AUTHORIZATION.—The Secretary of the Interior and the Secretary of Commerce may each use the Coastal Restoration and Enhancement through Science and Technology program for the purposes of—

(A) assessing the effects of coastal habitat restoration techniques;

(B) developing improved ecosystem modeling capabilities for improved predictions of coastal conditions and habitat change and for developing new technologies for restoration activities; and

(C) identifying economic options to address socioeconomic consequences of coastal degradation.

(2) CONDITION.—The Secretary of the Interior, in consultation with the Secretary of Commerce, shall ensure that the program—

(A) establishes procedures designed to avoid duplicative activities among Federal agencies and entities receiving Federal funds;

(B) coordinates with persons involved in similar activities; and

(C) establishes a mechanism to collect, organize, and make available information and findings on coastal restoration.

(3) REPORT.—Not later than September 30, 2008, the Secretary of the Interior, in consultation with the Secretary of Commerce, shall transmit a report to the Congress on the effectiveness of any Federal and State restoration efforts conducted pursuant to this subsection and make recommendations to improve coordinated coastal restoration efforts.

(4) FUNDING.—For each of fiscal years 2004 through 2013, there is authorized to be appropriated to the Secretary $10,000,000 to carry out activities under this subsection.

Subtitle C—Reforms to the Board of Directors of the Tennessee Valley Authority

SEC. 1431. CHANGE IN COMPOSITION, OPERATION, AND DUTIES OF THE BOARD OF DIRECTORS OF THE TENNESSEE VALLEY AUTHORITY.

The Tennessee Valley Authority Act of 1933 (16 U.S.C. 831 et seq.) is amended by striking section 2 and inserting the following:

"SEC. 2. MEMBERSHIP, OPERATION, AND DUTIES OF THE BOARD OF DIRECTORS.

"(a) MEMBERSHIP.—

"(1) APPOINTMENT.—The Board of Directors of the Corporation (referred to in this Act as the 'Board') shall be composed of 9 members appointed by the President by and with the advice and consent of the Senate, at least 5 of whom shall be a legal resident of a State any part of which is in the service area of the Corporation.

"(2) CHAIRMAN.—The members of the Board shall select 1 of the members to act as chairman of the Board.

"(b) QUALIFICATIONS.—To be eligible to be appointed as a member of the Board, an individual—

"(1) shall be a citizen of the United States;

"(2) shall have management expertise relative to a large for-profit or nonprofit corporate, government, or academic structure;

"(3) shall not be an employee of the Corporation; and

"(4) shall make full disclosure to Congress of any investment or other financial interest that the individual holds in the energy industry.

"(c) RECOMMENDATIONS.—In appointing members of the Board, the President shall—

"(1) consider recommendations from such public officials as—

"(A) the Governors of States in the service area;

"(B) individual citizens;

"(C) business, industrial, labor, electric power distribution, environmental, civic, and service organizations; and

"(D) the congressional delegations of the States in the service area; and

"(2) seek qualified members from among persons who reflect the diversity, including the geographical diversity, and needs of the service area of the Corporation.

"(d) TERMS.—

"(1) IN GENERAL.—A member of the Board shall serve a term of 5 years. A member of the Board whose term has expired may continue to serve after the member's term has expired until the date on which a successor takes office, except that the member shall not serve beyond the end of the session of Congress in which the term of the member expires.

"(2) VACANCIES.—A member appointed to fill a vacancy on the Board occurring before the expiration of the term for which the predecessor of the member was appointed shall be appointed for the remainder of that term.

"(e) QUORUM.—

"(1) IN GENERAL.—Five of the members of the Board shall constitute a quorum for the transaction of business.

"(2) VACANCIES.—A vacancy on the Board shall not impair the power of the Board to act.

"(f) COMPENSATION.—

"(1) IN GENERAL.—A member of the Board shall be entitled to receive—

"(A) a stipend of—

"(i) $45,000 per year; or

"(ii)(I) in the case of the chairman of any committee of the Board created by the Board, $46,000 per year; or

"(II) in the case of the chairman of the Board, $50,000 per year; and

"(B) travel expenses, including per diem in lieu of subsistence, in the same manner as persons employed intermittently in Government service under section 5703 of title 5, United States Code.

"(2) ADJUSTMENTS IN STIPENDS.—The amount of the stipend under paragraph (1)(A)(i) shall be adjusted by the same percentage, at the same time and manner, and subject to the same limitations as are applicable to adjustments under section 5318 of title 5, United States Code.

"(g) DUTIES.—

"(1) IN GENERAL.—The Board shall—

"(A) establish the broad goals, objectives, and policies of the Corporation that are appropriate to carry out this Act;

"(B) develop long-range plans to guide the Corporation in achieving the goals, objectives, and policies of the Corporation and provide assistance to the chief executive officer to achieve those goals, objectives, and policies;

"(C) ensure that those goals, objectives, and policies are achieved;

"(D) approve an annual budget for the Corporation;

"(E) adopt and submit to Congress a conflict-of-interest policy applicable to members of the Board and employees of the Corporation;

"(F) establish a compensation plan for employees of the Corporation in accordance with subsection (i);

"(G) approve all compensation (including salary or any other pay, bonuses, benefits, incentives, and any other form of remuneration) of all managers and technical personnel that report directly to the chief executive officer (including any adjustment to compensation);

"(H) ensure that all activities of the Corporation are carried out in compliance with applicable law;

"(I) create an audit committee, composed solely of Board members independent of the management of the Corporation, which shall—

"(i) in consultation with the inspector general of the Corporation, recommend to the Board an external auditor;

"(ii) receive and review reports from the external auditor of the Corporation and inspector general of the Corporation; and

"(iii) make such recommendations to the Board as the audit committee considers necessary;

"(J) create such other committees of Board members as the Board considers to be appropriate;

"(K) conduct such public hearings as it deems appropriate on issues that could have a substantial effect on—

"(i) the electric ratepayers in the service area; or

"(ii) the economic, environmental, social, or physical well-being of the people of the service area;

"(L) establish the electricity rates charged by the Corporation; and

"(M) engage the services of an external auditor for the Corporation.

"(2) MEETINGS.—The Board shall meet at least 4 times each year.

"(h) CHIEF EXECUTIVE OFFICER.—

"(1) APPOINTMENT.—The Board shall appoint a person to serve as chief executive officer of the Corporation.

"(2) QUALIFICATIONS.—

"(A) IN GENERAL.—To serve as chief executive officer of the Corporation, a person—

"(i) shall have senior executive-level management experience in large, complex organizations;

"(ii) shall not be a current member of the Board or have served as a member of the Board within 2 years before being appointed chief executive officer; and

"(iii) shall comply with the conflict-of-interest policy adopted by the Board.

"(B) EXPERTISE.—In appointing a chief executive officer, the Board shall give particular consideration to appointing an individual with expertise in the electric industry and with strong financial skills.

"(3) TENURE.—The chief executive officer shall serve at the pleasure of the Board.

"(i) COMPENSATION PLAN.—

"(1) IN GENERAL.—The Board shall approve a compensation plan that specifies all compensation (including salary or any other pay, bonuses, benefits, incentives, and any other form of remuneration) for the chief executive officer and employees of the Corporation.

"(2) ANNUAL SURVEY.—The compensation plan shall be based on an annual survey of the prevailing compensation for similar positions in private industry, including engineering and electric utility companies, publicly owned electric utilities, and Federal, State, and local governments.

"(3) CONSIDERATIONS.—The compensation plan shall provide that education, experience, level of responsibility, geographic differences, and retention and recruitment needs will be taken into account in determining compensation of employees.

"(4) POSITIONS AT OR BELOW LEVEL IV.—The chief executive officer shall determine the salary and benefits of employees whose annual salary is not greater than the annual rate payable for positions at level IV of the Executive Schedule under section 5315 of title 5, United States Code.

"(5) POSITIONS ABOVE LEVEL IV.—On the recommendation of the chief executive officer, the Board shall approve the salaries of employees whose annual salaries would be in excess of the annual rate payable for positions at level IV of the Executive Schedule under section 5315 of title 5, United States Code.".

SEC. 1432. CHANGE IN MANNER OF APPOINTMENT OF STAFF.

Section 3 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831b) is amended—

(1) by striking the first undesignated paragraph and inserting the following:

"(a) APPOINTMENT BY THE CHIEF EXECUTIVE OFFICER.—The chief executive officer shall appoint, with the advice and consent of the Board, and without regard to the provisions of the civil service laws applicable to officers and employees of the United States, such managers, assistant managers, officers, employees, attorneys, and agents as are necessary for the transaction of the business of the Corporation."; and

(2) by striking "All contracts" and inserting the following:

"(b) WAGE RATES.—All contracts".

SEC. 1433. CONFORMING AMENDMENTS.

(a) The Tennessee Valley Authority Act of 1933 (16 U.S.C. 831 et seq.) is amended—

(1) by striking "board of directors" each place it appears and inserting "Board of Directors"; and

(2) by striking "board" each place it appears and inserting "Board".

(b) Section 9 of the Tennessee Valley Authority Act of 1933 (16 U.S.C. 831h) is amended—

(1) by striking "The Comptroller General of the United States shall audit" and inserting the following:

"(c) AUDITS.—The Comptroller General of the United States shall audit"; and

(2) by striking "The Corporation shall determine" and inserting the following:

"(d) ADMINISTRATIVE ACCOUNTS AND BUSINESS DOCUMENTS.—The Corporation shall determine".

(c) Title 5, United States Code, is amended—

(1) in section 5314, by striking "Chairman, Board of Directors of the Tennessee Valley Authority."; and

(2) in section 5315, by striking "Members, Board of Directors of the Tennessee Valley Authority.".

SEC. 1434. APPOINTMENTS; EFFECTIVE DATE; TRANSITION.

(a) APPOINTMENTS.—

(1) IN GENERAL.—As soon as practicable after the date of enactment of this Act, the President shall submit to the Senate nominations of 6 persons to serve as members of the Board of Directors of the Tennessee Valley Authority in addition to the members serving on the date of enactment of this Act.

(2) INITIAL TERMS.—Notwithstanding section 2(d) of the Tennessee Valley Authority Act of 1933 (as amended by this subtitle), in making the appointments under paragraph (1), the President shall appoint—

(A) 2 members for a term to expire on May 18, 2006;

(B) 2 members for a term to expire on May 18, 2008; and

(C) 2 members for a term to expire on May 18, 2010.

(b) EFFECTIVE DATE.—The amendments made by this section and sections 1431, 1432, and 1433 take effect on the later of the date on which at least 3 persons nominated under subsection (a) take office or May 18, 2005.

(c) SELECTION OF CHAIRMAN.—The Board of Directors of the Tennessee Valley Authority shall select 1 of the members to act as chairman of the Board not later than 30 days after the effective date of this section.

(d) CONFLICT-OF-INTEREST POLICY.—The Board of Directors of the Tennessee Valley Authority shall adopt and submit to Congress a conflict-of-interest policy, as required by section 2(g)(1)(E) of the Tennessee Valley Authority Act of 1933 (as amended by this subtitle), as soon as practicable after the effective date of this section.

(e) TRANSITION.—A person who is serving as a member of the board of directors of the Tennessee Valley Authority on the date of enactment of this Act—

(1) shall continue to serve until the end of the current term of the member; but

(2) after the effective date specified in subsection (b), shall serve under the terms of the Tennessee Valley Authority Act of 1933 (as amended by this subtitle); and

(3) may not be reappointed.

Subtitle D—Other Provisions

SEC. 1441. CONTINUATION OF TRANSMISSION SECURITY ORDER.

Department of Energy Order No. 202-03-2, issued by the Secretary of Energy on August 28, 2003, shall remain in effect unless rescinded by Federal statute.

SEC. 1442. REVIEW OF AGENCY DETERMINATIONS.

Section 7 of the Natural Gas Act (15 U.S.C. 717f) is amended by adding at the end the following:

“(i)(1) The United States Court of Appeals for the District of Columbia Circuit shall have original and exclusive jurisdiction over any civil action—

“(A) for review of any order or action of any Federal or State administrative agency or officer to issue, condition, or deny any permit, license, concurrence, or approval issued under authority of any Federal law, other than the Coastal Zone Management Act of 1972 (16 U.S.C. 1451 et seq.), required for the construction of a natural gas pipeline for which a certificate of public convenience and necessity is issued by the Commission under this section;

“(B) alleging unreasonable delay by any Federal or State administrative agency or officer in entering an order or taking other action described in subparagraph (A); or

“(C) challenging any decision made or action taken under this subsection.

“(2)(A) If the Court finds that the order, action, or failure to act is not consistent with the public convenience and necessity (as determined by the Commission under this section), or would prevent the construction and operation of natural gas facilities authorized by the certificate of public convenience and necessity, the permit, license, concurrence, or approval that is the subject of the order, action, or failure to act shall be deemed to have been issued subject to any conditions set forth in the reviewed order or action that the Court finds to be consistent with the public convenience and necessity.

“(B) For purposes of paragraph (1)(B), the failure of an agency or officer to issue any such permit, license, concurrence, or approval within the later of 1 year after the date of filing of an application for the permit, license, concurrence, or approval or 60 days after the date of issuance of the certificate of public convenience and necessity under this section, shall be considered to be unreasonable delay unless the Court, for good cause shown, determines otherwise.

“(C) The Court shall set any action brought under paragraph (1) for expedited consideration.”.

SEC. 1443. ATTAINMENT DATES FOR DOWNWIND OZONE NONATTAINMENT AREAS.

Section 181 of the Clean Air Act (42 U.S.C.7511) is amended by adding the following new subsection at the end thereof:

“(d) EXTENDED ATTAINMENT DATE FOR CERTAIN DOWNWIND AREAS.—

“(1) DEFINITIONS.—(A) The term ‘upwind area’ means an area that—

“(i) significantly contributes to nonattainment in another area, hereinafter referred to as a ‘downwind area’; and

“(ii) is either—

“(I) a nonattainment area with a later attainment date than the downwind area, or

“(II) an area in another State that the Administrator has found to be significantly contributing to nonattainment in the downwind area in violation of section 110(a)(2)(D) and for which the Administrator has established requirements through notice and comment rulemaking to eliminate the emissions causing such significant contribution.

“(B) The term ‘current classification’ means the classification of a downwind area under this section at the time of the determination under paragraph (2).

“(2) EXTENSION.—If the Administrator—

“(A) determines that any area is a downwind area with respect to a particular national ambient air quality standard for ozone; and

“(B) approves a plan revision for such area as provided in paragraph (3) prior to a reclassification under subsection (b)(2)(A),

the Administrator, in lieu of such reclassification, shall extend the attainment date for such downwind area for such standard in accordance with paragraph (5).

“(3) REQUIRED APPROVAL.—In order to extend the attainment date for a downwind area under this subsection, the Administrator must approve a revision of the applicable implementation plan for the downwind area for such standard that—

“(A) complies with all requirements of this Act applicable under the current classification of the downwind area, including any requirements applicable to the area under section 172(c) for such standard; and

“(B) includes any additional measures needed to demonstrate attainment by the extended attainment date provided under this subsection.

“(4) PRIOR RECLASSIFICATION DETERMINATION.—If, no more than 18 months prior to the date of enactment of this subsection, the Administrator made a reclassification determination under subsection (b)(2)(A) for any downwind area, and the Administrator approves the plan revision referred to in paragraph (3) for such area within 12 months after the date of enactment of this subsection, the reclassification shall be withdrawn and the attainment date extended in accordance with paragraph (5) upon such approval. The Administrator shall also withdraw a reclassification determination under subsection (b)(2)(A) made after the date of enactment of this subsection and extend the attainment date in accordance with paragraph (5) if the Administrator approves the plan revision referred to in paragraph (3) within 12 months of the date the reclassification determination under subsection (b)(2)(A) is issued. In such instances the ‘current classification’ used for evaluating the revision of the applicable implementation plan under paragraph (3) shall be the classification of the downwind area under this section immediately prior to such reclassification.

“(5) EXTENDED DATE.—The attainment date extended under this subsection shall provide for attainment of such national ambient air quality standard for ozone in the downwind area as expeditiously as practicable but no later than the date on which the last reductions in pollution transport necessary for attainment in the downwind area are required to be achieved by the upwind area or areas.”.

SEC. 1444. ENERGY PRODUCTION INCENTIVES

(a) IN GENERAL.—A State may provide to any entity—

(1) a credit against any tax or fee owed to the State under a State law, or

(2) any other tax incentive,

determined by the State to be appropriate, in the amount calculated under and in accordance with a formula determined by the State, for production described in subsection (b) in the State by the entity that receives such credit or such incentive.

(b) ELIGIBLE ENTITIES.—Subsection (a) shall apply with respect to the production in the State of—

(1) electricity from coal mined in the State and used in a facility, if such production meets all applicable Federal and State laws and if such facility uses scrubbers or other forms of clean coal technology,

(2) electricity from a renewable source such as wind, solar, or biomass, or

(3) ethanol.

(c) EFFECT ON INTERSTATE COMMERCE—Any action taken by a State in accordance with this section with respect to a tax or fee payable, or incentive applicable, for any period beginning after the date of the enactment of this Act shall—

(1) be considered to be a reasonable regulation of commerce; and

(2) not be considered to impose an undue burden on interstate commerce or to otherwise impair, restrain, or discriminate, against interstate commerce.

SEC. 1445. USE OF GRANULAR MINE TAILINGS.

(a) AMENDMENT.—Subtitle F of the Solid Waste Disposal Act (42 U.S.C. 6961 et seq.) is amended by adding at the end the following:

“SEC. 6006. USE OF GRANULAR MINE TAILINGS.

“(a) MINE TAILINGS.—

“(1) IN GENERAL.—Not later than 180 days after the date of enactment of this section, the Administrator, in consultation with the Secretary of Transportation and heads of other Federal agencies, shall establish criteria (including an evaluation of whether to establish a numerical standard for concentration of lead and other hazardous substances) for the safe and environmentally protective use of granular mine tailings from the Tar Creek, Oklahoma Mining District, known as ‘chat’, for—

“(A) cement or concrete projects; and

“(B) transportation construction projects (including transportation construction projects involving the use of asphalt) that are carried out, in whole or in part, using Federal funds.

“(2) REQUIREMENTS.—In establishing criteria under paragraph (1), the Administrator shall consider—

“(A) the current and previous uses of granular mine tailings as an aggregate for asphalt; and

“(B) any environmental and public health risks and benefits derived from the removal, transportation, and use in transportation projects of granular mine tailings.

“(3) PUBLIC PARTICIPATION.—In establishing the criteria under paragraph (1), the Administrator shall solicit and consider comments from the public.

“(4) APPLICABILITY OF CRITERIA.—On the establishment of the criteria under paragraph (1), any use of the granular mine tailings described in paragraph (1) in a transportation project that is carried out, in whole or in part, using Federal funds, shall meet the criteria established under paragraph (1).

“(b) EFFECT OF SECTIONS.—Nothing in this section or section 6005 affects any requirement of any law (including a regulation) in effect on the date of enactment of this section.”.

(b) CONFORMING AMENDMENT.—The table of contents of the Solid Waste Disposal Act (42 U.S.C. prec. 6901) is amended by adding at the end of the items relating to subtitle F the following:

“Sec. 6006. Use of granular mine tailings.”.

TITLE XV—ETHANOL AND MOTOR FUELS

Subtitle A—General Provisions

SEC. 1501. RENEWABLE CONTENT OF MOTOR VEHICLE FUEL.

(a) IN GENERAL.—Section 211 of the Clean Air Act (42 U.S.C. 7545) is amended—

(1) by redesignating subsection (o) as subsection (q); and

(2) by inserting after subsection (n) the following:

“(o) RENEWABLE FUEL PROGRAM.—

“(1) DEFINITIONS.—In this section:

“(A) ETHANOL.—(i) The term ‘cellulosic biomass ethanol’ means ethanol derived from any lignocellulosic or hemicellulosic matter that is available on a renewable or recurring basis, including—

“(I) dedicated energy crops and trees;

“(II) wood and wood residues;

“(III) plants;

“(IV) grasses;

''(V) agricultural residues; and

''(VI) fibers.

''(ii) The term 'waste derived ethanol' means ethanol derived from—

''(I) animal wastes, including poultry fats and poultry wastes, and other waste materials; or

''(II) municipal solid waste.

''(B) RENEWABLE FUEL.—

''(i) IN GENERAL.—The term 'renewable fuel' means motor vehicle fuel that—

''(I)(aa) is produced from grain, starch, oilseeds, or other biomass; or

''(bb) is natural gas produced from a biogas source, including a landfill, sewage waste treatment plant, feedlot, or other place where decaying organic material is found; and

''(II) is used to replace or reduce the quantity of fossil fuel present in a fuel mixture used to operate a motor vehicle.

''(ii) INCLUSION.—The term 'renewable fuel' includes cellulosic biomass ethanol, waste derived ethanol, and biodiesel (as defined in section 312(f) of the Energy Policy Act of 1992 (42 U.S.C. 13220(f)) and any blending components derived from renewable fuel (provided that only the renewable fuel portion of any such blending component shall be considered part of the applicable volume under the renewable fuel program established by this subsection).

''(C) SMALL REFINERY.—The term 'small refinery' means a refinery for which average aggregate daily crude oil throughput for the calendar year (as determined by dividing the aggregate throughput for the calendar year by the number of days in the calendar year) does not exceed 75,000 barrels.

''(2) RENEWABLE FUEL PROGRAM.—

''(A) IN GENERAL.—Not later than 1 year after the enactment of this subsection, the Administrator shall promulgate regulations ensuring that motor vehicle fuel sold or dispensed to consumers in the contiguous United States, on an annual average basis, contains the applicable volume of renewable fuel as specified in subparagraph (B). Regardless of the date of promulgation, such regulations shall contain compliance provisions for refiners, blenders, and importers, as appropriate, to ensure that the requirements of this section are met, but shall not restrict where renewable fuel can be used, or impose any per-gallon obligation for the use of renewable fuel. If the Administrator does not promulgate such regulations, the applicable percentage referred to in paragraph (4), on a volume percentage of gasoline basis, shall be 2.2 in 2005.

''(B) APPLICABLE VOLUME.—

''(i) CALENDAR YEARS 2005 THROUGH 2012.—For the purpose of subparagraph (A), the applicable volume for any of calendar years 2005 through 2012 shall be determined in accordance with the following table:

“Applicable volume of renewable fuel

Calendar year:	**(In billions of gallons)**
2005	3.1
2006	3.3
2007	3.5
2008	3.8
2009	4.1
2010	4.4
2011	4.7
2012	5.0

''(ii) CALENDAR YEAR 2013 AND THEREAFTER.—For the purpose of subparagraph (A), the applicable volume for calendar year 2013 and each calendar year thereafter shall be equal to the product obtained by multiplying—

''(I) the number of gallons of gasoline that the Administrator estimates will be sold or introduced into commerce in the calendar year; and

''(II) the ratio that—

''(aa) 5.0 billion gallons of renewable fuels; bears to

''(bb) the number of gallons of gasoline sold or introduced into commerce in calendar year 2012.

''(3) NON-CONTIGUOUS STATE OPT-IN.—Upon the petition of a non-contiguous State, the Administrator may allow the renewable fuel program established by subtitle A of title XV of the Energy Policy Act of 2003 to apply in such non-contiguous State at the same time or any time after the Administrator promulgates regulations under paragraph (2). The Administrator may promulgate or revise regulations under paragraph (2), establish applicable percentages under paragraph (4), provide for the generation of credits under paragraph (6), and take such other actions as may be necessary to allow for the application of the renewable fuels program in a non-contiguous State.

''(4) APPLICABLE PERCENTAGES.—

''(A) PROVISION OF ESTIMATE OF VOLUMES OF GASOLINE SALES.—Not later than October 31 of each of calendar years 2004 through 2011, the Administrator of the Energy Information Administration shall provide to the Administrator of the Environmental Protection Agency an estimate of the volumes of gasoline that will be sold or introduced into commerce in the United States during the following calendar year.

''(B) DETERMINATION OF APPLICABLE PERCENTAGES.—

''(i) IN GENERAL.—Not later than November 30 of each of the calendar years 2004 through 2011, based on the estimate provided under subparagraph (A), the Administrator shall determine and publish in the Federal Register, with respect to the following calendar year, the renewable fuel obligation that ensures that the requirements of paragraph (2) are met.

''(ii) REQUIRED ELEMENTS.—The renewable fuel obligation determined for a calendar year under clause (i) shall—

''(I) be applicable to refiners, blenders, and importers, as appropriate;

''(II) be expressed in terms of a volume percentage of gasoline sold or introduced into commerce; and

''(III) subject to subparagraph (C)(i), consist of a single applicable percentage that applies to all categories of persons specified in subclause (I).

''(C) ADJUSTMENTS.—In determining the applicable percentage for a calendar year, the Administrator shall make adjustments—

''(i) to prevent the imposition of redundant obligations to any person specified in subparagraph (B)(ii)(I); and

''(ii) to account for the use of renewable fuel during the previous calendar year by small refineries that are exempt under paragraph (11).

''(5) EQUIVALENCY.—For the purpose of paragraph (2), 1 gallon of either cellulosic biomass ethanol or waste derived ethanol—

''(A) shall be considered to be the equivalent of 1.5 gallon of renewable fuel; or

''(B) if the cellulostic biomass ethanol or waste derived ethanol is derived from agricultural residue or is an agricultural byproduct (as that term is used in section 919 of the Energy Policy Act of 2003), shall be considered to be the equivalent of 2.5 gallons of renewable fuel.

''(6) CREDIT PROGRAM.—

''(A) IN GENERAL.—The regulations promulgated to carry out this subsection shall provide for the generation of an appropriate amount of credits by any person that refines, blends, or imports gasoline that contains a quantity of renewable fuel that is greater than the quantity required under paragraph (2). Such regulations shall provide for the generation of an appropriate amount of credits for biodiesel fuel. If a small refinery notifies the Administrator that it waives the exemption provided paragraph (11), the regulations shall provide for the generation of credits by the small refinery beginning in the year following such notification.

''(B) USE OF CREDITS.—A person that generates credits under subparagraph (A) may use the credits, or transfer all or a portion of the credits to another person, for the purpose of complying with paragraph (2).

''(C) LIFE OF CREDITS.—A credit generated under this paragraph shall be valid to show compliance—

''(i) in the calendar year in which the credit was generated or the next calendar year; or

''(ii) in the calendar year in which the credit was generated or next two consecutive calendar years if the Administrator promulgates regulations under paragraph (7).

''(D) INABILITY TO PURCHASE SUFFICIENT CREDITS.—The regulations promulgated to carry out this subsection shall include provisions allowing any person that is unable to generate or purchase sufficient credits to meet the requirements under paragraph (2) to carry forward a renewable fuel deficit provided that, in the calendar year following the year in which the renewable fuel deficit is created, such person shall achieve compliance with the renewable fuel requirement under paragraph (2), and shall generate or purchase additional renewable fuel credits to offset the renewable fuel deficit of the previous year.

''(7) SEASONAL VARIATIONS IN RENEWABLE FUEL USE.—

''(A) STUDY.—For each of the calendar years 2005 through 2012, the Administrator of the Energy Information Administration shall conduct a study of renewable fuels blending to determine whether there are excessive seasonal variations in the use of renewable fuels.

''(B) REGULATION OF EXCESSIVE SEASONAL VARIATIONS.—If, for any calendar year, the Administrator of the Energy Information Administration, based on the study under subparagraph (A), makes the determinations specified in subparagraph (C), the Administrator shall promulgate regulations to ensure that 35 percent or more of the quantity of renewable fuels necessary to meet the requirement of paragraph (2) is used during each of the periods specified in subparagraph (D) of each subsequent calendar year.

''(C) DETERMINATIONS.—The determinations referred to in subparagraph (B) are that—

''(i) less than 35 percent of the quantity of renewable fuels necessary to meet the requirement of paragraph (2) has been used during one of the periods specified in subparagraph (D) of the calendar year;

''(ii) a pattern of excessive seasonal variation described in clause (i) will continue in subsequent calendar years; and

''(iii) promulgating regulations or other requirements to impose a 35 percent or more seasonal use of renewable fuels will not prevent or interfere with the attainment of national ambient air quality standards or significantly increase the price of motor fuels to the consumer.

''(D) PERIODS.—The two periods referred to in this paragraph are—

''(i) April through September; and

''(ii) January through March and October through December.

''(E) EXCLUSIONS.—Renewable fuels blended or consumed in 2005 in a State which has received a waiver under section 209(b) shall not be included in the study in subparagraph (A).

''(8) WAIVERS.—

''(A) IN GENERAL.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, may waive the requirement of paragraph (2) in whole or in part on petition by one or more States by reducing the national quantity of renewable fuel required under this subsection—

''(i) based on a determination by the Administrator, after public notice and opportunity for *comment, that implementation of the requirement would severely harm the economy or environment of a State, a region, or the United States; or*

"(ii) based on a determination by the Administrator, after public notice and opportunity for comment, that there is an inadequate domestic supply or distribution capacity to meet the requirement.

"(B) PETITIONS FOR WAIVERS.—The Administrator, in consultation with the Secretary of Agriculture and the Secretary of Energy, shall approve or disapprove a State petition for a waiver of the requirement of paragraph (2) within 90 days after the date on which the petition is received by the Administrator.

"(C) TERMINATION OF WAIVERS.—A waiver granted under subparagraph (A) shall terminate after 1 year, but may be renewed by the Administrator after consultation with the Secretary of Agriculture and the Secretary of Energy.

"(9) STUDY AND WAIVER FOR INITIAL YEAR OF PROGRAM.—Not later than 180 days after the enactment of this subsection, the Secretary of Energy shall complete for the Administrator a study assessing whether the renewable fuels requirement under paragraph (2) will likely result in significant adverse consumer impacts in 2005, on a national, regional, or State basis. Such study shall evaluate renewable fuel supplies and prices, blendstock supplies, and supply and distribution system capabilities. Based on such study, the Secretary shall make specific recommendations to the Administrator regarding waiver of the requirements of paragraph (2), in whole or in part, to avoid any such adverse impacts. Within 270 days after the enactment of this subsection, the Administrator shall, consistent with the recommendations of the Secretary, waive, in whole or in part, the renewable fuels requirement under paragraph (2) by reducing the national quantity of renewable fuel required under this subsection in 2005. This paragraph shall not be interpreted as limiting the Administrator's authority to waive the requirements of paragraph (2) in whole, or in part, under paragraph (8) or paragraph (10), pertaining to waivers.

"(10) ASSESSMENT AND WAIVER.—The Administrator, in consultation with the Secretary of Energy and the Secretary of Agriculture, shall evaluate the requirement of paragraph (2) and determine, prior to January 1, 2007, and prior to January 1 of any subsequent year in which the applicable volume of renewable fuel is increased under paragraph (2)(B), whether the requirement of paragraph (2), including the applicable volume of renewable fuel contained in paragraph (2)(B) should remain in effect, in whole or in part, during 2007 or any year or years subsequent to 2007. In evaluating the requirement of paragraph (2) and in making any determination under this section, the Administrator shall consider the best available information and data collected by accepted methods or best available means regarding—
